Who fires these things? Who made them? If they knew that they pay, and then say, my son died of this, and I have got a cancer of that, and I pay for it. Yes, you made the bullets, you made the rockets, you tightened the screw. We just ?? … the soul of the soldiers. I will not fire. I will not do this. There is always a solution to it. And as always, it's you who decides.

It's a beautiful things coming out of Iran. Many, many heads of militaries and others, walk ?? and object to it. We're here to defend the borders not to kill our own people. Because they decided, I'm not here to kill. Many soldiers walk away. It's them, they have to decide. They have to decide if they want to be. So many Russian soldiers just put their clothes on and walk away. They don't want to be in that thing.

You have to realize, soldiers are the tools of propaganda by those who want to be, or possess power, and they want. (3:02). If you look at the whole structure of the military, it's a joke. I decide, oh, .. and so I'll call myself general. And you listen to me because I say so, because I've been there longer, or I cheated better to get where I am. Then there's the next one in the same way, till the, what you call it, the boot soldiers come in, which they say, I'm higher than you. Where does the ranking comes in, in the military?

Shouldn't be the rank of military to be by the Soul? I served a nation, I planted the trees. As a soldier I did this. I had an uncle, he passed away, very dear to me. My father's brother. He became a soldier. I remember when I was young, he said, I'm here as a soldier to serve my nation. He has planted over 1 million trees with his division in the whole of the north of Iran. His name is all over the military zones in Tabriz and Northwest of Iran. The man who planted trees. He said, I'm a soldier to serve my nation. He used to come home, and the soldiers bring home sacks of seeds of trees, that they used to take to different mountains and hills, just to plant. He always said, this is how a soldier should be, to serve his nation, to be better. Since when I go, people go to the forest and they enjoy what I planted 30 - 40 years later. (3:04). That's what we need as soldiers, and our military don't do that.

It takes the elevation of the understanding. That's the job of Universal Council, and now Satellite Souls, which are coming in the back to support.

Any other question?

Q: .. How long to leave seeds, say in, CO_2 and amino, just to give a boost to the seed without bringing the plant back in time. In other words without regressing it too far?

K- It's used in the farming. People who use in their farm they use in all ?? sorts. Xiao Jing in China .. does a lot of farming processes for the Keshe Foundation where we do these huge lands and these things. And he has his own way of how long to seed, and how to do, and what Gans's he uses with it. But sometimes he doesn't get the Gans's the right way, or the seeds are not what it was supposed to be, you don't get the growth.

You have to understand everything, it's not just as all of you keep on doing, a CO2, and Zinc, and that it, and a CH3. It doesn't work with all the plants, especially .. if they're GMO. GMO plants respond in a different way, application to the normal plants. (3:06). Because they have a jacket on them, there is a change of information, that jacket of information, you have to reach. There's a specific way you have to prepare the Gans's to reach every plant. Knowledge Seekers say just, oh, I put a ?? good for next. You have not understood with the total principle of it.

R: In the last two Plasma Reactor Groups, Gianni has showed some interesting work that he's doing with the farmers, applying Gans's to the crops, as well as showed some pictures, some microscope pictures of the seeds. I think they were wheat seeds. When they were sprayed, for example, the seeds have a totally different look to them, then when they're natural, and get revitalized by the use of the Gans's, and so on.

K- The problem is that, you have to realize, there are different ways of supporting… Why the Gans sometimes doesn't work with you lot? Because the land is more hungrier for energy than the plant. You're feeding the ground. And you say, it didn't work.

You've got to understand how, and why, and the way you use materials. When you put a Gans, if it is a balanced environment, it will stay there for weeks to allow the growth. If you put on the plant is different. If you create an environment for the fields it's different. (3:08).

In many, many cases, we have proven that the, what you call, Nano materials in a specific way, create much bigger harvest, than the Gans's. Because Nano material, in that state energy stays longer. It doesn't matter what the plant takes. But you have to know. When you put metals in the .. garden, in your fields, next year, you'll have a problem, it's contaminated. But you have to know exactly what you do.

We did an experiment some years ago, and it's very interesting when you do these experiments, we had the possibility to do this. We took a copper wire, and we allowed layers, and layers, and layers of Nano materials on it. If you go this way, trying to get the layers off, you have to go one by one. But if you can develop the technology, which we've done, and now Koreans are using it as part of the Keshe Foundation work, to go this way and take this layer off (take the first layer off closest to Cu). Then to go this one. You will find that the minute you touch this, the whole (all layers) disappears. But the interesting thing is, that you'll find your Nano, what you call, Cu has a different structure on this side and this side. It's not the same. (3:10). This has a lot of application if you understand in the world of metallurgy and physics.

Any other question?

Q: .. My question is, through the understanding of genetics and the family tree. Could your plasma technology rejuvenate, or make the heart like new again?
K- He's got the heart problem, doesn't he?
R: It sounds like.

K- Yes, it can be done, but you have to know what you're doing. That's why we keep away from it. It’s the job of the doctors. The heart surgeons who are open to these things they can manipulate a lot, yes.

It can be done now with the new technology, but there are much higher priority for us to understand more of, with the doctors, and the teams and to do and go. I know heart is important, but we'll see.

We are still looking at this, because it's important for us this Parkinson's, Alzheimer's, FM, Fibromyalgia, that kind of thing, people are writing to us, I had operation on my toe, or my stomach hurts, can you do something. (3:12). It's not our job. We categorically put on what we're looking for. If you come with those, we start looking at it, how our doctors will take your time and do what is needed.

Q: .. Is the arrangement of the main formation of elements in the plasma as follows, and he lists some elements Hydrogen, H2, Carbon, Oxygen, Silicon, Phosphorus and Calcium.

K- I don’t know how he made it? One of the best guide if you come to understand the bracketing of the, what you call, periodic tables, and if you go to the patents, we tried to cover it in there, but people don't understand it. One phase to another in balance fields operation, are inert gases. When you start looking at inert gases, what does make one gas, and then elements, and then another inert gas, which means ?? no interaction. These are your division lines.

Helium. Why is a Helium inert gas? The next inert gas, and the number of inert gases, because each section in between, behaves, and has different characteristics, from one inert gas to another. (3:14). Scientists have not understood this.

I always say, they haven't understood, but it needs a lot to understand, and we use this, especially in the physical flight test you need this. You don't need to create element, you just create layers of inert gases, and the fields within it operate in a different way.

If you create a field between this and this, and then you put your higher inert gas in the back, you can do it, there are ways to do it, you go up one, down. You don't need landing gear, because the gravity decides by the interaction of these (different inert gas layers).

They call it centralization, and we use, if you read the original patents on the Keshe Foundation, you'll see, I rely a lot on inert gases, Argon and the rest. Because we understood this very early stages of, we don't need to create a wall and make it different reactors, you create the reactors by the thickness of the gases.

Periodic table should be written in respect to each division, not the way they're doing it now.
Any other question?

We'll put it plasma, what you call, periodic table. It's in the beginning of the patent, (3:16). if you read it, now maybe you understand why we're using inert gases.

R: We read it yesterday in the Plasma Group actually.

K- You've seen it there, the gases, the inert gases very. It's the wall, it's a partition, and you can flow things between them, in a very specific way.

Any other question?

R: Okay, we have a hand up here with Dean, so should hear from him now.
K- He is a regular questioner. Yes Dean.

Q: Dean .. It's great to hear these teachings and see them on the whiteboard. We have many Souls, we have many people that walk through the doors, who have walked through the doors of the Keshe Foundation, with many different beliefs and interpretations of the nature of themselves. How does this technology interact with them and bring about a balance for them with their beliefs? Does it balance a Soul? Does it elevate their Soul? Do they feel a difference? Or are they experiencing it in their life, in this moment?

K- They most probably do, it's a source of fields, it touches you.

It's like, you know, the disaster, not a disaster, the situation we are in with the whole of Keshe Foundation Austria. Half of, or a lot of our females are all pregnant or giving birth. How come, they're only there, and they all suddenly decided, since they came to the Foundation, to get pregnant, and we have a bunch of new babies getting born in next few weeks, and already born in the Keshe Foundation. (3:18). Is it the effect of the Gans's? Is it the emotion of the Soul?

Now in Keshe Foundation we have number of our staff on maternity leaves. Actually we are expecting one to be born any day now. We have one coming, and one has been born, and one is on the way, on the line, and all sorts of things happening everywhere. Is this the touch of the Gans's? Do the ??. Will touch, without the shadow of a doubt, it's a free range. And see.

Proofed to Here >>

It's very interesting, you know, when you walk upstairs in the bottles, some of the bottles have already lost it, there is just a little bit left at the bottom. It shows the visitors are desperate for ?? (those energies). I was looking at them a couple of days ago. Some of the Gans's are just, more or less, water. The Gans's has gone out of them, because people are taking their energy from them. When you go through walking with Mario in teaching, the all walk around, sit around, or whatever, talk around these Gans's. You can imagine, I was walking, I said, "uh, these people here are shorter of this and that, and they need to be refilled. Yes, we somehow will reach something they need.

Q: I've noticed that Mr. Keshe, when you have an emotion, a condition where you need some energy, or something, then the Gans's do drain out of the containers, and the water does disappears, then you have to top it up. So that does respond, to understand more.

K- I'm doing an experiment in the flight system in this respect. Actually, I was doing it yesterday, I was checking it. (3:20). The room temperature is exactly, you know the table in the back where, the black table, the two glasses with a specific Gans mixture with the water, has been left for nearly a few weeks in the same position. One is near to the unit on the left, one is near the unit to the right. The unit which is, gets, and receives and takes, the water level hasn't changed, it's in balance. It has been exactly the way it's been for weeks.

The one which is on the right as you go in, the water, literally, I have keep .. I topped it up yesterday. And they had the same amount of water. The unit on the left is the one which receives and gives, so it's always in balance, it doesn't need much from the cup. The one on the right, which can receive and cannot give, is the one which depletes all the time from the Gans's and water. ?? .. are exactly the same.

Q: So, this leads on Mr. Keshe to, sorry, this leads on Mr. Keshe, to a question about the human body then. So, would the human body respond with the water levels, and the salinity of the body structure?

K- Yeah. Must do. It must do. This is how the groups like McDonald's (American hamburgers) tune that you crave for the food. By, once the salt became part of the added to the minced meat, for example, it's not salt anymore, it's an energy. If that energy gives you energy, you become addicted to it. (3:22). You go to McDonald's all the time. This is how it works. They put a specific amount of salt, which matches the salinity, which matches your saliva, or your imagination, or your memories. And you keep on going to McDonald, you have to have, you crave for it. Because it has found the balance to give that energy (?? back) within.

Q: Interesting Mr. Keshe.

K- Now we have to... You see, we look at life in a very different way, we've been brought up. But when you buy mincemeat, when you mince, or you, let's say, mincemeat, because it's Gans's. So, it has a magnetic field. If you can tune to the right strength of, and put something in it, like the salt or whatever. Now the salt is not salt anymore, it's the field of the salt which matches to the soul or emotion. That's how it works.

It's like spicy foods, like Indian foods. If you get into a rhythm of eating spicy food, your body craves for it. It's worse than drugs, because it stimulates something in the brain. They have proven it. It's worse than cocaine. If you get use to that adrenaline, or the strength, which released by the chili. And it goes for it, it doesn't matter what it is, you have to have it because the body got used to it. It's a cocaine, but it's in the form of chili, addiction. That's why the Indians eat a hotter and hotter, whatever they do. Because it's

part of the cycle of the salt, it's put in, the hot, and you sweat and it's good. Now it becomes part of the gene structure. (3:24). This is how they get us addicted to.

Q: So if we scale this up Mr. Keshe, and take this to the oceans, how are they effecting the totality of the planet with what goes into them?

K- Oceans are still salinity containers. Your salt content in it, which creates, dictates the salinity of Gans's produced, dictates what animal lives in it, more or less. That's all it is. So, when we interfere with it, when we interrupt it, when we change it, we expect changes.

All the chemicals and everything. The study we did for the Italian government with the water problems there. It's amazing how they tried to solve a problem, where actually the problem (means solution) has to come through Plasma Technology. You cannot wash it. You cannot do anything with it. With the plasma we can literally neutralize. That's all it is.

Q: This condition only exists in Italy Mr. Keshe? It doesn't exist anywhere else?

K- Oh yes, it does, it exists in number of countries. In China heavily, in United States. It's in number of third world countries where they close their eyes and allow these things to be dumped afterwards.

If I tell you the name of the company, most probably within half an hour they'll take us off the line (Internet). (3:26). They paid heavy penalties up to now for this. They've been sentenced to a lot of penalties, hundreds, and millions. But they cannot do anything with it, they have contaminated it. The processing in Italy. It is reversal, but it's going to take time to reverse it, and it's one of those situations that nobody can do anything with it.

Q: Mr. Keshe, with the knowledge that you've shared with the Knowledge Seekers, would they have the ability to change these conditions, with the knowledge that they have?

K- Of course. It's how lazy you are to not to use it. That's all (laughs). It doesn't go by my intelligence, or whatever it is. I would not touch. I will not come anywhere near to touch, what you call it, an ounce of Italian olive oil, or anything with Italian wine in it, from certain areas. I have the report, I know, so I'm not talking somebody, that just talks. So, we know the knowledge, we don't touch. When I go to supermarkets, I don't even go near Italian olive oil. I don't go even near the Italian, what you call it, wines.

There are certain areas in United States it's the same. The Chinese ?? got into the vineyards, and they're trying to copy. They are working with the same contamination. India has a certain amount of it. (3:28). We have a lot of these contaminations in where they wash leather. It's catastrophic, but it's part of, what we call, structure, which we all have come through it, and we need to understand it ourselves, in one way or another.

Q: So simple applications that you've taught the Knowledge Seekers, if they apply some of the knowledge into certain areas they could affect large areas, with very small applications of the knowledge.

K- Yes, yes, yes. It can be done, in a very different way. <You have to allow me a second, because one of my system is going down, and I have to go out, just one second, please. Okay. So, we have to switch over system because one is running out of battery. Can you hear me now … >

So, this is the way things are set, and the way they are. We cannot change it. (3:30). I'm sure this is not the only case, there is so much contamination nowadays with the farming, and the whole capuddle of the past was, try to guarantee and sustain food for the nations, and pharmaceuticals, and the others, took the nations for a ride. Nitrogen, nitrites, heavy nitrites, heavy other bits, and it's still going on. It's not going to stop.

One of the worst things with Ukrainian war and Belarus not exporting, what you call it, ash and backbone of fertilizers, we are seeing a lot of chemical companies coming with crazy things, trying to make profit out of this situation. The next generation will tell us how things take shape. Or some of us will do.

Vaccines never tested on Covid - only modifies genes - European Parliament

You have to understand, pharmaceuticals are the most opportunistic groups in the world. You saw how big organizations, saw a chance for the president's to make money, and it became Corona, and injections, and everything. When they brought him to the European Parliament a few weeks ago, they said, we never tested it (the vaccine), this is just for change of genes, it's not for Covid. The head of Pfizer's refused to attend the European questioning board. And the lady who came said, we never tested for Corona.

This vaccination which billions of us took, is genetic modification. But what genes have been changed? Wasn't that the dream of how to control people through Bill Gates game? (3:32). Why billions of us, or millions of us, got injections by two or three brands, which are genetic modification, and not virus protection. But pharmaceuticals made billions. Look at the records in the past years, how much profits ?? (they made).

Q: How does this condition Mr. Keshe, come about, where a whole planet can be locked down through some very wrong intentions?

K- We have to have had education. We have no knowledge about viruses. What you don't know, you're afraid of, and that's what they do with you. Now we know what viruses are, and they don't let the Keshe Foundation to come out, because then they cannot do these, all this rubbish vaccinations, and the rest of it.

The point comes, how we can control it, and what we can control, how much do we understand by the viruses.

Q: You would know a lot about viruses Mr. Keshe. You've spoken many times about the viruses in spaces are many, many orders of magnitude stronger than the viruses we have present here. So, you've talked extensively with One Cup One Life, and many other applications for the treatment of viruses. So, you know how to balance out the condition and drain out this condition.

K- We still get hit ourselves. We still get a flu here. We get a flu there, we just know what to do, it's very easy. I was talking to a couple of Knowledge Seekers in past few hours. (3:34).

A lot of people use chemicals for decontamination using. If you worked in the, what you call it, in the factory where they have wheat, or whatever, they use a lot of chemicals to hold the pests down and everything, and the workers are happy. They just spray, and they've done it for years. What happened is that, the residue from these chemicals used, now sits with the body of the people who did the spraying.

These are metals, which up to now the doctors can't tell us. You know, you use pesticide with aluminum in it, you use sprays with lead in it, and then we see Alzheimer's with these people. We see long problems with these people. We see all sorts of problems, and nerve problems with them. But we don't know, up to now, where they sit. And why so physically effect the body?

Why do you get all sorts of pains, and aches in your body, where you used a pesticide, or to spray something years ago with aluminum in it? Sit and think for one second, how could something I breathed in 30 - 40 years ago, now, it is still effecting me now. (3:36). And it's effecting me physically and emotionally at the same time. Depression, anger, ??.

With the new knowledge, with the new teaching, with the new understanding, it should be obvious, that this material has taken position and is embedded itself somewhere, where it touches both the Soul and the physicality, feeds both of them. Doctors get a scan of your brain, there's nothing in the brain, and it's okay. But you test a blood test for materials, you see, voilá! This is it. But where is it? How does 40 years later it's still so high? But it's not. It's actually, in a way, energy to itself, to the body responses, and creates too.

The only place, there's one place only, where all the contaminations which we take, or has come into our body through the air, can be found. And it's just inside the nose. This is on the passage to feed the physicality, part of the brain, the emotion, and the physical body, the Soul.

In a way, the material as a Gans energy, becomes psychosomatic both, it just feeds the psychological side, and it feeds the somatic side. Up to now, what I explained to you, nobody knows this, this is the first time we disclose this. There are specific places, when you're looking for different contaminations, you have to provide, develop technologies for it. (3:38). You don't need to go to all sorts of tablets, and injections, and suffering, if you know where to look, but what, how much ?? of it (contamination ??) you can take up.

Q: Mr. Keshe, so, humanity has this strange ability to create conditions for itself , that harm itself. We all breathe the same air, and we all share everything that we have on the planet. So, why do we create these conditions for the sake of a few pennies, that make many suffer?

K- Mankind has done that all the time. It's not the first time. It's not the first time. Man always has done one, or the other one, to themselves or to the others.

Q: So when does mankind, the soul of mankind, when does it come to a position where it understands and elevates enough to join the community, the bigger totality, and all the beliefs come together, so that we have this unity between all the nations?
K- Sorry, I accidentally put myself out of the Zoom, can you repeat?
Q: So, why does humanity keep putting itself in this position? Why do we not have a condition where all the nations become as One Nation? (3:40).

K- Gradually, gradually. We started it. Let's see how we perform with this addiction (program). Then how we perform with feeding. How we get response from you Knowledge Seekers in respect of these two children, that we can start supporting genetic mutation. It's humanity, it's not us.

I promise you, none of you will respond. .. You get to that cul-de-sac of, it's somebody else's problem. Or, "I'm okay Jack, I got away with it, or I have it, and that's it."

It was very interesting position in past few days, the, what you call, system of producing materials will change. How are we going to work with no more mining? How we're going to create jobs, life for people who are miners today? The implication of the new test you all came to Linz, to test the flights.

You know, if we are the way we are going, maybe because of the speed of its application, (3:42). in very short time, who wants to go to the airport, and wait, and take a taxi, and go to the rain storm, (airplane) might crash, and take 12 hours door to door. When I can do it in 12 seconds, soul to soul, and be where I want to be.

What's going to happen with all these jobs? What happens to the shipping lines? How are we going to feed all these people who become unemployed through universal revolution? Then how much are we there to support each other to see through this? How many of you will share your food with a miner, who, there's no need for his mining?

The biggest crisis will come when we start putting foods on the lines of the communication of the plasma, Why none of you appears in the supermarket anymore? Who's going to make all these tins, what's going to happen? Would we see people locking up shelves of supermarkets and walking away, because there's no customer? Would our great, great, grandchildren passes these shelves, "oh look, humans used to do this with these plastic and metal things."

This is a reality, it's there, you've made the Gans's, you've made the Cup of Life, you tasted the orange and the rest of it. Now it's just, you don't even need a satellite, you can tune to the Satellite of the Soul of the Knowledge Seekers, you want paracetamol, (3:44). it would be there, you want an apple, it would be there.

Q: This goes back to the original question Mr. Keshe, about touching the soul of the people with all different beliefs and intentions, that have interacted with the knowledge in many different ways, where they've received an emotional gift, a balance, just through touching with this technology that you've brought forward. Also, some have received it in physicality where they've actually touched it through the Gans's, and everything else. So, it's an ongoing evolution of filtering for all of us.

As you said, it's here, the first drop of it, it's already been placed. So, this continuation of the elevation is unstoppable. It's present in this moment, and many have been touched by it.

K- Yeah, but there's just we learn more, we learn more. The more we learn, the more we spread, the more people come up with the experiments and new ways of using it. It all goes down the same line. How it will go and how we will see. We just opened the little, little gap in the door, we still got to open the door of the knowledge of the Universe. We're just getting that little twinkling of the light coming through. The Sun of the knowledge has not hit mankind yet. And it burns you, if you understand it.

Q: I remember you said Mr. Keshe, (3:46). that by the end of 2022 mankind would have a very beautiful position. Do you still feel that this may happen?

K- You have, it depends how you look at it. Today's announcement, today's work, the eradication of addiction, understanding genetic modification for us, release of the fields, all this. This is all there. It's just how mankind does it. How they will accept it, and how they change it. It's a glorious time, 2022 the change has come, but people don't understand.

R: I tell you one change that I've heard on the radio recently, is that they're putting out repeated ads for a class action lawsuit, for anyone that's worked for Boeing, Raytheon, or any other aircraft company, or other manufacturers, that they've had birth defects in their children. They're to apply to this class action lawsuit. And it looks like these manufacturers are going to get hit really seriously…

K- Hammered, hammered by it.

R: And that should liberate funds for just the type of work that you're talking about Mr. Keshe.

K- But you're talking 20 - 30 years, it's not going to happen tomorrow. It's not going to be our generation time. Maybe the next generation. By that time you already got enough Soul travelers, that nobody will consider this, because nobody will get these things.

As I said yesterday, when we put the knowledge compared to the knowledge of today, it's a big vast difference, if you understood. If you understood what is about to come and what is there. (3:48). Then we will run into addition of the knowledge, where we are going to bring more in, for more people to be effected, that we can change more.

We bring so much knowledge, now that we open the Cosmic Rays (CR) and others, that you understand it, that it can be replicated, that it will bring that change. We have to do it, we have no choice.

Q: Mr. Keshe, may I ask, how the team is doing with the Cosmic Rays that are interacting, as they make these conditions? Are you still seeing the beautiful shining Souls being present?

K- I'll be there in the next two or three hours, and I'll tell you next time. I am going in there ?? deep ends , and see what is, what's going on. Every time you go there you get effected by it in different ways. I'm going to dive in and see. You see, they make things, but they don't see it, they don't feel it, some of them do, but they have no understanding what they're doing.

But when you go into this, what I call, environment, you don't need to be sensitive to it, you know you're going to ?? absorb. It's just like, you know, you go to a restaurant is a Chinese, you got an Indian, you've got whatever food, and you only get attracted to the Chinese, and that's the only one you see. You're not interested, curry is too hot for you, the other one is whatever. With me, I like all the food, so I know the taste of all of them. (3:50). So, I see all effects and aspects of the, what you call it, what pleasure you get from each one. This allows you to see more of. Mixing, what it does, if you mix the Chinese with the Indian, let's see what we get. It creates a new condition of information.

When you go into these zones of environments of these kind of massive fields, especially Cosmic Rays, it's an amazing experience. It's just being a child in a candy shop. I'm that child, and the candy shop is huge.

Q: So Mr. Keshe, these beautiful Souls, have you asked them how they see you, if they look back?

K- I don't ask, you feel. Ask is the job of the Man. To feel is the job of the Soul.

It's very interesting, when we had this young boy in the wheelchair in the machine, he was actually flat on his Dad's chest. The father said, I've never seen him relaxed so much. Everything is just, has no meaning to him. He was there. And I asked him, did you go to the Moon? He said, yes, yes! I said, how was it? He said, he was happy, he enjoyed, and the mother translated to us that he felt going to the Moon, he felt it was Moon. This is more important actually, the feeling, the emotion of being there brings you to that position if you want to change the dimension of physicality. That's what it counts, the emotion. (3:52).

Q: This child Mr. Keshe, did he have, obviously I don't know. So, did he have, was this condition from birth? Was it from an accident?

K- No, no, no. It's genetic. When they were born nobody knew, both of them are the same. When the boys were born they were normal. It's just that, they did not walk till, I think, 16 months, with the oldest one. The second one didn't walked till I believe 18 months. Then they start observing other things, and other things, and by the age of five they had to do the test, and they found out it was a genetic, and they know what it is.

In past six months he has gone from walking into a wheelchair, then the process goes to the heart, and all sort of spasms in the arms, and legs and everything else. The second boy is following this ?? exactly the same pattern. Gorgeous children.

When they came to the center, I told them, if you want to go to the Moon, and they were so excited they can go into a space machine. They grabbed it, as there was the, you know, the dream in the cartoons, as I call it. We'll see how they change, how they feel they change. You watch the pattern of psychological behavior inside, what goes on. Let's see what life is, let's see what the changes will bring. But our position is as I call, as it is. (3:54).

Q: .. Is the Micro Plasma Reactor from the patent, set specifically to function within Earth's magnetic field space, or can it work as it has been written, using the radioactive materials such as Potassium or Sodium?
K- What? Repeat, repeat, repeat, please.
Q: Is the Micro Plasma Reactor from the patent set specifically to function within Earth's magnetic field space?
K- No, no.

Q: Or can it work as it has been written using the radioactive materials such as Potassium or Sodium to cascade into the Hydrogen, Neon and Argon, anywhere in the Universe? Or do we need to change the radioactive material to another one, to achieve the same results in another Solar System, or another part of the Universe?

K- When we speak about radioactive material from nuclear physics side, or my nuclear physics side, is the materials which can radiate free energy? Energies that they don't need. That is what we are looking for. (3:56).

When we talk about, change the name… You have, for example, Uranium 237 - 235, and all the isotopes of 239, and you go into Plutonium and the rest of it. These materials on Earth are releasing extra fields we call it, radiation. In other positions in the Universe, they're gravitational, they absorb as much as they can get. They don't behave as a nuclear, as a radiation field source. It's to understand it, in where, and what needs to be done, and how this can be done, in what direction, and what position you want to attain it.

Tritium is not radioactive in 80% of the Universe. Tritium in some Universal Flight System is used as a gravitational, because it's heavy with one neutron. This is the most important thing, this is what we are waiting for, and that's what we are looking for. This is how we will see in the space, (3:58). and what condition it will come to be, and it will be, what you call it, create, and what material you need.

If you look inside the material in the EU. You've been there, you're taking a lot of pictures around it. These units can create composite materials, depends how we set each reactor. This unit can create mono energy material, means you can make 100% pure gold, or you can make an alloy, or whatever you need for whatever.

So, it depends on and how ?? it turns. In what form and shape we will use these materials. A material is not radioactive here, suddenly become radioactive in different conditions. Suddenly it moves on to a non-radioactive, or negative radioactive condition. How we will change this position is part of our work to understand it.

We go through this process in a very, very specific way, that the scientists of the future have to understand it, how to do. (4:00). We call them metallurgists, that they understand different properties of different metals, whatever. But when you bring the metallurgists into nuclear it's a different, even if you are a metallurgists. Now we become "plasma-gists," In a way, we have to understand the behavior of the plasma, how it interacts and the way it interacts.

To change a metallurgists to a plasma, ?? or to understand the effects of plasma to become metal, it's god's work. Because they have their mindset in a specific way, the metallurgists, they can't see you convert energy to matter. It's like the curse of the god.

But would they, and can they see that you can change nuclear radioactive material, even they become metallurgists in nuclear, into energy, used for energy. I've had this battle, since I was in, what you call it, nuclear, as a university student, and the rest of it. It still goes. My brother-in-law is one of the well known international metallurgists in nuclear industry. He published hundreds of papers and ?? done a lot of things. He came to nuclear because when he finished the metallurgists in university, I said, go into nuclear, and then he became a nuclear metallurgists.

I still have a problem to tell him, you know, you can change this and you don't have no nuclear material on the boards of your reactors. He is one of the well know international scientists in nuclear materials. I said one day to him, I can't take you to the other ?? (thoughts), (4:02). your mind is set, you cannot understand the difference between the plasma, and its energies, and conversion of the new nuclear material to a non-nuclear. The way we did in Fukushima, with the introduction of small material we changed the Tritium to Gold, a component which was introduced to Gold.

You can now, if you change that component, become one of the most radioactive materials, where now is Gold, behaves as monatomic. These are the things which

scientists have to understand, and have a very clear cut understanding between the behavior of the plasma as a matter, and behavior of matter as matter.

When you come into Linz, in the Exhibition Center, I deliberately set the first table, or stand you come to. On the left side is a Copper and Zinc, in the middle is the Book, the three books, and on the right side is the Nano coated materials, and then on the next stand immediately is Gans's.

When I have government officials and other people, which I bring exclusively, privately to go through systems, through understanding, I tell them, this is the knowledge of the Man, where the Zinc plates and Copper are. This was our knowledge till ?? last century. This book has brought a new knowledge in how to make the, what we call, Nano coating, Nano material, which is attraction of the molecules to each other to make matter, (4:04). to singularity of atom to be connected to each other. That's all Nano technology is.

And I said, now, the knowledge of the Man finishes at this age, at this stand. This is where we are now. When we go to the next stand, I explained to them, this is now the difference between Nano material, which is, they're stuck together as a collection, to singularity as an energy, which is here, we call it, Gans. Man's knowledge today is at Nano, they have not jumped that gap, to understand energy of the matter. Man history finishes in the first stand.

In the new stand a new life starts. Gans's, there are different Gans's of CO2 gases, and everything else. Then you put them into application. Some of the Gans's on that table, I don't know, Mario is here, I think about 10 - 20 of them, if you combine them together, they become radioactive. If you combine them together they become gravitationally absorbing.

I can change a non-radioactive material within milliseconds to one of most dangerous radioactive materials. I have the knowledge, I've tested it, I know it's there.

So, is radioactive material ?? subject to the understanding of the Man? Or radioactivity is in the position, time, strength, field dependent? (4:06). That's the one of the biggest problems for us scientists in the future. Plasma physicists in the Gans plasma, and the plasma physicists, plasma materialists, and materialists people in the world of science will have a battle with each other. They are all right, but in their own compartment. If we can cross it, you can do wonders.

There are three elements in the second stand of the exhibition, which I can mix and create the most powerful nuclear weapon in the world. They will not even have the material to test it if they come with it. These are radioactive Cosmic level, and Man has no knowledge of it. I'm a master in what I do. You want to create a nuclear explosion anywhere in the world, you don't need Uranium, you just need to understand the characteristics of the plasma, releasing the energy in a specific length, that what you call, neutron starts. Out of nothing, you become massively radioactive source.

And I watch many neutron stars, just disintegrating with the radiation fields of what they have, and what they absorb. So, when you speak about nuclear materials, again it's energy strength, time and position dependent. (4:08).

You have to redefine radioactive as extra energy to be given, dynamic fields available. Then you see every element at a given position becomes dynamically available, in respect to the environment which it ?? is. With one Hydrogen you can make a black hole. But you have to know how to play.

Thank you very much. Hopefully we see you next week. We'll see what the world brings for us.

K- The only announcement is, please support this, with what we're trying to do with, what we call, the genes with these two children are just ?? applied ?? of the new technology and new knowledge. Many of us around the world suffer from these mutations. We see it, if we can ?? prove it. We give it to the other scientists to pick it up. Thank you very much indeed. Thanks for all your time.

461st Knowledge Seekers Workshop; December 1, 2022

(Transcription Proofed)
(Auto transcription from Elias)

Christmas Gift flight package 16th December; T advancing rapidly; Key is expansion of Soul over body - fields cover all cells - into balance; Process of transmutation started - American arrived in Linz outside system by Soul -P later; Cosmic Ray systems 80% complete -needed for Transmutation; Soul has to expand and create envelop - sent over phone lines to destination; All diseases taken care of by Soul; Case study's of T; Soul elevation 1 second; Drug addictions - Parkinson's - etc offered 19th December; This is Change 2022; Creation of emotions; O create M fields and energy in body- important;

ENGLISH TRANSCRIPTION

(:12).

K- Yes, good morning, good day to you. As usual, wherever and whenever you listen to this series of knowledge Seekers of the Keshe Foundation Spaceship Institute. As we always say in sharing knowledge, and maybe technology, and some joys. The Keshe Foundation on the technological part of it is advancing quite rapidly. We are developing,

our team are understanding more, and gradually we are building condition to reach the ultimate goal of what we call, being able to sustain life in every dimension (D) in the space, Earth being included as part of that space.

Earth is not something special in the universe it's like every other, it has its own dimension, it has its own limitations, like everything else we have on this planet. (:14). To this purpose and to this reason, and for what it is. It's not a game, as we heard the Intro, man thinks he is a special. Earth is not a special thing in the universe. It's another condition, it's another interaction of the fields, which has created a condition of a specific type of life we call it human life.

How we interact with it, how we rejoice it, how we understand it, all comes in our personal understanding of our environment. Understanding of the society in our environment. As individuals what we see. I always used to say if you're man who works for a little kiosk, you only see the world through that little hole. When you have a shop you see through the door. When you have a warehouse, you see through the big gate. When things are .. when you're working internationally you see the whole world.

And the same goes with a man we understand according to what we see, and how we, as humans interact with that condition. Sometimes we can imagine, that there's a higher level than that little kiosk, to a shop, and then we try to understand it, the formation of ?? vision. Now we are doing the same man has been in that kiosk, kiosk of man on this planet. And has ?? understanding of what man does on this planet.

So now we're trying to open the man's eye to become, according to his ?? intelligence that shopkeeper to see a bigger space, or a warehouse man, or understand global interaction, or what we call with the U. These things brings, and needs to be understood. It's no use one person teaching, (:16). and nobody else understands, till the time comes to understand, ?? the guy said 100 years ago, such a thing. Now you'll see the news of it. You didn't understood that of the time. Now we're trying to make man to understand the position of that man in the international arena. The universe. You could be a shopkeeper. You could be stall man in the kiosk, or you could be running a warehouse. You still have the mentality of the man in kiosk, just because you're in a bigger ball, bigger gate, does not make that difference. Somehow you accidentally ended up there, which suited you to bring that in.

In this process, we look at how we understand things, and how our team understands and develops accordingly. And how Knowledge Seekers (KS) go through this process. We have two choices. We go back as we done, step by step, bring that ?? in. Or we open up, and let people all become to some sort of a balance of knowing what is available, that they all can be where they are, but they stand the position of the other. Past weeks of teaching and past weeks of what we call, you supporting us on trials and tests and others, has brought us to that crucial point.

Yesterday for the first time, we started the transmutation process. As you know, every success comes on step by step. It doesn't come in one jump, and that's it. If you get it in

one jump, and you don't understand it, the failure, comes in the future. We're trying to understand, and we're trying to start a process. (:18).

Yesterday with the person who's part of the Keshe Foundation (KF) and is the first man to be transmuted. We started the first process of transmutation, and confirmation of transmutation. It's not easy, especially if you have to transmute across United States to Austria.

We're building it step by steps of this. We are building a position of, not only us trying to understand, but we try to ?? nation, that the passenger understands what is gong on. The understanding of "no limitation." We bring the Soul through the system. We bring the physicality (P) through the system, but then the Soul has to move across. In a way, because the person has been to Linz, he knows the environment. He knows the places. I could walk to a place, and he was there, without him knowing. And I asked him, where have you been? He says, I had such a feeling in such place. And I said, I just went there to see you. My soul told me, I am there, you'll be there.

And this process has a started. We need our people to understand. We need to perfect the art of it. But the beauty of it was, he doesn't end up in the machine. He ends up in the building, where he wants to be. Where his Soul has a connection. He is one of you, as listeners, most probably, in the background and he knows exactly what it is. (:20). And so as we said in November, December, we start transmutation. The process has started. We have to build it step by step to it. We have to bring the position, that we can completely feel, understand the position, and then bring the transmutation of the physicality.

This will take most probably in January, February, as the systems are getting finished. I was told yesterday 80% are done. And then we go into this process of transmutation. The transportation of the physicality and the completion of it, needs what we call, Cosmic Rays (CR).

Our team has built the system, are building the system. And we feel the existence of cosmos. Once you start touching the cosmic rays, you become of a different creature, of understanding of the universe. Not, you don't get heads and tails, but creature in knowledge, creature in understanding of the truth about the Creation. A lot of detachment, but a lot of attachment to the new understanding, till you understand it.

So, as I said, we have started the transmutation process. And we will gradually in the next few weeks test expansion of it, how and what they can do, and then come to the full transmutation. For us, once we establish one, is how we can move the other 7 billion. How we can bring that knowledge across to 7 billion. That no one abuses another, and everybody has access to the same thing.

At the same time, (:22). as part of the Keshe Foundation, we are running other tests, which you were part of. We are still getting people who want to do the flight test, they

want to do the Satellites, they want to be Mobile test, all those in a different shape or form are taking shape.

The what we call, what was going to happen to you, you're getting, as I said, in New York into the system, seconds later, you're in Linz. And, yes, we get you, the way you came. In the present situation, you get on the plane in Linz, you come off the plane in New York, you had a cancer here, you have a cancer there. You had a ILS (means ALS) here, you still have an ALS there. Nothing changes in your ?? physical condition. But with this technology it does. Because we expand the energy package, which is within the center of you, which has to cross your body, and than make an envelope. That our technology can pick up that envelope and transmute you on the present communication lines of what you call, mobile phones to a position destination. In the future, there is no more ?? ?? We learn to our what we call, dimension of the energy, in silence.

Then in this position, when the fields crosses, it's like when you put in a way, materials in the microwave. Nowadays, they put tomatoes through a special rays, that they don't rot anymore so fast. We put bodies through MRI, and we see, the fields shows us where the tumor is, where the damage to the brain is, where you broken the leg. (:24). We put you through CT scan in a massive amount of X rays, taken in layers from your body, we see what is the shape of you inside you.

Now instead of rays coming from outside to take these scans and pictures. Now your Soul going from inside out to create that envelop. The way you go for radiotherapy, radiation therapy. They see a tumor, they see something, and they target radiation on it. And they say, we destroyed the cell. We radiated it and it's done. We do it in the nuclear industry quite a lot. Radiating, create conditions of ?? exposure or whatever. So we deliver energy to it and we change it, and the doctor says, you had a radiation therapy and the tumor is gone. Or we killed it, that the entire body will get rid of it.

Now, the radiation comes from your Soul going out, and the tumor is on the way. A broken leg is on the way. The broken heart is on the way. The emotion of pain is on the way, as it radiates out to create that envelope. Now, you understand how it works.

Today you go to hospital to get radiation therapy for your cancer. Now, you get the radiation therapy from your own Soul. But the emotion which created it, has, it is connected to the same center. It's not that you find, you get rid of that tumor. You solved the reason why that tumor got created by the same, same cell, by the same structure, (:26). which radiates out. Because if there is a fault in the envelope, what you put in it will fall out in transportation. It has to be protected. It has to be corrected. How many times you will receives the post with no letters in it, no items in it. The Post says, sorry it was lost somewhere and broke, cracked, or part of it we do not know.

So, when a body of the man, when the Soul of the Man (STM) expands to that position. Like the radiation therapy, crosses everything, and everything has to be balanced. It brings balance through the energies of it. And it knows what it should be, because the master on the head, which created it through emotion says, there is a misbalance here. I

used to hate my love, and love was a cornerstone of the creation. So, if you create a tumor out of hate, it has no balance to sit. The envelope has to be complete.

Many of you came to Linz and we put you through it, and I could not tell you this. You have a problem. (You said,) "I cannot go anywhere. It doesn't work on me." What is wrong inside you through the emotion and the physicality. The beauty of it is, we cannot transmute a broken envelope. We cannot send, because the fields will imbalance, and they move and the create other problems. You only can travel when the Soul, the envelope is clean, packed, sealed, nothing can fall out. Nothing can fall in. (:28). It doesn't have a weak point that it can get torn, and tear apart in transportation.

It's you who makes that envelope, not us. We created a condition, that conditions it, to expansion of it. Go back to all my teachings, I always said, Solar System, or a universe can expand only to the size and the fields, that its environment allows it to expand to, because other fields control it. The other fields sit on top of it because they need their existence. Now in our systems we control that condition of containment, and once we control it, because it's a magnetic field, because it's on the line of the field of the physicality, we can shoot it down the mobile line.

I cough, you hear. I laugh, you hear, but you cannot see if I frown. You cannot see if I twinkle. In the plasma technology, the twinkle and the frown, everything is there. You go in with a cancer, you come out, if the process is completed, without a cancer. You go in with the mental condition in transmutation, you come without it.

If you have that problem, you cannot travel. If you have a conflict inside you, you cannot create that envelope. I sat, I watched people came in and went out. (They said,) "I could not do, it didn't happen to me." There is something wrong inside you. That does not allow your Soul to create that envelope. (:30). You have a different understanding, you have a, you have come in with a "mean thoughts," as I call it. "I have come here, I don't believe in it, but I want to show that it doesn't work." You deceive yourself, not the system.

The guy before you came in with a pure heart, with understanding of what he wants to do. And the one after you. How come you don't fit in? The problem is you, not the system. The problem is your integrity of understanding the Totality.

So we have to test, that when we put somebody with a cancer in New York, lands in Linz, does he have a cancer anymore? Or he wants to keep that cancer, because there is a condition, that he has to prove to himself psychologically. Or she has breast cancer that it has to do with psychologically. She hates someone. That she has to transfer to love. And cancer will find a solution in D of P. You end up in Linz, you still have a tumor, but it's not malignant anymore. We did not manage the tumor on the way. We exchanged the source. We elevated the Souls. The elevation of the Souls.

So, as part of this, in the development of the technology, we are testing that, elevation and dimension of interaction of the feeling, emotion and the physicality. To this effect we have had, past years, we have done many things, which doctors bring it on the medical,

but it is not medical, because it's elevation of the Soul. It sits with the psychiatric psychologist part, (:32). because to me, the plasma physicist, understanding the work. I trust the psychologist to understand and work with the emotion, with the plasma of the field of the Soul of the Man, but not with the surgeon.

To me, the surgeon is like the guy who does the repair at the repair garage. Cut the leg, take a tumor out, do this, do that. But what's the reason of this? Because the engine is not fixed. Psychologists understand this, and you will see Keshe Foundation will work around the psychologists, not the medical physicians. Because we work with the boss, let the foot soldiers march on. He thinks he defends the border of a nation, but in fact, he has no authority, because the boss tells him where the border is.

So, in working with the Keshe Foundation, all the work goes with fields, and today's government has no authority on this level. We have no rules, no understanding of the work of the Soul of the Man (STM), except we left it in the hands of most imaginative, incompetent, lying, cheating, religions. Those who run in different names.

Science and technology of the life in the space is on the structure of the fields of the motions of the plasma, (:34) what you call, the Soul. << audio cut >>… the totality. We will go in understanding how we go, and how we sit, and how we can introduce things directly, and how we will understand to expand the knowledge, and how to bring you to understand.

So, we have started, what we call, the transportation and transmutation. We have started the process of understanding how we can bring different dimensions, different structures, different souls, what you call, into movement. What would it do when we do this? How would we interact with the souls? You might have Alzheimer's, you might have Parkinson, you might have every other condition. But this is not our job.

We want to see if we can expand your Soul, if we can allow you to expand your Soul to the limitation of the envelope we give you, and then see how your body reacts to this expansion. You call it, healing, you call it, curing, that's your problem. What we are interested in, is in how we expand, how we can control that expansion, and in a transition time from New York to Linz, (:36). how your energies will interact with the system, with the dimensions, and with everything else. We want to know how things will go, and we want to know how things sits.

In this process you call it, what ever you like, healing, processing, curing, that's your problem. We've create transition and transmutation of the fields of the body of the man, and we'll find out how it will be done, and how we have and we can develop this. What does, what would your body do in this transition? What will happen to you in that point of transition? What will go on in that point of transition? How things will turn up in that transition? (:38). What would we do? How people around us will find it? How when we arrive with the new condition, how would they react?

We get on board in New York and we see ourselves with a cancer. Our loved ones in Linz, knowing you have a condition, and you have to go through the process. They leave you today, they greet you today with what you are, knowing what's ??, expecting usually the worst, as man says, for his demise. Now with this technology, you get on board in New York, and then you land in Linz, and you've been correct in every dimension and direction. The family greets you, because they love you, they know you're going to be here for a long time. In the journey, you have balanced all the emotions and the fields of the body. The tumor is there, but it's not going to kill you, unless you wish it to be done. This is where the change is coming. This is where the biggest change for man comes.

In a way, man is gradually getting access to eternal life. (:40). This eternal life, this knowledge, this technology cannot stay within the Keshe Foundation. In ways, we have to make it accessible to every being on this planet. In a way, the technology has to become like the rays of the Sun, shines on all, in equal amount, and in an equal way. If you're lying on the grass in the park, the Sun doesn't decide, you're going to get more if you're black, white, yellow or orange. It doesn't decide if you're a man, a dog or the cat. This knowledge has to be the same.

In so many ways, we have to develop it, that it becomes the same, and become accessible, and become part of the accessibility, that even those who do not understand what the MRI machine is, or a X-ray machine is, when they go through it, they find the problem. At the same time, when they go through it, they don't know what the chemotherapy is, but what the MRI found out, the chemotherapy tries to solve. In this process, the MRI and the chemotherapy is within you, and it's part of you, it's part of the structure of the ?? emotion of the STM.

All we do with our technology is to create the framework, and you create the fields. You create that chemical for chemo, in the fields of the body of you, inside. (:42). We create the frame of the MRI, you create the scanning of the emotion, what's wrong, what it needs to be done, by your own fields, by your own understanding. Like the Moon and the Earth, and the other planets move in a certain position to accommodate each other in certain time, that's become the part of the work. We are the Creator of that condition. You are the one who decides what happen inside. For this reason, we need to understand that 99.999% of those who use our technology are ignorant to the science. But then get benefited, the same as all of us, being a man, a dog, a cat, and the rest.

In time, man will change. In time, the humanity through progress of understanding will change to his own dimension and direction. In time, us, as those who understand part of the knowledge, will come to teach the others to understand the work of their own Souls, to understand the work of others. At the moment, everything has become physical, and everything has to be done in hospitals by doctors, who read a few books, and they become gods.

Now the God is within you, which is your Soul. The Creator of you, the Creator of the existence of physicality of you, is within you. (:44). You can become the doctor of

yourself. We don't do anything, you find the solutions. We don't do anything your Soul fixes what is wrong inside.

This week, I'm sure the lady is on the line, or a relative who introduced her to us, she came to our doctors, highly educated, a Ph D. She cannot walk, she cannot take steps, she can do a small dragging foot. Talking to her, the doctors even have, I've never heard before, screwing her big toe to the one next, that she can keep her balance, or whatever. They literally put a pin between two toes. She had to move house to live in a one floor apartment, because she cannot do anything. She hasn't walked, or in a way, for nearly two years, collectively five years. She has to go through a pain structure to get up, to stand up, even trying to take the step. Highly educated, hands cannot bend. Fingers don't touch, it's like putting an orange in between the hand. She has been like this, for years, for past two years. (:46). Gradually she goes into condition, that she will not be able to move anything.

With the doctors, she's been put through the (KF) process, for 30 minutes. Then we asked her, can you walk? She stands up, she walks. I can't hear her voice clearly. She says, I'm walking. I don't want to stop. I haven't walked for years. I have no pain. She walks around the table, and like dancing. We said, just calm down. She said, I don't want to, I haven't walked, this is something impossible.

In 30 minutes. It's not a 30 minute, it's that millisecond the Soul desires to perfect the walk, the man to walk. Soul is the psychological and the physical just follows. That 30 minutes is where that one millisecond of elevation of the Soul will come. We Stop. Comes on the next day. The joy, the happiness of being able to walk the day before was overwhelming. Go through the same process again, and she's walking. She doesn't want to sit. We asked her to run, she says, (:48). I cannot run. I asked her a question. (She says, "my toes have been pinned together. My ankles have been locked, because I was not supposed to walk ever again in my life." What about the hand. The fingers can touch each other, for the first time. The emotion, the process wanting to live is so strong, it has rejuvenated itself. Life is there again to live. We asked her, can you go for a run in the next couple of weeks? I can't run, my toes are pinned, my ankle is locked. But now they have to take it off.

We created the envelope. The scanning, the evolution is done by the Soul, by the energy within inside the man. Not by us. We are literally a DHL office. We are a post office. We know where to deliver that envelope. How we cannot carry a letter, you have to put in an envelope, that we can carry. You have to box it. We create that box. We are the provider of that box. We are not the curer, we are not the doctors, we are not anything. We are just a courier office, (:50). which needs everything to be an envelope. You cannot bring a bunch of oranges on the table and says, can you take this to New York. Sorry, you have to put it in the envelope.

Then we can carry the oranges. Then, whatever is there, the taste, the joy, the sweetness of the orange is for you to taste when you receive it, or who receives it from you. The work with this delivery company called, Keshe Foundation Spaceship Institute, is to

deliver the Soul of the Man anywhere in the universe. It’s you who does the delivery. It’s you who decides where the envelope goes. We have a delivery office in every corner of the universe, in every stone, and in every heart.

We were talking with the doctors, with the mother with a child with autism. Child, four years, mentally one, one and a half. We saw her crying last night. In facing the reality that, she's having a four year old boy, as a four year old boy soon in her hand.

Three times through the system in past two weeks. (:52). For the first time he decides to go to toilet on his own. Before, we know what happens to young children. For the first time he can continuously hug the parents, mom and that, which wasn't there. For the first time he can sing songs with the TV program. For the first time, when we heard it yesterday, when the mother comes, and he is watching TV on the father's handset, says, hi mom, how are you? For the first time the family is a family, they don't need to carry a handicapped child for decades to come.

The whole process is that 30 minutes, what we do not know, which second the Soul decide to put the letter in the envelope and elevate that soul, and elevate that physicality.

In the past two weeks, for the first times, we share what I shared privately for years for people who walked away, and I could not tell them I expanded their Soul, and we got accused of medical interference, which we did not (do). We elevated the Soul. Now, that those who never understood, find their elevation in their Soul.

Now for the first time there are translators, and us, and doctors who control this process. We all hear how changes are coming. How effectively we are changing life. (:54). We hear from the people who could not sleep, and now they sleep solid, because the ghosts of their own life has found solution with itself. The pains in the stomach are not there, or many other things, which has been going on, with the elevation of the Soul.

For this reason, Keshe Foundation has decided, and we open a mass, what we call, meeting, a plasma conference, a plasma event, that we will carry on with this every month. What we want to do, we don't want to keep, unless you want to be especially sorted and done, which you cannot do it in this process of the events. We take you up, we increase your numbers, to take more, and to take to allow things to happen. But we want to give you the taste of it.

Many of people say, how do I know it works? So, we have opened this introductory, what we call, sessions. You're an addict, you have a cancer, you have Alzheimer's, you suffer from diseases that, there is no answer in the world of the medicine of the man today. You have a joint pain. You have pains which has been with you, is Fibromyalgia, or whatever. (:56) Keshe Foundation is opening for the first time sessions where we want to reach all of you at the same time. Your son is alcoholic, your daughter is a drug addict, your father has got a prostate cancer, you suffer from Fibromyalgia and everything else, and the husband is alcoholic beyond. You all, we just got conditioned that you cannot do, and

they told you it’s psychosomatic. They told you it’s genetic, or it’s immune system problem.

The love of God shines on all equal. You don't know in the park or lying down, the guy next door to you has a cancer, or is a schizophrenic, or he’s got a Fibromyalgia, but the Sun shine exactly on you, who have a brain tumor, and he doesn’t know.

For this reason, we open a channel, and we'll repeat this every month. For people who have doubts, or people who thinks they might be able to reach to understand, maybe they see the change to understand the technology. Their understanding of a feeling it, then they can decide, they want to go through the full process. Or they decide, I wait till next month, maybe I'll find another. We specifically gapped it for four weeks, that you'll get a chance to analyze, and don't call it accidentally. I could do this last week, but this week I can't do. (:58). I had a headache, oh it cannot be because I went to that session. So, you can still live in the life of denial. But go back on working on what you receive.

We have opened a Christmas gift to humanity. On Friday the 16th, Keshe Foundation opens a four hour session, that between 500 to 1,000 people can join in. Come in with your desires, come in to see your grandfather, come in to travel to the Moon, come in to get rid of the cancer, come in to get rid of the drug addiction. We don't ask, we rain the Sun in all of you. We bring the technology.

It’s you that you might get a sunburn, or you feel, still shivering in the same Sun. Go on the Keshe Foundation website, join in, because we'll follow you up in the following weeks, what changes has brought you. Come in hungry and ask for food. See if that day, that week you still eat the same as before you go through the system. Come in with a bag of chocolates and see if you can gift it to somebody, to your friend. You are in New York and he is in Linz. I sent you a chocolate, did you feel a taste of it?

This is part of the mass introduction of the technology worldwide. This is the first step, that we open this, irrespective of. (1:00).

We monitor everything from Linz, it's you who has to tell us. You came in as an addict and your desire reduced. It’s you who come and say, I came, I couldn't walk, now I can walk. On the Monday the 19th, we open specific channels for those who want to transmute their Souls and walk away, or ?? find away from their addiction. Sessions are for one hour. The next hour we open a session for those who want to go to the Moon. For the next session, we open for those of you who suffer from Parkinson's. For another session we open a session for those of you who have a cancer. It’s a symposium of all of you. We don't do anything. We just go in your home, attend the conference, attend the meeting, attend the seminar in your own Soul.

We provide that packaging from the transportation company. Sign in, and get involved to bring the change. Each session we can handle 500 people, (1:02). if it is 20 of you, still goes on, if it is 5,000 of you we have to change the numbers. You suffered, you came to

us, you said we don't have the knowledge. You can test it to see if the knowledge works for you.

Maybe you get that 30 seconds of elevation, one millisecond of elevation, that it changes you. But be honest and report it back (to us). The next step after this will be Mobile transmutation, where in the same kind of sessions we move so many of you from one position to another.

I promised you I open the technology to mankind, and this is the best mankind can do for the time being, till what is done, understood and system ?? applications is started. In a way, if you look at it, the system in Linz is a connection to the Creator, that it shines equal amongst all of you.

I don't need to open a million centers, one system suffices to satisfy the need of the man across this planet. It's you who has to find a way to link to that energy and find your way out of that energy, with what you want.

We have a guy who came and says, you can't cure my sister, I want everything back. For your sister, see if she wants to live, (1:04). or is it just you pushing it? Bring your child with drug addiction, put them for 30 minutes with their own Soul. See if the addiction is a cause of the body, or a escape from an abusive mother. ?? will come to him and he'll understand.

On 16th of December we give you a Christmas gift, a Christmas party by Keshe Foundation for your Soul. You are the Santa, it's you who comes down the chimney of the plasma of your own Soul. What gift do you want to give to your physicality, or to your emotion, or from your physicality to your Soul for elevation, that it finds peace with itself. On Monday, we open a channel for those of you who want to come in and get rid of your problems and your own addiction, we just create the conference room.

Those of you who want to go to the Moon, or Mars, or you want to go and see how the weather is in California, you're welcome. Everything else, we allocate times every day, maybe every day at nine o'clock we have a breakfast time ??, and 10 o'clock at night dinner is served through your Soul. (1:06).

You've got to understand, what we do is possible, and it has not been possible to do with the humans, purely through the technological development of science in communication. We allow one session in the coming days for the ?? recall of the world leaders. They want or they don't want, we drag them in with their own Soul, we have the technology.

On Friday the 16th, evolution in the science of man will take place if the man understands. In so many ways, once we move, once was the first step taken, the rest will follow. All you need with you, is your headsets and your mobile phone. As I said to other Knowledge Seekers, do not come with your laptops and your computers. They create a massive interference, you might end up being in Zimbabwe, where you wanted to be in

Linz. Make sure nothing runs in the background on your handset. Make sure you're there till you Soul tells you, let's leave, I have had enough, I took what I want. (1:08).

Then join us on December 20th on Friday, sorry, January the 20th on Friday, for the second session. We'll repeat these sessions once a year, once a month, sorry, and we extend it to numbers that we can handle. Keshe Foundation says, they can't help me. Now Keshe Foundation says, you make a facility, you see if you can't help yourself.

Many of you asked us, can you help us with our addiction with drugs and everything else? Monday at 10 o'clock, on the 19th of December is your allocation to meet your own Soul. We open room, you are not doing anything else. It's for you to meet your Soul. 11 o'clock we take you to the Moon, the passage is open, or to anywhere in the universe you want to go. And, and, and that day. We are not doing anything else, but opening a transmutation ??.

There is no one on this planet, which creates and delivers transmutation. We have the technology, we do. You have an envelope to post with a love letter in it, post office and DHL. You have their your energy, the fields, the Soul to elevate, (1:10). and help yourself to deliver an envelope to yourself, to change yourself from all pains. Keshe Foundation Spaceship Institute transmutation service, ?? at your service.

Anything has been your dream, join in on the 19th. Anything that has been your wish, but tell us. You'll be allocated ?? soon connected to your number. Do not give it to anybody else, because it's not going to call ??. Those who are invited by registration in each section, you will be allowed in. Two reasons, we can't allow everybody in, and secondly we want to keep a tab on what the development has been. How many of you addicts have managed to expand your Soul truly, not just ?? to reach your emotion, that the alcoholism, sex, drugs and everything else you can be addicted to is not needed to be satisfied. It's the Soul of the Man have found balance in emotion ??.

Man gradually, as I said, we open this step by step to as many people as possible, that the what I call, pharmaceutical of the Soul of the Man takes over pharmaceutical of the physicality of the man. It does not matter if you're Chinese, or living in Tehran, or in the jungles of Amazon, or in the back villages of Africa, or in the White House. (1:12). You all suffer from the diseases and you all have the same problem. Join us to understand, and join us to bring that change.

Then see what do you do to yourselves. There'll be no teas and coffees in these conferences. But plenty, plenty of fields, and Cosmic Rays, and emotion of the man. For years you asked me, why is become, why is that, why is it ?? exclusivity, why cannot be done? Now you've got the answer of the why. The why is you, not us.

We open the hall, you want to come to have a wedding in it, you want to come in and get drunk with the fields of the universe, you come in to use as an operating room to get rid of your cancer. It's all yours, we just provide the four walls and the fields.

They promised the change will come in 2022. The change has come in 2022. You come into the room, go to Vatican and bring the Pope in and say, I have to take you somewhere that you can see how much you lied. You come as Iranians, you don't go through the revolution and the street fights, but you go to the Soul of Ayatollah Khomeini in Iran, and bring him in, and change him.

So simple. (1:14). If you wish, the dimension of acceptance of the wish, it's there to be done. I gave you the biggest gift, now let's see how you use that gift, and how in the coming months we expand it. And gradually, in maybe a year, two years time, these lines are open 24 hours a day for everyone to be, to use. "I'm hungry, can I borrow your mobile phone, mine is broken, that I can feed myself through the Keshe Foundation center." I have a pain in my head, I don't want an aspirin, but can I use your mobile phone to get there, that find out, that what I have caused myself with it?

Now you understand how the change has come. The Spaceship Institute has brought the Universal Spaceship for you to enjoy. We create the ship, and the planet Earth and the citizens are its passengers. Let's play the game and see what you are going to change. You are the pioneers, and this pioneering will bring a new change. Let the game start, and see how we change.

Book yourself into these sessions. Those of you who for a long time saying, (1:16). you need a solution for addicts, and drugs, and alcoholics, book yourself on the Monday the 19th. Join us on the 16th, to develop, to understand the limitation of our systems, how much more we can add to increase the ?? part. And how many of you will end up in the places you don't want to be by mistake, because you have to still to learn your GPS of the Soul, it's not fixed properly, end up in Zimbabwe instead of in Linz. Go back to New York and we set the GPS of your Soul, your true wish. But in fact, if you are in Zimbabwe, that's where your Soul really wanted to be. You haven't ended up there by mistake. You have to find out why your physicality ends up there. Maybe it's going home, that's where're your ancestors came from. You always said, I wanted to know where my home is, where I come from.

In next few weeks and months, the process of the change will come in. As our team develop more and more advanced systems, more and more of you will come to enjoy. We are looking in the Keshe Foundation side of the technology development, our doctors for specially in success with autism. Especially with success with those who have a mental condition. Join us to bring that change, but share with us that we know what changes brought in, that we can adjust our systems. (1:18).

You came one by one to teach us how to adjust the flight system. Now on Friday we allow 500 people with all kinds of desires and wishes. And on Monday the 19th we'll bring you to the condition step by step, case by case. Because if you're an addict it's a specific position in your Soul and the physicality, which has created that craving. And we set our systems for that. Let's see how we change, how we bring the change, and how the changes will come to be. We go for a break. When we come back. We'll explain more, and we answer your questions. Would you take us to a break and come back? (1:19).

<< BREAK >>> 461 KSW December 1, 2022 (1:24).

K- No, there's nothing, unless it comes up and then we discuss.

Q; .. How does it look like for another person when you make a transformation and you arrive next to this person, who doesn't know about the technology .. puff you arrive and stay there, and .. what does it look like for the other person? Is like in Star Trek, you first dissolve point by point and when you arrive point by point? (1:26).

K- It happens in different shape or form. There is a part of new understanding, that you have to understand, I mean, there is no choice, sooner or later it will be understood. It's like, if you remember in nineteen eighties, we had these huge boxes, we call them telephones, and people were carrying a suitcase with the actual handset as phone, the line in their hand. They were telling you, what I call, talking to somebody somewhere else. And you said, "who is this guy talking to himself." Now we carry these little things in our ears, and you walk on the streets, as part of crazy people talking to themselves, but actually when you look at them, they've got a little headphone in their ears, and there's nothing else. Then you say, "oh, I'm crazy, I didn't understand, they've got the advanced technology in their pocket."

It will be the same. You arrive, first of all, in New York, you have to decide, you call your brother in the mountains of Switzerland, is it sunny? Is it snowing? And you're in the sun in New York and it's snowing on top of the mountain in Switzerland, and you're trying to see him. Would you wear ski jackets, and god knows what, in the heat of New York, waiting for the transmutation? Or you have your brother getting you clothing, ready, waiting for you when you arrive with the snow suit, because you landed with more or less, a bikini from New York? (1:28).

Or do you understand that at the point of arrival, you will arrive in the dimension of the Soul? Would you manifest yourself in the middle of the football pitch with 30,000 people watching, naked? Or would you chose a room where the suitcase you carry, carries the winter clothing for mountains of Switzerland? Would you appear next to, and the way you say, "oh, I just felt I wanted to call you, and say, oh, I just felt I wanted to call you, and you called." You arrive, ?? you called the soul, I am here. Maybe you play a few tricks, as we get used to it. "oh, you arrived." So, what do we do? Should I go by bikini, or should I go and change?

These are the things man has to learn. And that limitation of clothing belongs to Earth. On Mars, and on the Moon, and in other positions of universe you arrive the way your body feels protected. In a way, as I said to a child of mine, you arrive with the leaves, on your front and your back. The Soul of the Man (STM) will create that condition of, what I call, protection and man gradually learns. The most important thing is that you make a call to the Soul. You don't manifest the physicality in that way, if you want. (1:30).

I had Mario telling me, asking me, one of the Knowledge Seekers asked a question, can two lesbian couple both get pregnant in the system? Yes, why not? Come on board, we try. Would the children be yours? Of course. You each implant the Soul within the womb of the physicality of the mother. Souls don't have X chromosomes and Y chromosomes. It's the child who decides. Maybe to one mother will be a boy, and to the other one, girl, I will be a girl. There is a lot of games still to be unraveled in this knowledge, and this possibilities, and education. We are not creating a bunch of "he-she's, and "she-he's). But it's the possibilities of elevation on ?? salvation, that both parents will go ?? there. And if the society accepts.

You don't appear, as you said, "beam me up Scotty" in shining bits, you appear in your Soul. That's how you travel. Then you decide, and the manifestation is instantaneous. (1:32). The reason they used this in those movies, was because the scientists who made them, ?? they moved every single cell of the body of the man one by one. In the knowledge of understanding the world of Creation, you travel with the fields of the energy.

Any other question?

Q: .. In the last KSW, you explained about the creation of emotions, but this is not yet clear. From what I understood, the creation of an emotion happens when the blood, or the Soul of Physicality carries it's fields to the Soul of Man, and the Soul feels it, and then the 2 interact and create a kind of plasma in the brain tissue, and this area becomes an emotion. You asked us to try and create that field strength with the Soul, and then feel the emotion. How can we do that? Is that what really good actors do, is create an emotion through the Soul? Please help us understand more.

K- The creation of emotion does not come necessarily by the blood, which reaches the skull. The creation of emotion comes by the dimension of the energy motion of that point and position. We carry maybe 5 to 10% of our feeling through our neural system, 90% plus of our emotion is carried through the fields of ourselves. (1:34). That 5 - 10% which carry physical, is because of the creation of the cell by the movement of the blood, and current (?? electrical) position through the neural system, that dictates that cell to be created, and then it connects it physically, or to the body, or what we call it, through blood, to ?? its emotion. 90% of our emotion are instantaneous.

If you look at it, if you understand it physically. When your lover touches you and you feel the touch, the emotion, the softness, the, what I call, intriguing complex information, it's instantaneous. Your body doesn't wait for the blood from the arm to go to the heart, to

go to the, what you call it, the process of four chambers, and then go to your brain, and then say, voilà! Thirty second later, or a minute later, "oh, the blood arrived, now it interacts with my Soul, and then I feel the emotion.

First of all, you have to understand this. The same as what we said, 80% of the energy comes from outside, we eat 20% of it. Now, man has to understand that 90 - 95% of our emotion created, is instantaneous. This is what we call, as part of the spirit, that the man has no awareness of, it's never considered.

That physical touch that you feel goes through the neural system, few seconds, few milliseconds, it's a physical touch, in the dimension of magnetic fields. (1:36). But that instantaneous emotion of love, the touch, that goes through, what we call, the true STM, in the dimension (D) of the fields. It's instantaneously carried.

The only thing that we can instantaneously carry in a, what we call, life time, is fields. The way you touch and (it) gives you the feeling of the love when the mother touches you. That fast, that instant, it's the same way as you can travel, same as you can transmute, instantaneously.

That's why when you came to the machine we tell you, you don't travel, can you go somewhere. We don't tell you to fly somewhere. Do you want to fly to the Moon? No, go to the Moon. Because the decision is instantaneous. Now you have to learn, the way you used to get your arms, and legs, to move my leg up, to kick a ball. Now you have to learn, how I can extend my Soul.

What about, when your lover touches you, and you get that feeling, it's instantaneous, touches your Soul. The Soul sends the message and goes back to the same channel, the same touch, to the Soul of the lover. I love you too. It's not one way. Try it. This is what I said, that the people who come to the system, "oh, nothing happened, I came here, nothing happened, nothing goes on, the system doesn't work." Sir, you're so wrong. (1:38). You don't even know what your Soul is, then let alone trying to ?? envelope it. You have been so much misplaced by emotion of your own existence, that you don't even know you have a Soul. Then let alone you want to control, and expand it.

In the future we can't put a system in every household, every supermarket, and every mountain, and hill, and by the every lion you want to see. It's you who has to learn how to create that envelope, what the limitations of it are, what you have to connect with it. This is like the education when went to school. At a young age you had no knowledge. You learn the alphabet, then you learned the sentences, then became doctors and professors. But this time instead of 20 - 30 years to become a professor, we have a few, very short time to become a ?? professor of the emotion of your own Soul.

Then you don't need our system, our systems are there in a way like driving ?? school, to show you what a car is, and then you can drive a car. It's you who has to provide the car, in the future, once the teaching is finished, to test drive and then go from A to B with your own car. Now your car, is your Soul.

How can you in the future extend and expand your Soul with all your children in it, "boys we're going to the sea, come with me." Then you come to a point to trust, the children trust, you take them to the sea and not to the zoo, because last time you said, we're going to the sea and we ended up in the zoo. (1:40). Then it comes, do I trust my Soul ?? to go to the sea. These are the ?? process of the Creation, this is what now we have to learn, the alphabet of the Soul, the work of the Soul.

We don't know when we are born, if you're left handed or right handed, they teach us how to put a pen in your hand. They teach us how to hold a spoon, they teach us how to paint, with just everything in our body, our hand learns. The art of living. Now man has to learn the art of plasma living, the Soul. And it's easy, "ops, I want to feel warm water up to my hip, I want to feel the sunshine on my body, and I want no sun turn on my face, because in Korea, the face has to be, the skin has to be white, otherwise it has no value for them. Can I feel warm on the skin as I've been, god knows, on the sea side, but nothing on the skin, that my skin stays white ?? as they ?? in Korea.

Now the man has that ?? opportunity, he decides the size of the boundary of the Soul. What the boundary it. Now you've got to learn the ABC, that's why we said, ??, understand it. Then when you go home, tonight I want to dream about my dad, I want to go and see my dad. Now ?? you don't have to dream, now you have learned how to open a passage that, at the strength of the father. He might not be home, but if he is home he'll be ?? . (1:42). One of the Universal Council members started it, but she got lost in it. You can decide ??, you can decide, I want to see this tonight, ?? and you're Soul will find a solution by morning, when I'm physically up.

You have to teach yourself, and then you decide how to manifest, and how to be, and where to be. How to control where ?? the man is. You don't suddenly extend the Soul 100 meter away from your physicality. You just stay few centimeters away from it, that it keeps the aura of physicality and the Soul together.

One of the things which many of you will learn very quickly, what we call, the Soul of the Physicality (STP), the spirit, and what you call, in dimension, interaction, partially is the aura of the body of the man. You will very soon learn in which level of it, you want to protect yourself, and extend the envelope. You will use the STP in interaction with the environment, as the restriction, or the boundary of your expansion of your Soul.

Then you switch, when your Soul will bring you the aura, what we call, the spirit inside, and now it takes control, and then we trust in the ??. It's the same "sheep skin," you want to be inside or outside, it's just reverse. (1:44). As I always said, as an understanding of, when you wear a sheep skin, the sheep was wearing it the other way. It's opposite, inside out, or outside in. But in fact it's the same skin, it's the same ?? work ?? . It's just needs learning, and these systems are developed especially for that process.

These sessions of what we'll start, is part of this process, for you to learn the extent and how you can play with your Soul. In a way we let you free in the kindergarten, garden to play with the toys, and find out you ?? don't need ?? a ?? ship.

Any other question?

Q: .. A couple of questions about the fees on the on this new flight plan. Doug is asking, is the fee only per person or can life partner be included in the fee?

K- Per person, it's per person. We control it. Please do not share your system, and don't come back to us and try to tell us something happened. Each person. You've got to. Put it this way, you will run into position of the schizophrenic, if I call, the beautiful people, then you have to sort it. This is very. (1:46). You have to teach your Soul to work on its own independently.

It is not that I'll put a speaker and everybody sits in it. You'll find out you made a huge, huge, huge mistake. Our systems are not geared up for that kind of operation at the moment. To do that we need to, in the next generation which they call it, a cosmic Rays gives us that kind of facilities. Stay with it, and you ?? need to teach your Soul, and then as we go further we teach more, then we'll see what's next.

R: Okay, Doug have made a comment before you started talking about his question. He made a further comment, this question must come from the Scottish part of me.
K- Scottish, yeah it's get a bottle we all share, in a way.

Q: .. Mr. Keshe, I am sure that all the Knowledge Seekers are very happy and thrilled with the news you brought us today. About the December 16th event, I would like to know if for Brazilians there will be the possibility to make the payment directly to the Company here in Brazil. This would make it easier for many Knowledge Seekers.

K- Yes. In Iran, you make the payment to the Iranian office. In Brazil, you make the payment to the Brazil office. But we have to allow it, if you pay, we have to know. (1:48). In China you make payment to the Chinese office. This is the beauty of flexibility we have created across the Keshe Foundation. But at the end all have to end up within the structure of the Keshe Foundation International. What we see, we see what we can do. Everything else has to come to the Keshe Foundation head office in, what you call it, in Holland.

But we have to agree how many people we put in China, we have 500 places available for that day. All the emails have to link with the, what you call it, with the information you receive. You have to log into the Zoom to join us. We will change this very soon to Telegram. We'll go into operation, because it gives us more facilities. A lot of the work of Keshe Foundation we'll move from Zoom to Telegram, because Telegram offers a much more flexible condition.

We just can't pay 100 people into Brazil account and block a fifth 50 of what we have around the world. So it has to be agreed. Or we allow a second session to be added to it in the following day, or in the following week.

But come in with all your wishes, and come in with a selection of wishes, not just one. Come in to get rid of, to understand, that you can help with your addiction. Come in to go to see your uncle in New York. (1:50). Come in to see if you feel hungry, and you can feed yourself with a banana, and come in to see how the condition is on the Moon.

Don't stay more than one hour, move out. Don't try it, because I want to be there four hours. Because this allows others to log in from different parts of the world, and allows us to control a lot of things inside, which I like to see what things happen, what pressure it puts on our system. Would we see many of you in a soul, in a light in Linz? Because you have to travel through us. It doesn't matter wherever you do, whatever you do, your link of connection is through Linz.

So, we should see a structure within our system, of how you lot are interacting. Make an arrangement with another Knowledge Seeker that, I come to you. You're in Brazil, he is in Linz, whatever, he's in London, you still come through the central position in Linz, and see if it happens, how does it feel? Do you feel each other? This is a test for, instead of doing what we're doing, step by step. It's a test for everything. If you saw your improvement in your Alzheimer's or in your, whatever, Parkinson, walk a little bit better, or something happened, you felt warmth, or whatever, then get in touch with Keshe Foundation. We worked on.

Then we can make an arrangement for you to go through the, what you call it, the (full) process with the Foundation. You cannot do it in these sessions. Because everything, the information, the next step changes to the next step. (1:52). When the brain sorts out the nerve in the finger, now it has to go to through the system to sort out the same nerve, and the same connection to the toe.

This (the monthly sessions) is for you to get the taste of what is to come, and what are the capabilities of the new technology. We told you we would bring you the Satellite, we told you we would bring you the Mobile, this is part of that structure to make sure everything is perfect when we do it.

We spoke with the doctors and the teams around the world. Some of the, what you call it, charges which we need to meet, has been changed to a standard around the world that, there is no difference, but everybody can afford it. Or we can bring, what we call, package ?? deal. That can be done.

The reason we do on the 19th the test is that, if we, for example, we were talking to a couple of people from a group in Tehran yesterday, in the Persian teaching. That there's about 300 of them Parkinson, in that group. With the tests we've done in the past years, and what we've done with the test yesterday, and last two weeks, and plus all of you coming here. We have offered to take the whole group of 300 Parkinson patients in Iran,

as a package. For them to see, to receive everything from Linz, and see the effect on 300 Parkinson people.

If you're a part of the group with Alzheimer's, or whatever. If your group understands the work of the Foundation and can do it, (1:54). we take a package of you, 50 of you. And if the 50 are successful, the rest can join in later on. If you're a drug addicts and you know another 20, 30, 50 drug addicts, come together, there is a group of us. We give you a package, and we monitor that all of you get a change, to understand of the totality.

The technology has advanced that much that we can do it, because we pre-tested this, if you remember, in the 100 children in the orphanage (in Iran). Now it's time to do it. If you are a Parkinson patient, and you know another 20 Parkinson people, come to us, we charge the fields in a direction, and we set out systems, that we get all of you reached at the same time. So in one session we can do 20 Parkinson people, support, than one person. You know many people with Alzheimer, do the same.

The only people we don't touch is, what you call, "beautiful people," schizophrenic, which are totally different thing, you got to do them on their own. They're not sick. Now we have that facility and we can do that. We can put a session for all the Chinese with Parkinson. And you make all the arrangement with the payments with China. (1:56).

In Tehran, if we get some sort of a number of these people in this group, then give us a very good indication. I was talking to doctors, the fees drops quite drastically. More people can afford to be part of it. I told you, the technology is rapidly developing. Hopefully, I was told couple of days ago, the new systems are 80% done, if we get them before Christmas, then that will bring a new ballgame into it, but we have to understand all parameters of it, fix it, all the changes, and then ??.

When you come on the 16th, come with a "wish" list, because some of your wishes might not have the strength of the system, or too many people are locked into it. Go to the next one and take your time. I'm an addict, I've done so much damage to my parents, to my family, I want ?? to see the changes, can I reach them to tell that I am sorry, this is not what I wanted to do. Could they feel my emotion, it's ?? towards you. This is a reality that is upon us.

Then we do another session in January or February to complete the systems, then we go for transmutation direct. In a way, if you look at it, (1:58). from the 15th we start the "Blueprint of Soul and emotion of it." Then let us how many of your wishes are ticked, and why not ??, and what is the problem, or what is the good things you see, or what changes you've seen, in 3 or 4 weeks, then you can book for January, and February. Or you come in that you want, now you've seen the benefits, instead of waiting four or five years. I want to be part of the Parkinson, to be sorted immediately or whatever. We don't put any restrictions. Come with all the diseases you have, and tell us what happened.

Any other question?

Q: Mr. Keshe, I'm worried about something that I see in the future.
K- What? You are worried?
Q: Something that I see in the future. So this way of understanding, I think that you know what I'm talking about.
K- I don't know what you're talking about. Nope.
Q: Okay. All right. So, (2:00). in the future, there are colonies on Mars that are attacked by the people on Earth, and it's driven by still the ideology of the church. So…

K- That's something new. I didn't know that people on Moon have faith and religion. That's something new. Or are you talking about earthlings who are living on the Moon?

Q: Yeah, it's very difficult to deal with, because I can see…

K- Something which doesn't exist cannot be dealt with. (laughs)

Q: Yeah, right. But okay, I just put the point that there's going to be a problem. What I'm trying to do is to sort out the problem before it happens. So, I have to…

K- You've become a CIA. You create the problem to solve it, and ??. ??. That's why you choose such a funny Prime Ministers, huh.

Q: I know that it sounds preposterous. But really. When you talk about what happens to us, when… I'm not even going to go into it, it's just, it's just too hard. It's, it's, like… (2:02).

K- It depends on the extent of your imagination.

Q: I saw the life of my daughter's ?? child, which is in the womb. I know what she will become. And I know… It's very hard to explain. And you know, that it's hard to explain.

K- Actually, it's so easy, because once you explain it is explained itself, it can't be that hard.

Q: Yeah, well, okay. So, there's going to be people living on Mars that are going to be attacked, and it's going to be because of the church. So, I have…

K- Put it this way, the way we are going there won't be any church, so how could they attack? Look at it logically. Church exist as long as we accept, that they are the guardians of the Soul of the Creator. So, when we know the Creator is within you, why you need the church? Do you understand? It cannot exists.

It's like, they have a rule in Iran, which is actually laughable, it's in the constitution of Islamic Republic of Iran, you do crime against God, and the Mullahs decide who the God is, and it's their, it's them, and they are the guardians of the God, and you can be executed for it. You understand? Now, even God has got a guardian who is the Ayatollah

Khomeini of Iran, and he can decide as that representative of God, you've got to be executed.

So, when people become knowledgeable, and they laugh at this ridiculous creation of one man deciding to be, then we find out there is no religion. So how can they attack the Mars? (2:04). You understand. .. We know how to deal with this. We deal with what I call, idiots, that's our problem.

We've got to find a way for man to understand, the only intermediary between him and his Creator is himself. This is why there is always a problem when I say, I'm the Messiah, and they say, oh, ?? he can't be the Messiah, blah, blah. I am the Messiah of my own Soul, my physicality, I'm in charge of it. Now I know what it's got to do. And it's the same, what you call it, with all of us.

When we leave our life in the hands of a bunch of idiots, they do whatever they like with it. When you take control of it, then it takes different shape and pattern. We gradually have to understand, that there is no one above us, which is the Soul of us. There's no king, there is no hierarchy, even the God doesn't come here and says, I'm the God, you have to do what I ?? say. How in the heck do these leaders think they do? How can you do crime against God, and I decide, and I kill you for it, because now I have become God? We allow this abuse, (2:06). because they pushed us to accept the abuse.

Q: It doesn't make sense.

K- Oh, it does make sense, because we allowed them to do it. Yesterday somebody sent me a link, I get a lot of links from, what do you call it, in Egypt. She's a bank of information for all the Knowledge Seekers around the world, she bombards us with everything, everyday, .. . I call her the CNN of the Keshe Foundation. Sometimes we get things, and just with a blink, you look at it, and then you may read the article with it.

How many priests this week, or last week, convicted of child abuse in the church. Ask yourself one thing, if you're really believing in church, and I ask you one question. Does God rape His own children? Nothing else. Does God, who's the Creator of us, comes and rapes, rapes his own children, this including man and the rest of the citizens of the universe. How these people in the name of God rape children? So, now you can add, there is no, nothing called faith and religion. Unless you want to abuse. Then you make everybody else to believe it's the right thing to do. (2:08). Because it's part of your life. It's part of how you've been brought up, and everybody else gets accused when they stand in front of it. You ?? gang up when you do it.

In God's name, how can you execute someone as a protector of the name of God? And then how can you name of God as a priest, rape children? There is no religion. When it comes, when you look at it, ?? except you come and you ?? argue about it. We built these churches, we built these mosques, we built these, what I call, monsters.

Q: Not me.

K- Your father did. Did he pay a cent in the church? You know what's the strangest thing if you, I've said that many times before. When you live on the coastline of Italy, in the smallest villages, you see two or three churches, in small villages. We lived on the south coast. Every village has one or two churches 2 to 300 people, two churches, three churches. Where the heck for. They fear, they put people into the sea. They are all fishermen. They pay half, a third of their taking when he goes to the church, because the priest said, in the fear of coming alive. While he's away, the wife is playing outside, she paid a third as a penitence to the church, to the priests, most probably priest is one of them. Then the guy comes and pay a third of it, out of his own pocket, to the church. So, he works for one third job, two third church takes, that's why there are so many churches. Our forefathers encouraged out of fear to do this. (2:10).

When a soldier has to rape a girl of 10 - 12 years old before put a bullet in her head, because you cannot execute a virgin, now you can understand, religion don't exist. And this is a rule in Iran today. They get people as demonstrating, they rape them, and then they shoot them, and in whose, in God's name. What made the ?? religion. How many of them has been done by Ayatollahs themselves? Because the girl was too beautiful to miss. So, religion doesn't exist.

Don't ever worry about church attacking the Moon, it does not exist, because there is no one, if anybody that goes to the Moon realizes churches are nothing but jokes, and mosques, and the rest of it. You believe in a prophet, in the message, yes, the rest of it is manmade for abuse of man.

Any other question?

Q: .. You talked about the willingness of the patient, to the person who has addiction or sickness to be cured of his situation. As a psychotherapy practitioner, (2:12). I met people that, they are not aware of their will to hold on to their own disease, because they gain whatever it is, in their own soul structure. They are not aware of their holding to the disease. So, how it can work with the technology that you talk about?

K- You see, you look at it from outside in, we look at it from inside out. The lady we talked about could walk in the first ten minutes, five minutes, more or less, of listening them talking to the doctors. It was obvious the condition was self-inflicted from inside. With a couple of questions asked, it came on the table, why. Then they realize it's self inflicted. You understand? We have to , I said, as doctors view from outside in, why they behave like this, psychologists, why did they do this? But, if you go inside and see what emotion was created and let the Soul balance that emotion, your patient walks away with no condition.

This is what you don't have. This is what you don't have as a present doctors. If you put the systems we have in your surgeries, as psychologist, you become god, you'll have a queue as worse than the MacDonald's queue in Moscow. (2:14). Thousands of people

queuing up to go in. This is the beauty with this technology. Now we allow the process, to understand, to come from inside to outside, and the physicality walks.

There's something I was explaining to one of our doctors yesterday or this week. You are a doctor, you've seen people who are crippled in bed for years. Even if you help them you need to give them physiotherapy for months for their leg, which hasn't move. You know, when you lock it, it cannot move.

But how come people which go through this process walk instantly? Without any physiotherapy? What happens? Yesterday the lady was telling me, it's like I'm walking in the cloud. I don't feel my body. I'm walking and walking, but I feel I have no weight. I said, my darling, you're walking in the envelope of your Soul, that's why you walk, the body is not in a normal condition. These people don't understand this yet. When your Soul expands, and you want to carry on with that, process that you can walk, and then you tell us that your body is so light, it's like that, you know, you're in the space. That answers to us, that there is an interaction of the envelope, the Soul of the person with the Earth. The walking they do, it's like walking on the Moon, you carry one fifth of the weight. You understand? The Soul is doing the job.

When I tell you that the lady walks and she can't stop walking, yes. But we observe the, we've seen it many times. There is a change in the layer of the light where they walk, when they walk like this. (2:16). You see that they're walking within the Soul, within the field. And when this happens, the Soul picks up, the brain picks up the condition, that, that is how it should be, and then they walk easily when the Soul interacts. This is a new tool in the world of science of knowledge, it's amazing.

Many times, people even go into the system, they come out and say, this part of my body up, I feel I'm in a envelope. Yes, because this is the part when there is a dynamic system of your intestine and everything else. And you don't have that tool. Now the tool is there, you can do. You get one of your patients who you have a problem with in that direction, connect him to us, while you're on the line as a doctor, we go through the process and you'll see how they change.
In the Keshe Foundation, we are not looking for physicians, we are looking for psychologists. If you are good in your job, we can bring all the patients to you and you can monitor, through it, the way we do with the other doctors. You understand? You are given a new tool, you become god, because when somebody comes to you, cannot do something, and then they understand what they've done wrong to themselves by themselves, and they go out with no problem. How many people they'll bring back to you? You understand? It's a different understanding.

Q: Let me see if I if I can understand what you talk about, the process. So, a person comes and he says that he wants to get relieved of his, let's say, addiction. And in a few questions we understand together if this will have his is a real one of his soul? (2:18).

K- It doesn't matter. It's irrelevant. You just say, no problem. Because you see, they have lied to themselves so much, or the condition of emotion has brought so many lies. They don't differ between the lie and the truth in different part of the emotion.

Q: Exactly. That's where I see a gap. They don't understand if what they feel about themselves, it's a truth or a lie.

K- With this system, you don't have that worry, because the Soul goes and balances everything. You understand? So, there is no lying done to the different parts of the emotion to satisfy different part of it. I take drugs because I have pain, and I can't get rid of the pain. I take drugs because my parents hurt me. I can't stand my father this way, so I take. How many excuses we heard people taking drugs? Different drugs.

But with this, there is no excuses, you can't lie to lie behind it, to lie. What happen when the father dies? He used to torture me, now I still have to smoke cocaine. You understand? So, it is from outside, creating the emotion inside. Now with the new technology, we create an emotion, which comes from inside to balance whatever clouds has been in the emotion, and then outside physicality, see no needs for it.

We did this in Belgium, I've said that before, a few years ago. We had a Pakistani guy living somewhere around Birmingham. He had a stroke in the upper spine, just under the main brain, when he was 19, (2:20). and the father suddenly died of an accident. The shock gave him a stroke, and he was paralyzed from neck down. He came to me when he was about 43, I think, he came with a few people. I said, who are these? He said, oh, these are my children, and these are my grandchildren. They came in a minibus from Manchester, or from Birmingham. He was paralyzed. He took weed and cocaine to suppress the pains of physicality he had with it.

I said, with a stroke you had you can't have it. You're taking these to satisfy the emotion of death of the Father, you can't accept. He said, maybe, but I take it because it's too… I said, let's do something, we gave him a structure the way it is now, but in a different form, and a couple of days, when they went back, when they had a system to use. He said, I can't touch any thing. I can't even touch a cigarette, it tastes of manure. I said, because now your Soul has sorted out your problem. Your problem was you couldn't say goodbye to your dad, and you loved him so much. And he said, that's the answer. He walked. He flew in next time through Brussels Airport, to see us with his children. When they brought him the first time with a wheelchair in the back. We have videos of him walking in.

It's what we accept and what we lie to it, because the actual thing, he didn't want to walk, and the stroke, because he could not say goodbye to the dad. Without the father he was nothing at the age of nineteen. When you do the healing from the inside out, nobody can lie to know one. When from outside in, they lie to each other a lot. (2:22).

Join us, if you want to speak to us, and it'd be beautiful to have you on board as a psychologist.

Q: Yeah.
K- Where do you live?
Q: I'm in Israel.
K- Shalom.
Q: Shalom. I'm very new to your Foundation, and your work, and it's really fascinating. So, I'm studying to get to know and see what resonates with me, and how can I be of use to what you do.
K- Go to my private email, I'll speak with you. We are doing a lot of work in Israel. We are doing a lot of work to negotiate between Iran and Israel. And we lost our Universal Council member about two weeks ago in a car accident in Tel Aviv. He was a key person for our work. Rick, can you send her, the lady, privately my private email?
R: She will have to connect with me, or send it to me.
Q: If I send you on the chat?
K- Send it to me directly, you see me on chat.
Okay, can you check your email? I sent you my private email on your chat on this one. (2:24). Just one second. And I'll put you in touch with the other psychologists and doctors who work with us. Can you tell me you got it in the chat on the Zoom in the private? Don't read it, please. Just check it if you can read it.
Q: Yes, I got it.
K- Okay. We can do a lot. I have a lot of cousins and relatives in Israel. So, we can do a lot of things. Thank you very much.

Any other questions?

Q: ... (2:26). .. He says, dear Mr. Keshe, earlier you said that sex addiction could not be addressed, because it is connected to survival of the species. What has changed to also balance this condition now?

K- Nothing has changed. We have set our systems and we've tested it. It can be done now with this system. But as I said, we fiddle with our things in the system. This is a psychosomatic addiction, and now the process is there. It can be done. Our technicians have made a beautiful switch in this new system.

Any other question?

Q: .. What about gambling, it's one of the worst and most devastating addictions? Thank you, Mr. Keshe, for shedding light on this.

K- It's one of the easiest addictions to overcome. It's one of the easiest addictions. If you're a gambler, come in on the 15th, see if it brings a small change, then get in touch with, what I call it, the health@spaceshipinstitue.org, (2:28) with a few sessions you can walk away from it. Our doctors have all the knowledge to do it.

R: That will be on the 19th, correct?
K- It will be on the 19th, yeah.
R: Is there a link for that?

K- The 19th session is not put up, we'll put up in next couple of days. But the one for the 16th is put up. Whenever you came for whatever you wish, can you do this, ?? can come in and see if you can do it for yourself.

Any other questions?

Q: .. I heard about Mr. Keshe's magnets for wood and plastic, and she wants more information about that. And she has apparently created her own energy device and has observed electromagnetic fields on the wooden table, on which the device is placed. She says, using an electricians stylists, I'm assuming a meter, and has a few questions.

K- We have to see the system. We've got to see it, we've got to have the picture of the system. What is that system, then we talk about the table. Table on its own gathers energy, but how do you drain it? But we've got to see the system. (2:30).

R: I've seen that around the Gans box, just a simple Gans reactor. The table itself will give off fields, so that it's measurable by a meter. I don't normally think of a table as having a charge necessarily, but…

K- You see. There is a difference if you get a voltage, and there is a difference if you get a current, that is a power system. Then if you can make it usable in any shape or form. A lot of people see voltages, but when you ask them to measure the current, there is no current. It means you have the difference of the height, you've got a waterfall, you have a waterfall, big height, used to be, now it's dried up, there is no water dropping. You understand? You have to have a waterfall, and you have to have a water running that you create, that waterfall is the current, and the water dropping off is the current, and the waterfall is the voltage. The height from this space to that is there. If you don't have no water, it's no use to have a fall.

R: Yeah, great potential, so to speak, but not actualized. No water.

K- In the world of plasma technology there's a technique, that I'm trying hard to teach our team here in Linz, that you can change the height, the potential difference, to a current. (2:32). There is a way. You can't do it in the matter state, in matter state it's impossibility.

But in matter state we see it, but we don't understand it. You call it alkaline and acidity. If you go to the extreme point of acidity you become alkaline. In the world of plasma if you go to a point of extreme, the voltage becomes current. You produce current out of voltage, but you have to understand the knowledge.

In a way you will close the loop, that there is no height, and whatever is there, it becomes moving, which is the field. This is something, I see a lot of Knowledge Seekers do this, "oh, I have 20 volts, I get 15 volts. What was the current in that? You have a beautiful waterfall. but nothing falling of it. Only when the waterfalls you can put a generator at the button to create energy and electricity, otherwise your dam is dry.

R: We get that with so called static electricity in a way. The potential is there and it doesn't really do anything unless there's a sudden spark, that occurs which might…

K- It's the energy of the environment. It takes the energy. That spark actually comes from the energy around the environment trying to get in, but there is no energy. That's how you get that spark. It's like blowing a balloon, if you look at it. (2:34). You know you get that spark, static energy is created. You created a vacuum inside and when you're trying to get the energy outside holding the vacuum, you get that spark, it's like a balloon blowing (popping).

R: Anything special about the wooden and plastic magnets, which you've shown before actually, I think it was in the Kids Knowledge Seekers Workshop.

K- I did that 15 years ago. I wanted to show that they can convert energy. That you can move plastic, or you can use plastic to move metals. Yeah. It comes from understanding more or less, of maybe in a simple way, of making a stainless steel. When you confuse the atoms, you dictate it. It's just like, you know, when you put a head of sheep's down the line and confuse them, you can get them to where you want. If you leave them, they're on everywhere. This is how stainless steel is made. Stainless steel is the same iron. The way they extrude it and they fold it, they confuse the atoms and so they are not metal anymore, but they are metal. In a way, they are not magnetic anymore. It's the same way.

If you look at it, I use magnets in a very specific way, they're extremely strong magnets, what I use, and there is a motion to it, that it makes the plastic move. (2:36). You've got to look at the plastic construction, has… and you cannot move all the plastics like this. You use plastics which have the nearest chemical combination to iron, collectively. If you look at like COHN, you have a Carbon of 12, a Hydrogen of 1, the other one 13, and then you have a 16, 12 and 16, Oxygen 16, and 12 is 28 - 29. Then you have the, what you call it, the Carbon near about 42 – 43, roughly isotope wise. So, from 42, round to get to 58 or 56, you only need an additional Carbon Oxygenated and the other one.

This is how magnetic field is created in our body. You have the amino acid, and then you have that element of Oxygen, which is about 40 - 41, depending on isotopes, with the Oxygen from the air becomes near to about 56, interacts with the magnetic field of the Earth and creates that plasma condition for holding in the Soul.

The dynamic, that Oxygen we take in, it's not just… that Oxygen dictates what strength iron level we create in our body, (2:38). near to 56, that it can, can interact with the, what I call, magnetic field of the Earth, and becomes a generator of energy. That's how we create most of our energy. The flow of our blood. That's why when we get older the blood flow Oxygen intake changes, it changes our physical characteristics.

The Oxygen is needed in interaction with the amino acid (AA) to create near enough to iron, that in the angle of motion with the iron, which is again attached to hemoglobin, creates the dynamism to create energy, and field and motion in the blood. That in turn,

has the strength to interact with the Soul, that the blood outside and the Soul inside, dictates what we call, the Tokomak system, to contain the Soul with the blood flow in the skull. But we hold the Soul attached to the body, because most of the magnetic field created by the blood is underneath it, in our organs, in our heart.

And as we get older, this gap between the Soul and the heart, we bends forward, we tend to bend, and that changes, that gives more energy to the Soul, it becomes the point of death. If you can keep upright, and keep the distance, and take enough oxygen, that's why I say, when you do a sports, you need to do a sport, it's to keep that oxygen, that conversion, creation with amino acid, creates that iron level, that in interaction with the circulation and the Earth's magnetic fields dictates the, what we call, energy, that we call it, emotion and everything else which comes with the ?? blood of man. (2:40).

Then body uses that energy again in the brain, to create the current in the neural system. In a way, our body, the field flow in the blood by the oxygen, in interaction with itself and the specific condition of the cells of the brain creates, generates the electricity, which we call, to go to our arms and our neural system ?? works. It's a one self system, what do you call, technology. And it's all because of that oxygenation of the air we take in, as an energy plasma, which interacts with the Gans plasma of the amino acid, which is part of ourselves. Then it leads to, what do you call, creation of the current, which our neural system uses. And then our neural system with the interaction field flow of the blood again, leads to the creation of the Calcium, which is needed for every cell to work on.

Because Calcium again has that factor of, if you look at the Calcium in the, what you call it, the Periodic Table, the Potassium, Calcium and the Sodium in that bracket, allows you to create that 56 inner connection, which allows the solidification, that's why our bones are solid. It's a well set up system.

Oxygen, which we breath, dictates the generation of the magnetic field with the, what you call it, with the iron and with the amino acid, which the difference between the two create the circulation, the motion of the blood, and not the heart, (2:42). the heart is collector of the energies, and when it releases it, we see it, but in fact, the whole motion comes from interaction of the hemoglobin, and what you call it, the amino acid, with oxygen and iron content of the blood, it's a repetitive condition. Iron becomes like when you get a water in the body, in the generator, and the hemoglobin or, what we call, the amino acid and the oxygen become that magnetic fields with the iron as a plasma. Then this creates energy which crosses the brain and crosses the, what you call it, neural system from the energy of the neural system. Then the two interact lead the creation of the cells according to the position, and strength, and the dimension of the blood vessels on neural system.

That's why we see bigger arteries in the main body trunk, because they create a huge magnetic field, they can create stronger fields like organs, and then when they diminish, we see the fingers, the blood vessels in the fingers, and the neural system is of the same structure. One leads to creation and life of the other, and then the interaction between the two of them leads to creation of cells of according to the salinity and what, how much

Calcium is allowed to be in each cell. The world of creation on this planet is amazing, if you understand the process of it.

Any other question?

Q: .. We know that the energy of the Soul is huge. (2:44). Can a man sacrifice his Soul and spirit, and never exist in any dimension, and give that energy to all Earth people to elevate the Soul and spirit of humanity, like a star explosion?

K- Presumably you can. But you've got to understand, is the strength of the Soul you trying to donate or sacrifice, matches to the rest of the humanity's Souls in the strength? This is one of the biggest problem. I always say, you go into the stadium, you don't see no .. you see 100,000 people, you have no emotion. You walk outside, you see out of the same stadium, you're walking on streets and you fall in love. Because the field strength you've created in your heart matches his. That's, the 2 match. That's how you fall in love. And after a few years, we eat different foods, the fields strength changes, and you fall out of love. Simple as that.

So, you have to find if your Soul matches with the rest of the energy, even though it's a plasma, and it's a collective of all fields. We say, you can take a horse to the water, but you cannot make it drink. You can give everything to it, but if there's no receiver, sorry, your Soul, the fields of your Soul will travel to another dimension, another position, till it matches somebody, it could be in another galaxy. You had a good wish, but it was not consumed on this planet.

Any other question?

Q: … John Wells from Argentina. (2:46). And he's wondering if they can arrange the payments through Brazil, as they are having many problems with the transfer of money?

K- Yes, yes, yes, yes. We have said that. This has already been structured by Rafael from the office in Sao Paulo.

Very soon, in the next, most probably few months, Keshe Foundation will have a headquarters in Uruguay, in conjunction with another organization. A lot of Argentineans go to Uruguay, one of the centers will move to Uruguay. We're told it's a very beautiful group there. Then, what you call it, you can have a possibility to work with Uruguay or Brazil, either way. If you are in Mexico, you cannot go to the Mexico office in Tijuana. Mexico operation of the Keshe Foundation is under the Markray, which is part of the American Stock Exchange. But you can go to Brazil if you want to make anything in Southern hemisphere of the United States, what you call it, US continent, the American continent down there, you can work at the moment with Brazil, then very soon Uruguay.

Any other question?

Q: .. How do you define human thoughts?

K- It’s all interaction of fields. To me everything is, (2:48). very much, understanding of how things interact with each other. That's all.

Any other question?

Q: .. So, when the soul elevates and the cells open up, does the physical body start to become transparent in that process? And is it the same when you wake up in your sleep, wide awake, flying in a beautiful light, still aware you are physically asleep on your bed? Does it create the condensation you said, because the friction fields of the Soul and spirit similar to the Sun and Earth?

K- Yes, we always have it. If you, if you do, what they call, the aura of the head, it’s very different than the aura of the body. Usually if you can detect it, if you can observe it, if you can set it out, you can clearly explain the psychological pattern of the person.

Russians have done a lot of work like this. Russian scientists have done a lot of work on this. When you read some of the papers, but they got lost, they got, what you call it, detracted, or sidetracked, instead of going directly into it. (2:50). In the West we did not do that much research. In the communist time of the USSR they did a lot of research on these kinds of things, trying to control the man through psychology. Whoever they couldn’t control they put them in psychiatric hospitals, it doesn’t matter if you are a professor, or a general, or whatever. You didn’t fit, you became psychotic.

Any other question?

Q: .. The Nano plates (means Nano coated mirrors) from the KF store are unbelievable. They're so powerful. I normally feel no energy flow. But with these plates my whole hand is crible, crabble. Wow, wonderful!

K- We will use this for the people who bought it, what you call it, in the very near future. As the lady told me yesterday, I got your cheap plates. I said, what? I was just joking, she said. Yeah, at a 1,000 Euro a pair, they are very expensive and hard to make. Everything was sold in the first few days. I don't know if they’re taking orders on it. But when it comes to transmutation these become very, very handy.

Any other question?

Q: Is there a relation between the Bahai faith and the teachings of the Unicose and plasma fields? (2:52).

K- Not really. The Bahai faith is very, what I call, has lost its track, the present way they are going. They became more materialistic, faster than the Christians, and the Jews, and ?? faith. The hypocrisy of taking their own dimension, and the real teaching of Bahá'u'lláh, bless his name, it’s not there, it doesn't come. They tried to understand it, but they never understood it.

Q: .. There was a gentleman named Marco Roden, who has put out the knowledge of vortex based mathematics and he uses very similar methods of relating to the Creator, he use utilizes specific ratios of mathematics like 3, 6 and 9 to achieve huge amounts of usable energy through copper coils shaped like Toroid. Though this is still matters state the fields that are produced when running a load through these toroidal shaped coils put out a huge field, when hertz frequencies or pulse through it. Are these fields that can be utilized for healing and energy use, similar to plasma fields, even though he is utilizing no Nano coating in his processes?

K- I don't know what you're talking about. I have no knowledge, so I cannot make a comment.

R: Okay. Yeah, that was popular a few years ago, (2:54). Marco Roden, and he had these special coils, that he creates and so on. He is also into the Bahai, that was part of the whole thing that he was putting forward about this technology, but we hadn't heard too much about it in the last few years.

Q: What happens if I fall asleep during the booked session on December 16th?

K- Have a good nap. You physically fall asleep, but the Soul is active. Many, many people in the Flight system fall asleep, but they tell you, I fall asleep, but if you dig into it, they've been somewhere, they've done something. The sleep is the job of physicality, Soul doesn't sleep. If the Soul sleeps, you are dead. Put it this way, the engine doesn't work, you don't expect the car to run, do you?

Any other question?

Q: .. Today is a national day of Romania. So we celebrate my villages in the first December, I mean my locality. I am living in the heart and in the soul of Romania, (2:56). and today my question to you is related to the soul of plants, and if our technology could help a vertical farming.
K- What?
Q: Vertical farming.
K- Yeah.
Q: Making farming on the vertical, not on the horizontal. Create the seeds, maybe growing seeds, utilizing this when the weather is not so friendly.
K- I don't understand what you're asking.
Q: Yeah, if we can utilize plasma for vertical farming, I mean.
K- It's been done by many, many people.
Q: I don't know, that's why I am asking you.
K- The Italians brought the system out years ago when we went to South of Italy, seven, eight years ago. It doesn't make any difference how you do it. Yes, it's been done and a lot of people use it.
Q: Last time you said that utilizing the plasma we can reverse the weed, and create the original non modified…

K- There is a special way to do it, it is a process, you have to understand the process.
Q: Would you teach us?
K- No.
Q: No… Because I'm buying this, and I'd like to do it myself…
K- Why do you want the wheat grass, now you don't want the wheat anymore? No.
Q: No, I don't eat meat, I am vegetarian and… (2:58).
R: He said wheat, not meat.

Q: Because it's a complete, I want to make a juice, green juice from this plant. And usually I don't eat bread, but I eat seeds of the wheat, when they start to germinate. When I was student I was very poor, I use to eat only this and with honey. I give also to many friends, because I use these grains and I put to germinate in water, and just eat it with honey, and I never was sick, never.

K- Thank you very much. ….

Q: .. How do you connect with the Universal Community? Do you use a technology

K- For me, don't. (3:00). I know how to do. For you, I don't know how you do it. It's one of the simplest things to do. You have to be aware of time and space. But you've got to understand, there is no time and there is no the space, then you dictate.

A river doesn't exist till the drops of water collected make that river, and then that river has energy, and it's got a time, and a place, and a space. It's that, how you bring the drops together to create that time and space, and that's the Ethos of life in the Universe.

A star doesn't exist, till they bring enough elements of the fields and energy, that the interaction leads to creation of a star, and then the life exists. It's the same with the life in the womb of the mother. You've got to learn how to bring the fields together in a given configuration, and then at that moment you create a space and time for it. As I said, that time, there is zero time and zero space. Then you can be anywhere in the universe.

This is part of what we do in the Enhancement Units which are set for the space travel. Then that's why we always use two units, not one. (3:02). When you have two units in transition between the one to the other, you create the space, and in that time and point you create the time, and then you can position one of these to be on the Moon, and that's where you literally divert, in transition from one system to another. You're diverted to the third position. That's how you're brought back.

But that the third position is connected to you, dimension of your Soul, and your wishes, and the understanding of the Soul of the Moon. It's a very, very simple thing, but then you create that Moon, you create that energy.

Some of you who went into the system and you explained you could touch, we had the guy who was touching the sand, picking up the stones on the Moon. In fact, it was the

Soul, but trying to create the dimension of physicality. In that ?? dimension, we gave him even the thing to put it in, I told him to put on the side of the system.

If you create the soul of the Moon in our system, you will get the stones. You need to create two things, one is the Inertia, which is what we call, the spirit, and then you need the gravity, which is interaction of the fields, or what is ?? actually the Soul of a planet.

We understand this knowledge fully, that's why we manipulate it. If on, like on the Thursday teaching, I block part of the system, none of you can imagine physical, you'll all be dangling in the emotional feeling. (3:04).

Any other question?

R: I think you've pretty much covered it here, actually, Mr. Keshe.

K- Thank you very much.
Please, join us in the, what you call, the 16th. If you are other condition, you want to join on the 19th, and we have made accommodation for a lot of things. We extend it, if it needs be.

But this is what you have asked us to do, this is what, what you call it, in a way, technologically we are responding to what is now possible to do. As I said, come with a wish list, and see how fast you can cover it, if you can't do it, don't go too fast, do it the next time. Once you get the taste of it, if you see it can be done, if you see you're there, then come back to us. In a way, we are simply putting a taster out for you, for you to be able to complete the other part of it, and if you need our help we complete it ourselves. (3:06). You still can get in touch with health@spaceshipinstitute.org, for large number of questions, or requests you send us for our doctors, for the, what you call it, the processing, and they will respond to you.
Thank you very much, and see you next week.

461 KSW December 1, 2022

462nd Knowledge Seekers Workshop; December 8, 2022

(Transcription, Proofing done)
(Auto transcription by Elias)

1 CR create totality of creation; Don't need egg & sperm - life from fields; STM from lower and higher order - connected to all dimensions; our Unicose inside larger Unicose - our Creator created from love of 2 Souls; "Comprehensive Universal Plasma Coverage" meets all man's needs - start governing; 2 teachings on sex and love - God addicted man

to sex to create more for Him and U; Planet has special fields of love - now home of Creator & Mitra; STM to spread love throughout U; Prepare of 16th test;

ENGLISH TRANSCRIPTION

(:16).

K- Yes, good morning, good day to you, as usual, wherever, whenever you listen to this series of the Keshe Foundation Spaceship Institute. As we always say, to share knowledge and learn from each other. We welcome you back to another session of knowledge sharing and understanding the Totality, in one way or the other. As it comes that we mature to receive the knowledge as a fields of the universe (U).

We used to claim, that somebody was special and could understand different dimensions of it. As I remember a talk from the United Nation offices in Brussels some years ago, when we met them, to explain to them, that they'd be responsible for management of the Keshe Foundation on my passing. The head of United Nation gave us access in the afternoon, because they had to get instructions from New York. (:18). He said, Mr. Keshe there are every few 100 years, a scientist who can understand many dimensions (D), and the last one was DaVinci.

And in a way, the way we have taught you, you all have become DaVinci's. You all now understand from the agriculture to the health, from the how the organs of the body really works, that you didn't have to steal dead bodies from god knows where to do examination. Now you do it yourself with openness of mind, and understanding of the energy transfer of transmutation. You understand the work of the Universe, you understand a lot, how to go from one place to another. And so we have made DaVinci's out of the Souls of Physicality (STP) of the man of to today. It's you who has to decide which way this knowledge. You have to decide in how we understand this knowledge, and how we apply it, and how it suits us. And how we create that accommodation for the future.

In today's teaching, we try to split the teaching in 2 or 3 parts, maybe more, but all depends how we take it and we go forward. Yesterday, we had the pleasure of having two or three members of the Universal Council in Linz with us. And it was a pleasure to see the humbleness and the servitudes in all of them. It is a pleasure to see how they are connecting, how they understand each other, how in simple words, (:20). you see, you tick another box - yes, they have achieved that level. When you see when you see them, when you talk to them, they don't go to ask for wealth. They don't ask for anything else, but all of them ask for elevation of the man, elevation of the Soul of the Man (STM). And Universal Council members are reaching that point. They don't ask in the systems, when they are in Linz or outside, anything, that I become wealthy, or this, or that.

They are there, they connect to each other to bring that elevation of the STM. And that elevation has arrived. Mankind gradually will come to that point to understand more. Mankind gradually understands more and more in how things are done. One of the cornerstones of the knowledge to be understood, for man to become passengers of the universe. And what I call, good citizens of this planet, or any position in the universe, is to know that everything he needs is free, Cosmic Rays (CR) will supply.

In some cases, we have to set up the structure for it to become a habit. And then the structure we set up, becomes obsolete. In due course, as more and more people learn how to use it. But we have to set up these structures, we have to bring these structures that in doing so, you become part of. You become Totality of. You become in a way, members of the Universal Community (UC), without the Universal Community.

What will be interesting is to see how the man moves from this position. Man has been subordinates to governors, rulers, and everything else, except himself. Even the richest man is subject to another president. (:22). And the richest president, the most powerful president is a slave to another group who puts him there. Man has, should be free of these things. And to that effect, to teach mankind to move on, we have brought in the new conditions. Understanding a work of the Cosmic Rays sits within the structure of the understanding of the work of the STM.

Once mankind understands how cosmic rays are produced, how they're controlled, in which level, and how they are manipulated to create a condition of what is needed, mankind will find out, will tap into the Universal Community and universal energy in a direct way. But it takes time, because he ignored it. He in a way over time and never understood what was part of him. To this effect, is the job of creating One Nation, and in that nation, no rulers, no one to be the head of, but all to be in position, and the condition to achieve. These things takes time, step by step, for mankind to develop to understand.

Our scientists, the people who work around the Keshe Foundation are getting enlightened, they can see. Slowly and gradually, they understand what it means, is the cosmic rays, which facilitates what we brought you for three years, with the Soul of the Man. Without the cosmic rays without in a way, when we say cosmic rays, is "Creator rays," the emission, the enlightenment of the knowledge, through the knowledge, and the fields of the Creator. That's what to us is a cosmic ray, not what you see a new consider in the present world of physics.

Once you understand, we have the control. (:24). Once we understand the process of the release of different fields in the cosmic rays. Even the matter estate is part of that cosmic rays, then we become independent. Then we learn how to tap into it, then we become the creatures of the universe.

In a way, we taught you about the Nano coating, Gans's, and the Soul, but the creator of these are the cosmic rays. It's the amalgamation of those who create the matter states. It's amalgamation of interaction of those, which creates the Gans's. Is amalgamation of the fields of the Gans's, as a sperm or an egg, or an energy fields of the brain, creates the

Soul. Now you understand why we brought you to this point to understand the essence of CR.

In that process, man gradually will be graduated, to understand the Totality. It took us time to teach you in Nano technology, and the Gans technology (T), and Soul of the Man. And now you meet the Creator of all. The fields of the universe, from the Source, from the Creator, from subdivision and interaction of the fields of its own, and none others.

In a way, the cleverness of the creation was very simple, one single ray led to the creation of Totality. Many of you, you should have understood this. In Book 3 I clearly explained this. In Book 3, I brought everything to be understood. But is what it was, (:26). and what was not understood. Which is what I call, the exciting part of the teaching, the understanding of the Totality. We all come from one ray. We all come from the essence of the Creation of the Creator, and nothing else.

In so many ways, we have become wise to understanding of the Totality. Go back to the books. Go back to what ever I have taught over decades. Always comes from one field, the essence of the Creation, the division of the fields of the universe, and understanding of the totality of the interaction. When you look into the Book number one, when you look into the depths of the understanding of the knowledge, and technology, what do you see? All comes from one place. Again ?? from one and ends form one. And how it actually appears to be, is the essence of the Creation, and the totality of the what I call, the work of the Creator.

When you look into the rays of the Sun. When you look into the rays of the STM, when you look in the dimension of understanding of the Totality, it all comes from one ray. But in interacting with itself, in absorbing and releasing from its essence, leads to the creation of the rest. So, in fact, the Creation and the Creator is one. Look at the way I have drawn the shapes of the plasma over decades. It's one line circling around itself. No more. And interaction of circling around itself, (:28). leads to the creation of, interaction of, division of, and creation of. Depends on which level it interacts. Depends on what level it comes to ?? meet its destiny. In a way, understand its Totality.

Mankind needs to understand this, and once he understands, that it all comes from one, mankind it will see the Totality of the knowledge. In a way mankind become wise, to become, to understand his own creation. And then we come to one point. If the Soul of the Man is the creator of the man, so where did the fields of the rays of the Creation came from?

In so many ways, the interaction is at every level. And what bit, different strength, created, that lead in one point or another, to one creation or the other. So the life exists in all dimensions. The life exists out of interaction of every point. So life as an intelligence, as a man of the universe, is in every point of the Creation.

Sometimes in the field of the universe, in traveling the span of the universe, they attract, they extract, and they meet, (:30). and leads to the creation of what we call, a new life, a

new understanding. Carrying both of the lower and higher order. And that point becomes a unique creation, that itself by itself, becomes a connection between all dimensions. And, in reality, part of the life of the Man, what we see as a man, sits in this point. We carry both the dimension of the matter state, and the higher order the STM, and that creates a condition of the fields of the universe to work within the physicality (P) of the man, which the man calls, the spirit. Where the essence of. Where the creation of, the center of it, is the STM.

Now, you understand how, and why we have to teach you about cosmic rays. And why the reason for it is, your Soul is connected to it, is created out of it. And it will take you, if you understand it, to every position in the universe, in how you interact, even to the Creator.

Now you understand the essence of the Creation. Many times you asked, how do we? Where is God? How was He created, and what was the essence of His Creation. In fact, you're all connected, all of us, in every shape or form, every creation in the universe, connected under one shoe string of the fields of the Creator, in every essence of Creation. (:32). Now, you understand, as I repeat again, why we taught you about Nano technology, the Gans technology, and 2 or 3 years about the Soul. Where every one condition, leads to the creation of the other, but we made you to understand the creation of your own Soul.

And then it comes to the biggest question for man to understand, do we need a physical body to create that Soul? Do we need the egg and sperm, which man has confined his knowledge to it, for past millions of years. Now, man understands, even the sperm and egg are the source, are the essence of the delivery of that field to create the sparkle. The first what I call, trigger lights, of the creation of the condition for the fields of the universe to come together, to lead to the creation of the Soul. Then do we need a man and a woman to create the condition of the creation, or by the interaction of the fields of the universe, understanding the work of the what we call, cosmic rays, creation of the original fields, we can lead to creation of life at any point, and any situation, and anywhere in the U.

I made man image but Myself, because now man is from Me, that is made of. It's me who decides to what portion I ?? divide. (:34). Then you understand what we said in the past few weeks, last week, or the week before, I mentioned, that we had a request from two ladies, that they would like both to be pregnant in Germany. They love each other, but they still want to be the Creator of. And answer was yes. In a way, we create the condition of the plasma of the soul within the structure of the physicality of the Man. And then that physicality takes shape in that physical condition, and a dimension of a child.

Up to now men gave life, but not understanding, by putting bits of the plasma of the cosmic rays in the womb of the mother, and you called it, an egg and sperm. Now we understand how to create that cosmic fields. How to trigger that point of creation. Do we need a man and a woman? Do we need the condition of what we call, X chromosome and Y chromosomes. Now you understand why we took to tackle the knowledge with the two

brothers, which we brought last week, or two weeks ago. And we had the pleasure to have them with us yesterday, as the process of the change, in the what you call, chromosomes, and we call the line of Creation has begun.

Mankind has reached to the point that there should be no limitation understanding that knowledge of the Creation was here understands the process of creation of cosmic rays. The rays of the Creator. Then you understand, how advanced technology has been gifted to the man. It's not a UFO, it's not the child of the Soul of the Man, (:36) it's how that soul travels on the fields of the universe of the Creator. Now, if you understood, when you come and reach to your dimension of the Soul in Linz, in the machines, then if you understood, you can choose where to go, the depths of the ocean of the universe, or as man does, in the ocean of the mermaids, in the waters and the ocean of the planet Earth.

Now, you understand why, why we have brought this position and condition. Now you understand all this, the teaching and the knowledge had a purpose. And even when you understand this process of the Creation of Cosmic Rays, there is more knowledge to come, and that knowledge comes, that knowledge will reach the man, understanding of the man reaches that point, that how, and the process, that the Soul of the Creator was created. That it's ?? emission lead to the Creation of the universe and Unicose. In a way, you ask, where did God come from? That question comes when you understand the elevation of the STM.

Many times you ask, "who am I, and why I'm here for?" Now you understand you're part of a chain, and that chain, without you, without the ?? emission of the fields of the cosmos from your brain, from your cell, from your Soul, will not, cannot exist. I cannot ?? fall apart. if it is not part of, and it is not created by of, the same fields of the Creator. (:38).

Then it comes that man will respect every creation, as that creation is part of him. The sheep, the lamb, the apple, the what you call, the aliens and the passengers of the universe. Would I like to harm myself, or part of me, which is part of the Creator, or do I elevate like a child of me, for that soul to elevate that is more understanding, possesses more maturity than me to understand the path to the Creator.

That's where the servitude comes. That's what we see within the soul of the Universal Council members. That's what we opened this door, for that understanding. The process of Creation and the control of Cosmic Rays is the key to mankind for understanding the process of, in a very, very distant way, or instantaneous way to understand and reach the Soul of the Creator, the working of the Soul of the Creator, the working of the what led to the Creation of the Creator, that in such a massive scale its own emission has led to the Creation of His Unicose, not the Totality of the Unicose of the Creation.

Where the Soul of our Creator was created from the interaction of the Cosmic Rays of the love of two, in the condition of understanding one's love for, what we call, existence of itself. What we call, the Creator and Mitra. (:40). Understanding the generosity, I create those who will be as me. But I needed the tools to create that condition of the Creation,

and I called it Mitra. That condition, that position, that field strength, that is in interaction with me, creates the children of me.

Do we need the egg and the sperm, now that we have the knowledge? Would we create children so randomly, or would we create one, which we nourish the Soul of the Universe, and not with physicality of the Earth. It will take time for man to understand this, man needs to facilitate, man needs to be taught, man needs to be brought to the condition of it, man needs to feel himself within himself.

How would it feel when you find you got cancer, when you find you have a defect in your body, and you can go like a surgeon within yourself, and feel it, and touch it, my liver is sick, you don't have the right energy, I want to nourish you. Then you become enlightened to the power of the Creation within you. I created you, so, I look after you.

Then it brings you humbleness, that so much knowledge is within me, that I ignored about my own creation. Mankind has to evolve to this knowledge very rapidly, (:42). maybe in 10 years of the man's life, maybe in 20 years. But we have to make the facilities for it to become that you learn yourself, and then the facilities we've made become obsolete, because the man will not need us to create that condition of understanding, as he has understood himself.

But that brings us to the position and the process that the man will teach the same to every creature on this planet. That then man will live, there will be no limitation, then will not be enough Soul of the Man on this planet to keep going in a physical dimension, as the beautiful Soul of the Man will become passenger of the universe, to teach the knowledge to the other citizens of the Unicose.

We just don't teach man, for man to have a better time, don't eat, and don't cook, and don't do this. We teach you to elevate to become the messengers of the Creator, as the man has been gifted with that pleasure and understanding. Your job just begins, but in the dimension of the Soul, and not in the pleasure of physicality.

Now you understand more and more, why, as I repeated many times today, we went from the Soul to the Cosmic Ray. In a way, I taught you from the beginning, I said it last week, and I said it many times, 20% of what you consume, is what you ?? take from the Earth, 80% comes from the sources of the Creator, in the Cosmic Rays, in the Cosmic fields, that it feeds your soul, and that feeds your physicality.

Now you understand you have access to that 80%. It's you who has to decide, would you do, what you did with feeding that 20% to, (:44). or you use that 80% of Cosmic Rays to eliminate that 20%. Where you know you can create it and bring it to your own condition and creation.

Now you understand the Totality of the knowledge which is about to come, how to create the Cosmic Rays, how to make it available to every citizen, and how to make it, that you values it, and it doesn't become another tool for him to abuse himself and the others. To

this essence, Keshe Foundation has set things and the programs in the background, as we'll discuss later on today. And it's already set within the structure of the Keshe Foundation on the internet, to give you, to understand that the One Nation, One Planet, One Citizen, and One Man program has started.

We bring it in step by step, that man does not get too excited and destroy everything from the root. He understands himself, he understands to look after himself, he understands to feed himself, he understands how to become part of the society of the Soul of the Universe and Unicose, and not the individuality of the physicality of the man.

In so many ways, mankind will be matured to the Totality of the knowledge of the Creation in the coming months and years, through the teachings. Step by step, we'll bring and the mechanical systems, what it needs for man to gradually start learning about himself, and changing the condition of the government and governing, through the interaction of the Totality of the Soul of the Mankind, and not through the fake offices of the presidents, Ayatollahs, and Mullahs, and the Pope, and the rest. (:46).

I see the return of the stones of Vatican to Coliseum, in a handful of years. I see even the man makes that Coliseum, will make the place for celebration of the STM, and not the physicality of the man. And mankind as a whole, where the kind, is the man and the citizens of this planet, and the universe. The arena of the, what we call, the fields within what we ?? sell of the Coliseum of the universe, will sit within the heart of the man, the heart of the STM and the STM itself.

Mankind will learn a lot when he understands his position, mankind will learn a lot when mankind understands it’s equal, does not matter where its citizens are, city, country, the Earth, part of the universe, or Totality or the Unicose, because if man elevates, now man becomes the man himself, which is, "I made man in the image of Myself," which is me, as a man to be the Creator. I am the beginning, I am the end. I am the Totality of understanding myself, where myself is me and whatever is within me, which is the Unicose.

We are not here to create another prophet. We are not here to change mankind. (:48). We are here to elevate the STM, that he changes himself. I hope today you have understood the purpose and why we are moving in the direction of the Cosmic Rays. As we always said, you had to learn step by step. And now I hope you see the next step.

It will take time for you, because you're too physically involved. Worried about the food, worried about everything else, worried about where the next step comes from for me to survive. Keshe Foundation today in the second part of teaching will release a new structure for humanity. We have mixed it in both ways, that the man understands. But over the next few years, this system become obsolete, but it’s an intermediary to get him to that point. Man values his effort with money and, what we call, gold. We play the same game as you. But this way, we lead you to the point of understanding your own essence and your own Creation.

In a way, as I said, it's the story of the "prince and the physician," where he was thinking he is a cow, till he was fed, and said, "why have you shackled me as animal." This is what exactly is the true story of the man. Man has shackled himself to Earth with the physicality, and when he matures says, why have I bounded myself to this Earth with a chain of what we call, physicality. And the physician is us. We have to teach you to gradually to come to understand, it's you who shackled yourself to the planet Earth, in the dimension of physicality. (:50). Once you learn it, you do not need the systems we have set up, we are setting up for you and the rest to mature.

You've got to understand, there is no other way for man to elevate, for man to understand, if man does not understand the process of the Creation, interaction, and existence of the fields of what you call, the Cosmic Rays, and we call, the "Rays of the Creator." There is no Cosmic, if there is no Creation and the Creator.

Now, you understand, in so many ways, where the next steps of the work of the Keshe Foundation comes, creation of One Planet, One Nation, One Citizens. Then once you understood this, you become the passengers and the citizens of One Universe, One Race. Then man does not see others as aliens, but he sees, as part of himself. We had to do the teaching this way, that we don't need to go back and teach you again, that do not do this with the aliens, what do you call it, or the others, the animals, or the Creators in the Creation of other points and positions in the universe. We sow the seed of love, from the first rays of Cosmic Rays within the STM.

Let the children, and the hyperactive children of this planet play their game of I am the powerful, and the president, and the leader of the fake religions of the world of the man. (:52). The understanding of the man today has become equal to understanding of the Christ, Mohammad, Moses, and the Totality of all those who you call, as Messengers. As now, by understanding the Totality, you have become the messengers of the universe, to deliver peace, the love, the care, but not this time with gaining power, with becoming, what we call, the arrogance of understanding a fraction of the truth about the Creation.

When your Soul arrives in a position and destination to take the shape of the new creatures of that destination, you become just, you elevate them to understand that they do not have to go to the dilemma man for billions of years, in man's time, to mature to the point of understanding of today. You'll enlighten the Souls, that from the point of birth they understand the love of the Creator and the Creation.

Man is a good maker of children, and the universe creates many children, and they need to be educated, and we educate the soul of one as a mankind, to become the teachers of those in the, what we call, the Unicose of the Creator.

I hope you understood the teaching of today, and I hope for the first time mankind understands the purpose of the Creation, and the source of the Creation, and, what we call, the end of the, what we call, the cycle of Creation, as itself become the beginning of the next cycle of itself, by itself.

I welcome you to understanding of the Creation, (:54). but we have to set path for the others who do not understand, due to their need, to become to understand and then we go to other places. We take a short break and then we come back into the other parts of the teaching of today.
Rick, would you like to create a time for man to understand, or has it time to come to ?? ??

<< BREAK >> 462 KSW December 8, 2022 (1:00).

K- Would you like to go to the second session? ... After 406 times the mouse needed the rest of the feet.

Are there any questions

... I allow the head of the Keshe Foundation to take to come in, Lin, from China. Would you like to talk with us?

Q: Wang Lynn China (1:02) ... . Because I see several Chinese have already booked the activity on December 16. And but they are worried they might need translation. So I told them, I can be available if they need help. So we want to know if like, it works this way, I will have the join them as a translator for all the sessions.

K- The position is with number of languages who have come to that point, that they need translation. We need a very, very little translation and discussion in the celebration of what we call, Christmas on the 16th, for Knowledge Seekers. For each language we are allowing one translator to join in, that can explain. The Chinese translation always, you've done. The Brazilian translation has come through Rafael, we have the Farsi translation which go through one of the members of the Iranian team, and the same with the Germans and the French. The languages which are requested mainly will go through, what we call, the process of the translators.

The 16th is significant, because 16th has a backup to the 19th. If you registered for the 16th, you had better register for the 19th, but choose which one you want to be part of. Now we are receiving booking on the Monday the 19th too. So the translator will move to the Monday session of translation.

It’s to understand the interaction of your physicality. People come in with the expectation that will be, because it's Christmas, celebration and party. No. This is a party of the Souls, this is how we bring you to understand your own what we call, dimension of

understanding. (1:04). This will carry on till next year, two years, we do this regularly as the number of the people increases, and in understanding will go further.

So we will bring translators, we know number of people in Brazil have registered with the Brazilian office. People in Iran are registering with Teheran office, and the same will go with you with the Chinese. There's a new structure that will come into operation in the coming months, that the Keshe Foundation will see operation in different way. From January of this year, new conditions will be brought in.

So, for Knowledge Seekers like the Chinese or whatever, you do not need the language anymore. We provide facilities, we provide everything else, as the structure of the One Planet, One Nation, One Race is set up and has been released yesterday on the Internet. This is a preliminary structure, and it brings the work of the Keshe Foundation in a way, that we see gradually will bring what we call, "no position control."

Comprehensive Universal Plasma Coverage - start of Man govern himself

Go back, go to the Keshe Foundation website, go to the Store, you will see the evolution which we have brought in very softly since yesterday. Look at what has been set. The structure for the health of the man, will come the structure for feeding the man, will come the structure for everything else for man to govern, by man himself. Go to the pages of the Keshe Foundation sales, Store, (1:06). because it's the only place, we thought fits, because it will show you, on the right hand side, we have put on, "Comprehensive Universal Plasma Coverage," which means we cover every need of the man without a central government. Which means whatever is brought in, is put back in for the citizens of this planet, to support each other and to put everything back in.

Then we set up the structure to govern by man himself, without taxation. The last line is the most important part. "Comprehensive Plasma effort compensation," I serve without expecting to be served. But the system as a whole will serve me to be correct.

We have set out from Monday onwards, hopefully, you can start with the beginning, we brought in, if you go back, it's a small table on the left hand side on the top, which gives you a very clear indication what is to come. Comprehensive running of a system, which in the future, all these figures will change into effort. How I serve the humanity. I don't need money anymore, because I have access to the system, which feeds me, looks after me, and maintains me.

As the progressive development comes in, (1:08). we will open these channels one by one in the next two or three years. We have opened the first channel, which is the main concern of many of you .. your health. Your condition of the wellness, your condition of the feeding your society, your loved ones and the rest.

The figures put in, is according to the European standards, but it will be changed in each area. Africans cannot pay this price, the same as those in China, or the one in America can afford more. So, we bring a balancing. But it has to be, because man has a habit that,

he has no value if it's given to him free. He understands when he has, and compensates with his effort.

From beginning of 2023 we'll start this comprehensive coverage of the health, the wealth, and everything else of the man on this planet. Today, you do not feel good, you have cancer. You have tried every condition, every physiotherapy, every chemotherapy, everything else which is sitting there. And they tell you, it has metastasized, it's gone to the other part of your body. You go through the battle of the soul, what about my children? What about the loved ones I leave behind, the young ones, which I have created and they are still too weak to live?

The new understanding of science and technology, the wellness of the Man will come directly from unknown centers, which is set up by Keshe Foundation. (1:10). In a way, you do not wait till you become sick, you join for a comprehensive what I call, maintenance. Once a year, twice a year, you tune yourself by maintenance, for half an hour of your time into the central system, that it balances all the emotions, which that time has given you.

You went through a shock, you know it’s going to affect you in six years, or ten years down the line as a cancer, or whatever else. Dial the number, you balance the emotion immediately, that in 10 years will not come the cancer. I don't feel good for whatever reason, you join in as the way, I need to be energized, I need to be maintained, that I do not go weak in the physical dimension, that pick up all the problems. Then you can decide, I want a program for my family, that if it happens, I’m there to be done, I’m looked after.

In a way, we have released a comprehensive maintenance of the STM, not the physicality of the man. In the coming months, we will release what we call, the feeding of the man. As I said last week, now you see the operation has been set up, by creation and maintenance of the Cosmic Rays, we will create the condition, that you access to be fed, no man will go hungry. The process will come through the understanding and what is to be set up. (1:12).

From Monday we open these channels. You can join in and in a way, find yourself a contract for life. It's not that I come and pay when I need. You pay that it will never come, that you need to pay for. Man will live into hundreds of years from now on, if you understand this.

We will provide the food, the wellness, the heating, the travel, the communication, everything else we’ll done from one central point. In a way, you have already seen this structure in a very soft way in Linz. From one center we are reaching all of you, does not matter if you're in Australia, in South America, you live in North Canada, or you live in the jungles of Africa, you all received the knowledge, you all tune in. One of the reasons we put the 16th for this purpose, is to test our system.

This system will be very complicated. The reaching of the knowledge through the Soul, through every dimension on the 16th is a breakthrough, and testing, and how correctly we can set up the bigger structure of the international operation of the Keshe Foundation, which is for humanity. You are not coming in to see if, you are coming in for us to check our systems. We collect data from all of you during the 16th and the 19th in the operation of our system. (1:14). And in the follow up, in January and the rest, we'll add to this knowledge.

If you understand it, in the long run, there'll be one system, which will feed, which will look after wellness of the man, will provide everything the man needs from one center, one machine, and that will become in a way, the central position for interaction of the man with his own Soul.

In time you will learn how to do things yourself, how to maintain internally your own organs. Which means you go inside, you hold your liver, you hold the pancreas, if it has got a cancer, you understand, I need to give you the energy to bring a balance. Why did it happen? How did I create this condition?

As many of you know, the Keshe Foundation has started the first phase of the transmutation from the United States, and from other points of the countries of the world, into Linz. This is part of that program. In one of the trials very recently, we brought the Knowledge Seekers (KS) to hold his own liver, his own organs, and he tells us how he feels, he says, he is sick.

What we tell you is not a fairy tale, it's a reality as we are testing with Knowledge Seekers, when they hold the soul of their own child in their hands, and they nourish it to walk it out of sickness. These are the teachings which will come. And now it's already been tested. One of your Knowledge Seekers knows exactly how its liver worked, (1:16). and was, and what other organs were, through the transmutation time. One of you knew the taste of the mango and how it went through the organs. The taste, the emotion.

The transmutation comes for us to understand how we can move you from one place to another, and what will be the end when you come out. It takes you 18 hours to go one position to another physically. It takes you less than 18 milliseconds to go one position to another. What do we get in that gap? And would you go in with a condition that they tell you, you have few days (to live)? Or you come out on the other end as a healthy person with no condition? We have to understand this.

And Keshe Foundation for the first time today has released the One Nation governing structure. But you understand it as a sale, we have put it as "Comprehensive Universal Plasma Coverage." In a way, Keshe Foundation has started the arm of its, what we call, organization and bringing that One Nation into operation. We do not wait. But we bring it step by step in.

From Monday, you can buy a contract for 20 years with Keshe Foundation, that you pay 1,000 euro per year. You have to attend two sessions a year minimum to maintain your

health. Where it's not by measuring things of you, but it's balancing the energies of the Soul and the physicality of the man. (1:18). Where you don't wait for a disease to manifest itself in six months, or a year, or two years down the line for what you did today, or what you did this year. You already do the repair, that in 6 years, 10 years, 100 years you do not have that condition.

In a way, through Naomi's development of the brain we showed we control everything, in a hidden way. It wasn't the Gans's which we developed. The Soul was, in a way, elevated to reach that point.

Now you understand the what we call, "we start the governing," and the way we govern, even the presidents who govern, need this to save themselves. You will see on the list of the people who pay for maintenance, there will be the kings, and the presidents, and the rest. As in the end they come to the Creator, in the line of understanding the Creation, for their own salvation, be the Pope or the Ayatollahs.

Now you understand how the Keshe Foundation has brought the change, how we do it. No one can stop you from receiving the knowledge. Today we use mobile phones and satellites, and very soon, in a shorter time than you think, those who registered to become Satellites, become the live position and conversion, that we do not need the mobile phones and the satellites of the mankind.

This is not the kind of things we use in the universe, but this is the way you understand. You're waiting for that headphone to be on your head, when you don't understand that we have already reached your Soul, (1:20). that's just the way you like to be physical and hold something on. But the physicality has to accept the condition of the Soul, and why I have reached to that point.

I don't think that in a couple of years time we'll need translators, to translate any language, when it comes to the time of teaching, and when you come to these systems for your coverage and your need. By starting the families with prevention, we make sure there is no way in the future, that there'll be any condition for recovery. Because the condition is never created to lead to what we call, recovery.

Now you understand why in the past we told you, there will be no hospitals, and no prisons, no courts, and no judges, to be bribed, to be fake. There'll be no abuser of children's, as we elevate the STM. We have started the governing, and what we put out this week, and what you see on the screen, is the beginning of a One Nation government.

This is the way you understand as humans, and we play your game. If we make it free, man will not change. When the man has paid for it, he thinks and finds his way. (1:22). The what we call, the "comprehensive wellness program" has already started. Those of you who went through our systems, to our doctors in different parts of the world today, and you're going through the operation of the wellness, you will never get that Parkinson you have. You will never have the cancer you had. In your life, you will never see another cancer. It will not metastasize, because you will repair the soul, the soul of the

cell within the brain of the man. You will not suffer from Parkinson's because the brain has been restructured by the Soul, and understand the failures which led to Parkinson's in the physical dimension.

In a very, very short time, the part three of the recovery will be eliminated, because there is no condition for recovery, there is no one to recover from a condition. The same will come in the section two, "Comprehensive Nourishment program," we'll teach you partially, and then you'll say, "I don't want to touch anything, I just want to live a happy life. I don't want to kill, I don't want to eat."

We become, in a way, a hotel with a pension. The building is the Earth and the pension services for feeding you, becomes the Keshe Foundation. You see somebody having an ice cream, you just connect, you have the taste, and the feel of the ice cream and the flavor you like to taste, to fit your taste. These are not anymore a dream. These are the realities.

Keshe Foundation has committed itself to this. (1:24). Make them for Monday and sign yourself to the change, for yourself, for nobody else. Then you'll understand, in the next few months when we release the Cosmic Rays, then you will see. The reason we opened the 16th and the 19th it's for you to have a taste of the reality, it's not a dream anymore, it's you who will feel it, and it's you who will understand it.

Don't forget, when I started the process of the wellness in Belgium, some 15 - 20 years ago, it was just one person. The first time I gave a talk in Ninove it was one person. Two people in the room. And in a few weeks, it could not accommodate more. And it was just one little office on top of a dentist surgery. One or two people. It came to the point within a year, that we had to allocate every 15 minutes to somebody from somewhere around the world, with two ladies handling the phones.

Now we can imagine what will come when you walk away with addictions, and then you tell the others. This week I was reading articles about the biggest drug trafficking gang in the world being captured from Northern Ireland to Dubai, and the rest of the world. ?? I witnessed one of them physically in a close quarters this week, with the armed officers, mask on, with machine guns, and everything else, to capture a drug trafficker. (1:26). I said to myself, very soon, from next Monday's, if people understand, these people has nothing to sell, these traffickers. Because you put in the perfection of the STM, that it does not become an addict, be it medicine, be it sex, be it drugs, addiction to wanting to be loved, and doing everything for it.

When it comes, you want to taste the space, you join another part of it. In a way if you look all our programs in the two consecutive days in the space gap, that it brings, then you decides. Do not expect if you are an addict to sex, or whatever, or alcohol, that by Monday session you'll be done. No, it's not. It will not be. It's for you to understand, that there is a change. I did not need it for three days. I could live without it for five days. So, there is a solution.

As I said, if it's in one goal man just say, "oh, I just got rid of it, I smoke it, I become again an addict, and then I know I dial a number." We have to change every grain of the Soul. Then you understand, there is no addiction. Because you get changed from internally through the structure of the fields of your own body.

Addiction to abuse, we call it Fibromyalgia. Addiction to be abused through the work and psychological work, we call it the CFS. (1:28) You are thinking about the drug addiction, that is nothing compared to the addiction we have in different shapes or forms in our lives. Addiction to pain, addiction to taking painkillers, addiction to whatever could be, that it has created a weakness in the operation of our lives, that with it our Soul cannot elevate.

Then you understand why we need the translators, just to translate to get you on the seat. As I call, like the air hostesses, and the rest will be done by the captain. You have a young family, go on the Keshe Foundation, sign for what I call, just to be staying healthy. We cannot stop the accidents. We cannot stop the heart surgeries from your misconduct of physicality for years. But it can be supported, that you do not get to those misconducts and the heart disease.

There is an understanding that there is a solution for every condition, even amputation. But we have to create the facilities over time to become, to be ready to do. And we had to teach our Knowledge Seekers to be able to develop these technologies, to understand it, and it just doesn't become a copycat mass production. If they don't understand, they don't see the essence of what they do. Then it becomes a robotic job. (1:30).

We look after your wellness for the whole cycle of your life, that's the responsibility of a nation. And we accept the Earth as One Nation. Then in a short time we accept to feed you and your family, and you never touch a single entity to kill to consume. Man has got to understand the evolution in the science and the technology for it to be delivered. We have reached that point, our scientists see the Creation of Cosmic Rays, the understanding of the work, and how one ray can encircle the whole of this planet to feed every condition and need, the same as the field and rays of the Creator.

If I don't understand it, how can I create it and maintain it? Our Knowledge Seekers and scientists have to understand it, that they can maintain it and develop technologies for the rest to enjoy. So, Madame Wang Lin, you can translate on Wednesday, sorry on Friday the 16th, but see if you can translate through your Soul, and not through your words, then no language will count.

Any other question?

Q: Yeah, I hope so. But I haven't learned yet how to translate from my Soul yet. (1:32).

K- You did a lot of Akashi, you went the wrong way. Now, understand and listen to your Soul. You'll find the right way.

Any other question?

Q: Afar .. Mr. Keshe I have a few question from Farsi speaking Knowledge Seekers. But before I ask those question regarding today's teaching. You know that in the future we'll not going to eat, so we lose our digestive system, the mouth, and the teeth, and everything else, because we don't need to talk. But regarding the soul coming from the creation of the children, that soul can come from the Soul, it means we're not going to have sex in the future? Because…

K- Is that missing in your life?
Q: what
K- Is that what your ?? marriage missing? (audio broken up) This is what this is, do we miss to have that physical condition?

Q: .. Because when we have sex, we're not stealing from anybody.

K- Yes, but you have to understand, man works on the "addiction to reward." The pleasure, the end product, the last seconds of elevation of, what we call, that addiction. You're given a carrot, like a dog. (1:34). Sex in the life of man is exactly like when you go to a circus, and the dog or a horse does an act, and gets that sugar, lump of sugar. We get that satisfaction, and then we are addicted to it.

God made man addict from the point of its own physical creation. Why do we reproduce? Why do we go for reproducing in the dimension of physicality, and to be able to feed its universe with the new seeds of the souls, or centers of the creation, God has made men addict to sex? With this way of creating the Soul, and then the physicality, there is no need for that addiction. This is one of the reasons in past few minutes, I referred to, addiction is not cocaine, ?? sex and the rest. Man is created addict from the second of his creation. You do, I give you a carrot, I give you a sweet. And that's what I said…

Q: Okay, Mr. Keshe, I'm going take you to a place you, last time. I don't know which teaching was it, you talked about. Okay, I'll go from here, my Soul comes out, I go to another …

K- Your Soul doesn't come out. Your Soul envelops your physicality.

Q: Okay, envelopes my physicality, I go to another location in the cosmos, okay. When I go there my kidney, you said it's not a kidney, it's just some gaseous state. So the love that we have here, it doesn't exist, so the love, what we consider here as love, what is going to be the shape of it? What is love mean?

K- Love it means to give, you give life, you create life. This is why Mitra fell in love with the Earth. (1:36). The physical chemical combination of this planet, creates a field, which gives pleasure to give, you call it love. .. It's just like, certain materials don't exist on this planet, and our scientists said, exotic materials, which are in the universe. Because

we don't have the condition of it, to be created. Our atmosphere, our gravity does not allow creation of certain materials on this planet.

So is love. The condition and the fields of this planet creates a field, which we call it love, which means unconditional giving, which is one of the attributes of the Creator. Now you understand why Mitra fell in love with Earth, and one of the purposes of why the Creator and Mitra have taken home on this planet, is to nourish this across the universe. That every being in the universe just don't reproduce, but understand the love.

When you go somewhere, you see something you need, you take it with you to show the others the uniqueness of this beautiful thing. And Mitra saw the love. This is the only reason she ever attached herself to this planet. Because with it, she could show to the Creator what it means.

Mankind has not understood, and you say, why suddenly so much knowledge, and development, and sharing and enhancing the STM. You are lucky people as human race. In this planet, and this condition creates a specific field, which mankind calls, love, unconditional giving. When you fall in love, (1:38). you go hungry, your mind and thoughts cannot do anything, but just, not to be with your lover. That's how Mitra felt about the Creator and found the match on Earth.

Now, evolution, development of the STM is to export this across the Universe. That's why we are gifted with the knowledge. Now you turn and twist it, how you are going to be. You have the essence of the fields of this planet, does not matter where you go, this is the job of your Soul. You are messengers of love, unconditional giving.

So, be it by sex, be it by flower, be it by drugs, be it by giving a sweetie every time you make love, for the next one to create another child. In a way, creating a child with that sweetie, God didn't do it for you, He did it for Himself to create more, that He can have more dimensions of the love to be spread in the universe and Unicose.

As I told you, in the future, mankind will come to understand part of the bigger Unicose, which our Creator is part of. And the Creator of our Unicose is known as the possessor of love. And that's His functions in the Totality of the Creation of the Creators.

Q: .. One of the Knowledge Seekers was asking, he made the reactors for a star formation out of the copper. So, he wants to Nano coat inside and outside, and then he was asking, (1:40). is it wise to Nano coat the copper coil, that he made, because we said at one point if he Nano coats, the fields cannot extend out. So, if he makes a star formation…

K- It depends .. what and how you do things. Knowledge Seekers have not understood the purpose of the coils. Knowledge Seekers have not understood the effect of it. And they're still stuck in the matter state. What you do it for? The reason you do it. And this goes back, we say, go back to the first paper ever published, "The Creation of the Black Hole," where, what I call, the thief of Baghdad, Hawking said, nothing comes out of it,

and then he understood how wrong he was, he changed his mind. Even in the darkness blackness of the Nano coating, there is a essence of Creation.

Q: The second question is this, because you see, if you remember, because this is a huge, huge confusion. People think, like anybody who dies, the Soul goes, and have a party with their parents, no matter what they did on this planet. But if you remember, one time I asked a question, because the Soul is innocent when it ?? lives ?? You said, the Soul is a babysitter. So, if you have a babysitter, you leave your child with it, and you come and see the house is burned. So, the babysitter is responsible. So, what's the babysitter was doing, if he wasn't watching the child?

So, if physicality on this planet do all the wrong things, and dies, and the Soul leaves and goes, and has a party with your grandparents. So what's the point of if, if there's no punishment. (1:42). So, for example, the Queen when she died, she created all this mayhem. So when she's gone, the Soul is going to be maybe conveyed to one place for millions of years until she learn the lesson. So that's what my understanding. But they said, no, when the Soul goes, Soul has credibility, because it was locked in the brain. So, he couldn't do anything. So, when he goes, he can go do whatever he wants. And I said, absolutely it's not true. So, which one is true?

K- All of this it is true. It depends which side of the fence you sit. The Soul, when he leaves the physicality, has to ?? carry the dimension of the balance of the spirit. Your physical dimension dictates your ability, and what you can do. The, what we call, the balance fields of the spirit, which is a physical dimension action, dictates how much the Soul will carry, and what will carry.

The Souls are all the same. It's the spirit, the condition of the physicality energy, which dictates what will take, and how much he has to take with it, and what is give back. Very simple. So, you don't go to there, you had a party because you're gone. It depends, did you receive enough to get to where you want to go. Are you, have you been stripped of the fields of not allowing to be in there, because you have to compensate for what you've done in the dimension of physicality.

Because the Soul of the Physicality (STP) is aware of everything which is there. It absorbs and gives. At the point of departure, it's a balance sheet. All the Souls are created equal. (1:44). It's the spirit which decides what is in depth, and who's gained something, the balance is there. It transfers energy to the Soul, and then it creates the new condition for the Soul to survive. And where and what position takes in the universe.

The world of clergy has messed this so much up, because they never understood and they lied to themselves, that now we see we are in this mess.

Q: So, Mr. Keshe, the balance sheet is between the physical soul and the Soul?

K- Of course. It's the STP what we call, the spirit, which deals with the condition of here. It's a governor on this planet, it's a governor for the physical dimension of today.

One act can elevate Soul to the level of understanding the strength of the field of the Creator. And one act can bring you so low, that nothing lower than that, has ever been created.

Q: Okay, Mr. Keshe, if I say I have, when I was born, I was given 200 points. And my Soul was given 200, we were equal, we came to this planet. Now I killed, and I stole, and I did whatever I wanted. So, I kept losing my points, I lost all my points, I lost another 100, and I lost 400, now my Soul is just minus 400.

K- Listen to one of the Intros. And now maybe you understand it. Do I become part of a dust? Or do I become the Creator? Would, if you reach and you leave, with a maximum of 200, you came in STP, and a maximum with the STM kept intact 200, (1:46). would that 400 make you to reach the understanding of the essence of the Creator? And do we have Souls, which come and get that 200, and 200, and make that 400. You understand?

Q: Can I also become like a thousand, I came with 400 and become a thousand and go back?

K- You want to become better than the Creator?
Q: No, I mean, the 400 was given to me through the Creator, because the Creator has an infinity, I only have 400…

K- "I made man in the image of Myself." I didn't make myself better than man, otherwise, I cannot be.
Q: Okay, so I was ?? viewing the whole thing. Okay, I got it.
K- Thanks God, it took you a long time, nearly 10 years.

Any other question.

Q: Adam Sweden .. My question is regarding the plasma flight on Christmas, (1:48). the 16th of December. I have made the application and my money has reached the shop, the Store, I haven't got any confirmation, will that come any email confirmation for this?

K- You will receive something around about the 17th (means 15th). When things are closing there. You have to make sure all your zoom accounts are active. Because it's by invitation only, it means you'll be invited. Nobody can give a link to somebody else, because it's a closed session. So, anybody's email we do not have, will not be allowed into the session. And once the session starts it's absolute. If anybody makes noise or any what you call, complication, we just switch (them) off, you lose your right.

Q: Yes, with all this happen really the 16th or maybe later?
K- They were working till late hours, or earlier hours of this morning on it, I know the IT team.
Q: So, the date of 16th of December is still valid, is it?

K- The both is the same, for the 19th , for the 16th they close on the 15th.
Q: Okay, so I will get confirmation by email and then…

K- You will receive the confirmation. A couple of people, I was told, have paid with the "Transfer wise," and they cannot track them, who they are, who's paid for what. We have some guests like translators, they still have to register, and then their lines will be opened up and through the IT team. Anybody trying to do anything out of line, making noise, asking questions in between, we just disconnect you, you lost your right. (1:50). This is a public elevation of the Soul, not for people to come in trying to confirm they exist. The smallest opening…

Because, there is something very important with the session of the 16th and the 19th. All the phones stays open. All the phones will stay. If you're somewhere with the dogs barking, we just cut you off. You lost your right. You cannot come back in. You're somewhere, somebody's running around, or you're just trying to take to talk to someone, you lose your right. Because you cannot interfere. There is a lot of information transferring around, a lot of Knowledge Seekers Souls are connecting in that position.

Q: Yes. It's exactly what I was wanting also to ask. On the connection of the 16th I will take only from my smart phone or iPhone I use, and not from laptop, is that correct?

K- We prefer, because laptops creates a lot of background information, which will interfere with the work. And if you try to record, we will eliminate, (because) we'll see it through our system. It doesn't matter how.

These sessions are so complicated made, it's not what you've seen, we set up especially this way, that those of you who come to these sessions will find out exactly what happened to you on Tuesday or Wednesday, after you go into the second session on Monday. Then we'll repeat this again in December. And repeat again in, what we call, in January. Then we'll repeat it again in February and March, we do sessions of this.

And we gradually create that foundation base for the human race, what we call, Satellite Souls confirmation. (1:52). Many of the people who are registering, propose are those who already volunteered for Satellite. You don't do it, your Soul brings you to do it, because it's part of the work we set up.

It's very crucial. If you make a noise, the system stops. It has to be absolute silence. It could be half an hour, it could be an hour, it could be four hours, it could be ten hours. It's Keshe Foundation. As Rick said, they went for nine hours yesterday and half of it was silence, because two members of the Universal Council were in the room, in the flight room, and they wanted to connect with their Souls. If you attended Rick's session yesterday, it was very funny, you sit in the quietness, because they're all sitting and see what happens.

R: Except for the open microphones, that you could hear people like gurgling and things like that. It's kind of odd. But some people wanted to keep their microphones open. For

the second part, we just had Dean's microphone open only. And that worked out much better. And we felt like we could hear what was going on. But we didn't have to be speaking into it at the same time.

K- But on the 16th and on the 19th, all the microphones will stay open, because it's a communication with the central system and all the Souls. When you switch your microphone off, it means you don't hear, you don't receive. You understand?

Q: Exactly, yes. Now, very practical questions. So, when I connect 12 am on the 16th and then I wait with my headphones for transmutation. Is it transmutation that I will experience?

K- No, no, no, we don't tell you, you will tell us on Tuesday, (1:54) Wednesday what you felt. Maybe in two weeks time on the Thursday, some of you will come and tell us how you felt. We don't give any… This is part of the work of the Keshe Foundation, we don't give preconceived ideas.

During the process we'll tell you some things. Specifically it's for our system testing. Don't forget this session of the 16th and 19th you're there to find out about yourself, to familiarize yourself with it. Even some of you who have been in Linz, you'll find out it's a different experience. It's hundreds, thousands of times more powerful. But it will be at every level. When you come to Linz you're in one system. In this new development, we covered different aspects.

Because some of you are coming for addiction on Monday. We have to prepare that for Monday. Some of you come for cancer. Some of you come for elevation. Some of you want to go to the Moon. Some of you come to elevate the STM. We are not sitting with your Souls.

So, we have set up a very complex condition. Your Soul will take it, in so many ways, in communication with the others. We expect some of you to see each other. We want to see what happens. Maybe one of you Knowledge Seekers is in New York and the other one is in Sydney, you always wanted to meet each other, we create that facility, how our system responds.

Q: So, I will not be addressed individually of the 16th of December…
K- No.
Q: It will be the whole group which experiences some kind of group communication?

K- In a way, we make one Soul out of the Souls of ?? those there. (1:56). This is the testing of the mass programs. That's why earlier on you saw the "Comprehensive Coverage," is that, once you set up a system, which this is the parallel to it, is that somebody comes with a cancer, somebody comes and is hungry and wants a potato, somebody comes in wants to find somebody their loved ones, somebody wants to go to another city to see a monkey. All has to be done through one central system, and we are

testing of that central system. So, in a way, you're a test pilots, but depends what you're flying.

Q: So, my wife, for example, she was very worried that I would just disappear from my…

K- Oh, you want to disappear.

Q: No, it won't happen. Good. Yeah it was real.

K- We are doing tests. I mean, Knowledge Seekers here know who they are, I don't need to (say). One day they'll reveal who they are. They're doing a lot of, I mean, Rick said, that .. Dean was there, with the members of the Universal Council in the system yesterday for a couple of sessions. But the rest of the time we test different things.

Yesterday, we brought one of the Knowledge Seekers through our system, and we asked him to go wherever he likes. I said, would you like to go outside the building and tell me what you feel? He said, oh, it's cold, I'm not going out, it's freezing. I said, yeah, we had a snow here. So, when they come they even feel the environment. It's not just coming in the machine. (1:58). You understand? They feel, we feel each others Soul. Knowledge Seekers in the background sitting, they know who they are. As I said before, we've worked with them very closely.

Then another Knowledge Seekers, we direct to feel his liver, kidney, we know how to do it. And they explained to us what they're touching, what they're holding it, and they give you the energy. And we wait and see if the, what we call it, the physicality changes with that touch. When I give energy from my Soul to my liver, which is sick, do I change it? Or would it accept that change? Or is it still part of the process of my emotion to be faced. I'm trying to fix a damaged car, but I haven't fixed up the brake in the head.

This is part of the technology development, this what we put out today for, what you call, balancing and everything. The more of you, you join this structure. It's very much like a insurance policy. I get, I go for a checkup every once a year, now instead of going and checking the physicality, afraid of something might happen, if something I can ?? have there. Now we give that checkup to the Soul. Look into the contract, it says, "maintenance." Maintenance means, I fix the damage in the engine and the brake, than trying to fix the damage of the physicality in 10 years down the line, which are, in the end, they say they can't do anything with it. (2:00). This is what is part of the bigger structure, but we have to bring it step by step.

Q: Okay. So again, back to the 16th of December when I connect with Zoom, and I take part in the group, maybe 100 people ??, do I stay individual, can make a try to meet my son in Portland, Oregon in the US?

K- That's your problem. We don't allow any communication internally, and do not try to text each other, or message during the process. You will see a mayhem, and we take you

out immediately. Don't send each other private messages, because you interfere with the system. You understand? It's very clear, we are taking Knowledge Seekers which we. Those of you who we trust, and now I looked at the list of people who have registered. These are the people which are. If we see something funny, we just don't allow in.

Q: But if I prepare in advance, to contact my son today, and explain for him, that 3am in the morning, or in the night…

K- As he wants to accept. Maybe 3am he wants to be with his girlfriend, doesn't want you in...

Q: So, it could be possible for me, without disturbing anybody else, but try to use this time to make this meeting?

K- Yes, you have to. This is what we want you to tell us on Tuesday, Wednesday following up. How much do you achieved, what you achieved? This is not…

Q: Great, it's great, and I will not disappear from my room here in Stockholm?

K- Oh, it depends how much your wife ties you up to the chair.

Q: Okay, okay. Good. How much time it will, the whole experience or event, how many hours it will go on? (2:02).

K- This is Keshe Foundation. We start with 10 minutes, we end up with 10 hours. Or, we start wanting to do 10 hours, and in 10 minutes we stop, because there is something wrong. We are very carefully looking at the people who are registering, and we want to keep and who we not allow in. We know that there are people who are there to do all sorts of funny things, so. But we handle it in a different way. Do not worry if you came to do something wrong, that you will see the consequence of your own conduct, by your own Soul. You are dealing not with, I said, in our life there are no judges, and there are no courts and no prison. It's you who imprison yourself for your misconduct.

Q: Absolutely I understand, yes. Okay, maybe I should add that time, I'm Polish originally, but I've been living in Sweden for more than 40 years. I'm now retired. But I used to be safety manager for development of products with highest integrity, safety, integrity, level, controlling, for example, rail traffic, trains, but it can be used to anything. Now the firm when I retired, was involved by the Japanese, they will use it to nuclear reactors control. So, it's a very useful product.

K- Let's see where we go to. The whole concept of this technology is to make it possible that we all benefit by it.

Q: Absolutely, I think it's great, great situation for all of us. And I'm very much in favor of the whole thing. But my environment, people I know mostly don't understand it.

(2:04). And mostly they're afraid of what can come with it. So, I try to make it easier for everybody to understand and not to be frightened by it.

K- If we get into what I call, media, what I call, televisions, or whatever, then it becomes a hot potato. And we are not ready for it. We cannot do this thing with hundreds of thousands of people. And we are in a very good position. In a way, as I always say, the Belgium did the best favor to the Keshe Foundation, allowing us to develop completely. And when it comes out, it's done and it’s in a perfect condition.

Now we see a lot of governments are wanting to getting to, understand the technology in the totality. Somewhere in the next few days, Keshe Foundation will come, will offer the comprehensive what we call, wellness system to governments. What this means that, let's say, the government of Germany spends millions, billions and billions on cancer. And with all these hospitals and all the expenses. We offer, we deliver, we cover all the cancer cases through our Wellness Center in Germany, through a fixed agreement, that then people do not get involved with it. In a way, up to now there is no response for cancer.

Now, Keshe Foundation accepts One Nation's cancer cases, we can do, we're not talking that we might do. We start negotiating with governments in the coming weeks, that we become another wellness process. (2:06). But we show by example. You give us a thousand cancer cases, our doctors will take it up through our technology, in six weeks time, see how many percentage have no more cancer.

R: Excuse me, Mr. Keshe, there's some background noise going on. There's people are making comments about.
K- Yes, there's a huge drilling is going on here.
R: They thought it was someone snoring.

Attack on KF Austria - trying to get the systems - they survived

K- We had a massive security intrusion. I told you, in past few days with international squad, whatever it is. They smashed a lot of things up, trying to get hold of these people. And now they're trying to fix it. They smashed the doors, the windows, and the building, trying to get in. Now the builders are trying to fix it. We can't do anything with it. Because the property is not secure. And the building is brick, and concrete. Sorry about that one.

R: Thanks for clarifying.

K- Yeah, I told you, we had a close quarter experience. You see it in the movies. And we had to go through all of it .. with a mask and some submachine guns, and police forces, and security forces all going on top of these people. Now they're fixing the damages trying to get the doors up, and fix the damages. Sorry about that, we cannot do anything with it. You see it in the movies. We've watched it in meters, centimeters away from us.

The whole process is that the Keshe Foundation, in the coming days, and weeks and months, start offering, the government's are literally bending over these cancer cases and hospitals. (2:08). And there is no end to it. We go case by case, we go country by country, and this is the way it's set up.

We will do most of these things in conjunction with Markray in an open market system. That's why we took over Markray. We will bring this through that, we offer case by case. We have to, first of all be able to develop the machinery for it that we can, when we offer it's correct. We have to train doctors to be able to handle the machinery. And a lot of doctors, we're getting a lot of requests from doctors around the world who want to work with the process of the Keshe Foundation. At the moment we have doctors who work with us, they understand it. Then this process will go.

The next phase for us, I see sometime maybe middle of next year, end of next year, is mass feeding. We go to Africa, there is a drought, and governments and nations cry for feeding this people. We deliver a system that people by being around it they are fed, nobody will go hungry. We go to the position of the next step.

Then next, communication. Communication through these systems doesn't need any more headset. You think, you communicate. The way you think you go to a place. These are all to come. Our technicians, our scientists have to understand to develop it, and I don't push it till they understand it. Otherwise it's a knowledge missing. (2:10).

And what you see on the list of what was in front of you a few minutes ago, with everything to be covered, we start governing. We support, we help, those who you call your leaders, they still die of cancer, they still get Parkinson, this still have to handle children who are sick in their home. It's not that five second you see them on camera. We saw what happened to the German Chancellor. She had to leave office, because of the depth of Parkinson. Doesn't matter what they are, they are still touched by it.

There is an alternative for everything and we start handling governments, in next 12 months Keshe Foundation will not be the structure is today. We start, in a way you go to a company who offers you insurance policy, we give policy covering, universal packages to governments for their citizens. There is no bribery, because the Foundation feeds back to itself. The Foundation works to itself. If you're paying 100 billion a year for what you call it, for cancer treatment, and you still have to deal with the nurses and all the caboodle which goes with it. You pay 10 billion to Keshe Foundation, all your citizens every year, for half an hour, maybe, because they have a mass day for cancer, or elevation of the Soul. Everybody puts a headphone and sits for half an hour, and then we solve the problems for cancers, or whatever, depressions in that half an hour.

We used to sit half an hour listening to the Queen telling us a lot of rubbish on the Christmas Day. Now we listen to our own Soul, and elevation of the. These things are a reality now, it's not a dream to come, the machinery exists, and we can repeat the machine. We can remake it, multiply it, and the rest of it. (2:12).

They'll come, we have received, hopefully we had a big setback, as many of you know, but it seems that the banks have decided to change that to, as a setback to a success. We have to see what they do in next few weeks. And then it will come back to you.

Q: Yes. Mr. Keshe, I miss the words to express how grateful I am. This is so great. It's like a dream come true. And I want to thank you, and God bless you, and much love for all Knowledge Seekers and for the whole planet. Thank you very much.

K- You're welcome. We all work in the same dimension, but it just depends who wants to benefit personally from it.

Any other question?

Q: .. How do we convince our loved ones who suffer from disease and addiction to tap into this system when they don't understand it?

K- Easy. Give them the headphones and say, sit there quiet for half an hour, and then we talk. We had this, we don't mention it. We had this with our Knowledge Seekers, I'm sure they're on the line. They know who I'm talking about. And our medical team are in the background, they know who we're talking about. We had a case till yesterday. The first time the lady accused of us everything on this planet, when the husband was trying to help. (2:14). We didn't give up, because we kept on elevating the Soul in the background. And at the end, after a couple of weeks, she consent to us put the headphones and sit there. And we listened while she was sitting and getting the system knowledge. And afterwards, I received a message from a team of doctors that it says, the husband was writing how she was changed during the process. We've watched, we heard what she was doing during the process, and they see the change. The loved one see the change, and it just changes the time.

We're doing a lot of work in the background with our different teams around the world. We don't mention, we don’t let nowadays, one team to know the other team, that's for sure. Because we saw how they abused it, and they come in as Knowledge Seekers, but they're actually are terrorist, I call it.

There is something very important, and we can maybe depart with this knowledge. Some of you, and many of you who went around with the person we kicked out of the Keshe Foundation two or three years ago. We warn you very direct. This person is extremely connected with the pedophile groups of the world, and has a conviction for pedophilia. And the whole family has a conviction for one of the oldest pedophile families in Western Europe. Be careful, you allow them, you interview them, you close them to you, (2:16). but underneath they’re telling, and selling information out. This is why we found out, and took us a long time to kick them out of the Keshe Foundation. It's your responsibility for your own loved ones.

We can disclose this, because this now has been disclosed to police and the framework of the securities. Someone we kicked out, you know very well, has a long criminal history

with biggest pedophile organizations since nineteen seventies, in Europe. The whole family has had prison sentences for arrests, of abuse of children's life. Be very careful. You think you have a friend, but you have to see how much of your IP's are sold.

The Keshe Foundation came under fire, for years you couldn't get rid of pedophiles and all their activities around the Keshe Foundation, because somebody inside was literally selling information, giving information on the coverage of not knowing it. But be very careful, we see things going around the Internet. And as we protect you in every other way, now we can disclose it, because it's the disclosed to courts in the police. There is a long track. Even today, the brothers and sisters are in the same game as ?? themselves. We've been asked to release the disclosures, but we are holding back due to some cases till it's fully, what you call it, completed. Then you will understand.

It's my responsibility to inform you, you know exactly who I'm talking about, most of you. (2:18). We didn't know how Keshe Foundation was going from one dilemma to another, and how we were going through this. This family, has a whole family, has the biggest pedophile family in Western Europe since nineteen seventies. And Keshe Foundation was infiltrated deep right from the top. You just need to get in touch with the right police station, they give you the full file. The mother, the father, brothers and sisters, and uncles, the whole lot. Vatican is a joke to who and how they operate. Just be careful with your families and loved ones, you think you're very safe.

Any other questions?

Q: .. There's a question about you mentioned that all the microphones should be open during the session. Question, what if somebody has to sneeze, or cough or something? Should they mute their microphone during, when they feel like coming on, or?

K- Yes. Please do. Because you can imagine 100 people trying to cough once in the whole session, with the whole session ??. We are very careful. Because we know like, you know, when you have Stefania, there is always a problem. If you understand that. A good example of how things can go wrong while she's on the line, "oh, I made a mistake." These things we don't allow, we just disconnect. You hear a lot of time, Mosfeq sits in the background and there is a beep and a noise, we cut these out immediately.

R: So, can someone like that still attend, but keep the microphone off? (2:20).

K- ?? They can find a place for those few hours. Your microphone cannot be switched off, as much as our microphone cannot be switched off. It's a one way. You don't receive the information, cannot convey the change. You understand?

R: So, it's not just through the headphones, it's the microphone, it's a two way connection.
K- Yes, yes, yes, yes.

Q: Mr. Keshe but there is a problem, because for example, if you live in New York City it's always going on, something is moving or making noise. So, I have to go to the toilet then.
K- I don't know.
R: The toilet is the only place in New York City that's quiet?
K- Or become a rat and go in the basement.
Q: Because the only place you know apartment is no noises is the toilet, other places there's the ambulance is moving, I mean, New York City 24 hours is noise.
K- Put it this way, we monitor, because it cannot just be you interfering with the others. There are people from all over the world involved.
R: Also, you can turn down the volume on your microphone, and not make it so sensitive.

K- We don't need the noise on your microphone to be at a maximum, or whatever. We are dealing with different kinds of fields. Soul does not have a frequency level and the loudness level. Otherwise we would have shouted in your brain, stop doing this. But you keep on doing it.

So it needs for the line of connection. And so many ways we just need that first spark of connection to link up, and then the rest is ?? very rapidly we might ask you during the process to do certain things. Because while we ask you we set our system we adjust our system inside. Yeah, we might ask your if you've been to Linz you know exactly what happens. We leave you to yourself and then we'll interfere, because you're there for you to find out about technology and we are there to find the improvement in what we call it in all our process

Q; Does the Keshe Butterfly have to be removed from the phone?
K- Yes, remove everything.

Q: What happens if we have an open microphone and somebody rings the doorbell and that sound goes into the microphone? Are we excluded from the experience?

K- We try to be on top of things .. . It's something you cannot control, it happens in my teaching quite a lot.

R: If it's consistent, then they might have to be excluded, I suppose. But if it's some minor issue, it probably would be acceptable.

K- Yeah. We have to see.
R: Is it okay to use a Bluetooth earphone as a headset?

K- No, do not use Bluetooth.
R: Do not use the wireless type earphones?

K- Do not use wireless. We are very specific, you remember the conditions we go in.. Please, do not use these things.

Anything else? (2:24).

Q: .. Observing attitudes of a mentally disabled boy, is it possible for two entities to be, and act at the same time in the human body? (K: yes) One with human actions and the other with the actions of an animal. So, for example, a man and a monkey. How to find the balance between these two entities inhabiting this physicality?

K- It is us who doesn't understand this. And we have to understand this.

R: I think you once said, it's us who are the mentally disabled, not the boy in question.

K- Yeah. Because it's not a monkey, it's behaving like a monkey to get the attention, "I exist." What you call it, we call it, the "beautiful people," you call it, schizophrenic. One behaves like a dog, one behaves violent, one behaves like a lover, but it all depends how we allow them to manifest themselves in time, and place, and position with us. It's a lack of understanding of us, not them.

Q: .. I would like to introduce some kind of generator in my animal breeding, (2:26). because it happens that some puppies are born badly formed and, or born dead (still born). Could a plasma generator unit help me?
K- To do what?
R: To I think prevent, in animal breeding, prevent puppies, that are badly formed or born dead?

K- Stop abusing the animals. They're not a production machine.

R: Okay, I think that's a sufficient answer.

K- You know, I've said this to someone years and years ago. I said, would you like if they put you on the table and made you give birth, to make you're pregnant with the next one? You're just a production machine? Why do we do this with animals, because we have the right to encage them physically?

What happens if you create a condition of love and care, and not the mass production, and let the puppies (be) born, or created out of the love, not for you, just because you see something out of them. This is part which I really don't understand. (2:28). And then you lead to (deformities) and all sorts. Do we need to do that? Maybe somebody will say, yes, because my income comes from it. But can you find a more human way to do it? Or to you it's a dysfunction, or dead because, "oh, I lost money because of it, there is a problem." The problem is in the system, what we do. It's our own understanding.

Any other question?

Q: .. Mr. Keshe, I have another question about sex. So, when we have sex, at the end, when it gets to the ultimate threshold of it, or the orgasm, so why do you see light in the

room? Because I thought always, I thought it's the light of the Creator. Maybe the Creator likes people have sex?

K- I don't know, ask the people who see the light. It's what we see on it as a, what I call, as a feedback, as what convinces us there is a reason for it.

But if it was not there, man would not have done it. This is as simple as that.

In the future, the human race as I said a few times, will not feel the, what I call, the physical interaction, as it does today, when it comes to Creation of offspring. (2:30). In one of the teachings with Dr. Eliya Kostova, I touched on this in a very, in the Medical Teaching, in a very, very soft way.

But sometime in the future we'll explain it in a full, exactly how you can create the children of the future, through the energies of the interaction to create the soul. And you feel it, you go through the essence of its creation.

The physical pleasure of being with someone does not mean the, what we call, the end pleasure to create. There is a lot of dilemmas when you speak to what we call, moral organizations of where there is a life, where there is a soul, where the fetus can be terminated. All these things come up.

Where, when you create children of any race through the dimension of the field of the universe, without what we call, gradual creation, which what happens in the womb of the mother, then you have the Totality, instead of going through that process. When you go Totality it's a commitment by everything. And it's a perfect field. You create a perfect plasma, that the interaction of it, creates a perfect child.

When you have a perfect star, a Solar System, then you create a perfect planet. (2:32). This is part of gradual understand. Gradually in. You know, nowadays, we go to clinics to have all sorts of conditions to create a child. In the near future through the whole system, we'll learn how to transfer energy without allowing defects in the process. When you create the perfect Sun, it creates a perfect physicality of the Solar System, or physicality. And not every Sun can exist in the same position. That's why we have different stars, or suns in different positions of the universe.

Would your child will be, or child of your Soul, which you lead to the creation of the interaction of the fields, decides to live in this universe, where its fields matches another universe, and you go to another universe to visit, or to make contact with, or be in touch with. We have a lot to learn yet.

I can spend the time from, since the Creation of this planet till now, to teach from now on to the same time laps, and it's still just scratch in the knowledge of the Creation, and not even get to the first step.

Any other questions? .. (2:34). ..

It's just that, please finish registration for the 19th and the 16th. As I said to many people, if you come on the 16th register for the 19th. But now more specifically, that's why we let you to have a taste on the 16th, and then on the 19th, which one you want to join? Because on the 19th is hourly sessions, with each. We will develop for bring in the technology or a structure that you cannot see all the participants. That does not allow a lot of things, which we don't desire to be there.

As I said, go to the Store. I hope by Monday it'll be, and join the scheme we set up, there's a reason for it. Then we'll tell you. Go for prevention, and if you have a problem that can lead to something else go for the enhancement, or just take a structure with it, because then we tell you, what's the reason for this when you go to the next steps.

In a way, we're hoping to buy next maybe, two years, to cover 80% of the world's population through this technology of wellness, feeding, and what you call, energy requirements, and communication. We are moving to negotiate with government, in a way, that we govern through governments you. It's set up in from the inside. (2:36).

But the biggest problem is, what we're going to do with so many unemployed people, from pharmaceutical, to medical doctors, to the train drivers, to the sailors, as one by one we hit. You'll see it there as prevention. But when I prevent today, nothing happens, the hospital surgeries, and doctor surgeries goes empty, because there's nobody going there to be sick. When you create the transportation, the airports doesn't mean anything. The ships have no meaning, the car industry is obsolete. What are you going to do with the next one, next cycle? We create new cycle of systems we need. But what are we going to do with millions of doctors with no job, because nobody's coming in to be sick.

Governments are breaking down through the burden of the pensions and covering sick people. The best solution is, you pay once and you don't have any sick people, we are the key. We know exactly where we're going to hit. Then it comes, you become the travelers of the Universe. This is where we are targeting it. Not by death, but by option.

There's a bigger plan for human race than you could ever imagine. As I said, you shouldn't have had ever understood the strength of what love is. Then Earth would never have been in this position of, becoming the center of, what I call, delivery of the ...

Try to understand today's knowledge. This answers a lot of your questions over decades and centuries. If you understood it, otherwise, it's just a noise.

Q: .. I've just looked into the Store and says, we have to register before the 10th, in two days time. I'm trying to get through to with Rafael for payment through Brazil.

K- Brazil situation is sorted, apparently yesterday.

Q: But we here in Argentina, we have a very big problem. We can't send money out of the country. I had that problem when I went over to Brasilia, so I paid over there in cash when I went to register.

K- We have specific cases, we have to look into.

Q: I'll put the details up in registration.

K- We cannot do that, because a lot of people abuse it. But individual cases, if you communicate through the same channels we're keeping, all the backlogs have been cleared in past two weeks, as I know. We try to find. You're the odd one out.

The Brazilian situation is, as I know with Rafael, is sorted out yesterday. So, if you live in Brazil, you register with the Keshe Foundation Brazil, you make payments through the office in Brazil, you get an invoice from them. (2:40). It's the same. If you live in Iran it's the same, you register.

Q: I mean Argentina, we are having problems.

K- Yeah, I know. ..You are one off. You understand? So, we have to find a solution around that position with you. But in Iran is sorted, in China is the same, a lot of Chinese sending the things through the PayPal. Or they can make the payments to the Keshe Foundation in GoJo or YinJang, and they put it up. The same goes with our, what you call, wellness conditions.

People in Brazil want to use their facilities of the doctors for whatever condition they have, they pay now directly to the offices in, what you call it, in Brazil. And the same goes with Tehran, the same goes with China and other places, we have enough spread of companies around the world to be able to accommodate this. And in odd cases, we have to look and see what we can, I'm aware of your condition, you're one off, or two off, in another way, we have to find a solution.

Try to link in with the, what we call, the "Enhancement full Universal Coverage," because we want to deal with the government's, and the more people we have under our, what we call, Universal Enhancement Coverage policies, gives us a much stronger negotiating position. (2:42). This is one of the main things we want to do.

There is a need for a change. But the change has to come by understanding, not by enforcement. I don't see why we need to harvest animals, as pigs, and cows, and sheep and whatever. Where now we can reach the essence of that condition that will satisfy our Soul. Would we ever crave for the steak, or god knows what.

It's one thing which I forgot, that I have to mention. Keshe Foundation is a service provider. We don't get involved in medical practices, we provide services for the, what we call, the medical teams around the world, for doctors and they use our technology. This week, we have come to understand a lot with again, processes which is going on and

what exchange and development is. Some of you supported us with the two boys, we have started the process with them as of yesterday, and we will see what comes up and how they will change.

We still need the support for that, for the Foundation's underwriting all those expenses. We need, some of you helped us. We need much more help. We have seen beautiful changes in some others who are going through the same process.

Our doctors and our medical team in the background are reporting a huge success with cancer. (2:44). For this reason, today, we are launching for them, in the announcement as we know now, to contact Keshe Foundation through the channels which is put, that we put you in touch with the medical teams. We are looking for about 50, maybe 200 cancer cases. They want to test any condition. Up to this week our medical teams and others, we did not have enough data to support the, what we call, "mass cancer research."

And, what we call, we try, and today we have come to an understanding that, do not expect to be accepted by the doctors in one go. But understand that the most extreme cases of the cancer will be considered by our doctors around the world, as of this week. We forward your, what we call, your request to them, they decide, and then in what understanding comes in.

It has to be said, please do not get in touch and put your condition through the burden on our doctors in the Keshe Foundation team, that I have no money, but I have cancer. These has to be covered, we have brought every possibility for the Foundation to support this. But there is a minimum charge that if it's not met, the case will not be accepted. Because we have enough enquires around for other things, because a lot of people come in, we can do, and I've been there, and then they say, "oh, now I can do 20 Euro a month." (2:46). Sorry. We have a certain allocation for, what I call, support of cases which the Foundation will covered the cost. We cannot do for everyone, maybe one day it will come to that point. But at this moment, the doctors have put a valuation of and it has to cover the cost of all the things which takes. And if that's not met, the case will be reconsidered. Maybe in the future, but not at the moment.

The interest is to get to the more diverse cancer conditions. The request from the Keshe Foundation medical team, which we support is, 100 cases, 50 to 100 cases of the cancer will be considered as of today by medical groups around the Keshe Foundation for process. Because, in a way, it’s the knowledge gained, and how we can help them to achieve what we call, their understanding and development of the next cycle of the systems. So, if you suffer or somebody you know from any condition of the cancer, the, what we call, the medical groups which work with us are ready to look into to accept, and the cost has to be covered from the outset. Not that I'll pay next week, next month or whatever.

There's a reason for this, and it has to be done very rapidly. So, if you came to the Foundation before with your loved ones or yourself, go through the same channel, the, what we call, we always gave the address. And then, (2:48). I think Rick has it, he can

put it on the screen, contact the health section of the Keshe Foundation, they'll forward it to the doctors, and they come back and the process can start, as earlier as next week, because there's a part of the technology which we will like to know how they succeed that helps us with the setting of the next phase. So, if you contacted to the Keshe Foundation before for cancer, then our teams of doctors around the world are ready to consider now. As I said, even we said in the, what we put out as ads, it becomes available, you open channel by channel.

Go on the Keshe Foundation Store for registration of the, these are the 20 year contracts for wellness, comprehensive covering of the wellness. And then somewhere in the future a package will be offered per family, which means, we most probably, with the way we see it is, at the moment it looks too expensive. But in the future, we will look around about 15% of the family income to go for the wellness, the food, the energy, and everything else. We change it according to the National Statistics area by area.

If in China, or in Africa, a family has 1,000 Euro income a year. We cannot ask for 1,000 euro a month. But in America where a family earns 100,000 a year, 15,000 to cover, that it covers for the other part of the Keshe Foundation. It'll be something that we all help each other to come across. (2:50). This part of the development, which we see to go extended and beyond.

R: Is that email health@spaceshipinstitute.org? Is that what you're looking for?

K- Yeah. For these we adjust the mailbox, we forward these to the doctors and to each section. And it comes through them. I know they're looking for, they don't give any guarantees that we will, what you call it, bring you to wellness 100%, whatever, but we are there to support them to understand more, that we build systems for them in the future that they can be more efficient and more effective. But what I've seen it's amazing, what this new technology does with the conditions which there's no answer in the world of medicine. And it's remote, there's no medication, there's nothing, you just listen to the sound of the "music," as I call it.

R: Well, we certainly have lots and lots of testimonials of the Plasma Technology. Speaking in which, we do have the Testimonials meeting coming up on Monday, December 12. It starts at 8pm, Central European Time. And I'm sure we'll have dozens and dozens of testimonials there. In fact, we already have them lined up from the Brazilian community alone. So, people are invited to come to the Testimonials and give your testimonial as well. (2:52). It's a great way to pay back for receiving the knowledge, and you can share it with others. That's it's a great experience to do that.

K- Let's see what comes up and how things take shape. Most probably the 16th and 19th will teach us a lot. We ?? learn more. One of our data's we're looking at, especially addiction. Friday and Monday it's then putting these through our doctors in a specific way, and deliver data to the governments, and to officials and the people who work in that line of addiction.

In a way, if you are, if you committed a crime and to satisfy your addiction, it doesn't matter what it is, we give you guarantees to the court that you will never commit such a crime again, because you'll never be addicted. This is how it'll be done. We give through the technology guarantees to governments and to nations, that man will not commit a crime through addiction. And we'll have a look.

As I said to somebody who was a doctor with us this Sunday in Linz, instead it comes to the point, that you doctors become the point of what I call, delivery, in a beautiful way. (2:54). There's something which a lot of doctors will understand, and it comes to the way you buy, like for example, now you go on the line buying food from the store. You go to the same store and you buy contracts with Keshe Foundation for delivery of the food. You don't receive it, but you get the contract through, for going online and getting what you need through your Soul.

We will put out early next year a franchise, that doctors become franchised through the Keshe Foundation. When the patients go to them, they put through the condition to the Foundation and through the same process, that we structure it that way. These are all getting set up in the background. That, you are a doctor, as I said to one of the doctors on Sunday, you sit in your office, somebody comes with the Fibromyalgia. Yes, it can be done, you just give them a headphone, you don't need nothing in your surgery, you make an arrangement with the Keshe Foundation team in the, what we call, the system banks. And this is the data of the person with the Fibromyalgia, or with the cancer, or whatever, the people here set up the system up, few sessions, and it's gone.

Seeing all sorts of MRIs and all sorts of gadgets in the doctor's room, it'll be removed. Because now, health will become centralized. And this is on the card 100% within the next five to ten years. You go to a doctor, you won't see anything but a chair and a headphone. Even diagnosis, we don't believe the diagnosis, because they make mistakes. (2:56). We have developed, we diagnose exact condition with us, before we deliver what we needed for recovery of the patient by the doctor. This is not anyone digital, it's a Plasma Technology, now it's in our hand, part of the 16th and 19th is part of this program, and this will carry on the same.

Energy delivered in mass down the telephone lines

Then it comes delivery of energy, whatever energy you need, you don't need with what we see now with our system, to go down the cables and highways down the road from power stations. The same way energy can be delivered as in mass, down the telephone lines. The Russians cannot boycott you anymore with no gases.

The communication will be the same, and the transportation will be the same. It's the beginning, now we have received the backing for it slowly, slowly. We'll see the change. But we have to do all the tests, that when we go out we've done enough ground base covered by our scientists to understand. Thank you very much for today.

Those of you who have a cancer condition, or you know, and you can cover the cost to the doctors, to the teams, get in touch and I'm sure they'll be glad to see if they can bring that change to you. Thank you very much Rick, thank you for today.

I think today is one of the pivotal point teachings of the whole Keshe Foundation in past 20 years, if you understood, why we did all the work for past 20 years to bring you to today's teaching. (2:58).
Thank you very much.

16th is Promised Day - return of Messiah - Methi; New paper - "psycho genetic" will change science; How emotions modify genes; Tomorrow starts Change - cannot be stopped; Soul and Spirit or STP hidden from man; Spirit is atmosphere of body; Time doesn't exist; Joining Souls of humanity and UC together - understand STM; Ukraine confiscates assets of Russian Church; End of Vatican;

ENGLISH TRANSCRIPTION

(:20).

K- Yes, good morning, good day to you. As usual, whenever wherever you listen to this series of Knowledge Seekers, Keshe Foundation Spaceship Institute, in sharing knowledge, and trying to understand more about the world of Creation. (:22). It's interesting to see how the next steps in development of the technology will come. The limitation, which are Knowledge Seekers will understand. In a way, the world of science and technology of the man will change. As we said, if you saw 50 years ago, where (they spoke) about the mobile phone what it does, we saw it in the black and white movies. And it was just a dream, that something come like this. Now today, every person carries one, even in the jungles of Africa, or in the backwaters of Brazil.

Now, with this technology, we build a new structure, new science. But again, as I said, we build on the knowledge of the past, that man can use, can understand and gradually change. If we didn't have the mobile system, if we didn't have the satellites, today's teaching, and the knowledge we shared with all of you, you're most probably from every

nation on this planet is online, every nation, every culture and creed, will in the next seven days, or in the next 12 months will listen to this teaching and the other teachings.

If we would have brought this knowledge to a tribe, the way it was given to the Egyptians, will stay in one place, and will not grow. It'll be staying there, because there was no communication the way it is today. The last contacts of the man with the building of the pyramids, became localized. With the knowledge that the man has built over the past thousands of years, (:24). Now, the global, the whole structure of the humanity receives the knowledge.

How many more pyramids we're going to make? Or do we make pyramids from the Star Formations and everything else, that now we learn what the true pyramid is. What was lost in the culture, now it has become the culture of everyone. We had to go through what we call, mass communication, development of satellites, computers, and make it so normal that everybody uses it. Everybody understands it, and gains trust in it, and works with it, that now we can bring the next step in.

If mankind thought the microchips and everything else was something found by accident man achieved, you have a long way coming. We had to develop technologies, that the man Totality could understand and change. And with it, now the new communication system allows us to this. Now we can reach you all in one instance, in, in every language on this planet. One way and another, you come to understand the essence after knowledge.

You don't need to read books, to understand how to make Gans's. Many people in Amazon and in Africa, have never made, have never made, read or seen some of the book. Let alone knowing what the side is this, but they make Gans's. They know how to make it. They understand the knowledge, which is not written, but is created by the Creator. And this was the whole essence of the teaching. This what the whole purpose of the teaching was. Handing down to those who are there to serve, to teach, serve and in that process, bring every man online. (:26).

When we put announcements out, we see how many cultures, nations, nationalities, and everywhere else, come into it. Tomorrow's celebration of Christmas by Keshe Foundation, it will be a magic time. You're all coming with expectation and why? And I'm sure by the end of the session, you will understand, you've been brought in by your Soul to experience something unique. To experience what mankind has dreamt from time of Christ. It's not teaching, and it's not processing, and it's not there to overcome your dreams of flight.

Tomorrow's experience, with the Keshe Foundation's celebration of Christmas, is the true essence of understanding Christmas, not by eyes, but through the Soul. Feeling where the Christ was born. Feeling the time of his life. Tomorrow's teaching is not a teaching. It's a teaching of the soul. It's a teaching, that you will understand the essence of the Creation. Many of you coming with a lot of hopes, I have cancer, I want to go to the Moon, I want this and that. But I'm sure you'll be surprised in how your physicality (P) has brought

your Soul for the purpose of delivering the knowledge and understanding the elevation of the Soul of humanity.

Time of Christmas, is a time of giving gifts, gift of life. Tomorrow mankind the receive a gift, who could not even imagine exists. (:28). But this gift could not be given to one, it had to be shared and understood by all. The world's experience will be evolution and revolution in science and technology, none of you have ever seen. Some of you will come out and have not even understood what has happened to you. Where we educate the Soul of the Man (STM), where we deliver the knowledge of the Creation, that we'll see that change.

Mankind has been taught how to connect, how to write, how to make speeches, and everything else. This time, the Soul of the Man will be given the freedom of passage, through all nation, nationalities and every corner of this planet. You are alone looking for the dome of peace. Tomorrow we create the dome of the STM on earth. The experience you go through, you might not even understand it, and it might come to you in a future time, when you mature to understand. Or during the process of the celebration you will understand.

Do not come with expectation. You might be disappointed, and you might receive more than you bargained for. But understand those who join the celebration of tomorrow, will understand, new understanding in the time to come. They might, some be enlightened, and some will be enlightened in time to come, as their Soul and understanding matures, to understand what they received by the dimension (D) of the Soul. (:30).

Expectation is the job of the man, physicality. Sharing unconditionally is the job of the STM. And it's time to bring that in. It's time to bring what was the gift to mankind. And then we'll see where the mankind will take it. It won't happen overnight. He needs time to understand the soul of Totality of all beings on this planet, become to balance on their own in respect to each other.

Tomorrow is the day of Promise, which, where the "lamb and the lion will sleep the same den." You will understand when you go through the process. We have closed the registration. Those Souls who are to be here, will be here. We expected and targeted less than 100, but we received much more, and for that reason we allowed everyone to participate.

You've got to understand, that there is no other way to change the course of humanity, unless the soul of humanity is ready to bring that change to physicality (P). And we could not do one by one. Now it's done in a mass. In a way, the Totality of the soul's connection in tomorrow's session will bring the start, the beginning, that what I call, trigger points for the soul of the Earth, the Man and his creatures on this planet, all become to start the what we call, rising from dead. (:32). Dead in the sense of understanding the process of Creation. And that process will be valid for ever man, every creature on this planet.

Tomorrow we celebrate the beginning of the life of humanity in a dimension of the Soul and not physicality. And the birth of Christ was that symbolic. And man took it the wrong way. Maybe the time has come for man to understand the true essence of the "Son of God." Maybe the time has come for man to understand what was all this about, and how everything was played for man eager, and hungry in the dimension of physicality to follow the path of understanding the total knowledge of the Creation. If we do it, you would have changed it. If you do it, like psychosomatic, you keep it, because you created it.

What I explained in the German teaching last week, for the first time in public, the Keshe Foundation in the coming weeks will release a scientific paper. I have not written a paper for years. But this paper will bring a new cycle, a new dimension, and a new understanding in the world of creation of the man.

As I explained, mankind has been used to, and accepted the term of psychosomatic. Which means whatever happens psychologically to you, (:34). will manifest itself in the physicality of the body. But mankind has now learned one thing, that every psychosomatic has to go through emotion, looks at the beginning, and looks at the end, and does not understand how it came to be.

The new knowledge, which now scientifically through the what we call, research, which is going on, will be laid out in a very simple way. Mankind speaks about DNA. DNA is a "hard disk," is not the information. Made of blocks, as mankind has called it, sequence of proteins making the structure of the physicality. It's like stacking computers on top of each other. These stacking, these memory cards, and memory banks, put in a box called, the human body, cannot do anything, unless they can communicate with each other. They need a software, they need a communication line. They need to be the a environment, that all receive the same energy, and the same information, that they all can balance each other and create a structure.

And then when it comes with that emotion, how do they receive the information? We call it a RNA, what we call the communication line, the bank of the memory's, what's going to go into these hardware. (:36). And then the emotion creates the current, the information, the magnetic fields for the what I call, the information to be released to the physicality of the DNA.

We understood psychosomatic. Now mankind has to understand a new word "psycho genetic." Where, psychologically we create genetic modification. And we said, the gentleman or the child has genetic deformation. How did it come in? How did it start? Where did that information come from? Where did the movement of one of the computer disks from one stacker move to the other. Or it behaves like the other, which brings that genetic defect.

Now with a new knowledge of what we call, "psycho genetic," we understand all the genetic defects, all the genetic information, which we call it, defects, or modification, comes through the essence of the emotion of the Man. What happened to your

forefathers, or what happened to you in one point of your life, that you create an information that, that information through the essence of the emotion dimensions of the magnetic field of the plasma of the STM and physicality dimension of the brain, becomes, moving one from, from one bank, into the other. Behaving like the other. And then it doesn't fit in, and we call it, genetic defect.

Now that the mankind has been given this knowledge, what we call, psycho genetic, and psycho, (:38). whatever you call it, shows the dimension of magnetic field, plasma of the magnetic field of the emotion, creating the motion, the movement, the energy for one of these memory banks in the stacker of the box of the memory of the structure of the man, to behave like another one, ?? 10 step up. And it doesn't fit. So it has to move the structure that it can fit. Telephones have to move we call it, whatever cell has moved, or whatever protein has moved in genome of the man. And then we call it, defect.

Now if we can create that emotion, if we can create that plasmatic field strength, that move the mobile phone, or the memory bank, or to behave, or move to another position, to behave like the others, creates a defect, and we put it back in its original place, or give it the energy, that it works as it was supposed to. Then there'll be no genetic defect. We don't modify. We correct.

With what we call, psycho genetic, man will become a perfect man. And in space wherever you land, delivers a perfect gene, a perfect combination for the structure of the building. If you have a cancer here and you land on the planet Zeus, you'll still have the cancer, but not to kill, because the genes have decided, it's one of us, look after it, it's a new part. But it won't kill you. It won't create a defect. It arranges for it to be accommodated, by the way the plasma ?? does. (:40). The world and the science of what we call, psycho genetic through RNA, it will become a new science for man to work.

We don't do genetic modification by changing something, that your child will have a blue eyes, because you love to have a blue eyed child. We transfer the emotion of the pleasure it gives you, through the emotion of the body of the man, and the STM to the RNA, and the modification will be perfect. I want to be pleased. This is how a man will create the next generation, the next cycle of his children through the emotion of the Soul, and not through the what we call, ?? ??

This is the way in the universe, most of the creations are done. Man has been physical in every dimension, even in regeneration of his own offspring's. The new knowledge and the new paper which will be released will explain a lot of this for the next and new generation of the science and technology, which the man needs to understand to become a member of the Universal Community.

The Soul of Christ was created out of the energy of the love of the Creator, and not by sexual interaction, carries the Soul of the Creator.

This is what mankind has to understand. And this is what the new knowledge and technology will be brings, (:42). and will bring more in the coming months and weeks

and days to many of the KS. We don't change genes. We are not in the world of man's fake knowledge of medicine. We work through the process of understanding the ?? motion and the emotions, that the interaction of the fields of the plasma the STM and Soul of the Physicality (STP) of the Man work.

The two things which was hidden from man and was abused by those who thought they understood, but the words could be abused. The Soul and the Spirit. The Sun, and the emotion of the fields of the physicality, we call it, the atmosphere of the planet, we call it the atmosphere of the body of the man, the Spirit. The interaction of the fields decides what Earth receives. The interaction of the fields of the body of the man with the Soul, with the Sun, decides what that body is going to be made of.

The provider and the interaction of the providers fields with a dimension, position, time, and place. Man becomes aware of the knowledge of Creation. And then man understands time does not exist, till the point where you establish the essence of the manifestation of the detection, and that become the "zero time." It has made me laugh many, many times when I hear the scientists say, this planet is 4 billion years old, (:44). or 5 billion years old. And the Solar System (ta da), and god knows the U bla, bla.

Time does not exist in the dimension (D) of the Creation, that is created, that it establishes its time. You call it the birthday, birthday of Christ. You celebrate it on the first of January, or whatever you call it in December the 24th or 25th, and the rest of it. But originally was built to be on the change on a time of what we call, 21st of December. The shortest dark days of the man. Is to start, when at the point of what the call, 21st of December. Is the longest darkest time for man, that he existed.

The essence was to bring, to understand the dark days for man in knowledge and understanding of the Creation is over. Man progresses to the new knowledge. If you understand it, after 21st, the days will start getting longer. The dark time becomes shorter. And that was the essence of the birth of the Christ. That was the essence of the birth of Mitra on 21st. But man got it all way wrong, because he had to give it the dimension of the tree and the light, and again got involved in physicality.

The dark days of the knowledge of the man is over, in understanding the process of the Creation of the Creator. And that knowledge only comes through the STM. (:46). As I said, many, many times, man has got to learn to feed his Soul, that the Soul feeds the physicality, that the man shall not kill. Now, the man has to understand the knowledge of the Creation and the Creator will come through the STM, when he feeds to the dimension of physicality of the man, to understand the process of the Creation.

Up to now the same as your food you took from outside, in. And we keep on telling you 80% comes from inside, out. Now it will be the same with the knowledge. From now on, man will receive the knowledge of the Creation at the point of need and understanding through his Soul. If you are on Mars you understand the knowledge, and what you need, and what is necessary for you to live a comfortable life and existence. And that will come through your Soul. You go from the United States to China, you'll speak Chinese, you'll

understand the essence of the Chinese word, and not just the dictionary. You'll feel the emotion of the language and the culture.

Because this time you didn't take a flight to take the physicality 18 hours on a plane from one place to another, you took the instantaneous transportation, of the transportation of your Soul. And that soul educated itself in the dimension of time, place and position.

Once we release this paper, a new knowledge, the new understanding, the new level of the Creation, and the Creator's understanding for man, will become easier. (:48). If you understand the essence of the paper to be released as psycho genetic, then you understand, what created that psycho side, inside this body of the man, was the Soul. And the STM is connected to the Soul of the Creator. Then you understand the genetic of the Creation of the Creator in the embodiment of the man. I made image of Myself. In a way through the plasmatic fields of Me, man has created itself and the dimension of the Soul.

Then it's you who decides I was born brown and black, and yellow, or blue eyes or brown. And I want to look like the beautiful creature on Mars and this Earth. How would I do it? What will be the pleasure of me to change conditions that I see what I like in other places. And I carry the full culture. I don't need to go to school in Mars, or on planet Zeus to understand what it is. I get the knowledge of the universe through the platform of the knowledge of the Creation.

As with the new technology, we abolished the prisons and the hospitals, with the release of the new understanding and when the man understands fully, there shall be no schools and universities. As the man is a graduate from the knowledge of the Creation at the point of inception.

Those of you who carry the platforms or the placards of the doctors, and PhDs, and engineers, and professors, and an electrician, you had better keep it and make it solid, because there'll be not many of them will be produced in the coming time. (:50). Graduate from the knowledge of the universe and the Creator, has no paper for it to be written, except ingrained in STM.

Those of you who put the fear in you, by understanding your Soul. We have seen these devils across the universe. By holding you back, they can abuse you. Freedom of the knowledge and understanding gives you the freedom of the universe. We don't want your soul, we just teach you how to understand your Soul. Whoever tells you, that we are in the process of getting your soul, or whatever. They belong to the abusers of the children, the churches and the mosques and the rest of it. When they don't let you feel guilty, they can't abuse you. Because they've been abused themselves. Those who tell you don't give your soul and do, these are the ones who have kept man away from understanding the knowledge of himself and its Creation. Because they've been abused and now they become abusers.

It's for mankind to take the next step. It’s to understand the true process of the Creation. As I said, with the paper to be release, will be as beautiful as the book number 1, 2 and 3.

Brief, but in understanding the process of the Creation in the matter state. Now, you will understand easily the process of the Creation in the plasma state. (:52).

A new science, a new knowledge, a new step for mankind. This time, instead of teaching you, and then you understand, this time, in tomorrow's session we'll take you, for you to decide what you want to understand. Many of you will end up with some of the most beautiful experiences of your life, and many generations before, and after. Because you become, you decide to be that point of change.

Some of you, most of you will not see the change or understand it. But in time, as we say, my grandfather was there when the first lights were on in Chicago Fair, where the man could see the light bulb. Your children and your great grandchildren will come and say, my father was in the process, when the first light of the STM was switched on. On the 16th of December, 2022.

The promise of the change in 2022 was given to man, and tomorrow we'll fulfill that promise, the return of Messiah, the manifestation of Methi, the completion of the cycle of the man. Not by an individual, but by the Soul of the Totality. From every culture, race and creed tomorrow will participate, to bring that change. The new birth of the new beginning for man to understand the cycle of his Soul, and not the dimension of a "candle and a tree." (:54). In the coming time, many of you, many of your Souls will celebrate, that I was there when the time of Methi came, which was the knowledge of me to understand myself, and no more.

That brings the end of the religions, fake religions, fake followers of the religions, and it brings the beginning of the, what we call, understanding, the true understanding of the knowledge of the Creation, by yourself, according to your freedom to understand and be free to accept and bring that change, not for you, but for Totality.

We just provide that stacker of computers and that server room, that you can all log into, like the program today. Today, you have come to us through different servers, and through different connections, and different operators to be here. Tomorrow, you will become all the servers and the operators, and we become the facilitators, that satellite, which allows you all to work as one. When the lamb and the lion will eat together. When the Russians and the Ukrainians, the Chinese and the Arabs, the Iranians and the Jews, all will be online, through the dimension of the Soul, to find that final solution for the physicality of the man in dimension of existence. (:56).

Now, you understand why we celebrate. Christmas celebration of tomorrow is the day of Methi, the Promised One. Now, you understand, was never one, was never supposed to be one, it was supposed to be, to understand that it will bring the Totality for the whole of human race. We are just the facilitators, we are just satellites. And those of you who will participate are the mobile phones in every corner of this planet, that you make that satellite to all of you, all your Souls at the same time to interact and become.

Those who observe the operation of the STM in the deep space, will see tomorrow during the session a new star, a new light, a new dimension will radiate from this planet. And that light, the same as I said, when the Soul moves from inside, out, as it was in the Intro (video) with the radiation. This time, the STM will shine outside, from inside. Up to now we saw the planet, now the Universe will see the STM, the citizens of this planet, that's all.

We will see tomorrow a massive change, the beginning of the world peace, and the beginning of the end of wars. (:58). We see the unification of mankind with the Universal Community, and it's for mankind to see what knowledge they can gain from the "University" of the Universe, and the Universal Community, the bank of the knowledge of the Creator.

Then we'll see what would your great grandchildren born from the fields of the STM will tell the others in the Universe. "When the change came, my grandfather was there in the dimension of physicality."

Now, there is no possibility that Vatican, or Ayatollah Khomeini, or the Islamic world, or whatever and whoever, can chase, to get that man that he doesn't come out, and they can live with their fallacies of the "one day it will come." The truth is, the Methi, the collection of the interaction of the Soul of the Humanity will rise tomorrow. At the ?? there are over a hundred of you across this planet. ?? impossibilities (to stop). And we have achieved for what we came here for. The day of the manifestation of the Methi, the Promised One.

The understanding of the Soul of the Collective Soul of the Man of the process of the Creation and the Creator. The enlightenment of the soul of the Totality of the creatures of this planet. (1:00). Don't forget what Einstein said, when you turn one, the other one turns too. When the Soul of Humanity reaches, understand the Soul of the understanding of the Creation and the Creator, the rest of the citizens of the Universe will turn too, and be educated. Maybe, maybe now, the whole of humanity becomes aware of what we call, "evolution and developments of understanding the process of the Creation and the Creator."

I'm sorry for those who are hoping to get a PhD in planet Zeus and come back and say, I have a PhD from that University in that part of the world (Universe). There are no papers, and no Universities, except in the imagination of the fallacies of the brain of the man.

Tomorrow, silence will speak for itself. Tomorrow, many of you will understand why you joined, you wanted, and you became part of that experience. People went to Chicago to see the light bulb for the first time. (1:02). Man will come, and the whole of the Universe, comes to Earth tomorrow, to see the enlightenment of the Soul, which brings the change for the rest of the Universe.

You've got to understand, it's your Soul who chose you to be there, and not you. You're just a tool, psychosomatic, but in essence, the psycho genetic as your genes have brought you here to be. To be in that cycle of the change for manifestation of the Methi.

Let the world of religion to wipe itself out, as you carry more knowledge than they do, as you carry the knowledge of the Creation. Then there'll be no theology, as the theory of the logic of the Creation does not exist in the dimension of religions. They never understood the essence of Soul and the Creation of the man.

We'll be waiting you, those who registered, and how the Universe will wait for the man to change tomorrow. The celebration of the, what we call, elevation of the STM and the citizens of this planet collectively.

Those of you who are pure, will come to it during this session. Those of you who have not understood the Totality through the dimension of the physicality, in time will come to it. (1:04). But the process will start. Where we connect the whole of the humanity together.

We tested this with you one day ?? with ?? through a couple of sessions and in Rick's teachings. But tomorrow it will be Totality. The time to test is over. We will have access to dimension of Cosmic Rays. We will have access to the dimension of the STM, we'll have access to the dimension of the Soul of the Creation. And the Promised Day will be upon you tomorrow. We are just the facilitators. We are the Messengers who were sent to create the time, and the position and the place.

The city of Linz, were the Hitler came, rise up new technology from ashes. The Phoenix of the end of the physicality, and the beginning of a life for humanity in the dimension of the Soul in the Universe. The gas chambers of Linz were the time when the Phoenix was burned, and the new cycle from Linz will begin. (1:06). I hope humanity understands. I'm sure a lot of you have understood. Would you like to go for a second part of the break, then we come back.

<< BREAK >>> 463 KSW December 15, 2022 (1:16).

K- Yes. Let's see what our Knowledge Seekers (KS) want to know, what's their questions? I think you've got the message of today. I think humanity was waiting for this

message for centuries. Maybe for thousands of years. And you were all looking for that Promised Day, that promised day tomorrow when the humanity becomes.

Mankind gets on conferences, every day, hundreds of thousands of conferences, from a few people to hundreds and thousands. Mankind will go to conferences and to go to shows on the Internet in thousands. Tomorrow is the first time when the Soul of the Man (STM) goes to concert. And the concert room is filled with everything the man needs, from Cosmic Rays (CR), to the soul of the creators, to the STM, and everything else, which is what mankind needs. (1:18).

It's the first time when the souls meet in one dimension, and with the soul of the Universal Community. Many of you will imagine and you will see things you have never seen, and you'll say you had a dream, something came, you envisaged something. But everything you see tomorrow, everything that comes to your head tomorrow, everything which registers in your dimension of the brain, dimension of the physicality, is what is in the Universe.

Some of you who are pure in dimension of the Soul will have the ability to meet with your Creator, does not matter if you claim you've done nothing wrong in the dimension of physicality, because wrong thoughts is as bad as physical dimension. You have created that psychosomatic separation of the physical dimension, the dimension of psychosomatic. Mankind will understand soon.

From the members of Universal Council, to the members of the Core Team, to those from the Earth Council, and the rest, all be present in being part of this celebration. Those of you who will understand will see some of the most beautiful things in the Universe tomorrow, which is nothing but the essence of the love of the Creator. And those of you who are still in the dimension of the physicality, will see the seas, and the waters, and the Moon. (1:20). Let's see, what you have to tell to your children and the rest of humanity for the celebration of tomorrow.

Any questions?

Q: Salomea .. I'm surprised about all your projects. And I'm wondering, that peace will be possible as soon as (possible) . What we have to do all humanity to bring finally peace, and with the help of this unit of equilibrium, and harmony and all these units of Keshe Technology? Thank you.

K- Just wait till tomorrow, and watch what comes up after tomorrow. Our technology is technology of Soul, understanding work of the Universe, not the physicality of the man. The guns and bullets, and tanks, is the job of the man. We shot bullets of love, and rockets of unity. Let's see what brings. It’s the Soul of the Mankind and the Universe tomorrow, when it comes together. And let's see how you celebrate. Then the peace will come to all. (1:22).

Ukraine confiscates Russian Orthodox Churches wealth - Vatican behind

It’s find peace in yourself, then it will reflects in the rest of the things around you. In Romania you’re sitting on the edge of the war. And the only thing that the Romanians have not understood, and the rest of the countries around Baltic, and around Ukraine is that, they shot the last bullets in the dimension of the faith. If you look at the history of past seven days, past two weeks, you'll understand what I told you months ago. This war was the war of religions. Not war of nations. And you didn't understand.

For the first time ever, in the history of man, a nation has moved to confiscate the assets of another church. By the order of the Ukrainian president, all the assets of the Russian Orthodox Church has been confiscated. Voilá! Now you see what I told you months ago. What a war of nations has got to do with the Church. Now you understand how the Vatican is involved in this. Read the newspapers. See what the President of Ukraine has done.

He is just a tool to bring the end to the religions. He is as we all know, a comedian, the monkey on a string. Now you understand what I've told you months ago, (1:24). this is a war between the churches. Now you have the solid proof of it. Now you understand how much we know, and how much sits in the back. A nation, it’s very much like in Israel, the government orders to confiscate all the Islamic mosques and all the Islamic assets to (put it in) theirs. Would that change the belief of the Muslims in Israel? Or is it just a move, the ?? greed of this structure? And now we'll see today. In past seven days the Ukrainian president has moved to confiscate a religion's asset. Now you know what is to come.

Any other question?

Q: .. For the flight test on the 16th, can I sit in a stationary car for the test?

K-Sit in a UFO, sit in a stationary car, go in the submarine, be a member of the satellite somewhere, be on a plane, your physicality can be anywhere, it’s your Soul which connects.

R: As long it’s a quiet environment, basically. (1:26).

K- If we hear disturbances we'll switch off the person. As somebody said, by the end of the session, there will be just about the handful of people left. If you have Mosfeq which always have, beep, beep, bum, bum, if you have Stefania, which always jumps in with other thing, if we have others who live in the noisy places we have to take you out, because you disturb this peace, as I call it. It's not your fault, but it’s a collective open session.

Put all your phones on the "flight mode," which means you receive no telephone calls during the session, you will receive the internet, you will have the internet connection, but switch your mobile phones during the session into the flight mode, then nobody can call you, nobody can disturb. If you have two or three phones put them all on the flight mode. We get a disturbance, we take you out, we switch your line off. We don't give

warning, because there's nobody else to warn. The people in the background see where the noise comes on the microphones and they take the person out. Air plane passes, we are in the 4 corners of this planet, and every noise possible. It's for you to make sure you stay somewhere safe and quiet. (1:28).

Leave your phones open, do not switch your microphones off, then it becomes a one way traffic, you don't receive anything. Do not switch your microphones off, leave it on, go on the flight mode and find somewhere very quiet. It doesn't matter where you are, you can go into the depth of the system. The Keshe Foundation systems are all over the place, in an underground bunker, I call it.

Any other question?

Q: .. What will happen if someone does call through a mobile phone or knocks on the room during the experience, while the Soul is already in Linz or elsewhere? In which dimension of the Soul, or emotion or physicality, will there be an accident, or what would happen to the person?

K- Switch your mobile phones off and stay away from it. That's all we can tell you.

You have to understand, we were happy with about 80 - 90 people, 100 was our target if it reaches. We are nearly doubled that. (1:30). So, the chances of mishaps sits there. We have set up absorption systems in the background to take some of these things out. It's not that all will go one way. There will be, we have systems, which can absorb and they will be running in the background. It's actually built in the systems in Linz from the beginning.

You will have for the first time participation and connections with the Cosmic Rays (CR), which is built by the man, by the understanding of the man, and the same outside. The cosmic rays which will be part of the system tomorrow never reaches Earth, it's not part of the inner structure of this planet. So in a way, that's the sugar we added into the pot. So, that will bring a totally different dimension, even in the tests we've done.

These things cannot be recorded. None of you try to record, you will understand. You break the law, you pay by the law of the Soul. Do not try to record and do not try to be clever, you think, I'm recording it.

Only those who have sent their emails and participated will be allowed in. You can give as many numbers to anybody posted on the Internet, wherever you like. We control the panel, we have a list of those who have registered, the souls who have volunteered, (1:32). and it will go the same. It's a controlled public meeting. There are about 14 people who have not answered to the emails, to send in their email connection line. If you have paid and you have not provided, and you say you have not received the email, look in your junk box, it could have gone into your junk box. The email you sent your order, is the same email we have responded back to. Keshe Foundation has never worked so hard to respond back to an event so rapidly. All of you received your emails last night. If you

have paid and have not received your email. It means, look in your junk box. There's only one person, Wang Lin, which is going to be added on today, because she has changed her email. The rest of the people who have registered, if you have not received your, what I call, email confirmation, check it and send your email to the same email, that you received the information from. Sometime this afternoon the, what we call, the Zoom number will be sent to all those people who are participating. Do not send it out, do not put it in and do not put it across anywhere. Do not give it to your brother or your sister, because nobody will come in, you're the only one.

And to benefit by it, you need to have the headphones on your head. Do not try to share headphones, you will see what I call, "other sides of the job." (1:34). One headphone per person, and one person, one soul per system. The soul who chose to be part of this experience.

Q: .. Why to use the wired headphones, and why a mobile phone, and not the regular desktop or laptop?

K- Oh, the each has its own. If you use these Air Pods, you get interference and other bits of information which is not needed. They come with their own inherent problem. And desktop, computers or laptops, we advise you not to use because they create a lot of information, which can interfere with what you receive. Try to close all the Apps in the background, don't come into the session with Apps open, close all the pages which you have open, close everything down, that your stand directly in the line of information. Make sure you have enough battery, that can take you through the session.

Some people ask us how many hours, it took billions of years to get man to today, we need time to create that Methi. There are over 80 races, nationalities, religions, school of thoughts, on the panel tomorrow. (1:36). You remember when I told you when you come to Linz, if you're a Chinese, or if you are Indian, you are English, you leave your imprint with the system. Tomorrow you all share each other's soul, with the imprint of the work to bring that change, with the Soul of Universe.

Maybe now you understand what this process is tomorrow. In a way we are synchronizing human soul with the Soul of the Universe, and you're doing it together. Now you understand why your Soul has brought you to this position. You didn't become a Knowledge Seeker (KS) just by accident. You never understood. your Soul brought you to bring that change, and that accident of man, to become part of the Universal Community, not by accident, but by the elevation of the work of the Souls. Remember, you've been promised the Promise Day? The Promised Day has come.

Any other question? (1:38).

Q: Jalal .. Mr. Keshe, you said, do not come with expectation. And in the second hand, you say, come with a lot of wishes. How this will be, how this will be managed? You know, all our life is working with the expectation.

K- We have people who send us email, if I have cancer, I come, would I get healed? If I'm a drug addict, would I be healed? This is not a healing process. This is not somewhere that brings you to that point. Even your addiction, or your sake of illness. Your Soul has to bring you in for it to be part of the elevation, that's the reason. Not for you to be processed, or cured, or whatever you expect.

Some people come to join the Universal Community and some people come to reach peace. When you come tomorrow, it's very much like you go to a party, it's the celebration of Christmas. It's a manual set, it cannot be changed. There is a starter, there is a main coarse, and there is a dessert, and the drink is what Christ gave, this is my blood, this is my ?? patent. You'll understand. (1:40).

We are not there tomorrow to heal anyone or process anyone. Tomorrow session is for the elevation of the STM and, what I call, the "promised ?? goal" of entry to Universal Community. It's the day of promised, ?? ?? centuries and many books. You'll understand. It cannot be done by one man. It has to be the collective essence of the Soul of the Creation on this planet with the ?? Moon.

Amongst you tomorrow, I have noticed going through the list, there are a number of those who are guests on this planet, they have joined in, in the name of their physicality, but we know them, as they are the passengers of the Universe. Those are the ones who bring you that connection with the Universal Community, as they are part of it. None of you will know who they are, but we know them, as we know them for a long time, they are members. They are in the shape of the human race, but in truth inside, they're from different parts of the Universe.

It's like when you have a celebration, you invite presidents and ambassadors of different countries, they are the ambassadors of Universe in this celebration of the man today. You will understand, it's not expectation, it's a celebration. That's what it says, it's a celebration of Christmas. But not the birth of the Christ, but it's the entry of the man to understand his Soul, (1:42). and in doing so, join in the Universal Community. Don't expect to see lights and parties, that's for the Universal Community which is already having it out.

If you've been waiting for the Day of Methi, the Day of Judgment, the Promised Day, that day is upon you on tomorrow. The Universe has been waiting for this day for billions of years, in man's time. You are part of it, not us. It's you who do it, we are just messengers. We are just that cameraman, that sound recorder and the guy who brings the computer for you to hear the music. The voice and the ?? motion, is the Soul of the participants, which are from all over the Universe, and for sure the Creator will be present. Mitra will be among us tomorrow, and the child of Mitra will be amongst us tomorrow. It's for you to be enlightened, not us. We came with the light.

Any other question? (1:44).

R: Lets' answer a few technical questions here.

Q: .. When I put flight mode on my internet connection stops.
R: I'm not sure if that's true of all cell phones. Maybe there's a, I know there's a "Do Not Disturb" function. Maybe that's what it should be put on rather than…

K- It depends on different phones capability. Put your phone on the mobile and try, what you call it, on the flight mode, and try to get into Internet. Open one of the browsers like Google and see if you get in, so your system works. ..
R: .. Should we use the headphone with the microphone or should we use the microphone of the mobile phone itself?
K- You have to use the headphone ? on the mobile phone. Plug it in and play…
R: He's saying he's more concerned with the microphones, should he use them, the microphone that's built into the headphone or use the microphone that's built into the phone itself?
K- What does that mean?
R: Well, the phone, iPhone has a microphone built into it or you can plug in your headphones and sometimes they have a microphone with them.
K- Plug in your headphone.
R: I think either microphone would be okay, I guess.

K- Any microphone with the headphones should be okay. You got to realize there's a purpose for this and you will see, or you will find out the difference, very soon. (1:46).

Q: Can we leave our battery charger on, if the phone battery is low?

K- Yeah, I think in the session that we'll have that many of you, if you run out of battery, it depends how much the session will take. The session will start and finish according, we just start it at 12 o'clock sharp. It finishes when the Soul of Totality reaches a balance. If you suddenly see the session is finished without a notice, you have to understand it's not our decision. There will be very little spoken tomorrow. It's not a party, and music, and dancers and singers. It's the "song of the Universe." So you have find out the process you go through. Those of you who bought the discs, the black discs from the Foundation (Nano Plasma Mirrors), try to hold one in each hand during the process if you can, then you will understand more why you bought it.

Q: … (1:48). Thank you for what you have brought. And thanks to everyone to be part in these beautiful days. I have a question and I believe I'm not the only one. My son, my 11 year old son will take the flight tomorrow, or be part. And I'm wondering how. Should I just put the earphones on him and say, listen to your Soul? Or because I cannot hear if something is said inside. Could you expand on that please? Thank you.

K- That all depends on you. There'll be a silent. Amazingly it's a silence that nobody wants to leave.

In one of the experiences or tests we are doing, we had children, very young children, who refused to put headphones. And even in the first sessions they objected. After a while in the second session, they want the headphone. Listening to nothing in their ear

enlightens their Soul. And it's amazing how children change. I'm sure it's not something that will be silent, nothing. It's a silent that it's everything in it. It depends how, what is the expectation. If he is coming here to listen to a jazz band or a concert, this concert is a silence concert. It's the concert of the Souls. (1:50). You will have to explain to those who participate, or you bought the flight for.

Q: Dean .. So, this experience, would you. Is the position that humanity and, you know, the 7 billion, 8 billion, whatever it is, will they all be receiving this at some point? Is this a step where the evolution of man will be for all?

K- It is the beginning of evolution, not for man, but for the planet Earth and its citizens, the cat, the dog, the plant, the stone. It is the beginning of a hurricane. You know when you have an avalanche, it takes one snow drop to join the second one, and then the second, third one, and then it becomes an avalanche. Today's session is that first snow drop, and the avalanche will come.

We'll follow it on a monthly basis till it's complete. It's just the beginning. A lot of souls who are in this session will come to the other sessions and then build up.

Q: So there's a, Mr. Keshe, you spoke about, there was souls from the Universe, there are souls from the planet Earth, so there's a cross section of physicality, (1:52). and the Souls, and Soul of the Physicality?.

K- All the souls, what I call, the ambassadors of the Universe, will manifest themselves in, they are members with the physical soul here. They have chosen to be here not to be hidden and be invisible. They are here at your party, they come the, what I call, the bar ?? mask, in a way, you want ?? them to mask themselves in the human body. Don't expect that there's somebody here, that it's not there, or it's just outside. People of the Universe are waiting for these ambassadors to tell them what happened in that elevation, as much as the race of the man. There's no advantages or shortcuts.

Q: And the elevation in the man Mr. Keshe, when this has been the process of this session, this experience, will there be any physical interactions, that can be seen by others? Or is this just a, obviously people are going to be in quiet locations on their own or with their families, will the family members or anybody see any interactions or is that just a physical thing, it's all on the soul aspect?

K- It's all in the Soul. You've done enough mankind interaction, you have enough cameras, television, some programs, and Zooms. You've done all that. And you're a camera man, you record all that. Now you can't record the, what you call it, the interaction of the souls. They haven't made the camera for it yet, for humans.

Q: So that illumination is going to be from the inside?

K- That's all it is.

Q: Yeah, and the souls that are going to be present? As you said, this is going to be the gradually, it will be a torrent, (1:54) an avalanche of people coming forward to experience this?

K- It will be done. That's the only way we do it.

If we don't do it this way, it will become again us doing the magic and nobody sees it. I explained to a Knowledge Seeker, when the Christ, bless his name, arose the dead, and they said, "oh, he gave life to the dead." It was a magic.

Now Keshe Foundation scientifically does it, it's not magic anymore. When we gave life to Naomi, has Giovanni become the Christ? Now it's a knowledge. We taught him, we showed him what he has to do, and he followed it step by step. That it's not us who create the magic.

In past few days we were involved in a very specific case of a member of a family which they have a coma patient, in a destination outside Europe. The brother was present, and the doctors were present monitoring how we worked, remote in elevating the soul, and how we could see the changes in the face and the eyes of the coma patient. They said, this is impossible.

You don't need to do physiotherapy, you don't need to do whatever, (1:56). you just elevate the Soul, the Soul wakes up the physicality. Is the machine now in garages of Tesla become the, what you call, the new revelation in the car industry, electric motors? Or do the systems which we build and goes across this planet become a new crisis? Because these machines in the future will bring people out of coma. He brought the essence of the knowledge, we show the physicality of the knowledge, which the man has been ?? looking for. And that dead body was a man with his knowledge. He didn't rise, is 2,000 years, is back to that dead body. Now we're trying to put the body, ?? call it dead. Put electric shock you put on the body, and the body wakes up, tomorrow it's an electric shock, fibrillators of your souls with each other.

Q: What about the souls Mr. Keshe, of the Vertical friends and others, others present, will they have a position?

K- They are present. In the Keshe Foundation we made sure that everybody is present.

Q: So, the horizontals and all creatures have a presence in this… moment?

K- Yes, you have to understand, you look at a cat or a plant to be there. We look at the essence of the creation of that plant and animal. (1:58).

Q: So, how is the amino acid structure of the planet with the amino acid structure of the Universe going to tie in?

K- What you think you are? (Q: part of it). You are already tied in, they made you. So, it’s already there.

Q: Mr. Keshe, I'm not trying to be the mole or whatever. But will the people when they experience it, they're going to be listening to "white" noise, they're going to be listening to nothing, but everything. So, will the senses of the physicality experience anything? Or will it will just be white noise? Or will it be the dance of the soul that will be enlightened with all sorts of, whatever, I don't know, I mean. I'm speaking from the physical point here.

K- You know what the guy said? They said, watch the space.

I'm sure next week or in months to come some of you will talk about your experiences, which you couldn’t even remember, you went through in the system at that time. Tomorrow is like a beautiful game, and we unite the humanity.

If you remember, when I heard, as all of you know, I’m a football freak. And when we saw the match yesterday, and the France has become to play in the final. Of course the highest scorer of the French team is, of color, (2:00). what you call it, race, but he is French. We saw the same thing in the last time when the French won the World Cup.

The beautiful game made "one nation" out of France. The economical and social structure of the France changed with one game, when a guy, of what we call, less numbers of French team working with all as one, brought France to win the World Cup. If you study the economical social structure change in the history of France, that one football match changed the history of France internally and economically, it made one out of the nation. The French are looking for that, what I call, "celebration" again on Sunday. As many commentators said, that time the beautiful game, made a beautiful nation. And tomorrow's session is that football match, but on the level of the Soul, and it’s not a match, it’s a party of the souls to make one and bring that change to humanity. (2:02).

Q: Thank you Mr. Keshe, so when, through your, from my experience has been part of the Foundation, I went from being a very physical, loving the beautiful game (football) and things, and now I don't even watch, I have not even seen any of the games or anything to do with this particular interaction. So, it's the change within myself has taken away that physical side, that you know, you tend to interact on another level giving whatever you believe to be giving, in other ways, and sharing the energies, and coming forward and going out with other expectations of, in a different way. Totally different way.

K- You see, in that football match we have a ball, which 22 people play with, and there is one referee who runs around trying to make sure the ball gets kicked the right way. And tomorrow session and there on, everybody brings their own ball, which is the ball of their Soul, which is a sphere. But this time we all play with each other's Soul on a fair basis, on the correct basis, and there are no referees. This is the beauty of this game which we start tomorrow. It’s not a game, but it’s the operation of the STM which is that game, that

changer. (2:04). We're not chasing to be on one side or the other. In this game, everybody brings their Soul and kicks in the same direction, if you call it. Trying to get everybody to play the "beautiful" game. And the game of the Souls has no limitation, as the Creator Itself comes with His own ball.

Q: So this ball that's been shared Mr. Keshe, it can be passed around amongst all?

K- It's not shared, you didn't hear me, you don't want to hear. Everybody brings their own ball.

Q: Everybody brings their own ball, okay.

K- There's not a ball to share. And all the balls are all the same. Now you understand that can work together, you make a bigger ball. It's like, you know that football ball, has got so many patches, when you sew the patches together it makes the ball. Each one of your Souls tomorrow is that patch to make that bigger ball. It'll be an interesting ?? tomorrow.

I wonder if any of you can distinguish between your Soul and the Soul of the Creator, the Soul of Mitra, tomorrow. I made man in the image of Myself. We'll see many twins.

Q: That opens up a very big aspect Mr. Keshe, (2:06). for all the souls present on the planet and obviously the Souls from the Universe. So that is the joining of humanity with the Universal Community, and that is a big opening up… for humanity.

K- It depends how much you want to keep yourself correct and out of it. I watched that video in the center, you become like a, nowadays anybody they can't get to us, they go to Dean. You're there all the time. Can you do this, can you ask Mr. Keshe to do that. Or I walk to Mario in the office upstairs, "oh, Mr. Keshe, there are questions I want to ask." Knowledge Seekers want, because Mario is there, always near Mr. Keshe, he might ask the question and we get our answers. These things we call it, party ??, because you know somebody, you can get away with. These things (special privileges) won't exist tomorrow.

But, you've being there, for past four or five months we opened the center. You have never broken the law of acceptance of the souls. You never put a foot in the (flight) room since they opened up for the space technology. Even you are there, you see all these switches coming out of that room, with all the souls with experiences, you never wondered to walk in.

Q: Unless invited Mr. Keshe.
K- Very British.
Q: Yeah it's exactly.

K- We invite you for a tea and biscuit, but you stayed a little too long, it's the dinner time, you have your biscuits and tea, we have our dinner, you watch. Very British. (2:08). So that's maybe will change tomorrow. For those of you who don't know and don't

understand English mentality. Dean is here, living there for 30 years. If English people invite you for tea and biscuit, and it's three o'clock and dinner time is at five, they won't invite you for a dinner. They'll let you have your tea and biscuit, while they set the table and they have their own dinner. When this happened to me the first time I was shocked. I said, how is this possible? But this is the way it is. You don't touch when you're not invited. And I sat there and had a tea and coffee, and I watched them having their dinner. So, Dean is very British, he's there all the time, but he's never been inside, because he wasn't invited. He didn't invite himself, he didn't go and register to get in, so he didn't get in. This time he registered, he get's in. But that's how it is.

Q: Is that expansion of the Soul Mr. Keshe. It's time, place and position. And you've always said that, when it's meant to be, it will be. And you've always been extremely, extremely patient, and given everything to the Knowledge Seekers and humanity, and literally everything to bring this forward. So, as frustrating as it may have been, it's part of the process, and it's now, as it's set up for tomorrow, this beautiful encounter for all the Knowledge Seekers, and the beautiful Knowledge Seekers, and the souls that are present which are magnificent in their beauty. (2:10). We're all going to be in time, place and position there, and many have already experienced it. So it's when it's supposed to be, and it is, what it is.

K- It is something very interesting. I'm sure I've told you before. And our Iranians friends can tell you. Iran television director has said, we'll be present when Methi appears. And the saddest thing is, tomorrow when the Methi appears, and there is no television rights, nobody can record it.

The worst thing is that the world leaders, and religious leaders all have in the plans, even in the Iran constitutional religious side, they have made the army when the Methi appears, to protect him. No king, and no president, and no world leader is invited to the day of the manifestation. Amazing. Layman's soul it's more important than the kings and presidents of the ?? world.

This day was promised a long time ago, it's not coincidental. This day is part of the change which will bring that change, the bigger change humanity is waiting for. It'll be brought in step by step, because from month to month, as we progress, more and more will be added.

In middle of the year, in the back end of next year, (2:12). people will give everything they have to be part of the experience. Kings will give their crowds and their kingdom to be able to be present in that encounter with the Creator. We don't fight, we allow you to destroy yourself. And the process starts today. It's like, there's limited seats and there's a limited number of people who can be part of it. As the, very much like a, the band you start with singing in the pubs, and the club, and the theatre, and then you get to a football stadium, and then you get satellites for the whole world to see.

This is the beginning of that process. This is a private club which the souls will start the beginning of, and ending up in that stadium, and then the whole lot to be part of. We are

just providers of the facilities, nothing else. We promised we'll bring Mitra, and we promised we will bring the Creator, and promised bring the child of Mitra. And all 3 will be present tomorrow. It's for the man to understand. (2:14). A new generation, a new cycle of life has started, and man is part of it.

Q: I can feel my body shaking a little bit now, just with the interaction of what you've just said.

K- It's there tomorrow. You will all feel it, and you will all go through it, and then you understand it.

Any other question?

Q: .. You told that some people use the energy from the system, and some use less. And that the UC members used zero energy. Is there a measurement on the unit, which shows what the people use? Or maybe give energy? Or do you feel it on your own?

K- Both. Those of you who come to the center and you've been in the room, sometimes, to some Knowledge Seekers I show, there are gadgets in the center of the room, we watch the traffic flow. Yesterday I was with one of our Knowledge Seekers, I enjoy working with him, it's a pleasure. It's amazing the things happens when he's around. (2:16). We were testing something together. He's not in Europe, he is outside. I was walking around the units, I was explaining things to him, and his beautiful ?? energy, he is one of the souls I have the pleasure to work. While I was talking to him, ??(my pen) fell. I bent to pick it up. I was on one side of the unit, I could see right through the two units. It was as clear as a day, that was normal. When I stood up, those of you who come to the center, you know what I'm talking about. There are like 4 levels of construction. It's like a tube, between the third and the fourth, which is a gap of about 40 centimeters plus, it was like a hazy, it was like a fog. I said, what's going on. I said to him, just wait, something is happening here. I've bent out. I could see through clearly. I looked up in the middle section, it was a bit hazy, looked on the top section, top between the third and the fourth level. And the other system in the background is in a mist. I moved out totally to look from the front, to see the other system, it's nothing. It's as clear as anything. It's clearer than the bottom, I looked. (2:18). Now, I did this ten times, to make sure it is not an illusion.

The plasmatic fields in the room has taken over, the room is not clear anymore, and it's like a mist, it's like a cloud. If you've been on an airplane in the big cities, sometimes you get the tip of the big buildings coming out of the cloud and the rest is white. It's a beautiful picture you must have seen it somewhere. It's exactly like this, but upside down. The top layer, the first 40 centimeter on the top is misty, you can't see clearly through the room. This is the part where we hold all the information, all the energies, all the systems. The thing is nearly two meters long. It's not one spot. Our team, I'm sure today are there because they're making things ready for tomorrow. Don't switch the machines off, leave everything on as it is, and look into it. Look, they tell you.

So, the plasmatic fields has been established and it's there, and even with me who walks in there more or less every week. For the first time I saw it yesterday, and it is amazing how, tomorrow when we add the Cosmic Rays to it, this thing will charge up. We have the confirmation of the full plasma room. (2:20). It's beautiful to see it, and it brings what I always said, that you will not see the system.

Yesterday I could not see the other system 4 meters away clearly. When you come into the room, most of you, you'll always see a blue dark environment. When I'm in the room is a full, god knows, how many spotlights and floodlights on. There is no illusions. And yesterday for the first time we could see the development and strength of the fields in the room.

Because we always look at one level, we don't see it, because it's all the same, but bending down and coming up from ground up, now we can see the plasmatic field building up to the top. I'm sure our team out there today, it's good for them and they go in to test it, to see it. If you bend to the ground level and come up gradually to the top, you'll see the mist of the fields of the plasma creating to the top.

We don't switch our systems off, the systems have been going from the beginning, more or less. It'll be amazing when we add the cosmic ray units, which hopefully, will be in next few weeks for the transportation and transmutation, I'm sure the building will glow. (2:22). You're becoming part of that structure, when you become part of the collection of the work tomorrow.

We expect from tomorrow onwards, that the Pope will resign. When I met the king of Belgium, when he made the threats on me, I said to him and the queen of Belgium, I leave, you won't be king long, much longer after I leave. We left on February the 13th, 2013 with three suitcases and one car, to Italy. Few months later he abdicated, and he wasn't the king anymore, and then he was taken to the court for his misconduct of adulterous life. His own nation put a penalty on him.

Tomorrow will be the same. But this time it's not the man with three suitcases. This time it's the humanity with the suitcase of its conducts for the past millions of years, (2:24). and the change will come. No one can stop the process tomorrow. No nation, no king, no president. Even if they switch off the Internet, the Souls have connect, and the connection will bring that ??. Many kings will give their lives to be present tomorrow. But the only thing is, they'll find out, there are no tickets for abuser souls.

Some of the enemies of the Keshe Foundation have enrolled, we know, to be there tomorrow. But, expect your Soul to, in a way, change your life. You will understand. All of you who came to the Center, all have you participated in that bit of cloudiness, which is there, which is part of your energy, you took, some you left, and it's all there purified and beautiful.

We had the last session with two brothers from Taiwan, a couple of days ago. (2:26). It was beautiful to see them. We were missing one part of a balanced equation, which had

to be balanced. And yesterday, I mean this week, a couple of days ago, when these 2 brothers came, it just felt beautiful to be and to have both of them. They traveled from UK to be there for just a few minutes to bring that part of what we call, balancing. It's the joy they brought with them, the short time they were in the center and they left. They brought a lot of joy in the whole operation that, it's beautiful to see how humanity is getting ready for that change.

What was very interesting and very, touches deeply. Is how, in the past few weeks, we do not see any more Italians. They came in a flood in the beginning. In a way their soul is ready for that separation of the Vatican and the Christianity from Rome. It's as if their souls know. As I call, they brought the guy to put them in that position. (2:28). As there could have been no addition from the Italians, as the Church will break up, and there'll be no sign of it left. And they know. The souls know, so they are not there anymore. They brought in, very much like the Coliseum, to build the Vatican. And now they know. The souls knew, the time is there, to not to be there, as the change comes and it'll be the end of the cycle.

But they never understood. But they brought the element to do it for them, that was the most beautiful thing. They brought the guy (from 11.11 Italian radio ??), who I call him, whatever you call him, in English language, to do that job. We haven't seen any more Italians, not a single one. As it was, they came to say goodbye for all the abuses, which they brought to humanity in the name of the Italian Church. It's amazing how we watch operation of the souls, and how they knew, and how they know and what operations they ?? make.

Any other question?

Q: Hello, Professor Keshe and Mr. Rick. Is this effect of elevating the soul in tomorrow's workshop permanent or temporary? One time, forever? (2:30).

K- It's that kindle, you know when you want to start a fire you start a kindle, you just light a little thing and then gradually, if you blows up becomes a full fire. Tomorrow is that kindle, and usually starts and it has to start that way. Then it consumes the whole of the ?? life, when you start a fire with the kindle, the first spark, and the first burn, you won't see that one anymore, when the full fire burns, you can't look for it, because now the totality comes. Tomorrow is that time, the Soul of Methi, The Promised One, the fire, whatever you call it. Is that one.

R: It's like the reactor ignition as well, and could look at it as that.

K- Yeah. Because this time you cannot prosecute, you cannot crucify, you cannot do banish, because this time it's not one, it's the Soul of Totality. And the worst thing is that, it sits within the structure.

I said something very recently, if you understand it, it's in the writings of the Messengers, and it says, we took the love of God from the tribe of Moses, for what they did to Christ.

This is in Koran. (2:32). Bahá'u'lláh wrote the same thing in a different way, with the same punishment, and it didn't work. But different tribes. In the time of Methi we enlighten the whole souls, that nobody is left and nobody's punished, but all become equal. That day is tomorrow. Every single one of you come from different tribes, different races, and religions tomorrow. Each one of you brings that kindle to start the light. And this time nobody can stop it. Mankind will understand the significance of tomorrow. Gradually you will understand the Totality.

Any other question?

Q: .. I've just tried to test with my phone in flight mode, and it worked. So, you can still get through, just so everybody can know that you can do this. (2:34).
K- I know that, we tested it.
Q: I'm just confirming it.
R: If you put your flight mode or airplane mode on while you're connected to the Internet, it'll disconnect you. So you have to put on the airplane mode first, and then you can reconnect with your Internet.

K- Most of the Apps ?? and things do it automatically nowadays. You don't need to do it. It's done automatically. It finds the nearest post.

R: Yeah, except that when you put it on airplane mode, it cuts off your Internet. But when you go on Internet, in airplane mode, then you can deliberately select your to turn on your Internet again, so that you can make the call or whatever. I think there's also the "Do Not Disturb" function that can work for that as well.

K- We'll see tomorrow.
Q: Mr. Keshe, the time is definitely 12 CET?

K- We start the session around about 11 o'clock, to get everybody in, for people to fix their phones and get the things right. But if you come in 11:30 just test it, it's there, and go out and come back at 12 o'clock, it's all the same. Because at 12 o'clock nobody else will be added on. Once you're allowed in, you go out you stay on. Depends if you want to come at 11 o'clock it's nothing, but just clicks, or whatever in the background, making sure, because you have to have to come in with your Zoom account, you cannot just come in and switch on, (2:36). because you will need to come with your Zoom account, that it carries your email, that allows us to let you in. When you come in, we keep everything muted in the background, till about 12 o'clock. We'll send a message to unmute or you unmute yourself. Don't expect any ras mataz you could even walk in with total silence the whole four hours, not a word. This is what and how it will be done. Maybe you get an introduction and everything else, but don't expect something you're used to in the human level, and somebody will come and do things. I know Rick has done a lot of these tests and practicing, the reason a lot of you who've been around with Rick, other bits you know, I noticed in the American teaching last weekend, they do the same. So you have started learning to be part of that Soul, that silence of the ear of the man, as I call it. But

this time it's working. And there is no machine in the world that can record this, man has not invented soul recorders yet.

Q: Mr. Keshe, I'm sure I heard you say the four hours, so is this where time doesn't exist, a few seconds could be a very long time and vice versa?

K- It all depends, we will monitor and we decide on what to be, and what time, it could be half an hour, it could be three hours. (2:38).

Then the sessions on Monday will follow, I hope a lot of you who have been on the session of the Friday, you will go to Monday session, then you'll find some connections. In so many ways, Monday's sessions is a confirmation of the Friday's work. Then you understand. In so many ways, Monday sessions there are five sessions have been chosen is very, very, very special.

Q: I did notice that Mr. Keshe, with some people who went into the system, it wasn't, didn't always occur on the first instance, that was sort of like a balancing position. Then they tend to receive, or start to be more, you know, be more balanced, so that they could actually receive, or give to the system what they needed.

K- It works. Monday sessions will be very interesting sessions for us to monitor the development of what happened since Friday with the souls.

Q: So the physicality will experience something from those two time positions?

K- Psychosomatic.

Any other question?

R: An easy payment system from Africa, Hassan is asking in the YouTube here. (2:40). And he suggested an app…
K- What payment, you can do it…
R: That's called wave, an app called wave, which works in Senegal and Gambia. I know you've said before that Keshe Foundation can't set up a separate payment systems for every country of the world and so on. Is there any advice you could give someone from Africa?

K- Not really, we sorted the problem with, like with Brazil and Iran. And with China now, we hopefully sort out, that people cannot send money out so much. They pay their fees directly to the Keshe Foundation operation in their countries, and the what you call, the process will come through that way. They just inform us of the emails, and the things to connect, and the team in the background will connect them on time. With Africa, we don't have any operations that you can pay into.

R: Perhaps they could then work through the Brazil team. K- Yeah.
R: Or some other team that they know about.

K- But tomorrow, we think the line should have been closed by now. The, what you call, this process will take time, especially with Africa to join. We have the Russians who wanted to join and there is no banking out of Russia at the moment.

R: Hassan mentions that if the Foundation had a phone number registered to the App, and that's basically all you need in order for the transfer system to work. (2:42). But I don't think you have a phone number that can be registered at…
K- It's a local phone number, not an international number, I presume.
R: I think it can be international.
K- If you send a message to info@kfssi.org, we'll have a look at it. We have to find a solution that everybody can get ??.

R: That's what I suggested. So, let's…
K- They can work something out. We are going through the process, as we understand, number of operations and doctors are operating in different countries, and using the technology, and number of people are benefiting by the new technology through the doctors in different countries.

Yesterday we had the pleasure that one of the Knowledge Seekers who himself is using the technology through the operation, for himself has donated 4 seats or 4 places to the medical system, for Parkinson. He has donated 1 for somebody he knows and 3 were given to the freedom of the Keshe Foundation to allocate for 3 Parkinson cases. We have offered the whole three packages of three people to the Iran national operation of the Keshe Foundation, that the doctors in Iran can assess as a collective. Still having them ?? on different points and random. We target three people with Parkinson in Iran, and the, what you call it, (2:44). the progress will be monitored by the doctors in Iran. That it's not one random happening somewhere else. Then this data will be fed back into the operation of the, what you call it, other doctors around the world in the Keshe Foundation work. We'll keep you posted.

It's the same with the two children, two brothers. The doctors have the knowledge which comes from what they are gaining it's amazing. We already have started seeing, after two or three sessions, the beginning of slight changes, but beautiful changes. We'll it see right across the, what you call it, the work of our doctors. This way is easy for us.

We don't need to transfer anything, if you have a financial problem in sending money out to the Keshe Foundation, it's now resolved. And in your own nations when we work you contributes over the work of the Keshe Foundation in that nation. In a way we do exchange of technology, in exchange for wellness, and allows the operations in each country to run smoothly, because now you're financing your own nation, not the Keshe Foundation as a headquarter ??.

Any other question?

Q: Can the hearing impaired do a session too?

K- I think it's the wrong question to ask. (2:46). And a totally wrong question to ask. If you have such an impairment, you don't hear the work of the Soul through your ears. So if you're deaf, blind, or whatever, you're working through your Soul. You don't need ear to listen to, or hear. It will work the same for a layman, a king, as a deaf man, and a blind man and a vision. In the work of the Soul there is no impairment, so there shouldn't be nobody for you, if you're deaf or blind.

Any other question. I've got to leave by 12 o'clock. I have to travel.
Q: Dean here, may ask another question please, quickly Mr. Keshe?
K- Who asked you to ask the question?
Q: I am (not) allowed to say?
K- Yeah.
Q: We need to rebook for Monday, do we need to go through the booking procedure again, pay everything?

K- Yes, yes.

K- We've seen a rush of people in the past 48 hours, people trying to book. (2:48). I think the booking for the tomorrow session is closed, or will be closed in the next couple of hours, I don't know. But the booking for Monday, will be closed on Saturday or Sunday, because it needs, you have to respond back to an email. Then you have to be registered, and all the work which goes with it in the background to be ready for Monday. Monday sessions are beautiful, but it adds to the work of, what you call it, knowledge on Monday.

Q: .. confusion … The email from KFM customer received to me at 13/12/2022 and the date of it is 11/12/2022, and both sender and receiver is KFM customer service, is it okay?
K- What?

R: I don't know what he means by all that, so I would send a message of to info@keshe.foundation. I would think to clarify…

K- They'll clarify, if there is such a thing.

Q: .. With the millions of 5G towers around the world, how can the frequencies be changed for a healthier positive outcome?

K- What frequency do you want to change? (2:50). The frequency of the 5G is matched to the system you carry in your hand. You cannot change it, otherwise your phone won't receive it.

These things are planned years and years ahead by those who are planning to do it. So, everything has to match in all the countries, in all the handsets and all the satellites. You cannot change any of it, it's planned years ahead. Three, four years ago, I was in Sunya, I

used to live there when I was in China. And one day I noticed a couple of Iranians talking in the breakfast room. I was talking to them, and they said, they were in a conference for the next things after 5G, and it is an international conference from different operators, and satellite people, and governments, that everything gets matched. They meet every month somewhere around the world. So, what we see it come after 5G is already been working on three or four years, I know of, imagine how many years before they started working on. So, sooner or later, there is something after 5G they're going to hit you with. These things has to go, that all the mobile phones can receive it, and all the satellites are tuned in, and everything else and they train enough people to be able to run it. So, not much you can do.

Any other question? Shall we call it the day? (2:52).

R: Yeah, I think we're getting close to your deadline there. So perhaps we should do that. It might be a couple of straggler questions. But I think you've pretty much covered it here.

K- Okay. So, be there tomorrow and be part of the experience. And we shall see. It's a wonderful day tomorrow. And I'm sure each one of you will take something beautiful from it. See you tomorrow, and Monday, and next week, and the week after, during the Christmas and New Year, we'll be still there. The overtime pay during the holidays is much better than during the year, I think. Rick and I can tell you that.
R: We broadcast I think every national holiday of every country in the world at this point, including Christmas, New Years and all of the rest.
K- And the religious holidays and the religious ?? time. We have no limitation.
Thank you very much.
R: Okay, thank you Mr. Keshe, thank you for the opportunities that you're bringing forward here. We look forward to participating in them as much as possible.

K- Tomorrow is a fascinating and beautiful special day. Let's see what we can bring about. Thank you very much. (2:54). And see you next week. Or see you tomorrow.

463 KSW December 15, 2022

464th Knowledge Seekers Workshop; December 22, 2022

(Transcription, Proofing done)
(Auto transcription by Elias) (This week 4 hours in 2 parts - they may join parts together - wait on time marks)

Results of 16th December - Promised Day - physical proof graphs - collectively man with Prophets met Creator; Man - Prophets - UC - Creator all equal - physical proof of

measurements taken 20 km away; U Council will takeover from Prophets; Greed of man came out with wish; New products Iran; Fundamental Rays; Christmas copy of Mitra; True meaning Virgin Birth; End of religions

ENGLISH TRANSCRIPTION

(:04).
K- Good morning and good day to you whenever and wherever you listen to these series of the Knowledge Seekers (KS) of the Keshe Foundation Spaceship Institute, we welcome you back to the cycle of knowledge seeking turn, for another cycle of understanding.

We are fortunate today in so many ways, to be here to celebrate the birth of Mitra. Today is the birth of Mitra, and coincidentally or by destiny, we have a program on her birthday, the cultures of different races and nationalities in different ?? locations on this planet, celebrate today. It's the longest night in the northern hemisphere, it has been designated as the birthday of the lover of the God, ?? decreed. We call it, "shiri andra ?? (Persian name), which means the beginning of the enlightenment.

From now on the days ?? ?? getting longer, and the light will shine ?? on man more. The reality, the birth of Mitra and the birth of a child, which is the ?? creation of the love of the Creator, is the cycle for man to start. We see the new beginning, we see the emergence of the Totality, of what we call, peace on Earth, and peace across the Soul ?? and the Soul of the Physicality (STP) of the man. Last week ..

R: Excuse me Mr. Keshe The microphone isn't very good. (:06). We can't hear you very good.
K- Is that better?
R: Yeah, that's, that's better. I think

K- We celebrate today, the last week, the beginning of a new cycle. We brought in a new understanding. We brought in a new Totality to the work last week. In the trials of the Friday the 16th, and then in division of the trial of the 19th. Last Friday and Monday, we came to understand how the whole system was set up.

For those of you who joined us, you went through a cycle of understanding the whole structure is about mankind. The Soul of the Man (STM) and the Creator. Those of you who were not with us, and for the future references. On Friday, we had something over 150 people, we targeted for about 90 to 100. But we allowed another, further numbers in, to be able to carry some 80 nationalities, races, creeds, and religions, to be part of the celebration, the Day of the Promise.

I'll explain to you what was and what was the reason we call it, the Promised Day. What everybody was waiting for. In the process of the whole session, was to bring mankind together in a dimension of the Soul, and then bring them in power to the path of the belief

they believe in, to the Soul of the Christ, to Soul of Muhammad, (:08). and even their Soul needed, or in a way the dimension (D) of the strength of their Soul needed to guide man to the Creator.

In the last session of what we call, after the unifying the man with his path of belief, the way he got to know the Creator. We took the man to touch, to be in touch with the Soul of the Creator. And then we allowed the man to go back to his own Soul after that. Keshe Foundation as, is a scientific Institute, we are the space development, not only for space to go to the Moon, for the space for the man between him and his Creator. To find out what it is, how it is.

And, as we explained before, in the past months, I have taught the Keshe Foundation team how to create Cosmic Rays (CR). Create a condition, that it connects man with the Cosmos. It connects, allows Man to have the power to become a traveler of the Universe (U).

In the first section of the program of last Friday, we allow through the dimension of the works in the system we have, the STM to expand, expand and connect with the CR, with the cosmic energy, with understanding of it, in addition to what is connected already, by him to the Cosmic. We set like all of you, all of you who attended, (:10). 2 systems one to generate Cosmic Rays, and one to be environment of the cosmic rays, that it creates, brings man in touch with the Soul of the Universe and the Creation. And we put monitors in this environment. As all of you know, we are developing this technology for man to go into space. So we used the, what you call, the new flight system, the universal flight system into operation, some 15 - 20 kilometers away from the Uno Center, the Linz Exhibition Center, the Center for flight. For the flight of the man into not only on this planet, but beyond into a space and your universe.

We monitored. Our team in the background monitored how did us, as one group, one race, even as individuals operated through our fields of our extension, expansion of our Souls, with the others, with ourselves. And the power generator, the cosmic power generator, we measured the strength of it from inside, what it's generating. We can only generate as much as people can take, and what is needed. And we saw how the system inside in creating this, was .. working, was responding, was providing, where was following for what Man's Soul needs to be able to provide.

And we measured the environment where we created this cosmic rays, what the environment responded. (:12). Because our system has a soul, the same as each one of you, you have a soul. So one of the participants in that trial, in that celebration, was one seeing the cosmic rays, the soul of the generation of the fields of the rays, and one the environment, which the soul of the system was. So we were monitoring at the same time, 2 or 3 different dimensions, how things were happening through the same as you, with 2 headphones.

We were monitoring what energy they're putting into the system, while you are all going through the phases. We have a measurement for weeks, the system is running, test, stayed

switched on, kept on. We see the heartbeat of it. We feel the heartbeat of it. We measure the heartbeat of it. We measure the power it creates, and the energy it has been putting out.

Being able to produce cosmic rays, allowed us to feed you. In a way, a power source was added to the power source of a man, to meet, to match, to become in touch with the Soul of Creator. So we monitored how you as individuals, some 150 of you, expanded your Soul. We monitored when you collectively, when we asked you to join each others Soul, behaved. We monitored how you, when you, when we asked you to bring in the Soul of what we call, the Messengers of God. The Messengers, of whatever path of belief you have into the game, that through it, that you can connect to the Creator, (:14). because they are the light till the Universal Council takes over. Have been in the past.

The line between the man and the Creator, the Messengers, the link. And we watched how you connected with them. Then we watched this time, when we asked you to join the Creator, how as a Totality of your soul. Collective soul of the planet, which is represented by you, and we had some animals, some children behind with us, and everything else, plus the Soul of the Prophets of the past. How it interacted. How it interfaced with the Soul of Creator. And the system's response was amazing.

For the first time in the history of man, we can, we showed how all of you who participated in the level of your soul came to be, to be in touch with, to be equal in all dimensions. Doesn't matter who you were, you called yourself a doctor, a professor, or a lay man, a street cleaner, whatever you do, being on the chair paralyzed, sitting on what I call, seat or throne, or whatever. How you collectively with your Messengers interacted with the Creator's Soul.

And now in our system, we call it, when the man faces his Creator. There was no difference. We had no one standing out, as the souls were equal, even the Soul of the Creator. (:16). I made man in the image of Myself. And now you understand when He's amongst you, you will not know, as He is equal, as He is the image of you.

We show you some of these graphs. We'll show you these are oscilloscopes for entry oscilloscopes data, which is collected 20 kilometers away from the Center. There is no physical connection between the laboratories. And what we call the test center. Except through the dimension of the fields of the cosmos. Except what they create. We have developed systems, that we can measure cosmic rays, we can see their interactions, we can see what they create, on the level of the man's, what we call, measurement and tools. The system is set exactly as many of you are used to.

In a way many of you are, and have seen how we set up, we do things, and how we bring, we create systems with a soul. We create systems with understanding of the work of the Universe. How we come to be part of, and how we organize everything in our systems to match the work, and to the level of understanding of you in the future. For man to understand that, you did not need any intermediaries. You do not need any prophets, you will not need any magicians, call themselves Messengers of the Prophets, or whatever.

We allowed you to come, (:18). to be, to feel in the level of your Soul with your Creator. And in that process, we set out to confirm that, in reality, what we set up with you, in the process of the systems, which we came to Linz, and many of you tested, and the new generation coming in. That we create that dimension, that condition, that you transmute through the Soul of the Creator, through the cosmic rays.

You don't need no satellites in the coming time, with the tests we've done, none of you need any headphones. Your headphones are within you. It's part of this structure of the soul you work, you live with. And this becomes very interesting when you gradually come to understand.

Universal teachers like us, teaches unconditionally. We have set, and we are set to bring the teaching, to the knowledge of the Creation and the Creator to man. We are the Knowledge Seekers of the universe. We've been brought up to bring all races of the Creator to one level. And working in this way for billions of years. For the first time we have managed to bring the soul all created, to become, to be able to be in touch with the Soul of the Creator, with the knowledge of the Creation at any time, point and place.

If you were in the meeting of the Friday, (:20). your soul touched the Soul of the Creator. If you're a Christian, you had the Soul of Christ with you. If you're a Muslim, you had the Soul of Muhammad. If you're a Jew, you traveled with the Soul of Moses. If you're a Buddhist, you traveled the same, and every other path you believe in. In a way, those who took the hand of your forefathers physically, now they join you as equal in the soul, to meet the Soul of the Creator. Even the fields, the energies created by the system, were more or less the same, which meant you hardly used any. You became balanced, because there is no interface. There is no resistance. There is no as such, except the dimension of understanding the Totality.

In our process, we brought the condition and the generation of the new technologies. Where this allows you at any point in the universe, to connect, not only with Planet Earth, not only with the Universal Community, but go deep in, in a time of the point of understanding, mature enough to reach the level, the understanding of the knowledge of the Creation and the Creator. I took man for the first time in a physical condition, and measured it by the instruments that the man has created to confirm his interaction with his Creator.

That was the Day of Judgment. (:22). That was, what was promised, that the man will stand in front of his Creator, and be judged. And scientifically you cannot be judged as you are all equal. Nobody can judge the other. Not even the Creator judges his Creation.

We set the environment, man created the womb of the mother to create that Soul. Gave you the heartbeat to maintain and sustain the energy of the physicality, to stay and body to operate. We created the system, that is like a womb of the mother. We gave you the heartbeat on the system to generate energy. And we allowed you to create a soul. And we

put our systems to measure all that, in different points, in different locations with it, to see that the child is healthy.

The connection of the man to his Creator is perfect. And what we received is absolutely confirmation of the existence of the man, and all men are equal in the dimension of the souls, even with the Creator. He did not try to make a resistance, to show I am better. He became the same as the man.

In understanding this, we set out to bring in the Totality for you to understand. And scientifically we show you exactly how you individually, and then as a collective soul of this planet, and then in conjunction with the Soul of the Prophet, you encountered in your Soul level with the Soul of your Creator. (:24). I welcome you to the kingdom of the Creation, not to the kingdom of God, because Creation and Creators are all collectively the same.

In our systems, we have a measure before the system, before we switched anything on, and after every phase you went through. Our system showed this. You see the red line. The beginning and the end of Monday. We get the same ?? figures, the same shape of graph. The red, the green, the blue and the yellow. The red comes from energy and the soul of the generator, which generates according to the need, the cosmic rays to connect the system with the cosmos. As you can see, it follows more or less the same track as the demand. Hardly produces anymore, but it prepares itself for a next step. When you expand the figures, when you see it, it's the way the universe works.

Man, as always has a greed to have a battery and collect more to be become bigger. In the universe, we create as much as we need and no more. There is no place for greed and storing, because all goes to be given. So, you see in the dimension of the field production, the energy system, which create the energy.

I have to explain to you something very simple. (:26). Our people in the background are writing what we call, the scientific paper for this. And you will see these graphs and data in the report to come out from the Keshe Foundation. The confirmation of the existence of the STM and the Soul of the Creator and their interaction.

As you can see, you have the other measurements of the dimension of the Totality following the figures, gives you the combination of the energies within the womb, within the system. What will be interesting is for you to understand, how the next step takes place, how we go and see, and what we understand. As you can see, this is more or less the shape of the system, which we've set and you've seen. The orange or the red color is where the generator sits.

We measure in different points heartbeat, the strength of the fields of the cosmic rays. Those lines on the graphs you saw, this is how it is set. The heart, the heartbeat sits in the center. And the blue is what is the front, what is comes, and what it gives , and ?? take ?? within the system. The yellow is above and the green in the center. Collectively the three

will show the what we call, Collective Soul of the system. (:28). As our Soul is created by every fields within it.

In a way, you sat in a chair with the headphones, we put headphones in this system. And you receive both, the fields from the generator, and the cosmic rays from the Soul of the whole structure, which connects to the cosmic fields and cosmic rays in the universe.

The interesting point for us was to see how 150 of you outside, interact with a generator, which has the same soul, the same structure, and a system which has the same soul and structure. And what we saw and what you observed was, the beauty of what we put together for you to understand, this was your condition. And this system has been running. It is fascinating. This is when we finished. But when we started, what we saw? This is the first graph. This is where we asked you to expand and to let your Soul open up. The red line is before we asked you, before we switched our system on to telephone lines through headphones, (:30). and the rest is how you suddenly responded.

Conformation of the STM. And all of you, together, start hammering in, start your Soul to expand, to come beyond your physicality. In that way, in understanding this, we saw how you as individuals, and collectively start working together as one soul. We've seen the expansion, we've seen the operation of the expansion. We've seen how you as people started through the level of your soul, to come, to see, to be part of, and to in a way, interact with every possibility.

You can see how immediately after you became one, after you became one with your Soul, where your Soul expanded, we see the two first nodules. How quickly you as people, became to be able to, in a way, cooperate and work with this, with each other together, and as one. (:32). And it became very easy for us to follow you. It became easy to understand the process of your working. It became easy for us to see how you're busy you will ?? raise interact.

… Then it allows me to draw on it and show you a step by step. In this process, you see the red line. You as individuals run Webinar, you as individuals were connected, and you as individuals were and could see and be able to participate in this work. What was interesting was that, you in the first instance, you could understand you could interact, (:34). and be able to show how you as individuals behave in the dimension of your Soul.

And what was interesting for us was that, how you as phases of the work, became to understand, that you can expand your Souls beyond your physicality (P), and beyond your Soul you can see, and you can be as a field, where we can measure it. We collected the system, when we asked you, we take time for silence, we take time for your expansion of the fields and energies.

Interesting enough, after a while, after the second flat peak, then, we asked you to join each other, connect with each others Soul. Now, you see how you collectively became one again, and the energy followed. (:36). In a way you were taking so much energy

from the system. We went to negative energy in our generator, which means you were taking all to get to that point.

Interesting for us was that, when we asked you in the next phase, to join the Soul of the Prophets, this is how you behaved, you see the light. (.. I cannot write on this, I don't understand why.) You see the red line and the flat line coming up, flattening the one before, into interaction of your souls with the Soul of the Creator. When we asked you to join your Creator, the Soul of your Creator, how rapidly you and the Soul of the Prophets jumbled together, and then you went flat. That there is no difference between you, your soul collectivity, and the Soul of your Prophets, and the Soul of the Creator, you became one. I made man in the image of Myself.

The flat line is the time when your souls interacted with the Soul of the Creator, with the Soul of your Prophets, with the collective Soul of the Man from this planet, (:38). and the soul of those who were your guests in that meeting. We had people in the face and the name of the man, but they're ambassadors of the races of the universe. Then that flat line explains to you, even the energy pattern from the source became the same as the source.

You don't see peaks here that I am the king, or God trying to show himself, I am "Me." We don't see a separate line. All lines are together, man is equal. Does no matter what clothes he puts on himself.

The beauty of this was, the time of the process, twice we heard the "Azzan" from the mosques of Middle East. We heard the voice of children, and the "child of Mitra" in this process. Everyone who is here to bring that change, was present. Now you can see for the first time, all created things and even the Creator are equal.

Do we need prophets? And do we need charlatans to call themselves prophets? (:40). Universal teachers, stay Universal teachers, and not prophets. Messengers as the teachers, stay messengers and the teachers. It's you who have to teach yourself, it's you have to become the messenger between your Soul, and the STP, and your life in the universe.

If you understand this graph, if you understand what it means, it means at any point you are alone, you can connect to Him for knowledge, for solace, for love and for understanding. On Mars you become a Martian, on Earth you believe like man on Earth, and in another point in the universe you live the way it is, you carry the full knowledge of the point, space and time. If you can manage to reach the point you see here, to connect to your Soul, which connects to the Soul of the Creator. I made man in the image of Myself, as I am equal to man I created.

This simple graph, this simple line, shows that there is no king. There should be no king. No man should be higher than other, as all our Souls are equal. The peasant can reach the Soul of his Creator, as a man who claims to be the king, as the man who claims to be the Ayatollah, as the man who claims to be the Pope. (:42). Even as Universal teachers, as we've been present in that meeting, we don't see a line of us, as we are all the same, as equal in line of the knowledge of the Creation and the Creator.

This shows you, this data scientifically shows you, that you are in the realm of the Creator at any time you wish. It's you who has to make that wish. It's you who has to connect with it. You speak Spanish, Chinese, Martians and you understand the culture, because at that point in place in time, you connect to the Soul of the Creator in the dimension, time and position.

Now you understand why I tell you when you go to Moon, you go to Mars, you go to another position in the universe, you don't need the suit of the, what I call, "monkey suit" to encage yourself in it. You have the suit, you have the protection of the knowledge of the universe. The heartbeat of the man has no value in another time, place and position, except for the physicality of the man.

Now, you see, is anybody higher than you. When you come to claim to be anything, except the knowledge of the Creation. Except to understanding the Totality of the what we call, the knowledge of the Creator. Then, maybe then, (:44). you understand that in the process of the Creation, mankind has trapped himself in what I call, fallacies of the past. And those who've been the abusers have abuse the trust of the man in a greater knowledge, and abused the man for the knowledge they don't possess, and they don't have.

Looking at this, and understanding this, we come to one point, we are all part of the Creation, and we are in touch with the Creator at the level of our Soul, it depends on us where we want to be and how we want to be. When you look at the past and you see what was sitting, you see the behavior of the man, everywhere and nowhere, in the dimension of the soul.

It takes time to tune in with the strength of the Cosmic Rays available to him. The last two nudges, what you see is, when you collectively we asked you to connect to each other. You had to come in harmony with the cosmic ray generator, the soul of the cosmic system we set up, to back you up with your Soul, to find a new position. Then, when we asked you collectively, to come together, you see the last 2 nudges. (:46). The two before the flat (line) is you. You tried to find peace with yourself. You tried to find and gain energy, to be able to break the STM through the dimension of physicality.

And in the same time of heartbeat, you then, when we asked you to connect with each other, you run into a mayhem of trying to bring balance to be together. Then what you brought out, when we put you in balance, in touch with what we call, to be the Soul of Creator and your prophets, the line before the red lines is when you came in touch with your Prophet. It's time where you collectively, with your Messengers, tried to connect up to each other. And again, you see certain balanced straight line, just before we asked you to enter the kingdom of God, the kingdom of the Creator. Then you see the line when you with your messengers, with your Prophets had to scramble in the Soul level, that nobody's higher than Him, because you're stripped of everything in your physicality and in the Soul when you come to Him. Then you see no signal, because there is no interface, there is no separation.

As I said, those of you who were with us on last week, (:48). on Friday, you met your Creator. You became able to access the knowledge of the Creation, and what the Creator had to be, to be in touch with. Remember one point, and this, as you are "matter" people, you will understand. When you put a magnet in touch with another magnet, and they create a link, it does not matter how far you move them apart, they are connected to each other, and have a line of connection. You move the magnet two centimeter away, you see the other ones still moves and interact with it. Move it 10 centimeters, depending on its strength, they still they interact with. So, they have made contact and the line of connection, and that's forever.

You with your Soul is the same as another magnet, came in touch with the Soul of the Creator, and you have established the same, and the first line for mankind to see physically how he could connect to his Creator, and that cannot be broken. This is why in a teaching of the last week and the week before I said, those of you who registered for the 16th, your Soul has brought you here, not you. And your Soul now carries the knowledge, has the connection and understanding to the Creator. (:50).

You remember two magnets, once you've established the lines, stays forever between the two. Now you understand why was 16th of December, 2022 so important. With the Prophets of the past you had the knowledge how to interact in the dimension of physicality. With the addition, and interaction, and providing the cosmic ray to your Soul, we brought you to be in touch with your Creator. Not for the first time, it's always there. But now we can show you physically.

Those of you who attended, joined us in that session, you were the first group, the first who came in touch with the Soul of your Creator, even though you might not have felt anything physical, all you did, all you felt in the emotion. Many of you talk about, I went there, I did this. You did the same when you came to the system with us. I said, I listened to you to hear, I went to the sea, I went to the Moon, I went to see my grandfather. And what I told you, I'm not interested. I wanted to know that I can expand your Soul, that I can bring the condition with the system. And then we tried it with 2 guys and the others with the remote control, and the collection of you in the teachings with Rick, to see if we can connect, and collect, and interact all of you in the dimension of the soul.

With that, showed our systems is true. (:52). When we added the Cosmic ray, the dimension of the prophecy of the past is over. Because now we connected you directly to your Creator through the fields of Him, and what he was embedded with you, through Him. That's where the difference came.

This is why I told you, up to now whatever man has done has been physical. From this week, from now that we understood, and we've seen when we add to the essence of the STM the dimension of the universal fields of the cosmos, of a Unicose, of the universe, then man becomes a traveler of the universe. Does not need no rocket, no monkey suit, no Ayatollahs, no Mullahs, and no priests, Pope's, rabbis and the rest of it.

In the coming time, Keshe Foundation through its operation, and what we have set out, the systems that you like to use, and you find comfortable. We bring the generators of the cosmic rays across this planet, that you can interact with the Soul of your Creator at any point in time, that no one can suffer. No man will go hungry, as you will access the knowledge and the everlasting energies of the universe.

When we built the ?? UBESUS, and others, and the systems you came in, and you sat in hundreds of you, and then you connected in hundreds to them, (:54). were just tools at the level of the fields of the STM of this planet. With adding the cosmic rays, this generator of the cosmic rays, the condition of the fields of the universe. The STM for the first time, reached a new understanding, the new connection, a direct route to his Creator. That's where the difference came.

You remember, Christ, you remember Moses and Muhammad they went to the mountains to find solace and connection with the Creator. The Keshe Foundation, Cosmic Ray generator for the Soul of the Cosmos is in the mountain. Sits on the hilltop, which by the way has been set, it feeds the whole of the planet. It's not coincidental. It has no building in front of it. When it looks down over the city of Linz. It has no position of what I call, to be interfered with, and it reaches all of you across this planet, and those beyond. (:56).

I respect and salute the ambassadors of the universe who were with us in that process. We know the Ayatollah Khomeini of Iran offices were on the line. They know the end of their time has come. We don't fight, we elevate. On the following Sunday, our offices in Tehran received a call from a Mullah in the offices of the government of Iran to meet. They always send generals and everything else. This time they send us a Mullah, because they know they cannot fight with the rule of God. Coincidental, Friday is a holiday in Iran, and the next day they organized themselves to protect the abuse of humanity. Their term is over and it's finished, as you are educated to understand that you are the, you have the capability to access your Creator, and collectively you did. And when you look in the past individually even with the support of your Prophets could not reach.

When we said, the Messengers of the past are for human, you have seen them. They even need you to support them, to be able to be directly in touch with their Creator. The event of last Friday wasn't coincidental. The interesting thing is at the end of this graph, (:58). what do you see? And it's very interesting how that comes about.

We asked you to make your wish, and it would be granted, and you see how man became busy again with the physical dimension. Back to the "old tricks." Back to what I call, "me to be, me to be all, me to be," and everything else, that man wanted, and man could understand in his dimension.

You were part. We added the cosmic rays, you could expand your Soul. Then collectively you started collecting each other. You met your Creator and your Prophets, and then it came back, what do you wish? In reality, now we see the space gap of ?? lights, (1:00). but not in the line. Still man has that greed, has not become humbled to become the same

as his Creator. Then you see the end. We suddenly go back to the beginning. We left the system running. But you left the meeting, and the system goes back to its origin.

In so many ways, mankind has not been so kind to himself. In so many ways, in the name of religion, but not having access to understand the work of the universe, has been abused. And now you understand, every single one of you can reach to that level. Pass the abuse of the Church, and Mosque and everything else, and become in touch with your own Creator.

Now, you understand why, and how the mankind has been gifted with the gift, which the whole of the universe has been waiting for. You thought people with the UFO are advanced, they're still in the physical condition, they have not managed to get in touch, to be in touch, to develop technologies, to be in the dimension of the Soul of the Creator, that they don't need any crafts. (1:02). Those who have crafts have not reached this level yet. Otherwise, they would have traveled.

This is how, we told you how instant it is. How long did it take you people to switch from the STM on Earth, to become in touch with the depths of the Unicose where the Soul of the Creator is, and interact? So, in every man, is the power to reach and become part of the Creator equal. If there was no equality, we had to generate it. He had to feed it. He had to interact to confirm His existence, and what you see with the wish of the man. It's you who has made the difference through the lack of understanding of the process of the Creation, and not with the Creator.

Now you understand what was the purpose of the teaching of past years, that when it comes to the Day of Judgment, you judge yourself and nobody else can judge you. You've seen the interaction, your wishes. And you've seen when you left with your wishes, when it came back, the universe will carry on. (1:04).

I wonder how many of you are waiting for that wish to come through, that you wished? And how many of you wished that the whole of the race of the man and universe to become unison's with his Creator, that you achieve this? Those of you who did, are the true man of the Creation. And those of you who are still waiting for my son to be cured of the cancer, I can walk, I'll be a rich man, you're in the doldrums of the physicality. Where even when you look, your Prophets were stuck in it.

We are universal teachers of the Soul, not the universal teachers of physicality. We know how to bring any created thing to see both. But it took a longer for man. Now you understand. Now you see. The physical truth about you and your belief, your Soul, and your Creator. Even your Messengers became equal to you. As I always said, they even needed you, to be all equal with you, and with the Creator. Now we understand. (1:06).

Now we progressively step, step, will introduce more and more of you, in different ways and conditions, how to interact with your Creator, and how to make that connection, how to come to be there. This is the reason why we set up the meeting of the 20th of January. And the more and more you come in touch, you learn how to become in touch your

Creator, with the Soul of your Creator, with the Soul of yourself, then you find out you don't need any Messengers.

When I can feed myself, do I need somebody else to put a spoon in my mouth? When I feed myself I know what I have in the spoon. When I give the spoon to the others, they can put poison in it, and they poison the connection between me and my Creator. That poison is religion, is Ayatollahs, Mullahs, Priests, and everybody else in the name of in-between. This is why I always said, I claim nothing, as I'm equal as part of, as a teacher. I eat on the same table, and I sleep in the same bed.

Now you understand what has been the purpose of the teachings. What we brought you to see the Gans's, the Nano coating, and the fields. Because with these fields, there is no connection to anything else but the universe and the man.

The Day of Judgment was on the 16th. (1:08). For you to understand there is no judge, except you, to separate you from your Creator. In a simple system we showed you how you can collectively come together, even the understanding of the connection of your prophets as a human level, not as a universal. They needed you to reach to that point, to become one, to be able to be the "gate" to your Creator. They needed you as much as you needed them, to find the path through the fields of the universe to the Creator.

Now, you understand why we told you, we brought you to understand the cosmic rays. The creation of the cosmic rays, and how they, interaction, and the Creation of the heartbeat of the Creator will come to be the heartbeat of the man in the level and dimension of the STM and not his physicality.

So, the citizens of this planet, you have met your Creator. As we say in English, you "rubbed shoulders" with Him, and with the other Souls which He has created. And you can see there is no hierarchy, there is no conflict, it's all balance and peace. (1:10). And what was promised when the Promised Day comes, there'll be peace. We gave you the Promised Day. You found peace between you and your Creator. Not the guns to go silence, and not for the bullets to stop. This is the true peace, which was the Promised Day, promised in all the Holy books. For you to be at peace, to understand that you're equal to your Creator in a condition and dimension of equality. I made man in the image of Myself. How can you recognize, I'm different than you, if ?? it's not you.

I am the Messiah, as Messiah is all within me and you are part of that structure. This is why I always said, I'm the "Messiah of my Soul." Because I know this graph very well, because it's me, and it's me which is you, and you which is the Totality of us, that makes us equal to you, and us, which is the Creator and His Creation. We don't see a higher line running different than the rest. Now you understand the purpose of last week. Then hopefully you understand what is to come.

We still run the Keshe Foundation, we still make things, because we have to be busy with something, otherwise we'll be energy sitting around, where we accept the dimension of physicality. (1:12). I wonder if those are the true man of God, when they understand this

graph, can they still claim to be the representative of Him, or they put their false turbines, and the crowns, and everything else down, and join the rest of humanity to be equal, and kneel in front of him, for the abuses they have created, and been cause of, for the rest.

You don't need to judge, you have the confirmation, that you've been in touch your Creator, and all as one. And the time and the place where we asked you, not before and not after. Then you see when we tell you, now you can dream, now you can make your wish, how busy you'll get. When the wishes comes, the unity disappears, because the greed of the man is his wish. When you're done with your wishes and your greed, you will go back to normal.

The day of Promised Day has come, and will come for everyone of you to learn and to carry on, (1:14). and it's the same, my wish in the silence of me is that those who were our guest, understood and understand and are ?? present today, the truth about the knowledge of last week.

If you were one of those lucky ones on Friday, count your luck and understand how busy you have become with the wishes of physicality, but you can still have the two dimensions, and you live the life of physicality, but in your manner and conduct, you live the same as today, which is the birthday of Mitra. Do good, act good and think good. The three gifts of the three Wise Man is the air, the water and the soil, that their interaction create the STM. It depends of which 3 Wise Man you want to accept, the emotion of, or the physicality of it. The water, the air, and the soil, or think good, act good. And in the wisdom to understand all 3, and how the 2 sets of 3 are connected to each other, that can bring you, and has brought you to the connection of understanding your Creator and being in touch with Him. (1:16).

You were happy to be in the presence of the kings, I met this president, and that king, and that minister. Now you have met your Creator. I wonder how proud are you, or you still afraid to talk, because they think you might be joking. I hope you understood. And I hope you understand where the teachings and the process of the teachings will be from now on. To perfect the art of becoming in touch with your Creator and the Created, which is the Soul of Totality.

You will not need any jumbo jets and you don't need no rockets to travel the depths of the universe to your Creator. You've seen it, individually you are full of problems. When you collectively with your Prophets came to understand the truth in the dimension of the Soul, you are all equal.

My wish is that mankind will start to understand. Join us on the next excursion into space, that you gradually learn more and more, and after a few sessions of understanding your own Soul with yourself, you become passengers of the universe. You ask, the aircraft carriers to park the aircrafts in the runways of the man, where you have found the path to your Creator, and don't need no runway, and no airport. (1:18). And very soon, once you become wise to it, no system like ours.

In essence, what you see on the graph you feel inside you, and you feel the Creator with you, and the Created, and the whole of the universe. The rest of, what I can do, what I see, and whatever, it's for you to confirm your existence. Have you ever seen a billionaire walking around the streets shouting, "I'm a billionaire." He gets in a humble car and he walks with the man on the street and no one knows who he is. So, has done the Creator. And the man should be the same. It's the title and position of man, for him it's important, man has not reached that level to understand his Creator. You've got a long way to go.

Thank you very much for joining us last week. And we meet again in a different way and structure to train you into, in a way, bring you to understand your Creation and Creator on the January the 20th. Then we show you more magic's, because you love magic's and you love magicians in the name of the Prophets.

Very soon, in part of the process of these gatherings on a monthly basis, you will see your Prophets. You will ask them, and you put the question to them, why have you allowed such a thing happen to us as human, as you were supposed to be protecting us? (1:20). Then you will hear the answer. Then one day I explain to you why you could not, they could not. And I'm sure you have seen part of the answer today.

It was an amazing experience going through with you with this, last Friday. What I promised my Creator, I'll bring man to Him on equal, even with their Prophets, and the kings, and the religions and the religious leaders. I fulfilled my promise. Now it's just teaching you how to put the letters to make words, and make sentences, and how to write a poetry of love of the Creator to man, and the rest of his Creation.

That's where the teachings from now on will take you. But I hope mankind would be wise to this very rapidly. As I said, as of last Friday, we ended all the religions and the religious beliefs, as you do not need no intermediaries, as you know you can be part of, and be with your Creator as you wish, individually or collectively. (1:22).

Now maybe you understand why we encourage you to make Gans's, we encourage you to throw it in the seas, and spray around the nations and the countries, where you create that connection. The path for what we call, the STM to connect. We created that condition with the telephone lines for this test. But in the coming time you connect to each other without telephone lines, to one Soul. Then you find out those who became the Universal Council allow you, in a way help you, in a way be part of you, to reach the Creator in a faster way, in the dimension of the cosmos. Not in the dimension of the frock of the Prophets of the man in the dimension of physicality. No one can lie to you in mosques, and in churches, and in synagogues, and in the temples, except yourself.

We will meet you again with your Creator on the 20th. If you come with the eye to see, you have seen, and you have no eyes to see the truth. Thank you very much. And I hope, I hope soon mankind becomes kind to himself, to be the kind where the Creator created. (1:24). We go for a small break and we come back. And we'll join you in your journey to come. We still have to keep the physicality going, as much as we keep the STM expand. Thank you very much Rick. If you still have power you can still support us.

… No, I will be dancing with the Souls.

It is interesting what last Friday brought to man. What and how mankind will understand for the first time, that it's only him who lies to himself, and nobody else. In so many ways, (1:26). it's him who has created that barrier of understanding, between himself and his cycle of creation.

Try to see if you can expand your own Soul, and you can feel that connection. And then try to see if you can connect with the Soul of those who you love, you trust, and then from there on. Maybe the Ricks suggestion was perfect, we go silent. Maybe we can find that connection, and maybe we can reach that point.

(Silence … (1:28) (1:30).)

As I said many times, we came here with the souls who we knew will complete the cycle, and those are blessed souls. And the cycle has been completed by the man to be free, and what I call, the Universal Community.

When we said we would take man to space to be equal, now you have seen what it means. If you're equal with your Creator, so you're equal with the rest of his Creation. Don't be fooled by a flashing light disk, or by a magician burning a wood. Man has gained confidence in his own Soul, and then man becomes independent and traveler of the U.

I hope you can takeover Rick. Play the new video after the break, it's nice it brings a new change. (1:32).

<< BREAK >>>> 464 KSW December 22, 2022 (1:36).

K- Thank you very much. Have your powers back permanently again. …
Today, as Mitra came from the land of Iran. Today, for the first time, the Iranian factories of the Keshe Foundation have introduced new products made in Iran. You will see a different touch, you will see products with finesse, and with cultures, as a KS told me a couple of days ago, in China, we saw production, with the Iranian production we see

culture. We have introduced back in the new enhancement pens, which you can find in the store made in Iran. (1:38).

A new Enhancement Belts, new Belts produced in Iran has brought back in, and you can see these in the shop, they are there now. The Iranian team has introduced what they call, the CO2 Tabletop System, which has been brought in for capturing CO2, or what we call, producing any kind of Gans's.

Now you understand, the Gans's are the key to production of cosmic rays. Cosmic rays is where the man separates from being a citizen of this planet and becoming a passenger of the universe.

It's interesting to see how the Iran Keshe Foundation will take this new position in introducing new ways and new things into the Keshe Foundation worldwide, and our team in Iran will expand to bring new understanding, and technologies, and tools of it to what we call, Knowledge Seekers (KS). Gradually, we'll introduce more and more products from Iran, and we thank Youssef and his team, and all those who stood behind him to support, to bring it to where it is. Maybe in the future, we'll even see the systems which take man to universe in a different way, (1:40). through, what we call, the collective work of Knowledge Seekers across this planet in a very, very beautiful way.

In the past couple of weeks, we introduced the new system, that we work with the Keshe Foundation for your health and for your, what we call, your progressive production… (Just one second, please … As usual we always have to have a caller on the Thursday, they bring a message.)

In the progressive development of the same structure, and in the rapid developments, and breakthroughs in the understanding of the science by our team, Keshe Foundation will endeavor in next few months, we'll try to make it as fast as possible, a process and a system that you can log in, you can join in to the Keshe Foundation structure worldwide, for anything you might need. (1:42). Be it suffering from lack of wellness in every dimension and direction, for strengthening your emotion, for feeding your physicality, and everything else that, might man need on this planet and beyond. We'll open lines that with type of "connect and use," at a point of need, you can connect. If you're hungry, you log in for a few seconds, in a way, you give and you take what you don't need. And that is your food. If you suffer from lack of wellness, it doesn't matter what it is, you do the same. You just put your headphones on and you connect, and it's done.

Many of you have started registering for this program of the prevention. As we're receiving your orders, you'll be given two sessions to meet and to connect, you will be given a Zoom time, and a specific time and date. You will be going through that process of what we call, prevention. Where we connect, the system will connect with you, you have to be at the time and session given, and you do it again the following six months, or whatever is next date it's given to you. So those of you who are signing in for prevention or enhancement, (1:44). you will get a date from the Keshe Foundation team to be present online with your system, and you can book for the whole family or individuals.

Then the first few seconds we'll be tuning to what you send to us, and then you receive what you need to prevent, as a prevention for any future problems you might have in wellness, or in psychological pattern of your emotion with connection with your Creator and the rest of it. In the food section part, which will be opened up very soon, the nutrition. You will connect first to learn to feed your Soul, that the Soul feeds the man. Do not come in and expect to taste a banana and orange, you come in, and we give you the taste of banana if you're still in that dimension, but the process of nourishment comes through the nourishment of the Soul. Then you start, maybe, for days and weeks or months not to rely on any physical matter.

That 20%, what you kill for, will become part of you giving, from your Soul to your physicality. Then some of you might even be able to connect to feed the others, if they need be. As I said, now you understood how the system works. Now you understand that a Universal system is getting set up, that literally you just connect. (1:46). Maybe initially through the lines, and then as you build it up, and you understand, your soul gets connected, with the systems we set up around the world. You don't need food coupons. You don't need governments to provide you and wait for months and years in the line and a queue that you might see your wellness change, or…

In this process there is no mistake, there cannot be a wrong diagnosis. As you diagnose yourself, finding what you want, and what you need to do. The beauty with this system is, it's not as I call, the communist time that everybody has to have the same and equal. You take what you see. We still leave that channel of what we call, progress. Not that you have what you need and that's it, stagnation.

You take from the systems what you need, how you want to serve, that allows you to take. When you become a greed (greedy), we saw in the graphs very clearly, the ones which are on the bottom of the line, "I take, I'm a taker." And you saw in the graph, when we allowed you and before, how much of you were takers together, and how you collectively work together as takers, and how collectively when it comes to give together as one. It is.

So, this process is, what I call, Universal system, will come to operation most probably like an App. You feel hungry, you put your headphone on, you feed the hunger. You feel a pain, somewhere, for whatever reasons, you do the same. (1:48). You feel you're lonely, and you're depressed, you connect and join the Universal Community that you have all the created things with you. And all come the same, you'll understand, gradually Keshe Foundation will set these things up that we don't need to have health center, we have what we call, Universal Cosmic Rays centers where you connect to, and to understand that, and to be part of that.

Are there any questions?

Q: .. My question is about the creation of the STM inside the mother's womb. You explained to us that the STM is created by the interaction of the plasmas of the sperm and

egg and the interaction of the environment. However, the doubt came when you told us in the last teaching that there are souls that do not originate from this planet. (1:50). So I would like to understand through the fields, how the souls that are not from the planet are able to interact with the Soul already created in the fetus? Are these the people who have more than one soul? Are they the schizophrenics? Thank you.

K- Not really, they are other souls created in the universe. Soul is not exclusivity of man. The womb of the mother is like the system we showed. It creates by interaction, creates an environment for the man to live, for the Soul to grow to absorb energy from. Then when it's given birth, you're born, now you connect to universal energies, a bigger womb. Our Earth is the same as another womb. Nothing else. But this time we connect to the energies, consumption and using of the fields of the Earth as matter state, and our Soul connects to the universal energy through cosmic rays, as we've seen, we're all connected.

If you are not connected to the cosmic fields and cosmic rays, you would have never existed. You wouldn't survive a second. When the connection with the cosmic rays are taken from the body of the man in the dimension of the Soul leaving, you are left with the physical body behind. You should have understood this by now.

When you lose your connection with the cosmic rays in your body it's when you die, when your Soul leaves, takes this power supply away, the physicality cannot function. (1:52).

Any other question?

Q: .. Mr. Keshe, the joy of having met the Keshe Foundation is indescribable. Thank you very much. Before the 16th of December event, when I connected to some emotion, I felt the expansion of the fields in my head, but in a very punctual way, in a specific place. Now after the Plasma Flight, it seems that every feeling and emotion generates an immediate expansion, involving the whole skull. This seems to me a modification in the relationship between the physicality and the Soul, which leads me to the question I am asking you. Today you told us that soon we will no longer need the systems to connect to the Creator, so who goes through the process of total transmutation by the systems, will be able to develop the ability to transmute, travel and manifest the physicality without the need for the systems?

So, let me rephrase that, those who go through the process of total transmutation by the systems, will they be able to develop the ability to transmute, travel, and manifest the physicality without the need for the systems?

K- Yes, the children of Mitra. That's why the new cycle of Creation has come. (1:54). They have access to that. They are born through it, so they're part of it. And those who are more physical, born in the dimension of physicality use the tools till they get, or to understand how to use, what is given to them as before.

Ignorance does not give you the privilege to claim it. You decided to ignore the truth, nobody else has. Now you have to establish it. It's always been there. You can't stop eating and blaming the others, why am I hungry? We do that, we create that condition. We have created that condition.

Any other questions?

Q: .. Are the people connected with the people that took part in the event? Do they also reach as well the fields of the Creator?

K- There's no limitation.

R: It could reach someone that has never heard of the Keshe Foundation?

K- But you saw how fast when we left it to the wish of the man, they left God. (1:56). You haven't realized that. The minute we asked you, you can have any wish, that was specifically done this way. How fast you lot left the God behind and came to your physicality. We've seen this one. Oh, you lot left so fast, and you lot became so quickly involved in everything which you wanted. It was just, "oh, I learned a way, now it's time for me to jump off."

You see the line of the graph moved up, you decided to separate from the Creator, not the Creator from you.

R: We're not seeing the graph right now, Mr. Keshe.
K- It should be there. I repeat it again.
Can you see now?
R: Yes.

K- This is the end of, as you see, just where the red line starts, the vertical red line, is the time when we gave you the wish time. By god, you lot in such a hurry, "oh, we got there let's go and see what we can do." Because you were told in every step what is going to be done. (1:58). How fast, you're all there, because you were told, you're with your Creator. And I think a lot of you got an "itchy finger," let's go, now that we've got there, "we can go and get whatever we like, we don't need no Messengers." And you see what happened.

Did the line stayed straight? In truth it should have stayed straight. That was wished to be with your Creator. How come physicality came in suddenly? And it is interesting how you lot work by instruction, by word, which touches your soul. I didn't say, "in silence, now we try to reach your Creator." I told you by the voice, and your Soul which is around you, took over hold of the physicality and said, I'm going, I know where I go, and you see a flat line.

Then the minute the physicality got the message, "now you can have any wish." You see the line. Now you understand. I was expecting this, but when you look at the digital data,

then you see it. How hurry, in such a hurry you were to get. "I've got it now, it's just, I've been to the bank, I got the money, let's go to spend." What is my wish, a watch, a dress, a shoe, whatever.

If you were the true man of what you believed in, (2:00). this line should have stayed flat. When we wish, we should never lifted, you created, you wished to be. All these things if I come, I wish to go to the Creator. In English I know exactly what to tell you. In your own language you decide what that means ??

Now you understand, I can bring you different shape and dimensions of this state. Our team has collected data on every session on Monday. They are more amazing than this. Much more amazing than this. How you came and got wishes for your cancer, or how you came for nutrition, and how you came for addiction, and how you came to be a space travelers. We have collected all that data.

None of you chose to go to the path of the soul. (2:02). Now you decide.
(Rick, can you take over for a few minutes. I'll come back in.)

END of PART 1 of the Video >>>

(** Have to redo all the time marks in part 2 … continue time from part 1 (2:02:51)

(Temporary [time marks] to be erased when new video spliced ..)

K- Okay, would you like to start if there are any questions.
[2:18}
Q: … I have applied for the "All Purpose Plasma Flight Satellite" and special Satellite process, what else do I need in my home to welcome the travelers of the universe, by memory it was the home enhancement power unit, is there anything else I need? Thank you for the 16th and for your service.

K- Not really. It's just that how, you have to understand that part of the systems we provide is for the physical need. The new Enhancement Generators are both, we'll try to bring not only the what we call, the material direction, but we bring in the Cosmic Ray (CR) into it as well. The technology is getting developed.

In the top of the design of the new system, we are contemplating now to build a system very much like a stool, like a chair. Very much like the shape, most probably of a bigger size, if you can think of it, of the MaGrav units, where you can sit on it. All the technologies, and you become part of the cosmic structure.

It's understood and now has to be implemented in the physical dimension. Creating cosmic rays in the system in a way, .. when you enter this zone, when you sit on it, your

Soul, and your physicality, everything is within it. It’s like a column. This will gradually come to be the part of the structure we release.

You’ve got to realize, once our Knowledge Seekers (KS) understand and develop the technologies, and the way it's come now, there'll be massive changes in a lot of things. It takes time, maybe in the next 10 - 20 years, maybe faster, depending on the need of the nations. What to come in, how to come in. When we talk about this new flight system and you go shopping, if you're in New York and you want to go to a shop in London, there will be an immigration office in every shop. People come from all over. Now you shop on the Internet from all over the world. Then what happens?

Would we have. What I see in a very, very near future, the end of this airport business. We see the end of this cargo business, not with drones, but understanding. If you understand that everything has a soul, and you can create the system, we showed you. You create packages which like a box you have now, which creates a field of packages, you put whatever in it, like the way you carry your body. You shop in a supermarket in Beijing and you have it in your home within seconds. Would places like, is there a place for Amazon’s?

There is a lot of changes to come, but the present technology (which) is used, is going to be used to create that connection. When you can, when you understand that even a stone has a soul. That soul of a stone is not matter state, still has connection to cosmic rays, and if you can connect to it, would you need all sorts of things?

The extent of the knowledge is not grasped yet, once it's grasped, one multitude of these systems are put as. I was talking with the Knowledge Seekers yesterday, I think, the breakthrough will come when the first transmutation is done, when the first man is moved. As the first man to be moved is an American, I'm sure CNN will report it. As one of the Knowledge Seekers years ago said to me, when it is on CNN I believe it.

Any other question? [:08]

Q: .. What was the frequency or vibration setting for the cosmic ray generator in the system?
K- What does that mean?
R: Well you mentioned there was a generator of the fields inside the unit, and does it have a particular frequency, or vibration level to it that it's tuned to?

K- It creates its own heartbeat. The system creates its own heartbeat, which needs to be in the heart of the, in what you call it, in the strength of the universe. …

Anything else?

[.10]
R: While you're talking about the heartbeat of the system, so is that the pulses that we see in the oscilloscope? Would that be that heartbeat?

K- Yes, yes. In a way, yes. They decide themselves, not us. It's a frequency what you talk, in the matter state, but these are matter state machines. They pick up on the fringes are part of the structure, which is universal.

We don't see the Totality of the spectrum of the fields. It's like when you bring an egg and a sperm, in the heartbeat of the mother in there. It's what you call it, it creates its own heartbeat, and its heartbeat is different than the mother. This is the same with man, the same with these systems. They're have their own soul, they decide.

Most of it, the, what I call the fantasy of it, what it took to tune to, it comes to what they come in what they come in touch with, as a soul, and what we have allowed to be the condition inside it. If we change one parameter, the heartbeat will change.

R: So is the heartbeat, or that pulse, is that put out by one out of the 4 units, and the other three sort of pick it up?

K- It's a combination, it's a combination, don't forget, they work. When you speak about the cosmic rays, you have to speak about the heartbeat of the Earth. You have to speak, interaction with the heartbeat of the Solar System, you have to consider the heartbeat of the galaxy, and then your universe.

[:12]

Our heartbeat, like as we shown, is multitudes of different heartbeats when they come to balance. And depends what we put, what filters we put to, in respect to other, what you call it, heartbeats. The color of a skin, the thickness of the skin, the size of the muscles, all this counts in your heartbeat, what is going to be. The emotion, what emotions you carry. Are you born in a family with a peace? Or are you born in a family with a lot of tension? All those decides your heartbeat.

In a very simple way, when you run your heartbeat changes. When you meet your lover your heartbeat changes, one is in a physical dimension, one is in the emotion, but it's the same heart. So, if you eat hot food, you will get different heartbeat, if you freeze you have different heartbeat. So, it's the same with the heartbeat of the universe and what we call, cosmic rays.

Q: .. Mr. Keshe, two years ago in the 352nd workshop, you spoke to us about the fundamental rays, which are in essence the creators of life, in any essence and any shape and form. Is there any difference between what you then called, fundamental rays and what you now call cosmic rays?

K- Fundamental rays are part of the cosmic rays, but they're fundamental for the creation of life on this planet, of you. Differs between different position, and spaces, and different creation. Cosmic rays are there for everyone. Everyone can tap into. The what I call, ??

still stays the same, it's a fundamental, but ?? fundamental for you to exist, or entity to exist. You can't take all of it to become one, to exist.

The only entity which has all of it and use all of it is the Creator.

If I can put it this way. Now that we have opened this dimension of understanding, not just for man, but for other citizen of the universe, amalgamation, creation of the new children of Creator in the dimension of the fields of universe, not in dimension physicality and then they take ?? physical, will become as common as ABC. Then what is a fundamental rays for them?

It'll be very interesting that we had physical of the universe, physical children of the universe. Now we get physical of the soul of the children of the universe. The same as we said, you can put two women last week, and both pregnant from each other's love, and bear each other's child through dimension of the Soul, not physicality. Then if you've seen on this planet, we have a Chinese marrying a black, and they have a child, or a black marries a white and they have a child. [:16] One from China and one from, let's say, England, the child speaks both languages. But it looks both, bit of English, bit of Chinese.

The new generation of children of the Soul of the Universe will be the same. The ones in China will see them as Chinese, and the one in England will see them as English, and if they want they can see the beauty of both. So, they can come to Earth and live a human life, and they can go to wherever the other parents is, or other partner of the love is, to either, and they will look the same there. And this is the beauty of it. What I call, what we see nowadays for, what we call, baby tubes, they're born in laboratories from mixture of whatever. Now you don't need these, the test tubes are gone, you are the creator of the fields of it.

Then you say, I want a blue eye, you don't want a blue eye, you wish to see the beauty of a blue eye. It's different understanding. And if that wish is true, the Souls will satisfy it.

I heard from Dr. Bararpour, a couple of days ago, we were talking with him, and he said he has a patient, and he asked him. Can you do something for him to grow a few centimeters more? He's short, by 10 centimeters or more. And I laughed, and said, if you go to your Soul you don't have these problems, you'll be at any height, color and shape as you want, where you ?? want. Then you find out as you have this capability to make, to be where you are, and wherever you want to be. Then it comes to the point that, do you want to be anything, but what you want to be? It's very interesting, the door, and the time, and the place has changed.

Any other question?

Q: .. I was completely blown away on the Friday after we connected, and only came to when Mr. Keshe said we should go back. I was very cold, my whole body was shaking, I was very hungry but I didn't know anything. What happened to me?

K- I don’t know. You ask your soul what he took you. It's like a supermarket. You can run around and pick what you like, and your Soul decides on that.

[:20]
It will be very difficult for a lot of you, and I know exactly what I'm talking about. Is that, to get, for you, for your STP, and your Soul to work together as one. Then there is no these, what do you call, "blackouts." Then the soul doesn't take the body somewhere for a ride, where the physicality can’t remember. And the physicality doesn't take the Soul for a ride, that the Soul is not aware of.

Then it comes to exactly the teachings of Mitra. When I was putting the table for the birthday of Mitra, last night, which I've done from childhood, something which my mother brought to us. I was putting the candles, burning the candles, and setting up the table for the night. It was just like a flood of memories. What I've done in such a night in the past years, and pastimes. And some of the memories were so beautiful, in some of them. It's a tradition that we sit around the table, or olden days they used to sit around the fire, or whatever, and just telling the stories of the past, what happened. I sent a picture of the table for Mitra’s birthday to one of my sons. I mean, I sent to all of them but, one of them wrote back, did you have time to have, to talk about the past, and then, because they know the tradition. I sent him a message about how, in one of the stories of the past, how, what happened to me as a child, when it came to such a night. And it brought back a lot of memories, which we chose not to remember, because at that time was so important.

And being, understanding of what your soul wants to be, comes from the childhood, from the inception, from what we were brought in.

I sent them a message a story of my childhood with "Shabe Yalda," which then what happened and what I did with my grandfather with it. Then it brings a separation, do I, or do I choose not to, or do I choose to be part of? And to what extent I allow my soul to be extended to that point.

To you as Knowledge Seekers it's (only) a date, what you hear it. To us as Iranians, as Farsis, Shabe Yalda has a very deep meaning. We celebrate it today, as the birth of Mitra. You celebrated the 25th of January (December) as a birth of Christ. Because Roman's decided not to have the same time, they moved it. Because the Jewish element, they didn't never allow the two ceremonies, of two religions, two paths to be the same. So then they found the way to move, by five, or five days, which has calendar problem with all the religions in that way.

You celebrate the Christmas, we celebrate the birth of Mitra, both from the same virgin birth and everything else that you read in Christ, the week before like today, applies to Mitra, because Christ was a copy. It was drawn down from the birth of Mitra. Thousands of years later.

R: Mr. Keshe, maybe you could talk a little more about the your views on the concept of virgin birth, Liliana in the Livestream have a question about that. In previous show, I think it was interrupted due to an Internet problem.
K- In what respect?
R: I think she wants to know what is the concept of the virgin birth? What does that mean? Is it, I mean, in the physicality world, or…

K- Man has changed it to physicality. In truth, is to be the same as Mitra. The true meaning of virgin is to be the same as Mitra. When you have no animosity, when you have no what I call, "baggage to carry," you stay pure, and you are virgin. It doesn't matter what (physical) condition you come to. You understand and accept.

We just want to connect it, because in connection it brings us other connections. But the virginity of Mary and Christ is the purity of the Soul, untouched, we call it, the virgin. So, now you connect it to a physical and other things, that suits the man and he understands the dimension of physicality (P).

R: Specially we connect it with history and the past, when we should be connecting it with the present, because it's a live present thing, to be present with Mitra. It's like to be clean, like you're saying, and in that present mode it doesn't have to do with 2,000 years in the past really.

K- Ten thousand years in the past it's irrelevant. …
I mean, this virginity is when you think of it, it brings so much shame to be part of this stupidity of what you call it, cultures brought for incompetence of the man. Nothing else.

I always said, if you understand why men pushed, and pushes with this, men as part of the human being, where the virginity of. A woman has to be a virgin, to be untouched. Why?

If you ever look at it psychologically, the reason I explained this before. Because when you haven't, you haven't had the Chinese, you don't know the taste of Chinese, you're only used to Indian food you eat, or English food you eat. When you taste the Chinese then you say, "oh, there's another taste." Then you as an eater, "oh, there is a difference. What I enjoy." For men who pushed with this concept of a woman has to be virgin, not a man has to be virgin, is that then they know, the man they have is so incompetent compared to the other man who is, has the confidence. Man brought this criteria of virginity for the incompetence they have, they can cover. They put all the rules around it, adultery, and the rest of it. Because now the other knows how bad you are in the relationship, or you don't have it.

[:28]
This so, the concept of physical virginity that was brought out of the incompetence, and man being the hunter and gatherer. I don't get it, you don't get food, has brought this to us. Now it's become part of the culture of many nations. And the religions have attached this, because this way they can make man to be in control of.

But if you look at it in reality, it’s nothing but nonsense. Because when a woman knows, "sorry, sir, you have no competence, you don't do what I want, what allows me to choose the best energies for the next generation," then I don't need you. Because women go for the best gene to produce the best offspring's.

When you put the arranged marriage, you don't fix the thing correctly. So, you get all the disability, all the problems with the next generation, and they force you with this. There's nothing more ridiculous than this concept.

Then you have the virginity of the Soul. All the Souls are virgin, because they're untouched. Then they become in touch with it, and then with that interaction, you decide.

Now you try to explain this to a bunch of people in different cultures, how the Catholic Church has made money out of it. If you understood, adultery, and virginity, and the Catholic Church, and the prostitute houses of Rome, and then the sin and the confession, you understand all of it is nothing but a shamble. Manmade for man. Vatican made its original financing out of prostitution. They run the, excuse my French, the whorehouses of Rome for the Christians, if you go there, you went there, you have to pay for it. Then they started the cycle of sin, and (adultery) and the rest of it, and collecting money.

Where does the virginity comes into it? Now with the new understanding none of this stands. The same is with the Islamic world. When there were one woman and nine men to be husbands, and now you have the chance of forcing your way with one man with four women, which one do you choose if you're a man? If you are a correct man you stay one to one, or you stay to the condition you accept. Not killing for it. Then all the rigma which has come into it. This is what I said, the religions have no more room, now that you have, and you see physically you came across with your Creator in the dimension of the Soul. Now you have to bring the physicality to understand this, and live the life of it. It's the beauty of the work if you understand the reality about it, nothing else.

[:32]
Q: Bret .. Mr. Keshe yesterday was a beautiful experience, I kind of in a way understand it. But then I don't understand it, what happened yesterday. Where you, in a way, looking at the reactions of what happened, because it was the same as the other week when. It's too hard to explain.
K- We don't know what you're talking about, what happened yesterday?
Q: Yes. It was incredible.
K- Where? How?
Q: How?
K- I mean, we’ve got to know what you're talking about.

Q: Okay. So it seems as though I got fields before Rick's class. And then it starts to happen again. And I don't. In a way I understand, but in a way I don’t understand. It’s just like, when you had the line there in the Creator, it’s just as though that happened. And then there was just a line of understanding. It's not difficult to understand. But in a

way, you just want to know what's going on in the background there. Because it was, over the last week has been a myriad of understandings. For me, my daughter's needs were understood. And when she needed to go and do something, I knew that she needed the money. And that we didn't understand the amount, so I waited for her to call. Then there was a very brief conversation. I gave her what she needed. I guess that's, in its way of understanding is that, you give what a person needs that surrounds you. So, were you testing yesterday? Is my question I suppose. [:37 30]

K- I'm lost. I don't know what you're talking testing, where. Yesterday, I wasn't with you. Q: Okay. Then I'm the one that's confused, because something happened to me yesterday that I can't really understand. So, I'll just go back to the drawing board, and meditate on it and try to understand it, because it was. I've been there before. And then yesterday, I was there again.

K- Let me let me explain something. Something very strange happened. Not something, a lot of strange thing happened during the Friday session. Some of it we could hear, some of it we could observe. Some of you who were there are here, maybe you don't even remember. What I listened to, especially like in transit. It was a position that we brought in no ?? site translators. So when I said, or we requested something, in short, it was translated in a few languages to the others who were there and they couldn't speak English. And I'm sure I heard from the other language people the same, because I could hear Azar, Azar translated in Farsi. It was totally different than what was said to be translated. And I was wondering, what's happening? They were not there, they were not with it? Or they were in trying to be called in, knowing the physical part has to do something, but the translation has no meaning, no bearing with what was said. In two or three occasions.

So where were they, what happened? Did the physicality walk with the Soul trying to come out to do something, but the Soul was ?? busy, and their physicality was locked to it? This is something I said, when you become unison's between the two, then everything is in both dimensions lived. You don't need to sleep to dream, and then call it a dream.

In reality, if you look at it from the Soul point of view, man leaves a dream life. Our physical life today, you look at it from the Soul point of view, it's just a fake thing which is happening. But it has to exist. Because as you saw how the STM is collectively connected to the Creator. Do you want to have this attachment burning you down, locking you down to Earth, to physicality?

Would any of Soul dimensions, once really understands the work of, the connection to outside, would ever want to accept a physical body?

Once I was asked, why did you come? What was the purpose of coming here, you could have done it a different way. I said, we come here to enjoy the beauty of this planet. Because Mitra enjoyed it.

A Knowledge Seeker wrote to me very recently, why you keep on doing the same thing when you know and you are there with it, and you accept all this burden? Because (until) too if we don't taste it, we don't understand how man has gotten, locked himself in this mess. That we can find a solution in man's understanding for his problems.

[:42]
So, you've got to understand where you've been, what is there, and what has, and what is the next step for development of the Soul.

Any other question?

Q: .. Mr. Keshe, is there any contra indications, or "don't do's" with the plasma mirrors? Can they be carried on flights as hand luggage?

K- Yes, yes. They are done for a lot of other purposes, than just for what I call, cosmic beauty. People feel with it when they carry it, when they hold it. A lot of people have different feeling with it.

Keshe Foundation, I heard there is another 20 sets, a new version is getting done. It should be ready in three months time, if I remember correctly, the process started. The new version has a center hole, which allows the cosmic rays to come in the center, or allows it to have a soul without the physicality. The disks that are there now, they have a solid physical, this is like a hole in the middle, and that allows the fields to gather. It gives you the soul structure. They'll be totally different than the other ones. I think about 20 set has been set for, it takes three months, if you order anything now you can receive within two or three months when they finish the production. I don't know if it's online or offline.

But the reality is, they absorb all, and they give all the energies. People tell me a lot of strange things when they hold them. But it's understood. When you mirror them it's a different world if you know how to connect.

Q: Would Klaus do a short Zoom session for those who have the mirrors?

K- There is no classes for it. It's for you to understand it, how to use it. We will use it in the cosmic travels, what I call, in the coming time. It's a laborious job to make this.

Q: Dean .. Mr. Keshe, on Friday when we went through this process…
K- When you fell asleep.
Q: I fell asleep for a while yeah, I know. So, I know my Soul of Physicality (STP) with the Soul has a disconnect. It needs to be combined somehow. I sensed that myself.

[:46]
But the other thing is Mr. Keshe, did we receive, or did we intermingle with other souls of physicality? Would we sense and feel other energies, that would transpire and become part of us in some way, that we would need to express or to release these energies?

K- Can you translate your English, please?
Q: Did we receive other energies that from other soul of physicality, or souls present, that we would need to absorb, or transmute the energy, so that we could either accept them or not? If that's the right way
K- I'm still in the lost world. I don't understand what you're trying to tell me.
Q: There were lots of different souls present Mr. Keshe.
K- Yeah.
Q: I know there was some very significant souls present. I know all souls have their own beauty, but there was some, Mitra, the Creator you said was present, yourself and many others. So, those sort of energies have such a high order, would they bring about a condition where some of us would need to and understand this in our physicality?

K- Something I'd said this morning may be a repeat on it. Do you see the time when all the souls have come together with the Soul of the Creator a line separate, or a peak somewhere? So, the souls on that level, they're all the same.

But it brings detachment. You understand? No soul is higher than the other. Even Mitra's, even the Creator, you don't see two lines running, Creator's line, Mitra's line, and the human line, and your universe line. It's all the same.

Q: I don't know if you hear the bells, they are ringing here. They're ringing the bells on the church here.
K- It's 12 O'clock. We heard the mosque prayers in the Friday session.
Q: Yeah, they seem to be very present.
K- They're very persistence to ??.

Q: Very persistent, yeah. This system that's been put in place that you've just spoken about, when man comes in position to understand, and this theology and all the other things of the mysticism and everything that's been built around it, it really is, it's such a field strength that has locked us down, locked in, and this…

K- Can you imagine the time will come, that will be the last priest, the last monk, the last mullah, the last rabbi? Because nobody believes in the shop they opened, and they abused for years. We say, this is the last animal left of this kingdom, there's one or two left and they're in the zoos. Would we keep the last mullah and the last priest in zoos, because they're so rare and nobody believes in it, in the lies they tell? Because now I know, I don't need you.

One of the most beautiful thing is, and I put this to a religious man. What are going to do with all these properties and the churches the man has built, in the name of whatever they built it? Doesn't matter what religion. Would the government's or the churches sell it and give it to the people for the abuse of the forefathers? Who do you give it to? What are we going to do with it is properties? Like the church of England, you know, when the Queen decided that the game is over, we sell some of the churches. And where does the funds of it go to? To build bigger churches and more priests?

Q: That's all in the physicality again Mr. Keshe. How do you come to a position where that doesn't count?

K- We learn that, that doesn't count when you go to space, when you become passenger of space, mosques, supermarkets, hospitals, prisons, all that doesn't exist anymore. Because everything you need, if you understood the work, comes from the cosmic rays through the source, through what you need. It'll be a shame you can't have a fish and chips anymore in, on god knows, planet Zeus.

[:52]
Q: Do you have to go into space Mr. Keshe, many people here, I sense many humans, human beings and maybe some others, their senses is the space, they don't need to go into space as such.

K- You are already in a space, but you have to create that. We had a Knowledge Seeker with us yesterday. One of the last ones to come in and do the flights or whatever. We did a very nice experiment with him, a German beautiful guy. Sat him in the machine, the same process. What we would like to do? He was there 45 minutes an hour, and then I asked him if he can go upstairs for a while, and he came down.

I said, can you put your headphone on in your mobile, and he sat in the same direction or the orange seats downstairs. Same direction, the same near position. Again, part of the session through the headset in the room. We gave him instructions outside.

Part of it, without him knowing we disconnected all the lines from inside to outside. We literally closed the session. It was no possibility. But we gave instruction outside while he was sitting in his ear, and we said, can you go there, do this. Then we said, it's finished. I said, look at your mobile phone, your session was finished sometimes ago, but we didn't tell you, because you already connected to the system. First before we tell him this, we asked about his experience inside, his experience outside. He said, nearly the same, and in the system inside I asked him to move from right seat to the left seat, or left unit to the right unit, it depends how you look at it.

He went through the same emotions that others, he said, he feels like getting pulled into the other, to the left side. When he was outside, I asked him, to go back into the seat where he was before, and try to see himself in the system, which was behind him. Because he was sitting outside with his back to the system, maybe 10 meters away.

When we asked him what happened he said, he was moving backwards into the system, you could feel his body going backwards. Then way sideways the same as when he was in the system to go into the other system. This was very interesting, that because he still was in the Center, he was still connected to our structure of the fields. He didn't need the headphone to connect to the system, and go back, or reverse back into, or to go to the sideway, or to do other things which he was asked.

Once you connect the correct way, you always know, and you're connected to it. Once you find a path to your Creator, do you need rocks and what you call it, blocks or boulders on your way, you just make it harder you have to jump over them, go over the boulders, and go with others, to go on the same path to your Creator? Or you just go on a clean path because you know your way?

These stones and boulders are the religious consciousness, guilt and the rest of it. One of the Knowledge Seekers made a threat against me, "I'm going to go .." I said, you know something, you go and do. Because we don't leave ourselves to this kind of abuse, we don't create the boulders and the stones. That's why everything's straight on the table with every time we put on.

Q: .. Do we leave a residue, do we, when we go from one position to another. If you start transmuting physicality's, do they leave an aura, or residue, or is it just a complete…

K- You always have a fingerprint, huh. So you always have a connection.

Q: Does that have a soul? That has a soul are you…

K- A Soul of Physicality yes, because of its amino acid, your fingerprints is the AA of you.

[:58]
Q: Is it the same soul? So we're not duplicating ourselves souls?

K- Like to do it. See how much you can do. It's a good photocopy machine. It all depends what we expect, and what we want, and how much we want to ?? fool ourselves with it.

Q: In the second session, Mr. Keshe, because I went into the second session, I went into on the 19th. That one again, I did fall asleep and I definitely felt a much bigger disconnection …

K- You're as bad as me, I go to movies, I just see the five minutes beginning, and then the rest of it I am snoring. The children say, papa get up, it's time to go.

Q: I had the same sensations there Mr. Keshe, I felt tingling in there, like a coldness through parts of my body, and then my back, and then…

K- If you felt that sensation, means your soul has extended beyond. You call it a sensation, that sensation doesn't come if a field doesn't touch you. It wasn't there before, it's not after. It's just the during the time. So your soul has expanded, to as part of it, you feel that sensation. That sensation comes out of interaction, your Soul, your emotion, and where you're ?? actually damaged, or you actually had a cause with. The structure is how we connect to it.

Q: So, when this was happening, that moment which would have been a space gap, which could have been eternal, or it could have been a split second.

K- You call it a sleep. But let me put something to you, because a lot of Knowledge Seekers have this problem. What happens to you when you sleep?

Q: You gain consciousness.

K- No. Your heartbeat goes down, or your Soul processes strength, overwhelms your physical dimension, that it can escape, or it can find a way through. .. So, why most of the Knowledge Seekers fall asleep? You call it a falling asleep. I call, the soul has gone for his walk, it doesn't need your physicality so keep the pile behind.

Where did you go or where did your soul go that the physicality didn't want to be with you, or he didn't want to carry the physicality with it, otherwise it would have remembered where he went. You interpret the event that, I fell asleep, I can't remember. I knowing the other side say, guy, you're still physical. The soul has gone for a walk, he has already been everywhere with the other souls. When you fell asleep during this session and all the souls are doing whatever together, but did you always go too.

How come you don't remember anything during the specific sessions? The soul says, this guy is too weak with physicality, I'll leave it behind, otherwise it will hold me back. Have you asked your soul, where you've been. You just say, I fell asleep. It means your soul was more active than physically you could handle.

Q: It happens a lot Mr. Keshe.
K- We fall asleep everywhere. Sometimes you don't fall asleep anywhere, we just know we are there. So it doesn't come to it.

R: So, does the teachings still sink in? Whether we're supposedly awake, or asleep in tat sense?

K- Yes, of course it does.

Q: Maybe it goes in deeper if we are asleep, because we're not interfering with it so much. We're not blocking it.

K- We can't block it, because, it's like a dog whistle. You know, you carry a whistle for the dogs, only the dog can hear. The Soul carries the energy, that the physicality has no access to. It does not come with its "vibration," as you call it. So, you decide.

You call it, a sleep, or I put it the way, Soul has gone for a walk without me. You know when you carry a light suitcase you can run faster, when you have a heavy suitcase it holds you back? The body of the man, the life of the physicality is that heavy suitcase, the soul wants to run. Goes everywhere and you're still here. You know, you walk with your child he says, papa, I want an ice cream, runs, gets the ice cream, you still dragging

on the suitcase behind you to catch up. That's the story of the Soul and the physicality of the man. That child is free, runs. We don't know what he saw, what ice cream he asked for, who he talked to. Then he comes back with the ice cream, back here.

Q: .. It's not just humanity, it's not just humans is it. It's many souls experiences this…

K- We have woken up the universe since last Friday. When I said to you, you looked at with loss and wish, we could have the technology of the people in the UFO's, and blah, blah, blah. Now those in the UFO's wish, we had the STM we could meet the Creator, how did these guys broke through.

[1:06]
You see yourself as poor, but now you hold the wealth that every being in the universe wishes for. No race has ever reached the Creator so easy. They spend billions traveling the span of the universe understanding the knowledge. You just walked with it for nothing, and you don't appreciate it. How do you know the value of a diamond? When you hold in your hand, you don't know and you think it's a glass.

Q: Does that matter?

K- Of course it matters. Look at the shine of the light that comes from the diamond and from a broken glass. When you hold the diamond, when a stone is cut, it has emotion, the right way. It has a beauty, it has a sense of perfection. When you hold a piece of glass, it is just a glass.

When you hold the stone before you cutting it, and after you cut it, it's a totally different emotion. When you hold a stone, a diamond in your hand from the mine, it's another thing. When you hold it when it is cut, it gives you such a sensation of pride and joy. The fields it reflects. And you can cut the same stone, every time you hold it you cry. It depends how it's been cut, and what energy it reflects from the environment.

[1:08]
If you understand that and you say it's the same, it's just how you get your Soul to shine. Now what does it reflect from the rays of the creation. When you hold a stone from a mountain, a young mountain, the stone is very, very life, it has a beautiful sensation. When you get the stone from an old mountain, you feel tiredness in it. It is not that emotion of the young mountain. When you hold a stone, a diamond from the ocean, it has different feeling. It's so active, it's so agile, it's so amazing. Then when you cut them it's the same. The emotions. It's a battle with beauty of the creation, and what it reflects back onto you, and the light it reflects through your eyes into your soul from a diamond, which is so beautiful, is amazing. Many times you look, you say, why this stone gives me this pleasure, and the other stone doesn't. When I used to have a diamond office, I used to test this with different stone settings, and different stones on their own. Some of the stones give you such a pleasure, you just don't want to depart from them, you keep them in your pocket, it's not for sale. When the person wears it, receives it, it changes them. You give

a stone, and a ring to a woman, it has nothing, you give the same stone to another woman, and it just glows. The person glows with it. I watched this many, many times.

Q: Is that a reflection Mr. Keshe, of your own emotions and thoughts, and the reflection of the Creation, of the Creator?

K- Partially, partially you're right. We choose by the emotion we have, what stones we want, and what we carry with us. When you see a person with stones, the ring, it shows the emotion of the soul of the person usually. A specific people wear jades, a specific people wear diamonds, specific characters mix the two. Because that's how it is. It's more or less, you can put it that way, it's the only thing we judge with our Soul. When you hold a stone it doesn't carry a noise at the level we can hear. You can't smell it. You can't taste it. You can only enjoys beauty through the eye, which is the reflection of the STM.

Any other question?

Q: That glint in the eye Mr. Keshe, when you look at an eye is the universe, I understand that, thank you.

K- .. I've seen this with many… You see, when you… It goes back so many years now. When you go to a diamond ?? borsch in Antwerp, and you deal with your associates, to you, you have a diamond and it's, "oh, I bought a diamond ring so much." When you look at your wallet and the collections, you see the diamond dealer say, with the drawer out, with hundreds of stones, millions of dollars sitting in one tray. To them, it's no emotion, it's just money. And you give your life to buy your lover this stone, 1 carat this, and you make the stories around it. But when it sits in that tray it has no stories, it's nothing. It's just another matter state. What connection or emotion you make with the soul of it, which gives that feeling and emotion.

[:1:14]
Many times I used to go to diamond Borsht and go from one office to another, and you see one day hundreds, thousands and thousands of stones. But when you pick one, you decide, this is what I like to take, or whatever, because you have a customer for it, or you want to put it, add it, or whatever, it gets a different meaning out of that tray. It's amazing how we change nothing to so much emotion, and we put on our ring for life. How many of you have taken that engagement and then wedding diamond ring of your finger for 20 - 30 - 40 years? Had no value in the ocean, had no value in the mountain, had no value in the tray of the dealer, no value for the jeweler who set it. But to you, because of its essence of emotion created, given to you by the one you love, has a value. And you are prepared to give anything for it.

Q: Mr. Keshe, sorry Rick, is there a certain race on the planet that seems to like diamonds?

K- Yes, Jewish. It is easy money carry.

Q: So is it true understanding Mr. Keshe, of what you've just spoken about, or is it a purely money situation?

K- In a way if you can find the right stone, which reflects this light into the Soul, you can have a lot of benefits by it. But again it goes on what value you put to it.

As you know, I'm a football freak and this goes down to the different ways of it, because you love the beautiful game. When I used to be in, as my leisure time, in this game, I used to know most famous footballers in the world. Because I used to be specialized in a very, very specific, what you call it, diamonds. I got to know the two sides of the same footballer for the wife, and the mistresses, and the lovers, and their own person. How people change in that respect with it. I made a specific stone for Beckham, his first name is David, made out of the most exclusive diamonds, actually alphabet in diamonds, which is a very rare thing. Even the color the stones sets in the metal had problems with it. And I thought, what a stupidity. It had no value, just because somebody thinks it's different, has to create so much condition around it.

Nowadays you can do it very easily. You make the most exclusive flawless diamonds in the world and you cut it that it looks like alphabet, and you can make letters and words out of it. In those days was an ?? oddity, one made still, I think this collection must be ?? it's called David. ?? we went through this, for something which had no value, six months ago in Africa, now it has become such a symbol of power and wealth.

Q: You've mentioned this soul, and this diamond many times . Obviously is there a significance behind this Mr. Keshe?

K- Yes, shows how much an African has no value for, becomes so valuable to a white man in a position of power. Little minds make big things out of nothing.

R: Well, by coincidence you mentioned diamonds, and we have three women lined up now with their hands up.
K- Each one of them is a diamond, from different parts of the world.

[:1:20]
R: Do they need polishing? Or are they already polished?
K- I don't know. You could ask who is the polisher.
R: Life, the universe is the polisher perhaps.
K- Most probably.
R: Interactions with life seems to produce the friction we need for polishing.
K- Life is the best tester.

Any other question?

Q: Salomea .. Finally, we achieved our aim these days, two days. I'm so sorry, I was not able to reach you in I mean, with the help of mobile, it is broken my mobile and I was not able to buy another one. My wish was to be with you at the soul level, with all of you.

My feeling is that I was able to do it, because if you wish, from the bottom of your heart and your soul, you achieve always, your good intentions, structures, the universe, the universe is made by these good intentions and Keshe Foundation has good intentions. First in my life I was able to fly when I met you, first time I fall asleep, and I have seen during my soul half sleeping expanding my fields, and I was able to see everything around my house, and the even I went in different places where I never went, I don't recognize them. I have seen also our blue planet, which was not blue, it was dark blue. Anyway, I have different experiences, even I went to the Moon, I said to you and you asked me to transmute for one unit to another, and I was so curious to feel it. And you said, yes, you achieved, and when I was transmuted to another one I just seen the Moon, and the idea of the Moon. It was in one image, it was green, not green, grey, and the vortex of dust. It was the vortex of dust, nothing of color, not vegetation. I didn't see water, only this dust and I was able to hear the sound, the sound of the wind, maybe it was wind or it was the sound of this planet of this asteroid, this satellite, sorry. Congratulations to all of you. And my question now is, what impact will have these two days, for next events concerning the sustainable peace on the Earth? What do you feel and what do you think? Thank you [1:24]

K- I don't know what you're trying to tell us and what you're trying to explain.

What we did was, we started is the process of world peace. World peace will come when we eliminate the religions, at the stage we are today. What was set up, what was elaborated on, what was tested by you as a whole, was that you can reach the Creator without the intermediary. So, what is the purpose of religion?

In the following sessions that we carry on, we'll do, we'll extend this to more and more. You want to come in touch, and be part of, and feel how it is to be with the collectively as one race, and collectively with one universe with the Creator, which is part of you, and you're part of it. You have an opportunity to do. You have the structure set up to do.

Q: Hey, thank you for the kind invitation. And I fully agree.

K- We don't invite you, we don’t invite you, your Soul has to bring you. There is no invitation to the table of the Creator. It is readiness to accept. Nobody invites someone. We are teachers, we are facilitators. It’s you who has got to get on in the classroom. It’s you who have to make that effort to make the journey. The time of playing games of this and that is over.

And gradually as more men know how to do it, we close shop. Because then men learn how to create children of the Soul. Man will create children which live with the ethos of Mitra, because they don't need to kill to eat, they don't need to destroy something else to achieve nothing. Then we served our purpose, the classroom close down.

We just, on the 16th opened for man to see. In the coming time you'll see world leaders, presidents, and the rest officially coming on the table, not hiding behind the back. Coming through, what you call it, "backdoor Internet." What really, did not puzzled me,

but it was very strange, to our team in Iran, was a direct approach at the ministerial level, in the level of Mullahs, to contact the Keshe Foundation in the following day. They were sitting in with us. They know that their time is over.

Now when they understand, if they want to understand, what we shown physically today. How long more they want to stay at, hang on to their turbans and their, what do you call it, their hat. We did not do. When people as a ministerial level call and give their private telephone numbers to be arranged, to be contacted, to meet, coincidentally, the day after the Friday's meeting. Then you understand how much we reach.

There were people from Vatican, people from every path with you on the Friday, because they knew what was going to hit them, because it's listened to. It doesn't happen accidentally. Why didn't it happen to two days before, why didn't it happen next year. And they don't call you, they call you on the level of Mullahs, Ayatollahs asking for a meeting, with different excuses. We had to have such a request in past few days. So, they are there, they are listening, they know, and the more people understand they don't need intermediaries, they'll close shop.

As I said, as many people can go on the street with bullets, guns, and revolutions, you will not get rid of those who create war in the background with mosques, and churches and the rest, unless you dismantle them from the inside by themselves. When you shoot yourself in the foot, you can't blame no one. And they shot themselves in the foot by lies and cheats that they did with humanity for decades and centuries. Now they know that the time has come to close shop. We don't fight them, we just enlighten them, or you to understand them.

What you saw today, would you ever rely on another man to take you to the Creator? Would you ever say, "Jesus help me?" Or you know, even Jesus needed you, to help him, to come with you to the Creator.

Maybe one day humanity understand what I did to you last week, and what I'm going to do on the 20th and the ones beyond. Tell your leaders to not to come with hidden and stolen lines in the background to come to listen. Coming in with your name and I'm here, I want to listen. The 20th will be another marvelous days to come. We will take man to another level, and then, there on. Every time we show you a physical dimension, what happened to you, we're observers.

Any other question? [1:32]

Q: Lynn .. This is from Chinese Knowledge Seekers about the virus. Hello, Mr. Keshe, recently, China, " name" district to control Coronavirus, people around me began to appear ?? positive and the number is still increasing. As Knowledge Seekers, we are no longer afraid of virus, because we have understood their operating mechanism. However, in the past few sessions, you mentioned that a new version of Covid-19 has appeared, which will affect people's emotion and lead to depression. So, I ask here two questions. How can we tell the difference between the old version of Covid-19 and the new version?

If someone gets the new version of Covid-19, how to deal with it effectively. Second, in the 243 KSW teaching you said that with elevating soul can solve many problems of the physicality. So, to what extent do we have to evaluate (elevate) that the Covid-19 virus can no longer affect our physicality and emotion? How to measure this intensity to confirm it? Thank you.

K- It seems you still got a cold Wang Lin?
Q: Yes, all my family got that. First is my sister, my mom, and dad, and me, and my sister in law.
K- But you have Covid? Or just a cold?
Q: My sister is being tested as Covid. So I guess all of us got that.

K- But what does it do to you? You have the Gans's, you always get it. You have to use the Gans's the way you do, and that's it, it just stays as a cold.

Q: I just drank a lot of Gans water, and a lot of hot water, and drink some Chinese traditional medicine.
K- How are you feeling now? Is it just a cold or are you going through it?

Q: Yesterday was very bad, I feel I have fever, I have painful on my legs, but I just drank and drank continuously and this morning I feel much better. But, right now, it feels a little bit like sniffing and it has something on my throat.

K- The new version has gained strength, and has gained the strength, and has become the strength of the emotion. We had one of the Knowledge Seekers having a very little cold, I spoke with them with Rafael on the line, I just asked one question. Did you get a cold? She said, yes, a small cold. This new version strength goes, it's not the physical dimension, it can go directly at the strength of the emotion. It's slightly higher than physicality. It leaves some trails, very small trails behind, that you feel you have a cold.

Then it brings suicidal thoughts, it brings depression. Because the strength of it is at the strength of depression in the brain of the man and suicide. We saw that very, originally with our team in Iran, when they caught the first one. Then we see it with the others.

It's just that now we understand, and the best way to move this position is by use of the adding of the Magnesium Gans into Cup 1 and Cup 2. By literally washing with the Cups and drinking it should help a lot. It lasts a long time, sometimes it lasts two, or three months, four months, till you get rid of it. It's very in the strength deep of the emotion at the highest levels, that it stays within the brain structure. But it has a solution, and stays with that solution. ?? part of the brain structure, and it helps at this strength in most cases.

Q: We have the feeling like a ?? magneto suddenly in our brain, the pain ?? like that.

K- It just emotion, it touches the emotion side, and how much is the strength can balance with it, then you start having all these thoughts.

Q: Yeah, I'm aware that I'm starting to think the other way. [1:38]

K- Yeah, but you have to keep on washing with the combination of the Cup 1, and Cup 2 and the Magnesium. And sometime if you get convulsion, usually it's good to use the Magnesium Gans to subside it. It's a very, very, very powerful.

To our understanding, this Covid, is much more dangerous than the first ones, because it is elevated to the strength of the emotion, which is higher than the strength of the physicality. That little cold, just little bit of fever, one day or two days, then you see the effects of it weeks and weeks late. Next two or three weeks it brings a lot of depression, suicidal thoughts. This all has been reported, it's not something we put out, and we've seen it in Knowledge Seekers who get caught by it and we just asked to stay with it. It brings back gradually.

In Cup 1 you have Zinc, this is part of the structure of the brain. In Cup 1 you have CO2, which is part of the structure of the brain, and the Magnesium is needed to be the last part to be able to help with this most of the time.

R: Would that be using Magnesium Chloride in the Cup?

K- No, you crush. You crush Magnesium tablets you buy from shops, you crush into powder, and you mix it with the two Gans's, not with the water of the Gans's, you mix it with the Gans's of the Cup 1, Cup 2, shake it and leave it there for maybe half an hour, an hour, maybe a day or two. And you just use the clear water on the top to wash and do whatever you want to do with it.

The best way is to wash and breathe it, that you reach through the nose and some people like to drink it, but if you go to where it gives you high fever temperature in some cases. But primarily it can last for weeks, this emotional bangles, what you see with it and what's it going to do to you.

Q: What's the ratio for Cup 1 and Cup 2?

K- The same, the same, the same, just 5% Magnesium is enough. One or two tablets in 200 ml of Gans's and then you add one liter of water, then you let it settle down. You have to use it frequently, because this multiplies in the connection line of the emotion.

It doesn't create the emotion, that's why it's hard to handle. If we put you in our system we can balance very, very rapid. We'll see things like this, before I spoke. It's in one of the teachings. The biggest problem will come with man when we come across the field strength at the strength of the Soul combination, that is a different dimension. Very rare, but it has happened in the universe. It creates a new ballgame of a maintaining life.

You cannot hide, you cannot put people and lock them up because of it, in China. In Austria last year we reached 60 - 65,000 people per day infected, and we walked out of it. Nowadays, today there is nothing, you can even go to a hospital apparently from last

Monday without mask or anything, if I was correct, in Austria. In China with 40,000 with 1.4 billion a day it's nothing. Proven in the West that numbers of infections is irrelevant, because now it's become part of us. According to structure of United Nations and the rest, epidemic is over. Or it's come to be over. It's just China which is battling with it. I don't think that is needed, but this is the structure the government works there.

Any other question? [1:44]

Q: Afar .. I think Friday I lost you on the last connection with the Creator, and I didn't translate right. Then talking about dreams and this, because if you remember, I joined Keshe Foundation in 2015, I think at the end, and then I have to wake up 3AM in the morning, and then one night, I don't know what year was it, accidentally I fell asleep. It usually when I fell it was a time you were talking about the reactors. Then I would dream about you. Then the second one happened and then again I come, and then I never remember I am doing, but in the middle of teaching when I come and see you, then I connected the dots.

Okay, so if it's the middle of the teaching, if I fall sleep, I go see him. So once in a while if I want to see you, I just try to fall asleep, and I just come and see you. But like, an interesting thing is, I come and see you and then we don't even speak English, we speak Farsi. Two weeks before the Friday, I fell asleep and then, I wanted to come and see you. So I fell asleep, but then I was in Iran, and you were in Iran. And it was a 3 floor buildings apartment, they have this yellow, like a brick beautifully done. I was on top of, on the wall, I ?? saw myself, my feet is not some place, I've got a little scared. Because I held my hand. I tried to held my hand on the wall. But we were down there. And then I would see a top of the head of people and you were whispering, and at the same time you were angry at me, and you were telling me, you just told me to calm down. I said, why? You said, because you were born seven months, we want to all go together up there, you went by yourself, calm down. I tell you, calm down right now. So I woke up.

Then today, it was interesting. Before (KF computer) crashed, I fell asleep. And then I saw everybody, it looked like some place it's not here. I saw Rick on the couch, I said, Rick what happened? He said, we crashed. And I said, where is Mr. Keshe? He said, he went for a walk. I said, I can't find, Mr. Keshe, we crashed. Then I woke up, and I saw my computer, nothing was on it. And then I dial a number, and then Rick said, we just crashed. And I said, it was very strange. But I never remember my dream. But during your teaching, I always can go to sleep and see you, I haven't tested this with your recorded teaching, I want to see if I will listen to you on the record of the teaching and go to bed and fall asleep. And if I'm going to come and see you or not?

So, what is the logic behind this? Like, every time I see you, I can come in the middle of teaching and come and see you?

K- As they used to be said, many people go to sleep with me talking, and they still carry on with listening to it. I've been to bed with many people, but never been there to be in

bed with. So, I don't know how people do it. But the whole understanding is, you don't need excuses to reach.

[1:48]
I know one of the Universal Council member does this quite frequently. She uses this knowledge, and that she can connect a wish, and sometimes she achieves it. It's what you wish, what you want, and how you connect to that wish, and how strong is that wish, to be somewhere, to be with something, or to do something? It all depends on our strengths of our wish, and our what do you call it, desire to be able to achieve it.

Q: Yeah, you know, it's extremely vivid and it's real. And it's very clear when I wake up and everything I remember that. But I would never remember any of my dreams, when I come out is all gone. No recollection of them.

K- You didn't pay for a good Chip, with a good memory bank. Speak to God and change your Chip.
Q: So that's the reason?

K- You need a bigger capacity Chip. This one is for… Thank you very much.

We try to bring more structure of understanding. As I said, before we started the 16th that will carry on with the same thing for the next year. And as we grow bigger with it, and we'll see. Each one will be different ways, and understanding that you become trained to become your own Messengers. Hopefully some of you in the future become the Teachers, and you teach through the soul, and not in dimension of physicality.

What we try to understand more is about operation of our own being. What we ignored, what we denied, what we accepted, and how we are going to accept this further.

But, in general, we're entering Christmas in next two days, three days. When you put a Christmas tree up, when you are a Muslim and you ??look at the Christians, the way they believe, or the way you believe. Ask yourself, have I matured enough to be on my own? Have I matured enough to become a passenger of the Universe on my own. "The last man standing." That's the whole purpose of the teachings, it has been from the beginning. But we had to push you ?? according in different names and positions.

From now on we show you different ways to reach, to approach, to understand the work of your physicality, and connection to the Creator, with no one in-between. As I said many time, Keshe Foundation will not ever build a mosque, a temple, or anything else. We are a center of knowledge of universe, and that's all it is. No claims.

And what was said to be the time of Messiah has come, because if you have understood what happened last Friday, you have already become a Messiah of your own Soul and your physicality. Let's see who is going to call us after the 20th meeting, that they want to talk. As I said to our Knowledge seekers, the door is open for anyone in any shape or form. If they want to bring that change to themselves, nobody else.

Happy Mitra's birthday to all of you, because her soul is part of your soul, and I hope a bright, bright future for humanity in what is to come.

Thank you very much Rick.

Q: .. Was this session today monitored? Like you said last Friday and Monday?

K- No. It takes a lot of energy and time. And secondly, we don't announce anything in the background what we are doing. The system is there we look at it, and what is needed, and how we have to do something with it.

But the systems after January, the two new cosmic systems come into operation in the center, and they are a new game player. Those of you who came for the first flight system, you give your, whatever you possess, to be in these systems for one second. You've got to understand how they effected you, who were in the session from kilometers away. Now imagine if you are actually sit inside one, with all its rays, with all its power. Man will change.

[1:54] (Shows new items in Store)

R: Okay, the other thing, I want to mention is the products in the Keshe Foundation Store that you were talking about earlier. We didn't really show or give the links for that. So maybe I can quickly go through it.
K- Yes, please.
R: Okay, so you mentioned the Pain Pad, which is I think you'll see that there now and…

K- There's a new version of Pain Pad comes in. It's an Enhanced Unit, it's totally, very similar but totally different, in a way, in its strength and effectiveness. Then all these are now manufactured in Iran by the Keshe Foundation team. They put a lot of emotions with this promotion going on, and you can choose between the new version the old version.
R: Okay, mentions, buy three get one free.

K- Yeah it's just a way they made some offers with this. In a way, we had to and then the next step is, now we brought the production back to Iran. We will start supplying permanently with products. We stopped production of these in Italy, and after four or five years, now in Iran it's produced in a regular basis.

R: Okay, mentions the jumbo pack of the Pain Pads. You can get 20 pieces for 1,500 Euros. For those who would like to give out gifts.
K- Yes, there is a lot of people buying packs, agents, the Keshe Foundation, what you call it, distributors, they buy in these kind of things.
R: Okay, I go on to…

K- There is a new Pain Pen, Enhancement Pain Pen, which has been brought in, again on the side of it. .. This is an Enhancement Pain Pen made in Iran, on the side the Iranian

team has done this. They managed to make actually a better unit, than what we made in UK with the first structures we had. It's the same, they put a lot of promotion around it to bring it in, and I think one of the best one we have from Iran is the Tabletop, what you call it, CO2 Capture Unit. I think you've been sent a video for that.
R: Yes, let's get the Store one first here.

K- You see, this is very smart, it's computerized, it's very electronics and the production is number of times more than the previous one. It's very smaller, but more effective, it produces much more. You can produce all the Cups and CO2. Primarily is made for CO2. What dirt you put in atmosphere to clean up, that's the whole idea. The previous model was I think, 2,000 Euros, this Iranian system is 999. This video has been made, it got a noise with it.
Again, it's a production of the Iranian team.

They put some touch into it. But it's beautiful. It's very small. It produces, and captures a lot of Gans's, and produces much more Gans's. It is very compact with the new features, new innovation that they've tested. They increase the production by many folds. And the team in Iran is proud with this.

The delivery time with this now from Iran stands for about two weeks, three weeks maximum. So we don't have the problem we had with China, we had a long duration problem of clearing and it takes about six to eight weeks. With the Iranian operation now at the moment door to door, it's literal from Tehran to Austria takes about three days. It's a very rapid delivery. So once we put things in now, the first orders it's gone in.

You can mix things in this, you can produce Gans from Cup 1, Cup 2, and other things and mix it together. There's all sorts of possibilities with it. It's very clean .. In the coming time, what you call it, solar (charging) system will be added to this, the batteries that will work totally independent. You'll see new features come out of Iran now, very, very soon. The way the stricture is set.

If you go back on, there is again another session for the 20th, you can book now, if you want to join the 20th session. We put in limited numbers on this, because the last time we had 10 people on Friday which disturbed everything. This time we just put you out. We put you into a hold position, that you will be in the session, but you cannot join the session, your microphone will be shut, which means you receive half of the information, in a way, if you look at it. We won't allow the mayhem, which 10 people created so much noise, it was unbelievable.

But one beauty with it was, with all the noise you made, it didn't touch or effect the work of your Soul. Physicality could not block the Soul to meet his Creator. That was one of the most beautiful things we saw. So much noise made, but the souls still met and did what they were supposed to do.

Anything else?

We limit this numbers, we have to, we planned to increase these numbers to very high numbers. But after the experience on last Friday, on Saturday we decided we allow certain numbers in, and then we block it. We stop rolling in, till something is sorted out with this, especially with, even with the translators.

Any other point?

R: Well, there is a few other questions, but perhaps we should wrap up for today.

K- There is something we should tell you, the Keshe Foundation Home Plasma Units, now is back in stock coming through Iran. So, what was waiting for to be completed. Now it's available back in, it's valued about 5,000 Euros, it's going to be reassessed on and brought back in into operation.

R: These units plasma?

K- It's about 5,000 Euros, Enhancement Energy Plasma System. Yes. The first batch is delivered to us in next week after the holidays. We might put a promotion on this down to round about three and a half thousand in the next couple of weeks, once the first series are done. We check everything if it's correct, and go down that way. Because the Iranian team had managed to do a lot of good things to reduce cost.

R: That's good news.

K- We start introducing ticket sales, sometime in next couple of months, for the travels, space travels. As we get closer to it, we'll announce it, and we bring it in once the systems are in. Trips to Mars, and trips to certain destination positions where we can control fully. It will be offered in and delivered at the same time. It will be in a short time, within a few weeks, two or three weeks, you can book in and go.

And especially the, what we're trying to bring in is the what do you call, prevention programs, which we put on. Try to use that, till we bring the new systems, that you pay. Nowadays, you "pay and play." You pay to use the system for food or whatever. This one is very handy to us when we introduce this to the governments, for people who are dependent on food coupons, and they don't have anything to eat or whatever, to replace those on a weekly monthly basis. What you wanted to say Rick?

R: There is a comment from Galib. When will we speak and show results of the 19th? Will there be any particular analysis of the 19th?

K- That is for us. Yes, yes, yes. We haven't decided if we're going to release them, because we want to use this for the next operations. And this can give preset mind to people. But we have all the results, we have all the graphs, we've seen the effects and emotions with it. It'll be published, but we're not such hurry to publish this, because there's a lot of information in the background we want to use, to see, and to match, and to repeat, and give some preset mind to people, and we don't want that preset mind.

Q: .. Since the Friday program I and a few Knowledge Seekers of Iran feel confused and we would like to sleep more, and I feel my heartbeat is changing and I hear it. What would you say to that?

K- Yeah, a lot of people are experiencing, trying to get their STP and the STM together. It's part of the progressive development. As I said, this will carry on for months to come. A lot of people, they are more mature in some parts, some people are not mature in some parts. Some people have done most amazing things, they could ever imagine, or reach what they wanted to go, to understand the knowledge, and some people are in different directions. But this is the whole purpose of trying to bring the Soul and STP of the man. The Iranians have this problem, because they have the problem with the Mitra. Talk good, Do good and Act good, and now they have to match it. It's internal balance of bring it together.

Shall we call it the day?

R: Thank you Mr. Keshe, for bringing together today's workshop.

K- We'll see what we can do and how we develop. I'll try to explain more in the coming time. What happens and will happen. Wish you all a Merry Christmas till we see you next week. If you're the believer of the path of the Creator of names, in name of Christ. Now you can see, that you even had a hand in him meeting his Creator.
Thank you very much indeed. And see you next week.

464 KSW December 22, 2022

465th Knowledge Seekers Workshop December 29th, 2022

(Transcription, Proofing done)
(Auto transcription by Elias)

Question & Answer workshop; "Annual Report" of KF; Register for January 20th session - very special; Re-grow organs limbs; Start mass programs; "Plasma" Servers; Keshe Coin exchangeable; Those who have connection to world and religious leaders attend 20th - bring in Souls to elevate - bring change; Soul travel in dream; "Decision dreaming"; Teaching on Reincarnation - emotion transferred through RNA - not reincarnation; CR like highway from capital; Interface with U Community

ENGLISH TRANSCRIPTION

(:12).

K- Yes, .. good morning, good day to you. As usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We are coming to an end of the Christian calendar, and another year ends with this week with our teaching. We enter into more or less, sometime in next few weeks into the 10th year of teaching.

What we would like to do sometimes, as we all got used to it. Every now and then we come back to Knowledge Seekers (KS) to see what is your question? What have you learned over the past year? And what would you like to see? Or what do you envisage, that in the year coming, and years to come would be, or should be the pattern of the work of the human race. Because now, every Soul has a place in the structure of the work of this planet, as we saw on the 16th of December.

What will be interesting is to see how we get a feedback from you. What questions, literal, (:14). real questions are, and not what I call, irresponsible questions. That by asking questions, and what maybe is been an ambiguity in part of the teaching, or more explanation. We can all learn more, and we participate more in all the structure.

For us the Keshe Foundation, Keshe Foundation manufacturing, Keshe Foundation research and development, and different branches of Keshe Foundation with their own ways, in different parts of the world. We look at the 2022 as a revolution and evolution in science and technology. We shared a lot we brought a lot on the table of knowledge. And with it we opened the eyes of many of you, to the dimension of standing and understanding the strength of your Soul, strength, your inner energies, where you have ignored. Many of you came in touch with it, many of you will come in touch with it, and many of you will learn a lot from it. And waiting for that magic time goes away, as it becomes part of your life.

In 2022, we battled to introduce the station of the Soul of the Man (STM) with many of you, many of the others who will be waiting for a change, but the change has come. And this work in the coming time will show itself.

We had a very successful 16th of December trials. Many of you joined in for different reasons, (:16). but we had different ideas and looking at different things in the background and see, and possibilities, and expansion. And by the 19th (of December) trial, we more focused and in general. What we would like to see, what we have seen, what we see from our ends, and what do you feel from your end, being participants, or being in it.

This has brought us a lot of positive things, because since the 16th, in such a large trial, and all being involved, it has confirmed a lot of technology correctness, and a lot of things which needs to be added, and a lot of knowledge to be gained.

We have started collaboration with major is space agencies, in a way, because of the 16th trial and the 19th. Where we are putting forward the condition, that we feed your astronauts. We feed your passengers of space. Leave it to us, we try it on Earth, and then we try feeding your people in the trips. We try to be the people in the Space Station. And we extend this from day to day, from one day to one week, and there on. And gradually introducing the technology in the dimension of the space and then through the Soul.

This will be the job of the Keshe Foundation in 2023, direct collaboration with the space agencies. Not in the space travel, because for us the travel doesn't take shape, the way they want to do it. We take shape the way we want to do it. And we start a procedures with what we call, (:18). the wellness and with feeding. In so many ways, this will bring itself further understanding for us and for them.

In our work, we look at the technology expansion to be understood by a majority, and scientific world in 2023. Our collaboration will run across nations. Yesterday I was talking to one of our leading people in negotiations. I said to him, the target 2023 is working in Teheran, launching in Tel Aviv, flying from New York, landing in China. He said, Mehran you know this is a big tasks. He is our. He has taken more or less the place of what we used to do through our beloved member of Universal Council, who passed away a few weeks ago in Israel.

Through our direct channels, we have entered in negotiation. When, where we the Iranians, and we the Israelis, and we the Americans, and we the Chinese work together in the space development. It does no matter what our nationals leaders decide to do. And it seems to be the right way. And we explore this avenue in a very rapid way in the coming weeks, where we establish the flights, testing flights between Tehran and Tel Aviv. And then we'll see the expansion into other dimensions, and how we will expand this further.

The next step for us in the coming weeks the is the landing on the Moon. (:20). We have the volunteers who are ready to take this excursion. Our systems should be completed by the end of the month of January. And we will start, those of you who joined the Mobile, and then completing that, we go to what we call, maybe by end of February - March into landing tests. Bringing people into Linz, we have done through the dimension of the Soul. Now, with the new systems, we go into the dimension of the what we call, physicality (P). Systems are more or less ready to go, as I was talking to our people, we're 80% there on the reactor side, and we have shown on the cosmic side, we are ready 100% with what we saw on the 16th and the 19th.

In 2023, we will introduce as part of the work with the doctors and the space agencies, a hundred trial. From the results we have seen in certain conditions from our doctors, we are sure we can support them with what we call, patient volunteers. Keshe Foundation and in communication with a number of the doctors, and specialists we work with, and you go through it, will take a new dimension in 2023. From individual cases, after the trial of 16th and the 19th, we go into a mass what we call, programs. (:22). Our doctors from first week of January or second week of January, we'll start analyzing and accepting

100 cases around the world. This be it, (from) the following three conditions that we would like to see, as this has a lot of understanding for our space travels.

The doctors would like to see 100 cases of Alzheimer's, 100 cases of MS, and 100 cases of Parkinson's. This 300 cases should conclude in 2023. The reason for it is, it will cover psychological, it covers psychosomatic, and it covers somatic psychological conditions, that we see how each one gives us the knowledge to develop and perfect the technologies for the doctors to be used in the space. Where through the same process of understanding the work of Parkinson's, understanding the work of Alzheimer's, and in part understanding the work of the epileptic attacks, which comes in different shape or form with some of these, how we can grow different parts of the body. This knowledge is connected to each other.

When you get an epileptic attack, you release a massive amount of information, energy which comes as we see epileptic shocks. (:24). In Parkinson with directing information to a specific position like the shaking of the hand. In Alzheimer's, we lock this information in our body, and we have locked it for thousands of years. Where we open the Alzheimer's of the knowledge of the physiology of the brain, to the brain itself. And with MS we bring in self-inflicted conditions, which we have created for ourselves, back into working as one.

So with this three, but one hidden behind, the fourth one, we have all we need for our passengers of the Universe. If you decide to travel in the dimension (D) of physicality, you loose an arm understanding this knowledge of the 4 systems, we can grow an arm, a leg anywhere in the space by your brain, and not by us. We deliver the technology. We are not doctors.

We know how to make the systems. And as I said before, with the rights given to us by Naturopathica of the Belgium in 2,000, early 8 - 9, we have the rights to produce these technologies, and for doctors to try. We are all within the structure, the legal structure of the development of the technology and the rights we have on the licenses. This allows us to bring a new understanding. (:26).

Where, for example, doctors in the hospital, you come in, due to an accident, you lost your leg, or your arm, or your heart doesn't work, they just dial a number, connect you to a system, which is set for growing arms or legs. And through your own structure of brain instead of the amputation and then seeding. They leave you with connection and knowledge they've been trained, to let your leg grow back out. We've done this before.

Now, we have found the correct way to do it, in a faster way, by introducing the what we call, Cosmic Rays (CR). This allows us a speedy recovery. Now we know how the lizards do it. Lizards don't do it, just by creating energies or whatever, for the tail to grow when it drops off. Through a specific condition they have created within their skin, they absorb cosmic rays, which speeds up the growth. Now we have access to that knowledge. Now humanity has learned how the lizard does it, and do it.

But the beauty of it is, human body used to know how to do it. We were little mouse's and rats in the holes in the time of dinosaurs. We knew how to replace our organs. We knew how to cut off our arms and legs, if we get trapped somewhere running away from the animals. And we forgot. We touched the Alzheimer's of the Creation.

And now we open that back up. And with the knowledge we have gained through what we call, "psycho genetic." We can bring that, and switch it back on in the genes of the man. Where when you need it, you create it, and it's there to do. We just through technology developed, guide your brain where this knowledge is. In a way, we create a condition that your own brain finds where it stored this information, (:28). and now it's locked it away.

It's like a computer disk, you download it, what you wanted it, and then you put it away somewhere. And one day when you say, "Oh, when I want it's there. I forgot about it." So, what we talk about regeneration of the organs, and what we call, arms and legs in different parts of the body of the man has been shown. It can be done. Many of our people talk about it, but you have not understood.

Maybe for the first time, I open this Pandora's box, that how you missed it. We told you in 2,000 and 6, 7, and 8, we grew a toe. And how (it) got cut off. We didn't use any what we call bandages, or whatever. We just placed a specifically designed disk in front of the toe, and it grew. To you this was something, "Keshe does."

But you all witnessed growth and replacement of the brain with Naomi. You just took it as somebody who had a condition, coma, and we brought her out of coma. But in fact, the biggest development in the science of the man was right in front of you, and you missed it. When we say we can grow arms and legs, this is nothing compared to growing, what grows the arm and leg, which is the brain of the man. And you all witnessed it.

So what we say, what you have seen, now makes sense. Now, (:30). if we were in a condition of losing an organ, or an arm, you need a kidney replacement, or you lost the kidney, or you're born with one kidney, or you're born with some heart defects, now the technology is there. We don't touch the defects. We go to the master in the brain. "Sorry sir, at the time of birth, you forgot a kidney. The structure is two kidneys." But is the "one kidney condition" of new coming time? Is one kidney. What we need in the new race, that we don't need 2? Are we going to one organ systems in part of our body. And know we learn more.

But now with understanding of the cosmic rays, now we're developing systems, which we'll use as cosmic rays. What happened with Nomi over, let's say five months, will happen in five weeks. But with more accuracy, with more, what we call, perfection. And so this is what we see, in 2023.

Those of you who suffer from any of these conditions, get in touch with the doctors of the Keshe Foundation. And this time, we'll fix, we come to an arrangement with the doctors in regarding how it will be, and when the 100 is completed, the doctors will release a

report in what they've seen, and how they've done. And then we take this to the next step hopefully in 2024 - 2025. We might even be much faster with the way the technologies develop, and the way, we see things going.

This is what I call our annual report to you, as you've been part of it. (:32). And then on we go to the next step. How we'll bring this knowledge to the world leaders. How we'll bring this knowledge to the world community, and how gradually we'll bring the change over the next handful of years. And if it becomes a "hot potato," maybe in less than a couple of years.

I would like to see. And I would like to hear from you, in how you seen, how you like to see, and what we'd like to know about what we've done in the past year. And what will be in the coming years. I open the panel. Rick is in the background, if anybody puts his hand up with a credible, knowledgeable questions and answers. Join us and then we'll see. If you have no participants. We had a beautiful year, most probably one of the best years of the Keshe Foundation. And we'll see what will come in the coming year. Rick, if you have any volunteers let us know.

Q: .. We have done the space travel experiment of last June. Do you think that the new experience of the 20th of January, 2023 would be an interesting complimentary about what we have already done? I think so. But I would like to know what is your opinion. Thank you very much for this beautiful year very important for the KFSSI family. (:34).

K- We'll have the January 2023 as a specific project. Try to join us, as many as we can, because we gave you a surprise as a Christmas gift. But the January, February, and March sessions of these ones, what I call, Friday afternoon sessions, is part of the development of the STM for space travel.

We don't go through explaining what we do, exactly how we explained in, about the 16th of December flight? Because then it sets, a preset mind. You all came in on the 16th to see if your cancer goes, if you can go to the Moon, and everything else. But none of you expected to meet your Creator. And you all met your Creator in the dimension of the Soul. Technological data shows us we are correct, and there is no conflict.

The 20th of January flight is something special. The one in February will "knock your shoes off as they call, and your socks together." March will bring you a shocking realization. These are all in the D of the science, interaction with the Universal Community, understanding the work of your own structure, the way we did. (:36). The 16th session was important for many of you, and we'll see a number of you who were on the 16th will come on the 20th, will appear on February and the March, and there on. These Souls are part of the structure of the next generation.

And this was .. we don't just don't work something, we make up for the next session. It's all well planned, as you've seen with the work, to the next step, to the next step. And I think those who joined the January test will be amazed in how they will see themselves. And Mars session will follow up to the first landing (on Moon) of the 2 Knowledge

Seekers which we have already set up for it. We are preparing for it. And one from Russia and one from Germany, husband and wife. And then we go to the next step.

We try to make by mid-July, August, the first multiple flight systems. Very much what we did with you, 160 people in one session. We try by mid, back end of this year, to take between 1,000 to 10,000 souls not only across this planet but beyond. This is why we asked you for the 100K's trial. The faster we finished 100K's trial, (:38). the more perfection, the more called perfect system understood by our Knowledge Seekers, the team, will come into operation, fine tuning.

And this, this January flight will be an amazing flight. I know exactly what's going to happen, and what I have planned for it. And every flight is arranged, organized, in a way not organization, but understood, will be one of the first interactions, which January is prelude to it. Where we bring the STM directly in touch with the Soul of the Universal Community in a very different way.

You met, you came in touch with the Soul of your Prophets. We have a data, it shows when it happened. You came in touch with the Soul of your Creator in the soul D. Now, we bring you to a new dimensions (D). And these needs to be done, that when you go to space it doesn't become a magic. If you understand, we still work on physical dimension flying UFO objects, and whatever. Because this is part of things you enjoy. We have to keep you busy. But the Soul travel, where transmutation will become a norm of the future.

A lot of things will change with, and after January 20th session. (:40). The same with February and March. And we go for mass multiplication of numbers in doing things. And this, these trials will bring us to that point. I discussed this was one of our doctors last night, that we go into multiple systems. And those of you who are with us, and you've been with us, you will see the changes in every condition you have introduced, or for with the Keshe Foundation.

So, January session will be a blow minding (mind blowing), what you call experience. And the same will go with February and March. But the March one, is where we hope to collaborate. And more or less after the landing of the first 2 people on the Moon, then, let them tell us how they see each other, the husband and wife. How they feel about each other. And then if we can get pictures through the Souls, to the people to see it. And through the STM convert these pictures to a physical picture.

This is where the Satellite people come in. Those of you who registered for Satellites. Communication through the Universal Community, and through what we call, "structure of work," will go through the Satellite Souls. Those of you who volunteered for Satellites, you do not know what a gift you have given to humanity. Because the work you do, is separate that the work the Universal Council does. (:42). It's totally different dimension.

And we still need more Satellite people to be there. This time you are putting your Soul into line of what we call, communication. Then your physicality. We don't need your

computer hardware in the house. We need your beautiful Souls to become that line of communication between the Universal Community, and what we call, "man's understanding of the Universal Community." And this process will start early next year.

So 20th of January, we'll give you a beautiful sensation, that you're a human, and how as a human you become part of the U Community. Let's see. We'll see, and how as a whole man will take the next step.

Any other question?

Q: All the people that were there on the 16th of December that connected together and with the Prophets and the Creator, what will happen to them? Why were they brought together by their Souls? Thank you.

K- They will be. They are connected from the time of the 16th of December. The purpose was for the STM to understand, has the capacity, the strength, beauty, the elegance and the understanding to stay at the table of the Creator. (:44).

Many of you came with different reasons. But you didn't know, your Soul knew exactly what it was doing. Your Souls were aware that you will sit with the Creator, that was a gift.

Go back to your past generation. Go back to your ancestors, and see which one of you, which one part of your bloodline has served the humanity. In some cases you are, your Soul is the reason you're here, that you've been there on the 16th. Many of you, your part, has been a gift, and thanks to your past generation for what they've done, for understanding of the Creation and the work of the Creator. It's like, your father has discovered something and now your son and his grandchild pick up the Nobel Prize, without him even knowing what the grandfather has done. This is how it was set to be on the 16th.

Rick was there. Rick has been with us a long, long time, not just on this system and this project. He is the guy we came with. Things are not accidental and coincidental. (:46). So, when you say what was the purpose, look in your life, try to find out about your ancestors, and see how they served humanity, that you picked up the flower. Now, you understand why. None of the ones on the 16th came in the dimension of the Soul to get anything, they came to celebrate what was achieved, end of an era. Now, maybe you understand.

Any other question?

Q: .. How do average citizens that might be low on income, but huge on soul and love, gain access to experience the Keshe space program and technology from somewhere like the middle of Canada where I live?

K- Wait your time. The ones who have are paying for the system to be developed. We are gradually, in 2023, go in the server system. But plasma server system. (:48). As now the knowledge is becoming a little bit more mature, we are taking more and more people on. We already started it in the back end of this year. But it'll be rapidly increased.

What it is, there are expenses incurred on the Foundation to run these technologies. And with the huge loss we had, it set us back by quite a bit, but luckily enough, it won't take us long to be back on the track with what has been set in the background past years.

But in general, it's like, if you had a Parkinson, our doctors would have charges you 100 - 200,000 Dollars. If you had the cancer, it would have cost you around the fees of paying to do. What we have discussed now with the "100 cases," the centers which will accept the 100 cases of Parkinson's, Alzheimer's, MS, will come up with a given time with a group of people, and this will allow us to increase our systems, but reduce our costs. Something around about 10,000 Euros has been set for Parkinson, and for what we call, MS, and the others, but this will come in effect in the coming weeks.

Those of you who entered with the doctors in the process will stay the same, we will not change it. We cannot change it because it was setup. When we start the trials in months or weeks, (:50). then they have to decide, the doctors, if 10,000 enough to cover the expenses of theirs, and will it cover the additional expenses, which they incur. If you have to look after one patient it's different than when you have 30 patients. You have to bring in other doctors to monitor, you have to bring nurses, or what you call, secretaries and structures to do. So, maybe some doctors increase it to 20 - 25,000. Maybe some doctors. This is not in our hands, they decide. But then now you see it. When we go into the national and international level, where let's say, 10,000 - 20,000, I think the cost will come down to about three to five, or maybe 10,000 fixed by governments.

It's the same with disasters. Now, you have a disaster in North America, many people have lost their lives, you hit the frost, with the water, shortage of food, shortage of medicine. It's just not that the people's hit, on the hospitals, and centers of the health centers are hit. How it's going to happen?

Keshe Foundation in the coming time will come to an agreement with the American government. We cover in this area 10,000 people, we feed for two weeks, till they find normality. In this area, we cover for all medical needs. You are diabetic, you need to get insulin, you can't get, the system is broken down. You have to take certain kinds of medicine, you cannot reach, we deliver through our system. You've got to understand what this change will bring.

You're in Africa, you've got ten of thousands of people in droughts, (:52). dying of hunger. United Nation to get money from Americans inflated for their farmers. And instead of 100 kilo they are getting 1 kilo, but the price paid through agency's. This all will die away.

I explained yesterday in Rick's teaching, and another teaching, you place, you give every hungry person one headphone, then we feed them. There are more mobile phones on this planet today, than the number of humans. So, it's not difficult. What I call, "One Phone One Life," go back to the teachings of years ago. I said, with two mobile phones you'll live forever. These provide all your needs. And because you couldn't understand it, we explained you with batteries, and whatever.

With two mobile phones in your hand, now you understand where the technology was set up. We couldn't explain it to you at that time. Then you understand the implication of this new knowledge. Then, it's not going to cost you two or three thousand dollars a year, it will cost you most probably ten, fifteen or twenty dollars a year, to feed yourself. It will become part of what we call, One Nation's work.

It needs a lot of collaboration and it needs for the technology to be proven. (:54). We went for a single individual cases, and we added to multiple, then now we go for hundreds, and then thousands. This is presented. We did this with the pig flu in China. We proved that with one pig we could save, if you remember. Then with 30 pigs, and then with 800 pigs, and then now nobody hears in China about pig flu.

So, maybe in five years time, depending on how we work with governments and how big multinationals, which are going to lose their control over grain and the rest, play the game. Average cost of having food is dialing a number on your Internet.

There'll be service providers like you have today. You go to one, they deliver you the Chinese (food), and the same delivery service delivers you Italian and the rest of it. There'll be service providers, which they delivery food, deliver your medicine, deliver your energy needs. This is where the future is. Then you pay maybe one cent, and five cents for pizza, and you pay nothing for a McDonald's as a free service. This is not a dream.

Those of you who joined us in the food session, what you call it, the nourishment session of the Monday, you do not know what we did in the background. (:56). You heard from banana to apples. You heard from exotic foods, to honey, and the rest, and every herb on this planet we could get our hands on. That's why we want to talk with you. And the questions we ask you, in the next couple of weeks will give us a lot of indication. You could not even imagine what has happened. The purpose wasn’t then to come in, and feel good and not wanting to eat for weeks. The purpose was served, we had a preset structure and we would like to talk with you.

Then you understand, those of you who came for the cancer session, what happened and how things take shape. In the 16th and 19th you as Knowledge Seekers entered in a very basic, but a massive fundamental change in the whole process of life on this planet. With your Souls on Friday, with your physicality's on Monday. You look for addiction in drugs or alcohol. We looked at the way your Soul reacts to these things, and what data we collect.

As I said, you saw the graphs on Friday session. Surely you don't want to see the graphs on addiction and the others, which the team has collected in the background. (:58). So, you can't afford the cost today, but in a coming time, would there be any need to kill a pig? Or would we need to grow wheat, and the rest, and then harvest it every now and then, and then put it back in the system.

We can't take pigs and wheat into deep space, they will not even have the physicality manifestation. So, what's the use of growing them? Animals we eat today will be a picture on the wall in the coming time. You don't need to be in central Canada, one of the richest nations on this planet, and claim poverty. You'll be the same as the guy in the back villages of Africa or in, what I call, tribes in Brazil, will have access to the same dimension of technology and knowledge, and what I call, food and medicine.

We've seen it with Corona, our Brazilian team tell us how the people in what I call, jungles of Amazon used the Gans for Covid. We hear from Africans, and the Chinese, the Iranians, and the British. Became equal to all. The technology for the food and medicine will be the same in next few months and weeks.

Governments have done a beautiful thing in putting satellites. (1:00). Now we work with the governments, with the satellites, to become the true satellites of delivering a lot of things than what it was planned originally, because it will become obsolete. We work in the coming time, as Keshe Foundation has become a space organization in Iran, to work with the Iranian space people, that we start feeding the Iranian nation directly through satellites, built by the Iranians for the Iranian nation. In the forthcoming satellites we try to endeavor to place our systems within it, that we can feed the nation. As one of the very first trials of the technology. You'd like to taste whatever, it'll be part of the satellite which covers the area, will feed the area, then it will be expanded to the other organizations around the world.

Any other question?

Q: .. How will the Keshe Foundation carry out projects for agriculture in 2023? We appreciate the guidance.

K- We still carry on with the same things. And a lot of people are doing a lot of agricultural tests, for different things and different reasons. (1:02). We don't have a specific program for agriculture, at this moment in time, for 2023, because the way we see it with the development of the Cosmic Rays, the structure and technology, we'll be walking away from food. You will understand sooner and sooner.

Agriculture doesn't have a room in a way, we call it, agriculture in the coming time. Farming in the new science of man is a distance thing, it will become. It's no use growing wheat, when with the knowledge we understand about the strength and cosmic rays of the wheat, to grow something which nobody is going to eat. These are realistic things, which will going to hit, but step by step. We develop the space technology, and in the space technology we look what will happen to man in the space, and I'm sure, if you can't

afford for paying for the wheat, people who got the stuck with a shortage of wheat, with Ukraine, the government's will see a new way.

You as Knowledge Seekers will bring that to your governments, not us. Agriculture and farming, or animal husbandry in the new science of space has no room. What are you going to grow? (1:04). A man from the Mars next time to eat? Or something to you looks like a flower, but it's a living intelligent being. So, we still help you with your "bits and bobs" of how to increase your harvest, or whatever. But Keshe Foundation is a space program.

We can't teach you how to eat others when you go into space. This is what we're trying to avoid for you to survive the space. This is something you have to get used to. But on the other hand, if you want to take it in a different direction with the agriculture, the same thing will be done with agriculture as with the, what we call, human feeding. Satellites will create a condition for wheat to grow rapidly, everything can be done now.

Because the most important missing part of the jigsaw puzzle for humanity was creation of cosmic rays and the "Universal Rays," which man will come to understand. You need the universal rays to understand it, the structure of the cosmic rays, to be able to feed yourself in the universe. And those who travel across the universe from different races to feed themselves to exist. When you talk about UFOs and aliens, they eat something. They have a nourishment source. They will learn from man the use of cosmic rays to feed themselves. The universal rays to feed themselves. (1:06).

So, what you call agriculture, and farming, and animal husbandry, what you call killing chickens in millions, will come to an end, with the understanding of the technology. We'll all become vegetarians, as you call it. Why now we only eat one race (of beings). I'm a vegan, I'm a vegetarian. I'm a plasma-sist I take energy from the plasma and I kill none. There'll be these new words very soon coming into the vocabulary of man. The way you became vegetarian. I'm a, what you call it, target shooter. I'm a sharpshooter, I can kill directly only plants. Specified way, I target specific animals.

Now next time I target the Martians, and those from planet Zeus and somewhere else. But becoming part of Universal Community, understanding the technology of the life in the universe, you all live of the fields of the plasma. So, agriculture the way you call it, and a lot of Knowledge Seekers should have moved in that direction, has a limited life. We increase your harvest by 10 times, but there are no customers, throw it in the sea. And what are you going to do with the sea, with all the fishes, they don't want it? You pollute somebody else's environment. It's a very tricky technology, this Keshe Foundation technology (T). (1:08). You become a Soul travelers, not food hunters.

Any other question?

Q: .. I participated in the last session of the Monday flight. When Mr. Keshe asked everyone to go to the North Pole and try to meet the Santa Claus to touch his deer, I felt even more cold, because I had caught a cold on Sunday. That Covid-19 kind of cold.

During the whole session, I felt literally nothing. I felt I lost most of my connections to my Soul after I'd been attacked by the Covid virus.

R: So could getting, being infected by a virus before you go into the flight system, could that result in a session that was say, less effective, or as he says, literally felt nothing?

K- We went into these to understand, (1:10). to see the effect of the Soul in our systems in the background. When we asked, like the ones who joined the nourishment, and the ones who joined the addiction, in the coming days to meet with us, then you will see what you felt, really, and how you connected and where you connected. It doesn't matter as we saw with the Friday session, ten people "run a disco" in the session. If you listen to the sounds, which was made during the Friday session, it was like standing in Central Station. So much noise, only by about 10 - 12 people. But when you look at the data in the background, kilometers away, where we follow the emotion of the Soul, it was unison, it doesn't matter who was making noise and who was quiet.

So, we come back to you. That's why we want small groups, to analyze in more detail the things, that you could not even think about. But it needs time, it needs a couple of weeks, of the time, or the thing you anticipation was, it’s like the people who come to the center, they want to go somewhere, but they don't go, but when you speak to them, they went exactly where they wanted to go. So, we will listen to a lot of these things in the coming days and weeks, the people who joined on 16th and on the 19th. (1:12).

Any other question?

Q: .. I wonder, how will men that have jobs in the food industry, or others in the future useless jobs, how will they adapt? My imagination needs enhancement.

K- You don't need to imagine. What happened in the industrial revolution, when the new systems came and replaced the man's job? What happened in the computer revolution? Man always finds another thing to do to keep himself busy.

But this reward and payment will go out of the equation. Most of it will disappear. Having a job in an office, going 9 to 5, has proven now with the Covid in past two or three years, it can be done from home. It can be done on your leisure time. It doesn't need you to be in the offices to exist anymore. What happened with all the cleaners? We used to clean these offices, what happened to the doorman, what happened to the guy who delivered things to these offices. Now they’re running without anyone. We adapt to them very rapidly. (1:14).

We have a very good example of literally abandoning land, what happens to them? We saw it in Chernobyl. Nothing has happened as such. Life has taken and it will still grow the same way, and the cycle has taken. And there are people still living within the boundaries of the Chernobyl restricted zone, a normal life. But in general life carries on, we find new hobbies.

One of the best things which will come to man to understand is this electronic control financing, banking. The government's just top up your account for you to have a good time, and the same imaginary number, you top up somebody else's account, because you bought something from them, because there are no jobs. There is no borrowing, as such. All these things we accepted, forced on us by those who wanted to feel that are in power, will go.

We saw in the past few months the situation in Iran, people boycotted certain transport companies, people boycotted certain food companies, and how the businesses literally collapse. These people will find another job. You will find new hobbies than jobs. And the government's don't issue any more paperwork, (1:16). they just give you a digital number, you top it up. Central banks move away from that position as a digital requirement.

You don't need to live in an 80 square meter property stacked up like sandwiches in the middle of the city, because you have a job there. You live somewhere in the middle of, god knows where, because fifty dollars a year, at the moment there are buildings in China, the rent is one dollar a month, or one dollar a year, or ten dollars a year for 80 square, 90 square meter apartment, fully built in the cities, which are nobody living in. You live in China, you come to work in New York and go back within 10 seconds.

The whole concept of life the way we have accepted to be a slave, is coming to an end. And it'll be really rapid, because once it gets hold, once it's done, the preliminary base is done, the way we jumped on the computers and mobiles, we use the same computers and mobiles to travel with. It’s not just something you take an App and buy a sandwich. You take an App, you're fed for the day for nothing. And the ones who created the chain, come up with more exotic tastes and flavors.

What do you do? You spend more time outside, you enjoy yourself. Because a lot of people say, I want to be free from taxes, and I want to be free from burden of chemical foods, or whatever. We don't have chemical. (1:18). You have received the pure energies, which is needed by the body, and the taste and flavor comes from your emotion.

Life, we are not theoretical, now especially with the tests done in past months, the whole humanity changed. The best thing the Belgians did to us was taking us off the radar in the newspapers and the public. (It) allowed us to develop in a very solid way. Without the magician, and the magic jobs they want to do with us.

You'll have a time on your hand to live the life you like. And that is how it should have been from the beginning. But now there's more technology and more things. Do you need a car to go, to pay two dollars a fuel, just because somebody shot a bullet and then come down to one dollar after six weeks. Who made this massive hundred dollar a, what you call it, barrel out of nowhere? Cosmic Rays are free, your energies are free.

Find a way to tap into it, you don't even need an App. Soul communication line. Those of you gradually get trained by yourself. You'll live a free life. ?? What do millions of

unemployed do every day? You used to go for a jogging, go for a walk, go out sitting and chatting with your friends, or travel the universe. You won't have enough time to be unemployed. Mankind will be employed with the pleasures of the universe, than the slavery of the man. (1:20).

<< BREAK >> 465 KSW [We make an transcript break here ..)

Q: .. We've got a further report by Achilles. On the Friday night session says, on the session two of the Friday night, I can't stop laughing. I never laughed so loudly in my whole life. I don't know why I laugh. I don't know, if I was in the disco. I felt someone put some food in my mouth, then I start laughing. The experience on Friday is so impressive and profound, such that I can't stop swinging, swinging my hands during the session 3.

R: So he had a fairly profound Friday night session.

K- Yeah, different people took according to their enjoyment, I call it of their Soul. Different things from each session. Those who joined the cancer session, they had some of the profound effects, in their what we call, (1:22). emotion.

We are following one or two of them. The ones who joined the food session, they had the best ride. With the food session, we kept on loading up different things in the background and see how it is, or how it feels. To you, you just sat in the session, in the background we added, we took off things, and we watched the session how it goes, we emptied the place, we filled up the place with different things, and we collect data.

It'll be interesting to see how collectively the people in the Monday session learned from the Friday session to join each other. None of them did. Two or three people who knew each other in some occasions I see it in the graphs.

In fact, what should have happened is, we should have taken you in a different direction, make one soul out of all of your souls in that session, and then bring you back into a system we had and then do what we wanted to do. And this is what's going to happen with the future tests. But we don't explain anything, because we've got to perfect our systems.

Go back to the teaching years ago, if you can't find it. (1:24). I said that, you give your Soul to a captain you trust, and when you arrive at the destination that captain lets your soul to detach, to be free. What we are doing today, I explained this to you maybe five, seven years ago in the teachings, those sitting and transcribing, just look for it. I explained, the time will come when you give your Souls to the captain, a captain you trust.

Now, you did that on Friday. Took us seven, eight years to physically develop that technology, that you could do it. That captain was the technology and the "soul of all of you together" on Friday the 16th. You made one soul, one captain, and then you saw it on the graph the straight line. And you gave everything to it, unconditionally, none of your fought. We don't see any peak in that period, that even one soul rebelled. So, now you understand. Find the teaching and listen to the 16th, or last Thursday teaching where we explained to you, then you understand it was a fulfillment of a promise years ago. Now you have it. (1:26).

The whole session will come following all this developments, new things. I refer, gradually into the back teachings, that you see what, how long it's taken me to prepare you for what is to do, done at this time. You gave your Soul to a system. You believed in one system that with the structure of that system, delivered you to your Creator, in the soul level. If I would have told you such a thing in the teachings. I think it's in the one hundred or two hundreds series (100 KSW to 200 KSW). I explained in one of the teachings this. You would have laughed.

But when we explained, that you give your Soul to one captain, and when it comes to the time, delivers you, and you trust it. You made that one captain out of all of you. The 160 of you in that meeting that day. Because you trusted in yourself, you don't do anything wrong in the Soul level, so did the others, so you made one out of everything.

In the future I'll teach you how to travel in the planetary system, how to travel in a star, through your Soul. But again, go back to the teaching where I said, what you see as a star you already have a connection to it. "The light came to you to see, is the light, which takes you back to be." Then you understand how much knowledge is left to add, and for you to understand and to use. (1:28).

Go back, many of you who came to Linz, and many of you who were online, we've done some tests with you. I frequently asked you two questions, did you see, or did you feel? Most of you who went through the Linz experience were asked this question deliberately, did you see your father, or did you feel your father? Did you feel the animal, or did you see the animal? Why?

All these questions will be answered in the coming weeks. Then you learn the separation between the physicality and the Soul. You learn what is knowledge of the Soul, you learn what's the knowledge of physicality, and gradually you learn how to connect, and be in charge of their interactions, or be a witness and guided to. Then you will not do, no wrong, you will not act wrong, and you will not even think wrong. Because you'll see

something you've done wrong in the Soul level will affect the physicality. You will be paralyzed. Something you do in the physicality will damage the level of your Soul, you will be paralyzed. So, which stupid man shoots himself in the foot, as I say, and tries to run a marathon. (1:30). Your essence of your own judgment brings protection to your Soul and conduct.

Any other question?

Q: .. If we are allowed to manifest on the same level of physicality as on Earth, now on the Moon and Mars, does this mean that the planetary soul has accepted us to make a living environment?

K- You cannot have the .. exact physical feature of the man on the Earth in any other position but Earth. There'll be some deviations. That is primarily, because of the field strength of the destination. And primarily, part of your own emotion what allows for you to accept. These are very important criterion, because the physicality cannot do something which the Soul is not happy with. And the Soul cannot do the same with Soul of the Physicality (STP). But compromises will be reached in a way of balancing the two. So, you cannot be exactly the same, maybe even internally as the way you might feel it physically with yourself on the Moon, but in reality you are not, so you deceive yourself. But in a way you get used to it. (1:32).

It's a .. coma condition. You know your face in certain way and your understanding, and then you go to a coma and you wake up 20 years later. The body has gone through aging, and science and technology has changed. So when you come out of coma, your emotion inside belongs to 20 years ago, but the face is today's. You have to accept it. When you entered to coma there were no mobile phones. Now somebody hands you the first thing, is a mobile, when you want me, call me. What is this? What do I have to do? We learn.

It's a beautiful learning curve. An emotion, which a lot of you have never considered or maybe sometime in your life have thought about it. We spoke about agriculture. We spoke about killing, or consuming another life, we call it, a wheat or we call it, whatever. Now you understand the structure of life. Then comes a cycle, which came to us in a different way, (1:34), around about nineteen nineties, and disappeared. It was just a fashion.

You would not eat an animal, you became vegetarian. But you love Mohair, and silk. You like a sheepskin in front of the fire, and you enjoy fox scarf, and different animals as a fancy coats going out. You wear a cotton shirt. You're carrying an animal on your back, another life was sacrificed. For you to hurt. Would your emotion takes you to that point, that I will not wear anything which is another life?

Do I need to wear another life? Next time, when you call yourself a vegetarian, look at the clothes you wear. You're wearing an animal, in the name of the plant, 100% cotton. Ignorance does not give the right of passage. And deliberately ignorance is worse. (1:36). So, what man's going to wear in the deep space? Where the cloth man makes,

made of Carbon and Hydrogen, and maybe a little bit of this and that, as a polyester and the rest.

In the span of universe is part of the energy system of the universe, Carbon 14 and Hydrogen. Would your polyester or whatever cloth you created, will exist or will it be vanished as part of the energy of the universe? In a simple word, if you are anti-killing of the animals and plants, and you go for being organic and chemical based things, I would like to be naked in the space, the same as your Soul.

Now you understand how much we have to let go, and how much we have to accept with what is to come. You'll face this because you became passengers of the universe. It's not somebody else done it. 160 of you became "passengers of the Universe" in the last few weeks. You volunteered, you came in, you brought the Soul. (1:38).

How you tricked is your problem. I'm going in because I've got a cancer, I'm going in because I have Parkinson's, I'm going in because I want to travel. How did you cheat your Soul to come in? How did you bring it in to be as part of 160? Or did the Soul bring you with cheating you with the Parkinson, and everything else. You have that. Go there, because I already have a rendezvous, I'm supposed to be there. You carry me inside, so go with the excuse of Parkinson, or traveling somewhere else.

How did you ended up to be one part of the 160 people last week, two weeks ago? Who brought who in? Did the Souls have a rendezvous, they knew they're going to be as part of the show. The beginning of a change, and fooled you with your physical desires? Or do you think your physical desires brought the Soul that he found where he was supposed to be?

In one of the meetings over the next few months we'll bring you the world leaders on the table. The way you became in touch with the Soul of your Creator and your Prophet. We don't announce when and which one, but in one of the sessions of 2023 you will sit with the Pope, you will sit with Ayatollah Khomeini of Iran, you will sit with the two heads of Israeli synagogue religious leaders, as each six months they change. (1:40). You'll sit with the head of Islamic world in Saudi Arabia. You will sit with the top under Christian belief calendars of leadership, you will see it with those who run Buddhists monks, and the rest of it.

You remember, in 2016, we took you to join your Prophets. Now, you joined the servants of the Prophets, to show the real desire of the Prophets. And that will be the end of religions for man. As those who you bring on the table, they have to answer your Soul, and the Souls of those present. In that meeting we'll mature the world religious leaders, and it will come the end of the religions. As when we finish the session, one by one, they'll resign from their position.

This time you will decide and not them to attend. You call the souls. Then we'll see the end of religions. Then those religious leaders have to carry the message to the rest of those who follow them, that the "bell has been rung," the end of what we call, "false

belief." Then we in the other sessions, we'll bring you the world leaders. You will sit with President Biden, and you will sit with the Iranian leadership, you will sit in the soul level with those of Kremlin and Beijing. (1:42). Don't forget, these are not fairy tale, you've seen it scientifically, you met the Soul of your Creator and these are all servants to Him.

Then we start bringing in the change. Then, once we bring these changes, you have to understand, that the nations in the human level have to accept the changes. But as you'll come in unison between all of them, then it'll be a, what we call, a trend, a fashion, and it'll carry itself through. This is part of the 2023 program of the Keshe Foundation.

And we have a track (connection). We took you to your Creator, now we take you to their servants. And instead of going and making a time, that one day if they decide you'll meet them. Now you bring the Souls, and the physicality follows the decision of what was made in the meeting of the Souls. The way we'll feed your Soul, to feed your physicality. The same way will be done with the world leaders and religious leaders. We elevate, we touch their Souls, and then their physicality will bring the change in that dimension.

Don't be surprised that one day, the Pope walks out of Vatican and he will literally will never be seen (again). Don't be surprised in the coming months, when Ayatollahs just take their turbines and, what we call, "abbahs ??" and just walk away and you don't see them again. (1:44). Not by bullets, but by elevation of the Soul. Because this time, if you do it, we saw in Iran, you become revolutionary. But if they do it themselves, it's done by themselves.

I said to the world politicians, revolution in Iran by guns and bullets will not work, it has to come through the Soul in the mosques. And that's where we're going to bring the change and revolution. When there are no more Mullahs and Ayatollahs to lie and cheat the others, the mosques will close on their own, because the people will elevate. The only way you change world politic in the religions end, is through their Soul, not through guns, and bullets and discrimination.

When I was a child, maybe 7 - 8 - 9 years old, 10 years old. If you go to "Nehferu ??" in Tehran, where the dome is. I told you before, where they built the religious "praying dome" over the house and the bedroom I used to live in as a child. In that house, we had a big living room. Many times, I saw men with women with their children as family, coming to the house with as a turbine, as a Mullah, whatever, from different cities. They changed their clothes and walked away, not being a Mullah, not being a religious man in the path of whatever they believed in.

I asked my father, "Papa, what's going on here? Why do we get Mullahs in the house? (1:46). Then their clothes, they go out normal." He says, they have elevated in their Soul, they understood that there is more than Islam. I watched this maybe 10 - 20 times. Green and black turbines with two or three children, because we used to play with their children while they stayed with us a few days, when they took their clothes and robes off. They became normal men on the street. It's not something that we don't see. I've seen this from childhood, when the man elevates, changes his clothes. So, we'll see these very soon, but

in a mass. The funniest part for me was, "why do they shave their beard Papa?" And he used to say, they don't need it anyone to hide behind it.

Any other question?

Q: .. How can we interact with souls of civilizations and collections of souls far away in other galaxies, who we don't even have a name for, let alone a visual imagination, what is the line of communication? (1:48).

K- You will learn, that you have access to the whole of the world of Creation. You will find out through the essence of emotion, that creation and created things from different parts of the universe would like to make contact. And you receive it through emotion in the dimension of the Soul and you responds. It's like you make pet friends, and Chat friends. You receive the emotion.

Human race will not have time to rest, and does not need a job to do. You'll be so busy with the excursions and the life in the space, that the rows, and the factories, and the offices will have no meaning. As your beautiful cotton shirt, and your beautiful PVC, and whatever like clothing has no dimension in the universe. If you appear in your physicality, you will be naked. So, you have to choose.

You will learn these things, it's not a strange thing to you. You do this already in your dreams, you call it. Your Soul in the time of the reduction of the strength of the blood, what we call, magnetic fields, (1:50). travels to these places where they invite you. "I saw a dream, I had a dream last night, I went to a place there were this, and this, and that. There were people like this." Excuse me, now you know where you went, you received an invitation, and you traveled, because they matched the strength of your soul at that point of time. In being there, and having unfortunately, the center of your Soul is still attached to your physical body, in communication between the center and outside where, what I call, the strength of the field took you, leaves, what we call, image of memory, and you call it a dream.

As I always said, your memory, your brain is like being between two people talking to each other, where you're not supposed to be. Your Soul with the soul of the others communicating, and you're in between, and you hear them, what they say to each other, but you're not part of it. Because in the physical dimension, you are not there, and you call it a dream.

So, when what's going to happen, the civilization you know, you made the contact, or they made the contract, and you meet each other to understand each others culture and ways. And maybe part of it you remember, you've been there, and you've done and you call it a dream. So, it's nothing strange. Now you know what your dreams are, so you've been there, you've met. If you in your dreams, you met aliens with two tentacles on their head and 20 arms, they exist, you've been there. Just you don't remember where and why. (1:52). Because the one who listens to the whisper in the middle doesn't see what happens

behind the wall on either side, if they're laughing, crying, cooking, whatever, he just hear the voice.

Your brain has just heard a voice and create the image of it. But you've been there, it's not something strange. Now it becomes decision dreaming, than just not knowing what you dreamt and the reason for it. You make a decision to go to such a place, because I sent the call out and the answer came. You go in these chat rooms, and chat rooms and you leave your picture, your name and whatever. And somebody calls you and say, I've seen your picture, you like football, I like football. Can we go to the match together?

Any other question?

Q: .. Since we were children, we dream and remember a lot of things but specific points of the dream are lost. For example, how we got there in the dream, where we went, how we got to the other side? The contact with someone that we remember, that we had, but we don't remember how that contact was. Is there any way you can direct us to increase what we might call, memory backup, or to remember dreams better?

K- You see, if you listen to the teaching of past few months. (1:54). This should have answered part of this question. And if you've been with us in Linz. We tell you, you go to, you don't fly to, and it's instantaneous. You go to Moon, and it's there. The first thing you have to realize, that in the dimension of Soul, dimension of fields is instantaneous. You don't need to wait 18 hours on the flight to get to somewhere. So, this explains why you're suddenly there, because decision was done, it's there, the fields connect. So, what could not be explained, how it is there, how I got there, ?? mainly was there. You just go to, you connect to the fields and it's instantaneous. So, this part we understand.

The rest of it is, what was the decision of the emotion at the point of contact. How you wanted it and how you saw it. And what do you wanted from that interaction, or what they want to show you in that interaction. The rest is, when you meet a friend, if you decide to have a coffee, a cake, or whatever, it just comes as it goes, would you stay for a dinner, now you're here. That is what you call, cycle of life. But going to it and everything, now you tested it yourself. A lot of time you say, "oh, I went to." Did you fly to go to see the Martian, or whatever you saw in space? Or it was there, and you arrived? Now you understand how correct the technology is. You're there instantly.

And you have experience of this in the Soul travel, when you're asleep. As just was said in the writing of this question. (1:56). Now you know how you've got there. Now you know, the system. In our system, if you could be, now I tell you, to go to the Moon, then instantly you are at the Moon. You didn't wait in the flight room for 18 hours, or four days for you to get on the ?? mode of a rocket and fly there. Now you learned the way your Soul travels. And you should have seen that by now. With the transmutation and transportation of soul, it's instantaneous. You go to places, you don't fly to places. Flight is the job of the man, going to places is a dimension of the Soul. Now you're getting used to it and you understand how many times you've been to places, but you didn't know it was your Soul involved, not your physical dimension.

The minute mom shakes you, come on, get up, it’s time to go to school, you’re back in, instantaneously. You go back, say goodbye to the friend, mom wakes me up, I have to go to school in the physical dimension. Now you understand, maybe a little bit more about the two dimensions of the Soul and physicality.

Q: .. First of all, good morning Mr. Keshe, thank you for your infinite love for humanity. In the first teaching of 2022, you taught us about transmutation, and Inertia, and spoke about how we need to train our emotion to identify what is real, or reflection, or mirage in the plasmas of the universe. Could you tell us more about this subject, and if possible, (1:58). guide us to understand how we can develop the understanding to know what is real, reflection or mirage?

K- This comes by test. Even in the world of creation in the physical dimension, half of the structures we see as stars and galaxies are mirage and reflections. It’s the same with the dimension of the Soul, depends on the field and the strength of them, their interaction creates images. It's just how you interpret that image. Or it has taken the dimension of physicality in part, and you call it whatever you choose to.

You put two mirrors again, opposite of each other, you stand in there and you see hundreds of yourself down the room, each one. Which one is a mirage, and which one is reflection, and which one is you. It’s the same. When you bring interaction of the magnetic field you get residues, and some of these residuals create conditions of repetition, because it's like cells, they connect to each other. But in the energy dimension without the soul, and then you call it a mirage. Or, in a way, if it's backed by other fields, your call it, what you call it, reflection. It's you who have to understand which one carries the Soul. Do you see a Soul in them, then you know which one you're dealing with. A picture, an image without the Soul is a mirage, and it's a reflection. (2:00).

Q: .. What does it mean by being told, "you're glowing"? So my line of reasoning here is, if someone is glowing, we know what that's like when someone's glowing, they're emitting, they're giving off the rays, the radiations, they've got the vibes. Is that related to the difference between a reflected image and one that's being broadcast, like direct radiation?

K- What do you mean by that?

R: Well, for example, with somebody is sort of "on top of their game," or "really tuned into their environment." So, they're really paying attention, they seem to take on this glow, they're totally awake and aware in their environment, let's say. So is that glowing part of when we connect with our Soul, we emit rays, rather than just being a reflector of other rays, or instead of transmuting other rays, we are the source of the rays, let's say.

K- I don't know what position you're in, or what you have chosen to be in.

R: Maybe I'm reading too much into the question. Maybe, do you know what I mean by when someone's glowing, when someone is… (2:02).
K- Yes, it's just a…
R: So what does that mean? That'll be a simpler question, what does that mean?

K- Yeah, it's just you add the dimension of physicality to what you set up in, what you call it, in the emotional part.

R: So the glow might be more of the friction of the fields, let's say…

K- Of on the emotion side, ??. It's the information, transformation, how do we transfer this information, in which level in the dimension of the strength of the Soul, in the dimension of the strength of the physicality, or a combination of the two.

Something I wanted to bring up with some of you who totally been part of the work of the Foundation. Some 20 of you, up to now, now have bought and receive these black discs (Plasma Mirrors). There's I think 10 or 20, I think prepared for March or so, which a lot of you are putting orders for them. We would like to build a session, and you will receive a email, those of you who bought these discs, for a meeting on Zoom in connection with the discs you have.

We would like to run a number of trials with these discs with you, and with our flight system. (2:04). The same as the ones who did the Nutrition and couple of other tests on the 19th, we'll contact you for you to do to run some tests with us simultaneously with the use of these discs. This will bring us a lot of knowledge for the space transmutation. This is one of the things I told you before, those of you who have it, keep it handy, very soon the Keshe Foundation will contact you. We have a list of you who bought it. We'll call you into a session, and a lot of these things that is now discussed somewhere in, after March will be discussed with you, because we will use this for a specific flight systems, and you're part of that system. Those who have acquired the black discs, the two mirror discs, which the Foundation is another 10 or 20 going through the process.

Any other question?

<<< Speaks in Portuguese Language >>> (2:06).

Q: .. So what Cristiano say first, he says, (2:08). thank you very much Mr. Keshe for all the love and knowledge that you give to us all these years. He's connecting his question with something that just said today regarding the people who went through the flight test on the 16th, many of people who were there in the 16th came, because of the of their ancestors who did some serving, and did some good works in the past. So, he was trying to connect this with the hypnotherapy. And in these therapies, in hypnotherapy or something, they say that you lived other lives before. And he's asking, if I understood correctly, if those people, that you were in the past, you are coming back. You did that good deeds in the past, and now you're coming on the 16th through the good deeds that

maybe you yourself did, and are coming on the 16th as, let's say, like a reward of something good that you did in the past or something like this. Was that clear Mr. Keshe?

K- The situation with the 16th is part of everything involved in. And it's not the reincarnation of somebody, you did something good in the past. You are a collection of the RNA and DNA of the past lives, which led to your creation. You call it, or they say that you inherited this disease genetically through your genes. So you now understand the genes are included RNA, (2:10). without RNA there is no DNA. And RNA is, what you call it, magnetic field of the information, which leads in dimension of physicality through the DNA.

So, it's not that your ancestors are with you. You carry the reflection of what they've done in the energy level, at the time of the present. It doesn't matter in the 16th or any other position you like. This is what it is.

It's not that you lived other life. No, you brought part of the actions and interactions, which lead to your creation, which is part of you, to be understood at the time, and the place and position. You are not reincarnated, it does not exist, cannot exist.

But the, what you call, the… I explain it in the easiest way. You have a recorder and you record a music. Then you play this music to ten, twenty, hundred, a thousand people. Then they play the same music to another ten, twenty, a hundred people. But the original recorder breaks down, gets destroyed by accident, or whatever. But what was recorded by the others, and given to the others, and given to the others recording, is .. still carries on. (2:12). So the recorder is destroyed, but the music is heard by many down the line, maybe for generations. This is the music my grandfather used to listen to, but the "grammaphone" (recorder) doesn't exist anymore. He actually was listening to it.

My father had tape recorders, and my grandfather recorded on that, and then my father had a stereo system, and a CD recorded, and my time it's just on the headset, and I'd give it back to my children, this is the music, that your great grandfather enjoyed. But god knows what they're going to record it on. The physicality of the original recorder is gone. But the music is carried on down the generation. It's the same with the genes.

The man who did a good deed, his good deed has spread through his bloodline, not just one. So, the children, the great grandchildren, and children, and the great grandchildren carry that knowledge. And maybe one of these grandchildren down the line, or great grandchildren comes to find the original recording, but the recorder is not there.

Now you understand how your Soul works, how you reflect the work of your ancestors. You don't have the original recording, you don't. It's not the ancestor to show which button he show, he pressed, where he bought the recorder from, or whatever. It is just a music which is played, it was recorded generations back.

And this is the same with your RNA and DNA. (2:14). What you see, what you say, is a reflection of what they, in their strength of RNA, recorded in the disk. You have that

information, but you don't have the original. You are not the great grandfather. You are not the recorder.

This is how the Souls when they present in the recording of the Soul is the RNA recording of the life, and generation and creation. You have to understand, when you were created, you had a mother and a father, that's two recordings. Then they had four or five children, which they've shared that. But your father and mother are children to their .. mother and father, your grandfather and (grand)mother, with many children.

So now you carry the memory bank of the gene of your father through the day of your inception. You have now the recording of the 4 grandfathers and mothers, and then 8 great grandfathers and grandmothers and all the siblings, whatever they're in touch with each other, or had the emotion in respect to each other.

So you see, the STM goes back a thousand generations, two thousand generations, you have all this recordings in your Soul. How two hundred generations before your ancestor had to tackle a bear, in the North Pole. And he lost an arm, because he did the wrong move, (2:16). and that wrong move was recorded on his emotion, on his RNA. And down the line, any of the bloodline sees a bear, runs like a rabbit.

Other man in the North Pole came across a bear, fed it, they became friends, and a thousand generations before, and this bloodline when they sees a bear, they hug them, they have no fear of them. It depends what's recorded on the recorder, and what was passed on the RNA and DNA. This is what you have to understand.

When we bring the Souls on the table, on the, what you call, 16th of December, came from the souls of generations of the whole of human race. Listen, 18 (80 ??) nationalities, path of beliefs, and others were present, over 80. We have a good sample of connections. Chinese, Iranians, Americans, Mexicans, Australians, Africans, Russians, they were all in that 160. Christians, Muslims, Jews, Catholics, Protestants, Sunnis, Shias, they were all in it.

We brought all the races of man on the table on the 16th. Irrespective of color, race and religion, and that was the promise of the Holy Books. The Day of Judgment, where all men are equal, and with it you became, and you brought all the memories of men right across. (2:18). The Jews, the Muslims, the Christians, the Americans, the Iranians, the Chinese, all listened to the voice of your Messengers, and the voice of your Creator. None of you was higher than the other one, none of you wore a crown of kingship or you're a better race. You all met on equal ?? par, and that was what was promised. And for the first time you had the rays of the universe, Cosmic Rays, which brought you to your Creator.

Q: .. What is cosmic, or what are Cosmic Rays made from? Wikipedia says that, is primarily represented by protons or atomic nuclei. Or in another way said that, 90% proton and 10% nucleus of Helium, or 90%, beta positive ray and 10% alpha ray, is that correct?

K- Every ray which exists in the universe is in part of Cosmic Rays. And every field which exists in the part of cosmic rays, and Universal Rays, is a magnetic field base. (2:20). What collection of them, what you call, is your intellect. "Proton collection, more of neutron maybe, more strength field of electron, maybe more powerful, but let's have the small ones." Man made names for it. But in the essence is, different interactions of different strengths of, what we call, magnetic fields of the universe.

One thing which you've got to understand is, that you are still part of a Cosmic Ray, but in that ray you still can be a cluster, and in that cluster you still can be a plasma. So, the plasma is a STM, can live in the cluster of the souls, and then with it be part of a cosmic ray, which ends up in another what we call, cosmic rays, or cosmic plasma or disk of fields, or is originated from a plasma, or a cluster of plasmas. And then all this, on the initial root goes and becomes the essence of the Creator.

It's just like, you start from your capital and your drive away. You go a certain length (down the road) with nothing (around), and then you see a town. Then around this town, there are villages. ?? around this village is most probably a farm, put something in town, the town people put it back on the road, (2:22). they go to next road, up the road, to another cluster of villages and towns. And that's how cosmic ray... Cosmic ray is that road. And end of that road is not finished, because somebody else is building another little village somewhere down the line, putting the first houses down, that in the future will be a village and a town.

You're one of these villages, which a cluster of them made them a town, which is on that highway, that highway is a cosmic ray. And there's a possibility that from your village, there's a little added roadway into the village into the next cluster, and happen your girlfriend to live in there. You never go down the main road, you go through this back street to see your lover. And then between you and your lover, you start a little house somewhere out, that in the coming century become a village and maybe a town.

So, you still interact in the line of the main roads with all the clusters. But on the side, you still have little things around and you don't need to go on the highway. You know the back passages, and you create a new generation, and in the future a new town and cities. Because you put your house near a water, it should have no one to go too far, they built another house next to you, your great grandchildren want to be with the grandpa or grandma, they don't want to go back to the village, or the town of the father or the mother. So, you start a new cluster.

And it's same with the cosmic rays. But when you started from the capital, there are many roads that go out to different directions, to different towns and villages. (2:24). All these towns and villages in the back, have access to the other ray, which left as one road ??. This is exactly how that center, that capital is the Soul of the Creator. And different roads going out, are the rays which cover and become, what you call, cosmic rays. And they interact, in the interaction of the fields of the little villages you built.

We all have, if you drive from your village into town, and then from your town to the highway, and to the capital. It depends which route you take. And how, what you build your house that it lasts, that another generation can use and grow it. And that is the conduct of your physicality. It's as simple as that.

If the government tries or decides, we build a new highway out of nowhere from the capital out to reach somewhere else, another city, and then what they build ?? we'll see opportunity, and build over time little houses, and villages, and connect to it, and then you've built a new path to a new dimension. That's how cosmic ?? Rays are created, how they end up, how they interact. That's the easiest way for you to understand.

You still have a cousin of a cousin who still lives in the capital, you have a cousin who stayed in town, which was just created, and then (2:26), it's you who moved and created that village, and then your children will be the one, which will build another village that in the future will become another town, another galaxy, another universe, and another cycle of life.

R: Thank you, Mr. Keshe. We're losing a little bit of bandwidth right now, you're starting to break up a bit.

K- Please, this time, don't leave it to the last minute to register for the 20th of January and February …. Hello
R: Yes, We can hear you now.

K- … As I said, try to register for the 20th of January, and don't wait to the last (minute), because once we go through the January session, we see who and how, we announce the February session. Maybe for the January session, we announce one or two specific sessions for the Monday, the following Monday. Try to book in and try to bring as many people as you can. This session of the January, (2:28). it'll be very, very interesting in spreading the part of the technology and for the future programs, which we set up to expand the knowledge.

Try to understand, this time come with no desires. Try to come with no expectations, and try to come with open arms to receive a new knowledge, new understanding. Last time you came with a lot of wishes. This time come to give wishes, to satisfy others wishes, and then see what comes out. We'll see hopefully, we'll go further with this in the future processes, on future programs, as the new systems come into operation.

If there are no other questions, we'll stop.

Q: .. Just wanted to wish Merry Christmas. Happy New Year to you. And this has been an amazing year of growth and understanding. And it's been a journey and beautiful, beautiful journey. I just wanted to thank you for that personally. Thank you. (2:30).

K- Thank you very much. I hope we'll learn more next year and with our systems come into operation early next year, a lot of things will change, a lot will change.

There is something I would like to share with you before we go. As part of our work, and as part of the work of the Keshe Foundation, as we promised you, we'll bring the new structure, and new order for those who still go on the dimension of physicality. This was created some three, four years ago, and was kept. And now as we go to a structure "One Planet, One Nation, One Race and One Organization." This will be the first time ever we go public with this.

Those of you who purchased the Keshe Coin will receive this certificate, electronic. And this will be one of the only ways, that we will interact with the, what we call, public in a dimension of financing and the structure of the, what we call, liquidity, of availability of funds across Keshe Foundation across the planet. (2:32).

This Keshe Coin certificate will be in 2023 issued through a specific structure of the Keshe Foundation, and then through the banking system. A plan for this is on the way, that you can buy certificates, these are all individually, carry a specific code, that cannot be, doesn't have the characteristics of the Bitcoin, that they can steal it from you. And it is interactive inside the Keshe Foundation structure. So, even for attending the sessions and attending what we call, the future sessions, you exchange Keshe Coin certificates for, what we call, for the currency.

This will bring, and it's the beginning of the, what we call, "one world" currency. It does no matter where you are, keeps his value always the same. We will allow you to, what you call, bring everything back into what we have in plan in the coming time. These will be certificates of the more or less, donation, as the certificate of the Keshe Coins.

Many of you have already purchased coins and you put numbers down. All these will be in the coming time sent back to you with a specific combination, security, and connected directly to your, what we call, emails, it cannot be stolen. What has happened with the Bitcoin cannot be repeated. They can hijack your email, but through the system we have, it will be recalled back in, (2:34). which means that the moment they steal your wallet in Bitcoin currency, and you lose all your saving, as many of you has faced with it. They steal your wallet even with safe organizations. This cannot happen.

We have a very beautiful Keshe Foundation Knowledge Seeker who is well versed in it, he will come in hopefully and put more structures around this that they become independent, what we call, financial structure without tying to the banks, but the banks use it to guarantee their own collateral security in the future. We are talking to a couple of European banks, that the Keshe Coins operates, and operates within the banking system. You can go to the bank or through the Apps, you can buy Keshe Coin. It's the sign of security and guarantee of the value that you never lose. And there is no way it can be stolen.

So, what you've been waiting for, for the first time we release this, what we call, the Keshe Coin certificates. It is exchangeable and it has a history track, that is yours, if somebody turns up on you, and you come up to the Foundation, says, my certificate was

stolen. Whatever has been sold of that coin will go to zero. Which means you stay the owner of the certificate, and it's tracked through you only. You can pass it on to your children or whatever you want to do, in exchange for buying something and selling something. Allows you a lot of flexibility, and sometime in the coming months all the people who work for the Keshe Foundation will be paid through the Keshe Coin, and they can exchange it anywhere. And we guarantee it, back it, for the Keshe Foundation researches. (2:36).

Any other question?

Q: .. With the feeding system, if the farming is stopped completely, and so, we had an accident with a solar flare and the satellite systems went out, what would happen then, if we could not feed ourselves?

K- Nothing, you still feed yourselves. Wherever there is a ray, a cosmic ray is the life and you are always connected. There is no possibility of man ever be stranded. Or any life would be stranded in the universe, impossibility. If you can see, if you can visualize it, if you can feel it, you are connected. And if you can't see it, you visualize it, or see it, you most probably don't exist in this dimension. So should be no worries.

Q: Okay, that's one less worry.

K- It is the way it's set up. That's why we asked for so many Satellites. That's why we asked for so many Universal Council supporters.

Q: Do you have enough people now?

K- We don't have enough. We still need around about the numbers we mentioned before. The more we have, the more… (2:38). You've got to realize there is a big, big, big, big understanding which is missing amongst the Knowledge Seekers. When we speak about need for Satellites (Souls), you're looking at the human race numbers. When now we have opened the Universal Community, you're needed for as many as possible to be in connection between the human race, the Earth, Soul, and the Universal Community. It's not you anymore Satellite just for the human race. You understand? There is much, much, much more involved.

The arrangements we made, hopefully we can keep, depends on how things turn out. We are expecting an interface with the Universal Community in the physical dimension in 2023. Which means the knowledge will go far enough, we create an environment enough, to allow those who are amongst us to show themselves. Who they represent, which part of the universe they are ambassador of. We might have some souls which come in to manifest. But those who are amongst us and they know who they are, and they're amongst us here, they will enter the safe zones created for them within the structure of the Enhancement Unit, that they will change to their original fields, and we see the true shape of them. We have already seen this in the Enhancement Units in the center.

Especially I was talking to our people and we have videoed creation of different magnetic field environments in the systems. Now, we see it as a clarity, you see it as a mist, you see as different field strength, (2:40). and when with the new cosmic rays coming in the system, somewhere in January, February, delivered to the Enhancement Center, then we have control of the cosmic rays, then we have the control of manifestation of the physicality. It's a beautiful thing.

Q: With this people that came on the 16th, do you want the same people to try and come in on the 20th of January?

K- If you want to, yes. Because you gradually develop the Soul in that direction. It's like gathering, it's just the new school, you gather more, and then in the future, you teach more.

Q: The interesting thing for the 16th is that prior to the session, I don't know maybe it was my imagination, but I felt a connection. So, I don't know, maybe a lot of my expectation, or anticipation of the 16th just prior to. And I had trouble joining in, but eventually got in. It's always has to be some drama. But I'm wondering, like you said, we probably won't need a mobile phone.

K- In the coming time no, in the coming time, no. We already pre-arranged. You've been a lot in touch with the system, that's one of the reasons. You've been with us a long time in a lot of trials. So, you didn't need the pre-empting like the others, to start, and that's why you're already ready before the session starts. (2:42).

Q: I understand, yeah. Good. Thank you very much.

K- Thank you very much indeed. It's not that, oh, you felt something wrong. You've been through the system many times, so you are already well connected. You didn't need the system, you're automatically switched, you connected. Maybe the reason you had a drama was to tell you, you don't need it, you're already connected, why are you trying to do. You understand?

Q: Yeah. It was a little bit stressful, because I thought I was getting ready and then it wasn't allowing me to come in.

K- The Soul says, oh, you're already in, what are you trying to do, connect 2 times?
Q: Yeah, that's good.
R: Universe doesn't allow cheating and no duplicate entries.

K- With a lot of Knowledge Seekers in different ways, in the background, so Antonio is one of them. So they know the system, they know a lot of things around it. So, they're home.

Any other question?

Q: .. I am retiring from a power plant next year, I hope to work with plasma technology in the future. What can I do to prepare for this?

K- Oh, god. If it is a nuclear power plant you're already in it. (2:44). If it is a standard power generation systems like coal, or gas, or whatever, you know about the power, but you have to change to understand the new structure of working of the systems.

In a future time we connect part of your Soul through teaching to the Soul of the planet in a specific way, that it will create energy and power for your need. This is a beautiful part of the technology, which I already devised a system for it. I don't know, when I was 30 – 35, maybe earlier, and this allows you through your own Aura and your Soul to create enough energy that you don't need to feel cold, you don't need light.

Systems will be delivered, not to be developed, because they're already fully developed, that creates. At the moment when you have light on a street, everything's lit. You'll have a light system developed, that you will understand how it works, that it lights your vision and your senses, and you don't need a streetlights. This is already been discussed in building new space cities. With the new space cities there is no streetlights. (2:46). Through the interaction of the fields of the man with his environment, you create the lights in the direction and dimension which you need.

Go back into some of the talks I explained new spaces cities have no streetlights. Because you will be taught, systems will be introduced that it creates a light in the dimension of the vision, and interaction with the aura. It’s very much like, the light is on Earth during the daytime when you're interacting with the Sun. The back, when it's not needed, it is in the dark. You create a light in the direction of the vision, even in direction of emotion. You feel something happening behind you, you create a field, that understands what it is, what shape. Is it a car, is it a man, what it is, and how to react. This slowly in the future will be taught.

Any other question?

R: Perhaps you can take another question from Leo. (2:48). (Portuguese translation)

K- Before Rafael comes in, there is something I want to explain about one of the meetings coming up in the near future with the sessions, like the January the 20th. We would like those of you who have physically, or personally have seen, been in touch, or been present with any of the religious world leaders, to be in the following three months meetings. If you have met personally, or you've been in presence of Ayatollah Khomeini of Iran. If you have met or been present, personally, with the Pope in Vatican. If you have been present or met any of the two Jewish Rabbis leading the state of Israel. If you have met with any of the religious leaders of the Saudi Arabia heading the Sunni and Shia sect. If you have met any of the 72 Ships of the path of belief of Christ. If you met any of those who lead the Buddhist monks, and the rest, join us. Make sure you're present in next 3 sessions. (2:50). It is your responsibility and obligation.

If you have met with any of the world leaders like President Putin, like Biden, like President Xi of China, make sure you're in the next three teachings of the 20th of January and the others that will be followed. If you have met or been present with the head of United Nations. If you have met and been present with any ambassadors of your nation at United Nations, be present in the next three sessions of the Keshe Foundation in January, February and March. If you've been present with any Kings or Queens, met or been present with them, make sure you're present in the next three meetings. This is the time where we'll end, the end of the kingship. If you've been present, seen and been around any of what we call, elite scientists, be present.

2023 is where we bring the change, and the change has come from the knowledge underneath, and change of the leadership in the level of the Soul. (2:52). If you're Iranian, and you've been and seen the Ayatollah Khomeini of Iran, been present, make sure you join the session. If you've been to Catholic Church and you've seen the Pope, be present in the meeting, next three meetings. And it goes the same down the road.

We do not change, we elevate for them to walk away from their, what I call, positions. If you're members of the National Security's of different countries, and you are here to report to your leaders, ask your leaders clearly to attend the next 3 sessions. You don't need to come through the back doors, sitting in the hiding zones of the Zoom or YouTube, be brave enough to declare yourself in the meeting. You can translate now.

<<< Portuguese speaking Problems in microphone of a KS >>> (2:54).

K- There's something which I would like to clarify. In the session when we set up the structure of what we call, interface with Universal Community we'll invite the members of Universal Council to be present in the meeting. (2:56). We will ask the members of Universal Council in full to be present, as this will be the first interface between the Universal Council and what it will be their future in the structure. This will be one of the most beautiful sessions which will be held.

There'll be the beginning of the massive change for humanity in knowledge, technology, and what I call, hand of friendship. We'll announce this to the Universal Council members and we expect them to keep this confidential. Once it's released to you to attend such a meeting, please do not go to public. Do not allow anyone to know that you're attending such a session. Thank you very much.

Can you get this gentleman online? Or shall we call it a day?

<<< Problems in microphone of a KS >>> (2:58).

K- For the Iranian group, or community, you still can register for all these meetings with the Iranian, what do you call it, organization side, with Youssef and Dr. Bararpour. The system is set up for Iranians who cannot pay outside Iran. We have organized the same thing for Brazil, to be able to pay to Brazil, what you call it, office of the Keshe Foundation. Like last time, we organized through Rafael. The same thing will go to the

Chinese community. Chinese community, you can pay to the Keshe Foundation organization in China to receive the same connections on the day of meeting. As there's a lot of difficulties for people to transfer money out of China with different limits and number of people, you can go to the Keshe Foundation links in with Wang Lin and the Chinese organization of the Keshe Foundation. And they forward you, and your emails, and the date you want to attend. Those of you Chinese who still want to work with the Keshe Foundation head office, you know the path to do it. But for the Iranian and the Brazilians, transferring funds out of the country is difficult. So, you deal with our offices in Tehran, São Paulo (Brasilia) with Rafael.

Any other question or shall we call the day?

If there is no more questions, we wish you a beautiful Christian New Year on Sunday, and hopefully would be a wonderful year for humanity. We'll see what we can do and what we can achieve together as Knowledge Seekers. (3:00).

Q: .. Mr. Keshe, thank you so much for everything you've done in 2022, and all the intentions and everything you've brought forward for each and every soul, for humanity and all the beings present. Mr. Keshe, very quickly, could you summarize, how do you feel 2022 has elevated the soul of mankind and others? How do you feel that it is gone in this calendar period, I know it's a matter state, but how do you sense we have grown, if at all?

K- We achieved a lot. The growth has become, actually the biggest growth, the biggest achievement of the 2022 is awareness of man's power of Soul, within the structure of the man. The realization slowly, slowly by Knowledge Seekers and in the future by the others, we will set the scene fully in 2022 is, respect, honor, and trust in the fields which you call it a dream.

That is, you as part of you is actually, the controller of you, the owner of your life in all dimensions. That has been a difficult time to bring, for man to understand over centuries and thousands of years. Then in 2022, we can openly speak about it, monitor it, show it, (3:02). and awareness of the Soul, existence of the Soul has been the biggest achievement of 2022. Maybe the biggest achievement of human race. Then we can publicly teach it, show it, and make it not to be a taboo, but a reality. Then it opens up new doors.

Q: Thank you, Mr. Keshe. So we're looking forward. Well, we look forward to 2023. Thank you so much for everything you do. I'll keep it short. Thank you, Rick. Thank you, Mr. Keshe for everything you've done. Thank you.

Q: Jalal .. In reality, I have two things. One, it's regarding the protocol that Dr. Bararpour brought out. He used the ratio one to one between Cup 1 and Cup 2. And was it okay?

K- Yes, it's very much perfect, because you've got to bring the balance. Cup 1 and Cup 2 brings the balance in physicality, and with adding of the Magnesium, you bring a

dimension, part of the dimension of the emotion. You have to have a balance, that you can bring the emotional in balance.

We have seen the, what you call it, the situation which is coming up in China. And now we see restrictions back again in China. But the Chinese are not declaring what this new Corona does, because they're baffled by its effect in the psychological and emotional level. (3:04). They have downgraded it from a disease, or what you call it, a virus and epidemic, to infection. Because it shows a small cold, but has a massive psychological pattern behind it afterwards. This is what is baffled the Chinese at the moment.

As you heard this week, a number of nations are putting the restriction back on the Chinese passengers. But even they don't know what they're looking for. Most of them does not show much sign of Covid, one in ten does. But the psychological effect of it is devastating.

In the next year numbers, we have to look in, number of suicides, number of what we call, homicides in the Chinese data. We will understand for the first time effect of viruses on emotion.

Magnesium is part of it, you cannot bring anything else, because within the Cup 1 and 2 you have everything you need. What is missing is a structure of the strengthening of the emotion with this virus, and you need Magnesium, and Cup 1 and Cup 2 have to be in balance, to bring that condition. (3:06).

Q: It's only the Cup 2, it's very hard really to produce such amount of Gans's.

K- You need very little Gans's.

Q: But the ratio is one to one.

K- One to one, yes. Whatever you produce in Cup 2, produce the same of Cup 1. The new Tabletop Units coming out of Iran, the automatic system. You use those to create the right combination of everything you need. It has the, what you call it, it has a structure to give you the right mixture, it depends how you put in each box. When you look at the, I don't know if Rick can bring it up. The new Tabletop Units, which is launched by Iran, the first batches will be delivered in next couple of weeks to us, for final completion. Rick, can you get it? It is on the website.

If you look at it, you create the right combination strengths, and everything else within the system. You don't need to decide. The beauty with this new system they have put on, is the, if you look at it, you have a number of containers, six of them. You can ratio in each one what you want to produce. You can produce CO2 in one, Magnesium in the other one, and Cup 2 in the other one. (3:08). If you take the right ratio, you produce the Gans's for the right way, the right amount for what you need.

They are expecting… Yesterday a report from China has shown us, 2% of the population in one district have got the new Corona, it's not huge. The area covers 92 million people, one district, and 2 million plus have been infected in one day. Expected to 90% of the population within certain time will be infected by this. That's 2% of population in one day, have tested positive, considered to be positive, whatever. So, if you take every day, some of these are repetitive, but increases, but within a period of time, the estimate about 90% of the districts will have been affected by Corona. So, 80% of them walk away, 10% which is 10 million, about 9 million people are expected to come with mental diseases, suicidal, and the rest of it, as they are reporting.

This comes in a very, this time this Corona, it comes as a normal cold, absolutely normal cold. Especially if you had the vaccinations, somehow, it feels like you just had a sniff of a cold, and two days later the depression, suicidal thoughts, and the rest comes in. (3:10).

You need this system to be run more or less 24 hours a day, to support yourself with it. It takes two or three months this time to get rid of this, what you call it, side effects of the Corona, which is a mental depression and what they are reporting.

Most of the European and American test does not show this, because it just shows us like influenza, small cold. This is going to trigger a massive release in the rest of the world by mid-February, or so. A lot of people will become suicidal. We saw this first with couple of our Knowledge Seekers last year. So we had a good run with it, we understood it, because we were expecting it. Even with all our expertise, our Knowledge Seekers suffered for a couple of months, two or three months.

It's not that you take Cup 1 and you do it, it needs a production. This, what you call it, Tabletop, if you have it, if you, what you call it, have purchased it, just keep on running it. Don't stop and allow continuous production, and continuous usage. People around, if one gets in family it's like a wind, it flies through the whole, what you call it, neighborhood, as they call it.

You mix. The system allows you to mix it the right way, and just give it freely to people. They keep it, they use it. They just need to use the water of it. It's what we were expecting, the increase of the energy of the virus to a higher level. (3:12). This goes, at the beginning was the physical. When we saw the Corona, beginning of it, especially if you remember the sessions we ran in Iran, and we saw in China. We saw it effecting the lung. It was 100% sure, the next generation of these strengths sooner or later will come to brain, because the skin of the man, the lung, and all that connects to the brain. It was just a matter of time when it matures to that point. And now it has reached it.

Interesting here for us is, we monitor now how many people had the original Corona, the second time, but soft cold, and the suicidal, and the depression, which now is getting reported connected to this new cycle.

What would be the next level, it'll be very, very interesting. How will it gathers strength to become one. Or would it come between, the intermediary between the STM and STP as an emotion in different dimension, creates new emotions that we do not know.

This Tabletop version of the Gans's production by the Iranian team, has just come in the right time. It's not a short term. You can't get rid of it by 2 or 3. We have one of our Knowledge Seekers, a few, couple of weeks ago. She just got a weak of a cold, and the only question I asked, as I said before is, did you get a cold? She said, yes, I just had a small, just a flu, that's it. That's how it shows itself, and then depression, and, what you call, suicidal thoughts. (3:14). No energy, exhaustion. This is part of this, it's all emotional this Covid.

Yes it says CO2, because we had to put it that way. If you tap on the side arrow of the structure, it gives you option, you can order different plates. Somebody puts in the chat, It says, the Tabletop says it's just CO2 production. We released as CO2 production, but when you go into the shop you press the tab, on the side, I was told everybody knows, maybe you're like me. Then it gives you options on the plates. What do you want to produce. You can buy plates for CO2, you can buy plates for Zinc production, you can buy plates for CH3, then there's a Magnesium side, which comes with it. You just add to the structure.

But it says, you won't get rid of it for days. We've seen it three months, six months, till it, actually, gradually you can take it out. But the Chinese side, or people who are infected by it, they don't have the facility through this structure of the production of the Gans's, and they suffer mental condition, maybe for life. We have not seen the end to it. This is an option open to the Chinese government, they have to take it up.

Any other question?

Q: Thank you very much. Sorry, Rick. I just would like to wish all of you and especially your Mr. Keshe, a very beautiful, and healthy and wealthy New Year. Thank you very much.

K- Thank you very much all of you for all the work, hard work, which has gone in the past year and years. And we'll see what comes next year, and how are we going our 10th year of serving humanity. Thank you very much for all your work, and everybody else.

R: Well, thank you for me as well, Mr. Keshe. It's been a wonderful year. I really think 2023 will be the biggest year yet for the Keshe Foundation and for all of your teachings. So, we look forward to it. Thank you.

K- Thank you very much. See you in the New Year. Hopefully, still sober. Thank you very much. See you next time.

465 KSW December 29, 2022

466th Knowledge Seekers Workshop; January 5, 2023

(Transcription, Proofing done)
(Auto transcription by Elias)

Teachings focus on how to live in space; Have to transmute whole package and protect it from outside fields; MG fields of planets stars effect us; Mitra gifted knowledge to jump over UFO - UC come to Man to learn; New CPCU units CR plasma units - feed - travel - everything - connect directly to Linz no phones; 2023 year of Change; New Books to come out; During sleep absorb CR; Electricity is plasma lower strength; How to use Butterflies - feed; Monthly sessions to elevate leaders; Meaning of "Non-judgmental" hidden teaching; Soul of Prophet and STM merge.

ENGLISH TRANSCRIPTION

(:16).

K- Yes, good morning, good day to you. As usual, wherever and whenever you listen to this series of Knowledge Seekers of the Keshe Foundation Spaceship Institute. We welcome you back. A New Year to those of you who believe in the path of Christ. And I know some of you will celebrate the Christmas tomorrow or the Epiphany. (:18). And some of you have already celebrated the Christmas, and some of you know Christmas by name, as you believe in a different path of believing in your Creator, and whatever way you believe to live.

This week's and this year's teaching it will come in a new way. In a way, that we work through different direction and dimension (D). In a way, that we bring and we start the teaching and working in the dimension of what will happen to us, how we live in the space. We tried, prior to Christmas, in moving individuals from different parts of the world to Linz, in the dimension of the strength of the Soul, or emotion or, and physically. We have, in a way, understood and understand, and perfecting the art. And by the end of this month, or early next month, the new systems will com into operation, which allows us to do the completion of transmutation, the completion of the time, the completion to be able to bring people in, and bring them not only as a matter of state. This is something, which in the world of science today they're trying to move, or transmute an element, be it an atom, be it an electron. But what they don't consider, that these elements in combination of working together as an entity, have emotions, have feelings, which you cannot contain by transmutation of the fields of the man.

For man to be able to become a passenger of the universe (U), (:20). for man to be able to travel the expanse of this planet, or the Solar System, he has to be able to deliver the

full package, which means the body, the emotion, and the Soul in the same condition as you left it behind from one place, to go to another. We can move an atom, so be it. But what happened when it becomes the molecules, and what happens to the interaction of the fields of them, which keeps them together as a molevule?

What happens when you move a man, and then you have to have him to move, in a D of the emotion and the Soul. What's going to happen then? We have shown in the trials with specially cases of coma and others, that we have the capability, and understanding of moving the emotion, and the memory, and the Soul, does not matter which part of it is, or has been left behind or damaged.

The technology, the space technology of today, considering a plasma, considering magnetic (M) fields of the universe, and the body of the man as a universe, becomes fundamental in the structure of the future space technology. It becomes paramount into the structure of the flight, in the structure of the life in space technology. And we have to understand how we, as total, as a whole, will travel the span of the universe. When we move a man from New York, to Linz, we can't just bring his body, (:22). we have to bring the information, which he carries us memories, who he is, how he feels. We have to bring with him, the Soul, that when he arrives here, we have a total man.

In the experimental sections of the Keshe Foundation in Linz, we saw how we can transfer the Soul of the Man (STM). The physicality (P) of the man was left behind. You travel to, you go to. So the new technology, the new understanding of the Space Technology is, how we as people will move forward. We go to. We understand by. We complete the cycle of. And then there on, we understand when we arrive we have a total man.

Then it comes as we have seen in the history of the man, what happened with what we call, the passengers, when you're in the space? What happens with you on traveling from Earth to Moon, with the interaction of the fields of the Solar System? We are not immune to it. It's an envelope in the wind of the universe. It's an envelope of your Soul, in a condition of traveling in the fields, which part of the strength is the strength of the body of the Man. What would happen then? What would we do when we see, we feel, we understand that, even in traveling to space, (:24). even traveling the Soul of the Man in the space, what happens to him once he, in the dimension of travel, comes in touch with a stronger fields, weaker fields, which can interact with him?

What happens when you arrive on the Moon and you have been, you added to, your Soul, in the dimension of its travel, other fields. Would you end up with another virus? Would the body of the man when it comes there, will come in a new dimension? What will be our reaction? How would our DNA will change, to respond to the travel? How would we, as a total, as a collection of the fields, appear? Would we appear as we've seen with another things like Corona. We added some things, we didn't know what it is, that becomes another burden for us in our travel?

What is the next position? How can we protect Man? Do we need to create a condition that the envelope, the STM is protected from any interference on the way? The deeper we go in towards the center of the galaxy, the stronger these fields come, which are, and could be at the strength of the Soul in certain dimensions. What will happen to them? What would we see? And how would we see this position? Would the mankind be in a position to be able to manifest itself in that dimension? We need to become more aware of the Totality. We need to become more of what has been, what has been brought, and what it will be bringing to us. And the new space technology systems has to have the ability to create that condition of protection.

In a way, when we send an envelope from Linz to New York, it does not matter if it's stormy weather, if it's shiny weather, if the truck is new or old, or the aircraft is damaged or perfect, the letter still arrives at the destination. And it's the job of the structure of the new technology to create that safety.

Up to now we spoke about transmutation of the body, transmutation of the Soul. But now we need to understand. We need to work to understand, that there has to be an extra package, a Cosmic Ray (CR) package, which allows the body of the man, the STM to travel safe across the span of the universe.

This brings us to a new understanding, this brings us and pushes us to further evaluate what we have developed, what is going to be the next step. What is the understanding of this? What is the essence of the existence? And by just carrying the Soul as a shell, would we carry the nuts inside the shell, which is the physicality of the man. And we need to understand this further and further.

Maybe in the future, (:28) we open this knowledge further. Maybe in the future, we will come to understand this more, as we start tackling different dimensions and directions. We have seen this effect of the space energies, or viruses on the body of the Man. We saw it two or three years ago as Covid. First it effected our lungs, that he moved as he strengthened more different organs. And now we see a new version, which is a strengthen more. And now it tackles our emotion. We hear from many people Knowledge Seekers (KS) and the outside, that they are suffering from depression, they are suffering from suicidal thoughts, and are suffering from everything else with a small cold.

Because now the situation is not Covid. Now it has become an infection. Now it has become just natural cold, that most of us will tackle the virus before. Now it goes to the next strength. Would we travel the man into space, and then we find him suicidal. We find him depressed on this, in this space by interacting new fields. Maybe by the fields of his own body that have begun to go through the transition from one position to another. And this has created the condition.

We should not think that the space travel, which we enter this year on, is going to be a "hunky dory," and a solution to everything we've been looking for. To escape from this planet, or to be able to escape from one position to another. In fact, this is much, much further in understanding of the true space travel.

We need to understand, we need to develop technologies, we need to develop systems, (:30). that protects the traveler of the energy of the man across the universe. In the future, man will become much wiser to these kinds of travels. Man will become much, much what we call, uniquely adopt itself to be able to travel the span of the universe in the appropriate way. But the Knowledge Seekers of today, the scientist of the Keshe Foundation and the future scientists have to understand, that man needs to understand that the problem is not solved by just traveling.

Man will not achieve much if he gets the knowledge of how to have a UFO. There are more and more complicated, complex conditions in the space travel, than just trying to go from one to another. It's as (when) we created the jet plane, we had to create a compression inside, we had to create a new ways to extend what we call, oxygen levels in that the people can have a normal flight. We had to add so many safeties, safety parameters into the structure. So it'll be in the same in this space travels that are coming up.

We have to see if the energy transfer of the arm, the leg, the body, the brain, the emotion, all have, and kept intact in the dimension and position of travel. And by how much, and how, and which way, and in which direction. And in which position, we need to come to understand that, (:32). the position of the understanding and doing things. How we can extend the life. How we can extend the living entities. How we can move to the next level of understanding of the Totality.

Maybe in the future, maybe in a time to come, man will be in a way knowledgeable to go to the next level. How would be, man be able to deliver the knowledge, and how man will work to be in the condition of what they call, manifestation. And we have to see, how we will change these things. How much we understand, that we can bring that change. And would the man in the coming time deliver such a knowledge and technology, as one package, and not as what we call, pieces and parts.

When we start the space travels, we have to see how does everything, which we do, will bring the man to be delivered as one entity, at the end of the process. Be it the travel from A to Z, be it the travel in the dimension of the Soul, be it the travel in the dimension of the space travel, (:34). from Earth to any other position. These are the systems and technologies, which now we find ourselves, need to develop, need to understand, and endeavor to extend this, that we can deliver these technologies. But then it comes what would be an easier way for us to be able to understand these. What does effect us? What do we. What have we seen on the planet Earth, that we now understand it works on the system, which we will travel with?

In a present science of cosmology and astronomy. We look at the position of the stars. We look at the position of the planetary system in our Solar System. We look at the position of the moons in respect, at the position of the planet, in a given position in the Solar System. These are all plasmatic magnetic fields. These all will effect us. We have moons, and conditions and emotions in respect to the summer winter, spring or autumn,

cold and warmth, sunshine and cloudy. Because they create different field strength to be absorbed by our body. But what happens now, now we become the passenger of universe, understand the interaction of the fields, what will the position of the stars have on our emotion.

Now, on Earth, we talk about Mars, and another planet, and another planet are in line, or in opposite direction. (:36). What fields do they create, and how these fields interacts with us with the fields of our emotion? Does the position of planetary system. Does the position of the stars in different parts of the galaxy as we move over the lifetime, effects us, effects our emotion, effects or physicality? Do we behave every time when the Mars in opposite position than Jupiter? What happens when our Moon is in a different position, in the same position as them. What happens when their moons are in a different position, when they arrive in the same position as the past time?

All these magnetic fields, all these effects us. All these brings changes and in the space technology of tomorrow, we have to be able to consider this. We have to be knowledgeable to this. We have to understand, that all these brings us effects, brings us results, brings us a lot of other things, which we never considered before. This will bring us germs and diseases. This brings us all sorts of things, that we never considered.

The package of the space travel of tomorrow is totally different, than the package of the space travel of today. Now, we are worried about the wind storms. Now, in the space travel we have to become aware of the gravitational magnetic (GM) fields of the entities plasma, plasmatic, and every other angle. We have jumped over one level of technology, (:38). which is what man wanted to do. We called it the space technology like UFOs. We were happy to understand how they travel in dimension of physical, and build objects doesn't matter how big. We build it in the middle of space, the UFO is the size of the Earth, and the rest of it. We have jumped over that space, building such a thing, and we go to one level higher.

So that our problems, the structure of our understanding, which is missing in the knowledge of the man to be able to travel in this new dimension and knowledge. We know how to make airtight aircrafts. We know how to make UFOs which can work against the gravity, and be attracted or repelled. We gained knowledge. We have the knowledge and in the communication and interaction with the Universal Community, we'll become knowledgeable, more about their doing. Then what happens? That knowledge is not the knowledge, which man has gained now through the plasma technology of the next step above it.

How much research and how much understanding do we need to have to bridge this gap? A leap in technology. Understanding of the technology. And how do we jump this? This is the job, which we will have in the coming time, in the coming weeks. Next week, (:40). we will start the first transmutation in a complete process. As we said, by January we'll do. We have the backup and technology to start.

We start taking records of the people who we are going to transmute, in how they are today. In every organ, and every part, that when it comes to the transmutation, we see how it is. We start psychologically and physically preparing those who we have set up, to become the first what we call, Mobile Transportation.

What would we see? We have brought their Souls in. They have been with us. They know and they've seen and they've tested. What would happen now that we start transmuting physicality? Would we get them here depressed. Would we get them happy? Would we carry the whole package? This is very much understanding of the new technology with advantage, that we know most of it. At least some of us have access to be able to complete it. That in the timing, in the coming time we can teach.

In understanding this. In being able to deliver such a technology, many things of the present time overnight, becomes obsolete. Many things overnight, will become out of date. Things like your financial structure, things like the political structure, things like what we call communication lines.

In the next few weeks, Keshe Foundation will deliver new what we call, like a headset to you all. (:42). Where you do not need the mobile phones anymore. Where you do not need the handsets anymore. You don't need the headphones anymore. The new systems, which we'll deliver. By using it, you directly connect to all the facility of knowledge of the Keshe Foundation at the time. We are the only people who can switch it on and switch it off. We tell you on Tuesday nine o'clock in the morning is a breakfast time. You put your unit, your headphone like what we call, the "Plasmatic Phones," and you connect to the Center.

This time is the "education time," within seconds you start learning languages. In the next few weeks when we release this, these are the first stage preliminary systems of the new space era. We do not need satellites. The time of satellites and mobile phones the way we know it, which will come used to it, for the past 30 - 40 years, will become the way we used to use the hand phones, and the landlines.

The new technology, the new understanding, which is delivered by Keshe Foundation in the coming weeks will bring a new change. 2023 is the year of the change, where the man, from "man of Earth," becomes "man of Space." Because these units and the more complicated the structure of these units, will become what you will carry with you in the space. You carry. You go to a desert, you don't look if there is a connection, if there is a satellite, is there is a mobile connection. You're connected all the time.

We have offered this technology to NASA, (:44). and other space agencies in the past two or three weeks. They have problem in the space station at this moment in time. We can in the next excursion, deliver such a technology without them even taking food with them. You will see this time, on the 16th when we did the trials, you only had, you only felt in what you were directed to feel. In the trial of December, of January 20th, you will bring a new dimension in.

Hopefully by February, a number of you will be equipped with the new Plasmatic Units what we call, "Soul Connection Units," that you will be connected directly to them. These units will allow you to be able to be in touch with the Keshe Foundation research center in the knowledge, in food, and everything else that you might need. And then we test, and then we'll see. You would like to have a "Fish and Chips." Today's menu is fish and chips. You like to have a steak and kidney, the menu will be a steak and kidney. If you're a Chinese you like roast duck Peking way, or another way, all will be there. As we develop this technology, the need, the use, the what we call, connection with Universal Fields will become part of the whole structure.

When I explained to you hold on to your black disks you bought, (:46). you have, it will be a new dimension, in the coming time soon, you'll understand how and why. So, this year, we start a new revolution in science and technology, in the space technology of the man. We tested these systems, we know these systems, how it has to be brought out. Very soon Apple will be something you used to have. Very soon launching of the satellite is something, which man did, and it's not any more theory.

You have access, you don't need a Google, you have access to knowledge of the universe, the minute you think, how would life be on Mars if I was there? Is there life there? Is anyone living on Jupiter or Saturn? Can we feel their emotion? Can we understand them? Does our knowledge goes to that extent? At this moment of time, to you it's far-fetched, but with the systems we have developed and it will be released in the coming year, you will understand how man has jumped the space gap of knowledge. Where we don't even consider UFO's as something we want to contemplate on.

It's very much the situation of today, Africans have the most advanced communication systems, where the Americans are still suffering with it. Because they still laid the cables and they have not made the money for the investment they did. So they're holding the nation back to develop fast. But Africans haven't done such a gap investment, they jumped in technology. (:48). Now it's the same with the man, man will jump the technology.

And structures like Keshe Foundation, our research centers, and many other scientists will understand this and will bring that job fast. 2023 is the year of Plasma Technology. 2023 is the year of new Space Technology, and 160 of you without knowing, or by knowing participated to confirm many things in that structure. The test of 16th and 19th of December was confirmation of a lot of things, which needed to be crossed - "yes, engine works, yes, fuel is correctly, yes, the emotion is in it, yes, the passengers are on board. We have problems there we have to fix, we did not see this, we have to fix."

But the whole structure was to make one man out of humanity, and you saw it when you came in touch with the Soul of your Creator, physically registered. So, we come to the next level. So, we come to understand what is to come. So, we will deliver the totality of understanding of the technology in 2023.

Last week we closed the session for 2022. This week we start a new life for human race in the space. And you as Knowledge Seekers, and many will come to be part of it, and we do not connect ourselves to the other space agencies to be part of. We expand the knowledge, that they become part of the Keshe Foundation work. (:50). We deliver first, we show first. And we explain this from the religious leaders, to governmental leaders, to world leaders, to common on man, that all have access to everything.

Today, after teaching of the day, after we close this session, I have a meeting with some of the most powerful religious people in the world, to explain the change, which is to come, and how they will take it to their people. By close of today, by the end of the day, a new light will shine in the understanding of technology by one of the most strongest religious groups on this planet. They want to know. They made the call. We have to bring the knowledge, and with it we have to bring the knowledge of understanding.

In so many ways, in the coming weeks and months, you will see new technologies, new equipments, things which does not make sense, did not make sense 12 months ago, but now it's an essential part. When we announce the release of the new communication systems. When we'll release these in the coming days and weeks, you will understand that. How advanced the technology has become, how much we need to understand the change in science and technology. How much we have to go to the next step of understanding. (:52).

In that process, we go to the next step of technology development. What we call, the "Remote Cosmic Ray Plasma Communication Units," will be the new way to communicate. Systems which work on the cosmic ray levels of the plasma, where we create a new protection. In a way today you call it, "encryption." Now, it don't need to be encrypted, but you create a condition, that your knowledge, your Soul, your emotion cannot be interfered with. These needs new technologies, development of understanding of new technologies, and what we call, CPC units, which will come into operation and you will have access to it within the next few weeks, will give you that chance.

You will learn to live a two dimension of life, your mobile phones with your calls, to whatever, and use of the new CPCU's, which brings you, the cosmic ray plasma communication units, will bring you the what we call, transition time to get used to the new technology, understanding of the new knowledge. In a way trying to bring everything together.

In what would like to know, I'd like to know about how to make roast duck, the Peking way, or another way. Do I need to go to Wikipedia, or through the connection of another Chinese Knowledge Seekers who carry one of these units, I learn the knowledge, as his mind, as it's shared with me freely by him. (:54). Then you understand the change to come.

This is why we asked for Satellite (Soul) people. This is why we asked as many nations as possible, cultures as possible, to go through the Linz Center. If you remember we asked you as from all cultures, the Chinese, the black, the white, the Americans, the

Iranians, all to come in. Because we needed that transitional control. Now with the new CPCU's, which is literally like a headphone you're used to, but these are cosmic ray system communications. You will be able to tap into the knowledge of the universe, as you wish.

But we will at the beginning, at the start, control how the system goes, how it's distributed, how we can collect, test, see and monitor on our Center how people are using it. Now, you were fashionable if you had an Apple Pod in your ear, walking down the street. In a coming time people on the street will avoid you, this guy is carrying one of these CPCU's, and he's reading our mind, he's connected to our Soul, knows what we think about him. Now we see people talking to themselves with iPads in their phone, we think they're crazy, till we see the little white things in their ear.

When you carry the new CPCU's, what's going to happen, they say, god, we better don't think wrong, the guy sees our Souls, understand what we are doing, and he is present with us, within us. (:56). Don't be surprised if you walk down the street and see a beautiful girl, and you got your headphone on, and then she has one on, and then you wish, oh she's so beautiful, I could give her a cuddle. She walks to you and gives you a cuddle, because now the emotion is ?? carriable, it's not the information in words.

The first use of the CPCU's will be distributed, it will be put on by Keshe Foundation in the next few weeks. Many companies will try to copy it, they brought the new names of "quantum," whatever Keshe Foundation has put in. Now they changed the plasma to a "quantum," and a bunch of lies and cheats. We have seen from "Med Beds," to now, since two weeks ago, three weeks, since we started using the headphones, now, what do they call it, "quantum headphones," "quantum phones."

You want to end up with a disease, you're quite welcome. These are the Knowledge Seekers who we taught and they thought, now they can go and cheat with it.

The new systems will bring in, with the new systems we put out, will show the diversion and dimension. You don't need a "Med Bed," which is cheat by those who we taught, now they thought they broke up, when you can deal with the STM, when you deal with the physicality of the Man, in the brain of the man. As I said to them, this is a "mental" bed, not a medical bed.

You have to understand that the new space technology, the new way to travel the span of the universe by man will come through his understanding of the Totality of the structure of the man, (:58). from the Soul to the seat, which the Soul can be both, the seat of the STM, and the seat of the physicality of the man, and both are connected and interconnected.

The new structure, the new technology, which we'll release in 2023 will bring many changes. Will bring things forth, that man could not even imagine, very much. We saw the mobile phones in Star Trek and others, decades ago, and now it's the reality. The "Beam me up Scotty" is not there, because Scotty wasn't beamed. Now, in real life, we

transmute the totality of the emotion and the physicality of the man, and by the wish of the man, will appear at the point of manifestation.

In the test we did in the 16th and 19th brought us a lot of confirmation of the new technologies, which is used and can be used. Creation of environment of others being able to live, which are not from this planet, we have seen it in Linz Center. We have videoed the confirmation of the plasma within the system, which is not, what we call, the normal atmosphere. If it wasn't because of the restriction on showing the technology open, we would have released these videos. (1:00).

Where you enter, we told you come to a new dimension, new light, new structure, this is what you will see, and what you get. The environment you create when you land, is a new fish tank. If you think of it, the flight unit in Linz, which you came, is a fish tank. A fish tank for the Soul of the Physicality (STP) of the man. Now, with what we have developed, and what is to be developed, and what is to come out, this fish tank will extend beyond what we call, Linz.

The interaction of the new space technology needs a lot of openness, and understanding, and knowing that, us as a human race, have entered what we call, the Universal Community, not as "underdogs," but as leaders, but as a group who understand it. And this has to be obeyed by the leaders of the Earth, it does not matter, religion, political or whatever. That they will understand, that they come to understand, that the change is so fundamental, that in the coming time, do we accept leaders? Do we accept kings, when we see the Soul of the King to be the same as the STM?

Then this brings us to a new dimension, then this brings us to a new direction of what we call, working, judging ourselves, working with the others to be correct in understanding of the Totality. The new systems will allow us to be able to live in a dimension, (1:02). which we never could imagine.

We could never understand, that the man's knowledge can leap so fast from, wishing to be able to develop a UFO, to be those who the passengers of the UFO, wish to be. The leap of knowledge and technology in matter of months, whereas the others has taken millions of years, has completed the cycle of the knowledge of the man. This is what we promised when we started.

In the next few weeks, as we start with the development and distribution of the universal Cosmic Ray systems, then you will come to understand how fast the technology has moved. How fast man has become knowledgeable in the knowledge of the space. And how much, in a very soft, but very intellectual and correct way, we have guided man to become the passenger of universe, equal to the knowledge of the Creator ,and not as a passenger of UFO.

Then you will understand why we tested you on the (16th), to become, to wish, to be in touch with your Creator, to show that every man has the capability of receiving the Totality of the knowledge, that every man is matured to reach the level of understanding

of the Prophets of the past, and the Creator, and the Creation, as he is part of that process. He is not an outcast, he is not somebody on the wings of galaxy, that happened to be in a part of one of the universes. (1:04). Man has joined the Universal Community as a leader of understanding with the emotion of love, which is given, and it's the attribute of the Creator.

Now you understand how on the 16th of December, 2022, you all took a jump and what I call, a leap in the faith of the man to become a member of Universal Community, and in a way, a member of Unicose. Because when you join the dimension of the strength of the Soul of the Creator, you have to pass, you have to jump the dimension of the strength of fields of the Unicose, the Creation of the Creator.

In the coming weeks many of you will thank your Creator to be born at this age, and be present at this time, that you could be part of, and be one of those as the what I call, the created creation of the Creator. To be, to feel, to be part of. Do you need to have an intermediary, when the intermediary is you, between you and your Creator? Do you need a satellite, when you yourself are the Satellite? Then you understand the process we set up. How those who don't understand, until we develop the complete process of understanding, they become those who will become what we call, Transmutation Satellite System. (1:06). They don't put anything up with their own, but they become facilitator for others to receive, to be part of, and how to change.

I wonder, as I wrote to one of our Knowledge Seekers, and I'm sure she will listen and hear, and maybe she's in the background, in one of the ?? times, she always claimed that "globalist will take over the world, and then they control everything." As I wrote to her, and I'm sure she's listening, we are not globalist. We are not here to take over the world. We are universalists, which means we work through the universe, beyond and what you as globalists are worried about, we already have no connection with ?? much above you. Like those of you working with a donkey, and you think you've got the Rolls Royce and the jumbo jet.

Man can dream, but the reality is that the situation, the knowledge of the man has "frog leaped," the knowledge of the rest of the Universal Community. And this has been the gift from Mitra, and this has been, as she loved the Creator, brought him to the Earth to understand the essence of the love, which is the giving, and what it she brought the gift of the "love of the Creator." Soon many of you will understand. Then you will understand what and how man was gifted, and is gifted with one of the most precious, (the) Knowledge ?? of Creation in the universe.

You were happy with the UFOs, you were happy that you partook in the 16th event. In the coming weeks, you'll be happy that you can choose the point, the destination, and everything to do with your existence. (1:08). We provide the facilities through the Keshe Foundation Centers. As we develop further more new technologies, for man to be able to travel the span of universe.

Maybe in the coming time, many of you will come to understand how much was missed by man in the past thousands of years, if he would have paid a small attention to what was in front of him, and how those who did not understand but could feel it, abused the man, in every knowledge and every history.

I hope many of you as Knowledge Seekers, by the end of this year have made many, many journeys across this planet and across this universe. We'll have some of you with us in the coming months and years telling us of your excursions. We'll have you with us in your testimonial of your Souls in how you felt, how you feel, what you've seen, where you've been. And gradually in the coming years, we all get used to seeing the beauty of the Creation across universe.

2023 is an opening of the space, of the universe for man. Not hoping that you'll be on the Moon in three days, and maybe in seven months on Saturn with some "clicking, clanking" systems up and down the rocks. If you still like to be on a bicycle, you're quite welcome. We still get people who peddle bicycles from China to New York, and they go from China to London. (1:10). But we have those who get on jumbo jets, and get on rockets and do it in one and a half hours. The pleasure is the man to choose. But the knowledge is there for man to choose to become the passenger of the universe.

Would, in the process of what we call, these excursions, you will solve the problems of your cancer, the problems of your depression, the problems of your whatever? Or would you end up with a new depression, and a new type of cancer, which call it, that has no solution, but lives amongst itself as part of the beauty of your existence. As I said, many billions of lives will change because of this, not only the humans, not only the animals, but the other passengers of the Universe.

We were waiting for those who jump the clouds with their UFOs, one day they teach us how. The "man of universe" will come to Earth to learn how to reach to the level to be able to what all of you who were present on the 16th excursion, to be in touch with the Soul of their Creator. None of you had understood the gift you received on the 16th while you were present. Many of you have gone through emotional conditions, handling it. Many of you have gone through physical condition, handling what the Soul wants to bring the physicality to perfection. (1:12).

Many of you will talk, that I was present when it took place, how I felt, and you will tell your children and grandchildren the effects and the outcome of the 16th of December, 2022. Then you understand 2023 is the opening of the Universal Community to man, as much as man to Universal Community. Where they welcome us to them, as they will need, they'll understand and they'll respect the knowledge man has gained to meet with his Creator without actually getting on a UFO to go to the center of the Earth, and getting into UFO's to get into the center of the universe. Where through magnetic fields of the universe, we can travel the depth of the Unicose, and to the Creator of the Creation.

But we'll experience these things in the coming time and weeks. We endeavor to do the first transmutation next week. We have prepared our passengers who are going to do it,

and they are getting ready for that step. The first step of transmutation, and then we'll see which part of them will come with them. We bring their Soul, we bring their physicality, we bring a combination of both. And we'll see how this will take shape.

Then when the new systems are delivered to us by the end of this month, and next, we go again on a mass excursion with number of you, at the same time traveling the span of the universe. Most of the February and March tests we'll do with you, is for those of you who signed in for Mobile transmutation. Then with the support of those of you who signed in to be the Satellites. And then we'll see what's the next step. (1:14).

Then you understand, we have to push this very rapidly right across, as fast as we can, to complete the technology for mankind to see the first steps of the change, and the rest will come. Those of you who signed for what the call, Mobile Transmutation, be ready for your excursions in March, and in February. Those of you who signed up for what we call, Satellites, be ready to be called on duty, to be there to bring that change, while those who are with us in what we call, system will be ready to use the new systems to transmute, where your Soul comes into operation.

We don't need you for what we call, manmade mobile system headsets. With the CPCU's, we understand, with the CPCU's you deliver what is needed in the Plasmatic magnetic fields.

As one of our Knowledge Seekers wrote to me, in the past couple of days, you spoke about the energy of the Gans on the page 145, of the book number 3 ten years ago. Now we understand, now we understand what is there. What we tell you is written in the 3 books. Now, we make it to become reality. Whatever we do is written in the two patents. Now, you see it to become reality. (1:16).

The next step for us in the coming weeks is for those of you who signed in for Mobile Transmutation, to start to get ready to travel to Linz, to travel from one place to another, and to be able to return back. We should be ready by mid-February to deliver complete. But the first trials of transmutation will start next week. And we see to what extent this transmutation will bring the changes.

Those of you who volunteered to build the first centers in Canada, Arizona and other places, you will receive the support to become the center for what we call, Transmutation Centers. We'll change the condition and the technology, that it fits those who trusted us, to be the centers for what we call, the new generation of space technology.

I hope, I hope that man will have the patience, the beauty and the elegance to enjoy the new cycle of knowledge and technology. Plasma revolution in industrial scale is upon us this year. And we'll deliver every inch of it step by step. Everything has been made, the Souls are ready. As we said, the technology has been made ready for it to start.

We learned a lot, we teach each other a lot, (1:18). and we'll share a lot, and with it, we'll bring that change which is needed. I hope those of you who work with us, will start

enjoying the fruits of your work, and achievement of what's been promised. Those of you who are sitting on the sideline, wish, I would have taken part in it, that I could be part of it. But, at the end of it, we'll all be part of it. When the technology on this scale are shared, will be shared by the whole of the humanity.

How we solved the position and condition, how we'll end up with pharmaceuticals not to be needed. The petrochemicals will be dinosaurs structures left in deserts and cities which man day used to burn the fuel. And we'll leave these highways to be wasted places, and the buildings we lived in will have no meaning, as we structure new structures through interaction of the plasmatic fields, that has no dimension of size, except to the size of the wish of the man.

Changes will come in a very gradual steps, but be ready to see the change thorugh. This morning, early hours of morning, from one of those who will be the first passengers of the, what we call, transmutation, next week, I wrote, "I want to know the condition of every part of you, the liver, the head, the leg, the arm, the kidney, the emotion, everything, that I do a checklist before the flight of next week. (1:20). What I need to do, what I need to change.

We are ready to take that step, and we are ready to go into the depth of the Universe. We have the knowledge, we have developed the technology for the man to understand the knowledge. And with the introduction of the plasmatic magnetic fields in the form of Gans's, we showed you the way. For man to understand the upcoming time, and the understanding of what is to come.

You will see, new papers will be released in the coming weeks, that opens a new science and technology into space, the new Space Technology, and how the body and the STM will be conditioned, affected, and live through it. The paper called, the Cosmic Rays, "The Universal Cosmic Rays," will be released soon. A paper called, "The Soul of the Man," will be released soon. As we said, the paper, which is one of the most fundamental scientific papers of the new generation of science, as we call it, "psychogenetic," will be released in coming days. Read them, understand them, and you will see the path into the future of the man in space.

In a way, it's writing a new book, writing a new understanding for the new technology. Some of you already know part of them, as it has been part of the teaching. But now the world needs to know, and how, and the way it comes to. (1:22). We have asked one of the Knowledge Seekers who we know and trust to become the new artists for what we call, graphics, and illustrations. And this job will be a burden on him for a long time to come, as we release the new scientific papers with the new understanding, and carrying the knowledge to be physically done, that every step of the way can be understood.

I have not released any papers for past six years, the first series of scientific papers for the new Space Technology will be released in the coming weeks. They'll show you, it'll teach you to be aware, to understand the principle of the Space Technology to come. It's not anymore about the rocket technology, and what we call, "monkey suits." But the

understanding how to dress the "monkey, physicality of the body of the man," in the suit of the universe by itself. Then we'll see how man will change. Then we'll see how everything, which is set on, and based on will bring the changes.

I hope mankind make this time, the journey of the man into space, a safe journey. Not to rush it the way he did with other conditions, and flight systems. Thank you very much for the teaching of today. And I hope I opened your eyes into what is to come.

If you still want to be part of the what we call, Mobile transportation, still sign in. If you still want to be part of the Satellite part of the Keshe Foundation, still sign in. (1:24). If you want to be part of the experience of the January 20th, still sign in. And then we announce it February and March what we'll do.

Our target is for the landing of the first man in space, in March of this year. If we're on target, that our system will be ready, and we'll do the first test in the coming weeks.

I hope you all understood where the Keshe Foundation is heading for in 2023, independent Space Technology, independent and a new what we call, understanding of the Creation and the process of the natural ways, that the universe was created. We haven't developed anything new. We just show you how this universe, and the life in the universe was created.

As I always said, "the Creator is Creator of all, and the man is converter of some." Converter of his knowledge to the dimension of physicality. And what he'll benefit by that conversion, depends entirely on understanding of the man himself, and no one else.

Rick, if your system still works, would you like to go through a break?

<< BREAK >> 466 KSW January 5, 2023 (1:32).

K- Yes. ready, willing and able. … If there are any questions. I received a question regarding the new CPCU's. What we call. We would have called it CPC, but you know, the problem with it, would have been with the Chinese government. As the CPC is the

controlling, ruling body of China. The new communication unit, which will be developed a more complicated way, in the coming time, it's a way that connects your Soul, brings it to a dimension of the boundary of the body, and in communication with what we call, our Center point.

What it means, we opened. Those of you who were in the Linz Center, you already seen this system, we showed some of you that. And we explained in the teaching, you can transmit from one unit to another. But you cannot reverse back from one unit to the original one. So we have tested these, what we call, Cosmic Ray, transmutation of magnetic fields. It's not something new.

The tests are completed, we understand it. And now the Head units are there. (1:34). Part of this was brought up some times ago, as part of the what we call, sharing and testing in other parts of the technology development. The Head units, which will carry this capability are there for many of you for different uses and what we call, purposes.

This is why on the 19th, we changed different sections, for us to see how effective it is, and how it works, and what the effects, where in the work of the cosmic rays, which we were putting, we were adding into the system. So collectively on the 16th we looked at the operation of all, and then on the 19th we looked at a specific condition. If you listen to the first part of today's teaching, we explained, if you need food, nine o'clock Central European Time it'll be English breakfast, and we give it one hour, and then we close it. Those of you who are English, know, like, or taste, and have the emotion and the energy of the English breakfast, you'll have it.

We want to see how you feel the next 12 hours, or did it last two days, because the energy was so clear that you took. What happened? You will like to have a taste of orange juice for a tea break, we bring the system to be at that time, anybody who's got a Head unit can test the orange juice. Then in the future this all will become organized. People with a specific unit can receive specific things. (1:36).

Because you can't receive everything, then it creates other problems. So, it's sequential, and how it is. Would it be common in the next few years, you invite friends for a party and each one gets a headset, they can have whatever they like. I don't like Chinese food. If you put Chinese food on the table, I'm not eating. It’s your headphone, you decide what you like from Italian to Japanese. The cuisine is spanned the imagination of the man.

The biggest problem will be, would the vegetarian shops and others will have any more market left for them? Would we see the butchers and the other, will be ever existing? Would we go to the supermarkets with meat and fish section? Would we accept this in the coming time? Would we accept the taste of a fish and a meat, as it’s a flesh of another entity? Or we just accept the energy? There's a lot of changes, which we have to get used to. Interesting time ahead.

We will release the first, maybe a hundred or two hundred of these new headsets in next week or two, and it will be developed in a very fast track. And you'll find it on the Keshe Foundation website as part of the products there. (1:38).

As one of the Iranians, I was told in the Farsi teaching of Friday said, "is seeing the God, only the privilege of the rich people who have the money to pay? Or getting the health application only those who can afford?" At this moment of time man is entangled with the physical dimension of paying wages, and renting places and looking after a lot of things for you just to receive the knowledge. It's not a privilege to serve, it's an honor. But at this moment of time everything is entangled in that direction and dimension.

Any other question?

Q: .. Because I lost my job, he's thinking, that he would like to try to… If I can make a living in this way, working with the plasma technology without the intention of getting rich, just to survive. I want to serve and if possible make a living doing it. I'm looking for another job but it's not that easy. Is there a path going forward?

K- Yes, write to info@keshe.foundation, become one of the distributors to sell the products of the Keshe Foundation. (1:40). The products are becoming more sophisticated, more complicated. But yes, you can do. There will be some new announcement in the next few months with the expansion of these things, as the process in Iran is building up and the factory is getting more, coming up with new products. Yes, it will be done and there's more to be made.

The only thing is, we see Knowledge Seekers who used to be with us, I trained some of them myself. And now they're coming with this cheating way, I call it, the "Med Beds." And now since we started, as I said, with the head units, now they call it "quantum headsets," and the rest of it. This knowledge is a fake knowledge, and we know how they work, they talk about quantum physics and everything else.

But in a way, plasma technology has no quantity to be quantumized. And those who have no knowledge, use these tricks. Because we're getting a lot of communication, especially in the past two weeks. People who talk and write to Keshe Foundation about, can we buy your .. Med Beds. We don't sell, we never sold Med Beds. This is a trick by those who tried, the same as we saw in Italy, taking Keshe Foundation knowledge and what you call it, faking it. It stays the same. Yes, write to Keshe Foundation and product range is there for you to sell, and there are many Knowledge Seekers who work as distributors and they make a living out of it. (1:42).

R: What about teaching? Can people earn a living teaching?

K- A lot of people do. A lot of people used to, till about couple of years ago, two or three years ago. I've been encouraging the teaching. I still teach today here at and other Knowledge Seekers places, but… Yes, teach. Yesterday, I think, let me see if he's here, one second. We'll tell you how teaching is going on. I don't see him here, maybe he's in

the background. Do you see ?? Rennon anywhere? Rennon was teaching and explaining the technology to the government officials today in Philippine. Yes, you can teach. Put teaching sessions.

A lot of people still needs to be taught the basic of the knowledge and technology, they can't just jump into the plasma. How to make the Gans's, how to understand the use of the energy of the Gans's, and yes. You've got to teach, that is your responsibility. If you make a living out of it, it's is a different thing. When years ago when we used to be in Western Europe, (1:44). side of this continent, I used to teach and we used to get paid for giving conferences.

R: Okay, so that's a good path forward there then.

K- There's a lot of teaching to be done. You have millions of people who still have not heard and are hungry for the technology.
R: Definitely people are becoming more open to the ideas. I can now go to a perfect stranger and start to explain some of this, and some of them actually get it. Whereas years before they would probably look at you strangely and just pass on it.
K- Yes, a nut case.
R: So that's encouraging.

Q: .. Is plasmatic energy different than conventional electricity? Is it an etheric energy?

K- Plasmatic energy is a collection of fields of different strengths. Every plasma has a full spectrum of the fields. And it depends on what the environment, according to the field strength, and compactness of the strength of the plasma allows to show itself. (1:46). Different environmental condition allows the same characteristics, but different strengths, we call it, isotopes, in the matter state.

So, the electric energy or conventional energy system is a step lower than the plasmatic. But it's of the same field, and is of the lower strength.

In the paper which we'll release, a lot of these been explained in a very simple, but in a deeper way, the way I usually write. I tried to explain this in a very fundamental way. Read the paper about the what we call, psycho genetic. There are two small papers, which will come out, which are prelude or will be published at the same time with this paper. It will bring you a lot of understanding of the knowledge of the life in a plasmatic way, and not in the matter state way.

Some of it you already know, but we look at it, large number of population are not familiar with the terminology and the science we use. So everything is gone to the first step. I think the psycho genetic will end up to be a small booklet or a small book on its own. It's the knowledge of life in the space. As usual I start with a few pages and then it end up with tens of pages. And now that we have found the illustrator for the book, it allows us to be able to go back into publishing books with illustrations. (1:48). And the good thing is that, our new illustrator is a deep Knowledge Seeker and has a good grasp

of the technology. He is versed with the knowledge, and you will see new what we call, presentation of diagrams and pictures, which makes it much easier to understand.

Any other question?

Q: .. In one of the weekly Knowledge Seekers Workshops before the 16th of December session, Mr. Keshe described the steps from that future session and at the end, at the last part of it, mentioned something about his blood, about giving his blood. But hasn't finished the idea. Could Mr. Keshe resume and explain further more about this?

K- No. We leave it as we left it.
R: Okay, fair enough.

K- A very interesting point will be, would the man will have the same blood in other parts of the universe, (1:50). same composition? And would it hold as a liquid, as a dynamic liquid? Or would our vein change into the energies that the matter level of the Gans's? The answer is, yes. It's part of the structure of the Space Technology.

If we carry blood the way we do. We've seen it, when it goes into cold it freezes. And when it goes to the hot, it boils. When it comes to the fire, it burns. But you cannot burn, freeze, or whatever, with the energy of the Gans as a mode of transportation of the energy. Would the blood vessels of the man, will carry, will change themselves to tunnels, or to channels, for carrying plasmatic field energies, than actually the matter state of the energy, as blood? Or would we change our dimension to a plasma, which everything feeds through it, from it, from inside out? The way we said, the STM will feed the physicality (P).

Many of you have heard me from early times, explaining about we get our energy 80% from the environment and 20% from what we eat. (1:52). Part of this, small fraction of part of this, comes through the interaction of the energy of the cells of the body of the man with the environment. But majority of it comes from the expansion of the Soul, especially at the time of the sleep, where the body absorbs all the energies it needs from Cosmic Rays (CR). Dreaming time it's not the only time when plasma expands beyond the physicality.

Have you ever thought why you need a rest to recover, and then you wake up and you're fresh? In the present world of science they tell you, that the body repairs, or whatever. But in fact, that's ?? where the 20% of what is needed. The other 80% while you go to sleep, and dream, or whatever, the reduction in the field strength of the blood vessels containment, allows the Soul to absorb the energy from the environment, and feed it.

So, when you go to sleep next time, when you wake up and you're fresh, it doesn't matter during the day, or a nap for a few minutes, or siesta for a few hours, or to sleep at night, understand that, that's the time we actually reload. It's not the only time of the dream. So, we are used to loading up, taking energy, but on the strength of the level of the Soul. But we never understood, we never knew. (1:54).

You've got to remember when we say, we speak about dreaming and now we understand dreaming is the expansion of the Soul in connection with the other Souls. It does not just beam them up to one position. It interacts with all the fields of the universe, gives and takes. What you discharge is whatever, sweat, or whatever from your body, is a fraction of what your body gives, as what it doesn't need during your rest time, to the what you call it, its environment.

If you fall asleep in the environment, where there is a higher range of the spectrum of energies, you wake up much fresher. Because you took a spectral of it. If you find yourself resting in a confined space, and in a way, confined in energy, cosmic rays, you'll find, I slept, but I don't feel good, I don't get what I need. You can sleep deep in the mind and receive everything you need, and you can live on top of a tree in the mountain and receive the same.

It's how your Soul in the expansion beyond the physicality interacts with his environment, takes what he needs, in the energy level which needs. Then you understand how the new, the future feeding system will work. (1:56). We provide a spectrum and you lock into it, you take what you need.

And in a way, maximum time you need to be connected to any system, even in the new CPCU's is seconds, milliseconds. As we tested it in number of people who went through the Linz and the others, they tell you, I saw this in a flash of time. It wasn't long. That's all it takes, a flash of time to download, to receive, and to give what you need, and what you don't. It doesn't need to be hours. It's like the way you go to place from Linz, suddenly you're on the Moon, because you transmute on the field strength of the planet, because you wanted, you tune into it.

At a moment when you want to tune a radio, you play the dial till you get to it. Now your brain has already knows what to dial, from where, because it receives fields from it all the time. We'll get used to this very, very quickly.

It'll be amazing how the cities, like in China, we've seen hundreds of thousands of people involved in making iPhones and iPads, in the next few months and years will change to make what you call, CPCU's, the cosmic ray units, receivers. Then what we call, the Satellite systems of them, and how it will be provided. There is a lot of things in the future will change. (1:58).

In a few years, especially when we start going on excursion of the space travel, there'll be a job which has no room in the world of the Creation, and that is doctors. They become historical things, a medical doctor. Because as we go on, I explained in past three, four weeks, into the full system of understanding to work, and once the body knows what to reach, where to reach, you don't never get sick. Accidental situations will be there, but in a very short time, the technology we'll develop, even accidental conditions can be processed. Being, working in a place called hospital become rarity.

We shall see. I explained this in a very deep way in the psychosomatic, or psycho genetic paper which is coming up. It's been a pleasure to get back on, and be able to write and share knowledge in a deep way. I hope you enjoy reading it, and understand it, not just enjoy it.

Any other questions?

Q: .. In the last session you mentioned that what we are today is a reflection of our ancestors through the structure of RNA and DNA of men. (2:00). My question is, what happens then to the people whose Souls were enlightened by the cosmic rays, will their children get enlightened too, to see the Creator?

K- In a way or another, all of us will reach that point. And our children, especially the children which are born with the new understanding of the creation of the Soul first, have already that connection. They don't need to, they understand the whole process of the Creation, from true essence of, not through what I call, "man's book." So, our children, the future children of this race of the man and the others, will be created out of the fields of the universe without interaction of the physicality. So, they already have that access. As I said to one of Knowledge Seekers, physical man made, will become an extinct, in a very near future.

R: Do those children that you mentioned, have changed DNA, because of the cosmic rays?

K- They have their own DNA. DNA is the physical structure of the body, how the plasma fields are created from the, certain given field strength. You know when you, I've said this many times in teachings. (2:02). You know, they say you have equal to one nail of Fe in your body. And you have so many grams of Carbon or Nitrogen. If you get these matters and put them on a table, they don't pile up to more than a few millimeters off the table.

When you make them, now that we understand, into a plasmatic Gans condition, it gives that structure of the man one meter or two meters high, and three dimensional. Just goes… I did this years ago, and it absolutely hits you, absolutely hit you right in the face. This came out of an experience. I was watching an ad, or was it something on television, where they brought a very, very overweight person, and they said, you like carry 200 pounds of fat. And they brought 200 pounds of lard and they put it on the other side, and said, this is how much you carry. That brought me. Going through the scientific papers, how much nail, how much, what you call it, Fe, how much Zinc, how much Copper is in the body of the man, and I piled it on the table. It's not much. Put the dust equal to the amount of nail, put enough dust, enough for the, what you call it, Oxygen and Hydrogen, you can understand how it will be in the solid state or whatever. It doesn't pack up more than a few millimeters, and most of it is Calcium. (2:04).

Then you understand, you are standing next to it, this is the matter state. So the body of the man cannot be in the matter state, if you stand one or two meter high. It's blown up

somewhere. These Iron particles have changed. It must be somehow expanded and can't be no other condition, but a plasmatic condition, a Gans state. That you put balloons together. You go and you buy a pack of 100 balloons for a party. They come in a little tiny bag. Now you take them home, and you put gas in them, and you blow them up. The room is not enough space for them all to be in. And this is the same as the body of the man.

In the matter state, we don't add up much. In the Gans state we become the body of the man. We get that balloon blown up, that amino acid, that Fe now has a volume, it's not flat. It's not a matter state. It's a Gans state. This explains a lot in the world of understanding the whole cycle of life.

And if you understand, the balloons are not just confined to the air they contain, they're dynamic. Now they interact with each other, they're like magnetic balloons. They space gap each other. Then as they're magnetic, they interact with other magnetic fields in their environment, (2:06). even if they're not in the box you put them in. When you put the balloon in the room, it's a balloon in the room. But if you create a magnetic field balloon in one room, it interacts with the magnetic field balloon in the house next door.

It's a different understanding. It's understanding the true nature of the Creation in the living things. Then the whole thing changes, then science of life of the man the way we've been taught, literally gets thrown out of the window.

Then we understand the true way, why this universe even has a volume. How did the universe expanded. Then we understand the structure of the galaxies. Then we see a lot of knowledge we gained in the present science of physics, especially, especially biology and psychology are good for the (trash) bin. Because we never understood the interaction of the fields. We just understood, mash it, pill it, and ?? it, and that's the solution in the matter state. We dealt with the body of the man in the matter state, not in the plasma state. Read the papers coming out, I explained this in detail in these papers. (2:08).

Any other question?

Q: .. Is MaGrav plasmatic energy different from electricity?

K- Yes, they are.

Q: Can we power appliances using this energy, this plasmatic energy?

K- If you do it properly, yes. But none of the Knowledge Seekers up to now have understood it. Yes.

Actually go back in one of the demonstrations from Arizona with Jon, where one of the Knowledge Seekers was walking between the MaGravs and turning up the lights. That should have given a lot of understanding.

We explained this originally as a what we call, entertainment piece in the Sansano (Italy), and I explained this before many times. Whenever we used to end up at the end of the day when we switch the fluorescent lights off, we used to have the dance of lights. Usually when you switch a fluorescent light, it just switches off and that's it. But we used to create so much plasma in the building in a different strength, that as they came in touch with what we call, fluorescent tubes, for minutes we used to wait and watch a number of the fluorescent tubes lighting up and dancing with each other, as the energy of the plasma was converted into electricity, or light. (2:10). If you understood these things, yes it can.

Many of you which (who will) receive the new CPCU's, you will see a new dimension of vision, that's for sure. You will receive, or you'll be able to, if you tune to it the right way, to see literally it doesn't matter day or night. It brings you a new visual capabilities, because the visuality will not be through the eyes, but you see it through the Soul.

Many of you will perceive for example, an accident before it happens, because the connection comes through the STM, with the new units coming out. Many of you by using these new units will see changes in your emotion, you will see changes in your physical condition, you will see changes in every aspects of the life, in your interaction with your loved ones, and your associates in your life. It'll bring a new dimension of pleasure. It's, in a way, as I said to one of the Knowledge Seekers in the past few days, it will make life living, worth living, the true life of the man, not in the dimension of the physicality. And this is the beginning of the change, and that's why I said, with the new cycle of technology and understanding, no one can lie, because it's everything in front of you, you see. (2:12).

Any other question?

Q: .. In chapter 10 on page 95 of Book 3, I understood that the black hole in the universe created through the interaction of two or more magnetic fields, and that this black hole functions as a recycling center for magnetic fields and is a source of cosmic rays. I would like to ask two questions if I may. The goal to be achieved in MaGrav, was to create a unit for the creation of magnetic fields, and through another system create the condition for amalgamation of these fields to create thus a black hole, so also is man?

K- The black hole in the MaGrav units is the coating on the copper wires. As simple as that. But Knowledge Seekers have not managed to understand how to harvest it.

Q: .. The units in Linz created a condition where it amalgamates the best fields of all the races, and recycles these fields to create the cosmic rays to elevate the Souls?

K- We don't recycle. They connect to each other, they link up. (2:14). The cosmic rays we produce has nothing to do with the people who came and participated. Cosmic rays are produced kilometers away from the Linz.

Q: .. I am now a happy owner of 7 plasma butterflies, a medium and one small .. One small, one large. I would like to know how I can utilize them for strengthening the field strength of this, my field, or any other experiment that you can suggest?

K- If you received that, or you made the what you call it, the use of the Butterflies from the Keshe Foundation, it's a very specific way designed. They are not the normal butterflies, you just think you made by the, what you call, the Nano wires. Place them in the ratio way.

For example, put them in Gans's of your choice, and put a large one on one side of the room, and a small one on the other side, and see how you feel in between. They use different positioning and distancing, and coat them with different Gans's, and you will see the effect of. (2:16). The Butterflies of the Keshe Foundation are designed and built in a specific way, and you will see, you will feel the changes. It's like the paintings we have.

If you stick it on the computer or laptop, it's a connection between you and the system. But you can use these Butterflies in many, many ways. You have a disturbed family. You have a disturbed child in the house, you have people who cause problem in the house, put these butterflies in a sequential way under their bed, in the chairs they sit. You see unrest in the family, put these Butterflies into Zn Gans's with CO2, let them dry and just leave them casually around the house. Don't let their face down, they have to be facing the environment. You have children who cannot asleep at night, put it under their mattress, under their carpet, under their bed, and place one above, change the environment of the room. They'll sleep peaceful.

These units Butterflies have many, many applications, (2:18). but Knowledge Seekers just buy to put it on their iPhone, or iPad or whatever. You have a stressful in the car, hang one in the front, one in the back, or put it in a way position, change the environment of the car completely. In the office you have people who disturb, you just put two across, it doesn't need to be, not just ?? decoration. It's actually made like decoration. There are a lot of things you can do with it, but I don't get the chance to teach.

Q: Dean .. So Mr. Keshe, you spoke about the CPCU's and I just like to touch on that a little bit more. It's like an extension of the Soul. Obviously, you said before that you see everything, that every interaction, that people make on a Soul level before they do it. So is this giving other people the capabilities to be able to have the same interactions. (2:20). If so, wouldn't it be a wonderful thing to give to delegates, that go into all sorts of positions in various institutions, and wherever they are in the communities? Because then there will be nobody that could actually say anything that would be harmful to another, it would be very beneficial for humanity in many ways.

K- If you're trying to tell me, they'll be like a "Pinocchio headphones," maybe, but it will be for the STM. I'm sure the first unit we'll release will be improved and made more sophisticated in the coming time. But in general, they're there to bring the understanding of oneself directly through the expansion of one's Soul. It will be very interesting, very,

very interesting, once we put these out and tell you the things you can do with it, how you will react with it, and how it will change you.

In the coming time, we… The main purpose of these CPCU's are for space travel. But we have to entertain you with something else till it's done. They will work in a very special way for specific jobs. (2:22).

Q: .. If they give one the capabilities to travel, is that going to be a situation where each individual will make the decision? Is it the same situation? You're the captain of your ship sort of thing?

K- Yes, yes. That's the whole purpose of it. But you have to be very clear, ?? I said this to the Knowledge Seekers who will become the first passengers. Actually, I talked with one of them this morning, I think he's around somewhere listening, or will listen later on. That is, you have to be clear about everything before you start using these systems. What is the intention of the travel? Am I going to spread love and care to my child, to people I meet? Or am I going on the way to cheat and whatever? You'll find out you won't take the trip. We said, you know, you have many presidents, and kings, and rulers which walk away from the Enhancement Unit (EU). Now this has become miniature EU, but more powerful.

As I said, and we've seen in the past few months, many Russian rich people somehow they're jumping out of the windows everywhere around the world. And we see many, many influential people in the world of the Bitcoin currency are dying very young. In the past few months, we've seen many, many of them. Both cases. (2:24). If you have this CPCU's, would your Soul allow your physicality to go through this? Or then we know this will become impossibilities, then we know that somebody has thrown you out of the window. It's very strange. Only scientist and rich people jump out the window. We saw the Chinese Yahoo gentlemen flew out the window in US when the Huawei business came to light. And in the past few months, we've seen many top Russian governmental, key people, suddenly just jump out the window, it becomes fashionable. Or is it enforceable, has it been forced on? So, these things become impossibilities.

Q: .. So if these people who jumped out of windows, if they had one of these units, they wouldn't even be in that position to be near the window. Is that correct?

K- Well, it depends if they went near the window, or if they were brought near the window. If you understand it. It's a very, very different situation.

Q: .. So, from the 16th, I've noticed my sleep patterns have been very different. I've spent large proportions of moments, very deep in sleep. And obviously, I needed that energy, I needed to take from that for whatever it was. (2:26). Then all of a sudden, I changed my thought pattern, like this morning. Then last night, there was a very big storm going on around here. But I didn't, my sleep was different. I was able to wake up when I needed to today. So is there many transitional things happening since the 16th?

K- With a lot of people. Yes. A lot, a lot of people, physically, psychologically, yes. Because we're getting a feedback. We're getting a lot of feedback, especially the ones who are involved with the Brazilian group. We don't see any more Italians around Keshe Foundation work, which is, was expected. But with the Brazilians we're getting a feedback, with the Germans we're getting a feedback. We see, yes. There has been a lot of evolution psychologically and physically for them. Yes.

Q: You mentioned Mr. Keshe, that, obviously, as part of that, and many other beautiful Souls were present, and they all joined to one, you said, and reached at one point, that Creation point. That in itself it's obviously a massive gift. And when will we come to understand sort of how we've, what we've achieved or what you've given to us? How will we really understand that?

K- I think is the test of time, and understanding it, and not just putting it, "oh, it happened." Why didn't that happen before, as I said, and why did it just happened after. Then you understand the changes. (2:28).

Q: Is this going to be a gradual change for some of us?

K- It depends. I think with the new, what you call, CPCU units, it will be a very, very drastic change for a lot of you. We will see "humane" people, not human people. As I said, we'll see the children of Mitra, or the Ethos of Mitra.

Q: Present in physicality Mr. Keshe, or in field strength?

K- In behavior, in life, in life lifestyle. In how we take that step towards. We know what it'll bring. It'll bring a lot of physical pain, until the psychological, what I call, condition of it, "psycho genetic" is sorted. And then life becomes a pleasure to live.

It's not a key, "oh, I have a cancer, I'll buy a Headphones for that one cancer. You might find there will be no solution for your cancer, because you have not sorted out the emotion how the cancer started. And you block that side. So how can you change the other side? (2:30).

It's not a one way traffic key, it's "me, me, I take, I take, I take." You will find out your own structure will block you from receiving it. Because the intention is wrong, you have not understood the reason why you are in that position.

Q: So, on a Soul level, is the Soul interacting constantly, is in communication. And the physicality, we've spoken about this before, may not be caught up yet. But the Soul is pure and will always guiding. When will that. So how will that that transmute, so that the physicality can actually understand this, really?

K- Physicality understands only by comparison, this is a habit of the man. We've seen it many, many, many, many, many times people who use the Gans's, or use the technology, "I had a headache for years, but suddenly it changed, I don't know why." And the next

sentence you (say), could it be because I used Gans's? Hello?. Why did it happen before? And why does it happen when you use Gans's? "But it could be coincidental, you know. It cannot be really. But I don't have the headache anymore, so, I can't test it if it was Gans's." I heard this hundreds of times.

And next time they have a problem, they use Gans's, (2:32). it doesn't work. Mr. Keshe, I tried everything with Gans's. Yes, you cheated yourself to your Soul. So, you blocked yourself. What do you want? You cannot cheat with the technology, with the knowledge of the Creation. So you benefited by it, you denied it. So now it denies you, because you can't accept it, the soul doesn't accept the ?? I.

Q: .. I've noticed this with myself. I've been exactly the same. I've used Gans's, and used the technology. And at moments, when you're in a certain position, and it expands out and you receive the energies, and then other times when you require it, as you said, you're out of balance or whatever it is. And you need it, but you don't receive it. I think you've just explained that, why not.

K- Because you're in the wrong way of getting, you're not getting what you need. You want to get what you think you need, but you actually blocked it yourself in receiving it.

Q: So what we think we need is not always the case.

K- Exactly. I always call it, "Iranian girls with love affair relationship." On (top) the table they push you away, underneath they pull you with the leg, you understand? I still love you, but I want to say, "no, I don't want you." You understand? So, it's the same with the STM.

Q: It's a fine balance position.

K- It's a very clear defined position. "Thy shall not lie." This was one of the things always… Actually the first thing is, thy shall not lie to itself, to himself.

Q: How do you know you're doing that Mr. Keshe? (2:34). Because you don't think, because when we do. I don't ever think of lying to myself. I try always to be... ??

K- We accept conditions, we accept conditions. Then we accepting it, we see it as to be right. We see abuse and << audio cut yeah I am back … >>

K- The principle of the whole work is "denial to block." If we do it, we accept it, we accept the abuse, and then we become the one who's at fault, accepting it. Then we become the, not the victim, but we become the guy who victimized. If we stop that abuse from the beginning we don't get to that point, because we are honest with ourselves, it doesn't matter what it is. (2:36).

And this structure with the Gans's and plasmas bring that condition, it's you who have to decide. What I want to take, is this what I want to take from it? In a way it's an enlightenment to understand it.

Q: How would this help world leaders? You've just touched on something there that would obviously it's quite a, it can open up into a very big thing. So, world leaders that are, when is that moment, you made that definition of "you understand not to go there but you allow yourself to." Why do we do that?

K- What do you mean by that, regarding the world leaders?

Q: I mean by anybody, for me a world leader is anybody.

K- I understand. You see, it's very hard to put it, because I do it quite often, I let things to happen. Then they tell (ask) me, why you let it happen? Because I want to see what's the outcome. I'm a big experimental person in every way of shape of life. It's not just with researchers, it's with interaction of the fields, people's behavior.

And I want to see, and then it gets to a point that I say, "okay, I learned enough, that's enough. I walk away from it." Because the one who was involved did not learn, and they saw it as a right (to abuse). Abusive behavior, misconduct, because you sit and think, "okay, one day they get elevated, one day they understand." (2:38). Then it becomes your problem. And they don't see it, as their problem. The problem they created, and you just as observer see, where it's going to go. And when you put a stop to it, then you are the guilty one. I had it in my ex-marriage, numerous misconducts, adulteries. But the Soul never learned. And when you put your foot down, it's your problem (she says, "you are the one at fault").

Q: .. Going back a little bit, you touched on theology again. So, how would this transmute to theological teachings? How would they understand? I know that we need to express the aspects of the Soul, and you've gone beyond like the 10 Commandments of one of the religions, there was these Commandments and you've gone, you've explained beyond this. And so we've taken it to another level for humanity to catch up to, and to understand. How will the theologists take from this to a position where they can actually, let's say, give it to their flock and they can teach it, so that they can elevate to a position?

K- You put your finger on it, and I have a bunch of these in a couple of hours. I have a meeting, they asked for it, in a couple of hours. (2:40). These are world theologists, the leading edge of, and they want to understand. I've been bashing my head, how explain to them without touching their belief, for them to come to understanding, not for me to explain for them to understand. It's a big difference. Maturity, enlightenment and realization has to come from within, not forced. And theology doesn't exist if one understands the work of the Soul.

Q: Can I ask a question Mr. Keshe on that, so why did prophets given the knowledge? Why did they come forward to teach humanity?

K- What do you mean?

Q: So the prophets were given the knowledge of the Creator, and they came forward to give this out, and then it got sort of changed, you know, in many aspects it was changed…

K- You know, if you play with the English language, you're an English man. When "profitability become profitable," they became Prophets. And this goes right across, right across. Prophesizing and just talking, (2:42). and then making it profitable, has been the main problem of the past.

So, this is the beauty with Keshe Foundation, we don't prophesize, we teach you the technology that nobody can prophesize it for you. You take it as you become professor in it, to your understanding. So, you have no more prophets to, or what I call, magicians.

I wrote to one of the Knowledge Seekers very recently, in past few days, that, I didn't come here to make MaGravs and power generation. The whole exercise was for people to make it to understand the physical field forces and understand what plasma is, and that they don't need any explanation in the future, that nobody can abuse them. This is the beauty of working without theology.

There is no theory in the world of the Creator, that makes a theology. There is no theory in how Creation was done. When now you understand how, and you can create it yourself. It's what I said few minutes ago, a pile of dust of Fe, and Oxygen and Carbon is there. And then with the knowledge of Gans's, knowledge of plasma technology, you make a man out of it. (2:44). You understand how, that dust has become the man.

By, not blowing the "wind of God's will," but understanding the process of the expansion of every atom into a Gans, into a balloon of energy. When you go to church they say, we blow the wind of life in the body of the man and the rest of it in different shapes or forms. But now you understand that blowing up of the whatever, is actually expansion of the matter into Gans state of itself.

If you take all those number of atoms in the pile of the body of the man and make a Gans of them, you'll see you get the same height and the same structure of the man. Now we understand what has been theology. Theory of the life in Creation, now has become a science, so there is no theology. There is no theory in the logic of the Creation anymore to call it theology.

Because now with the knowledge of Keshe Foundation we brought the science of the Creation. It doesn't leave any room for theory of the Creation, because now you have the facts, you can create it. So…

Q: Sorry, I didn't mean to stop you. So it would be that if we'd have given the profits and the ability to make the Cup of Life and even now to give these theologists the ability to make the Cup of Life, to understand the technology, would this help? (2:46).

K- I was talking to them before the teaching of today, just before we start teaching, and I said, you need a headphone. Can we have the headphone just this afternoon and see how we do, we see the Soul of the prophets. I said, yes, but the system is switched off till the 10th (of January). Then we believe it. And then even when they do it, then they say, "oh, he's playing with the mind, blah, blah, blah." Because if they accept it they don't have a job.

Q: So how do you get around that Mr. Keshe, if they ?? cannot get around that?

K- They cannot lie to themselves. You bring it. They bring to the end themselves. I explained last week about when I was a child, people used to come and change clothes. All those people were Mullahs, with turbans, and beard, and their families, all of them without failure. They were chief leading Mullahs and Ayatollahs who changed clothes. And I watched them doing it, because they understood something was wrong in the structure.

Q: Was it just Mullahs Mr. Keshe? I don't mean that in a in the wrong way. But did you. Were there other theologists?

K- No. (2:48). All Mullahs with their turbans and their robes. And I saw them packed in what they call, bundles and taken out. I've seen that many times with my own eyes.
Q: And they went on to live normal lives Mr. Keshe?
K- Normal lives, yeah. They were given jobs, and positions, and places and they moved on.
Q: Were they happy?
K- I don't know. Never met them again.

Q: Were they elevated on a Soul level by taking that position?
K- Most probably yes, 100%. Many, many of them.

Q: ?? really comes into play Mr. Keshe, is that wrong? Is that not so?
K- Yes. Many of them. It wasn't one or two. The reason it made an impression on me was so many of them.
Q: .. How did you get them to understand?

K- I don't know, I was a witness. I wasn't somebody as part of the process of understanding. I was a witness to an event.

I've seen that with my own immediate family, where they changed from one to another. It's the way, it's the course of event, we do. It's just like. The best example I always tell our team, I think, because it's a very natural way, (2:50). it's if you go on, I said it before, the guy called, the band called hot chocolate in nineteen seventies, first black gay

guy who actually promoted a lot of things in that society, that in those days people couldn't understand. I explained this before, he was a Caribbean guy in West Indies, who the mother rented the room for him to go to private education. Before he wanted to become a plumber, and a chef. By renting a room, being able to go to public teaching, schools in UK as you understand it, he became amongst people who became doctors, and engineers, and everything else.

The elevation came in the education. It's the same with the teachings. If you understand it, the teachings gives you that insight to understand more. That's all.

Q: It's like the Gans's Mr. Keshe, that you spoke about earlier, where they sometimes they touch you, and sometimes they don't, when sometimes you think you're giving when you're not. And other times when you don't think you are, you actually are, it's that, that contradiction of… ??

K- I always said, when you think I'm rich, is exactly when you're poor. As I always said, when they tell you how much they're worth, and they can tell how much, then you are not actually rich, because you can put value to it. There's always someone who's richer than you, more ?? (2:52). And it's you who has to decide.

I was very recently in a position, a lady decided to be very insultive, very aggressive, and it was a very unusual position. And it happened again itself n a few hours later on, again with the same woman. I said to her, "I've never seen a more insultive and arrogant woman than you. And you're just the receptionist." And she ran after me trying to say who she is. I didn't say anything, and I said, this shouldn't have happened. But I don't know why. But it was very strange.

When she spoke German to the German people, she had a different behavior. When she spoke with people not Austrian, she had but insultive behavior. So, I wrote to her bosses that, is that the behavior of your company? Is it the new policy with your organization? So we avoid it. And immediately within a day, they responded back, that now they understand they have a problem in their structure, and they're going to correct it, because they never realized this is going on in their structure. (2:54).

How do we become one? How do we allow this to happen? How do we choose to be insultive to one, and comforting and friendly with other, on the same table, the same person? What do we accept? And what is the limitation of accepting it? Or, what comes to this lady thinking, "oh, he is a foreigner, he is nothing," whatever.

In the communication to them, I wrote, I can read it to you. I'm an Iranian nuclear physicist, head of the Keshe Foundation, head of the research and development of the new space technology, and my humbleness is not my weakness and stupidity.

My humbleness comes from knowing nothing is worth, if you are not amongst people. This is how people make their position, thinking who they are, what they can do, and what it is. Then we allow them to do it. In this part the life we have is the same with

education in knowledge and in understanding. The more we understand the humbler we should become.

Q: So it goes with you explaining not being higher and lower. (2:56). I have been around the Foundation and yourself. I know how humble you are and how you treat people, and that ethos, when others come to understand this in other structures, then we will have this beauty that you have given to humanity.

K- You've been with us, you've seen it. When we have lunch, I ask everybody who is there, do you want a lunch. We get for everyone.

Q: You do, yeah. You do Mr. Keshe.
K- We, I eat with everyone the same.

Q: Yeah, the beauty you have given. And you do, you live by. It is words and it is action, it's all, they all tie in together. And that ethos is what we need to portray and give to everybody to understand this. The theologists if they, those three words, those three attributes (think speak act good), if they brought those together, with inside themselves, then they would find this, the ability to move forward.

K- It all depends how you take it. The minute you see yourself higher than the others, it's the time when you fail.

We had many occasions in Trany (Italy), where we had the, what we call, the teaching center there. We always used to eat together. In lunchtime wasn't, I eat somewhere else, somebody else they bring their lunch. Our housekeeper used to cook and lunchtime she used to come and lay table for everyone. It doesn't matter you were a guest, you were a Knowledge Seeker, you were people who are with us doing research or whatever. (2:58). We all sat around the table and we ate together. And our housekeeper used to cook food and lay the table, that we've laid our table at home and we used to sit and eat, and she cleaned up and go home. This is how it is, there should be no difference.

And this is not something I brought in Keshe Foundation. This is how I was brought up. I took over a company years ago and becoming a major partner. They had a canteen, and the management had a table for themselves. They were Indians. And the workers used to eat separate and, you know, the management table was laid and everything. The first day I went, I saw this I thought, something is wrong in this place. How do you know what's going on in your business if you don't talk to the people who run your business? I took my plate and I went and sat with the warehouse people, and I sat with the workers in the factory, and they were shocked. They could not accept you eat with workers. I said, you know something, while I'm here you can't run your business, because you don't understand what's happening with the workers. Now I'm in charge, I run my way and I abolish the management table. And this is how it should be.

Q: That's a beauty Mr. Keshe. I've noticed that when I used to take pictures in corporations back in the UK, I used to see this a lot. I'm not. I'm sure it's changed now, this is a long time ago, what you've just described.

K- Nothing has changed. It has become more posh. .. They go to more expensive restaurants for lunch. (3:00).
Q: Okay, I understand.
K- Carry on.
Q: So, as I said, I used to see this situation where the management would have their .. tables laid out completely in a different network, segregated sort of area, and then the workers will come along and they will almost sometimes in another room. So, it's exactly what you just said, with them going out to restaurants instead now, and not being with the workers. That ethos seems to have changed. As I said, that was a long time ago, now it seems to be that people management are starting to understand they need to be more with the workers as well, is that not the case now? Is that not being brought forward?

K- It is there because now the workers has come through, the management comes through the working class. It's part of being human, nothing else.

The minute you consider yourself higher than the others, it's the time when you actually finish life. That's the stoppage in growth. I always said, people get fooled by a "tie and a suit." At the end of the day, when you cross the door you're at home, you're a father, you cook, you clean, and you do everything else that they do for you in the office, or whatever. What's the difference? You've been around with me, my drivers, bodyguards, they all eat in the same restaurant, the same table as me. (3:02).

Q: Yeah, they have the beautiful ethos Mr. Keshe that you've bestowed within people, and they understand, it touches them, and it's that mutual beauty between the Souls that they understand. And by being part of that structure they just absorb it, they become it and then it spreads out, and that that is a true Knowledge Seeker, a true beauty that you are sharing.

K- You are in touch with them, you talked to them. They talk to you more than they talk to me. You have seen the way it should be. There should be no…

When you look at the graph on the screen, when it comes to the STM coming in touch with the Soul of the Creator, you don't see a separate line for the Creator, it's amongst those lines. So why should the man be any different.

Q: Thank you for understanding Mr. Keshe.
K- Oh, I understood long, long time ago.
Q: I know, I know it. We have to catch up, we have to catch up, and even when we. As you said, when we think we know we don't, and it's that constant. We're just touching the tip of the iceberg and there's a lot more to always experience, and to know in both, in all the dimensions, it's that beauty of growing, I suppose.

K- You've got to do it yourself, otherwise… I was brought up in a household of maids, or whatever. And my father always said, you have to learn to cook, if they're not there you're going to starve. This is the how it's been. How it should be. (3:04).

When you understand you are part of Totality, you live that life. This is one of the biggest problem we had to start with, with the Belgium and the British authorities. Belgium's wanted securities and everything else. And they told me, you're uncontrollable, you go where you want, when you want, and this cannot be, we can't provide you security this way. So, we don't need it. Because if it is going to happen, it's going to end up. They were afraid of what themselves, what they're going to do to us, than actually others. You should be able to live amongst people. This is something I learned from my father. Nobody knows who you are when you walk into a restaurant, or you walk into a shop. And you should be like them.

Q: That's a beauty Mr. Keshe. So, is that going, the ethos of the universe of other beings, other souls, this .. comes from this structure?

K- It is. If you listen to one of the Intros in one of the teaching of very earlier on. From a distance now we understand the STM is within the man. The Soul does not see the Soul of a king, or a waiter, or a fish, it sees a shining star. And that's all it is. Because you don't see their physicality, and that's how it will be. (3:06).

Now, the research center of the Keshe Foundation, before we split everything up in different ways, when it was lunchtime I used to cook and take food for the staff, food for all of us to eat together. It wasn't going there for somebody to cook when it was time, when it's there. I used to cook for and take in for us all to share. And that's how it should be. The minute you see yourself different, this is the time when you stop growing. The arrogance takes over reality.

Any other question?

Q: Thank you Mr. Keshe for taking my questions. Thank you very much.
K- .. By the way, Dean, you might be invited to the Keshe Foundation back, next week or next few weeks to take the picture to first landings.
Q: That'd be wonderful, Mr. Keshe. Thank you very much.

Q: .. My question is related to memory from the past time. How can we explain utilizing plasma knowledge in the transmission, or how we can keep the memory from our ancestors and even our past life, or future life? If you have a clue, I will be very happy.

K- I don't have a clue, I know how it's done. (3:08). The clue, the clue-ness comes from something else, but we know exactly how it's done and you can .. tap into the experience, which is received by your ancestors, or yourself through the what I call, the RNA.

Everything, even your ancestors as a mouse during the dinosaur time, can be tapped into. The STM memory is limitless recording space. If man manages to understand how this

stacker has got in a way, deeper and bigger, can go back and see the interaction, not see, but to get the feeling of emotion of interacting with dinosaurs, because that is recorded in the RNA of the man.

It depends how you take it back and how much, how you have put a barrier not to remember it. It is a self made "Alzheimer's" of the time. If your ancestors have been witness to the presence of a king, you should be able to, even bring back the visualization of that person, because it's recorded. Everything which passes the ears, the emotion, and the eye of the man, and the taste of the man, (3:10). the physical dimension of the sensory of the man emotion is recorded and kept in the RNA of man. This is how your DNA keeps its structure.

At the moment, what we call, the study of the RNA and DNA is in its infancy. In the paper written I explain this. But in the future mankind will see, when it becomes knowledgeable, you'll see the different arms of the DNA, but watch it closely, Nano micro space gap difference between one to another. Man only looks at ABC or whatever that structure is, but man has not been educated not to look at the energy field and the space gap in that arm, in that energy structure of the amino acid (AA). Then you understand everything is there.

If in the process of life you receive Cosmic Rays which have had part of emotion of another entity, you still will carry that too. The way you remember a kiss, you will have that information as an emotion, the same thing will be passed on to you, through. You will see the whole of the past, if you wish, in a visual condition as you saw it. (3:12).

Many Knowledge Seekers since the 16th have been through this, they visually explain to you, I read the reports, I talked to some of them. The 20th incursion will bring shock to many, many of you who will be present. It will be an eye opening for those who participate, actually a Soul opening, more than anything else.

The history of mankind is written in the structure of the Soul RNA and DNA of the man, from the beginning of the time. An example of it is, you don't touch a red fruit, why? Because it's poisonous somewhere down the line, somebody ?? ate it and died, and it stayed ingrained in you, because the children watched it and they ingrained it in their emotion, that this fruit you don't touch. It doesn't matter how many generations back.

Q: And we can take in space when we travel all this memory?

K- Yes. No, it's not a memory, it's the collection of information, knowledge. You can make as fancy word as you like. (3:14).

Q: Also Alex said like this, that RNA, the soul of the RNA and DNA can explain this. I was wondering this, if the crystal, and this flower of life, and Merkabah, and star formation ..
K- These are all gimmicks. ..

Q: Yeah. yes (she ignored that he said gimmicks and pursued her own ideas). Is this all the same, of course they are synonyms. That is the storage of information as a memory, this crystal, and Soul, and this is in physicality. But at the Soul level is the same structure, no? But is invisible, untouchable for our physicality.

K- Something like that. (Vague answer - she was not open)

K- Any other question?

Q: .. In the Knowledge Seekers Workshop number 167 studies on the emotions you teach us that, as we understand the value of our emotions, new questions and new ideas will arise about how to deal with and control our emotions. And try not to look at the emotion, try to look to understand where the fields of emotion will create reactions in the physicality and in the Soul, then you will find the way to the Soul. So the essence of change is the essence of our emotions, (3:16). that change as we interact with our environment. That was the quote. The question is, how can we deepen in our understanding of the power of emotion of presence in the cosmic ray creation?

K- You have ?? (your) a presence in every strength, and it's on the point of the observation, or observer, which according to him, or to her, decides your presence, or strength of presence, or what you carry. It’s what you perceive yourself to be and what your perceived to be seen by the others, and that's all it is. There's no more, no less.

R: It’s a lovely answer.

K- It's very much like, you know, you have two animals in the house. The big one sees you as a boss, and the middle one sees himself as a boss to the other one, the smaller one. Sometimes the smaller one rebels because, "I exist as well," and he barks and runs more than the middle one, which is bigger. (3:18) The middle dog sees himself between the boss and the little one. And one the boss looks at the dog as something, there I lead, and I own, and the bigger dog sees the same thing in the smaller dog. Perception. Are you the small dog or the big boss? But it's the same people, the same thing.

Q: Mehranez ..
I had a question I tried to have the traditional concepts with your new Cosmic knowledge ?? answers. I wanted to ask when this, what it's called, this saint spirit, or Christ, or etc. overcomes a spirit of a man, or a woman. After that his spirit goes, or the whole thing goes. What happens to the spirit originally of that person, (3:20). who was chosen for that mission? Does it elevate as well?

K- It elevates and becomes part of.

You cannot… Tomorrow is the Ascension of what you call it, the Epiphany, sixth of January. I had to explain this to someone in a very deep detail in the past. When you accept a Soul in the level of Prophets, and at the same time you have the STM itself, the

STM who accepts the new Soul still exists through the two Souls, but reaches the same level of understanding. And it becomes part of.

At the point of physical death, they don't part from each other, it stays as, because one cannot exist without the other. In a way it's a guest you accept, that it becomes part of ?? you, part of the structure of the life. But each one lives its own existence, its own dimension. (3:22).

Q: Beautiful, and I imagine, I'm sure that as the time goes, the more they remember, people remember that Soul, it adds to its elevation.

K- That's part of the process of praying.

Q: That's the bonus.

K- Yeah.

Q: I have another question, when you talk, I wonder how you are so non-judgmental person, so patient. How could we overcome this natural judgment we have, like, when I saw somebody, for example, the other day, I felt his cheating. I immediately felt that, and how could you control to be non-judgmental, because we have the values?

K- To react, to react immediately. That's my way.

Q: You don't react exactly, I think.

K- I react in a way, in the long term till they show themselves. And when I react it's the time when I don't accept anymore. It's both ways, it depends.

My mother used to say, you're the worst person ever, that you don't react. You have a patience of ?? "no", you know, "no" we call it. And you say. I said to my mom, "mom when things come up, there's a reason for it, why I have to experience this, and what I have to learn from it." (3:24).

But I make a judgment very, very fast, because I see the Soul, and the judgment comes in a balance of the fields, not in the direction of the words. I am very, very patient. I always say, man has the capability to elevate, man has the capability to adjust. And when it comes to a point, that it just become abuse, you just walk away from it. I just walk away. I don't… fighting is. When you fight for something is the time when you lost.

Tolerating is when you say, "ok, I can take so much of," and you wait for the other side to elevate, for the other side to understand, for the other side to be. The same thing happened with what we lost so much in past few months (millions in the fraud case). We were set up by a Knowledge Seekers, preset to be defrauded, and I could see it, but I thought, there is a reason, Foundation has to come to something somewhere because of this. And we'll see.

I did the same thing in my marriage. I watched. I always prayed that it'll elevate, it will change. But when it came to a point it will not change, I walked away. You leave it to them, they find their own way. When .. you set your life that way and you pretend to be something else it's different. This is what it is. (3:26).

As I said too many Knowledge Seekers, the wealth which goes through the Keshe Foundation, I could live in palaces, and a king's life. I never did, because Foundation expansion of the technology is more important than a house for me. When the Foundation is solid there is always a place.

Q: Yes. There is another thing, like when Dean talked about the emotional effects of soul, when the soul changes, the body, the mind changes, it's affected. Like when I proposed deeply, I really thought we have to connect the Souls, and that's our way of doing things. And we started every night at nine o'clock, CET, European time, to connect the Souls, elevate the Soul of leaders, religious leaders and for peace and justice. I was actually in the first, second day, I really felt the connecting with souls everything around. And I was very hyper feeling, I was feeling very much for example, that for example, my mother every year on, needs me and things like that. And even in normal way, ?? … was that to ?? function ?? so differently. Because all of a sudden, I was in the sea of all these souls and feelings of who needs me and things like that. (3:28). And then little by little, I went slowly. And just to announce that still every night at nine o'clock, European time, we connect our souls, and we pray for all souls living and elevation of political leaders. And everyone adds everything we need, takes a few minutes, but just announce it. And I thank you very much for guiding us through all these years, to this level, that we start to learn, just ABC. I hope we have the honor to teach others. That's the best rewarding thing I can imagine. Thank you very much sir. ..

K- .. The process of what I call, enlightenment of the world leaders and religious leaders, is part of upcoming sessions of the Keshe Foundation. A lot of things are happening in the background for that to take place in the coming time.

Q: Thank you very much. From all the people who need these changes at this moment.

K- I think you need it where you are, more than anywhere else. It needs…

Q: ?? it can hang up to the values. (3:30).

K- They don't know anything else, you can't blame them. It's just, seeing as "ones right," it's very different than seeing as "everybody's right." In time will change.

The beginning of the change of what I call, the abusive leadership has come to an end. It's just that structuring it that we don't go back to the same problems as before, otherwise we haven't learned much. But it has to come ingrained in the structure, in the people.

Q: I hope. I feel like people are learning, because if they don't learn they go again to another color of abuse. So people have to learn themselves.

K- That's what I said all the time. Man has to learn to walk away from killing, it's no use doing magic's. This is part of what we taught about the Gans. People haven't realized why we brought the Gans's and other things. Then in a very soft way, in a lot of teaching subtly, we are putting it forward into understanding that.

Even today, in the question with the Butterfly, understand the fields, understand, do you need to kill? Can you use the Butterflies as a source of energy without killing? (3:32). Can you… It's just that it has to be ingrained in the structure of the thinking, and not to be so physical.

If we do it, it's (a magic). This is what I always said, we are not here to do magic, and then it's a magician job. Rising a dead, we taught the father how to rise a dead from Naomi.

It's the process of understanding, and it can be repeated. So, it's a knowledge which can be transferred. And there's no magic.

Q: I think with your teachings, we reach a level of, I cannot say serenity, because everybody said, they wish me more serenity. But we kind of get to a level of everything is okay. If there is something bad or good is okay.

K- It has a reason to be good and it has a reason to be bad.

Q: Yes. And it's good for me. I feel like that, you know, kind of being sure of myself in a way with all the faults I may have. But I know even in bad thing there's a reason why it's in front of me. And it's good. I think it's because of your teachings, as the way you give an example all these years. I'm sure.

You know, it gives profounder, some deepness in my knowledge's, which was very little before. So, I thank you very much for this vast know-how, (3:34). a little bit of your part of the whole thing, and I try to be better every day.

K- We'll see. It has to be understood, otherwise becomes a magic and then in the future it becomes what we've seen, a lot of lies in the cover of theology and religion.

Keshe Foundation, it's belief, it's way of ethos of work should never become a theology. It should stay scientific and it should be. Everything you find in the future, don't look at what God wanted. See how God created it. Then it becomes the science. If I was at the time of Christ, I would have asked Christ, how did you raise this one? And he had the knowledge, he could tell, to transfer the energy from my soul to the soul I rose the Soul, not the physicality, physicality followed the Soul. Now you can create the strength of the field of a Soul, as you can create children without the physicality. Now you understand.

Q: ... I wish you all a very good year this year.

K- This year it’s going to be a fantastic year. Let's see how many of you Knowledge Seekers very soon, will come to see those who you came to the Keshe Foundation for. From the world leaders to religious leaders, to what we call, Citizens of the Universe.

Thank you very much, I’m due to go into a meeting with some of these intellectual theologists in the next few minutes. (3:36). Thank you very much for today. I hope we all learn a little bit, and I hope you understand what is laid out, as the last week we brought the summary of what we achieved in the past year. This week, we laid out what the man will, hopefully, try to achieve in the coming years and this year. But we lay the first steps of the man to become man of universe, and travel with a new technology than the old, what I call, fuel based, solid fuel based, and gas fuel based, of rockets, and cars and the rest of it.
Thank you very much for today. Hopefully we meet next week and share more knowledge somehow, somewhere. Thank you Rick.

ENGLISH TRANSCRIPTION

(:18).
K- Well, they too, as usual, wherever whenever you listen to this series of Knowledge Seekers of Keshe Foundation Spaceship Institute, in sharing knowledge and understanding each other more in how we came and where we go. This session for certain reasons had to be changed to later on. We'll go back to normal timing from next Thursday as usual. And we'll see where we get. Next week from the 20th, we have a special session as many of you have joined us, and have signed up to be part of the 20th what we call, interaction of the Souls.

Many of you have written and asking question, what would be on the 20th? What will happen? What's the purpose, what we're going to do? We gave you a Christmas gift. We allowed you to. We created a condition to. We made facilitated a condition for the man for the first time to see how he connects with his Creator.

In time, we have worked. In time, if you go back, by putting the Gans's into the rivers, cities as many of you do every Sunday, and other days, you continuously add energy, Gans's, literally like a Sun. You add to bring the balance to what this planet through its strength of ?? field of creation, did not give to the man, (:20). that the man had to get it by what we call, "the 20% dimension of energies," by consuming energy in packages of this planet.

The same thing has happened in past thousands of years, when man could not get what he wanted, or when he saw other things from this planet. So his weakness, and he got himself to accept other people's, who maybe understood, or maybe did not understand, as people who will guide him to be able to be safe to get what he wants. If it rains, he did the "Dance Rain." They sacrifice bodies, because they said, then the things will change, the drought will die (end) and everything else. Then he saw himself weak in respect to this planet. And he started believing in statues, something that I know is there, but I have no access, but I will make something out of it. And then I accept it to be a stronger than me. So he created the statues, stones, woods, in and shape, or form.

And in that process, man who understood and got elevated by the process of the understanding at the time of its life, they got enlightened, they saw more of. Then we call them the "Prophets." And in that process, many of us, as the human race, chose one to the other, and in a different name, we accepted the same Soul. We accepted understanding of that Soul in the physical dimension. But in a way, the Soul as a soul of, connected to the Knowledge of the Universe was no fault in it. But the Soul in connection to the man has deviation, he had impurities, he had something which would not fit into the other part. (:22). We gave, and we still do give Gans's to this planet, regularly, to change, to bring that change in the physical dimension of the Soul ?? of the planet.

Now man has to understand from what happened on the 16th of last month. On December 16, 2022, we took you to join the Soul of the Prophets, in what you believe as Messengers. And then collectively, you came to understand, to connect to the Soul of the Creator. We saw faults in the structure of this planet, and with Gans's and the new understanding of the fields of the plasma, we started correcting it.

On the 20th, we take the next step, to bring correction to the Soul of those who we call Messengers, which you already have been in touch with. Elevation of the Soul of them, the collective, but perfect collection of the Souls of the Man (STM). We complete the other side of the elevation of the STM.

What does this mean? The Prophets have two souls. One is the STM, and one is the Soul as a Messengers of the Creator. Understanding elevation of the message of the Creation.

One is faultless, and the other one has faults. It's the responsibility of man today to correct that part. To elevate the physical Soul, that in that point, we all come to understand, that through their elevation, their followers get elevated, and all become equal. (:24).

World peace is not possible by just stopping the guns and the bullets, because in another few weeks, in another few months, in another few years, man will go to it again. We'll kill again. We'll find an excuse to kill. As we perfect the Soul of this planet to feed its citizens, the way now we have learned through the Cosmic Rays (CR) to feed the citizens of it, that they don't kill anymore. And this process has already started.

Now we have to correct, the perfect the Soul of those who we believe in and trust, with the Soul of the creator. We call them the Messengers. One of the main reasons of the 20th of January is for you to directly to become, individually as a whole, in touch with the Soul of those who you believe in, to elevate them in the Soul of Physicality (STP). Collectively as citizens of this planet, you elevate the STP of anyone you believe in. Because the Soul of the Messenger, as a Soul is perfect. It's the STP, which is in a way, it's the Spirit of the life of man, has faults in it and needs correction. And when that correction is done, peace will come.

In a way you become a tool to elevate the weakness, to correct to, and bring back the Soul of what went wrong, to correct, that in that, we'll transfer of the knowledge to his followers, will correct them. We corrected the 10 Commandments, and completed. But we corrected the message. (:26). But we did not correct the conduct of the Messenger itself, the killing he carried out. We did not correct the ones who beheaded people, as the way to be believe, in the Creator.

The purpose of the 20th is, as Soul of those who we believe in world peace, in oneness of the humanity, in oneness of the Creation, to elevate those who we believed in, to be correct in the dimension (D) of the physicality (P).

So, next Friday, you asked me many questions. The answer is, you will meet the soul of you, those who believe in. For you collectively, from all paths of life, to correct them one by one. One by one. Last time we allowed you to elevate, to join the Soul. This time we allow you to elevate the Soul, which you in the D of P believe in. But in the D of P that Soul failed to complete the cycle of.

Now you understand. And this when it happens, when it completes itself, brings peace, a permanent peace on this planet. We have gone through the correction, the elevation of the Soul of the planet and its citizens. But the citizens have one fault, they are believers. They have accepted to themselves to believe in the words, in the way of the Creator, but they have seen the faults of the one who brought the message. Once that is corrected, we will see the followers of each religion. (:28). It's like the STP of the structure of this STM, the Soul of Creation will be perfect. And a perfect Soul will not create war.

Peace on this planet, peace to be kept for the universe cannot come, unless man understands where the weakness was, ?? which we correct?? We still get your energies from the Cosmic Rays. But through the path of the emotion, you're connected to the man who has done wrong. Beheading, execution in the name of something wrong, that God and the Creator. Or to believe in one.

We stopped the animal behavior through the dimension of 20%, but we have to stop the animal behavior through the Soul of the interaction of the man in the path of his belief. Otherwise we stopped the physicality, but the emotion will force to kill in the name of God, be it Jewish, be it Muslim, be it Christian, be it Zoroastrians, be it Buddhists, or any other way the man believes in. It's like repairing a car, (but) leaving one tire punctured, and hoping that the car can go perfect.

You in the dimension of physicality, by adding to the Gans's and to the understanding of the correction of the fields of this planet and yourself. You have corrected the dimension of the Soul, but the dimension of the emotion of the Man has a weakness in it. This is why we see animosity between the Jews, Christians, Muslims and everything else.

Because once you understand, the whole thing is from one. But in the weakness in the physicality has caused the emotion of the man to take the next step. (:30). We shall see the end of the wars. The war between the STM and the STP of the Man, in a dimension of accepting the Messengers of the God. The message itself is perfect. It's the Messenger, which has a faulty soul, in a dimension of the STP.

How can you say, "I believe in Christ," and he says, "Thy shall not kill." And then you kill in the name of the religion. We told you not to kill. Unless your Soul has elevated to understand the message was given the wrong way, because of the weakness in understanding of the STP of the Messenger, and it's your time to correct it. Then you understand, the true peace will come with the STP and the STM in the dimension of fields of the Universe (U), have no difference, they become one and then you find the peace.

The man who brought the message of, "thy shall not kill," he killed more than any other creature at his time, and his duration of existence in D of P on this planet. So what was the message for?

The man who says, Peace in the word of it says, at the a beginning of, creates war by killing the man who does not believe in him. The fundamental of the whole understanding of what he brought, only fitted on the paper, not in practicality. (:32). Now, you understand, to complete the process of peace, has not come just by guns, but in the emotion of the Man, in the belief of understanding where it went wrong from the path it started.

Now you understand, then we explain to you what is to happen in the February meeting. When you come on, Friday the 20th, come fully armed to understand the responsibility you accept, to be part of, to be a collective source, to elevate the Soul, the physical soul

dimension of the man who you believed in his work, in showing you the path to the Creator.

Now you understand. Now you understand what we told you, don't be surprised, that the STM at this moment of time, in a collective awareness has become so bigger, and much stronger in elevation, in understanding, that now has the power to correct the man who he believed in from childhood, from the first word, in his STP, and in the message of his Message.

Now you understand how perfect the present Soul, of those who believe in the truth of understanding of the work has begun. You believe, you understand, because you did on the 16th. You saw you all have the power to become one. (:34). And when you look at the figures, when you look at the pictures, when the STM joined the Soul of the Prophets, we saw vibrations, we saw inconsistency. Because if He was one, the STP of the Prophets were correct, we should have not seen that. It should have become a straight line from that point. Means the Soul of the Messengers has a fault in the structure of the STP.

As you, as Man, you joined the Soul of the Prophet in the dimension of the STP before you as a lot, you became to come in touch with the Soul of the Creator, and you became one. Now, do you want to be the one who's going to correct, who is going to be part of remedying the STM?

We can stop the war with armies in the National Front in the nationalism. But we see the religions in the back, in the name of the Creator through the faults of the physicality of their Messenger, create a war through religion. We ended the wars two years ago. We saw no more war, all coming to an end. And then we saw the flaring up in the Ukrainian war, again through religion. Because it was not fixed. At that time, we could not tell you, and we kept on telling you this is a war of religions, within the religion, within the "72 ships of Name of Christ," bless his name. In the Soul of the Creator.

Man will not have peace on this planet, till he elevates his physical soul of the Messengers, who brought the message of peace, and they themselves destroyed it. (:36). "A Salaam ?? " Salaam means, "peace on you." How come the Islamic religion beheads? There is a fault in the Messenger, not the message. Thy shall not kill, and we see most of the wars financed by Vatican.

So once you elevate the STP of the Messenger, he through the belief and connection to what is believed in, corrects the Pope, Ayatollah Khamenei and the rest of it. And we will see the lasting peace the man has been praying for.

You cannot stop a fire, when there's a little fire simmering under, the name of religion. Where the Messenger himself had a fault in the structure, creation of his message. How can you say salaam, "peace on you," when you, I behead you if you don't believe in me, or I don't get what I want? Now, you have your answer for the 20th. Join as many races, colors, religions and path of belief to elevate the Soul of what you believe in. Even your

Atheist, you still believe, because you came on the (blood) line of the people who believed in them.

Now you understand what is about to happen on the 20th. You will meet with the Soul of those who believe in, in the message of the Soul. Elevate them. Give them freely, that the STP becomes the same as the Soul of the Message, and the Messenger and the Creator. That we will see the lasting peace, not only on this planet. (:38). Then man will not be fooled by no magician across the U.

You don't need to accept any more Messengers if you understand the truth. If you understand, even those of you in the future through your Soul, or subdivision of your Souls, become the Messengers in another part of the universe. The conduct, the message and the Messenger and the Soul of Creator shall be one.

Peace on this planet will not come unless the essence of the foundation of the Soul of the Messengers who brought the message of the Creator is corrected, elevated. Becomes to understand that by elevation of them, that the conflict between the STP of the Messenger and the Soul of the Creator as a message, become one. Then that as every plasma connected to by the path of belief will be perfected.

Ayatollahs will put their turbans on the floor. Vatican will shut itself, because they get the message through their Soul. We see the end of war, we see peace among the dimension of physicality, and the STP and the STM on this planet and beyond. This is the only way man will find peace with himself, with the paths of the belief, and the path to his Creator.

Now, how many of you would like to meet with your Messenger and tell him, you brought me to believe in the Creator, but I'm here to elevate you, to believe in the path of elevation of your Soul too, in a dimension of life to be correct. Where you went wrong. (:40). We don't touch the face of ?? it, that we become another one to be killed. We come to elevate the Soul of, that you do not want to see the picture of.

The 20th of January, 2023 is phase where a number of you who are chosen to be, and you'll come forward with the dimension of the Soul, will come to see your own Messengers in the dimension of the Soul. Some of you might face to face see the physicality or the dimension or physicality, or feel the dimension of the physicality, or even see their faces.

I gave you one promise, I'll take you to see your Christ. Next Friday, you can try. And see if the message and the Messenger need elevation to become. The same of those who are in the name of Mohammad, or Moses, or anybody else.

The level of understanding, which means the understanding the elevation of STM of today, has reached above the level of the Soul of the Prophet of the past. Because now you know the truth and there is nothing to be hidden, and there's no Messenger in-between. Not even me. We are teachers, not Messengers.

You have to come to a point to understand that the world peace on this planet in the world of the man will not achieve, (:42). as long as the man creates a division in the path of the way, as you all became one, on the 16th of December. For the first time you all became one. There was no religion except your Souls. Even the Soul of your Messengers became part of yours. We don't see different lines, the Soul of Christ, we don't see a line for the Soul of Mohammad, we don't see a line Rick, we don't see a line John. It's one line. And ??in 4 systems, all tells us the same as one.

Then you understand how important the next coming weeks and months in the cycle of the knowledge shall be. When your STP and the STM become one you can transmute. That's why, go back in all my teachings, I said, the world leaders will walk away, because they cannot bring the STP, which did so much wrong, to the STM, to be equal to the Soul of Creator. Now you understand.

I have given you the teaching, it's for you to understand the message, and become the Messengers of your own Soul, and nobody else's except yourself. Now, it's very clear where we are heading for. World peace will not come through the financial stability, world peace will not come through putting the guns down. (:44). The world peace will come when the STP and the STM become one. And the STP of those who you believe in has never came to be connected to their own Soul, as a Soul of the Messengers. That's the mayhem we have in the name of the religions. One on the Friday closing, one on the Saturday shutting, and one on Sunday going ringing the bells. Then, if you get another four or five Messengers, you will be closed the whole week. What's going to do on the Monday, Tuesday, Wednesday and Thursday. So, we need 4 more religions and the paths of belief to complete the week. How ridiculous. Now you understand.

Now you see how the progressive development of understanding of the elevation of the STM has led the man at this point to understand that in Soul he is the same as the Creator. As he could not be any different, "I made man in the image of myself," I've made man out of my own Soul. How can it be any other thing?

Now many of you will try, will see, and you try to understand what is about to come. Come with me on Friday the 20th of January, 2023, to meet the Soul of your Messenger. See, if you have reached that elevation of Soul, that the elevation of your Soul can elevate the Soul, STP of the man you believe in. (:46). Then, you understand, do I need Messengers, when I can elevate the Soul of my own Messenger?

But he forgot to tell me not to kill. Because this way, he wouldn't become rich, he wouldn't become king, be it the King David, or being a king in the false desert of Saudi Arabia.

Now we understand. For the first time maybe you've come to comprehend the reason as Teachers we come. To enlighten, to teach the path to enlightenment of every Soul, and not hidden that will be for a few to be kept in churches, in the mosques, and temples, that then we can abuse the others with what we know.

Maybe, maybe again, for the first time you come to understand the purpose of these teachings. We seek the knowledge of peace, we seek the knowledge of love, which is the essence of the Creation and the Creator.

Maybe, maybe now you understand why you are here, why you and the generations to come will listen to these teachings and become wise not to be fooled by magicians of the universe. No one can pull a rabbit out of the hat, because you know he put the rabbit in there before, you noticed. (:48).

Maybe the time has come for the STM to become educated in the Soul of his own existence. How do you feel when you go as a PhD, as an engineer, back to the primary schools you came from, you sit with the teacher, and then you teach your own teacher? You explain the extension of the knowledge, that he or she didn't know, that elevates his soul to understand as much as you. This is your job next Friday, to go back to your teachers, to Messengers, and elevate their STP to understand that they could not steal from you.

That's why the whole structure of this planet is in this mayhem of today. You cannot do one without the other. We silence the guns, all of you brought the peace. Now we see the religions have started it, in the name of Ukrainian Catholic Church and the Church of Russia. The Israelis opened an office with the Saudis and with the Emirates. The others do with the others, but the Christians are at each other's throats in the name of Ukrainian war. Because the Commandment was a stolen from, in the soul of the essence of the Messenger. Now the book of wisdom of peace for man is open. How much wise and how wiser you are to be part of to bring that change. (:50).

When you sit in front of your teacher, you say, teacher, this is what was taught in the past, I learned this in university. And this is what is the new science. The Soul of the Christ, the Soul of Mohammad, the Soul of Moses, the Soul of Buddha, whatever you believe in, needs that elevation in education to understand what it is, what has been, and what it has to be. You become the Messengers of your own Messengers through the dimension of the Soul, to teach the STP.

Maybe those wrongs by them, through the giving by your Soul will be corrected, elevated, and man will find peace in 2023, in the true essence of the peace. Then you become the true Messengers, true passengers, and true .. passengers of the universe.

Maybe today's teaching, the message is complete. Maybe you understood for the first time why you're here, there is another piece of the jigsaw which was missing. And today we put it there, there and then. Maybe the world leaders of the religions they call themselves, being elevated by the Soul of their Messengers, that they believe in, in a false way, will elevate them, that they walk away from religion.

The only religion is the path to the Creator, and no other. You make name for it, but in fact the truth is, it's all one. The messages are coming, the teaching are becoming very

fast, (:52). many of you will becoming punch drunk with the understanding of your strength of your own Soul. I didn't know I can do that. I can elevate the Soul of the Christ, I can elevate the Soul of the Moses, I can elevate the Soul of the Physicality of Mohammad. No Ayatollah can put a "?? " on me, as they put " ?? " on themselves.

It’s the end of the religions, because you come to correct that religion yourself, that the man will become one between the STP itself and the STM himself and the Creator. The system shows you. What you see, a straight line, it’s the collective Soul of you 160 people plus your Prophets, we did that shrinkage and jumped before that, and your Creator.

Many of you were in that meeting. You participated through your Soul, even with all the noise of physicality in front, can you show me any of you, which line, which dot is your Soul? Can any of you tell me, which bit is yours, because you're all one? The end of conflict on this planet and beyond, and man to teach this to the rest of the universe is through true understanding of what is, what has gone wrong, and correcting the wrong. First man through the Cosmic Ray does not need to kill.

In a very short time, we'll teach you how. You already have seen, some of you. (:54). And the other is to elevate the STP of your Prophet, which has done so much wrong. He came down the mountain with "balance broken" on the way, to benefit himself, instead of bringing what it was, " They shall not kill, thy shall not steal." He went to kill and steal from every tribe in Palestine, in the name of whatever.

What happened to the message, when the Messenger does exactly opposite to what it was supposed to do? What he brought that message.

Touch me, I take your Soul to be elevated, that you forgot even you can touch.

Now you understand. Now mankind is ready for the true peace. You will have find through the elevation of the rays of the universe, the elevation of your Soul that, "thou shall not kill" physically, to take from the rays. But the ray of the emotion has a conflict in the way, the path of your believe you came, for those who were the passenger to, and the Messengers from. Correct that, man will find peace on this planet and beyond.

And Friday, the 20th of January is that cycle. Come and meet the Soul of the Christ. Many of you came to Linz and touched, and felt, and became with him. So, we don't lie. (:56). Come and elevate the STP of those who you believe in, which in the dimension of physicality they failed to deliver what the message was, which they bought themselves to benefit themselves only, and have forgot the true message which came with it.

Teachers, when you make a mistake, they put a red line and they say, that’s where the mistake is. I draw that red line today, that’s the mistake. And that's where man will not find peace. And it's your job to bring that, when you correct the source, the rivers down the line will not have poison in it. Now you understand.

Join each other to bring one, not by going teaching as mosques and synagogues. But elevating those .. the Soul of those who created the basis of these places, that it all has to be called, the "house of God." It does not matter what you called it. The path to the Creator.

I hope you understood what the message is today. And I hope you're strong enough to face your Messengers. This is the fulfillment of what I promised. I promised you I'll bring you to see the .. Soul of Christ. Next Friday is your time. (:58).

But you have to understand the Soul of the Messenger itself has not been elevated. Even though he brought the message. It's like your lover writing to his loved one. Putting in the envelope. And the postman is a criminal, he delivers the letter of love, but changing it to suit himself. And this is what happened with the Prophets of the past. The message of their love from one lover to another has not changed, from the Creator to the Created. It's the postman who has tampered with the message. It's for the lover and one who is to be loved, to understand that the love between the two is true and unbreakable. Does not matter what criminal carries the message and the envelope.

I hope you understand, and I hope you're there to be strong enough to understand what is to be done next week. You wanted to meet the Soul of Christ? Join us next week and see if you have elevated your own Soul, that it can become the elevator of other souls, and the STP of the others. (1:00).

Then you understand, "I made man in the image of myself." And on the way somebody throw the stone to deviate that image, but cannot. Now we know the truth.

Thank you very much for today, and I hope you understood, and you received the message from your Soul, not from any others. We'll go through a small break, come back and we answer any questions you might have.

<< BREAK >>> 467 KSW January 12, 2023 (1:06).

Q: .. I have a question about elevating the Soul of the Messengers. I understand like in the case of Moses, the dichotomy between what he was, the message he brought, and or in the ones, that the tablets that were destroyed, and then his actions following. Many of the other Messengers maybe I don't know enough about their lifestyle, or their lives. But I always attributed the actions of enforcing a religion, (1:08). or a follower of a certain

message, to the followers themselves, the leadership, people who took it upon themselves, to say, this is the way and this must be followed. And then the killing followed to enforce a certain path of belief. I didn't understand. And I kind of don't understand that it was the fault of the Messenger, rather than the fault of those who followed

K- The Messenger sets the example. And those who were near them, followed them, and then it became the path of the rest, because they did the same.

Q: So the Messengers themselves had an issue with them being the sole arbitrary of truth?

K- In a way… Let me explain to you in some way so you'll understand. Today, what we see with the Zoroastrians, yeah? They're try to live the path of Zoroaster, talk good, do good, and act good. If you are amongst them, you see them living that kind of life. It doesn't mean they're perfect. They still have their own problems, they need elevation.

When you look at Islam, Muhammad pushed the religion by killing, you have to say one sentence, if you didn't say, he beheaded you. And then he told his uncles and his cousins, don't touch the Iranian Empire, because they're already believe in Christ, in God. What did they do? The minute he died, they went for it. How could he do, but we cannot do?

We see the same thing in the Jewish cycle. We see it today. (1:10). The same thing came through Christ. Because he was, you call it the Old Testament and the New Testament. What would happen if Christ would not be killed? And he would have gone through his natural cycle of life, 60 - 70 years. Would we have seen the end of? Or would we have seen another cycle of? The end of wars, the end of what he was promising, or a new cycle of killing and everything else, which his followers through their own benefit did.

Now there is no followers, you don't need to follow no one except yourself. This is the whole essence of elevation to understand. So, that's what it is.

It's a very, very strange combination. When I look at it. I was talking about this in the past few weeks, coming from the blood of Persia, belief in Mitra, belief in Zoroaster, belief in the three perfections, in blood. Coming in a mixture of understanding the ethos of the Moses and their flaws. Coming and understanding the mixture of Muhammad and his flaws. And you stand in the middle, and you marry into the world of Christianity, and you stand in the middle.

Ask yourself one question, (1:12). what are all these mayhems about, when the essence, in true essence, I carry it within me, in what it is the essence of the three truths about the life and the universe. When you say talk good, do good, think good. You have no time to create mayhem, you have no time to contemplate on the wars, except loving. That's the result of it. It's not just the three. When you put talk good, do good and think good, the only good thing that comes out of it is loving, which is giving.

Then it comes to the essence of Creation, and then you see the flaws in all the religions. Because believing in Zoroaster, believing in Mitra it's the essence, it's the emotion, it's understanding, it's not a religion. Understanding the truth about the Creator, and the love and giving. And you see how they have used it to create resources and sources for themselves, to satisfy the physical soul, that is different. And then we all become different.

Genetic changes has no superiority, black, white, yellow, whatever. Enforcing it then becomes a criminal act, then it becomes wrong. Then it becomes slavery of the STM, not the physicality (P) of the man. (1:14). You came to understand it's wrong to have a separation and division because of the color. Now you have to understand for the religions. Then you understand the source of essence of the living.

You say, don't shoot the Messenger, but the Messenger who is the one who has tampered with the message. He opened the envelope and took some words out, and he put himself in there for him to be the connection between the two lovers. You want to tell me, your lover, you love me, tell the postman, he'll come and tell me you love me. That's what happened, and the postman fell in love, so I use it. Yeah, I love you. He might love you too, but I love you more. Do it my way.

That's what the Soul of the Physicality (STP) of the Messengers did, they tempered with the message, they didn't deliver the balance. That's all. It's for you to open the letter and correct the letters in the letter. And then you find it says, "I love you," and your lover reads the same.

Q: Okay, I think I understand Mr. Keshe. I accept that the followers got their way of following by imitating the Messenger. But next Friday, when we are present to elevate the Souls of the Messengers, we can only give what we have, we can give…
K- You do not know what you can give…
Q: We can give .. (1:16).
K- When it comes to the level of the Soul, you do not know what you have till you get there and you find out.
Q: Okay, but where I'm heading is…

K- Let me tell you one thing very clearly. When you're there, in the true essence of dimension of the Soul, then you understand if you look at that graph, which is there physically. You tell your Messenger, I have the message from the Creator, and I know what it is. Would you ask, why did you stole the 14 commandments? Why did you tell that, not to kill, but you killed more than anybody else? Why should it be the kingdom of God, when actually the king is God and so I'm proud of it, there is no kingdom?

Something very interesting for you to understand. The Queen of England has died. She's gone. When I went to England about 1973 and 1975, when it came to Christmas, because we lived in the house with understanding of the English mentality of living. And being in the world of the, what we call, English culture, and English life, not getting involved much with the Iranian community, it was very interesting that English people in nineteen

seventies, on the Christmas day, made everything ready for Christmas lunch, the turkey and everything. And it had to be finished by 2 – 2:30, because the Queen spoke at three o'clock to her subjects. (1:18). By 2:30 everything had to be done. Because the woman who was supposed to be the leader of a nation, the Queen, wanted to speak to her subjects, who accepted that position. And in her speech she said, "my subjects." I laughed.

I said, I come from the kingdom of Iran, we have a king, we have Shah. I had never heard such a bullshit. I am a subject? We accepted they are perfect. And now we see the mayhem in that kingdom. We accepted the false, we accepted that position to become subjects. Where in fact we're as much king and a queen as they are. Maybe you're even better than them, and you can teach them how to be human, how to be correct, how to be a lover. So, there is no fault in you, how can you be any lower? You understood more about the love than the Queen did. How can you be a subject when you know more than your principle? We accepted that position.

We are no one's subject, and we are all equal. But we know a little bit more, we share it ?? little more. We can correct this position and this situation, (1:20). by teaching, by elevating, that's what it comes. It's the time to elevate the STP.

Now we see the Queen of England gone. A man who was supposed to be heading so many charities has become a king. Now he cannot be involved with the charities, which he has spent all his life to make them charitable. What happened? Is it the time to go to him since he is still one of us, "you did all sorts, much." Many of the charities Prince Charles has started as a prince, now the king, are in problem. Because they were not the true essence of what he wanted, because without him they don't exist. Do we need to bring him back to be the head of charities, or part of it, for the charities to exist? Do we need to elevate him? Just became, now you become a king you have to bring more charity, you have to bring more in the charity's ?? use of your lifetime, can become more effective.

There is something wrong in man accepting somebody is higher than him. That brought the kingship and that brings abuse. And when Moses came off the mountain, he thought he's better than the others just because he received some messages to give. That's where the problem came. The same happened with Muhammad, the same happened with Christ in different ways, the same happened with Buddha, it doesn't matter how the Buddhist put it. Look in the details of his life. (1:22).

Q: So, is it up to the Soul of the Messenger to accept the elevation?

K- They are ready to accept, otherwise we would not be here. It's not accepting it, it's elevating to become to that level, to become part of. Accepting is the wrong word.

Q: So, they just wish to become part of what we are part of as well?

K- Yeah. What it was missed. What was abused. See, when Muhammad received the message, they keep on talking about fire. We know that, because now you can create the fire, through your interaction of your Soul you can create a fire. How many times I've told you, put your STP through your hand and your Soul to come ?? from and you'll see light in your hand. That's what they saw. And that light of the Soul was the Soul of the Creator.

How they explain it as a bushfire, a tree got on fire, and blah, blah, fire. We couldn't say, "I have a light," because there was no explanation of light at that moment. Now scientifically you understand, two plasmas interact to create light, because that's how daylight is created. Now you understand.

Then that STP when you saw the light, the emotion came and took control and became the hand of killing. That's all it is. Punishing the Soul of Moses for the wrongs he did will not solve the problem. We become another bunch of hypocrisies and ?? Hippocratic action. Elevating, for it to find out what he's done wrong, then he puts it right through the fields, which he created. His own followers will go. (1:24).

If I'm going to fight with Vatican I become another "antichrist," and the rest of it. When he gets elevated, he's the true Christian, through the Soul of the Christ, if you have been the cause of it to elevate. He will put his, "whatever" down and he walks away. It won't happen in the day after, you have to understand, it has to be kept on. The way you have been feeding the Soul of this planet for years. Now you feed the Soul of .. Because they're weak. The STP of the Prophets are so weak, that is even weaker than a little child. That's why they committed the crime. That's why they brought, breaking their own rules, their own messages. You have to keep on strengthening it. You have to feed it till it becomes strong enough to become the STP and STM and ?? ??.

Q: Okay, thank you Mr. Keshe.

K- You're welcome. You will understand what is to come. And in one way or another, this had to be put on the table to be sorted, if you, as you as a human race are looking for everlasting peace. Because the emotional side, which comes through the path of the belief of the emotion, will not allow man to have peace if it's not sorted. One wheel is punctured.

I said to diplomats in very recent past few days, you would not sort out the situation in Iran by revolutions, by others. You have to go into the mosques, you have to go into the Soul of the religious leaders, (1:26). that there they confess to the wrong of their own, through their own action, that the people will not need to go to the mosque. Then you have the revolution ?? solved. But the problem is, this is not, will not be only affecting the Iranian nation, it will affect the Vatican, it will affect the Jerusalem, it will affect the Buddhist temples. Because all becomes the same, all will fall in the same path.

You know, we, all our ancestors, in one way or another, believed in different statutes. It doesn't matter where we came from. Then they believed in fire, or whatever else. Then

they believed in religion. They called it, because this way they could meddle with something nobody could see. It wasn't a statue, it wasn't a fire.

Now the knowledge of the Knowledge Seekers (KS), the people who come to be enlighten with Knowledge of Creation, don't need the statue, don't need the fire. The same you don't need a religion. Because you have found the elevation of the Soul to the path to the Creator yourself. But do not fall, that you call, you become another Prophet. Because you did with the people you teach. You still have to stay humble. That's why we always call Knowledge Seekers, because even if you understood that you still have to seek the knowledge of the Creation, which is never ending.

Then you understand the whole cycle of Creation, then we play you want to travel, (1:28). you want to go there, whatever else. Has God stop traveling because he is the Source. He is expanding His universes and Unicose's. Because it's there to create more, to enjoy more of living. Just because we gave you the food and the energy, you don't sit in the corner, I'm not doing anything. I have everything.

Now the process has started, there is no way one can stop it. Don't come with a preconceived idea on Friday the 20th. Come there with the understanding of the truth about yourself. That's all you need to do.

Q: Very well, I will. Thank you.
K- Thank you very much.

Q:.. The topic is, "Background Fear Gone since December 16, 2022." After many years of intense spiritual practice, I came to know that there is a background sense of fear that is already in the environment, and one feels it the first thing when they wake up in the morning. But usually we cover it up with coffee or distraction. Our personal fear and anxiety is something different that comes later. I have confirmed this with other people as well. But the majority of the people are not aware of this. I noticed that since December 16, 2022 that the "background fear" in the environment of the Earth is gone. (1:30). But I still can have personal anxiety. Can Mr. Keshe share any knowledge about this. Has there been a shift at a planetary level away from fear?

K- I was talking to one of the Knowledge Seekers, I'm sure he is here. They sent me a message about the 16th, and then a few days ago and I was talking to them, they said, did you read, did you understand what was the message, what happened? Some groups measuring the fields there on the 16th, they saw a change, and there was no reason for it. Was that because of what happened with 16th meeting of the Keshe Foundation? Was that reason? We can find any excuses to connect one to another.

But once a collective soul comes together, it can bring that change.

On Tuesday of this week, we made the second test to transmute one of the Knowledge Seekers from one point of the Earth to another. We connected the systems of the everything we have, that it's not just that we talk. We wanted to see that we can measure,

that we can graphically, scientifically see the time when the point of transmutation starts and stops. And now physically we have that data. The same as you saw the graph here. From the second decision was made, that the physical body to move from A to B, we see suddenly the change in the structure of the energy level in receiving. (1:32). But there are other bits. This is part of the test which KF is carrying out.

Maybe next Tuesday, Wednesday, we'll do the first transmutation. Because we see where there are weaknesses. Maybe next week we'll see other bits we need to fulfill. And graphically, the way you saw the graph, and all of you became in line with the Creator on the 16th, now we have the same in transmutation. Transmutation of human being and in essence has started.

But there's a very big "butt" in it. That is not the one you sit on it. And that is, to become able to transmute you have to reach the state of the level of the equality in the strength of the STP and the STM.

We see it scientifically, we see data physically, we see it graphed. It doesn't happen a second before we start, the transmutation. It doesn't happen when we stop. It happens during the time when the transmutation takes place. If our team works successfully in the next few days, plus what we are setting on the other side works out perfectly. In next few days or weeks, we will see the first man transmutation. Because now we have scientific equipment, now we developed. Our team are putting the pieces together, that by next week we have a new test ground run. (1:34).

So what would happen in that 15 seconds? What would happen in that 30 seconds? What would happen in that seconds from transmutation starting from one point to another, when the STM and STP of the man become one, perfection, with the Soul of the Creator? Would you come out on the other end with defects? One leg missing you have the leg back, you have a cancer, you don't have a cancer. We are not there to what you call, test ?? that. We are there to show man can travel in the dimension of the physical life, in the dimension of the Soul, in the dimension of Cosmic Rays.

What will be the consequence of it? You come back with more cancer, you come back with two legs missing, is what was your preconceived idea before you go in. "When I manifest in other places I don't want to have two legs." Because then they say, oh, I traveled, I lost one on the way. Or I comeback nobody knows, I'm humble enough to walk away.

This week when we tested the first transmutation our volunteer had his passport with him. Then we have to ask the other questions when you reach to that point. Could Christ do this? Did Muhammad do such a thing? Why didn't they show it, if they could do it? (1:36). Then it shows the STM reached more balance than its own Messengers. Then it comes the end of the religions.

But don't become arrogant with what you achieve, become humble in what you receive, the elevation, understanding. It was very interesting to scientifically watch the transmutation.

Now we even know how long we have. The gap of transmutation now it's very clear for us. We have so many seconds. But you asked me, how you can do this? It's very simple. I'm a nuclear physicist, I am a scientist in the dimension of man's understanding.

The body of the man at the point of death releases an energy equal to 18 plus "Hiroshima bombs." So, the body of the man when it transmutes as an energy dimension, inside itself in the dimension of physicality and the plasma of itself, that it has to be contained. So the Soul must be over 18 Hiroshima bomb energy, in a plasma state.

If one Hiroshima created so much energy release and what I call, (1:38). confirmation of its quanta of release in Hiroshima, then 18 of them in motion has to create an effect, and if you have the systems you can detect it. So, the question becomes very easy if you understand it.

You had last week, sorry, on the 16th of December, 160 Souls, let's say 150 Souls, make it easier. You have how many? 2,700 energy of Hiroshima, which bigger than that, and motion on this planet. Now the answer to our Knowledge Seeker is, the people and organization detecting whatever says, what happened on the 16th of December? Nothing was happening, but they detected something. Yes, 2,700 Hiroshima energy was on the move to the Creator. Now you understand. KF is a scientific organization. We don't go by mysteries and guesses. We work by scientific data. We create systems to show the science of Creation. Now you understand.

How many of you will turn up on 20th to see the Soul of the Christ, that's your problem, not mine. That's your level to see yourself even bigger than him, to guide him, that through him you bring peace. It's your responsibility to be there, if your Soul carries a strength that matches his Soul, (1:40). that you can elevate him to become, that through him Vatican finds "end - zero" to itself. We find peace in Ukraine. Man finds peace, and the religions comes to one thing - "do good, act good and think good." It's very simple. Now you understand.

Would you like to be there, that you might carry the strength level which was missing, a part of it that was missing, in the strength of the one of the Prophets you believe in? That by elevating the STP, you can match it up with their Soul, that through their fields. Remember what Einstein said, when one atom changes the other one change. Through the elevation of Soul of the Christ, you change the Vatican. Through the elevation of the Soul of Muhammad, you end up with the rubbish we got in the name of Ayatollahs, ?? and the rest of it.

Now, nobody can give you a "death sentence" for meeting the Soul of your Prophet. You go to sleep to see it, but if you talk about it, it's a criminal (offense). Who says? A criminal, a thieving postman calling himself Ayatollah.

To change the man you have to go to the root of the essence of his problem, and that's where it sits. Then, do you see anybody higher then yourselves, that you become their subject? (1:42). Or they're subjected to your scrutiny, and they failed?

I put this question to one of my children some time ago, maybe you all are each other's understanding of the Soul. Would, when the man understands that, all Souls are equal, all men are equal, there are no kings. Would the man flatten, burn, destroy anything which is called a castle, a palace and everything, that nobody in the future might think about becoming or creating another dimension ?? of this, not even a dog, let alone ?? another man? It's time to move. It's time to understand.

Any other question?

Q: .. I was present at the Soul Plasma Flight experience on the 16th of December, held by the Keshe Foundation Spaceship Institute. And I'm very interested in learning more about this technology and how my soul can interact and evolve with its help. My question is, whenever a person moves from one point to another on the planet or in the universe through transmutation, (1:44). will their physicality be different at the point of arrival than it was at the point of departure? Would a person who has implants, transplants, or lacks a body part keep those implants and transplants and these disabilities? Or could they recreate the lost organs through this transmutation process? Thank you very much Mr. Keshe.

K- Do you need it? If you end up on another position in the universe, and you need 20 arms and one leg was missing, would you have .. 19 legs there? Do you need… I will put it to you in a very simple way, because I put it to a bunch of children in the school one day.

If you lose a leg here, and you appear in another dimension, another position in the universe as a jellyfish, as a fish, as just whatever, do you need any legs? Or would part of your bits will be missing, because you didn't have? Or you appear as it is in that point and position? Would you be missing a kidney in New York and you go through transmutation and you appear in London, would you have your two kidneys?

Why man should get sick, that sees salvation in transmutation? If you've been in perfect condition of understanding between the STP and the STM, man should never get sick. Should be never. Because it can rejuvenate, it can use the resource of the universe to do the job. (1:46). If I have energy I don't need, do I need a kidney at all? Because I release the fields in the universe. I have nothing left to become, to need a kidney.

It's like one of the. We were told in the past few days, suddenly we see a lot of interest in Keshe Foundation, people writing to us about "Med Beds." Sorry, we don't have any bed, the hotel is not opened up, there's no hotel with nobody got beds in it. The only sick child in the man, is that he has not understood, his sickness from not understanding, that the STP and the STM Man has to be equal, to be in harmony. Then, do we need these things?

Would you appear with four legs suddenly? Why do you think you're missing leg, will come out, maybe ten, or four legs, what are you going to do then? We have to accept the point of manifestation, is what is accepted by our Soul in respect to physical condition of the position of manifestation. If he has Inertia in what strength that dictates for manifestation.

In many tests since we started in Linz, people came with "half fish." I always said, do not ??, we accept, because now we understand why. I'm half fish, I was half man, I could swim. And the interesting is, they don't do it until the point we say, "now you can travel." Now go and do this, now you are free. (1:48). Means, the Soul goes through the limitation of no limits. I always wanted to be .. a mermaid, now I see myself, how I look as mermaid.

It's you Knowledge Seekers, you're all here, and some of you have been through the system. You know exactly how you felt, what you saw. Now you see the interaction of your body in a new area, in a new strength field and how it reacted. You found yourself with no wings, you found yourself in no leg, and you could feel everything. It's not a fairy tale. Some of you on this panel now, some of you listening now, have been to Linz and you went through the experience. Did we laugh at you, "ha, ha, you've made a mistake, you came half fish." Because that showed how ?? what ?? took your soul ?? and what you saw yourself as. And you survive in that. Then if by accident, or by purpose, by certainty, in the understanding of this transmutation in the future, oh I've been there, now I understand what happened to me in the machine when I was in Linz. Dejà vu.

But in fact, that's what it is. That's why we never laughed at you. We encouraged you to tell us more, because we wanted to see what we missed from your journey. What we haven't understood, that we could fix it, that everybody understands. Did any of you came out of the room, two or three hundred of you, whatever you've been through, and we laughed at you? We were more anxious to know, to understand, perfecting our system. And secondly, it's just like your brother goes to another country. Tell us what did you see, what did you do? Do ?? come such a thing? No. (1:50). That's how the new understanding, elevation of the science is. And we've got to accept it.

Most of you as true Knowledge Seekers, who came here to gain knowledge for elevation of your Souls, when it comes to Friday you'll find out, most probably some of you even feel, that you have elevated the Soul of the Prophets you came (for). They needed it, that was the reason. You know, you're thirsty, and somebody brings you the water and satisfies that thirst. The STP of that prophet, that Messenger, needs the strength field, the cup of the water which you carry as your Soul, for it to be elevated.

None of you know your position. Some of you come to elevate the Soul of the Christ, but you end up to touch Muhammad, because that's what ?? was needed. The Christ was perfect, he had it. Or somebody amongst you served the water first (to the Prophet), before the other one gets, (so) there is no thirst. But Mohammad is still thirsty? You come as a Christian, you come as a Jew, but you feed Muhammad. You come as a Muslim, you

feed Moses. None of you know. This is the beauty of what's going to come up on next week. Because you come as a collective, in total, what I call, unison fields that satisfies any thirst.

You might in that process find the elevation of your own Soul. Because the more you give, the more you receive. In that process ?? . Many of you are reporting a lot of things since the 16th. (1:52). Physical, emotional, the things that you're realizing you didn't know. Keshe Foundation is a service delivery of the STM to the Soul of the Creator, nothing else. We are just a "DHL" with the knowledge and the machinery. It's you who has the package, and it's you who is going to deliver that package. We just deliver the environment, and the transmutation and the ?? roads.

And if anybody claims any more or less, you call them another fake Prophet. I am the Messiah, but the Messiah of my own Soul, to find its path to the Creator. No more, no less. I still live in a physical dimension.

Any other question?

Q: .. Did the Soul of the Christ who lived with Jesus throughout his journey on Earth? Or was he with Jesus only in the last days of his life?

K- Ask him when you meet him. .. Then there is no Messenger to play the Chinese ?? messenger. There is no "Chinese whisperer."

But when you get the message, don't mix it with yours, delivers the message you received exactly as you received it.

But what you will see on the 20th, what you go into is part of it, (1:54). it's not the whole lot of it. We'll have the other part of, as a surprise for you when it comes to it. That you become the Messengers. We don't create anything that there'll be another surprise, that you believe in something else.

Scientifically on our system, I can tell you when the STP and the Soul of the Prophet has matched, and has been elevated. We'll monitor everything during that session. And you might hear from me, "can you go all of you back to Muhammad, he needs help." And I wonder how many of you as Christian, and Jews will go and do that. Because then you are not a Jew, you are not a Christian, you are another Soul of the Creator. Then all these fake names, it's just another Soul in need.

It'll be very interesting how many of you walk away without faith, but believe in your Creator, and bring the change which is needed, which brings peace to man from next week onwards.

Any other question?

Q: .. Mr. Keshe, a few weeks ago, we asked you a question about a dream that kept repeating. Someone stole the family car, you told me to go back to my childhood and find an event that could be related to these dreams. (1:56). The only thing that occurs to me is the passing of our dear papa so suddenly in a sudden illness. The question is, do our souls not accept his death and not accept the way he died, or was removed from the family nucleus? If any soul had interference in what happened to our dad we ask the Creator of the universe to lead these souls on a path of love and light, so that they understand that the path of light is the way to go. Thank you Mr. Keshe for giving us hope for better days, and lots of light for everyone.

K- We don't give you hope. You have to give yourself if you call it a hope, or the truth. You have to understand, was it the car or was it the grandpa? What do you see in the car as a carrier of your Soul? What is your interpretation?

Don't forget, I always said, what you dream about, is you listening, between the Soul, your Soul and the soul of another. When you speak to your grandpa, who died years ago, so you're a man in between listening to the conversation. But these two peoples are two Souls. Or you have a part of physicality, which you call it part of your dream, which relates to you in daily life.

We haven't touched on this level, because it creates more confusion. The way you were intermediary between the Soul… < audio … Just one second… (1:58). >

If you look at it, this is your Soul and this is the Soul of the grandpa. This is your skull, dimension of the STP. This guy here has passed away years ago, and this is your, the mass of your brain. What happens between these two (different Souls) leaves an imprint in here (in your brain), that you remember as a dream. Because in here (in the brain) there's some interactions and you know, this noises is the grandpa, and this one is mine.

But there is another dream which this time happens between the STP and the STM. You remember this dream in a different way, as emotion. There part of it is emotion. But most of this here is emotion. This happens 24 hours a day, as does this. (2:00). This will effect your physicality.

Now with what we call, psycho genetic, we have seen that you can have this effecting this (body) too. But this time goes through the process of RNA. So, what you dream and how this dream in the STP effects immediate reaction in the physical dimension of the man.

You have to understand the clear position and the way you dream. What you call emotion, and what you call a dream, but that dream sometimes carries emotion, because it's at that strength of the field of the STP. Then, you can clearly (decipher) out where and how it is. Do you need that physical sleep when in fact, you're always awake, but you still see that the body takes a physical rest, but you're still awake sorting out everything between this lot here (Soul and brain) and this lot here (between the 2 Souls).

Nowadays I live this life, I see the physicality asleep, but the brain is working, and solving problems, and doing things. People tell me, you're snoring, you fell asleep. I say, I know, but I'm awake. I'm working. The body goes to sleep doesn't mean I go to sleep. (2:02). Soon or later many of you as Knowledge Seekers will reach this point. When there is no difference between the STM, physicality can rest. It's just like you're going for a walk with the wife, you still going but the wife is tired, I'm going to sit down, I'll take a rest, I'll join later on.

The .. physicality take a rest, yes, you go to .. you're snoring. Yes, but I'm not asleep, I'm still working. Why do you say? I .. live that life quite, not often, it's part of ?? my life. I do not understand when it's a physical rest. Then we have to understand more about our own life, our own creation, our own cycle. What happen into this, and how things will turn up? It is .. part of us that needs for us to understand, and nobody else is there to do.

Any other question?

R: We had a request from Lisbet in the chat here, it says, (2:04). thank you for the beautiful words you give us. Daily at 21:00 hours the Universal Council, we unify our souls to raise the soul of the prophets, governors, scientists, doctors, military, journalists and Knowledge Seekers. Can we take one minute to join today, now?

K- Is that a personal request, or is it from Universal Council? As a personal I will say, no. As if it's a request of the Universal Council, we abide by the law. Which one is it?
R: She says, it's Universal Council.
K- So we abide by that, by their decision.

<< One Minute of Silence >> (2:06).

K- I would like to remind the Knowledge Seekers, something which you will understand in the future, the reason of. In the cycle of man on this planet there is nothing higher than the wishes of the Soul, unanimous Soul of the Universal Council. If the Soul of the Universal Council in unity wishes, it becomes a command for the Soul of the Humanity, and beyond. Sooner or later, mankind comes to understand.

Any other question?

Q: … Mr. Keshe, in the last teaching of 2022 a question was asked about reincarnation, and you explained, that this does not exist in the way we imagine, that the memories we have of the distant past are reflections of the experiences of the ancestors of our lineage. I still have doubts, and if it is possible, I would like you to help us understand.

My question is, if the STM is created at conception, and is born, or freed, at physical death, (2:08). it could not return to the womb and be born again as a baby (as in reincarnation). So, for the STM to assume new positions after being released from physicality, the process would be by transmutation, manifesting itself in other places

according to the Inertia of that environment? Would this be how a soul could return to interact with other souls?

K- You see, the Soul of … This is a very clear distinction you have to understand. Part of the Soul of you at the point of physical death has become part of the Soul of your children, or another Soul. So, in part, you are reincarnated, you are reborn, but as part of, but not as totality of. Impossibility.

Reincarnation as you die, as blond, blue eye, "Mr. John" and you come and born again, and "Mr. John" with the whole the memory and the package of it, it's a non-existence. It cannot happen. But, the way you say, my grandson has my eyes, you passed on part of you to be reincarnated as part of him.

But for you to be born in the future, in one of your great grandchildren's offspring as a child, it's impossibility. So it depends what you call reincarnation. (2:10). We are all reincarnated as part of the, part of the, part of the fields of our great grandfather, great grandmother, great, great, great grandfather, and the rest of it. Now we understand how.

But reincarnation the way you talk about it, is impossibility. Because even if you position in another womb to be born, the fields of that womb dictates your manifestation, you cannot be manifested the same, or the same soul. It's impossibility of a science of Creation.

So, you believing in it or not, you can believe a horse having 20 tails and one head, that's your decision. Scientifically it's very, very simple. And I explained this many times before. The people who talk about reincarnation they come back, whatever, you call yourself I'm a king, I'm this and that soul. You believe in it, it's yours, but in reality you're not, it cannot happen. If you understand the interaction of the fields of plasma, the rotation of a plasma, the interaction of the plasma with the other plasmas, and plasma we call, magnetic fields of the universe, it's impossibility, that you will ever be reincarnated anywhere in the universe as you. But part of your fields as an information will be carried on in interaction with the others, create a grandchild who might have your eyes, (2:12). the look of your eyes, but not necessarily your eyes, the look of your eyes. Because part of the field of you has interacted and created that position.

You call it genetic defects, but not reincarnation. Impossibilities in every word and essence, in every way that you can imagine. If you stand on Earth and watch a rocket moving, you watch the trail it makes. At the beginning it's a very small line, and then it opens to a cloud and then disappears. Can you bring that cloud back and make it the line, and put it back in the jet? Then you can reincarnate and become that field. Impossibilities, because the field expands , interacts.

Those who believe in reincarnation let them believe, you cannot do anything with it, because it means they haven't understood the science of Creation. The way the creation occurs in the world of the Creation. It's not a robot cutting, getting in the same shape and screw all the time.

Any other question? (2:14).

Q: .. Thank you Mr. Keshe for showing ways to elevation. Now the shadow Pope is gone. Is this a good moment for Francis to lay down his frock?
K- What do you mean by shadow Pope?
R: I'm not sure what he means by that.
K- I think he must be talking about the Pope which is supposed not to speak. Has he died? He was critically ill. I don't know if he's referring to that one. The Pope which abdicated was reported to be sick recently. I don't know if he died.
R: Yeah, he passed.
K- Yeah, so must be that one the shadow. I don't know if he was a shadow. If he was chosen by German Chancellor so he wasn't a shadow, he was a man on his own.
Okay, can you repeat that again?
R: Now that the shadow Pope is gone, (2:16). is this a good moment for Francis to lay down his frock?

K- He has to do it on his own, through the elevation of his Soul. It doesn't make much difference who is there and who is not there. It's a structure of the elevation of the soul of one man himself, it has nothing to do with the others.

Any other questions?

Q: .. I have a couple of recurring issues. One of them being money and the other one is interfacing with technology. Those are my daily worries and bangs. Specifically, I don't earn any of my own money, I'm managing money for the family. Therefore I'm always accountable to somebody else. And so I'm always sort of in a conflict about that. So, one of the things I need to know for instance, I need to know how much money I need to save to be able to ship an Enhancement Unit when the time comes. And I need to know if I need to provide accommodation for it.

K- That has to come from the Keshe Foundation, (2:18). this is something which is going through now that this is ?? soon complete. The systems if are shipped out of China directly to you will come at two pieces. If we bring it to Austria we complete it. It will come another. This is something which we'll decide in the next most probably six weeks, because we have to bring the system, ship it from China to Austria, fit them in and then ship it from out of Austria to you or to any destination. Or we send the carcass and then we have to send technicians with the new technology to be added at that time. This cost has not been sorted out yet, because the technology development has been so rapid, that if we would have delivered the Enhancement Unit even six months ago, they'd been obsolete. We would have had to upgrade it. It would have been nothing, to what it is today.

Because part of the technology now, we have developed now, we tested on the 16th and the 20th is become part of the Enhancement Unit. And at the same time, we are looking at possibilities of centralizing Enhancement Units (EU) in the center and allocating position

to those who bought it. It means, this is your system, it’s placed in such a place, you can monitor it, but we run everything for you, which means you don't need a Center for it. That's a very highly likely to come out.

Which means… It has a lot of advantages for the Foundation, which means the latest technology will not be disclosed, nobody can steal it to create other problems for us. And we centralize it. It becomes like, you purchase, we do all the other jobs with it, which you have purchased, then that way it has no shipping cost. (2:20). This is something which we'll ?? say in the next four or six weeks, and then we'll announce it to those few people who bought the systems.

If we do it that way, it's safer for us. We don't disclose our technology to no one, we centralize it. It's like the money you paid it’s for a unit, but we run everything with it. Even your problem was finding doctors who run it, that becomes part of our running costs, our process. And whatever is used that system for, whatever and who using it, what is created and what comes to you from it.

Q: That sounds ideal.

K- Yes, it is. Because we don't want other governments to get hold up, especially the new technology we developed. It's very, very crucial for us. We have spoken about it in a very different way directly in the past few weeks. That if we ship these units to places where it's supposed to go and the government's get hold of them, or people get hold of them. We've seen, like this craziness, it started with the "Med Beds" and all the other things. This way, we have our own controls, we have our own doctors, people like you, we run everything. Then people can say, I want to buy three machines. This is it, whatever it is. It is logged in. Everything is getting done very softly.

But technology development has forced us to this position, that even we might come back to you, okay, this is the money you paid for purchase of the system, become a license fee. So this license lasts for 10 years, whatever comes from operating of this unit, you take your license fee from it.

But we don't release systems into open. It’s something we'll decide in the next few weeks, it has to be done, because we reached the point of maturity. (2:22). Because we can now convert the Enhancement Unit, which was supposed to come, as a what we call, Wellness Unit, a combination of Wellness Unit and transportation, which you don't have that facility. Now we can use that facility. We can create that condition with the system. And it brings new dimension to our work.

It’s technological development. and we have to decide, that we draw a line to it in a very next few weeks, that we draw a line that, this is it, this is the point, and then we start. It saves a lot of people, we have people in Australia who want to get, people we have in other parts of the world they want to get it. But getting certification, all sorts of things, getting import licenses, all this goes through the window.

We open the service centers, what we call, like a service centers, and your system is part of it. With it comes the doctors, the support and everything else. You don't need to run anything, everybody contacts the central point, which we create, and you just timetable to use of the system. And this is your system, it's been used so much today, or this week, or this month, this has been an income from it, this is what comes to you. Then the doctors finding a place, this all goes out the window.

And it keeps the technology within the Foundation. I was with people discussing this today, and one of the reasons we shifted everything is this process of development. But give us about, I think about before March, once we do the physical transmutation, the tests are complete. And our doctors are doing other things in the background, the health side of the system is nothing to do with the Keshe Foundation and we're supporting to complete the system. (2:24). with other doctors, then these what we call, like service centers, will come, it has to come to operation. Because there's a huge need for transmutation and wellness.

Those who came to us and supported us as well, will be looked after completely by us in every aspect. You can still run the business. Tell us, I have these people, those people, can contact you. But again comes to the central point for distribution and allocation. It's something very much, but not really, it's like a timeshare, but you own the apartment, it's all yours. The only thing is you decide who shares which part of it. This is part we have.

We didn't have to sort it. We were forced into that position that we don't get blockage by the government's, stolen technology, everything stays within the Foundation. As I said, today's delay was part of it trying, after the huge damage we suffered a few weeks ago, as all of you know. Now we had to restructure it, that the Foundation stays solid, and such a thing cannot happen and we stay solid. This is what I've been doing in the past couple of days to bring all this in a correct way together, financially, and everything else. It takes a lot.

You don't need to look for a doctor, you don't need to look for a place to put it. We centralize it. At the moment we're running a trial like this with some doctors. Some of the Knowledge Seekers here know who they are. It's not something that we're going to talk about. We are running what you call, trials with it, to see it works, doctors stay in charge. We provide the facility of the technology and they do everything else. It seems to, that the trials has been going on for a few months, and it seems to be the perfect way to do it. You don't need to repair anything, any technological advancement comes immediately, (2:26). it gets implied and applied to the system. And this is the way we see to be done.

Q: Wonderful. Other question is also about those Home Energy Enhancement Unit. I will need to be working with someone?

K- That one, I think it should be shipped sometime this week with. There was a slightly. What we have a delay for a few days is that, we asked our Iranian manufacturing side, we want every single unit to be tested before it leaves Iran, before we complete it here. You understand? It was no use, with sending it and then it will be tested. And that has delayed

by one, or two, or three days. The systems are made that are going through, what you call it, a testing phase, and you don't need. It's a "plug and play." Now the way it's done with our Iranian team is literally, when it comes to Austria we complete it, you just need to "plug and play," and it's immediate, you can put it anywhere. But the units were ready to ship last week, but we asked for every single one to be tested before leaves the factory. They need 24 hours or 48 hours duration for each system to go through the test. They have to stand what they say. The test results shows every one of them runs about 30 - 40% reduction plus, and it builds up to about 80 – 90%. Those of you who bought these system you should start seeing them before end of January deliveries, and early February. (2:28). Then those of you who want to get it you can come to Linz, physically purchase and go.

Any other question?

Q: .. Good evening Mr. Keshe, I'm a Knowledge Seeker from the Chinese community. I need to ask a question about adding Magnesium (Mg) into the CO2 or the Cup One Gans. In a recent test teaching Mr. Keshe mentioned that to process the new version of virus, one needs to add pure Magnesium tablet, or plants which carry a large amounts of Magnesium to the original Cup One Gans.

And Magnesium chloride should not be used.

My understanding from this is that one can use the Magnesium Gans from a plant or add pure Magnesium into his Gans. Dr. Farzam Bararpouor from the Iranian community warned me that pure Magnesium, or say Magnesium metal cannot be used, because it's highly dangerous, could kill a patient.

So, I'm confused, because there's no pure Magnesium tablet available on the market. Even the tablet which Dr. Farzam suggested is made of Magnesium taurine instead of pure Magnesium. And I can only find Magnesium tablet, which is made of Magnesium oxide or Magnesium salt, like Magnesium glycine, Magnesium lysine, Magnesium citrate, and so on.

So my question is that, is it true that using Magnesium metal is highly dangerous in health application? (2:30). If Magnesium chloride should be avoided, why is the Magnesium salt or of organic acid is okay? (he goes on a bit)

K- Yes, I understand, this is a question which has come out of to China. You have to understand, a large number of people have died in past few months of the new cycle of, what you call it, Covid. Now, the Chinese government has changed it from epidemic to infection. And one of our close collaborators in China, two or three days ago lost his mother to Corona. A large number of old people in China are dying from it. What the Chinese government is saying, it's not a hoax. They are facing with this, and some of our own Knowledge Seekers in China have been affected, they feel suicidal, I can open the Telegram and other messages, because we are on Wechat, on the Chinese side of the operation.

Many of the Knowledge Seekers have been affected by the new Corona. They have suicidal thoughts, they have deprived of energy, they have all sorts of complications now. We keep on telling them, because we've seen them. I had a news from one of our Brazilian people who came with the same thing a few weeks ago. And I told him, you just stick to Magnesium. And I think yesterday, a couple of days ago, I saw a message that it has worked or whatever, and she's better. Rafael sent me a message about it.

It's the only way we can stop that emotion of physicality to do with death and depression, (2:32). with this Magnesium with this case, with thus Corona. We advise you to use Magnesium tablets, you buy from chemists, and make a Gans of it and add 2 to 3% for your wellness into the Cup One, Cup Two. It's just. Don't touch the Gans, it's just the water of it. It takes time, a month, two months, and you just walk away from it gradually.

This is not a cure, this is not medicine. This is understanding the physiology of the energy within the structure of the STM and STP. It's the energy, which you need to transfer .. It's the same with what you're going to do with your Prophets on next Friday (20th). It's that part, which needs to be elevated to move it from energy ?? wise, to another.

And Magnesium as a Gans has part of that energy structure. And it has to be done in very, very small steps. The way we gave it the gift of .. New Year's Eve to the Chinese nation, the "Cup One," exactly 3 years ago now. Chinese New Year is next week on the 20 – 21, now it's another gift for it, not only to Chinese, but around the world.

And Magnesium Gans, we prefer not to use chloride and others, but if you can get a Magnesium tablets, pure Magnesium tablets, usually Magnesium tablets are accompanied by Calcium, your buy as a mixed tablet. We recommended it to be, but Dr. Bararpour, as a clinical doctor decide this. (2:34). We suggest how the material is used and the way it's used, it's down with the consultation with Dr. Bararpour as a leading doctor in the Keshe Foundation, what you call it, the operation of the wellness, we don't touch it, we suggest what needs to be done as doctors, Dr. Bararpour and other doctors who work on the Foundation, they consult with us and they decide what it is, ?? has to be taken from the doctor point of view. They are doctors, they know what they're talking about.

From scientific point of view as a plasma technology, we see the interaction of the fields, how it is. The Gans is more natural ways, it's already converted, and that can give you a small percentage of it, but it takes a bit longer.

Rafael is on the line. He wrote the message couple of days ago. Rafael, would you like to tell us what you received, or what you wrote to us. People understand it really works. It does what it says. This is an emotional level strength of Covid. And we do not have the solution for such a thing in the world of medicine. In the world of plasma technology, as we suggest, and many of you benefited by it, it can be done with the plasma of Magnesium. How it's done in the physical dimension it's the decision of our doctors.

Yes, Rafael is there. ..

Q: Hello Mr. Keshe. Hello, everybody. So, Mr. Keshe, you want me to say about the lady who got better?

K- Yeah, who got better, from Brazil. (2:36). She brought to us couple of days ago, because we had a discussion with the lady between you as a translator and her. So you've been through the process, how she felt?

Q: Yes, you advised her to use the Cup One with the Magnesium in the meeting. She was using, and she was feeling very bad for, I think four or five months, she was feeling very bad, very depressed with suicidal thoughts. And after that meeting, she started using the Magnesium with the Cup One. And .. after two months using this continuously, according to her everyday, then after one month, she still was not feeling better, she sent me a message saying that she was not feeling good yet. But you advised her to wait a little bit more and continue using it. So after one more month, now in January, beginning of January, two days ago, or three days ago, she sent us a message saying that she was feeling much better. And saying that she was very thankful for you, for your help, and for all that you spoke to her.

K- It just takes time. In the world of… Thank you very much, Rafael. In the world of medicine we don't have anything. Unless they put you on different things. As we know, anything like a suicidal, or depression it's field dependent, we handle it as a plasma, not as a medicine. We handle as a processing of the condition, and it works. We've done with many, many Knowledge Seekers around the world who used it and are seeing the results of it.

The game of the Covid has stepped itself up through regeneration and elevation of its strength, and that comes from the physical condition of the lung and all sorts we saw into emotion. And we know how to handle that part. (2:38). So, instead of going in psychiatric treatments and all that, whatever. It's not our job, but we understand what emotion is, how it's created. It's just the picture that I drew before, it crosses between the STP and the STM, and we know how to elevate it for this strength of Covid. We give the concept, the understanding, and it's for the doctors and yourself to test them, try it. Keshe Foundation puts all the knowledge through two or three doctors we advise, and then they decide.

Any other questions?

R: One more questions on the Magnesium. We have. Let me show the image here so that you can comment on it. A picture that was placed in one of the Telegram groups by Randy with the…

K- Before I go anywhere, do you see a name… Oh, it disappeared now. It came with somebody writing me an email. I tried to take them out, but they're gone by now, it's ok.

R: Ok, this is an image from Randy, and there's another accompanying image. So this is, he says, it's got a Zinc plate, a Nano Copper plate and a Magnesium plate. (2:40).

K- Not advised.

R: Not advised. Ok. He says the Gans is very light, and fluffy, and looks very nice.

K- Not advised. No, because this creates a total different condition then what we are looking for. This is not advised. Especially you have that Zinc plate, it's not advised at all.

Q: Can we use the Magnesium (Gans) from Keshe Foundation shop, from the Store?

K- Those you can use.

R: You can actually open them and put them in? Because they're designed to be a sealed bottle that can be placed outside the water dispenser.

K- With this you can use, you can still leave it (in the sealed bottle) outside, as .. for outside the dispenser into your Gans's. You don't need to open it to mix it. It will have the same effect. Or if you want to open it, make sure you just only touch the Gans water and not the Gans of it, what you create.

R: Okay, good advice and all that. Thank you for clarifying Mr. Keshe.

K- Shall we call it the day?

R: Sure, if you wish. I think you've covered just about all the questions anyway here.

K- Thank you very much for today. And I hope I gave you a very clear, we never make message so clear as what we done today in the teaching ??, (2:42). about what is our purpose.

As I said to one of our Knowledge Seekers who wrote, she hoped that the globalists will go away very soon. I said, we are not globalists, we are universalists, as I said before. We have to prepare man for the interaction with the Universal Community. Man has to become man of peace before it's taken to the party. And peace comes not only in dimension of guns, comes in dimension of emotion, and those who incite violence or war, through the essence of emotion of the faith. That has to be sorted by the man who brought the faith, not by his soldiers.

The commander has to issue the command, and the command of peace has come through the Soul of Moses, not through the man in the shape of Ayatollahs, or Popes, or Rabbis. They are servants, and it has to come from the Master. And it's your job to give the right message to the Master that the Master correct his conduct.
Thank you very much for today. See you next week.

467 KSW January 12, 2023.

ENGLISH TRANSCRIPTION

(:16).

K- Yes, thank you very much. Good morning, good day to you, as usual, wherever whenever you listen to this series, of Knowledge Seekers of the Keshe Foundation, Spaceship Institute. We welcome you back. And in so many ways, we go back to the process of knowledge seeking.

In the past few weeks, we have spoken we have talked, taught, seen some of the work of what we entered in knowledge of the Cosmic Ray (CR). The rays which, the fields which, the energies which, come from the cosmos to us. The cosmos being a bigger home, up to now will live in the room called Earth. Now we are opening the door to go into the hallway, to go into the passages to find other rooms, other dimensions (D), (:18). other atmospheres, and other conditions in the house we call, the Universe (U). And then this is one house in the neighborhood of many houses we call, Unicose.

But what is important to us is how the structure of the this cosmic rays, these fields, these energies come to us? How can we use it? How can we develop it? How can we understand it? That does not stay just the word, "cosmic"? How do we create cosmic rays, what are cosmic rays, and if the man's scientists do not understand this, and does not come to apply it. Then what was the purpose of all this work. It's not the bread baked on the table to eat. You have to learn what kind of dough you have to make, what you need to add to the dough, and where the ingredient comes from, and which ingredient you want to use, and with what ?? problems.

In the ?? follow science of today. We touch on the edges of the world of the cosmic radiation. We don't understand it, most of us have no clue, we just use it. In the world of, or in the dimension of the knowledge, we are little bit familiar with a lower range, or middle range spectrum of these rays. We call it X-rays. (:20). We call it we call it Alpha particles, or Alpha radiation, we call it a Beta, or we call it a Gamma. We have made an understanding. And we have defined the work, defined the creation, according to our own present understanding of the world of the physics. But how do we access the rest of this world of the radiation? How do we create them?

Some of the explanations of the radiation has been the most ridiculous thing the world of science has ever put itself to it. But because the others don't understand, we just keep on with the "same game" and nobody will know. One of these, we call it Beta rays, one of the these we call Gamma rays. But in essence, the world of the science and technology of the man has not really defined any radiation. How they're actually coming from? Where they come from? How we see the Creation?

This is a question and other questions I put for years to my peers in Queen Mary College. You explain to me what is Beta ray? Not what you're telling me. It does not work, does not make sense. When you speak about X-rays, something nobody ever could explain, from childhood to me. I put this question to my father at the age of maybe 9 or 10. I said, you're the engineer, you tell me. He said, we have a target, we create a current, we shoot it, and then it releases energy. We call it ?? an X-ray. (:22). I said, Papa it doesn't work? Not with me. He said, that's what it is. I said, Papa, it doesn't work. You are the engineer, you know what these machines do. But it does not make sense. He said, if it doesn't make sense, when you grow older, you try to explain it, but that's what it is.

When I start asking my peers in Queen Mary College, on a table sitting with Dr. Shaun, Dr. Professor Lesley, I wanted to understand what is missing in my knowledge. Why we cannot, why we run out of control? Why our nuclear reactors creates disasters? Because we haven't understood. We think we do, and we make such elaborate constructions, we spend $30 billion on it. But believe me, no nuclear physicist has got a clue what they are doing in these nuclear power stations. They just follow, it looks to work, so we carry on with it. This is why they run out of control. This is why we are afraid of them. This is why we have fear of nuclear bombs. Why we have fear of what we call nitrogen, or whatever .. helium, or whatever gases, that they can become dangerous. We cannot control, we cannot, we control their energy release. We call them neutron bombs and the rest of it.

Because we know how to start a fire, but we don't know how to control it. And we use that control in nuclear bombs that okay, we saw the fire, we drop it and we run. Let's see what it does. Where, in reality in the world of science, if nuclear physicist could understand, (:24). when you start a fire, you bring the water and a fire extinguisher with you first, that if it runs out of control, you're on top of it.

And this is where we will run into the same problem in our space technology. We haven't understood. We have not solved the problem of man matter state X-rays and Gamma rays and radiation. And now if we open the Pandora Box of the universal cosmic ray energies, what is the man going to do? Another, "set the fire and run," because we don't know what it's going to do.

Send a man from Earth to Moon, hopefully he lands there. What happens if it goes in the wrong direction? How am I going to bring it back in? How am I going to land it where it's supposed to go? What about if on the way from here to the Moon interacts with a strong magnetic fields and looses some of the energy, or reduces in energy. And it arrives at the point of destination with one arm or leg missing or one leg missing.

We abandoned it, a part of a test. And we are trying to do, to establish it again in next week or two, till we bring the stabilization into the system. Because we could see, the small noises in the background creates interference, which we have no control over. So we need to bring replacement energies, both for the matter state, and both for the energy states.

But our people don't understand the work of the cosmic rays. It's "monkey sees, monkey does." But monkey has to understand what he sees, that he can do. So, today's teaching is about cosmic rays. Today's teaching is about the essence of the creation of the rays in the universe. (:26). How and where do we go? Because this is the tool we need to become passengers of the universe.

What does a cosmic ray mean to you? Energy for Food. Conversion of energy to strengthen the Soul. You need direction of the transfer, transmutation. You need cosmic ray transportation system to understand. How do I send you from here to the Moon? What is the principle behind it? I just target it like a shotgun, and that's it. Hopefully you land there? Or do we create a new knowledge, new understanding?

It's very simple. You go to bed, you go to sleep, you dream of the Mother you lost 40 years ago, or the grandfather you never met in life, but you communicate with them. The mother tells you stories about your grandfather, or what you're going to do in 2 weeks time. How and where do you find the Soul of the grandpa? How and where you find, know where the Soul of the mother is? And where does the mother who died 40 years ago going to tell you what's going to happen in 2 weeks time, or something is going to happen, that in dream come to you. "I saw such a thing. Mom told me such a thing." And then a few weeks later when it happens, says, "Oh god, Mom knew. That's why I had that dream."

So it's important for us to understand how we maintain life without interference in space. (:28). How do we give you food on this planet without anything else? It next few months it's foreseeable, that we will try, that if there is a disaster, that we can feed masses through the technology of the cosmic rays. Now you have disasters in different parts of the world. You have refugees that are looking for food. One side man kills in the name of the religion, building and blowing blocks, and killing in tens of hundreds. And on the

other side, the nature of the interaction of the fields of this planet creates floods, earthquakes, and the rest. And leaves many of you without a shelter, any food, shortage of medicine and everything else.

With the present knowledge, this is where a man is struggling. With knowledge of the Cosmic ray, the guy in the deserts, the guy the drought stricken place will not die of hunger, will not die of thirst, will not die of (no) shelter. If, how we teach, and we create facilities, that we send the things to you, that instead of by aircrafts drops United Nations, UNICEF, and every other crooked base. With a fields of cosmic rays. We saturate the area, you take from it what you need.

But how do we create these radiations? How do we create these conditions? How do we understand, (:30). one to be the banana, and one to be the aspirin, and one to be the field radiation of what you can damage you, and you call it antibiotics to stop the rot of the injury of the wound.

When we did, the amputation and transmutation system of growing a toe, we didn't see any infection. In a very simple way, we used the cosmic rays. We used the understanding of the cosmic rays to give to that point, to that spot, what it needs to grow. We create the environment of the "grow."

The same thing happened in a very, because you couldn't understand, situation with establishment, rebuilding the brain of Naomi. The containment was made, the skull was there, we just needed to provide a "brick work," that the body of the man put the bricks together and rebuilds the brain, which was partially lost.

Now the secret is very simple, it's open. There is no mystery in understanding the knowledge and the science of the cosmic. And today's teaching, today's sharing of the knowledge with the Knowledge Seekers (KS), we try to open a little gap, a little opening in the knowledge of the cosmic rays. But to understand cosmic rays, we have to understand what man has done in understanding the rays. How do our scientists define these rays? And how can we even make these rays without matter state? (:32).

Rick, you're in the background? And could you please go into Wikipedia, and look for the explanation of the X-rays, and how do we produce them. We all go to the hospitals. We take X-ray from our body, or we do a series of fast pictures we call the CT Scan. The difference between the CT Scan and the MRI, as all of you know, is the X-ray imaging, or magnetic field imaging. Even though magnetic field imaging is a X-ray itself. It's part of the spectrum of the same cosmic ray as is the X-ray.

So, we capture different part of the same cosmic ray, we develop different technologies for it and we call it different system. But what is X-ray? What I would like to do today. I like to take the passage of the growth of the knowledge, playing with X-ray machines as a child, and into the passage of nuclear physicists, and then through it, show you the way to production of cosmic rays. Then, those of you who are knowledgeable, those of you

who become knowledgeable, those of you who become experts in developing the new world of science will understand soon.

In the next few days, Keshe Foundation will call for a collective meeting of the Universal Council, the Earth Council, and the Core Team to meet, to make a decision. (:34). Then that decision made in that meeting will decide the future of the development of the Keshe Foundation Space Technology. I will be calling on the members of the three organizations of the Keshe Foundation to meet as a matter of urgency to decide, does the Keshe Foundation moves with the old system? Or does the Keshe Foundation brings totally new initiative in technology, and we leave where it is now, with those who are involved in it. And we introduce a new technology.

It's the responsibility Universal Council to make that final decision. But it has to consult with the Earth Council. It has to consult with the Core Team. In how we implement. What we have in the background and how it will be.

Let me explain to you what the difference will be. For those of you who are members of Universal Council, the Earth Council, and the Core Team. The decision is, the Keshe Foundation will stick and work, and develop, and invest its time and assets and knowledge in building water resources, building water bottles, building flight system, building all sorts of things, for fertilizers, building systems and developing technologies for cleaning environment.

Or we set out and start a process of delivering everything through the technology, and abandoning the way the man has lived up to now. We cannot carry water into a space, we cannot carry oxygen into space. Man in the dimension of physicality (P) in the body of the man, the way it is, will die in a space in milliseconds, because there is no oxygen. So that puts a cap on the total understanding. (:36).

What this means is, that the meeting of the Council's has to decide. And that's why I put it on the table today. Where and how we're going to establish human life, human colonies in the space. And for the present time. Do we set up the production of the water factories to create plasmatic, plasmatic, and the rest of it, and sell it down the line in the shops and start introducing people into it. And or we create a dimension that you receive all the energies of the water as you need, without actually having any water? This is what's going to happen to man in the space.

Are we delaying the process? Or can we bring it in, in one go? What this will bring for us? What will this bring to the knowledge and the present structure of the man? It will most probably diffuses the present economical situation in the world. Political situation will follow the same.

Now you understand why a few weeks ago, I released the membership of one year supporting, or doing the annual check, and the rest of it. In a way, when we established that dimension, you are a member, you'll be enriched by the food, by everything else you

need, what you have through the system. You will find you have no need for backup of the physical dimension. So, you can see we have already brought the setting into it.

Do we feed the nations and humanity, (:38). and support the system, that we do not need water. We do not need fertilizers to grow vegetables or seeds. That then we can use it, to abuse each other by pricing and controlling, with the hunger and policies which is built ?? on it. It's the responsibility of the Universal Council, and the Earth Council to make that decision, where the knowledge and the technology of the Keshe Foundation in coming weeks and days and months will go.

Do we carry on with the status quo? Or do we bring and release the knowledge. A new knowledge very much like computers, but with this knowledge, there shall be no hunger. With this knowledge, there'll be nobody will be cold in the North Pole, or a heat and warm and burning in Sahara. Because you'll have these conditions in the space. I send you to planet so and so. You're on Earth 40 degree, 30 degrees, pressures sitting in beaches of California. And then you land in minus 50 degrees, in another point with your bikinis. Would the clothes of the man become a thing of the past, because as it was said, we close our eyes for our wives and women to be free. We close our eyes not to see, but only allow who we want to see. (:40).

Manifestation of the physicality or manifestation in dimensions and energies of the universe? But we have to be able to create these dimensions. We have tentatively understood a little bit of it and we left it. And the scientists can do nothing with it any further. We got the stuck with the X-ray. And that comes from the "shooting match." But it's a "shooting match" in the matter state energy?

What is cosmic rays? Cosmic Rays are partially part of the shooting match too, but of plasmas, and not matter state condition. If the world of science understands this, we have broken through the world of Creation. X-rays are produced by targeting energetic beams and bashing one another, and always making sure we have the right angle, the right energy level, ?? cavies and rest of it. And the right target area, that it gives the right X-ray field strip. And if we increase it, we can have better intensity, better pictures. If it's softer tissues we reduce it, we get different pictures. You don't use the same KB for the tissue of a heart, as you use for the brain. This is the first thing an X-ray engineers will tell you.

So, understanding this comes to the next point, how we target nuclear materials in our fuel rods, in nuclear power stations? Totally, absolutely, utterly by chance. (:42). In X-ray machines we have more control. In nuclear reactors with a higher level energies, we have no control. We fly with the seat of our pants, and we call ourselves, "the brain of a nation nuclear physicist." Shame on the knowledge, which pretends to know everything, and he himself flies by the "seat of his pants." Goes out of control, we push in "control rods" ?? the rest of the rods and when we cannot push enough, we get Fukushima. And if it goes deliberately out of control, we get Hiroshima.

What do we do? How do we extend these things? How do we understand these things? What our future scientists need to do. This is the decision of the Universal Council in the time to come. Integration of the new technology with the present lack of the man.

Rick, read us how man creates X-rays and then we learn something to start our work with. This is what is the knowledge of the man, on his book of knowledge, what we call "Wikipedia."

R: Okay, this is on the specific parts called, "X-rays" in Wikipedia. I will just read the first paragraph here, perhaps it will give us some background. An X-ray or much less commonly X radiation is a penetrating form of high energy electromagnetic radiation. Most X-rays have a wavelength ranging from 10 pico meters to 10 nanometers corresponding to frequencies in the range of 30 Penta Hertz to 30x exa hertz, which is three times 10 to the 19th Hertz in energies in the range of 145 electron volts to 124,000 electron volts. X-ray wavelengths are shorter than those of UV rays, and typically longer than those of gamma rays. And many languages X radiation is referred to as ?? "Ranta" radiation after the German scientist who discovered it in 1895. He named it X radiation to signify an unknown type of radiation. The most familiar use of X-rays is checking for fractures, but X rays are used in other ways. For example, chest X rays can spot pneumonia and mammograms use us X rays to look for breast cancer. Because some of the history you want to know how to do we produce?

K- Yes, how do we produce?

R: Well, the first X rays were a type of unidentified radiation emanating from experimental discharge tubes. Which are gas filled tubes, with electrodes inside, similar to fluorescent light bulbs. They were noticed by scientists investigating cathode rays produced by such tubes, (:46). which are energetic electron beams, that were first observed in 1869. Many of the early Crooke's tubes, which they're called, which are early experimental electrical discharge tube with a partial vacuum. William Crookes and others around 1869-1875 were experimenting with these and they noticed effects that were attributable to these tubes. They created ionization of the air in the tube by the high DC voltage and that was enough to create the X rays when they struck the anode or the glass wall of the tube. So, they were dealing with a few of 1,000 volts and up to 100,000 volts, and those voltages are enough to create the X ray effect.

So, the earliest experimenter who thought to have unknowingly produced X rays was, William Morgan in 1785. When he was describing the effects of passing electrical currents through a partially evacuated glass tube, producing a glow created by X rays. .. There's Philip Lenard in 1888, conducted experiments whether cathode rays could pass out of the Crookes tube and into the air. (:48). He found that something came through that would expose photographic place and cause fluorescence. He measured the penetrating power of these rays through various materials. So, it's been suggested at least some of these Lenard rays were actually X rays. And there's a Ukrainian born, Ivan Puluj, who 1877 was constructing different kinds of gas filled tubes and exposed them to photographic plates, which became dark when exposed to the emanation from the tubes.

And it's interesting in 1894, Nikola Tesla noticed damage film in his lab that seemed to be associated with Crookes tube experiments. And he began investigating this invisible radiant energy after Röntgen identified the X ray, Tesla began making X ray images of his own using high voltages and tubes of his own design, as well as Crookes tubes. There was Hazard discovered, and for example, even Nikola Tesla noticed that his assistants hand was getting burned by these X rays. (:50). So, he sent a notice out to others to be careful with the experimentation, because of this effect. And others also started to discover more about that, as it went on.

K- In a way, what the X ray machines is targeting, high speed current flow into a static position. Then what is radiated, you targeted it into a space, where in that space you can ?? put anything, be it a body of a man, be it an object, and you capture how much energy was absorbed by this system. And what you call it, on what you put up as what we call, aluminum foils or different kinds of foils in the background, and he confirmed the existence of the energy passing through the body. But let's look at this in a different way. Can I take over for a second, please?

Let's look at this in a different way. In the X ray system, we create a high energy, we put an angle of target, this high energy releases the radiation, which by putting an object in front of it, we create how much that object has absorbed energy. We see it as spawns in the tissue of the man, we see the extremities of the tissue of the man, (:52). because he absorbs different radiation.

What does this system tell us? What does this teach us? Keep this side apart. We look at this side of it as a principle, as a knowledge. Then we still have this blue pot, still as a body of the man ?? itself. But, we allow, we don't want to take an image, we see how much of the fields we put through it, it will be absorbed, and how much of it, will it be leftover on this side. Or, what would it exchange that it might even release higher energy than what it absorbed from before. This part of the understanding, because you understand it, it's very simple to develop. So, you have identified a specific material, you have identified a specific energy to give you a specific radiation, call it, X-ray.

Now, if the man goes one step further with the knowledge we have today. We create two plasmas, and we decide them to interact maybe in different angles, (:54). maybe the same, but different strength position of the plasma (draws a spiral). Where this one is the energy field of this position, the same as this one, which gives us a radiation field in the strength of a banana.

I turn the plasma slightly to higher strength, I go for a deeper position in a strength (deeper in spiral), which now is this one. This gives us, in interaction with this, a new field, a new dimension. This could be the strength of the field of red meat. But, this time in the X ray is singularity of the fields. Here, you have plasma of the fields. It’s dynamic, they rotate together and in their interaction they create a plasma, not as a ray, but as a field. But as a condition that it has intelligence, it has a soul. When interacts with the body of the man it says, my darling, what do you need. I'm going through, take what you

don't need, I'm taking somewhere else. What you don't need you can add to me, I take it away from you. (:56).

Here with the X rays we leave no choice. We hit, we go with the understanding of the "plasma targeting," this is what we call, "Cosmic Plasma Rays," cosmic plasma fields. Fields with emotion, if you want to call it. Fields with justice. This is what in the world of radiation we say, some of the lights are photon and some are particles.

In the plasma condition of interaction of matter state, it's different than what you call, condition of the plasma interaction. You can create conditions, that you create only rays too. Then, if man understand this technology, then man decides on the strength of this field, the strength of field of emotion of love, the strength of the fields of emotion of pain. Another fields, another dimensions.

And when you bring this as a cosmic ray, a plasmatic field energy, when you travel a man and you can sustain it, man will arrive with all senses of the emotion available to it at the time of arrival. (:58). The same thing happens when you give this to somebody who suffers depression. You release plasmas of Gans's, and not fields.

We've seen the cheaters nowadays, they call it, "quantum." Anywhere you see quantum in the world of wellness, write underneath of it, "crooks." Because there is no quantum in the dimension of the Creation. Even the smallest, which is the smallest man, is still large to another dimension of fields of Creation. That what quantum physics is, taking the smallest specimen, but still in that small specimen, is another dimension of the universe.

And if you understand this, you stay with the world of plasma, understanding the creation of the plasma, and you can play creation in the way you like. When it comes for me to, what we call, the world of Creation, I can target plasmas. I can ?? in different position of strength of the plasma onto the same ray, or onto the same plasma. And at the same time create fields of different strength, that in their interaction, (1:00). they allow transformation, transmutation, and transportation at the same time with the totality of the emotion. When you arrive at the point of destination, I'm here as a Soul of the Man (STM) who left the Earth, but I'm on the Moon. How do my Soul interacts with the soul of environment, with the Inertia of the environment, that my physicality (P) can be guaranteed. There is no oxygen here, but I can use other dimension fields on energies to survive, to live, to maintain and sustain life.

If our scientists in our labs understand this, and some of them have already understood, and the systems, which are getting developed are in position without them understanding the totality, then man is ready for that point of transmutation. Then we don't come up with "two protons and two neutrons" and we call it, Alpha radiation. Hello .. since when? What we call, "plasma entity" in the matter state has become a radiation? Because we never understood. When you put two protons, and two neutrons, which are very much the same, with a small difference, you get fields which is amalgamation of interaction of the 4 plasmas. (1:02).

Now, the world of Creation needs to redefine. The world of science needs to redefine what is an Alpha radiation. Alpha radiation is the interaction of the 4 different plasmas, radiation fields in trying to keep balance. In whatever the interaction of these come together, it's always a certain given energy.

What happen if now our scientists interact always 4, now 6 fields together? Let's say why do we call it 6 protons, and why you call it, 3 protons and 3 neutrons? Because one is a slightly higher energy than the other. So, it' trying to give his energy to the others, and the same with others, they always release a balance new field, which now we have to find a new name for this cosmic energy. What happens in the next cycle of 4 of these? A new field, a new radiation. Now the man has the knowledge of Gans's, plasmas in dimension.

In a way as Knowledge Seekers, you understood this without understanding it. You mixed the CO2 plus Zn, (1:04). or plus whatever, and then you say, this is good for Covid energy, to overcome. My dear friends, your ZnO's and your CO2's, you already worked with the cosmic rays without you understanding it.

When we built the first space nuclear based reactor in Tehran, Iranian scientists never understood what was on the table. Why those of you who worked with me in the Sansano, and then in Trani, and in Bari (Italy). You saw me bringing in, those of you who were in the Sansano, you saw the cylinder gases outside the lab connected with the pipes to the reactors. What for? For creation of this.

It's very hard to go back and create that "high voltage, blah, blah," to get an X ray. Dealing with the matters they targeted, here I deal with the Gans dynamic target. There you create "man matter" rays, here I create cosmic rays. But cosmic rays with dimension of emotion, (1:06). with dimension of the gravitation magnetic field strength, always as a, what we call it, a fields.

So, the scientists in the coming time, in the coming months, Knowledge Seekers, now you understand how the next step in technology will come. When you stand in the field of a desert with thousands of people short of water, thousands of people short of what they need to recover from energy, of a damaged broken leg infection, thousands of people hunger. If you can create the dimension of the fields of whatever you thought, and you beam it, you download it, whatever you want terminology to use. You give them the water, you give them the medicine, you give them the food.

But now, would this bring a new dimension for the world leaders to claim power? Or can we deliver a technology that those who want to get to that state, will become in this condition, that they have no power. They become needy in the strength of the fields. And then no man will ever claim power to be a leader. (1:08). But we all lead each other to success. We all lead each other to a new life.

Do we use satellites to do the high level bombing, as we are used to by the Americans? Or do we use the satellite to do high level feeding through plasma technology? Should be

any man with a cancer with this knowledge, which is created through the emotion? Would, with this knowledge be any man thirsty or hungry on this planet, or in the space?

Now, you understand why there is a need for Universal Council to make the decision, and why it's important for the Earth Council to bring implementation with the governments of delivering. Governing through science and technology.

Then it comes to one big question, do we need all these units, or can we create one, and only one central system, that can feed the whole lot? The man in the desert and the ones who lives in the luxury of the apartments of New York, or London, or Beijing, all become equal. (1:10). Then it comes that, do we become part of one world nation? This is not in any way, or shape, or form, as a source of creation. It's as a source of support to support what is created.

Here you deal with the man, because of the droughts, the animals in the Sahara are suffering, and because of the drought the trees are in the same dilemma. Then when you do this, the fields from the same source feeds everything on its path, irrespective of color, race, religion, creed, in the dimension of life, vertical, horizontal, intelligent or no intelligence. Then on this time, would the lion, or the tiger, or another vultures would eat the man who was dying of hunger, as the man is fed, and so is the animal. This is the evolution of this technology.

Then in the future to come, the source, this, what you call, dimension of the Creation, will feed in any dimension any man, any created things in the universe and Unicose. (1:12). You are from Earth and you end up on Planet Zeus. You are from Earth you end up on Mars. You are from Earth you end up on the Moon, or you go to another universe. As the source is connected to you through its dimension of the fields, they'll always be the supplier of the source. You can carry food down this line, as you can do information, knowledge, energy. But, you have to develop a condition, a process that it can feed both, the dimension of physicality and the energy as a Soul. That the point of manifestation, at the point of delivery of in any shape or form, all stays an integrated system, function, with all emotions and all facilities to exist in any dimension.

Yesterday in our lab our people noticed this, or the day before, they noticed this. We have no speakers, we have no noise detectors. But in our system we have emotion detectors. Our generator and our field system on our oscilloscopes are moving erratically. (1:14). What's going on. They go for the lunch, and it's quiet and becomes peaceful. They're still in the same building, they're still making the same noise. The minute they come back in, because the emotion of the time has changed, there's a responsibility of the emotion thinking about the girlfriend, the cooking tonight, going to cinema, disturbs the fields. The noise hasn't changed.

This is what happened in the 16th test. There were a lot of people coughing, and buffing, and making noise. But the minute we saw, and we showed it, we say, we go to the Soul of the Creator, we saw peace, unison. But still there was a noise of coughing and

everything. The Souls of a higher energy don't care about what noise the man makes, on what goes on in the universe. Because they are with the Totality of the Soul.

In the tomorrow session, I'll take you into a dimension you've never been, but it'll become part of the path of life in the coming time. Those of you participate in the 20th of December (January), meeting the Soul of the Creator, you shall meet your own Soul. How can you try to give, to perfect another soul, when your own Soul is in dilemma, and it's not in order, to be able to give?

Tomorrow's session of the flight will bring a new dimension. And this time we have more people than last time. (1:16). In that process you will meet. A lot of you came in the first meeting, I have a cancer, I have a problem, you all came to take. Come this time to give, come this time to be balanced, and see what you bring to those who are unbalanced. You cannot eat when your stomach is full rubbish. What does mother say, don't eat sweets, don't eat this, don't drink that, you can't have your dinner. Because your stomach will be full. You all come, you all came to the meeting of the 16th with a stomach full of rubbish, and you were hoping to have a dinner that you'll feel good. But you all, more or less, left empty handed, because you did not wait till the rubbish cleaned out.

You've got to realize, the process, what it is, how the cosmic rays will come to be to replace to be part of. The systems tomorrow are different than the systems we had last time. There are additions, there are systems, that for the first time we use no man communication between the Creator, the generator, and the system which dispatches.

Before, on the 16th, we had telephone lines, the same as the rest of you. This time there's a major step, with what we call, (1:18). introduction of the cosmic rays. How would you feel this time? There is no satellites mobile phone connections between the two posts of the Keshe Foundation. This time, you cannot come cheating. Eating the biscuits, and the fruits, and having the drinks before you come in on the table and say, I'm hungry.

The president of Romania in the past few months has said to his nation, people can live with two and a half Euro per day in his country. Yes, on water and bread. The price of the tomato in Romania is the same as supermarkets in the rest of Europe. In Europe, you get four or five times more wages than the pensions. And you get life to live. With the new knowledge, every man in Romania, Bulgaria, in London, in New York, in Beijing, can live on exactly the same pleasures of life, not even with the financial return, but understanding where they receive it from, and what they have to contribute to the next cycle of life. Then we give the two and a half Euro back to the president. Let him live in the dimension of physicality and see if it's possible. (1:20).

Where, with understanding the fields of strength of the universe, and developing the new technologies, I cannot return your from the Moon, sorry, your subscription has finished, you have 10 dollars, you used 9.9. This is where ?? monetarism will change. This is where the new technology will bring a lot of changes.

Sustaining life across the universe becomes obligation of every man on this planet. As your life, sustaining life it's been maintained, and you live life that it suits the emotion to carry. In a way, if you understand it, you have 8 billion human beings, and so many trillions other animals with emotion and soul, that's putting the plants on top. Everyone creates and releases a field, which as surplus they don't need, and in collectiveness of interaction with the central, in understanding of the emotion of the fields of the planet, it's available to every traveler of the universe.

It's very much, I have a beautiful dress in the closet, I used to be size 10, I'm size 14, I don't keep it, in that one day I might become 10. Somebody who's 10 can enjoy it. As I had my pleasure with it. (1:22). It's the same with the energies of the Creation, it's the same with what is to come. And then we'll see the next dilemma, then we'll see if you understand the next position, then we understand by creation, understanding of the process of production of the cosmic rays, by interaction of the plasmatic magnetic fields, that man now recently has got access to it through what we call, the Gans technology. It's the key to life in a balance, it's the key to the world peace, it's the key for man to be able to live in a dimension of the universe, anywhere it could be.

How would I send you from Earth to Moon? You remember the olden days, they used to put you in a cannon ball and shoot you, and some time you landed on the net, and sometimes, sorry, unlucky, you landed on the ground. Even when you landed on the net, it wasn't a guarantee, that you will survive it, broken neck, broken arms, and the rest of it. We don't have the option of the cannon. We don't need the safety net.

Man has to develop a technology, which lands man on the Moon on the exact position where the man wants to be. Few seconds. How do you do this? (1:24). What is the secret in the dimension of transmutation? How did you find the soul of your grandma? Or your mother died 40 years ago? Did you arrive at the scene with your mother with your legs and your arms missing? Grandma said, or the mother said, where is your arm? Did you lose it on the way from your body to here? What happened to your eyes? Have you ever seen yourself in a dream with your glasses trying to find out where the mother is, where the grandmother is? Or you see through the Soul of the energy, and you still see grandma wearing glasses, as you do. Because that's the impression you had in your Soul of the Grandma.

Did you use a cannonball from your Soul to the soul of the mother? Or did your physicality through the link of the Soul of the Cosmos knew where the mother is. And you ?? that imperfection. The job of the new space technology is this. I have to land you safe on the Moon every time, and bring you back every time.

I abandoned a trial this week, because there's too much noise in the background. I might lose an arm and a leg on the transmutation. They don't like it, but sorry, I have to be 100% correct before I can move you. And the beauty of it is, I do not need to be in the position to do it. I can be in New York, and the radio transmutation in Linz. I can be in Saudi Arabia and organize your transmutation in Accra. (1:26). But I cannot have interference and losing or adding, through the emotion of the ?? others.

I need to create a filtering system, that always have a given bandwidth of the energy in the cosmic ray, that I can feed the Soul and the transportation. Any losses, any accident, any interaction with another plasma on the way, ?? ?? . But how do I get you to the Moon? What's the secret?

How can I transmute you across this span, little span of our Solar System? Forget about the galaxies and the universes. Go back to the principle of the teaching. We always said, in the world of the plasma technology, the strongest, the one which has more, gives to the little one, that in the interaction of the two, the two become in balance. But this time, this interaction, this body of the man has an emotion, and the emotion changes. You're anxious to go to New York from London, what's going to happen, whatever, whatever. And then you arrive in New York, you arrive the anxiety, the anxious, whatever, would it be on time, would the son be there to pick me up, all gone, The son is at the airport, he picks you up, you go home. What happens if the plane is late. So, your emotion goes with you.

In the world of the plasma technology we have to support that emotion, (1:28). without anxiety, with certainty, that I land where I'm going. Understanding the principle. I don't end up on Mars, and I don't end up in another galaxy, I end up on the Moon, because my son is picking me up, I am meeting with the soul of my son, then in physicality we both look like a monkey, we go for a walk, but we know it's us, it's father and son, but looking monkey this time because the monkey here doesn't need oxygen, doesn't need clothing and we survive, enjoying each other presence in dimension of physicality or Soul.

So, how do you transport? In the process of the transmutation you go back to what I just taught, creating gravitational magnetic fields, which is the field strength, at the field strength of the emotion and physicality of you. Then we know you want to go to the Moon. We know how we have a copy of you. We need to create within our system a miniature version of a smaller of you to be on this point. Where by interaction of the fields in giving to, you move across to. But with the emotion of arrival at the same time. You are your own cannon and you are your own target. (1:30).

So, understanding of the plasma technology and the cosmic ray is the key to man's travel in the span of the universe at zero time. But the man's scientists have to understand this principle. Man's scientists have to be able to support this field that in interaction with something else, you don't arrive here with one leg missing. Because the compensated fields for the energy of the leg it’s already, it’s compensated for what's gone.

Don't forget, when we built the brain of Naomi, we didn't get a lump on top of the head, we built in the area which was missing. So the fields are already living, knowing what to be created. Go on a step further, and understand the teaching of last week and the week before. And go back to the 16th, we took you to see the Soul, to become part of the Soul of the Creator. This was an easiest job to do for me, because, hello, "I made man in the image of Myself." I have a little Me inside you. So, when I need you to elevate, I just need to connect that little of Me. It wasn't a big job, was it?

Now you understand the technology, the knowledge of Creation. I don't care what color you look and where you live in the universe, that little of Me, which is the image of My Soul, My field strength in you has connected Me to you. (1:32). And that's why it's so easy when we showed you the graph, we tell you this is the time when the man met his Creator. Because now it's balanced. And we took your agents with you, which brought you to Him in the name of Muhammad, Christ and the rest of the battlefield.

Now you understand the technology behind plasma, behind Gans technology, behind the world of Creation. I wonder how many of you will come out of the tomorrow session as people you were before you went in. Be it in the dimension of emotion, being on the dimension of devotion, being on the dimension of Totality, to understand the Creation.

And the minute you claim, I understood it all, you have actually moved further to (from) the point of Creation, because you understood none of it. The humbler you become, the closer you become to the ??. The more you gathered the knowledge of Creation, the closer you come to understand nothing about the world of Creation, as much as is within the Creator.

This is part of the process of the teaching, understanding the work of the rays, understanding the interaction of the rays. I brought this to you in a very simple way in the original work of the Keshe Foundation when you started making the coils, but you all went to the energy. (1:34). We told you, I ?? graveled with you, I taught you everything I knew.

Okay, you're for that. Gans coat it with CO2. GANS coat it with Zinc, blah, blah. What for? The metal was that, beam of the electrical field and the Gans's were the target. You never understood, you cannot comprehend, because the monkey is a monkey, does no matter what frock you put on him. A frock of king does not make the monkey a king. Because there is no intelligence in understanding what the job of a king is.

I have taught in every way and possibilities how to make cosmic rays from day one. Rick just read to us, that they found a tube like a fluorescent tube and the gases could radiate fields. Hello. Now you understand. Man has to go back. Knowledge Seekers have to go back to the first teachings. And now understand the knowledge in the matter of plasma, as a Gans. Interaction of the Gans, and not two fields, which has been seen in one of the Intros. They come together and make a plasma. (1:36). These themselves are fields, not rays. They have a Soul, they have to have understanding of the Totality, that mankind in the coming time can move to the next step.

And this is what our scientists are building. And this is what our scientists are busy with at this moment. But, let's say, 50% of the time they don't even know what they're doing, because it's there. Till they see something and say, "oh." But what's the knowledge behind it? What did I miss?

I was discussing with the Knowledge Seekers in the discussion in the past 24 hours, 48 hours, that one system from Linz is enough to feed the whole of the humanity. Why do we need to make service centers? Our own scientists in our research centers have not understood this yet. Have not looked beyond the fence.

Then, if you understand that one system in Linz can feed you, can elevate your Soul, can bring you energy to be warm, can create you communication, transportation and everything else you need. Then, you understand that, with this now become the next Creator. Would we call this the "House of God," which God to us is the one who creates everything? (1:38). Or do we say, for the first time, that we have understood the process of Creation?

How long will it take for mankind to go through this process, it's a man's humbleness in gaining knowledge, not in his arrogance, that "I have the knowledge." In the calling of the Universal Council and Earth Council, and the members of the Core Team in the coming days, mankind has to make a decision, that how the scientists of the Keshe Foundation will deliver the technology to humanity without ever anyone knowing it.

Life has to become on this planet like the beautiful game. We are all on it, we all kick the ball, we enjoy to see if we can score a goal. But when the game is finished, we all celebrate it, we enjoyed each other's presence on the field. That ball was our connection, that "ball" for man has to be the knowledge. And humanity and the rest of the created things, the players on the football pitch. No tackles, no pushing. We all play to enjoy the game of life. (1:40).

Now, you understand. Now hopefully some of you come to understand the position of the man, the position of the technology, and what I'm teaching, and what has been the purpose of the teaching. We have come to that position, that humanity through the Soul of its representatives has to decide the future of humanity, that all are equal, that all have to enjoy. And at the same time, a transition time, that the Totality can be introduced, that the man goes through this process.

Then the next step will come, once we've done that, the interaction of the STM with the Soul of the Universal Community, maybe in the dimension of physicality. But the process has to start. The teacher, by a guide, by ?? us, by request. The student of man in the form of Universal Council and Earth Council to meet and draw up the plan, what would be the future of mankind. The Knowledge Seekers and the Keshe Foundation laboratories will deliver the wishes of the Universal Council, then you understand where we are.

We are not selling you a dream, we are not creating another Prophet, we are not creating another religion. (1:42). We're creating a system, that humanity will live through the process of the Creation, and not through the process of the man physical dimension, ?? breathe, and everything, and the pain and the rest of it.

But our scientists should understand, and the humanity as a whole, and the rest of the Creation on this planet has to go through a transition, or is the decision of the Universal Council to be in one move. There'll be a lot of problem in one move, massive problems. But still can be overcome.

You cannot join the meeting of tomorrow to elevate the Soul of your Prophets from the Spirit level, as the Souls are all equal, when you carry a "damaged bird" in the shape of the form of the Spirit of the man. Our first job is to repair the man. In a way to elevate him, in a way to ??, in a way to give to it that finds upon themselves a solution. That after that point, he has enough to give to his own Messengers to repair theirs.

Now you understand why we set the system up for tomorrow. Now you understand the process, which we'll be carrying with you tomorrow. A lot of people tells, and they've been asking, what's going to happen tomorrow. Come and see. And see if you have gained the strength in the knowledge of the Creation, that you can elevate the Spirit of yourself, (1:44). that with that surplus that you elevated, can give and repair the Spirit of the others. And that, in that point, you can elevate the Spirit of the Messengers, that in that point through them, then they become the central to elevate the rest. And then we'll see the end of all the conflicts, and a peace in the dimension of the Soul, and Soul of the Physicality of the man, which brings the true peace.

So, I wish you, and I hope you understood the teaching of today. And if you did, I hope you find the point of elevation. And, as the religious people say, "salvation" for the whole of the structure of the Soul of Physicality of man, that with it you can't find peace in another dimension.

My wish, my desire, my hope, as a teacher, is that the students understand and that they are ready to enjoy the fruit of the knowledge. As the universal game starts, as the cosmic rays and understanding the creation of the cosmic rays, becomes the key for the man where to be a fields, when to be a matter, when to be a ray. And what do you need to give, to keep, to maintain, each state according to the wish and the love of the owner, and not your own greed, stupidity, and what I call, ignorance.

I hope I brought you to a point, and I hope from today you understand what the next step, (1:46). as we've done, step by step in past few weeks and months, will be for us. And I wish one of the most sincere things for our team in our labs, that they elevate to the next point.

Thank you very much Rick. We'll go to a physical human break and then we'll come back, and we'll finish by about 11:30 or so, today. We are travelers last two weeks, trying to sort out the Keshe Foundation problems, which we created. And we hopefully will be back in Linz for tomorrow, to be able to bring that change. Thank you very much Rick. And take us through a break and we come back. .. (1:47:40).

<< **BREAK** >> 468 KSW (1:52).

K- .. the teaching never finishes, sharing knowledge never finishes. Let's see if there are any questions because we don't have time today.

Q: Jalal … My only question is, is there any way for the Knowledge Seekers to help or support the Foundation and overcome this problems?
K- Which problems?
Q: That what you said just now that the foundation is coming through?

K- Well, our position is financial, and it's created by a Knowledge Seeker who pretended to be a Knowledge Seeker, a big fraud. The case now is out of our hand. And how long we will go, it will take us to go through it to stabilize, we do not know. Financially the Foundation is… We brought it to stability in past two months, since we realized we've been defrauded by Knowledge Seekers.

And a number of Knowledge Seekers who helped us, they're running into problem because of our problem. What we tried to bring the expansion into the Foundation work. We need a substantial financial support immediately to bring a stability. We are doing most of it ourselves. Once that comes out, even as guarantees, that we reimburse back, in the future. Once it's done, we can go ahead. (1:54). We don't stop. We don't stop, we haven't stopped even with this.

You've got to realize, we were set up to be defrauded, set up by somebody who came, claimed to be a Knowledge Seeker. The same pattern as before, we trusted and turned up to be one of the biggest fraud organizations in the world. There are 7 countries, 10 international banks involved in this, and the matter is out of the hands of the Keshe Foundation. It's not something we did, something small. This was something to bring the change, and the matter now is out of the hand of the Keshe Foundation.

But the team of the Keshe Foundation in the background has supported as much as they could. A couple of Knowledge Seekers have run into serious problems financially because of it. We're try to find a way to sort it out for them. But even those who run into problem, they created a problem for the Foundation. In a way, I was thinking about this morning, that the whole thing brought the books to be balanced.

But we are, we are not going bankrupt, but we are in desperate need of finances. Even short term, long term. Some of the Knowledge Seekers have helped us in the background to sustain and to keep. And we are doing a lot of it ourselves to maintain that. But we've

been very open, because the investment which we put out was, for all of you. It wasn't for me, or whatever. It's done in the name of the Foundation. It's not done in a personal name or anything else.

I received a death threat by one of the Knowledge Seekers, they're going to open the book, they're going to destroy. Nothing can be destroyed. One of the people you love so much, has done so much threat to us, because he thinks he was set up. (1:56). But we were set up by somebody who came close to Knowledge Seekers, and he pretended to be everything, but he was working with one of the biggest scam companies in the world.

And yes, we need desperate financial support in any shape or form to get through this. But Foundation is ?? we'll come out of it. Even in past week, 10 days, even today, we are not home, we are far from home, trying to gain some sort of stability, bring stability till we can sort of this thing out.

It's not the loss with a few thousands, it's millions has been lost, and set up. Then in that process we found out that the Knowledge Seekers who were actually defrauding the Keshe Foundation, and you loved him so much, by lies and cheats. In a way, it opened up the things we didn't see. And if we comes to, shove to the push, as we say in English, I open the books.

We need help, Foundation needs help. Today's teaching is not coming from Austria. I'm far away from. Hopefully I'll be back on time for tomorrow. We need help. That's why we came to you as a loan, as whatever, yes, we do.

We can create a lot of gold through our system and support, but that will not help. It will become another abuse. What we try to, what you call it, abolish, to bring, to do, to push, to become.

Yes, it was a huge loss. And about six, seven Knowledge Seekers have got caught in it with us. We're trying to sort them out. But we have brought the stability to extend, to the Keshe Foundation, but it's needs more than that. We need a few hundred thousand just to support us to go through the interim, (1:58). till we come back on the stability.

We've lost a lot of money in Ghana, in Italy, and in other places, but we always supported. We always stood up. But this was systematically set up, to ?? drain the Foundation in a very systematic way, by one of the biggest world companies in the world. Now we're talking to people who we talk to. Even they are baffled how this operation is run. Sooner or later it will come into the news, it's not something that's just we're telling you.

It's so huge that will come into the international news, because it has to, because there are many, many people, plus Keshe Foundation has been touched by these people. We're staying out of it in public. But you'll see very, very soon. Yes, we need help. Even today. There are a lot of bills to be paid, we're covering as much as we can. There's a lot of support needed, we are covering as much as we can, and there are five or six people who

sincerely helped us and for what we had, they will be returned, but we got stuck with it and they got stuck with it. We'll try to sort the position out, but it's not as easy. We started back, as very much minus, we try to just bring balance that the establishment can run as it is. As I said, we played a very open card. But we received the life threat from one of the Knowledge Seekers, and this matter will not be, what you call it, taken lightly by the governments and the officials.

Any other question? (2:00).

Q: … Hello Mr. Keshe, thank you for this teaching, which makes the connection with the books you have written. One can thus assimilate each cosmic ray to a "pmtic," and as far as I am concerned everything becomes clearer, thanks to you.

K- I think if you go back and read the books again from the beginning, with the knowledge of what we teach and what we taught in cosmic rays, and understanding the past few weeks, you will see a new knowledge in the book. Because now it's the same story. But it has a different meaning.

In a way, I read this book at the time when I read it, I wasn't in love, I didn't ?? know, even mean. What it ?? was talking about love. But now I'm in love, now I understand what it means, the story in the book. I feel it, because now I have a connection to it. I felt it. It's that kind of way.

As I said, these books are written, and you take from it according to your understanding, according to your, what I call, clarity of Soul. That's more than mental consciousness.

In a few months time, when we go to the next level of the teaching, which is beyond cosmic rays, then when you read the book again, you'll see a new dimension. And the beauty of this, once you learn, it stays with your Soul, then becomes a knowledge for you in your travels across the universe. It will be very interesting. (2:02). Read the first, read the book one, read the book two, read the book three, and then you will understand how far you have come. As I said, long time ago to Dirk Laureyssens, bless his Soul. I said, these are like the Old Testament, the New Testament and the Future Testament. Depends in which part of the history of time you locked yourself as a Jewish, Christian, Muslim, or whatever who might come in the future.

It's understanding the knowledge in a new way, the word ?? cannot change. As you saw this morning, I showed you how we make X ray. And in the same understanding, if you understand the work of plasma, how you make cosmic rays. And then you understand even how technology is embedded in a lot of knowledge, it's for you to decipher. And when you decipher it, don't become arrogant that you know it all, become humble that you had the pleasure, the gift to understand it.

Any other question?

Q: Dear Mr. Keshe, thank you for another insightful and elevating workshop. Regarding tomorrow, Friday, the 20th of January, we are asked for elevation of the Prophets of the past. There are also those who think they are prophets of the present at this moment, a bunch of them meet in the Economic Forum, in Davos, in Switzerland. Should we connect with them and elevate their Souls and in their STP, so that they no longer can cause mayhem on this planet? (2:04)

K- You see, you want to fight the soldiers on the ground one by one, or you negotiate with the generals, that the soldiers follow the instructions. The people in Davos are just a bunch of soldiers, the same as the others. You've got to sort out those who believe. None of the ones you see in the Davos, or any other forum like this, is without religion, without a way to believe in the Creator. Buddhist, in the form of, most probably Chinese. Christians in the name of the Bill Gates and the others. And the Jews in the other names, and the Muslims in the form of the Saudis.

They're all in there, but they're nothing, because they all follow the Book, or the mentality, or the emotion they created in their STP in the name of religion. So, do you want to go and negotiate one by one with the rebels? Or do you want to sit down on the table with the chief's and tell them to bring the rebels on the ?? line ? I prefer the second one, you deal with a handful. You don't need to deal with hundreds, and then thousands, and millions.

The interesting part is, many of these people you follow who come to Davos every year, in the couple of past years, many of them have become disgraced around the world in different shape or form. Davos is the window for abuse, planning of the abuse, and how successful all the abuse has been. We saw a guy who was a computer man, now he has become to vaccine, (2:06). and now he demands the animals to be vaccinated. And then we know the vaccines he was pushing two years ago, is the cause of the higher death rate. I call him the angel of death. It doesn't matter how he presented himself in Davos. ?? I was with some officials in past 48 hours or so, and I explained to them sitting in different hotels, which he and his team chose in Holland in early 2000, to take over the Keshe Foundation. Because then he would have had. We would have had no knowledge of the present knowledge, and that's ?? the way they could use it, to abuse you.

These are foot soldiers. Deal with the generals, they will sort out their foot soldiers. Forget about Davos, it's something, as I call it, a place for the abusers, to show how much they can abuse.

We saw it yesterday in one of the side talks, or main talks that one of the biggest things, if it happens, if you understand the implications of it, the Saudis will deal with all currencies not backed by American dollar anymore. It sounds nothing, but internationally it will bring chaos. Which means Saudis have joined BRICS as another coin, because now they don't need to hide behind dollars valuation. They stand on their own valuation. That's why Saudi moved that way. Sooner or later we hear another new members to the BRICS will be the Saudis. But why do they do this? What's the implication of it? What is the application of it? (2:08).

In a way if it goes the way it goes, and we get more influential governments joining directly or indirectly part of BRICS, the whole system become back literally to the barter system of the past. I barter with the Americans for two glasses for one bottle, I deal with the Africans for four glasses for one bottle, because Africans don't have to give it, but Americans ?? can. This is what the change is.

Don't pray for, you can elevate, or you cannot elevate the Souls. Because you've got to understand, as I said before, the physical war is over. Now it's a war of religion, and we have to go to the bosses, not the governments. You changed the people in your work. Putting Ukraine aside, we don't see wars as such anywhere around the world. We achieved the physical peace, now we have to achieve the what we call, dimension of the "abusers of soul," which is the religions, and you'll find peace everywhere. So, tomorrow is not that you're going to. You will be there to meet, to elevate, to give for them to be elevated, there's more into it.

And if any of you reach that point, consider yourself as humble enough, that you could bring that contribution to elevate him. Don't become arrogant with it. And then you will understand it.

Any other question?

Q: .. In some class I remember that you said, that in the work of scientists there is part of their Soul. (2:10). In your book there is the emotion of your Soul. And when we read it we have the understanding that this emotion, or each fragment of it are like those lines of field flows, that brings us your presence, or in another way take us to the "you." I don't know. In a way it's as if each line of that emotion was a key to a door to the universe of knowledge. My question is, how do you add that emotion with that force into what you do in the material state? Hope you understand my question.

K- It's very easy, just try to live it. Try to understand and make it part of life. Very simple. The whole process is, now you understand, with what we started teaching about the Soul. Especially like in Brazil, how many people went upside down when we released the first peace treaty that you signed with, "I sign my physicality and my soul." How many Brazilians wrote back to the Foundation, "I have committed my soul to Christ, but I can give you my physicality." And I laughed every time I read these coming from the Catholic, strong Catholic background countries.

And now you gave your soul to Christ as Brazilians, as different belief of the "72 ships of Christ" in different names. Now you'll find out that it's you has to give for him to be elevated and it brings peace back to you all, in physical life. How do you think? (2:12). What you always thought you asked, "Christ, help me." Now it's there for you to help out, to bring back, for them to understand the level that you understood about the peace in the dimension of the Spirit of the man.

Then you understand. You can use the knowledge to create a lot of beautiful conditions. And I wonder how many of you Brazilians tomorrow, I think there's about 20 - 30 of you in total, will come to be with the strong belief you have, to understand, have I become, have I had the gift, have I been honored to be humble enough to give to one who always gave to me, for what he is short of?

In a way I explained this to one of the Knowledge Seekers very recently. It is you go to a king, and he has everything, you sit next to him, he suffers from the love, lack of love, because nobody shows him true love, except they call him the king because they have to, and they bend to him. There's an old Persian proverb, we say, "come and stay with me one night, then you understand my true feelings." You will stay with the kings and find out, one night, what they're short. It doesn't matter if he is a crown gold, or the "thorn." What you thought was perfection, needs a little bit more to become perfected. And through it, when it's perfect, the rest will be ?? perfect. (2:14).

I wonder how many of you strong belief in whatever path come to understand that part of your soul, it doesn't matter how little has been, become part of the soul of what you believed in, in the man's belief, path of knowledge. And then you call it whatever religion you like, and then we find peace, all of us together in one level, or another.

Knowledge is a knowledge when it's an instrument to be shared, and to bring more knowledge and peace to the others. Otherwise it's not a knowledge. And this is what we kept all the time in all the teachings. We always stay as Knowledge Seekers, because we seek the Knowledge of Creation, and not the arrogance of ?? having.

Any other question?

Q: .. When the physical body reaches its point of death, and if the STP has not yet reached its elevation to merge with the STM, what happens to the STP at this point? Does it encapsulate the Soul of the Man and start playing the role of the physicality of the Soul of the Man on that other journey?

K- It never reaches, it's impossibility. It finds a path to give, to share.

We've seen it with the Knowledge Seekers who went through the flight system. (2:16). That when the Soul of the Man, the energy fields, the inner part of what we call, the Soul of the Man passes them, when we talk to some of them, they say, "we hear you, but everything is blurred, we don't see, it's like we are behind a curtain." Because it's that dynamic field of the Soul.

So when the Soul of the Man pass the STP, which you came beyond, that you see that curtain, did it interact with all of it? Or it was so, that it just passed it, for it being so weak, that it did not even feel it? And the biggest question will be, if we managed with a manmade system to create this condition, how would you as humans can do the same?

One of the reasons we chose a pair, a couple, to go to the Moon, or, go to space, is this. That the love of the partner expands the STM, that expansion passes the physicality that allows the man to take the next excursion.

In a way, when you are with your partner on the Moon, he or she becomes the system in Linz, if you think of it that way. To allow your Soul to expand, for the STP to be encapsulated by the Soul. That in a way you become the Enhancement Unit for your partner, as much as your partner becomes for you. (2:18).

This is why I chose deliberately the first two passengers, as the two lovers who… if you see them, they are so devoted. When one speaks it's like the other one speaking. That in being in such a balanced, Soul level, one becomes the system of the other for the love, for the Soul to expand.

The whole purpose of the Creation was the love of the God, which is what is, we call it, one of the pleasures of being a human, to love. When you love you give everything. You expand beyond to give. In that position, when your Soul expands, your physicality, the STP becomes encapsulated in it. And then you've done the same with your lover, that it becomes the source. We both want to go back to Earth, we both want to live in the space, we both want to go to Mars, we leave the condition of the position to the other, for them to decide, not for us.

The first two travelers of the Keshe Foundation are the "true lovers" with each other. We haven't chose randomly, because that will bring their love to be shared with the rest of humanity to fill it, to be the point of elevation. So, your STP, if you have, if you understood, if you can teach, if you can develop technologies, to allow that, for you to feel it, then you go to the next step of, do you need the physical dimension to live?

It's like people who came to us, and I kept them in the machine, two, or three times, ten times. (2:20). I can't feel it, I cannot, there is nothing happened. Because you have no one to give the love to, that can confirm the love you are giving. That allows the Soul to expand. How do you want to go beyond it, when my system cannot betray you. Can only satisfy what you really are, what you want to do.

We have a lot of Knowledge Seekers who came to Linz, who never understood this. And step by step I open up the doors. How come when we had two lovers, two girls, they came, one of them is so much in, they are so much in love with each other, these two women. And so, giving, loving each other and their family. That it does not matter where I put them, I can pick them up.

They say they don't want to go to the Moon. I can send them to the Moon. They don't even need to be near me. But, because the source of giving, that envelope of the expansion of the Soul is part of their life.

So, do we need the physical elevation? Or do we need the extension, or death for the STP, to pass its energy, or part of it, for the Soul to go? It's like literally when you come

to the point of death. It's like a mother and a child hanging on a cliff. And the mother has a pack of food with her, and she gives the food to the child who's on the top. She says, "you take and go, it doesn't matter about me, I fall down the cliff, I lived my life. It's no difference."

That what is surplus, that allows the Soul is given to the child at the point of death, which is the STM. (2:22). You take what you need, I have, I've done everything for you to be created, to be nourished, to survive on your own in the world. That's all it is. We just put different names to it. The mother and child, when a mother sees the survival of the child more important than her.

That mother is the STP. And the child is the STM, which gets freedom, by taking whatever the mother has to give, and even she sacrifices her own physical dimension. Nothing more. Just choice of words and names. When you don't see any more further that you can contribute to your child, to be, you send her to a boarding school, you send them to another country to be educated more, to become part of a bigger structure to be successful.

This is what our STP does with our Soul. Let it go, that it becomes another child in dimension of Creation. New life. We never understood, now we understand, we are responsible for this, always.

Any other question?

Q: ... (2:24). We put our intention in the last two months very much to the Commandments. And tomorrow we have to elevate ourselves as well, as well the Prophets, and we went through the 204th Knowledge Seekers Workshop. And every time the same questions come up. Of course we understand today more about it with the new understanding, what we have learned. But still there are a lot of questions, but one question is, the structure behind the Commandments. I don't know if we, for me, I would like to know more about it and maybe you can say something to that.

K- The structure behind all the Commandments is the unity, or understanding between the STP and the STM. "Thy shall not steal." The Soul of Physicality cannot steal from the Soul of the Man, that it stops its elevation. "Thy shall not lie." Because you can't lie to the Soul. It's not for human life, which we have interpreted it. It's the relationship between the Soul of the Man and the Soul of Physicality of the man. And man uses the emotion to create that mayhem, stealing and the rest of it.

If you truly understand the whole, all of the Commandments, it's a relationship between the Spirit and the STM, and nothing else. We never understood it. (2:26). Now, we understand it, we will see what it means, what it truly means. It's not about, "thy shall not kill", that cannot kill in his Soul, cannot steal from it to deprive from its elevation, that it causes it, to not reach maturity to become part of the Soul of the Creator in the entity. But in essence as a fields and rays, it's as part of the Soul anyway.

When you kill a man there is still a body, beheaded, the arm, the leg. So, the Commandments in truth is written about the relationship between the Spirit and the Soul of the Man, and nothing else. But as man is physical always, what you call it, translated to his own dimension.

Q: The key then, between, to bring the STP and the Soul in one line, is that the emotions are all in balance, our love, that there is no blockage, because you don't behave correct.

K- In many ways, if you want to translate that way. But if you reach balance between the Soul of the Man and Soul of Physicality, you will find eternal life in the true essence of it, not in just the dimension of, I live longer. Because the two always give and take from each other, or from the environment, to guarantee the life and existence of the other one. (2:28).

Eternal life is not for the physical life. Eternal life is for being able to maintain the interaction, life, between the Spirit and the STM. That's why one can, when the other one is weaker, super pass to accommodate the other one, which is in the need. One become weaker, one become stronger. In a way when your Soul super passes your Spirit, the Spirit is much stronger because it's inside, has received, it’s protected.

Any other question?

R: Did you mention you had to go around this time?
K- I'll finish one or two more questions, yes, and then we can call it.

Q: .. How important is, because there are 10 Commandments which had been released, and 14 which haven't been released. Is that the correct order? Or do the 14 mix with the 10?

K- It's all part of the same. It’s all part of the same. It’s one package.

Now you decide which of the 24 you want to deny, (2:30). and you make a new understanding with the 14 commandments, or 20 commandments, because the other four doesn't suit you, because (that's) how you want to live. Now it’s your freedom to make your own what I call, path.

Q: Okay, thank you.
K- Thank you very much. Have we finished Rick?
R: Well, we finished with the questions in the chat, and in the Q&A, and in the live stream and in the YouTube.

K- That's good news. Thank you very much for today. And we meet those of you who decided to join us tomorrow at 12 o'clock Central European Time, and we’ll come in with the new technology, which has been linked up and set up by our people in the Uno Center and laboratory, and we'll see how successful this next step in the knowledge gained will be. Thank you very much for today. Thank you very much Rick. And see you those of

you who are be there tomorrow, at 12 . I was told that the booking will close the next two or three hours, because we had a surge of other people joining in past 24 hours. If you want to join, just register. They will leave it open for a few more hours, and then we close it.

There is a session for February, which again ?? the meeting with the Soul of the Creator, number two. That will be another trip for the STM, (2:32). and then that will be partially, it depends on the outcome of the meeting of the Universal Council, their decision, and the Earth Council, in how the next step will be. Thank you very much. See you tomorrow, or see you next week.

Q: .. Tomorrow can we elevate the Soul of other prophets, we like?

K- Any prophet. If they need elevation they will receive it.

We received a message from Dr. Bararpour that some of the Iranian team or people who wanted to join tomorrow, will not be able, or may not be able, because of the what you call, national examination for university entrance, as the government found that some people are cheating with their watches, or whatever they carry with them. They're closing all the Internet for the duration of the examination. So, Dr. Bararpour and the Iranians who are, might be in the area of the examination might not be able to join us, or partially, or the minute the network opened up join us. We'll see where we can go. Yes, it's not a joke.
R: It's a funny way to do it. But it's common sense it makes.
K- Because you've got to remember, one of the reasons you see so many Iranians out of Iran or before revolution, was that we have a, we had a system, still operating, it's called the ?? concur, which we had that time 40 - 50,000 places for universities. And we had four or five hundred thousand candidates, and people had to sit for this internal examination that they can pass a certain mark. Then if they can choose what subject they study. This now has become a thing of the past. Now the Iran there is 4 million candidates and 6 million places in universities. (2:34). These examinations is to decide which university, or what level whatever you're going to do, and to be there. So, it has taken different shape, but there is still people wanting to be doctors, but they know nothing about biology, as I call it. So, it started them cheating, in a way. It's a new technology, and new developments, and new approach by different governments. Thank you very much for today, and we'll see you hopefully shortly. Thank you Rick.

February 19th Dining with Creator; Mixing up different fields creates Cosmos; New products Compact & Head unit - together travel fed all needs access to knowledge; CR fields recycle over billions years - part of us; Knowledge Centers in U fields gather; Vertical beings; Further on Reincarnation - not old & new; Prophets same color; Prophets STP very low; CR are here need to open to receive; Measure Gans strength

ENGLISH TRANSCRIPTION

(:12).

K- Yes, good morning, good day to you. As usual wherever whenever you listen to this series of Knowledge Seekers, programs from Keshe Foundation Spaceship Institute. As we are here to share knowledge, we try to understand a little bit more and add knowledge in a direction, that can serve the purpose of extending the understanding the world of Creation. Today's teaching will follow the same as last couple of weeks. As now we're trying to explain the scientific part, plus connection to everything else we've done in the past, as the technology and knowledge and technology has been step by step.

As we said, with a new knowledge, we cannot just theoretically speak we have to deliver scientifically, and systems that can prove and show it is, that we don't become another religion, or another sect, or whatever. So it's knowledge and science together, what we call, ?? theology, we theorize, and then we bring the systems that it can bring that knowledge into reality.

We have seen in the past few months, we spoke about the Soul. We understand the Soul, even itself is a creation of us, it was created from interaction of the fields, which creates a plasma. (:14). That a plasma in interaction with the field of its environment creates another dimension (D) of field interaction, and that with the environment of the wherever it is, creates the manifestation of physicality (P). If you don't decide to manifest your physically yourself, you can still do so, but you still exist in both dimensions of the physical feeling the environment, and one interacting with the rest of the universe, what we call, the Soul of the Man (STM).

The teaching of the Cosmic Rays (CR), which was started a few weeks ago. And then we'll come later on to it, with Universal Rays, which man has no knowledge of at the moment. It's not something new. In 2006 - 2007 and following the work we did in Belgium, as we explained before, when University of Brussels, ?? , and then the company which we interacted with, brought the condition of confirming the technology, different aspects of technology. We were, we came across SEK the nuclear center of Belgium, which is now more or less a central European Research Center, with Germans

moving in there. Making ?? their ?? nuclear reactors for isotopes for medical application, and the rest of it.

The scientists were ?? by the Belgium's, but behind it, the Americans, and the rest of western world scientists watch, and look into what is this technology. They asked me for what, that time, was what we call, the production of electricity, power, and everything else. And how this works. (:16). What it is. How did you come to this arrangement, and understanding. And with the presence of the notaries, and representatives of the Keshe Foundation, we agreed that I give them three conditions of materials. I said, I chose which ones I will give you. I've said this before, maybe you'll find it in the other teachings. I gave the scientists of the Belgium Nuclear Center, a bottle.

I said this bottle, the material in it, represents the condition of the body of the Man. Now you call it, Gans's. At that time they couldn't, didn't do, not understand it. I gave them a second bottle. This represented the condition of life in the solar system. And then I give them a third bottle. I said when you understand this, this gives you the condition of the life in the universe, what we call, Cosmos. Each bottle was about one liter, Coca Cola plastic bottles. And we gave this to them to test. And after about couple of weeks, they called back and said, can we have some more water. What you gave us.

And they had two reasons, they already gone through testing these things, they found things that couldn't see. Later on we found out, what they found out. And it was to see if the material was not proved, just "willy nilly," or accidentally. And it was, it had a scientific structure behind it. And after they received the second bottle, (:18). second bottles, they asked for a test to be done in SEK. I was invited into this test, and they vacuumed the one cubic glass container to absolute total vacuum, they could get, and we started producing the material inside this vacuum.

When test was done, they discovered a lot of things they couldn't understand. And I was told by the scientists at a SEK, that before these tests starts, the policy was that whenever we moved any nuclear material from one building to another, it had to be registered, that such material has moved from which building to which building in the nucleus center. With the test we done now, with your material, the policy of has changed. Anything moved from one room to another has to be registered? We didn't know, we couldn't understand how easily nuclear materials can be produced, at will. And you have understood, and you created, but we don't understand how you do it.

And I explained to them, the knowledge, understanding of the process of Creation is in stages. You start from the low. If you live in the atmospheric conditions like Earth, or you start from high, break down to low, if you come from cosmos. And the material provided was essence of Creation, essence of life, what we call, CR. What we call interaction of the process of the fields of the universe (U).

In the past couple of months, 2 or 3 months, I brought those cups to you in a different shape or form. And it was like a movie, (:20). watching you as Knowledge Seekers (KS), how you watch this movie. If you watch some of the movies, they show you the end at

the beginning. And then they show you the movie. And then you chase to see what happened at the end, which what you saw, happing to you to get to the end.

We did that with you. The "Christmas present" was the beginning of that movie. A hundred odd of you, or maybe 150 - 160 of you came in. And in a very simple way, we showed you the end, when you all interacted with the Soul of the Creator. And we showed you physically. But at the beginning, was just you as humans, souls of humans coming into the movie theater, not knowing what you're going to get. A lot of you came with different expectation, but you never considered possibilities of, that your Soul come in interaction, in interaction with the Soul of the Creator. So I showed you the end of the movie at the beginning of the movie, this is where you're going. This is where the STM will meet the Soul of the Creator. And you were just happy going around.

And we started the second session, which was the 20th last week. This is preparing you to be ready, to take that journey into the path, into understanding, into interaction with your Creator, which .. was the end of the movie, showing in the beginning. We showed you in the first session, what is going to come.

But now we show you the way. Last week 160 to 170 of you came in. We see massive interactions with a lot of you. (:22). Some of you went through a dimensional change, and understood. Some of you felt very much deeper, in a deeper way, the understanding of what is the STM in interaction ?? Soul of.

Last Friday 20th was the first step of the movie. And that was to show how you interact, how you bring your Soul out. You cannot start this journey, if you're a steal encapsulated, imprisoned inside the physicality (P) of the man. The session of last week was to show how you can expand your Soul to touch the Soul of Physicality (STP) and embed it.

This is why in that session we told you, you'll see a flash of light. If you see, if you feel that flash, is when the STM, and touches the STP of the man. And the second flash is when your Soul interacts with the Soul of the Cosmos, the Soul of the Creator. And then to see, and to, for you to understand that you past and you interact with your STP, we asked you to interact with the Soul of the Prophets, and elevate. Because you elevate, at that point with a soul, what we call the Spirit of the Prophets.

Their Soul is perfect. Like your soul. Your Soul is perfect. It's the STP, which brings all the miss functioning of the physicality. And then, as you were there, we asked you to the next step, and how you interacted.

So, you started the journey, to meet, to live to understand the new cycle. But in this journey, (:24). plasmas give, plasmas take, and you need to be able to give what you don't need, and take what you need to elevate your Soul to the next step. You need to feed it. In the physical body, you eat food, to sustain, to grow, and to mature, to understand more to live a life. It's the same in that world of the creation of the Soul. It needs to give and it needs to take to be able to survive and know what it takes, that evolves to the next step.

This is why we have called in the 19th of February. What do you call it, "dining with the Creator," which means you learn how to feed yourself, how to feed STP, how to feed the Soul, and how to feed the Spirit, that holds on to the Soul.

You cannot travel the span of universe, if you're a Soul alone. You have a purpose. So inside you, what you created as the Spirit, becomes the inner core. Does not need the physicality.

It's you who decides at what point the Soul interacts with its environment, that allows the STP to create the physical condition. So when you travel the span of the universe, in a dimension of the plasma, you will travel with this, what you call, the Spirit within the Soul, that at a point, interaction of the 2 create gravitational fields and dimension of the existence. Now we understand the process.

So on the 19th of February, join us to dine with your Creator, dine with your Soul, dine with your Spirit. And in a way, dining is not to eat, to interact, to give and take what you need to survive this ?? (:26).

I cannot make you passage of universe if I still have to .. hang a reactor behind you to feed you with it. You have to learn with it. You are not at the school child with a backpack of food pack in your rucksack. Mom put in there, that when you get hungry during the school time, you can dip in. Now, you understand the work of the Creation, you give you take.

So we have started the journey. Those of you who came in, and many of you felt a lot. It was in a way for you to be able to expand your Soul, to pass, to see, to come in interaction with your Spirit. Some of you don't see the light, because you're start looking for the light. The light is not a physical light, it's the enlightenment. Those of you who came in and waited to see the light, "oh, I didn't see the light." You're still in the D of physicality. The light in the dimension of the Universal Community is enlightenment, not the visible light to the eye of the man.

Enlightenment that I don't need to see. I know that what I do is there for me to survive the correct (way), the ethos of Mitra. Now you understand how the knowledge comes together. In the what we call, "February the 19th," we brought it to a Sunday, because we all have a Sunday lunch with the Creator. We take you to this process, through this process to the D of physicality, and then to the dimension of Universal Community.

So, now you have learned to get into the car. (:28). Now you have to fuel it. Then it comes in the other sections and in the March and April. The other parts, how you interact, how you recognize the others, and we start the journey of the man into space.

In the past few weeks, the Keshe Foundation Knowledge Seekers team have built a system. Today, later on today, Keshe Foundation will make the first attempt, complete attempt, or stage attempt to bring the first man into Linz. Everything has been prepared

for it. And we test to see from the other tests we've done, because our volunteer in the first test has felt his organs to be opened and loose. In the second test, he has felt that he's lifting up from his legs and taking off, ready to go. And today we attempt to see how far we can bring him.

So the first transmutation through the teaching, understanding and now developing the technology and science for it, is on the way. It's not something to be done. Our volunteer will do everything possible. We have brought part of him into Linz, that we have a point of reference. And we are ready to take that step. To take man into the stage of transmutation. As I told you, February, January or February, we start doing it, and by March, April we're ready to land the man on Moon.

We are within the framework of the Keshe Foundation as we did. Even though we had a huge setback financially, we still carry on. In the process, at the same time of understanding everything else. (:30). The doctors of the KF in the background are doing a lot of work with their patients in the wellness. And we are monitoring how these things take shape, how the Soul expands, how people overcome the conditions of mental condition, that shows the expansion of the Soul. How they come, the physical condition, and with .. in conjunction with the emotion, which brings in the interaction of what we call, the Spirit's interaction, and the rest of it. So it's not just me targeting something, we're taking a lot of knowledge from our doctors. A lot more knowledge from experiments we do. And a lot of things which are happening in a background.

Developing the new energy system, developing the new plasma energy System. This week, our scientists have achieved on the same stage, as what we did with SEK. The production of the Plasmatic energy, no connection to any matter state, but creating power This is part of the total development of what we call, "Plasma Power Generators."

Now, we have managed to prove, to create power in a sufficient way to be able to increase voltage and to add to our technology for the next stage, which now the system will feed itself, and then it becomes self-sufficient as a generator.

Our scientist on the other hand, are working, maybe during the today's session, we'll release a new system, is on the test. And once our laboratories respond, if they do during the teaching we'll let you know.

And a new product known as a "Plasma Compact" unit will be released today. What this is, it's a small box you put on your table, you plug it into the system to your electricity. (:32). And you will see savings up between 30, 40, 50, 60, 70%, 80%. The compact unit is very small. And the commercial unit of it has already been released, which will be delivered this month, or beginning of next month as it is, arrives. So, the technology is moving on all directions.

In that proposition, we will make announcements after the teaching for many of you, you've been waiting for a lot of things. We're opening a new dimension in the work of the Keshe Foundation. So what I started with today was, what we are teaching you today

regarding the Cosmic Rays (CR), regarding the interaction and creation of CR. What I started with the X-ray machines last week to show you how X rays are created in, when you go to a hospital and other X ray machine, and how that knowledge understood can lead to the creation of X ray in a plasmatic strength, not in the matter strength. And with the work of the SEK, it shows you, explains to you that this is not something just done just to come up. It's been on the work for 17 - 18 years, to show.

And most of you here, once you've been through the process of the interaction of the Souls, now you make Gans's, you're far, far, far more knowledgeable than the top scientist of the SEK nuclear industry of the Americans, and the rest. Even though you're a housewife, you are a mechanic, you do all sorts of things, or you're child in the school. Your understanding, on the correct basis, is far beyond the professors in the universities, in nuclear industry, in cosmology, in the interaction of the fields and in the work of Tesla. (:34). So, you have become the new generation of scientists. As I said, in the universe there are no universities, for you to graduate. In what you understand in the process of Creation it graduates you to what, and where you can live, and how you live.

Many men in the past millions of years through their own contemplation and understanding, have reached different parts of this technology, technology of the Creation by the Creator. Technology of understanding how things done and then they had to put it in a frame, that others can understand you, according to their own intellect. Today's teaching is very simple. We created the Cosmic Rays, we created the plasma.

In general, all the fields, even the ones which have created you are cosmic rays. They came from cosmos. They have not appeared out of nowhere suddenly, and then become a cell in your body, or a nail on your finger, or a hair on your head. The hair on your head is part of the cosmic rays, in their interaction, and with another interaction of another part of cosmic rays will create in another way, you call it, Inertia, leads to creation of the balance what you call, your hair. So, you're still part of cosmic rays.

When you die, what happens to your skin? It releases a field, and it comes in the path of the cosmic rays. It might become a cell of an ant, or it might become a cell in a body of another object in another part of the universe, in time, in billions of years. But today it's part of you. But at the same time, (:36). this part of you, billions of years ago was part of somebody else's, in another galaxy, in another part of the Unicose. Where in interaction with others have led to be at this moment of time, in this framework, in this shot of the screen of life, is your hair. So, when we talk about the cosmic ray, don't get focused it's only beyond the Solar System. You are part of that system, you are part of the cosmic rays. So, we study macro and micro together in one position. Micro is your hair, macro is the cosmos, but they're all the same. It's the process of the Creation.

Now you have to understand how you can mix the fields of the cosmos to create hair. Then you will come to understand how to mix these cosmic rays in different way call it, the Inertia as part of the cosmic ray, gravity is part of the cosmic ray, the matter you eat is part of the cosmic ray. How you mix these things together to make that hair, to make that skin. And then how long you allow it to exist, how long you allow it to expand, how long

you want it to be there? Then if you understand this, you become that guy in the hair salons, with different dyes to make your hair blue, green, black, white, whatever you like.

So, the hairstylists of tomorrow will not work with the sprays, (:38). you go in a Head Unit, they create the condition of the blue hair, and you come out and your hair are blue, no chemicals. This is not something imaginary. If you go back in the history of the Keshe Foundation in 2009 - 2010 - 2011, and the Knowledge Seekers in Holland reported after going through the system, the wife was so excited that, my husband used to have a white hair, he has more black hair, and she was flaunting it. So we already understood, but at that time you did not.

In this process, mankind comes to understand the reality of the Creation. How do we interact with the fields of the universe? How do we interact with the fields of the cosmos, that leads to the creation of me at this moment of time, in this frame? Now you understand when I tell you, I've been here a long time. I've been here for a long time, using different cosmic rays, different strength of the fields of the universe through the Soul, I became the Moses, the Christ, the Jesus, Muhammad, Mehran, and the rest of it.

In essence it's the same. In how you feed it, you collect it. In you have to understand what you've been, what you become, and what you will become of what you are today. (:40). Now there is no secret in the knowledge. Now, you met last week, you met the week before with the, in the dimension of the Soul, you came in touch with the Soul of the Prophets. You've been touched by the knowledge, you've been touched by the warm, you've been touched by the emotion in the dimension of physicality. As one Knowledge Seekers wrote, I saw that 3 lights. As one other Knowledge Seekers wrote, "I felt my Soul, and I felt my spirit."

So, what you need to understand is, where the man is going. But the problem is, you don't know where you came from. And this is the enigma you are with, and you have a problem with. In the new technology, in a very soft way, we show the creation of man in the physical dimension. Even we took pieces of the man, parts of the man, and we let another man to create, that we don't create the Jesus who rose the dead. We saw a father created the piece of the brain missing in the skull of his daughter. When Naomi's brain was created, regenerated by her father. So, you have seen it, but you never understood. To you was a magic, now you have the tools. (:42).

Now, we have built systems that can bring structure to any Soul. We have brought the system to show how structures of the Soul and the Spirit can lead to the creation of the man. Now all you need to do is to understand the work of that X-ray machine. How you collect, what field strength, and how much you energize it, of the energy of itself, which levels of strength of the fields you use, you choose in that bunch you call, plasma? And how you bring it in the interaction with another Soul, with another pack of energy, call it your Spirit, called the Soul of your mom, called the Soul of the Christ, call it the Soul of the Creator. And in that interaction you see yourself in the dimension of the emotion of the Soul, not in the dimension of physicality.

Because if we show man can be, look, and be as part of the Creator, man at this stage (will) become so arrogant, that he will call himself the Creator of the Totality. Where we are all part of the total Creation. Now you understand the stage, which the systems are built. The stage that the technology is going is enough, at the speed, that a number of Knowledge Seekers can understand, a number of Knowledge Seekers can build, and KS can go through the experience of it. When we look, when we see, we understand, and then we go to the next stage, and then become to understand the next stage. (:44).

So, the journey of the man in the movie of life of the man was shown to you on 16th of December, 2022. When what was promised was fulfilled. When you saw the man, the STM come in touch with the Soul of the Creator. And the journey of the man to understand how to get there has started. You have to come out of the house to go somewhere, and you have to have with you the nourishment, the food you call it, that you carry on the journey, that what you don't need, or what you need is with you to consume. Not in the shape of an apple and banana, but in the shape in the strength of the field of the universe.

When you came to Linz, some of you when you finished the trials, I took you back in. Or while you're in the room, I showed you the reactors which you sat in, because you see it, because these are open panel system. And I said, you see, this one is vertical, this one is horizontal. One unit works on the horizontal fields, one unit works on the vertical .. fields. One works in the fields of the universe. One works in the fields of the essence of the man. One is the bottle I gave to the SEK as the creation of the magnetic field of the Solar System, in conjunction with the universe, and one is the magnetic field bottle of the man. So, the knowledge hasn't changed. It's the same knowledge, but it's put in different shape or form for different application, for different understanding of that point. (:46).

The reason that we tell you that the new system is coming into operation today, we have brought the cosmic rays of the universe, the cosmic rays of the STM, the cosmic rays of the what we call, planetary system, and the cosmic ray of the Spirit of the man into one system, which is going to be tested today.

In a way, in a unit, which is now getting completed, we have created the universe. When the second system comes into operation in a few weeks time, then as there are two universes we see, and in the future man will learn as part of the teaching, the work of the Unicose.

When we bring the two other systems together, the old one, and the two of the new one, we will see the interaction of the fields of the Unicose, the universe, the planetary system and the man. This is why we don't abandon the systems, which are in use now, because they are part of the structure of the bigger.

Then we will see the beauty of the Creation. Then we will see the manifestation of the new cycle of understanding for many people. You don't need to understand and feel the emotion, if you are already part of it. You just got to comprehend, how did I come here? How I am existing as I am, and what is going to be the future of me?

Then you understand in the teaching when I said, (:48). when the man, cycle of life finishes on this planet, as a physical dimension, the death, it's just the beginning of a new cycle, you follow where the Soul is going. You don't wait for man, your father, or your friend to pray for you to elevate your Soul, you elevate it yourself. You correct what was done wrong, to be correct in what comes out right in the future. Then that way, you don't need no prophets, you become the "propheteer" of your own action, of your own understanding, on your own intellect.

Now, you understand where I said, 2023 it's the time when the man matures to the knowledge of the Creation. In 2022, on the 16th of December, you met your Creator. Now, you want to find a dress and how to get to it, and then become part of it, that you can create the others.

How do we produce these cosmic rays? And how do we put them in a position to interact? How we create the generation of the fields. How we understand where the fields centers are, that we can tap into to receive? I run out of energy for such a specific strength in my Soul. There is no supermarket to shop. There is no specialist garage, that you can go to fix it. But if you understand the sources, the energy sources of the universe, where they are, in what specialty, then you can tap into, and you learn how to do it. (:50).

As I said, with the teaching of before, when we send the first passengers of the man to the Moon, in a few months time, we just don't shoot a rocket. As I explained to our scientists, we take the essence of their Soul, and a small amount we target to the Moon. We leave it, not where we want. Where it wants to be. And then by the law of the physics of the plasma, .. the bigger tries to feed the smaller, and the smaller tries to get from the bigger. And in that process, the bigger gets attracted to feed, and then it moves.

Then it comes a point of balance, where then you have to decide, I still want to have a spot back on Earth, but I want to take most of it to the Moon, because I want to see how the Moon is. In a way, when you dream about your mother, you send them what you call, an outrider (a little part of you) out. Mom, are you awake? I'm coming. And if the answer is, "I'm ready for you," the soul goes, you have a dinner with mom, and then you call it a dream, I was with my mom having dinner. Now you understand.

Then you have to understand how to travel. In the future teachings we teach you how to travel. You have a road which goes from Rome to Paris, ?? so and so is an European road, and it's all fast road, you can go fast track. You can go on a plane in a shorter time. But you still spend a lot of times in airports sitting in. It's better to drive. I want to go from Rome to Paris, but I don't want to get there fast. I want to go through "B" roads and see the beauty of the nation, the beauty of the universe. (:52). I want to stop in different places, or I go through "C" roads, that it means I go to the villages, if it's good I stay for a while, I call it Earth. If it's good, I stay in Planet Zeus for a while.

But still the path is to the Creator, and still the path is to get to Paris. But I see everything. The guy who goes on a "A" road takes five hours. I go on a "C" road, I take 5 million years. But the journey is the same.

When I came in the body of the man, I decided, this is what's going to be, so I take my time. Call it 5,000 years, call it 2,000 years, call it 1,500 years, it's all the same journey, it's the same Soul. I decide where I put the tent, and how long for, because I want to see all the beauties and all the cultures. I call it a Moses, I call it a Jesus, I call it a Muhammad, I call it a Buddha. And then I soak in into the dimension of the world leaders to see how they lead, and how the man needs to be, and how, and who and where.

So, you have to understand the process. And the process comes through the knowledge, and the knowledge given to the man, are learned by the rest of the Universal Community, as now the man through the presence of the Creators Messengers, then the what we call, the Universal teachers is showing the path to the universe, to the Creator. The guys in UFO's have no clue. They know there could be a way, but they're still in their UFO's and you're marvel them. (:54).

Now the whole of the universe marvels the man who has come to understand the knowledge, the system, the craft that will take them to their Creator, what they've been wishing for, and they've been searching for. As I said, the frog has become the princess. And now it depends who kissed it. Would you get a prince? Or would you get the princess out of it? It's the dimension of understanding of your Soul, as there is no difference between the two.

You've got to understand that with the new technology, with the new understanding, with the new frame of work we set in Austria, we set the first steps for the man to gain the Knowledge of the Creator. Now you have systems, that the man in his physical greed can produce to reach that point.

We set the scene to you, we try to bring somebody from one country to another. But in essence, we want to show you how you can travel the universe, understanding the fields of the interaction. What field strength you need to create to go to Paris, what field strength you need to create to go to the village on the way to Paris. Then if you become educated well enough, how you create the fields, that you like to go to the center of the Earth, to the center of the galaxy, to the center of the universe, to the center of the Unicose, and to the center of the whole Creation, and the Creator itself.

How much of the, (:56). what I call, the onion peels of the knowledge, can you peel to get to the center. You interact the fields, you create combination of the fields, you create condition of the interaction of them, that in essence you create a cosmos. And their interaction with each other releases fields, which you call, cosmic rays. And the interaction of the cosmic rays with different cosmic rays, which are created in different stages of the same system, gives you the Spirit, the Soul, the matter state, the planetary system, and everything else you have ever seen with your eyes, or you can imagine.

So where would the knowledge go? How do we create to interact the fields and not get entangled with the MaGravs? Even though, we produce MaGrav still, because it's one of the best ways to create the fields, that in the future, you can create the cosmic rays from if you understand the work of it.

With the new understanding, it brings a new intellect. And with a new intellect, it brings new expectation. With new expectation it brings new challenges, new, what I call, friends. It brings knowledgeable people together to be in that level. I was talking to one of the Knowledge Seekers past few weeks. And she says something to me and I know exactly what she says, and it's pleasure to see. She says, "I don't need old friends." (:58). She knows, she's on the line most probably listen, I want the friends, the friends in the Keshe Foundation, I can make Gans's, I can talk about the Nano, and whatever the plates or whatever. Because those ?? sheets our f the old time has no value when you can see the essence of the Creation. When you become part of it, when you see the beauty of it, and when you get benefited by it. Then you understand there is more to life than a "chit chat" and a coffee drink.

The whole structure is to elevate the Soul. And the whole structure, in ?? the elevation does not come with a light. It comes by intellect. It comes by understanding where that light came from, how it was created. Is that the light of my Soul and my Spirit? Is that the light of my Soul with my mother, is that the light of my Soul with the prophets, or is it the light of my Soul with the Creator?

Or are you actually looking for a light or enlightenment? If you look for a light, it means you're still in the dimension of physicality. If you look at the end of the session, say, what I understood, that's enlightenment. And this needs a separation. One to understand what it means in the dimension of physicality, and one to understand what it means in the dimension of the fields of the universe.

"I didn't see any light," but you thought it was very interesting, I realized this, this and that. So, (just) because you didn't see the light, (doesn't) mean the thing doesn't work. But you understood that it means, you added to intellect. This shows that a lot of Knowledge Seekers have not reached that point of maturity, or they are in what you call, the schizophrenic, (1:00). they don't know if they are in the physical dimension, or in the Soul dimension, or they take one or the other. But they have not realized the beauty of their own creation, that they are in both dimensions.

I see the light, but I understood the light too. So, I have been enlightened, while I've seen the light.

This process will continue. In March and April we'll bring more light into the whole understanding. We come to the point in February to join us. The panel, the lines has been opened, you can book your place to "dine with the Creator." As the last time you met, and you went, and you did the first stage of expanding your Soul to encompass the Spirit. You're on the road, now you've got to feed it.

Then you come to understand what has been fed. The first time ever, we recorded the testimonials after the session, that in the future people understand who was enlightened, and who has seen a light. Or did the enlightenment come after you seen the light? As I said in the session of the Friday, some of you will come to understand after the session, in the next few days, about what happened. Then, those of you who are there, what happened in the next few days? Did you come to understand more, which is the true understanding, you became enlightened, even though you didn't see the light in the session. (1:02).

Now you understand when I explained to you on Friday in the session, that the next few days, you will see the light. And you're still waiting for that flash of light. But if you have thought and understood more about what happened, whatever, you're enlightened, and that's the true knowledge, that's the true light, not the flash of light in the eye.

So, join me on the 19th on a Sunday, to have a Sunday lunch with the Creator. Dine with the knowledge of His, and not with an apple and an orange. Understand the true meaning of the knowledge. Understand now you have to create systems, which brings the interaction of the fields, as I've told you so many times, you're so bogged down with the MaGrav and Gans's that you don't see their fields. And now maybe you gradually you start seeing. Even though we still provide you, we make you MaGravs, that one day the enlightenment received from them, we enlighten you to understand the world of the Creation.

The MaGravs we give it's not a power unit that you get electricity, it gives both. It has a physicality, and what we call, the spirit, which the fields they create around it, that it adds to your Soul. This is what I told you many times, sit on top of the MaGravs, go on top of them, put something on top and you'll see the fields there. The electricity is in the box to light your house. The fields on the top to enlighten your Soul.

It's you who has to understand. We are making these so compact and small, that more of you come to be enlightened, that as you had enough electricity from beautiful Tesla. Tesla gave you the physical dimension of the light at any point, (1:04). and I give you the enlightenment. Even the Soul is the same. You just have to do the first part, that the physical side gets satisfied, and a couple of centuries later in the D of the Soul. As I said, the cycle of the new Messengers comes form both sides, the matter state and the theology, that no one can fool no one.

We go to a break, we come back, we have some beautiful announcements to make on the commercial side of the KF, and then we answer your questions. And I hope today's teaching opened your eyes in where you are going to and how you are going, and you are the only driver, passenger, the car, and beneficiary. Rick take us to break .. (1:05:21)

<< BREAK >> 469 KSW January 26, 2023 (1:10).

K- Yes, thank you very much. On the D of physicality and what we do in commercialization of the technology (T) and application of T, in working with the doctors, and seeing their patients, and introducing the new wellness systems and technologies, and the cost of providing the services has created a lot of dilemmas for a lot of people, in a way, what can be done. I've been aware of this. And in the past few days, even though we lost huge amounts of funds in the past few months trying to expand the technology in the physical dimension, we have secured understanding with certain people, organizations. That the Keshe Foundation as of today for a very, very short time, for a number of limited cases, will support the doctors in the financial side. And we'll provide two things, that is in small payments by the Knowledge Seekers, the Keshe Foundation will support through the support we receive on delivery from the our what we call, the backers in that. Because we had a small backer who helped us a few weeks ago with four cases of Parkinson's, and then we went to the big organizations, (1:12). they are of the same position, they'll support the Foundation. A limited number of cases, except coma and cancer, will be looked, and it will be given the go ahead to go with the doctors for the process. The numbers are limited and the time is limited.

We have to respond back to our people within a few days, that how many cases we have, and they expect elimination from the side of the what we call, the volunteers for the doctors. We provide the services only through doctors, nothing to do with the Keshe Foundation. We are provider of the knowledge, we are not doctors, we are not in the world of medicine. We provide the scientific background to what is to be there.

The understanding with our people, sponsors, is that, some of the prices you heard is 30 - 40,000, some cases much more. Some cases Keshe Foundation subsidize some of the moves. Through what we have a very few limited numbers, we cannot, they don't want us to specify. We'll accept whatever the Knowledge Seekers paid to the doctors at the fee of 5,000 Euros for any case, it doesn't matter what it is, except cancer and coma. They will accept to cover the rest, which means if you have Alzheimer's, if you have Parkinson, if you have whatever, to go through the doctors, your case will be automatically accepted. (1:14). We provide the technology and the know-how to the doctors, and through your doctor you will receive it, autoimmune system, deficiencies, whatever.

The reason for it, what they see is that it gives a rapid boost for system to be developed for technology to be complete. And it will stay in the hands of independent organization like Keshe Foundation. We do not get involved in medicine, or health and that kind of things. We provide technology to doctors, they know what to do with it, how to use it, and there is no limitation. As of today for a very, very short time, a few days, because they think if they run it they will not be able to sustain to support it. Maybe 10 - 20 cases,

maybe 50 cases, we do not know. But any of you can come up with the 5,000 Euro as a donation to your what do you call it, to your doctor, or whatever. In next few days, the Foundation will support it through the subsidiary we receive from our people in whatever means they provided to us to support you. So, it's not that huge amounts, which was asked for. For a limited number of cases, and we have put no cap on it, at the knowledge side, because the reason and the understanding is, we have to learn more, what we can do, what we cannot do. This will close in a few days time.

So, if you know anyone with any cases, just go through the Keshe Foundation info, we pass it on to the doctors, and the case is accepted. If you can deliver the 5,000 Euro to the case of the doctors immediately. And don't come in, oh, I cannot do this and that. This is a once opportunity we are given and we deliver it. (1:16). If it comes to a certain number, you have to understand it has to be subsidized, and there is a certain amount they do. Maybe this is one of opportunity, we had a beautiful pleasure from one of our Knowledge Seekers who went through the processing. He has offered 4 cases to the help of the Knowledge Seekers, and we have put that out for it.

Now, this is a very special case, I've been told not to disclose the numbers. And there is a very time limitation on it, that it doesn't go for weeks that then they say, oh, you said that. By Sunday night, we close the case, which means you have 4 days. It doesn't matter what condition, this will be subsidize to see if we can support through the wellness, through the doctors, and to change the course.

Those who have already been going through cannot come back and say, "oh, you did this," this is something to do. It's a special package by what we've been offered. How many cases we can accept, we do not know. But if you can do and make your payment complete by Sunday night, we can push through the process, it'll be a pleasure for us, because then we can understand it. And the reason for it is that we have more system available to support the doctors. We could not accept this, now we have more systems, we can expand the numbers and the doctors will support it.

Don't come back to us and tell us this and that, we have received an offer, support, we pass it directly on to you and you have a very, very few limited time. And the cases from the past still can be considered, but that's up to your doctors not to us. But the 5,000 Euros has to be completed, that they not what finances they put in. (1:18). This is part of what is the annual accounts of what some companies and some organizations can give for charities and they can force it through their books. So, if you have, you know people with any condition, where if you come in next week, two weeks time to Keshe Foundation, we send it to the doctors and they ask for 20 - 30,000, it stays. You can't say, it was 5,000 (now it's 5K I want the lower price, the original price stays).

This is something we received, we have to go by it because the 31st of March is the closing account of the people who are supporting us, and it has to be put in that framework. So 10 cases, 20 cases, talk, get it done, put it together, and we'll see how we can get it on. You'll get an answer by next Tuesday, Wednesday, latest because we get an answer by Monday. So if it's 10 cases, 20 cases, whatever we submit, we get approval,

we have to prove to them that we received they have a reason to make that move, and then we'll get subsidized somehow we get our funds through different ways of support from them.

Please make sure, send everything to, as usual, health@keshe.foundation, or info@keshe.foundation and they will respond to your very rapidly. We asked a couple of people to be in the back to respond to this very rapidly. As you've seen, before it used to take weeks and months before you get a response with the what we call, the presentation on the 16th & 20th you've seen the rapid response, even days before all the things are in book, ready to go.

So, if you suffer from any kind of whatever, that you become a knowledge to us, (1:20). and you can put the 5,000 together to be paid to the doctors and then it'll go back to what we call it, the process. And within the next few weeks, two or three weeks, you'll be called in to take part with a doctor's order process for the processing as it is.

The other point of what we call, commercialization is that Keshe Foundation "Plasma Power Units" will go on delivery. And, most probably, as I informed, we might call in, or what we call, "Blueprint Day," that you can see the operation of the units. Most probably, I'm still expecting for a message today from our people, as I said before, that we'll introduce a compact unit.

You've got to realize Keshe Foundation from now on does not sell units. You buy, or you purchase, or you come to an agreement with the Keshe Foundation. You buy these units on a contractual basis of 150, what I call, 15 Euros per month, or 180 Euros per year for 20 years. Means you save 50 - 60 - 70% electricity or power at home, and you share a small part of it with the Foundation that we can run operation. You do the same thing with Apple. You buy Apple, then you buy the apps for it, the contracts for it to receive what you call, the processing. This will stay with us the same. So, it doesn't end up that we have to keep on selling units to sustain research. What you buy you get benefits by it, you pass the benefit for us, and we pass the benefit into research and development of more things to come. (1:22).

The compact unit most probably if it's done maybe confirmed, completed, will go on sale in next few hours. And the Enhancement Power Units, which you all put in, will go down from 5,000 to about 3,000 or 3,500. Already has gone in the what we call, the Keshe Foundation website. They are two different systems, and they're totally different applications.

We have, as I said before, creating more possibilities for developing new systems, new what we call, technologies. In the next few weeks, once we complete our tests or the what we call, the Enhancement Unit (EU), Keshe Foundation will put out what we call, the "Enhancement Communication System," which is actually very much like a headset. You will start communicating in a new way with our systems. Those of you who will come to be the volunteers with the doctors will receive one, or your purchase one through your doctors. And instead of buying these head units, and headphones and mobile phones, we

go through our system, our technology. You don't need a headphone, you don't need a mobile phone.

In a way you live what I said, the two lives. In the everyday communication, you use your mobile phone, and in expansion of the Soul in feeding yourself, in keeping yourself healthy, and keeping yourself well, you use the other unit. And then gradually you learn using the new unit, how to communicate with your friends, the other ones who have the same system. (1:24). So, Knowledge Seekers, you get in touch what we call, through the Soul with each other. And this is the new system, it's already on the way of development. We have tested it, it works.

The first test was done last Friday in a complete way, where as I explained, we connected the laboratories to Uno Center without any telephone communication, and we saw the results. We tested on the flight again on Sunday, and we've seen the result. So the new what we call, communication systems which now is developed, we use it, we've seen it, it works. It will be commercialized as a head unit. So in a way, as you have a, what you call it, Apple and you have a Samsung, now you have a "Plasma Head Unit." And you have to see who has the App, which you have, which is your headphone, to the others.

Somebody in America has one, and what to speak to someone in Australia, you don't talk you feel each other's emotion. You understand, you arrange a meeting, you meet with each other, or you do the research together, then you understand you learn a new language. This is part of the, what I call, March, April teaching of the Keshe Foundation.

When you're in the space, how do you communicate back with Earth? How do you communicate with your friends and family, when you are in the space? It takes a few seconds and a few minutes for the information to go from here to Saturn. And if you're in another cosmic dimension, it will take you years. As our scientists tell us 10,000 light years for a message to come. (1:26). When you have one of these Plasma Units it takes you, as long as you think you're there. So we start learning living in the two dimensions using the two tools. We go for camping, we take woods, and we make charcoal. We stay at home, we use gas and microwave. Still does the same job, cook the same food.

But now we have to learn a new method of communication, a new methods of understanding and interaction. These units will be up at about 2,000 Euros each. Most probably we start advertising for it in next couple of weeks. Then, Knowledge Seekers around the world, the way you learned to connect with us in Linz, you learn to connect with each other. Communication, enlightenment.

You'll find out, most probably, what I tell you now, you'll come to understand it. You will talk to the people around you and they tell you you're crazy. You go on the line with your Knowledge Seekers (KS) on the other side, you see, you'll find somebody who speaks your language. As the KS said, I don't have time for the old friends and the old chitchat. So, you'll find out, you gradually become man of space.

You will link to the Keshe Foundation in Austria, and you have a feast with us, you have a dine with the Creator anytime you feel like it. And then we'll bring in the new dimension of technology. As we expect, if everything goes to plan, as things are building up, we will start mobile transmutation and transportation once we complete this side. Then we go, and we go to the other side. As our Knowledge Seekers said, every time we try to test a flight, (1:28). he carries his passport with him, that when he lands in Linz he can say, he comes from the States, and he's here with his ID. This should become a norm.

So, we have shown it, you traveled, you met your Creator, you went last week to your what I call, prophets, in what you believe, to elevate their STP, what we call, the Spirit. And now you have to learn gradually you can move and go to the next step.

In this process, we will bring more and more technologies that you understand step by step. Hopefully the new Flight Enhancement System will be completed this week. As I said, today, this afternoon, we have the first volunteer for space, and we have the first volunteer for wellness. And we'll see the effect of the new technology on both. Through the doctors monitoring, and through our understanding of the system.

You do not need to be here, there is no place that anyone can go and say, this is where I am, or whatever. You can be anywhere in the Universe and still benefit connecting to the system. You need knowledge, you come to, and through connection with the other Souls you gain the knowledge.

Something which I would like to bring to you, because in the future you will understand, but we put the seed down. Is, in the universe, like here you go to go Google, you go to knowledge sources to universities to get access, or to research centers to get access to certain knowledge of virus, or whatever, (1:30). or equipment, or whatever. In the universe (U), we have the same kind of centers, where the knowledge of the U has been gathered.

It’s a knowledge centers of fields, it’s not knowledge centers of books. In the coming time, as you understand it, you will understand the App, how to get to it. You understand which fields of U leads you to which knowledge centers. The information of every piece of the creation in the universe. It’s not somebody collecting it. Because of this strength field, gathers there.

It’s a big difference, making a computer, making a memory bank and putting all the information in. Somebody has to do it. If you understand the work of the universe, if you understand the work of the fields, everything which is at the same as strength gathers, it connects together. So, if you want information about the dimension and the position of a star in the galaxies or in universe, these are centers which connects these kinds of information. It’s gathered in the plasma. We teach you how to connect to these centers.

There are centers where you want certain strength. You need potassium, or you need calcium for your growth, or for certain purpose, you tap into it instantaneously. This comes as part of the teaching in the coming time. How in the space you connect to the

sources, the centers of the what we call, fields, and it's instantaneous. As many Knowledge Seekers told us, it was just like a flash, I was on the Moon. (1:32). It was just a flash, I saw something. But it touched, I remember, it touched the Soul, and the Soul has received the knowledge in that flash.

So, now you go to supermarkets, you go to the libraries, you go to Google to get information, to get food, to get knowledge. Now, you will learn as a passenger of universe, how to connect to these centers. Where it's connected and collected by the balance fields of the universe. How you get into highways of going from one place to another. These are the teachings to come. These are the system which are getting gradually developed. Understood by our Knowledge Seekers to develop it. I just guide, I give a step by step and then they build on it. And then the next step, and then the next step. We are getting, reaching a point of understanding.

So, in the next few days, we give you the systems which we call it, a "Compact systems." We would like you to leave it on the table, near where you sit. Don't look at it, that it saves me energy. Look at it, it feeds my Soul. It doesn't just give the plug to the electricity to light up the table lamp, to light the room. At the same time enlightens your knowledge.

The new compact system once we introduce it, it's what I was telling you. Look at the fields not the ??. When you sit in front of it on your table, understand what I looked in the light of the table lamp, (1:34). and in there, is the light where it takes you to the Creator. And going to the Creator means enlightenment, means understanding the process of the Creation. This is part of when you do this Compact unit, plus what we supply with what we call, the new Plasma Head units. Then you understand, the full communication system is on.

With it, in the coming time we'll deliver you the small generators, compact generators, which as a whole allows you to become a new dimension of the life. Independence from the energies of the matter state. Where you create energy from inside, and then you allow it outside. You don't need to wear a jacket to keep the physicality warm. You create energy from inside, that does not need a jacket. This is how you will travel in space. But you have to learn it here first before you get there.

So, a lot of materials we have put in the past, and what comes in the future, has been part of this process. And now you're going into very advanced technology, space systems. And it's all coming out of one structure, Keshe Foundation. We're not sending you somewhere else, it's done by the Knowledge Seekers, for the Knowledge Seekers for the humanity. So, in the new compact system, may be advertised today. And we even start pre-selling the Head units, which should be delivered in a few weeks time.

You now start the connection in the next level, you see the light on the table, (1:36). and you receive the enlightenment from the same system for the Soul. Then we teach you the next step, then we'll go through the process of the completion of understanding the STM.

We have to lay out this part very clearly, that you understand what you're going in, and what is the next step.

When you have a Head unit, when you have a Compact unit on the table, and you're sitting in New York, and your friend is in, let's say, Melbourne, he can go to each other for dinner, and you come back. Mom says, would you like something to eat? No, mom, I'm not hungry, I already had dinner at Melbourne. Then this become part of the life. Thy shall not kill. As the food you had in Melbourne was on the resources of the universe, as you were in the Knowledge of the Creation.

So, we go through this process, step by step. And as you know, I'm a very good magician and a very good teacher, I know how to hide things and then when to show it. 2023 it's the time when a man meets the universe. And we have to prepare you, we can't just drop you in the ocean and expect you to swim.

When we release the Compact units, with it we release the Glasses, what we call, the Headphones. And then, I let something out which I should not have done. (1:38). We'll introduce in the coming time a specific Plasma Glasses that allows you to see in the dimension of physicality the soul of the passengers of the universe, if you wish so. This will allow you to interact, create an Inertia in the position of their existence, not man's gravitational magnetic field of the Earth.

It's a highly technical system. We sent this out as Vision Glasses couple of years ago. And when I read the report, people sent me some information back, it allowed me to see how it needs to be done that it become practical for you lot. So, you'll see everything we do has a step job, and we go through. It comes to a point of what we call, when you understand we can… We gave you the MaGravs, you haven't understood for 7 years, now nearly six, seven years. And now we use the same fields to do what is needed to be done.

On the other hand, I was with our doctors in the meeting with some of their what we call, patients, and the gentleman, most probably he is listening, because he is a Knowledge Seeker. He has a damage, he has a hip replacement, he's got damaged, what you call it, joints, and knees, and cartilage damage and whatever, age come to it. I explained to him, we have this material for, what you call it, (1:40). for allowing the body to be processed as part of the Keshe Foundation. It has to go through your doctors. But, Keshe Foundation, and from today, most probably again, later on today, will introduce a Gans called, "Knee." Read the instruction on it. The same as you use for the Pain Pads, use this to add to a Pad to your knee.

You make your own Pain pad. And use it for maybe 4 or 5 nights on your knee, or your joint, back and the front, you know the process. And mix whatever else you think you want to mix with it, we just create a base for it. And don't use it more than 7 days, and take it off. Only use it at night when you're asleep, let the patches to be on. See how the cartilage regeneration, all the, what we call, all the ligaments regeneration will come, if your pain disappears or reduces.

And then leave it (off) for a week, and then use it (later for) another few nights. Because nighttime it's when you don't use your joints so much. It allows the building up of the cartilage and everything else. Then use it sporadically as you need it.

I explained to him, it's very expensive. But overnight, I thought maybe it's time to let this go. This is part I told him we have. I have 2 or 3,000 different Gans's which man doesn't even can imagine exists. And we put this on sale just on "Knee". (1:42). It's an expensive thing to do, and it takes time to produce. We have a very limited amount of it. I built initially, if you remember, ?? Mehrnez said, I had a ?? joint problem. I explained to her, yes, I (also) have a joint problem. I remedied it that way very quickly (using "Knee" Gans).

It's just that I don't even get time to heal myself from the pain of my body, and I go through the processing when I get a time. And it's gone, it's not existing. And it all came back, because from childhood, the structure of my body, I have a loose kneecap. And for the first time in 60 years, my kneecap has locked itself to the position, that even my pain is gone.

So, this knowledge is with us, and I put it into the Keshe Foundation. The value of it is 500 Euros a bottle. When you receive it, as usual, don't use the Gans, use the water. And you can order it maybe from today, tomorrow. It's again limited amounts. I cannot, because I have to produce it myself. I don't have the time for it.

So those of you who have knee problem, cartilage problem, loose ligaments or whatever, try it. It's not sold as a medicine, it's sold as a Gans, which you have to develop yourself as a patch to use. It's like a CO2 and the rest of it. You have to find application for it. And don't use it more than 7 days, because if the cartilages grow too much, then you have a problem. If your ligaments grow too much and then it solidifies. So, use it for seven nights, leave it and see what the improvement you see. Let us know.

This is a research development. I put it as a research, it's enclosed as a research development, it's clinical trials. (1:44). It works for me, I have seen the benefit of it. Now we put it as a trial clinical, and you have to report back on it, how you felt, what it was. And then we'll make the systems, which you go into it. You don't need the Gans's.

So, we gave you an insight into four or 5 new products of the Keshe Foundation. I think many of you suffer with this knee and joint problem. Try it. It'll go on sale most probably today, from the Keshe Foundation as a research development. It's not the products as any other purpose. You have to report back on it to us and see how it is that we can develop it in the future as a product. You will get the, what we call, the Head units, which will go on sale. Maybe today or tomorrow we do the same with the Compact units. And we will do the same with other products which will come up.

The offer for any diseases across the planet, except cancer and coma. With the support of our what we call, "supporters," at 5,000 Euros, has to be completed by Friday night. If

you have made a payment or you make a payment, send a copy to the Keshe Foundation and we can over to the doctors that accept the case, and we go forward.

So we brought a new step in commercializing the technology for the physical dimension, and the new set of the systems plus your Head unit it's now, it starts gradually introducing to a new world of communication, new world of knowledge gaining. It'll be very interested, it'll be very, very interesting to see, if you're looking for a knowledge in the world of medicine for, let's say, heart operation, or disease with a heart, (1:46). or how it can be helped. And we have another Knowledge Seeker who is a heart surgeon, and how you connect to each others (knowledge). Through his knowledge, not only you gain the knowledge, you receive what you need for your heart to remedy, through his knowledge. This is the extent of this technology will go.

So you find out, the doctors will not put the Headphones on, or what we call, the plasma unit on. Because if you come to him, he cannot refuse. And if he's here to serve man he will do. Or with you, or somebody (else) comes to him, and says), I need this. You don't need a heart surgery. I know how to do it through my Soul, I can repair your heart. You buy a Head unit and you use it, and you connect to the Soul of the heart surgeon.

These are the new technologies which in a few years time will become as common as the mobile phone today. But in the next few weeks, Keshe Foundation will start introducing. We'll put these up for what you call it, commercialization as of next 24 hours, and then we build on it to the next step. Now we go to the, if you have any questions that we can answer please.

Q: .. Hello Mr. Keshe, thank you for being. (1:48). What becomes of the man who leaves this dimension with no knowledge of his creation? What has happened to all the Souls who know nothing of transmutation? Where are they?

K- The Soul knows, that's where they transmuted to.

As I always said, Earth is a nursery. Where it creates that seed, that bulb. And it takes you, you buy it, and then you planted, you water it and then gives you that flower. I was in Amsterdam a few days for work of the Keshe Foundation. I love Amsterdam because, it doesn't matter whenever you pass through the airport, they have tulips. And people from all over the world going through Amsterdam, buy these (tulip) onions (as seeds), or these tulips and take it to their nation, or to their country or to their home, it doesn't matter.

Earth is that flower shop, is that nursery where the flower shop gets his flowers and its onions. It's the seed. Where it plants the seed of the STM, which needs that little ignition to start a cycle. As I said in the past, to get, to feel the strength, to come together in the space takes billions of years, and especially for them to become a plasma.

Where now the STM through the life of the man, (1:50). 50 - 60 - 100 years on this planet creates that seed. Now you just need to let it loose. And then those fields in

universe, which are coming to become the seed of something to start, already have the onions or what we call, the seed of the Soul for it to grow.

If you go to Scotland, they do what we call, "shrimp seeds", or one day shrimp, or three day shrimp. The people who are in the shrimp world, they go to Scotland, and they buy one day old shrimp, and they take it to Africa, and then they let it grow. Where in Africa for them to grow that, there is no facilities. So it's the same.

The universe has the Earth as the seed for that, to be faster to create the next generation. You have to understand, the light of the knowledge of the essence of the creation of the Creator is so fast, and it's so fast in its vastness, that it needs it to find a point of control, amalgamation and creation. And the STM, is those, is that greenhouse.

Sometime when I hear, scientists talk about the "greenhouse effect" and the Earth is getting hotter or whatever. I laugh. I said, God created this greenhouse to create the STM. What the hell are these people talking about? So this is why, when you build a greenhouse, when you put your flowers and the plants on it, you go and check to see how beautiful they are, (1:52). how they're growing. If there is any infection, if there is any diseases, you correct it.

And this greenhouse called Earth gets a visit by the Creator, to see what needs to be done, how needs to be corrected, how you get the disease of killing and everything else out of the man. Then He sends what we call, the gardeners, the teachers, to polish it, to perfect it, that it goes out as a perfect seed, and that's our job. So, the Earth is that nursery. And the Creator loves this nursery, because it was created by Mitra. And it's looked after by His love, and needed to be corrected and we perfect it. Now it reaches that point, which we access through essence of love.

When you buy a flower from a florist you will feel two things. If he sells your flower he bought from a market a plant, he just gives it to you. But if it's a plant which he grew and he sells it to you, he gives you love, information and love about that, because it's part of him.

So it's the same with the man. The Soul created on this planet is done, touched by the love of Mitra, and God has handed it .. and it has to be perfect. So, when it goes out in the universe, it becomes perfect tulips. Of one we call Creator, and one we call Mitra. When they kiss, it creates a new life.

Any other question? (1:54).

Q: .. Emotion in vertical beings, in the 217th Knowledge Seekers Workshop (KSW), at one hour, thirty five minutes. He has a quote here from that, apparently. Vertical beings change their colors, lifecycle and their shapes. Because for the first time if you understand this, you understand that Vertical people have emotion. Emotion is a confirmation of existence in guaranteeing its existence. To Vertical People teaches us about given take and that this process is the same with everything in the universe. And

the quote is, the assessment of what you can take should be considered first, to get what you need and what you can give. So the question is, man has not yet progressed in this learning with Vertical people. Could you guide us better in this learning with the Vertical beings? We appreciate your guidance.

K- The essence of accommodating is the essence of the Creation. How you accommodate, and how you create that position.

Vertical people have chosen to stay put. (1:56). And staying put means you don't expect, but you chose a place, that allows you not to do anything else, but to enjoy the environment. You don't need to kill for it. You don't need to reach out to destroy something. They receive the energy, what they need in the environment, the cluster they have created around themselves.

Then that allows what we call, as part of the "ethos of Mitra." And what I introduced today, the Compact unit, and what we call, the Plasma Head unit, is part of that process which is started. It's part of that process. Did I exist? I live, I sit in one place called, Earth or my table, I carry my plasma Headphones with me, my unit is sitting on my table in my house. And I go to New York, and I don't need to kill, because I'm in New York to eat something, I'm connected to my unit. It's the expansion of the room, expansion of the environment.

I go to another dimension on another planet, I don't need to kill, because I already learned to access the Universal Energy. That head unit in my house has become the center of energy units in the universe. When you look at the plant, (1:58). the vertical plant, being, it doesn't grow in one place, but it grows in another. Because it connects to the field of that center where it can survive without doing anything else.

And this is what we've got to learn. How to tap into the universal energies. And this what I call, Compact units, are an interim system till you learn gradually, that you don't even need the unit or the plasma Head unit for it. Because your Soul expands, and it learns, and then gradually, as it brought part of your physicality into itself, and it works. Now it brings the systems which you put on the table on your head as part of the system inside it. And it learns how to do.

It's part of the learning of the expansion of the Soul, from the center to the Head unit, from the Head unit to the table, and then from the table to the universe. You cannot get a marathon runner out of the man who doesn't even know how to walk, unless you teach him. And now we're going through that process of teaching.

I don't know how to explain it. But in a part of communication, understanding or enlightenment, whatever you want to call it. This question was (from the Universal Community or "Aliens"), how did man, suddenly became to this position. That us, spending millions of years developing these machineries, crossing the universes, could not understand. (2:00). What did we miss, that the humans did not? I said, one thing you

missed, it was the love of the Creator. You should have managed, you should have found out how to attract Mitra, you would have received the flower.

The human race, the planet Earth, knew how to see this, how to put the seat of love, and that's your beauty. You lured the Creator to the beauty of the planet, and the rest is history. When you lured the Creator, you'll start receiving it, but at the same time He had the time to do, to put things wrong, which went during the wild time of what we call, the "wild west," or during the time of the creation of this planet.

Any other question?

Q: Wang Lynn .. Hello, Mr. Keshe. In the last teaching you further explained reincarnation. No individual Soul is reincarnated. But part of one's own information field will continue to interact with the environment at the time of death, creating a new individual Soul. I would like to know more details about the newly created Souls, namely. (2:02). How many old Souls does the information field of the new individual Soul generally come from? Do the talents of the new Souls such as musical talent, emotional patterns, such as fear of the dark, belief patterns such as believing in the existence of the aliens since childhood, etc, come from the old Soul? Is the wish of a new Soul such as Mr. Keshe, which to take humanity to understand the Soul and the principles of Creation into the vastness and the vastness of deep space, a continuation of the wishes of the old Soul of the past? And finally, do the old Souls separate themselves and become part of several new Souls? I hope you help us sort it out further. Thank you.
K- Who's this from?
R: Ruthie Lynn.
K- Oh, Wang Lynn. She's traveling, I know why she's written this. She's in the teaching somewhere.

You've got to understand, when you reach the dimension of a Soul, there is no old Soul and new Soul. You have access to all the knowledge of all the Souls. So, just because you are born today, does not mean you're a new Soul, as your Soul is connected to all the Souls. So, you are a new storage capacity. (2:04). But with access and connection to all the storage capacities, the capacitors of the before.

Terminology of the old and new, when you understand the totality of Creation is meaningless. There is no time in space. Because once you're created in the womb of the mother, you have access to the totality of the knowledge of the Creation, even to the Creator.

None of you who came in touch with the Soul of the Creator on the 16th were brought, and trained and the rest of it. You were part of it at the inception in the womb of the mother. So, the terminology of old and new, is a man's lack of understanding of the Creation.

And as I said a couple of times today, once you become a plasma, it's a full spectrum of the whole, you have access to whole of the knowledge of the universe. It's just man who

chooses to ignore it. Because you don't need it on this planet, you've got the cows, you chose to eat them, you had the water, you chose to drink it. So, you didn't went out to look what other sources of energies are in the universe.

The laziness of the man brought man to be a killer. Where the Soul doesn't kill. Most probably the soul of the pig you ate, shared knowledge with your Soul, fed, when it was alive as a soul, but your Soul didn't kill it to gain the knowledge. (2:06).

Go back to the teaching of some times ago. And I said, everything your forefathers have done is recorded, and has become a knowledge, and it's there in your Soul. Your father, forefathers doesn't come to be your great-great-grandfather, it comes to be the Soul of the Creation. As much as you have access to Soul of your great grandfather, you have access to Soul of the Creator and the Creation.

And the beauty of it is, now if you understand it, as man is a "gadget man", you can make a system to create those fields to match, to get access to, to bring back. You can create a plasma of the knowledge of the routes of the travel in the universe. And then you open an agency. You can have the knowledge of the travel to any point in the universe. And you put a placard outside there, and people who want to go to planet "Zibzib," they come to you, I want to go to planet "Zibzib," and it's, "oh, the system is the strength you need," and you're instantaneously there.

It's understanding which will bring the enlightenment, and once you're enlightened you don't need anything else.

By the way, as Lin is here. This week, on the 22nd has been the Chinese New Year. We give you all the best wishes, and one of the most prosperous time in the time of the rabbit year. And I think it'll be when the humanity will do the what I call, (2:08). "the leap," like a rabbit, and we gain the knowledge. I wish you all the Chinese Knowledge Seekers a prosperous and wealthy New Year.

Any other question?

Q: Hello, Mr. Keshe. Hello, Rick. Hello, everybody. It's Mehranez.
K- The spy from the Iran. Are you still in Tehran?
Q: Yes, sir.
K- They won't let you go, hm.
Q: I'm drinking tea with saffron and thinking of you. And I thank you. Because I just got the Internet a few seconds before you make your, you put my ?? name. That's exciting for me. I am so excited that I have Internet. I can't speak. And I just wanted to report my results with 20th of January. It was kind of more than I could expect. And for those who didn't feel anything, I think they had to work before on themselves and just give, give, give peace. And I think that that's why I really, really, really had a fantastic results that it shows. It sounds for people around me. (2:10). And I just wanted to thank you very much for giving us opportunity to practice this kind of exercises. And I wish you all the best ?? to go on, that we can use and we can let others use. I got your program late, but I

will listen after that, and that's my fourth dimension. When I listen to your teachings, I just the solutions are very… Give a lot of hope, a lot of hope. I always talk to people around me, people believe me. So, I hope everything is fine that you come and bring your technology (T), because people really know that there is no other solution, but a solution like yours. Which is clean, which is just, which is equal, which has place for everybody, every race, every religion in it. And just everything is ready, I hope from our side. Then at your side and U Council decision. Just thank you for being here. We are honored to have you here. And we wish you all the best of health, success and happiness.
K- Thank you very much. Enjoy the beautiful winter in Iran.
Q: Thank you for your encouragement. Yeah, it's dry. (2:12) And it's very agreeable to walk. It's not humid in here. And people are very polite, very calm. No noise in the path in the ??. It's amazing. It's just a miracle this people are so polite and so wise. Sometimes, every few days I notice a person who is so philosophically wonderful. And they don't show it, they don't ??. I really enjoy this part of this trip. And I learn also.
K- When are you going back to France?
Q: I have no idea.
K- I think just about enough there to stay for the new year.
Q: I have no idea. Honestly.
K- Okay, enjoy it.
Q: New Year. New Year's finished. Oh, which New Year? Oh, New Farsi. Oh, I hope not, because I'd like to go back home. But it's okay. I have to be here. Thank you very much, sir.
K- Thank you very much indeed.

Any other question?

Q: .. I was the present at the Soul Plasma Flight Experience on the 16th of December, 2022. And also on the 20th of January, 2023, held by the Keshe Foundation Spaceship Institute. (2:14). And I am very interested in learning more about this technology and how my Soul can interact and evolve with its help. My question is, do people who participated in these events have any kind of connection with the flight improvement units in Linz?
K- Can you repeat that, please?

Q: Do people who participated in these events have any kind of connection with the flight improvement units in Linz?

K- Yes, yes.

Q: If so, is this connection made through the cell phone? Or does it not depend on that device?

K- With the people who are ?? sit, you all used your headphone, that's how you connected. But in the 20th session, between the lab which is the backup generator of the new structure is wireless. It's what we call, plasma connection. It's the new technology.

I think when we start putting these new plasma Head units, and you receive it, you will see the experience will be totally different than when you used the (mobile phone). When you use the head units, like the mobile phone, you reach in the dimension (D) of physicality to get to the Soul. Where with the plasma units, there is no conversion into matter state. It'll be a totally different experience.

We know that, because one of our team actually sat in the system, and watched the monitor. (2:16). And I couldn't tell him that, you're watching "no man" communication system in the connection between the plasma and the Creator. It shows different, it interacts different. And in the 20th teaching on, what I call, on the 20th of January teaching, those of you who were with us, we announced it afterwards because the process was set, planned, and monitored and recorded.

When the Soul of Mitra and the Soul of Child of Mitra came in, we recorded it. And it's very, very clear, clear interaction for those 10 minutes. As I explained to the Knowledge Seekers who were present during the 20th session, I stay with a mobile phone in connection with you as Knowledge Seekers and our control system. But I do not ever interfere through the Soul. I never come in to interact. And I informed our people in the background, that in such a minute I go through the Soul. And immediately we saw the response.

I'm very clear about the two distinct positions I carry. One as a human, and one as a Teacher. And even it was in the process with the interaction, when there was a presence of the Knowledge Seekers interacting with Christ or Moses. (2:18). We carry that strength, and for the first time it's physically recorded.

And this is all getting piled up as a report by the people who are in the background, that in the future we release this in exact detail. It's all marked when and how. We brought in Mitra, and the Soul of the Child of Mitra once before in the session, and we watched. And then I have informed in the background, that they are present at this time, can you record. And we see the change. It's physically recorded. And you see the change, in the same as you interacted with the Soul of the Creator, we see it.

Then when the Soul of the teacher came in, we again see it. We can release the data, the graphs are available. We explained that in the 20th session. So everything is there, it's just that, as once my sister said to me, "I watched you downloading." We can download the knowledge to every STM, but the man still have that bit of ingrained killing and destruction in it, and that can ruin the rest of what is there.

So, we have the knowledge we can do that. Then we take it to the next step. It's you who is not ready. (2:20). The table is set.

It'll be interesting, those of you who will register for the dining with the Creator, how you will react after it. How the eating pattern of you will change. How you look at the consumption of the energies. How you will effect the others around you. Does it become like, because you become a vegetarian, "mom, I become vegetarian," you don't cook

meat. In this process, because it's through elevation of the Soul, you elevate the others. You'll see the response in the others without speaking, because the interaction comes through interaction of the Soul.

Any other question?

R: Jefferson goes on to say, I constantly use a Nano coating (Infinity) loop on my cell phone. But I removed this loop on the day of the event. Does using this loop after the event prevent this connection from being made? Should I stop using this loop if I want to stay connected to the flight Unit?

K- I use it all the time. With our phones it's always there, constantly. These are a matter state, the state of the strength of the Soul is much higher. It doesn't interfere with it.

I can give you, I can build you a system which will interfere with your Soul. When you put it on the back of your phone, then you get your ?? interference. We showed that in the 16th teaching, there was so much noise in the background, that everyone was complaining about. (2:22). But when it came to join the Soul of the Creator the background noise was irrelevant, because the strength of the Soul is totally different.

Any other question?

Q: .. Can the MaGrav Plasmatic Energy enhance or amplify the non electromagnetic energies of radionic machines?..

K- .. They're all part of the spectrum of the magnetic fields. And if your system happened to be at their strength, they will interfere.

It always remember the dog whistle, if you understand the principle behind it. If you comprehend the knowledge of it, in a way it ??. You blow a whistle, us humans none of them hears, but the dog responds. It's the same with the knowledge. It's the same interaction of the field of everything.

The magnetic field of the strength, full spectrum is always there. It depends if you are matured, or if you have the equipment, or you're keyed up, geared up, built up to receive that strength.

Whenever, you have such a question to ask yourself, remember the dog whistle. It's a whistle, you see it getting blown, but we don't hear it. But the dog responds, because it's the right strength. So is the STM. So is the enlightenment. (2:24). If you change the structure of the ear of the man, you will hear the dog whistle too. So, you will come enlightened to the voice, to the noise of the dog.

I asked this question once before, maybe now you might understand, maybe now you could answer it. If you remember, I've explained, the time of the departure of the STM from the physicality, tearing through the full field. Because it's not in the ray, it's in the

plasma, which literally explodes out of the body at the time of death. Scientists have measured, the explosion after leaving it's round about "18 Hiroshima bombs."

If you understand this. If you understand the field strength behind it, then, the same as the dog. If the dog hears the noise we don't hear, so is, we don't hear the communication line of our Soul. Even that whistle goes all the time, which, in the dimension of physicality (P), we don't see it. But sometime in the line of communication, we register some of it, we call it a dream. (2:26).

Even while I'm talking to you, you're listening to me, you're concentrated here, you see the light, your eyes closed in the middle of night, or you're sitting in the Sun, on the beach, or some of you are up to, and many other things, your Soul is still communicating with the grandma, with, god knows where, and where he's going and what he's been doing. But you're not aware of it. It's like that dog whistle.

We have chosen to ignore it. Because otherwise we wouldn't get to do anything. We won't have the physical life the way we have concentrated, only listened to five senses instead of the rest. We ignore the rest till the time comes, when it's at death, then we listen to the Soul. This is what we chosen. We chosen not to hear the dog whistle. Because we ignore that frequency, even though it's in our body to absorb it, we can pick it up. We have it in us to get pick it up.

We have chosen certain fields connected to emotion and physical interaction, and we blocked the rest out, even though the rest exist. Now we are opening it the other way around. See through the interaction of the fields of your Soul, you call it, the eye of the Soul, and then see what else comes with it. This is where we are bringing the man to.

Just because he ignored it does not mean it doesn't exist. Just because you ignored that bandwidth in your ear not to hear the whistle that the dog does, then doesn't mean it doesn't exist. How come the dog responds? But the interesting point is, if the dog hears that noise and responds to it, how does the Soul of the dog interacts with other things that we don't hear, because it's in its own element. (2:28). Another dog does, but not the human. Another dog knows this emotion means ranking, this emotion means hunger, this emotion means something else, this emotion means fear. But in our system, that emotion doesn't exist, because we don't, we ignored it. This is not the strength we use, even though it's there. It's we are not tune into it.

It's like, when you go to America, you have a thousand of channels, television channels you chose to be on one channel, it doesn't mean the others don't exist till you go into it. They're all there. You choose where to interact or watch. And exactly, it's the life of the man.

We can tap in, not just at the point of death, at any time. All the fields of the universe. Many humans have done it in the past, it's not the first time. Now we put it in a physical system, that you all can go in the physical system. It's in your brain, we have it, you do it. And you've seen this one. You came to Linz, we told you to go to the Moon. All of you,

the ones, went instantaneously. Some of you said, I don't want to travel, I just wanted to go and see my grandpa and you went to see. So, you have a control over it. You don't want to do it. You don't want to go to the Moon.

Any other question?

Q: .. Why is the MaGrav so expensive, even though the MaGrav components are so simple? I am from Indonesia.

K- Yeah, this gentleman has been trying to get hold of MaGravs to mass produce it for his own commercial use. (2:30). And if it is, you make it, you decide to do it. We had this interaction with this gentleman. Give it to me. It's so expensive, I understand, I use it and then I can commercialize it to my own benefit, to what I want to do. And to give to other people some of it. We understand that if it is… We've given the knowledge to you, but the knowledge comes at the expenses. When we make the MaGravs, would you like to pay thousands, ten of thousands, hundreds of thousands of expenses Keshe Foundation go through it every day? No.

How many of you been on this Knowledge Seekers teachings for past 10 years? How many of you come to centers? How many of you have used the technology, the Gans's, or whatever and put .. anything back into the Foundation? We saw the Italians, they came to steal and they stole. But what they stole those were the crumbs, go nowhere. Every day, every day, even during, we can give you the cost per hour for Keshe Foundation. Which one of you pays for it? And when we ask for support, "oh, they can do it, go make gold, get something else done, whatever." No. .. Just to keep this program going, even though a lot of volunteers help in the back, they get supported by others and themselves, it cost the Foundation thousands every month, just to keep the Internet structure of the Keshe Foundation going it cost about 25,000 a month. (2:32). Which one of you help? Which one of you send us 25,000?

This is just the structure of the Internet, back supports and all the expenses of it. We pay thousands every month just for service. We don't own it. All the backup. Microsoft, Google, god knows, Amazon. The bills come up, you don't pay one month, you don't have services. You pay through the costs of the MaGravs to keep the structure going. The Linz Center costs us tens of thousands every month. How much do you pay? Have any of you come and say, 200,000 - 100,000 I pay for one month expense of the Foundation? No.

You complain when we cover our expenses in things? You are thieves not us. We produce, we operate it, you like it, you pay, it allows us to run. You are thieves by nature. When you asked the question, why it's so expensive, because you're used to stealing, it's your habit.

Just come and see, we pay hundreds of thousands every month just to keep the Keshe Foundation going all around the world, and I've done it for 20 years. We saw it. We asked the help from you, some of you helped. We lost through fraud. So he came back, it

doesn't matter, you made a mistake, we want our money back. We pay you, we'll find, we develop, we are a structure dynamic, but we seen it. When is, (2:34). we can come and put something and take more, it's ours. When is the problem is yours. We are man, we are not ladies like you crack ??. We find a solution. Then you know why it's expensive.

We gave it to you, make it yourself, you don't need us. How many of you made the MaGravs and you say, it doesn't work. We sell the new units, the Compact units, the energy units, the plasma energy unit, we guarantee 30% minimum. If it doesn't send it back to us. We come and sit with you, and watch. If you get 80% pay back some of it. No, it's benefit in my pocket. As a Knowledge Seeker told me in Italy when we were walking for dinner, he said, we became a Universal Council to get people to buy our products, we have no interest in Keshe Foundation.

Any other question?

Q: .. Do the Compact Units replace the Power Enhancement Combined Plasma Generator Electric Gas?

K- Not really, no. These Compact units I developed it deliberately for the next space, what you call it, space development. (2:36). The Compact units are tabletop. And even though they give you something on the generation, it's an essential part of the next space development. We explain more and more the use of them.

They're very powerful. They've been built in a very special way, and they, what you call it, they create that condition for the next generation of space travel. In a way if you look at it, we bring you into the system into Linz. Now with the compact system you take it from home, you don't need to travel. It's part of the mobile system transportation, when you decide you don't need the Linz Center, even though it will be connected to us here.

We are dissipating the knowledge and technology through Knowledge Seekers around the world. And this is part of it. If you remember when we put the first MaGrav unit, one of the Knowledge Seekers opened it up, and he went through it, and he put every picture. How this one , how they placed that one, how we cut the MaGrav open and see what's inside it. Has any of you benefited by it? (2:38).

Some of you will do the same, but you won't understand it. And the beauty of it is once you do it, you lose the knowledge. It's very, very interesting.

These things is carried with the Soul of knowledge, and you have not understood. You steal, thy shall steal from it ?? In a way you don't receive it, you've already stolen it from yourself. And, yes, the Compact units are the part of the next space development. But you're still looking at the energy side of it. So, god be with you.

Any other question?

Q: .. Last Friday I felt like someone was pulling my big toes to lift my legs. And you said that today. Can you explain it for me? And I saw a shiny orange color in Prophet Moses section, and bright green in Jesus section and bright white in the Prophet Mohammed. And after that I saw a shiny magenta color.

K- A lot of you interact with the Soul of the Creators, and the way you have perceived in the position of the Prophets of the past. In reality, you should see all the Prophets the same color. When you see different color, as I said in the teaching before, when you travel the span of the universe with the interaction of your Soul with the Soul of who is, what is in front of you, (2:40). you know their intention. Because it's the same color, it doesn't matter where you go, the Souls are of the same strength.

Then, you understand, when you see the different Prophets as different color, not only one is of the recognition of them, who they are, but in essence they should be all the same color. It was the same Soul. You touched my Soul. So, you see me that way.

You touched the Soul of my physicality, you see me different, than it's my physical intention towards you, I love you, I want to be with you, but in the Soul it's the same. When you see in the color of the man, a goldish color in the Soul, it's the time when you see the Soul of purity. It's how our Soul set. White is a sign of clarity, we see clearly. When you say gold it's what we recognize as Totality. And this is what you shall see. When you see in, what I call, the aura of gold. You have touched the Soul of the Creator. The white is the interaction of purity of intention.

And then how you see different colors is a perception of your emotion in respect to, or the interaction of. (2:42). If you are not educated, you're not put in the position of different faith according to your own faith, path of belief, you should have seen all the Prophets is the same. But the intention was to interact with the STP, the Spirit of the Prophets. So, different colors showed you different intention and understanding of who they are, what they are, what their intention was. And the one which is more favorable with you, you don't see no fault with him. So you see ??. So, you can see very simply what you said, your emotion, interaction with your Soul, and the STP and the other STP.

If they would have made the same picture as your Prophet, with the other Prophets, you will have seen them all the same color in dimension of the Soul. But you decided, or because of your background understanding, even you could be a Jew and see Muhammad as a bright light, and Moses as a red or green, it's what your Soul has a perception of in respect of dimension of physicality.

Muhammad waged war on humanity, and how many people him and his followers killed, and they're still killing in the name of the Islam. Hasn't stopped. How did, Moses did the same. He went, even waged war on the people who brought him up. (2:44). In the dimension of STP.

How come you see one in one color and the other one in different color? It's a perception of the emotion of the Soul, what I want to see, because what I believe to be.

Any other question?

Q: .. Hello, Mr. Keshe. Will you or could you repeat what we did on the 20th to elevate the Messengers and to connect with the Creator?

K- What you did, if you were in the session, is you made it available for them to take. That's all it is, you cannot force it. You cannot take the horse to the water and force it to drink. And if you, or any of you in that session created, or were at the strength of their need, they have received. So, you have added to, and that adding gives elevation, that it brings it out of that state of killing.

And the Soul of, the Spirit of the prophets, is what it communicates with their followers, not their Soul. (2:46). Their followers are in the dimension of physicality. So it's the Spirit of man, which interacts with the Spirit of the Messenger, not the STM which interacts with the Soul of the Messenger, otherwise man would have been perfect.

And when you elevate one plasma from you, when that goes higher, understand, realizes, evolves, and elevates. In understanding of what it was done, was wrong, and will not be done. So does the Spirit of the Ayatollah Khomeini of Iran. When you elevate the Soul of Muhammad. So is with the Jews. The Jewish people will not kill. So, shall be with the Christians.

This is the beauty of something a lot of you don't, maybe have never understood. And that is, you call it, the Old Testament and the New Testament. Adding to a little bit of the past. So in fact, what we see the killing in the Christian communities, like Americans, British and the rest of it, it's still based on the rules of Moses.

When you elevate the structure of the Soul of Moses in the Spirit side, and Christ, then you see the change in the two communities. Even you raise, give and raise, elevate the STP, it (was) has built of the what you call, Moses, will affect the Christians. Because it's part of them. And this is why we see this position. You call it Old Testament and the New Testament, (2:48). but it's the same principle, the same message. The other one is done, the other one is written by what we wanted to add to, to make it to be. But in fact it’s the same one. And when you elevate the STP of the Moses, you elevate the STP of the Christian too, because it's the same, came from them, same blood. Where Muhammad was from a different tribe.

Then you understand what happened on Friday. And how you connected, how you elevated, how you interacted. I heard some people saying, "oh, I saw no lights." Means that you’re not at the strength which they are, that you could add to. But it was so rapid that you did not even feel it, because you're looking for the light. But look, look a few days later, what enlightenment you received. What emotion from Moses, or Jesus or Muhammad you received in response in giving to them. Did you understood something more? Was that the gift of thank you in elevating me?

You've got to understand, billion plus, some of them on a regular basis, give from their Soul to Christ, but nothing has happened. Man become worse in killing. Millions of Jews go to synagogue, and pray at home, and bang their heads against the Great Wall, in the name of Moses, but nothing has changed. (2:50). The same as with the Muslims, and the same with the Buddhists, and the same with the others. Because you have not found the what I call, frequency, the strength of the Prophets to elevate them. They're still in the doldrums of their time.

And you've got to remember, on the dimension of physicality, for the murders they've done. If you go back to what I said about Hitler, then what I said about the Pope in abuse of children. Their Soul is so low, that nothing can raise them. It's the first time we have allowed that to happen, to raise the STP of these who carried so much heinous crimes.

You gave, it was like that dog whistle, it just passed, they didn't hear it, they can't receive it, is too high for them. Their Soul is elevated, it's at the highest it could be, like yours. But the STP god ?? help it. The Spirit of these Prophets has not even reached the level of yours yet, to receive from it. Sometimes the STP, the Spirit, wishes it was at your level. You have killed none. Now you understand why you elevate. You cannot give if you are weaker. Now you understand why we put this process in. (2:52).

You become more intellect, you become more to understand in the time to come. Why do man need to interact with the Soul of their (Prophet), what they believe in, and they can give to. You don't put a crown on top of the crown of a king do you? But you add the jewels to shine better, to be shown it is there. It was made of iron, you put a diamond on it, now has a value, and this is what it is. This is what mankind will come to understand more and more.

Why did you need, why did we need to put a session, the process for you to find a path? And one of those paths was to be generous all the time. And we didn't ask you to give it to your son, we didn't say elevate your daughter, we didn't say elevate your dog. Elevate the STP of (the Prophet of) what you believe in. Because that becomes your guideline in the path to the Creator.

Everything you do in these sessions is a way, a path, the position to understand to be enlightened, into the working of the universe and the path to the Creator we are part of, which you yourself as a Soul are part of. I am all and all is me, and within. (2:54). And in a way, because of me being within, I'm in of all. I interact with everything, and when it is within me, it's the same.

In the next sessions, as step by step, the elevation of the physicality of the Soul of the Messengers comes, you'll find out as much as you are getting ready, they're getting ready, and the whole structure.

Not only humanity, but the universe and Unicose comes to move in the new direction. What you do, you're not aware of, in these sessions, is, you just don't connect with the STP of the Prophets. At the same time, as your Soul is dynamic, it covers every direction

of the fields of the universe as a sphere, you have already interacted with the Soul of the created things in other dimensions and the other strengths without you knowing it. Again that dog whistle. And this is what the process is, and that's what we are.

Any other question?

Q: .. Where or how to see the light? I have experienced not in the eyes, but golden and warm light radiating in and from my chest and out into my arms and around me. Is that the right light?

K- Who says? Is this the position where the STP and the STM comes in? (2:56). When we spoke of it before, you hold your hand out and you see the light, you can create a light in it. The hand is the STP and the STM when it interacts in that position creates the light. Maybe you have managed to reach that point.

When you see a golden light it's a pure light. It's a Soul interaction in the dimension of the man. And your heart is part of that process where the interaction of the fields come. The emotion sits within the heart, and the physicality sits in the hand.

Years ago by one of the Knowledge Seekers, I was told that every time they see my aura is only gold color, they don't see anything else. And I said, you don’t know deep enough. Because they should see their own Soul as a gold color too. Then you understand more about the process of Creation and elevation of the knowledge.

Any other question?

Q: Irmgard continues, when my memory does not work right, is that because a part of me has resistance? Or if I have trouble with the computer, (2:58). or phone to connect to special sessions, or I don't wake at the right time or sleep through it?

K- That's the dimension of physicality. We've got a little bit ?? .

Man has to realize more and more he lives two lives. One in dimension of physicality, and one in dimension of the universe. Do you need to wake up to listen to the teaching? Or do you connect to the soul of the knowledge during the teaching?

The universal people don't have a radio, or a mobile phone to listen, but they gain the knowledge through the spirit of the elevation, sharing. And I said that many times before, when we teach we teach for the universe, not just for man. Man looks at his physical side, the teaching of the Soul which goes, reaches their Soul.

When I accepted this at the age of 40, I knew the challenges in the physical dimension. The prosecutions, the pressures and everything else. But it was worth, because I achieved everything in the physical life man could achieve. And then at that point to you become detached.

A Knowledge Seekers wrote to me this morning, you know this is costing so much and I look a few hundred dollars, we put in billions, we put the lifetime of thousands of years. Then we see the separation and the value of the man. (3:00). And you understand you will have to live both sides of the fence, one as a man, and one as a teacher.

In the time to come, some of you, some of your Souls will reach that position and become the teachers. Then what you went through as a cycle of the man will be ingrained in it, you understand how to handle the citizens of the universe who come to that point. When you comes across them, to bring into them the understanding of the Totality.

Teaching never stops, and a cycle of the evolution of the fields of the Creator to create new life will never stop, it's impossibilities. And in that process, there's always a need for teachers. Then, do you choose to be a nursery teacher? Or do you choose to be a professor in the University and the graduation of the race? Then you decide, I speak to them in the language of the "dudu-gaga," or I speak to them in algebraic numbers, and figures, and philosophy. You try to teach "gogu gaga" to a toddler, you have as much success as you have teaching a cat to do something else.

This is the beauty of understanding, and how much you understand is the next level of what you call, progressive evaluation, and elevation. And the beauty of it is, we are, and I keep on telling, till one day you all understand, we are not a religion, (3:02). we are not another Prophet. We're here to show the prophecies, what we made and done, that brings no hypocrisy in understanding the Totality.

In these systems we have, you can create these fields, the strength of the Soul of any of the Prophets of the past. And because you created you come in touch with them, and you can see them, you can understand them. And then you can ask them the questions, "Why did you do that?" Did you need the Soul of Mrs. so and so in Sidney, that was just about the right strength to bring you to the tipping point, that you could now tell your followers, don't kill? Put your crowns, fake crowns down and become like the others.

None of you knows at what point which one of your Souls creates that tipping point, or what we call, level for elevation of the physical soul or Spirit of the Messengers of the past, then in tipping they change the others.

The Jews have been banging their head against the wall for how many, Great Walls, how many years? How much Muslims have circled around the Black Stone? And it is as black as their heart. And the rest of it. How many of Christians have done the pilgrimage, walk from one place to another in southern France, and northern Spain and they never pilgrimage anywhere. (3:04). You need to do that in your Soul and then you find it.

And now there are technologies which shows you what it is, how it is. We can measure it, we can see it. Then it becomes out of theology, it becomes the science, it becomes the knowledge. And knowledge brings elevation. And that's what we do. We created through a system the strength that you could interact with the Soul of the Creator at a given time instantaneously, all of you in one go.

We didn't see the Soul of Rick above the others or below the others during the time of interaction with the Soul of the Creator. It was part of all of the same. And that's what the man will learn. Be humble to be the same, and then you become humble enough to understand you don't actually know nothing compared to the Knowledge of the Creation.

Any other question?

Q: Dean .. So you've gone in very deep today, you've touched the Soul aspect. And for many people that… I've contacted a few people this week, and I know many, many of them, it will be brand new information. So that'll be on a physical level, and they are in a world that's in, (3:06). I don't want to go into great detail about the conditions that have been created, or are present in the moment. However, they are unaware of it. So on a Soul level, we know that they've touched this knowledge and they received the field strength. How, where's the knowledge, where is the Foundation in its present moment we've been able to bring this to the masses, so that the whole planet receives, it starts to interact with this knowledge?

K- The Soul of every man on this planet has come in touch with the knowledge. Because once you share it unconditionally it's received. The physicality is, the STP is another dimension of life, which is here.

And I always said, it took a few hundred years for Christ to find a number of followers who understood his Spirit, Soul. Because he didn't take a sword in his hand. It took a few years with the sword and killing for Mohammed. Even though it was a fake life, people still has the statues in the back garden they where they're praying to. And we saw the same with Moses, and we still see the same with the Buddhists.

But in teaching of the technology, physically we see millions of followers in very short time. But as soul wise, we have reached the totality of the STM. So, does it matter if CNN decides, (3:08). or BBC decides to talk or show about the Keshe Foundation ??. We are that ?? coal which burns inside underneath. When the fire will come, it's irrelevant.

Q: I've noticed Mr. Keshe many interactions. I've got many Gans's, and many, as you know, tools I've developed and done through your teachings, and they're all present with me. And I've noticed interactions here in my emotions or my conditions around me have a direct influence, in very small things sometimes. But when you interact on the next level, the small things you notice. And I know that this then escalates up.

And so, the planet itself, is this still deeply connected to the consciousness of mankind and reacting to its, the way its contributing to the field strength at the moment? Does the planet feel this?
K- What did you mean?
Q: Is the planet vibrating? Is the planet aware of mankind's intentions?

K- Something I've said before, and maybe some of you heard before, and some of you don't. You have linked in a specific way the whole of the planet together, as Knowledge Seekers. It's done in a very subtle way, but it's done in a connection with all of you in both dimensions, (3:10). physical and the Soul level, or emotion.

And that is, we mine a copper, let's say, in Iran. This copper is sold in the international market. It's the same tonnage. It goes, let's say, to China. Chinese have made things from it, bars from it, whatever. And these have been sold across this planet in every country in the world. Some of this has been changed into sheets and wires, and whatever. Some of them other things in another country's, but from the same mine.

And you Knowledge Seekers in different parts of the world have bought part of it, and you made Gans's of it. And you have it in bottles, and you have it in MaGravs, you have it in all sorts of shapes and forms. So, all of you in one way or another are all connected to each other now, which you did not, you were not aware of. Because, once you interacted, understanding that matter state still as a plasma state, as an atom. (3:12). So, in a way, by getting you to make the Gans of CO2, the Gans of Zinc, the Gans of Cu, we have made that interaction of you lot together, with the Cu in dimension of P, with the Zinc in the dimension of the emotion and Soul.

So, maybe for the first time, you understand, you lot, you're all connected to each other. The Zinc from Zimbabwe, or South Africa, or somewhere else, has traveled the whole planet and in different parts. And some of you have bought different things, and some of you didn't have the money to buy the Zinc plates, you couldn't get hold of it, or the copper wire you couldn't get hold of. You stripped the wire from the cables of your lamp or whatever, which we know many people did. And it came back from the same source 20 years ago, 50 years ago.

So, without you knowing, we have connected you all together in a field strength. Now, it's for you to become aware of this connection. And for us is to tap into this connection. And we have started tapping into it.

Q: Mr. Keshe, many Knowledge Seekers, we say we're all connected now. So, many Soul of Knowledge Seekers will have many different emotional experiences? And some will be experiencing something on a, on the Soul level and interacting on that level. And some will still be having the you know, the STP, they will still be having interactions there. And so when we all connect, (3:14). are we receiving emotions from others that are from the physicality as well as a Soul dimension?

K- Yes, of course you do. You bought the copper wire, you bought the Zinc plate, what do you expect? You made ?? Of course. You see, I walked you into it, and I walked you all the way around it without you noticing it. I have connected you with everyone in ?? the stream. You all bought and you all made Gans's. Without knowing contaminated the love amongst all of you with each other. Now you understand?

K- Yes, Mr. Keshe. So this process, what does it mean? Where is the point? We know we want, to going to elevate the humanity. We know…

K- You don't elevate humanity, you enlighten the humanity.

Q: We're going to enlighten humanity, okay.

K- It's a big difference. They understand, when you make it to understand. When you make it available. When you gift it and the gift is accepted.

Q: And is that . That gift Mr. Keshe, is that received by all, at once?

K- It's available, it's available. (3:16). You made the Gans's. You made the Gans's with the intention to help my pain. You made the Gans's and you spread around the city, in the lakes and the rivers. You made it available to your physicality, to the STP, you made it available to the rest of the people. It's them, if they're going to take or not. You can't force it, but it's available if they want to take.

The cycle, what we try to do this afternoon in a very more powerful way, by bringing one of the Knowledge Seekers into Linz, is not going to happen. We know, the chance of it is maybe 5% - 10%. It's developing the full spectrum of the knowledge, that our system and our technology allows our Knowledge Seekers, who are building it to understand, to go to the next step.

It's a very strange, I sit and look. All the pieces of the jigsaw are on the table in the lab, for man to meet the Soul of the Creator. But our Knowledge Seekers have not evolved to understand it. So, we are moving pieces here, pieces there, they see a result, then we go to the next step. Because it's important for them to comprehend. And then we can go to the next step. (3:18). The evolution in the knowledge is vast. What we achieved with our Knowledge Seekers in the lab, it will take tens of years for the most clever professors in the most advanced physics universities to understand. But they (are) understood by the layman. By the man who has no knowledge. But he got enlightened step by step. He's never even been in the world of physics, and they're building the most advanced space technology of the universe. It's amazing when I look to our lab.

We have one man who is knowledgeable, understands, and it took a time for the others, and gradually they're getting enlightened to the understanding of the work of the Universe. It's amazing how the processes is, how it's developing.

Q: Being that close to the core Mr. Keshe, those Souls that are present there, how are they responding to that?
K- What do you mean?
Q: Those Souls must be very pure Souls to be able to be that close to the core…

K- I have a very bad habit, has been with me for a long, long time. A very good habit. I'm not a lonely drinker, as you call it in English. I always go with the friends. And you

know the English habit, you always get with your friends, pub, have the same friends in the same pub, or you go to another pub afterwards. We come with these Souls. We came with these Souls. (3:20).

Q: These Souls Mr. Keshe, that are present and here with you, helping to elevate, enlighten humanity. They become the teachers that move across and teach in other places?

K- You see, we come with the Souls, but sometimes the Souls get too much entangled in the Spirit, and the life of physicality (P), and we see them disappearing in the dimension of P, but the Soul stays for the next cycle.

This is the way the life is, and life of, progressive life comes from. We come with the Souls. And I always said, it's never "I", it's what we do, it's a ?? few of us come. It's a mission. It's something, each one comes, does his part, and goes away, and does another part, and the next one comes. But the cycle of delivering comes with the specific Souls we have come with. They're the technicians, these are the people who know how to deliver. And each one has got his own work in his own pattern.

And a point will come that they complete their work, and the Soul of knowledge and work will ?? be the Spirit of the life. And you see the man back in again. I've seen that in many, many ?? of them. I know when the Soul has left, I know where I deal with is the man. It's the progressive development. (3:22). And that's all it is.

You know when you build a house, you get the plumber, you get the bricklayer, the bricklayer comes and does the brick work, and when he's finished, even though he's a friend, he lives next door, he is still a brick layer, but his job is finished. And then you get a friend, whose another next door neighbor is a plumber he comes. When he's done plumbing he's finished, it's no use ?? because ?? he did the plumbing. You understand? And this is how it is. We came well equipped this time. Well, well equipped.

Q: So the situation that we have, again, I go back to the physical side with the conditions that are happening. The enlightenment of the Souls of the KS is collectively bringing a position that the conditions will elevate across this planet?

K- Yes, it's not this planet anymore. We're dealing with the plasma, so it's universal.

Up to now, Muhammad could speak to what as many people as could hear his voice. So did ?? whoever heard and went and said to somebody else what they heard. And it became a "Chinese whisper." Koran is written 40 years after Muhammad. Some of it is from the first people who heard the voice, and some of it is from ?? Hadees, which was said to be.

This time is with the Soul. When you speak all the Souls hear the message, (3:24). right across the universe. There is no "Chinese whispers" in the middle. It depends what you decide to hear, and what you decide to whisper. It's as simple as that.

There is no more, only people who are here as Knowledge Seekers, gain the knowledge of today. Every being on this planet, at the level of the Soul has heard the message. And every being beyond this planet, because it's added to knowledge of the center, what I explained. So now it's the knowledge, and anybody can access it.

And the Messengers of the future, teachers of the future, will show people, or creatures where that reference for this knowledge is. Then they don't need to be Chinese whispering. You want it, it's at this strength such a thing, you can. It's like me teaching you, telling you about shouting, and telling you about crying, and then me teaching you how to create that emotion inside you, that makes you to tear and shows you are crying. You have to create that emotion to create that tear.

Q: So will .. if this is taking place, if this is the position now, has anybody come forward and has this field strength, this knowledge, this ability to tap in and be part of it. So anybody can raise themselves and become more, become part of the beauty instead of… (3:26).

K- Of course, it's just that how you decide, what you decide.

Q: Collectively or singular, Mr. Keshe?

K- Either way. You cannot force everyone to be what you are, otherwise Creator would have created one race, and it would have been all the same, copy machines in the rest of the universe. Diversity and the choice of diversity is the beauty of the Creation.

You're British, you're brought up with the fish and chips on Sunday lunch. You come to Austria, nobody eats fish and chips the way you do. And nobody ?? the way English do. But you're still an English man in New York, as you call it. Has it changed you? Or have you managed to show the beauty of a Sunday lunch with the roast to those who are in Austria, and they had a taste of it? Would they choose to have a Sunday lunch again for themselves the same as British do? But would they make it the way you do, and not to their flavor? You understand? It's the same.

You bring it and they add their own flavor to it. But in essence it's still a Sunday lunch. When we were deciding to do the February session, Dining with the Creator, I said, no, Friday's a very difficult time, people are working. Sundays most of the places in the Western world, not necessarily in the Islamic world, take a Sunday off. But the majority of the nations take a Sunday off. (3:28). Even some Islamic nations close on Sunday. So it's a good time to bring people together and put together, and let them eat at peace and gain the knowledge with peace. The February session is one of the colorful ones in knowledge and science for you lot.

Q: Mr. Keshe. So I wasn't a participant in the last one on the 20th. However, I did have an experience, I don't know if you want me to speak about that. But I did, I definitely felt I ?? let down when it was taking place. And I connected my thoughts and intentions. I felt,

I had many experiences with, seemed like images and multi dimensional things coming into my thoughts, intentions, into my .. on Soul level eye, not on the physical eye. Then I had physical interactions on my body where I had the same interactions I had when I was a participant. In fact it seemed to be more intense. And I wasn't connected to it with headphones or anything. This time, I was just myself as a human being just ?? let there.

But I still definitely felt it and it was very powerful. It felt very, very connected. And the Soul connected, but I know the STP needed to catch up, because it tended to, at times, you know, when you completely blank out, or become unconscious, I suppose. And then there are times when I came back, I was very, very conscious. (3:30). And part of it. So it was an interesting experience, that's for sure.

K- Oh, yeah. It's just, once you connect you establish. If you know your way you can always connect.

I'm like a little child knowing he's going get a new toy, waiting for it to arrive and knows exactly how he's going to do it. I played with it before, now I want to know if this one toy is the same as the toy I played with before. And that toy is there for this afternoon. Transmutation and transportation has been a life of millions of years, but now we'll see if this version of it works today for the humans.

Is the excitement the same? Is the maturity of the people who are doing it is the same as the past? I was last night thinking, it is just a strange way of thinking things. But, we come with the Souls, or you've done things the same before they know. You're just going to see if it's as good as before, or this time there's an improvement on it. And waiting for that toy to see if it's upgraded compared to the past. Where the last one was made millions of years ago somewhere else, and the upgrade version for human is the same as we done before somewhere else. (3:32).

This one is delivering what it's supposed to, because last time it wasn't done the right way, it was done. So we learn from it, redesigned and done the way, that the users can use it, with the right manual. It's interesting how, what we see with the new toy. I've seen it, I watched it being put together, developed and done the whole understanding. Now you see the toy to play.

If the system goes to what it is, what's supposed to do, whoa, you lot will got an amazing February dining session. Don't forget, I hide something in the 16th. And on the 19th of February (December ??) session, on Monday. If you look at it, it's the pattern of what we are doing in January, February, March and the rest of it. Addiction, we served the food, and other parts. We traveled.

So, what we set up, is what is coming up. Some of you who had the experience ?? were there. And what will be next? As a Knowledge Seeker said, I felt the mango, I tasted it, I felt the digestion of it in my system, and I felt, not consuming it, digesting it. (3:34). And let's see what brings today, and in the future days.

Q: Yeah, I've experienced that myself Mr. Keshe with this, with the feed in. So yeah, I understand it. I have moments where I suddenly feel very hungry and eat. It's changed, my appetite has changed. It's very strange.

K- You're eating from Gans's, in a way, without knowing.
Q: I think, maybe. Yeah.

K- In the test of the 19th we did a lot of things in the background to see the interactions. When you come to these sessions like the 20th, I stay fully alert in and operating, and monitoring with our team back in the labs, or back anywhere else, to monitor things. To see what is the outcome, what's the physicality ??, what's the behavior of the man, a collective man.

Don't forget, on the 20th we had over 100 races, nationalities and religions. So, it was a best mixture we could get. In the future, you will have more of. We had 4 "Passengers of the Universe" with us on Friday's session. And you could see them jumping. It's part of the structure. (3:36). We gradually in the sessions to come, when we have more of the Passenger of the Universe with us. The behavior changes towards Man as well. There was no respect for Man before we started to teach. Now man will be respected for the love of the Creator. As he stops all his violence.

Q: I wish for that Mr. Keshe. Thank you very much Mr. Keshe.

K- I don't wish, I know. I don't wish, I know. We'll see what time, how it comes.

Q: Thank you for your beauty, Mr. Keshe. Thank you very much for taking my question.
K- I would hope I'll see you next week.
Q: Yeah, you will do. Thank you Mr. Keshe.

K- Any other question, or shall we call it the day? It's nearly twelve o'clock, twelve thirty seven.

R: .. Some quick questions maybe you could answer.

Q: .. Can only ash natural Nano coating work for MaGrav power unit? So, can they use the natural ash in the Nano coating process?

K- They can use anything they like. You can use anything you like. You just create different strength of layers, compactness of them all, what you call, a space gap between them. That's all. It's the same copper.

Any other question? (3:38).

Q: .. Is smoking tobacco a bad thing?

K- Depends on. What does it do to you? One day I will teach, I will explain about the smoking, and it's interaction with the STM. Knowing that the STM sits just on the back of your throat, closer to than your stomach and your heart. What do you do, what energies do you give to your Soul on a continuous basis when you smoke. And then, is the smoking a psychosomatic condition? One day I'll teach about this, because we have to do it. And then we'll see if anybody touches it. And ?? why would with certain Gans's combination man stops smoke.

R: Ok, very good. We look forward for that.

Q: How does one measure the strength of a plasma in a rotating ping pong ball?

K- You buy a machine. Or you create another plasma rotating, or solid position, to see what condition, what outcome you get, and you start charting it. (3:40). You have to learn two things. Up to now all the measuring tools we have is a matter state. The Knowledge Seekers in the future time, they have to develop technologies, which measures the true field of the plasma, not in the matter state, by using plasma itself.

Should we call it the day?

R: I was just going to say, so do we have any equipment, measuring equipment nowadays to do that, or is that for the future?

K- It's for the future. At the moment we have developed certain numbers, the initial one which we set out in a specific way to do in a matter state. It took two years to develop. .. One of the best ways for you to understand how to make measurement tools for plasma is, use one reference. And for example, make the simplest one, because you're an observer of an event.

For example make a Gans of CO2, a large amount of it, in one go. And keep it totally isolated from any interaction, in a given position. And when you want to measure, take a sample of it, put it in the glass and put it near another Gans. (3:42). And see how it changes color, how it changes the space gap. If you are precise enough, then you start building measurement tools by the interaction of the fields of Gans's. And you have a solid, completely, always the same reference point in the Gans. Does the color changes, does the space gap changes, does the other side changes color, because now it's giving?

In time it will be made. It's just like, you know, when you go for a driving test, and they test you for alcohol, they have a measure of, this much alcohol creates such a noise or such a thing. You will establish such a thing with Gans's, the interaction of the Gans's.

Any other question? Or shall we call it the day?

Please, those of you who look at the Keshe Foundation website. We try to get it up today, regarding the Compact Units, regarding the Head Units, and regarding the Gans's. And those of you who have wellness problems and go back, we'll keep the lines, we monitor

all of it. It doesn't matter what condition you suffer from. We received instructions for cooperation to accept. Because it adds to our knowledge for the future. And our acceptance that we send this to the doctors for them to analyze. But make sure before you do, everything is there done, that we don't need to come back, and, (3:44). "oh, I cannot do this." You do your part, we have already got the agreement with ?? your part. How many cases? I can't tell you. Maybe 10, maybe 50, maybe 100, maybe two. But we try to bring a position that it can be reached by those of you who need, who want and can do.

Thank you very much. And we'll see you next week. We might have a surprise for you next week, and we'll see how it goes. Thank you very much Rick.
R: Okay, thank you Mr. Keshe. You always have surprises for us. So, we look forward to it.
K- Let's see what happens.

469 KSW January 26, 2023

470th Knowledge Seekers Workshop; February 2, 2023

(Transcription, Proofing done)
(Auto transcription by Elias)

Connected system through plasma - first message of new change; Shower test absorb energy; Humility key to receiving energy - knowledge; Transmutation test of single KS graph STM expands; Love of Creator beyond P love; Knee Gans; Fine tune systems; Field strength of banana; STM seeds for U; Solid ring magnet soul - Cups made by K; 2 brothers Taiwan; STM & STP switch places Trust; 20th elevation worked stopped war - Israel bombed Iran; Pass through locked door; Systems like brain hemispheres interaction create current emotions; Prophets live amongst men - like men; Zoroaster best example; Creation mostly random; Teach how to love; diversity food - variety emotions

ENGLISH TRANSCRIPTION

(:20).

K- Yes, good morning, good day to you. As usual, wherever and whenever you listen to the series of Knowledge Seekers, or the Keshe Foundation Spaceship Institute. We welcome you back. And we hope as usual, we understand a little bit more by sharing knowledge with each other, as we are all Knowledge Seekers, and no one is above the other. And understanding of what we heard as an Intro, (:22). and this is what was months and years ago, when it was talked about, with the knowledge we have today. And the way we have developed the technology, we come back to the same point.

It's not just the Soul, it's understanding how the man will travel the span of the Universe (U) in two ways. The dream of the man, the spaceships, the UFOs. A dream which is there reachable, and man technological development and achievement has brought him on the verge of just getting there. But with the knowledge we shared, with understanding of the Creation we have shared in past few months and years. We have to come to understand, that even those passengers of these UFOs, which we thought to have a lot of knowledge, is nothing to what knowledge man has gained. Beyond the spaceships, beyond the dimension of the motion of the physical matter.

In the teaching of past few months and to come, and in the evaluation and evolution of the science, that it's going to spread from now on, man would not need any spaceship, unless he chooses to travel in the dimension (D) of physicality (P). Or the man chooses to be part of the physical part, or man chooses to be part of the energy part. Energy meaning that in a way, travel above the strength of the energy of the matter state, observation, detection.

In a way if we look, the Creator has been in that position. Manifestation we know of His essence, we know what's Creation, we know what is created, but we don't see it. Because He is in the state of level of energy. (:24). Not in the state of matter, observation. And the state of observation of the smell, taste, sight belongs to man. Man has chosen that way, not the Creation. As the creatures of the Universe use other senses, which is not even open to man. How can the blind man see the beauty of the Creation? How a blind man can see the beauty of the sunrise or sunset? It doesn't matter how you explain it, unless he sees it through the strength of the Soul of the Man (STM) himself.

How does his Soul interact with the rays of the Sun or the sunset, when they interacted with the Earth? Then to him, Sun has a meaning. Sunrise has a meaning. Sunset has a meaning. We see it with the eye of the man. He sees it with interaction of the Soul. Now we have to come to understand this. Now. We have no choice.

We spoke about the X-rays and Gamma rays and radiation, and the magnetic (M) fields. But how do we understand these? How do we create rays that is not even known to man today? If you would have spoken about the X rays 200 - 300 years ago, that it goes through the body and you can see the bone. They would have ?? come up in the churches in Europe. But today, where are you going? I'm going for an x-ray. We understand something new, we learned. Now we have to learn about the other rays, the rays that will lead us to the Creation, and lead us to the Creator.

How do we go? How do we understand these things? How do we create these conditions? At the present time we have started. We have started to introduce the basic tools, the first two wires, which made the noise, and one could hear from one end to other in 1944. And we saw the beginning of the telephone communication. (:26). Now the tools we bring in through the Keshe Foundation, which is unknown in the world of the existence, are that first call, "can you hear me?"

This is what we teach you trying, many of you tried and pre-tested in the last two months, that you came with your headphones to us, and then through the systems, 100 and odd of you, through your Souls to the center in Linz, but that was your cutting point. Because on the test of the 20th of January, we connected through the ways of the Creation to our Center. There was no telephone line communication. So we have introduced for the first time, "dial the hello, can you hear me," here last time, last month, in the process of you to understand how the next step comes. Where that position in Austria where the fields were generated. Now goes back to the start, goes back to the Universe, goes back to the world of the Creation and the Unicose and the Creator. This is the first, "Hello."

We have started introducing systems, that you can in front of you see how you communicate one to the other, you receive energy from each other. And then, from there, how that unit communicates again, with the generator of this noise, the fields, whatever you call it. That man today has no tools to measure.

The understanding, (:28). the new technology of the space plasma technology (T) is the evolution in the science, that the man will grab with 2 hands, and will take it across the Universe to teach, not only for another man, but the citizens of the Universe.

The maturity of the knowledge of the Creation is a gift given to man, if man understands and appreciates the gift. It's like you grab a most beautiful toy in the box, and you give it to a child. It takes the toy out, but plays with the box, because he does not appreciate the beauty of what you bought as a toy, to educate him to enhance his understanding. So man at the moment with what we bring you, is still playing with the box, you have not seen the beauty of the toy. What is there to educate you with.

In the coming time in the coming weeks, especially coming into the next session of the what we call, communication in 20th of February, we extend this limit. We call it, "Dining with the Creator." Bring every one of you, all the best things of your nationality and your culture on the table of the food on Sunday. And we'll see how the other ones will taste it. How the other ones will take energy from it.

How do we absorb energy from each other without knowing? Many times I explained to you, that we absorb 80% of the energy from our environment, and 20% is what we consume in D of physicality. I give you a test and if you understand this test, you will be open to a new dimension of understanding. (:30).

Many of you have the habit to take a shower. Many of you have a habit to take a bath and soak in the warmth of the water, or take the what we call, a warm shower or a cold shower. Next time when you take a shower, remember, those sprinkles of the water, are the rays of the love of the Creator, which is around your body, you don't see. You feel the drops of the water on your body, but you have become ignorant to those drops of love from your Creator.

When you get up in the morning, weigh yourself, go on a scale 72.4 kilos.. Oh, I'm fat. Take a shower, spend 10 minutes, 15 minutes in the shower in the nice warm water. (It)

spreads from the showerhead without any discrimination. "Shall I hit the head or shall I hit the toe?" Come out of the shower, go on the scale. It says, 72.6. 100 grams or 200 grams extra weight. Where did that come from? You absorbed the energy of the water, exactly the way you absorb the energy of the Creation, that 80%.

Then do something else. (:32). One day, take a shower at eight o'clock in the morning, and then at 12 o'clock, and then at 5 PM in the evening. And do the same thing, and see how much the variation in the energy you absorbed, has to come in. If you absorb 50 or 100 grams in 10 minutes in the shower from the heat of the water, then you understand how much you absorb 24 hours a day from the rays of the Creator.

You didn't eat anything in the shower. You didn't touch, you didn't drink the water. But the energies has been absorbed. That's from the skin of the man. This is how our Soul , our energy, our body absorbs energy fields of the Universe.

Then, this is what I've been telling you. I gave you the biggest gift man ever could understand. Creation of the cycle of the fields of the Universe in the MaGrav. You never understood. We showered you with the fields of the energies of the Universe. We gave you the tools to understand, but again man played with the box and left the toy, because he couldn't understand it.

Now in the process of the teaching, in the process of what is to come, we start teaching you to play with the toy. What happens if you press this button, and what happens if you turn that knob, (:34). and what happens if you hold it up and let it to play? Or do you still want it to play on the ground, it has no legs.

In the coming time in teaching, which we have taken, we start introducing the application and understanding of the fields of the Universe. You do not need to go to CERN, you do not need to go to the most advanced plasma centers of the world to understand more than a professors in these centers, which are ignorant to the truth themselves. Trying to confirm in the dimension of physicality, where the Creation has a different dimension.

We tried to explain. We tried to physically show what these things can do. We have introduced the first communication systems in the Keshe Foundation, the new plasma Technology in line of communication. But we give you a little benefit on the side, that "I'm happy to get." "But this must work." But you never thought, if this gives me a little bit of reduction in energy, it must give me other things which I don't see. And for the first time, we have packaged the tool. Your understanding of the fields of the Universe, are the energy source in front of you.

When you buy the combination pack of the Keshe Foundation, these will be historical, because I have one of the original ones, which was created, where my Soul could convert, could interact with the others. The new structures, which we have brought in, step by step is part of this evolution. Is part of understanding the world of Creation. (:36). Where you see it, you physically interact with it. And then I want to call my Mom. She's in New York, I'm in London. But I only talk, I don't know how she feels. I only see she's not

telling me the truth, what's going on there, what she is suffering from and what it needs, what is not needed. And what is the situation with her.

Understand at this time in the moment, you listen to the voice, and that was can tell you a lot of things, which is not real to you. But using the system, understanding the work of the system of the Creation, you see the Soul of Mom, "hi, mom. How's your physicality doing? How can I help?" Not a word uttered. But through emotion and interaction of the fields, the line of communication reaches there. This is not far fetched, because you do it without the system introduced. We just giving you a tool. When you're asleep and you see Mom.

When I was younger, as a student in Manchester in London, my parents were in Iran. Those days, we had to book a time to make a call, maybe one day a week to speak to Mom and Dad. If there was time allocation at the central telephone call, would call us back and say, "your time has come to call." And they ring the other side. Ah oh, Mom wasn't home. Even I wrote a letter three weeks ago, that Mom, this day I'm going to call you. That was living in the most advanced Western nation of Europe. And it was the same with the rest of the world. Mom was not there, because she didn't receive the message in writing. (:38).

And then you sleep at night. Mom comes to the dream, I have sent you a letter. You wake up in the morning, the postman rings, I have a letter from foreign country from you. I think it's your Mom, because the postman knows this letter always comes from Iran. That time we were the only foreigner in the area. I wanted to make sure. I know you're waiting for a letter from your Mom. Now we give you that tool. You don't need to dream, and you don't need to wait for the letter.

Now man lives in the most advanced planet in the U, of the most advanced city of London, in the Western world. Now you can make that communication. And then gradually get trust in it, that it works. You test it to understand its limitation, and in time you come to understand we played with the box too long. We played with the box far too long. Now is the time to take the toy out of the packing and start playing with the toy, to understand what knowledge it's going to give us. What education it's going to bring us and how the man will evolve with this knowledge. (:40).

Which other toys on the table, which I can play with different, that I had up to now, and I didn't know. The teaching and the knowledge of today is that step for the man. We brought you the box as a MaGrav, and you're still playing with it. Those of you who understand it, will put it down and start playing with the toy.

The Combination Unit, which now we have put in, and you will see how you will play with it, is the beginning of the new generation of the communication in the Universe. In way, a Universal System, through the packages of energy. You can feel the emotion of a planet before you arrive. How would I feel? How would I find myself in this planet, on this star, in this position in the Universe, or in that part of the Universe of the Unicose? Would I feel happy in the dimension of the Soul to go to Planet Zeus, even though many

people come from there. But I cannot stand the weather, I cannot stand the weather in the dimension of the fields, not in the dimension of the storms and the rain.

What do I need? What would I eat? Would I kill an animal or another being in the Universe to take energy from it? (:42). Or am I educated to know where the fields which I need come from, that I can tune into it in the strength? Then the most important part of the game, even you tune to it, become humble enough to receive from it, not to become arrogant that I've got it. The law of a plasma works everywhere the same. To receive it, you have to become humble. Then you attain the strength of it.

When you see a lamb, you don't slaughter it. But you become humbler than the lamb, that he can feed his energy to you, and you can enjoy the pleasure of the emotion of it. In a way, you become the lamb to the lamb. If man understand this, man has broken the chain of understanding the knowledge of Creation. I have taught you from the beginning, the bigger plasma gives to the smaller. If you are arrogant and you think that you are bigger, how can you receive?

Giving is the job of the lover and the Creator, and not the man. Man always has been the receiver, and shall be the receiver. As without it human cannot exist. Be humble to understand, that you understood more, now becomes, that you actually understood nothing. And then you strive for more, to understand more, to be, as we say in Farsi, (:44). "the bigger the tree becomes, the more it bends down to the ground." Bows to its Creator.

This is the key to understanding the magnetic field of the Universe, what you call, magnetic field emotion, what we call, energy. If you understood this, you have made that strive, you have made that change, you have made that what I call, leap in the knowledge, from the matter to energy.

Then how many of you will still looking to make a MaGrav? Or you make MaGrav in different shapes, forms and dimensions to get access to the world of Creation, to the energies of the Universe. Try to understand, try to evolve to the next step, try to interact with the fields of the Universe, and then see what you got from them. And when you got, you understand, you must have been the weaker, not the stronger.

In the dimension of physicality of the man we become bosses, the kings, the rulers to take more, to receive, to take what we want. In the dimension of the plasma it's reverse. The humbler, the weaker you become, the more what we call, humbleness, understanding that you know nothing, the more knowledge you receive, the more energy you receive. (:46).

Then you have to understand how the fields of the Universe works. How you travel from A to B. You are a tiny little Soul trying to go to a giant star. How do you get there? How do you make your way to there? And if you go too fast you absorb and become nothing, because the fields of the energy of the Sun will literally dilute you, does not, absorbs you in the totality of the fields he has.

How can you live within the center of a star, the biggest star in the Universe, and still be your Soul? Still understand, still observes, still enjoy the existence in the center of a star, or on its surface, or on the way to it. Then you understand you still have a lot to learn. You're still on the back of a donkey, and you see a jumbo jet flying above. But this time the difference is in knowledge, not in the dimension of physicality. The knowledge of understanding the world of the Creation. Then understanding the process, which this world of the Creation of the Creator works, not by a wheel, by a drill and a jackhammer. It cannot do, what you've done in the dimension of physicality. You have to live exactly the reverse of what you do in the physicality, (:48). in the dimension of energy.

In the recent past week, we have developed a beautiful observation point of this in transmutation and transportation. We watched our Knowledge Seeker seeking to travel in the dimension of the Soul, but he falls in the dimension of physicality. And we see that change, we see the shift of the Soul coming out of the body. For the first time ever, scientifically we can show when your Soul moves beyond the boundary of your physicality. We have the tools, we have made the measurement tools for it.

It creates a funny shape like a double M, literally, it's like a McDonald's upside down or the other way around. When the man goes and tries to go to transmutation from the dimension of the STM to the dimension of physicality, what we call, the Spirit and back. For the first time we have recorded how the Soul is encaged within the Soul of Physicality (STP), the STM, and all that with the dimension of physicality and the physical dimension of the environment.

For the first time we have recorded how a man tries in the Soul to jump out to extend it, but he fails to. For the first time on the 19th, we'll watch how you as Knowledge Seekers (KS), as a collective Soul, will strive to attach, to detach from the fields of the Universe. (:50). Now we have a tool, the first basic tool, that the man can understand.

The first, what we call, understanding of the Totality, the first combination of the fields, the interaction of the fields. How the STM, how the understanding of the STM will come to exist. It's very simple. I show you something, then, you understand. If I put you in a position, that for the first time you can understand how your Soul works, how your STP sits amongst its dimensions. And then you will understand you have understood nothing. You have to come to understand the Totality, and then you understand, how physical man has become.

You will observe the flight of the first man. Then you will see what it means. This is one of you, as Knowledge Seekers, who was trying to reach Linz. You see the game of the Soul. (:52). The green line is the STM. The blue line is the Soul of the Environment, it could be the Earth, it could be the Mars, it could be Universe. Then, the yellow and the red is the STP, and the physicality of the man. These are tools, simple tools, that I could explain to the Knowledge Seekers that they could make for them, for the first time, to see their P, to see the Soul.

Then observe, on the left side, the Soul is subordinate, is encaged in all three. The man attempts to make that flight to free the Soul. And on the right side, you see the Soul is above the physicality, the STP, and the Soul of the System. This is the point when the man takes that leap. This is the advancement in the knowledge of the Creation. This is the advancement in understanding. In this new picture you see he has made that leap. But he fails, and he tries again, and he holds on. Now you see the Soul encapsulates the physicality of the man, the STP of man, and the Soul of his environment. Now, with which environment the Soul can interact with? (:54). Because now he is encaged, what he has engaged in for centuries and decades.

This is a graph of you, one of Knowledge Seekers who was flying through the Soul. He's been trained, he works relentlessly to get to this point. Now we move that Soul, and now in moving that Soul, we bring the physicality and we bring the exchange. You see in this picture, how that "double M" comes in. Where the green lags behind the physicality, and going through a transition, leads the physicality, comes out first. And we see the Soul switching from extending the physicality of the man in the system, to becoming entrapped by it, when he wants to.

These are data's, now man has that first "hello." For the first time we have created systems, measurement systems, and in the coming weeks, more complicated and sophisticated systems like this will come. That we can show you, when your Soul expands the dimension of your physicality, and when you become physical. And what is there give you that fear of leaving. But the beauty of this question to ask on this graph is, did the man die, just because his Soul extended beyond his physicality? (:56). Or did he get in touch with mom, who passed away decades ago?

Now you understand when I explained to you that the knowledge we have brought is beyond the understanding of the man. It will take you a long time to decipher this message. Switching, jumping, wanting to be in the dimension of physicality, and then jumping to embrace the physicality. Then when we ask from, he says, I'm in Linz, I'm there. He's truly there, because he came out to come to Linz. This is the first time you see the flight of a Soul recorded.

We haven't spent billions to create these systems. You don't need CERN's, and multinational operations, and financing of trillions. Knowledge Seekers with the true knowledge of the Creation and a few pieces of tools. (:58). The graphs we showed you from the 16th of December and 20th of January were from kilometers away from where these systems sits. This time we flew directly inside the system.

What you saw last time was how you collectively interacted with the Soul of the Creator. Now in this, how you see man interacts with his own physicality in dimension of Creation. Then you'll see how transparent man is to his Creator. As he does not see the what we call, the red, the blue and the yellow of it. Interacts, he interacts with the green, with the Soul. Now you understand what is to come. And now you understand how is to come.

This time is not that first, “hello”, that somebody else comes and makes a transistor, and somebody else comes to make something else, and 200 years down the line somebody comes and makes you the Apple phone. Now the knowledge seen in this graph will be the same today, and a billion years down the line. (1:00). It depends what you choose, how you choose to get to the path to reach to this level of understanding. Communication through the Soul, interaction with the STP, and how and where the man decides to be.

Do I need to get on the jumbo jets or in the back of a donkey? Or do I get on the line of the magnetic fields of the Universe through the dimension of the plasmatic energy and land where I want, instantaneously. This is, maybe for the first time you understand when they say, there is "no time" in the Universe, as you created that time. There is "no position" in the Universe, because in the interaction of the fields you choose, you create that dimension.

I have to tell you something very strange. This Soul you see, wears nothing, is not in the system. It sits next to a system. So the Soul has learned how to come out. But the beauty of it is, if you understand it, we have created the most humble in strength of the field of the Universe in our labs, that he can come to us. We are not there to give to him. We just put that little torch at the end of the line, we are here if you want to come. (1:02). It's you who has the strength, you're humble enough to receive. Not that we have the most powerful unit sitting in Linz, and we attract in ??.

It's a way, in a way, when you take a baby for the first walk in a shopping center. We all walk, we’re all busy to go from one shop, to another, to another, and this child holding the hand of the father takes the first steps. She's so beautiful, that everybody looks at her, enjoys her seeing the first steps of the life. A man is that child in the supermarket of the magnetic fields and the radiations of the Universe, taking that first steps. I’m here, now I want to join to walk.

Now, physically we have systems which can show you. Physically you can follow where your Soul goes. And then you see the beauty of it, the gap between the STM and the STP of it, the physicality of it, and the Soul of its Environment. (1:04). You can always go above in the strength to interact with a higher order. And when you reach that point, at one point, you reach to come to touch back itself, the point of Creation and the Creator.

Mankind soon will understand, will unravel and will understand this graph. How man switches between the dimension of physicality for the Soul to be subordinate. And how he can jump to become in the strength lower, that he can interact all to be within. Not the strength to be higher, that I encompass everything. This process of understanding the fields of Universe is interesting if the man understands it. Then we'll see the new tools in the dimension of the strength of the travel, in the strength of the fields of the Universe.

I brought you to the point of creation of love. You give enough, you give enough, to understand the strength of your own, and not others. I said to a KS, we test you with love. We give you more, that by you choosing you understand how much you suffer, (1:06). that the love of the Creator is more important, than the love of physicality. By loving

more the dimension of physicality, you come to understand that love of the Creator is far beyond the love of physicality. We test you with love, not with gold. In the dimension of Creation, that's how it works.

Man in the dimension of physicality, as it was said, we made gold to test the man in the dimension of his existence. In the dimension of the Soul we test you with love. That's giving, unconditionally. The way the Creator did. and led to the creation of Mitra and the Earth, and the love of their existence with each other.

Now maybe you understand. Look at this graph, and think, where am I, under? And in understanding, I can be free. On the left side of the picture you see the struggle to move out, being inside to get out to, change the phase. And then as is tradition with the man, every now and then, falling in the dimension of physicality. Is it there? Am I still got a connection with it? But you see, does not matter where you go, you come back to it. Treasure this picture, if you understand it. (1:08). And for the first time you understand the work of your Soul and physicality.

I hope today I bought you for the first time to see the confirmation of your Soul, and struggle man has to keep between its energy fields and its physicality fields, which itself is a D of energy. And then maybe in the future, we'll see more. You understand, we come to comprehend the process of existence. And then I decide to ?? apply, at the point and destination, because I know the field strength of my Mom. I'm coming for dinner, Mom bring me the soup of the energies of Universe and its knowledge, even though you died in the D of physicality (P) 40 years ago.

I hope you understood a lot today. And I hope as I said, we're opening the path to the Knowledge of the Creation. And it's so simple, because you've been educated in the D of other sides for past 10 or 15 years. We'll go to a break and we'll come back and I try to share knowledge, as much as possible to see how we go from here on. Now that you have seen your own Soul. I can put you through the same system, and you can see who ?? the flight of the Soul, (1:10). is extremely beautiful. You took a picture of yourself going somewhere. Now you have the picture of the separation of the physicality and the STM, there is no ?? Christ in this. Rick can we go for a break and come back.

<< BREAK >>> 470 KSW Feb 2, 2022 (1:16). ..

K- No, we see what comes up and how we can answer you. There are a couple of things which we have received, a lot of question from a number of people is, about a couple of

new products, which KF released last week. We get a lot of inquires about the "Knee" Gans. This is a specific material developed by the Keshe Foundation. We've been holding it for a long time. It's mainly for what you call, it's a clinical, what we call, trial, internationally, for all of you. You have to fill in, as you did with the glasses. Because we have a plan for this for the future, that you enter as part of a clinical trial, to see how it brought you, what changes it brought, how it reduces something, or brought you comfort in the other. And it's part of the Wellness Units of the Keshe Foundation.

This has a very specific structure, and you will find it in the, what you call, the Gans section of the Store of the Keshe Foundation. It's called, the "Knee" Gans. It can be used anywhere, where there is a cartilage or ligaments, and it has a specific way to use it. As usual, many of you always participated in these trials, when you take it report back to us. Because then, as you remember, when we introduced the glasses and the other things. You reported, we developed, we understood what part was needed to be corrected and strengthened, and for what purpose, which led to the, what we call, by the research and development of new technologies. (1:18).

This Knee Gans is very, what we call, important for us because it will teach us, not teach us, confirm to us in the conversion of the energies into plasma of physicality. Because when you're dealing with a knee, you have a bone, you have a cartilage, you have ligaments, you have more or less everything to do with the dimension (D) of physicality, in that position. Be a joint in the shoulder, be it the hip, be it whatever. We want to know which strength, which way it goes, how would it reduce, how would it give you enhancement, report back to us. As we learned from the glasses, and we learned from the other parts, we go to the development of this position.

Those of you who are with the Keshe Foundation, close with us. When you look at this, for example, the Enhancement Unit (EU) that now we managed to bring to the dimension of the Soul. The original one of this was created and tested some 4 years ago with, in China. We built the first bases of this in a different D. We shipped it from Austria to China and we tested them on Chinese Knowledge Seekers in China, being with us, testing it with us. Gave us a lot of knowledge in the background. The things, the limitations of what needed to do which now you have the EU of today. But all these units were manufactured, produced in Austria. Now it's the same position. We want to understand. Follow the instructions and tell us within a week, within two weeks what happened, what changed. What strengthen, loose kneecaps, (1:20). get their position. I want to know how long it took, how it took. If you put (added) something new in the usage yourself, that shows us another way to do things.

So, this is not something for just buying and holding, it's for you to test. You have a problem with your cartilage, you have a problem with your joints, pain or whatever. We want to know all of it. It's a limited amount of supply, it takes a long time to produce it, it have taken me years of research to develop it. It's something we need to know now, as we'll use this knowledge in the process of the manifestation of physicality in the dimension of Soul. I'll explain this more in the future. It was the right time to release it.

So, if you have any kind of un-wellness with your joints, or whatever, with your cartilage, or whatever. If you enter this trial, we want to know immediately around the world, what effect you've seen. And then from this, we go to our what I call, next steps of understanding.

Where the same time last week we launched the Combined Unit, which is the new Communication Headset Unit with its communication pack, which gives you a small amount of energy reduction, if you use it. It's a tabletop unit. And, again, we released this, it's on the Store, as a combination pack. This will be good when you start communicating with us and with each other without the new telephone lines.

When somebody tells you, I love, in Sydney, to the one who is in New York, you know the true love. (1:22). It's not anymore games on the Internet. The Head Unit is separate, than the Transmission Unit and the Energy Pack Unit. And these are literally market as one. These are the first telephone calls, as I explained to you. We kept it this way, and we release. Then hopefully very soon you will see it in the demonstrations as one of the Blueprint Days. As we said, this is the next step. The Energy Enhancement Unit, Plasma Units for the what do you call it, the domestic use, again is in the market. And actually deliveries should have started this week, but we had a slight problem with the, what we call, the situation internationally. So, next week or so should be, those of you bought it, on the way to you.

So, you can see we start delivering advanced space technologies in a very simple way, and understanding the new understanding. And then connecting with each other, connecting with communities, connecting with the needs of communities. And then we go to the next step. The same as we now see how you helped us with the two brothers (with genetic defects), which some of you helped us. And we still need huge amount of help, because it's an ongoing project. Yesterday, I had the pleasure to watch, with the mother showing, that the boy for the first time can touch the ground. What the mother explained to us is that, what if you remember, both boys have a genetic defects which destined for them not to be with us in the dimension of physicality, by young age, in their teens. (1:24). The mother and father say, for the first time we have seen the evolution of deterioration has stopped. The mother put the camera on the floor and she says, "look for the first time he can touch the ground, and the toes move." So, what you helped us and what we participated in the life of two young boys, the parents have seen the results.

We have interfered with genetic, what we call, correction. I will see these two boys again in the next seven days, ten days, when physically we can see how much we have brought what was destined for them to die through the genetic defects. To correction, to be able to touch the ground again. Or, for the first time a child kisses the mother. The technology is, we reached the Soul of the child, not the physicality. And the dimension of the love of the parents give the existence to change.

We don't work in the world of medicine, we work in the essence of the love of the Creator with the STM. You helped us, we initiated the move. And these two boys, two brothers, see the change. The knowledge is deep. The knowledge is understands the

Creation, the process of the Creation. Then we'll see what comes up next. What will be other games. We cannot go faster than our Knowledge Seekers understand the process. And then we'll see the change. (1:26). Then we see the change through the knowledge and technology scientifically, and not by prophecy.

Are there any questions?

Q: .. In the graph of today, .. if that is the way to expand the Soul, then what is the graph of the meeting with the Creator that showed through our own line of connection in December, where the lines merged perfectly? Could you compare them?

K- There's no comparison. That was a different system. This is a different system. Though, just because you see graphs on the same machine, it doesn't mean the same thing. The graphs we took, we showed you on, during the Christmas, what we call, time on the 16th, that was a collective work of all of you in the physical dimension.

This graph we showed you today is one man in the dimension of the fields of a totally different system and totally new technology, what you call it, new environment of technology. This is an individual person with his own Soul. The other one is the struggle of the totality, (1:28). and then how you reached a unity. Even if you look at this picture, you see sometimes if we show you we have a number of pictures taken through this process. We reach that point of equality when all becomes one. We have quite a number of it. When the STM and the P becomes one, we see it. I can show it to you very clearly.

This is the same man, in different part of the test. But the system in the 16th and the 20th is a different measurement, it's a different understanding. You see on the left side he reaches, and sometimes jumps up, the P wants to confirm. He has that struggle to jump out for the Soul to takeoff. When you look at the three peaks, if you see the green comes up fast, out last and is still superseding the P, and the STP, and the Soul of the system. Somewhere in the middle, he panics. You see, he still wants to confirm that he still exists. You see that little jump in the middle, all the three jump, but the Soul carries on. Because Soul cannot make a mistake, when it comes to itself.

It's the P which makes the Soul to react. This is when you do the sins, (1:30). when you do something wrong, you see the P does and the Soul try to compensate later on. If you understand this graphs, these pictures, the way it is and how we communicate with the person on the other side, we know where these things come in.

You've got to realize when we make these tests, the volunteer has tried to keep his Soul still in the motion of coming, but he still has to respond to us in the dimension of physicality tens of thousands kilometers away. When we can add, which now is getting built. You saw that Vertical Flight System, Vertical Unit, which was just shown a few minutes ago. That unit, part of it is nearly complete. It's going to be installed in, in the next few weeks, and then it comes into operation. With that, we don't allow this change of mind, or the fear of travel. You get the comfort of the guarantees.

So, if you look at this picture, the straight line, this is a man with his own physicality which become the truth, they want to go. You saw the same straight line in another system for another condition, does not mean the same. But in essence the whole of world of physicality of the man and the Soul become one. There the whole world of the physicality of the man became one with the Soul of his Creator. And it was 150 - 60 of you. Here is one man struggling with his own Soul. (1:32). That's the difference.

Any other question?

Q: .. Did the graphical system show the results of only the participants who had their microphones open during the event?
K- Yes.
Q: Or 100% of the participants?

K- It's those who participated. The microphone doesn't .. We did a test especially yesterday in the flight test, to confirm this. So, yes. If you're there you have a microphone open, your headphone is on and you're connected to our system, yes, you come in. Let me explain to you something, I'll show it to you. How we know it's there. We do a lot of work, and if you hear me today, the snuffling and a sniffing it's because of this. I spent in a very cold weather in the Center, and I've got a very bad cold. (1:34).

<<< Here Mr. Keshe has problems with the white board >>> (1:37).

K- Now I lost the tread of thoughts. What were we talking about?

R: It was about the… The question had come up about the graphical system showing the results of only the participants who had their microphones open during the event, or 100% of the participants?

K- Yes, now I explain. Thank you very much. If you remember, you're all familiar with this now. That, in the room, we have… Oh, my finger is better than the pen. We have a system here, we have a system here, which this was system one, this was system two. And we have three initial system, if you remember, months ago, you started with Seat number one, and then two and then three. (1:38). These new systems since last week, have been installed with the Universal Communication System. Which means, in the 16th of December test, we had telephone call, telephone communication between here and the Center. That's how we did the first.

On the 20th we did a test, we cut this off (the telephone line). Which means the only way our system communicate with the Research Center, which they received their power and everything else of the expansion, is only through the new (plasma) communication system. Yesterday we had to test this. Does it work, or is it only there? We put a person in here with the communication, and a person here, on remote. Not in the center. Two different parts of the world. And we took the graphs back in the center. What we saw was very simple test. We took the graphs, we watched the way you seen the variations. And we have in our graphs, I think you've seen it before, what we call, constant fields of our

system, which is like, goes, beats up and down, as you've seen it. Then what we did, (1:40). having these two for at the same time 10 - 15 minutes in, we monitored the graph. And the graph was very, what I call, very much, if you look at it with all the things you get and everything else. But when our system is on the what we call, a standby, with nothing going on in these two with the line of communication. The graphs has a constant rhythm of like this. So, this is when we have one person in, and one person out, and this is when the system runs. When we have nobody in. And we see this, we know, we are on our standby condition.

What we did, we withdrew this out of the room. In a way, we took this out. Instantaneously, this graph disappeared, with what we had was gone. And we had this graph, even though we still had one person in one system, through telephone lines, sitting in the room. So, it confirmed to us, our system communication works within this environment. And anything outside is not affected.

So, if you're not connected through our system, in the setting, it doesn't matter where you are. We have it now, we had to do this test yesterday, because we have to confirm it. And now, because now there is no connection between the Uno Center and the Research Center where the backup structure is. Now we've seen. (1:42). So, the backup structure in our Research Center is connected, and what goes inside this, inside here is all of you 100 - 170 of you, whatever, when you come in. These two systems are slightly different from each other in what you call it, performance, even if they look the same.

And we have seen now, we are going in advanced way of bringing transmutation in. Now even our reactors, as of yesterday or this week, are set to specific angles, which is the gravitational field angle of the Earth. We go into the precision, we're fine tuning. The X axis of the Earth is slightly tilted. If I go 2 degrees that way or the other way, I land in Planet Zeus or in Planet Zips. All these fine tuning has started. And all these tests we do in between is to find out what we need to tune, what we need to adjust to come in.

So, if you are halfway connected, non-connected, you are not part of it. But the, again, we've done test with the microphone set open and closed, and we still get this graph. But we prefer the microphones open, because it gives us a more detailed communication both ways. Don't forget you send us information from your Soul. But you close the microphone, we cannot send you one ?? strength. But through the other strength, as you're connected with us, we connect back with you.

So, when we give you these kind of graphs, and these kinds of tests, (1:44). now we do this and that, it’s a lot of scientific check behind it and connecting, collecting and checks. The interesting thing is, in the coming time i'll be, if you're in the system and your graph goes like this, and then the next day this is talking to Mom. The next time we put you in the system and your graph goes like this talking to your lover, then we know this is the sign of your emotion to your mother and the sign of emotion to your lover. Physicality lies at this point, and the truth shows through the love of the mother at this point.

So, you know, now they put you on a truth machine, if you're telling a lie or not. Very soon these machines will come that, when they take you to your own judgment, you see what I did, or what I didn't. This is why I will always say to Knowledge Seekers, I never lie, because I know where the graph sits. You hear what it is as it is.

This is in a test which we do on the 20th (19th), you will have the same thing. In a way on the 20th we still, you are so involved in what taste you make and what fruit you do. But you will see during the test, then we can make a graph. We see this is for banana, we see this is for orange juice. (1:46). Then we, in the collection of the data, when we tell you, we put in the orange juice, this will be included in that wavelength and the other one will introduce in another wavelength of the field strength.

And dining with the Creator on Sunday, the 20th (19th) of February, it'll be one of the most interesting parts. Because this will teach you how to feed yourself, if you understand it, then you do not need to kill in the space. When you sit with the Creator, Thy shall not kill. So you learn His ways. And this is part of the work, which you've been involved in past 2 and 3 (sessions). Join us on the 20th of February, and maybe it'll be the last time you will eat, nobody knows. If you learn the whole understanding of it, you find the path to it.

Any other question?

Q: .. Which soul was created first, the STM, P, or the STP?

K- It was first the Soul of the Earth. (1:48). The STM came from interaction of the fields of the, what we call, Gans matter states. In the specific talk, I have explained this step by step how life was created on this planet. It's in one of the lectures I gave, I can't remember where. But I explained the process of creation of life on this planet. How the Soul of Gans of matter state, led to the creation of the Soul of the Collective, and then interaction wise, became a collective Soul of collector, which means it became what we call, the STM.

Now with the new teaching in the process, which is now even available, we can do it is, we create dimension of the perfect Souls of the Universe in the embodiment of a woman, to create that perfect child. The child of Mitra is created that way, and she is amongst us. Then that Soul of Creation, decides in the womb of the mother, the dimension of the STP, that it will be happy with, to exist in the dimensions of the Creator. Not the genetic inheritance of the blue eye of the mother, and the color of hair of the grandfather. It's a very big difference. When the child is born, I want to have a brown eye. Why was I born with blue eyes? Why do I have a curly hair of the grandpa, (1:50). when I wanted straight hair.

Now when the child is born, because it's through the essence of the Soul, as the perfect image that he chose for itself in the dimensional existence of man. No mental disorders, and no wanting something which I cannot (have). But knowing that he has the power to have that blue eyes, if he decide to.

The new cycle of life, not only on this planet, is done through the Soul, not through the dimension of interaction of physical life. Fields create the matter state, not matter state creating the fields, even though both exist, depends on which way you want to go.

In the coming time, if you remember, we are looking for new partners who want a child. A couple, two ladies, two gentlemen, whatever, two people who love to be with each other, but they don't want any physical interaction to have a child from each other. Because one of them wants to have, we create that Soul. And we allow the Souls to interact. And then it chooses the dimension of its physicality.

You saw the STM how it moved, we showed you with the passenger. Now will be the same, both is existence. But one is decided by the random chances of the physical, you call it, RNA and DNA. Or one is done by the dimension of the Soul, RNA and DNA of the Universe. (1:52). Because this child will travel the span of the Universe. It doesn't only consider how it looks on this planet to satisfaction of his existence. But how does it look which is perfection to the others in other parts of the Universe.

Game has changed. When you see the child of Mitra you adore the Creation, it doesn't matter where in the Universe you are. When we see a child we look at the dimension of physicality. That's what is there and that's what is to come.

Any other question?

Q: .. How are the seeds of the STM, are planted in the Universe?
R: I thinks you sort of covered that, but maybe you could explain a little more.

K- It depends on the strength, where it chooses to be. A lot of things… You have to be scientific, we don't create theology. And scientifically you. Whenever you don't understand in Macro, you go to Micro, and you don't understand in Micro you go to Macro.

But always when you do test with these things with magnets, understand, a solid magnet, when you use a ring magnet, a circle, it's the state of the matter. Whatever reaction you see. (1:54). When you want to work with the dimension of the what we call, like a Soul, which has no dimension of physicality, use a ring magnet.

To you when you put two solid magnets of the same size as the ring magnets, observe the position, observe the behavior, it's different. You're so involved with magnets, that you have not understood the soul they create inside the ring. What soul is the magnet in the D physicality and in the D of the Soul. Then you can replicate, you can understand the essence of it.

If you remember, I always said, everything I made, I used a huge amount of ring magnets. In, for example, when we used to make the Cups, the Cup of Life you now make, I made the Cup of Life 15 years ago, 20 years ago. But that time I could not

explain about Nanotechnology and Gans. When the cursed nation of Belgium, these hooligans opened the containers of the breathing, and they just saw magnets, they never understood. They called it a fake. Now you drink a Cup, you walk away with Corona.

I use solid magnets, square magnets, ring magnets with a pipe going into it, that it changes the existence of the D of the STM. (1:56). If these ignorant people of Belgium could understand the technology and these Cups as the technology of Creation, they would be ashamed of their own existence, what they've done with the Foundation. Curse this nation, and it's blood. How backwards, how much they delayed the development of the man. A bunch of pedophiles and rapists. From the king down to the soldiers and the police.

Some of you who are listeners here, you still have my Cups, made in my own hand. Those Cups you carry, is the essence of the Creation, life of a man. And in it, you see what now you see as Gans's. How you play with the fields of the Universe. Many of you especially in Holland, have these Cups, still with you somewhere, treasure them. They carry the fingerprint of my Soul. Every single one has been made, handmade. And that's why you found salvation in them. You feel how. You see if you open it, the bends, the twists, the position of magnets. How I pressurize the Soul to release its, what we call, Cosmic Rays. How when you breathe in the system, your breath gives from dimension of physicality and it takes the dimension of the field of the Soul. (1:58).

I never touch the physicality, with all the fields. I always play, where you hold the cup, how far you hold the cups, what interactions it makes with your Soul. The water you create when it passes your nose, the smell when you're drinking it, how it touches enlightens your Soul. And then you see satisfaction in the D of physicality. I'm a magician. You looked at the Cup. I looked at the fields of the Cup near your body, even the body bits I made for you.

Understand the interaction of the fields. Then you understand how you still play with the fields, but not with magnets, but with Gans's. Not with Gans's, with the fields they create. Then you understand the process of Creation.

It was a pleasure to be in Holland after some 10 years or so, in past two or three weeks ago for a few days, to sort the affairs of the Foundation and Stiching. And it brought back a lot of pleasure. It brought back a lot of understanding, where we started. And how I could go to Philips and tell them, your X-rays machines you've built here has become the Space Technology. Understanding the same radiation, (2:00). but in the dimension of interaction of the Universe.

Now, you have to understand how the fields work, how do they interact? And what is the outcome. In the intro we spoke about the Soul of your children, how would they interact with other Souls of the Universe, which leads to the Creation of a new cycle of life? Now you understand what that Intro means after years. Because we've got the Gans's, now we have the machines. We can create the dimension of the Soul of a perfect existence.

In the very near future, following sessions, monthly meeting with the Creator, we'll put all your male people on one, and all the females in one. We separate you. And then we see what the Child of Creation ?? you'll be, as a child of this planet. I will not announce this, when it will be done, but it will be in one of the sessions when the time comes. Because now we have the knowledge. You ladies will come with the lines of the Soul of a giver, (2:02). and the man comes in the line of the giver too, but both connected to the love of the Creator.

In the last teaching, in the last meeting on the 20th of January, we knew of the presence of the Mitra, and the Child of Mitra in the meeting. We recorded it. When they sit amongst us, then we ?? are us. No, what I call, theology. Keshe Foundation is a scientific organization. We recorded it.

So, as you see, when in these sessions you mature, more and more, and understand. Then we end up with where the next step for the whole of Universe, it's not only humanity.

Any other question?

Q: .. Hi, Mr. Keshe. Thanks for having me. My name is Yue. I'm originally from Taiwan. And I'm currently stationed in the UK.
K- The two brothers, who came?
Q: Yes, yes. Normally I sit in the background to ask questions. (2:04). But this time is a bit different. Because I wasn't sure how I can phrase my question in under 200 characters. So yeah, so my…
K- Are you the younger brother or the older brother?
Q: I'm the younger one.
K- The younger one, ok.

Q: So, the first one is more, not so much of a question, but of a statement. I want to know if my line of thinking is, you know, in on the right path, and if my understanding is correct. So, I attended the 20th session. And since then, I've been trying to look back retrospectively to see what I can learn from it. And is it correct through the logic, to say that the session in a way, was a learning lesson for us to show the importance of the Soul and the STP when it comes to traveling? So, is my Soul and STP is in unison, and if the Soul was in touch of the Creator, which will then I'll be able to have the ability to access the Creation. I would. If there's a need due to the environment, because my STP is in touch with the Soul, I will be able to access whatever I need. And then that in return will be able to feed and nourish the physicality. So, in that way, I will be, I will survive in every dimension. And yeah, to be able to survive in every dimension. And I guess another way to look at it is, (2:06). by not abandoning the STP. I guess, in a way provide another way to enjoy the Creation. Not just traveling with the Soul, but also the STP, which is part of the Soul.

K- Let me explain something to the Knowledge Seekers about my impression when I met you and your brother. And I think you know, when I spoke about it after I met you. These two brothers are amazing. Very gentle, very humble, even though they're all educated,

and they're in masters, and PhDs or whatever universities in England. The knowledge and the positions it has brought them humbleness. When I met the two brothers, the behavior, in the short term I met them, brought back a lot of memories. It's amazing how you feel. The system changed when they came into the room. The behavior, the environment of the two systems, as two brothers, more or less like very much unison's, changed in the system. And it's a pleasure to see this kind of what I call, Souls. (2:08).

In the interaction with the system in the testing of the 20th. The essence was for you to get to know your Soul and how to be able to communicate, how to be able to exchange. Exchange of communication comes, you are by STP, you are looking after me as a Soul inside. Now, I want to look after you, with you inside.

We see it in the graphs which we have just shown, one of the graphs, where the STP and the STM exchange, they become equal and one hands over to the other. And this is done by man, remote outside the hall, even the continent of Europe. And the whole of the 20th exercise was that. For you to start learning how with trust, with the understanding, that you can be in charge, or I can be in charge. We are they're both loving each other to protect each other, like the way you two brothers came in. This is the actual the work of the 20th session.

In a way, we heard from many people, the experiences they had on the 20th. How they felt, (2:10). how they interacted with the Soul of the Prophets. It was easy for us, and there was a reason that we chose the 3 Prophets. Because I could not tell you to get in touch, or meet with the Soul of the mother of another guy in China, or the father of the guy in Canada.

But the whole process of the 20th was, how you can come in interaction with your own STP, you call it your Spirit, and then in trust, let you go, to be looking after it. It's just, I'm not trusting you, or can you do in the dimension. People will see you, and they don't believe me, you know, that you can come out like a schizophrenic.

But we entrusted you with interaction of your Soul with the STP to extend. And then we entrusted all of you to one point of reference, which all know, which was Moses, or Christ, or Muhammad.

This was the whole purpose of the teaching, or the process of last session on the 20th. To understand the expansion, and then it was .. "oh, I expanded." But now you're out, go and see someone, that he can interact with, that he can confirm you have gone. Many of you did that. Many of you have felt Christ, or Muhammad, but you didn't feel the other one. I was talking to one of the Knowledge Seekers yesterday, he makes me laugh. I love the guy so much. He said, what's wrong with me? I cannot go anywhere, but my brother has been everywhere in the 20th session. (2:12). I went through the system, he came to Linz, but he can't go anywhere.

I explained to him that, you are to attached, you are too physical. Your Spirit, his holding tight control over the Soul. His the only guy we let loose in Linz, for two or three days.

He went in as many sessions as he likes. He went in session till I think, 10 - 11 o'clock with another Knowledge Seekers in the center. But he said, I cannot get my Soul out. But he doesn't understand his Soul is already out. Why do you want to be out with it, when you're trying to force it in?

This was the whole purpose of the 20th. To show you, you can trust it. And he came back and we finished the session, Has anyone of you lost your Soul? Or have you become better men? We had a session yesterday. It was funny. But I read it to you. We're going to a test without the Knowledge Seeker who is going through it. Because we communicate in the background with what you call it, with our team. It was a very funny situation. Because even the Knowledge Seeker who was going through the trial does not understand it, but we know what we are doing in the background.

It was at about 17:12 yesterday, because we see everything and I said, we lost him. We literally lost the Soul. He's not answering. Because we are in touch with his Soul for certain like two minutes, three minutes. (2:14) And then, oh, he is back, because I can see him. And it's a communication in yesterday afternoon in the transportation and transmutation. You always go back, you cannot be lost.

I'm in Linz. Our team is in the laboratory, and our transmutation guy is, but we can't tell him that we lost him, because if he panics he won't do it next time. Between, in two minutes, actually 90 – 60 seconds, or so, we lost contact with the Soul. And it's in writing. It's like you know, it says, NASA, we have a problem. We don't have a problem, because we are assured that the STP is back in his position, it will come back into it. We see it. He doesn't see it, but we see it where it's deviation.

The communication is very simple. And it is very interesting, if you look at the communication we do, and we watch, and we monitor, and we see, we know exactly where we lost (him). This is what sits with us. (2:16). What to you is a word, but to us is part of the work. We literally, I try to share with you that you understand what goes on. This is, you know, an extract in the communication of yesterday. 17:12, silent, we lost him, he's not answering. And then we see him back. This is a real trial this.

This is real travel of the Soul, extending beyond. But he on the other side is not aware of what we see, because we can't tell him. But we see it on the graph. You see the double tick on top, that tick on top, that's what it is. So, when we speak about these things, it's what is in technology, in physical dimension. .. (2:18).

So, the 20th was for you Knowledge Seekers to have a trust, all of you to meet with one, or two, or three, and then come back. You can never be lost in the space. I explained this before, if you understood the position, it's very simple. Nowadays they give you a cable to go out of the space lab. Now they give you a space suit to go out, if you walk on the Moon, with all the oxygen and everything you need the time you are there.

Now if you understand what we've done on the 20th, even if you go with the dimension of the physicality, get on the UFO and you go on the surface of the Moon, you cannot land

on it, go on the surface of the water, planet, whatever, you cannot land on it. No, you don't want to land on it. What do you do? Do you go “Beam me up Scotty”? Or now that you learned the process of the transmutation, extension of your Soul to the STP, then you interact with the Soul, and the soul of the dimension of physicality, called the Inertia of the planet, you decide how you will manifest yourself.

You will be a stone, but rolling on the surface of the Moon. But you still have life, you decide. Or you will appear with 20 legs and 5, god knows, lungs, because you need more energy. Or would you make the surface of your skin so shiny, that absorbs all the dimensions from the what we call, environment, but you decide to be in the shape of the man. (2:20). Two legs, two arms, this is how I want to manifest myself. But I don't need the lungs inside. Because my skin absorbs, I'm in the shower. Knowledge Seekers have to learn this a lot, and the 20th was that purpose.

On the 19th of February, we show you which stream of that shower you want to connect with. One of the holes in the head of that shower is a carrot taste. And the other hole on the other side is the love of the Creator. Which one you're more hungry for? How do you want to feed your Soul, with a carrot, or with the love of the Creator?

And these experience in these sessions are that process, it’s a training session. And you’ve been through it on the 20th. To see, can I expand my Soul to meet my physicality, the STP? Would I feel it? Would I emotionally understand it? And then go to the next step, extend it. But this time, I'm only going because we came together to camp. We all came to enjoy the same trip, we are on the same bus, we go to the same tour, we're here to see Moses, or we see Jesus, we see the Soul of Muhammad, that was the purpose. Out to see, but all the time he came back to the Soul, you always had that connection with the physicality.

Any other question?

Q: I've got a question, (2:22). if that's okay.
K- In this place we always allowed two question, Jalal started it.

Q: So, my second question is about the future of the human race. So, if our Universe, you know, and I think of it as a giant plasma, (will) our Universe, then change position with respect to other universes as a result of this technology. So, you know, within the big giant plasma, if all the souls through this technology sort of got close, free teaching of the Soul got closer to the Creator. Will the strengthening of the field of that plasma affect the positions of the overall Unicose? And if so, how would that entail?

K- In a way, not really. But in a way, yes. If you're connected and understand the Soul of the Creation and the Creator, sometimes the macro can affect the micro, and sometime the micro has that pull to affect the macro. .. It'll come in the future teaching when more and more knowledgeable our Knowledge Seekers become. On the 19th, or on the 20th of January, you went to the extent of extending to be in touch with the Soul of the Prophets.

And through giving to the Soul, or what we call it, the Soul of theirs, (2:24). to their STP or the Spirit, to change that course.

It's very interesting, if you observe what I have observed. In past 7 - 14 days, it's amazing. A lot of you are not aware of what's going on in the background. We did, and I said, as I said, it works. Knowledge Seekers 20th job did the job. But we have to see what's the next one. And I'll explain this to you very soon.

If you managed to extend to the Soul of the Prophet, which is within the structure of this planet, why, and do you think you can limit the expansion of your Soul to embrace your physicality? Or share with the dimension of the Soul of the Prophet to enlighten his Spirit. Because it's the way he contacts, interacts with others who follow him? What stops you to expand this beyond the Earth, that you encapsulate the Soul of the Totality to elevate? What stops you to extend this beyond the Solar System, beyond the Galaxy, and beyond the Universe? What experiences will you have?

Is the elasticity of your Soul in the dimension of field strength strong enough to embrace the Unicose? (2:26). Or when it passes the Universe, it creates a new dimension and position, or our Universe, as you say, to find a new dimension and position its own Unicose? Because now you introduced a new strength, so it has to be a new position.

The outer fields dictates the position, not the inner fields. Inner fields create their own Inertia. So, does the Soul of one man, one entity can change the course of the Universe in the Unicose? If you have enough energy, yes.

Q: So, in a way, the effects from within is unlimited? Is it because…

K- There is no limitation. There is no limitation. The limitation is only in the brain of the man. That's all. Limitation of your own understanding of your own Creation.

Thank you very much. It was a pleasure to meet you two brothers, and you brought a lot of good memories. I used to be the same with my brother. It was nice to see as one, and your politeness, and what I call, humbleness, (his name). It was nice to meet you two brothers.
Q: Thank you. (2:28). It was my pleasure to meeting you and the members of the Keshe Foundation.

K- Thank you very much. Something which might have passed you. You listened as a news. But I look at it in a different way. And it was very interesting when you look at it in a different way. We had the meeting on the 20th with all of you Knowledge Seekers elevating the Soul of the, those who you believe in the path of. And I always said, give it 14 days. As I always told you, what we see in Ukraine is a position of the inside Catholic Church, towards the Church of Russia fighting with each other, who was stronger.

We saw now the extension of, and how it's changed of. And we have to sit and watch the reaction of what happened last Saturday, Sunday morning. We were warned of the

catastrophic interaction, if the state of Israel attacks Iran. The Israelis tested it last Saturday. By remote drones they attacked the military base in Iran, and some other places.

The Israelis out of their stupidity thought, they pull Iran into a war, and then they get what they want. (2:30). Seven days passed, we see silence. It doesn't mean nothing. But this is again, the war of religions. But what you put in on the 20th brought the new dimension. In a way, what the Israelis wished, that they pull Iran into a massive war, up to now has kept its silence. A bluff, which did not work. Otherwise, today we would have had different stories.

Now you see the effect of the elevation of what you did on the 20th. I promise if that session would not have taken place, we would have seen a massive war in Middle East today. After the massive attack by the Israelis, they tested it. We were aware, we were waiting for such a test. It wasn't something unknown. But in a way it showed the weakness in the structure of the defense of Israel.

We will see for sure a counter attack in a very short time, but conclusive enough to bring the two states of Iran, the Islamic world, and the Jewish world facing to each other for peace. As the new defense minister of Israel said, we had to do the first attack. But that was the most stupid thing you did, sir. (2:32). You should have sent the message of peace. But as was the wish of your Prophet, it had to be done this way.

I am meeting with Iranian officials tomorrow. And my message, to the Iranian government is, take the path of wisdom, and go by our way, and become the tool of peace. But with the strength of knowing that we talk, not because you bombed us out of nowhere, but we can bomb you to smithereens to nowhere.

It’s a position of the religions war, because it's coming to an end. We've seen the new administration in Tel Aviv, with the most disgruntled man, as a prime minister, who doesn't like to speak to Keshe Foundation and Mr. Keshe, because he knows that he's chosen the path to the end of its structure. And that end has to come through his Prophet, not through his subjects.

And what you did on the 20th, you actually stopped a cycle, which we will not see. As we see, I hope, I hope, that knowing, understanding what sits within the structure of the military power of Iran, a mayhem in Palestine. (2:34). What we saw was waiting to provoke, to show. And that provocation has come, but the show is a different show.

My Soul goes to the Iranian leaders, to elevate them to choose a different path than what they're planning. But we'll see the conflict of two religions, as I told you. It will not be any more matter condition of Vietnam ideologists, but it will be matter end of the religions. Christians killing each other in Ukraine, the Jews and the Muslims in Middle East. For what reason?

But if you would have not done what you did on the 20th the story would have been different today, seven days later. The war of religions has started, but this time it will come to an end. Because you, as Souls of the Knowledge Seekers have brought a different condition. We'll see. We'll be here for weeks and we watch what will this scenario will bring. And how will end, how will bring to a point. (2:36).

As a Knowledge Seekers, as a Keshe Foundation, we have put both hands out to the State of Israel and Iran to protect, and we have offered full security to Iranian government on a direct call with the government. In case of any nuclear accident Iran Keshe Foundation has put all the facilities to deliver to Iran, unconditionally. The same as we did with Ukraine through AEIA. In my communication with Iranian leadership through the officials, they know every tool is available. if attacks take on any Iranian nuclear site. The same is available to the State of Israel. A citizen of a nation should not pay for the stupidity of their leaders.

Any other question?

Q: Good morning Mr. Keshe. Can you hear me?
K- Good morning. Are you on the way to Mexico? Or are you still in Mexico?
Q: No. I'm in New York still. It's 5:40 in the morning. I leave later. ..
K- God help the Mexicans, Azar is going there.

Q: Mr. Keshe, you kind of touched on what I was going to ask when you talk about Iran and Israel. My question is, when we go do these sessions, that we did on the 16th and 20th. Is it changing a Soul relationship to our physical soul? (2:38). Our relationship in totality, both physical soul and Soul to the environment, to people around us, to the Cosmos, to everything? I feel like, you know, if you go to, you know, like, go to a Persian house, you see the curtain, they have the three layers of curtain, the thicker one, the lighter and then lighter. I feel like you're standing in a room like that. And suddenly you remove the big thick curtain, and then remove the next one big, and next one, and then you see so much clarity. At the same time, you become more, you have no desire. Like, you know, when the Sun comes out in the morning and shines, and then at night it goes in, you just become like that. You just get up in the morning and then you go through life.

And the funny thing is, you have no desire. But for example, if you say, oh, I want to have an apple. Suddenly an apple shows up. Recently, I give an example, I'm sitting in my office and I said, like yesterday it happened. After a couple of times I thought different, going places, people showing up, talking about, thinking about the person that you want to talk to. Suddenly the person calls. And then I'm looking at it, is this stuff happening coincidentally, or suddenly as if things that you desire it shows up? Yesterday in my office, I looked at the schedule. And I see the hygiene side is completely blocked, booked except five o'clock. And I said, oh, we just need one patient for five o'clock, then we're complete. Then five minutes later, as I was saying it, somebody calls and I say, okay, the funder says, we have an opening for five, would you like to take it. (2:40). And then it's booked. Then I'm looking at that and said, what's going on here? Or for example

if I go to a place that I want to have, like three afternoon I haven't ate lunch, and I wish they have my favorite food they have, usually they finish soon. When I go there is only one left.

And then I was thinking, what's going on here. Like you asked for something and it shows up. It's for me fascinating, like the relationship with people changes, people respond in a way that as if they accommodate you for what you want to do. It's something, so much clarity is happening. (silence) So is this supposed to happen, the whole relationship changes?

K- In a way, it's the "Soul of Understanding." What it means? It means your Soul creates that interaction, which brings that position or action. If your what I call, position is real, and then it's good for what you need for your Soul, STP, or P, will take shape. And this is important that we understand this. (2:42).

This is what is, what you call, you wanted a fish and it was the last fish. What about if you wanted something else? Was one guy there before who wanted the fish, but the Soul said, no somebody else has booked it through the Soul, leave it behind. And then you call it a coincidence?

Q: But Mr. Keshe, was the system when we go through the session, was the system interaction with us, that create that kind of interaction that changes?

K- No. We create the environment for you to test yourself. The whole purpose of these sessions is for you to learn what you forgotten. To relearn. The purpose of these sessions is like, you know, you've been walking everywhere and doing everything, and then you have an accident. Then you go not using let's say, your leg, or arm, or whatever, or you go to a coma. And then when you come back or you get the possibility of functionality they say, you try to retrain yourself to walk. You have to teach yourself to walk again. It's that process.

Man through the Soul knows, he does it every night, every day when you're asleep, you call it, a dream. Now you're going through the processing of the teaching your STP, (2:44). that I'm retraining you. I go out for a while and I come back home. I'm home all the time, you leave me, you shout, I'm back. And we saw it in those graphs.

Q: Mr. Keshe also is a feeling of, like for example, everything has a soul. But then you kind of feel them more. Like for example, even when I look at like a door. Last night I was stuck behind my apartment door I forgot my key. But then suddenly the door as if invited me to go pass through it. And it was as if there's a communication going on, but then and it was just like, as if the door, something is opening up and you can go through it. But I was hesitant. And I was pausing a little bit and I said, is a communication going on… because then …

K- Let me explain to you something. It's your fear of physicality. That's what I said to the other Knowledge Seekers. It's your fear of physicality. You've been through the sessions,

next time, if you get stuck behind the door, see if you can extend your Soul, which is an energy. And if that energy can take you to the other side of the door, come in back to the dimension of physicality.

Q: But Mr. Keshe, I don't have the fear.

K- It's the subconscious fear.

Q: But how can I know, to where it is, to get rid of it?

K- It's not getting rid of it, it's training that I can do. It's like that little boy, put a stone on the brick and tries to breaks it. The first few time, you know, crushes the finger, and hand and cries from the pain, but he carries on until he knows. And one day as a Judo master with one hand, he cracks that brick. The brick is the fear of man.

Q: Mr. Keshe, also like, for example, if you have a cup, say you drink water from everyday. Or a cup, you drink coffee or tea, like suddenly it becomes alive. Like it's your best friend. I mean, you never knew it is your friend. And it's just like, you. And then you can talk to it and communicate with it. But then it's just everything becomes like, everything just like is alive, but we never pay attention to it. Like even if you have a painting, if anything I wonder, it's just fascinating. And suddenly everything. I always look at the cartoon, they made animation of objects, suddenly there's no longer animations, it's actually real.

K- It's trusting in oneself, which is the biggest problem. And that was the purpose of the all situation in the last two months, and in the coming months and weeks of the training and teaching.

Many of you who attend these monthly sessions now, will become the teachers of the future for the next cycle of Knowledge Seekers and humanity. And don't forget, in the past two sessions, in the session to come, you come from every background, nationality, religion and the rest. This was the purpose of these things.

Because if I come as an Iranian and try to teach you something, you ask why. Why is he here? (2:48). Every time we take the knowledge, as was the same when we went to Belgium. Why Belgium? Why here? Oh, there must be something in it. But if you as an Iranian tell the Iranians, there is no. It's not foreigners bringing it in. And that was the whole purpose of the teachings on these processes which we have taken. Without you knowing we have made you the ambassadors of your own culture and nation. Because then there is no mistrust in color, race and religion. And gradually, you as Knowledge Seekers will start delivering these things.

Q: Mr. Keshe, another question I have regarding the microphone. When you go to the session, you said, have the microphone on the right side, not the left side. But what's the purpose of it? And how do you manage that? Because I couldn't do it.

K- Have you bought these headphones? Some of the headphones you buy, inside it has written L and R, right and left ear. So, when we tell you your microphone, and look where is the microphone connected. It's usually to the right side. Our system is set on the right hemisphere, and that has the ?? left hemisphere of the brain of the man. You have to follow the instruction, because otherwise we give instruction, you become a schizophrenic. We tell you to put it on the right emotion, because let's say, the feeling of hunger comes on the left hemisphere in such a point, and you put your headphone back to front. Now goes to the right side of the hemisphere. Sorry this is the place where I make love with. You understand? (2:50).

Q: You weren't talking about the microphone on the phone, you were talking about the headset. Because I did…
K- The headset has a microphone.
Q: Because I made my phone upside down.
K- We're very correct with this.
Q: So Mr. Keshe, I made my phone upside down. So the microphone on the phone itself is on the right side.

K- .. There's a reason for it. Because our system is set that way. Some of our Knowledge Seekers have even tested it, we can decide if we interact with your left or right. Knowingly or unknowingly. If you go back in the picture of the room, we have 3 seats on the left, three seats on the right. We have a unit on the left, we have a unit on the right. We have a left hemisphere and right hemisphere in our system. It's not coincidental.

When you come in, now you saw it on the graph. The physicality, the STP and the STM, yeah? When we started these tests, from the beginning, when you came in tens and hundreds, you sat in the STP, the P and the STM chair. Nothing has changed.

If you understand the principle of the work of the brain. You call it Twinity, in the world of science. We say every star has a counter star, (2:52). for it's balance. So is the brain of the man. And the difference in the energy between the two of them creates the current for the existence of the brain. The brain doesn't bring its energy from somewhere else, in interacting with itself. It absorbs energy from its environment, those blood cells goes through it, it absorbs energy from the blood cells, which go through it, but not in it. And the difference between the two creates the working of it. Yin and Yang. One side is Yang, one side is Yin. And collectively together they make that brain. And in that interaction, they create the current and they create emotions.

So it's important when we tell you to put on the right, to be on the right. Because we are sending information for you to love each other.(If) you are back to front, you're putting the information on the other side, where it says, hate each other. I came in but I felt so drained, I came in it was so… And the other one says, oh, it was the most fantastic session. Because we all receive the same. The left and right, we emphasize on, has a reason. And that reason is your own brain. You created it that way, we just following for you to receive the right information.

Q: .. When Jesus said, when you tell the mountain to move and it moves. Now we can understand it. Because the Soul has that power, because it's God himself. So when you command. Actually it's instantaneous. (2:54).

K- Stop there Afar. He said, make a mountain move, yeah. The mountain wasn't the mountain you think about, the mountain was the ignorance of man. We just created that mountain for himself, to understand the Creation and the Creator. You're still physical.

Q: But Mr. Keshe, when I talk about the command means, because when you're born here, whatever you want is available to you. But only thing is, you wanting that it is not, how can I say, it's not really important. Like, whatever you want is here. Just ask for it.

K- It's desire.

Q: Yeah, but the desire most people have for example, I can sit here… People sit in their home. And for example, I was talking to this guy, he's an Uber driver, and he's from Tajikistan. And I was actually, my mind was blowing up from pain, because the way he was talking. He said, he is suffering, he is 25 years old. And I said, why are you suffering. He said, my parents are suffering. I said, why your parents are suffering? He said, I call my mom and she says the neighbor, they had for example, bought, say a chair or something. So the neighbor has this, they don't have it. So she's upset and she's suffering. And I was thinking, why people are suffering for things it doesn't matter, because do you have a chair your neighbor has? I mean, if the thing that you wishing for, you suffering for, so this is really miserable life. Because this is not a desire of a person who wants to live on this planet. The planet everything is given to us. I mean, look at the planet. It's just people suffering for things really doesn't matter, (2:56). because the neighbor has a car, I have to have a car, or neighbor has this, I have to have that, or that my family has this…

K- Okay, so I'll put it this, the other way. Now, we hear from the Knowledge Seekers who were there in the 16th and the 20th session that, how come the others managed to see the light, or they say they've seen the essence of the Soul of the Christ, or Muhammad or whatever, and I can't do it? What's wrong? Why can't I have it? We still have the same situation, it doesn't matter. You change it to a chair, or to something else.

Q: Thank you Mr. Keshe.

K- I'm just reading something, which I don't know if I can share it or not. But it's just sent to me by the doctor who is in charge of the two brothers, and it's touching. It shows knowledge of the Creation super passes any physical dimension. It doesn't matter if you have a chair, (2:58). or you have managed to see the Moses Soul, or whatever. It is interesting to see, one craves for a chair, and one craves that he enjoys the extension of the motion in the movement of a small thing, for a child you love so much.

What do we value in life? The mother has written. The mother explained to you with the permission from the doctors who are monitoring it. This is a message in writing from the

mother. It says, I cannot even put into words what all this is doing to me. I thought I knew how energy feels. And now I am confronted with goose bumps, deluxe, everyday. Because it all feels like a big miracle and a huge gift from God. This is what make me think, one is happy, to have a child back to normality, and one is still worried about the chair of the next door neighbor. (3:00). What a hypocrisy is the life of man.

Any other question?

Q: .. By trying to learn about the interaction of souls I have noticed that we always collect some essence from others, and usually the soul collect something it needs in that placement to develop something. Some souls share love. And this creates a connection between them due to the humility of understanding the happiness of just being there next to each other. Other souls collect it and use it for control, to hold power for themselves, or for a certain group, and to feel the force of being greater usually in the physicality, or the emotion of others. When this happens, is it a soul's lack of understanding of physicality? Or is it just a conscious stealing habit of that soul?

K- It's a combination of both. (3:02). As we say, ignorance is a bliss. When you're ignorant, you're not aware of it, you're still ?? bliss because you do it your way. And even this is the wrong way, you end up in the ditch. Or when you know, you try to avoid the ditch, you hauled in a bigger ditch, because you thought you missed the big ditch, which the big one behind it. It's how we decide, and how we go, and how we change it.

As I said, this year is the year when the man meets the Universal Community. But in reality, if you understand it, in a very small way, at the beginning, we bring the Universe to man. To see what is missing behind. In a way, we bring you a taster. And see what you decide, what you test. It's a combination of the two, but depends on your knowledge, understanding about the condition and the position. Nothing else. Then it's up to every individual and their own understanding.

Any other question? We're nearly three hours into the session.

For those of you who got around the Foundation, we try to deliver all these new systems into the March session, before March session. You will find out the sessions will be very, very different. In what I call, (3:04). One Planet, One Nation One Race, that you will feel different way of connecting. We allow you to connect first with your mobile phones the way you're used to. And those who bought the Combination Unit, we switch to you. Where you only will communicate through the new technologies. And with that, we create that expansion, those who are understanding. We, as I said, our team will try to deliver as much as possible in the second quarter.

Then you will see the monthly sessions will be a totally different meeting and it will be right across all of you, across the planet. As I said to the Keshe Foundation, it comes on the basis of first order, first served, that we built up the structure. You will see, you will understand a different way of life. In a way, you will feel, you will understand what it

means the realm of the Creation and the Creator. Because you don't hear through your ears, but you feel it through your emotion.

It'll be very interesting to see how when we separate two sides of physicality and what we call, plasmatic life, how you will react, and how much you will be enlightened. How much knowledge you gained in one. And after sessions, (3:06). how much of it would you bring back in the dimension of physicality?

As I said, where the Knowledge Seeker asked, please, please do not switch or give your Head Unit to anybody else. I'm very, very specific. The reasons we'll explain in the future. It's like when we told you, don't share your Pain Pen. Do not share your Head Units with no one else, don't allow it to be used, not even for you want to put on your head (Do not let somebody try on your Head Unit) . It's important to understand this.

The combination of the knowledge on both dimensions of physicality and Universe gradually will become part of your life. Maybe Azar doesn't understands how to go through that door without actually opening the door. Maybe you understand how you go through a planet without actually touching the planet. Maybe you understand how to tell the girl you love how much you love her by the essence of the Soul, and not by the word of the mouth. Then you see the reaction. And then we'll see how we change the position.

As I said to a Knowledge Seeker, if you don't see and you have not bought it from the Keshe Foundation, what we have, what we developed, and anybody else offers you, it's fake. (3:08). Because we've seen a lot of people trying, especially we've seen in Romania, they come up now. Nobody was anywhere, now they got this dick of the cosmic rays and features Iran. A lot of what I call, BS has going running around, especially in Romania. But people believe in it, so they go with it. Unless it comes and you bought it directly from the Keshe Foundation. And nobody can match to what it is. It doesn't matter if they opened it. They do not know what else we have hidden in there. It's like when you buy a fake medicine. And believe it, secondhand will be no good, because it already is carrying somebody else's Souls in it.

So, we try to bring you in the direction and dimension to understand. You've got to realize, the process has and will carry on. It will not stop. And the process has to be continuous, on the peace process. Whatever you learn, has to used to bring peace. And those who've done wrong to you, or wrong to create condition, will come to themselves.

When you get these units, learn one thing, always ask. Always ask through the Soul, always ask. Because if you're given by asking, you have not stolen, because you are given. If you take without asking you have stolen. Even if you want to make love to your partner. Ask can I make love to you. Because I don't make love to you physically, I give you, (3:10). make it available for you to take what you want from me, which is love of me. Then you see the position changes. Can I love you? Because if it's yes, it will be received. And the other one which is ignorance says, why do you need to ask me to love me? Because I respect you. Because you will be at the strength of receiving my love.

Otherwise I’m watering the pavement, and the doors, and not watering the flower I love to ??.

Always ask, now we go through the system. Thy shall not steal. Because when you ask and you're given, you have not stolen.

Q: Mr. Keshe, can I say something?

K- You always say something.

Q: Okay? You see, imagine you're not a good cook. You don’t know how to cook. You go to a restaurant, and then you go to the kitchen and take the chef, and tie it to the chair, and put a hip on his mouth or her mouth. And you start working in the kitchen trying to make yourself a meal.

K- You watch too many movies Azar.

Q: No, no. This just came to my mind. So this is the way I look at it, because this is what I feel was happening to me. So what you do, you do you try to cook everything by yourself but you cannot, you’re not a cook, you mess it up constantly. And you say, why I cannot eat, why is this, why is that. But then if you just untie the chef and let him talk and you sit at the table, (3:12). the chef is going to make your meal. That's what happens with the physical soul and the Soul, because the Soul is the chef and the physical soul is that person wants to eat, because you don't allow the Soul brings you what you want. Because you just want to do things yourself that you don't know how to do it, and you mess it up. That's what came to my mind.

K- You see, when you work in the dimension of Soul you cannot mess it up. Impossibility. Even if you think it's messed up, that's the reason, it will be perfect when you eat it.

It's a very strange thing when you talk about the kitchen. If any of you have been through the culture and the state of Austria you will notice it when you go to a restaurant. I’ve eaten around the world, maybe traveled 80 - 90 countries around the world in my lifetime, in this cycle. And I have never known a nation which saturates their plates, it doesn't matter from the soup, to the chicken, or whatever, with salt. And in some restaurants it's so strong that you refuse to eat. But to the Austrian it’s normal. I've never known a place like Austria in consumption of salt. Usually they say, nations by the sea use salt, because of the ocean and the rest of it. By a landlocked nation using so much salt. But the beauty of it is, it is not to my taste. But I look at the table next to me, Austrians eating, (3:14). and muddling their mouths, the most delicious food they ever eat. Do I go and change a chef in the kitchen? Or do I come to understand it’s another culture and respect it?

Even if you go to the Chinese they have the same ?? use . Because if they don't put enough salt the Austrians won't go to it. When you go outside Austria and eat outside, you say, oh my God, I understand.

And it was a pleasure we had, when I told you recently, we went in with our team in understanding the process of the exchange of the Soul. What do we understand? Is it too ?? much ?? or is part of what we are missing in the knowledge, in the strength. We don't need to tie up the chef, we have to understand what that restaurant was built for.

If you lived in England in the past years ago, when the Chinese came to become well known and popular, they still used to go out with the English people will come to the Chinese restaurant and the ask for a fish and chips. Excuse me, this is Chinese. But the good thing is, the Chinese have learned. They get English people who only want fish and chips when they go to a Chinese restaurant, because the others, have come to eat Chinese, they want to be with them. So, it's you who has to understand. And it's only for you.

Are there any questions? (3:16).

Q: .. Did Jesus Christ feed on physical food on Earth? And if so, does this mean he killed other lives?

K- In the dimension of the Messengers of the Creator, they had to live amongst man, and be and look the same. Otherwise that would have been a stranger. And they always followed the same. Does not mean that they killed to live. But they lived to be part of, that they don't. Christ became outsider anyway, most of his life. He did everything outside the framework. One day I tell you stories about Christ that is not known by man. The things he did. It's the same with Moses. That's how we brought the balance of the what we call, Commandments. We've been amongst man, we've been with them, we've been part of them. And these are not ??, sometimes gives you indication to one check. There are markers left behind.

The Prophets, not to be out. They had to live amongst man to do the same. Many, many times. (3:18). Many, many times this happens to all the Messengers and teachers. As Azar said, you're a cook in the cooking school teaching the students, ?? but one of them makes ?? a mistake, everybody gets sick. But the teacher knows if he criticizes bad, the guy will move out, he won't have a student. So, the teacher swallows the food which is cooked, and it's uneatable. "It's always nice." And it's the same.

Many times I say, why don't I stop? I know how. But if I do, then it becomes another magician. I've said many times, I'm ashamed to be in the body of the man. Not ashamed to be .., the shame is that I have to eat what is killed. I have to consume what is wrong, just to be amongst man, and nothing else.

So, it is not that they can't. But you can imagine what they would have done to Christ, he would have become a hermit. Nobody would be with him. Buddha had worse condition. If you know the true story of Buddha.

And the best of Messengers was Zoroaster. He lived in the culture where everybody understood and lived the same culture. He lived the most perfect life. (3:20). He brought the temples with the fire. He said, keep the fire going. And the man looked at the fire as wood to burn, to keep the fire going, and it's still going on for thousands of years in the temples. What we call, "?? malads." But in reality his word was to keep the light of the Creator, keep your Soul in interaction with the light, with the Soul of the Creator. That the light from it will give you, will keep you, what I call, alive, shows you the path. And the man again in dimension of physicality chose to keep a fire going and worship it in the temples.

He spoke about the fire of interaction of the STM with the Soul of Creator, and the man took it as a burning of a wood. We used to have a joke when I used to be in high school in Tehran if you ?? look that up, because we were Zoroastrians. And sometimes we used to tease our colleagues, because they had a fire in the temple, just on the side of the wall. And the students used to pull a joke, because we couldn't speak about religions, .. it was forbidden by the rules of the school. They used to match up a match and they blow it. They says, oh, your God disappeared. We used to laugh. It was a joke. And the Zoroastrians started understanding what it meant. In the beginning it was very offensive. And they used to do it themselves. They said, you see, we are the light you blow us. You're left with the wood, but we still carry the energy. And it was a beautiful relationship with the Zoroastrians. (3:22).

That's what is the essence of life. The Prophets can take, they could, they had the ability to take from the energy of the Universe. But you can imagine what would have done to Moses, and what would have done to Jesus. One would have become claiming to be the Creator himself and the rest of the murders he did. The other one would have been the most beautiful womanizer ever known in the Universe. With the light of the Creator he would have shined like a star. It depends how they decided.

Any other question?

Q: .. Can a man love more than one woman?

K- Muhammad said, ?? 4 full time and 40 part time. Christ never indicated. And Moses brought the other way around, you love as you like. It depends on what you call, if you look at the dimension of physicality, or you look at the dimension of the Soul.

We love many women. Woman as a wife, woman as a daughter, woman as a mother and a woman as a sister. (3:24). Which love is more important? And which love at what point gives you more pleasure? But woman as sharing life, is best to be one. Because then you have your love, you give and take from the same.

Any other question?

Q: .. How is it programmed for a Soul to be born or manifest here on planet Earth? Who decides if we will be born, when and in which family? Is there a department in the Universe responsible for all this?

K- Oh my God. Nobody is responsible. Creation is a combination of the accidents, and some accidents set to be at a given point in time, point and position. There's no department, sorry. It's not human job, we don't keep your registry. The Creation of life on this planet is so random. That's one of it's beauty. (3:26). Randomness, and how we love that randomness creates very good, the ?? bedrock of variation for the world of Creation.

In the future teachings, when Knowledge Seekers become more confident in what they see, in how they do things, I will teach you the emotion through the Soul, not through the physicality. How you love in the dimension of the Soul. How you give in the dimension of the Soul. There is no hate existing in the dimension of the Soul. How you exist in the dimension of the Soul, and then you compare it to the what you call it, physical dimension of the man. Then you understand more and more, now much of it was manmade and how much was actually in ?? existence of the Creation. And it becomes very easy.

Then you understand the question of the one before. There is one Soul for one, even though it interacts with others, to be one of the same strength and the same position. But with the diversity of the what I call, energy consumption of the man on this planet, you create a variety of emotions, which is man connected, not the Creator connected.

When you see, the structure of this planet has many, many variations of different materials and the rest. (3:28). When you look at the monocycle stars you see one light, and that's the ultimate goal of life.

Any other question?

Q: .. Is MaGrav plasmatic energy to be utilized in the future for our energy requirements, will electricity become obsolete in the future?

K- Electricity is obsolete. If you KS understood the principle of the working of the MaGravs.

Even the Power Enhancement Unit we have put out, which is going out in the coming days, it's the same. You still, if you learn in this power source for thousands of kilometers from it. But the man is happy what comes up with a tiny cable. All our technology is based on the fields, and the fields have no limitation. It's the man's understanding which puts limitation on it.

In the new Enhancement Units you see, are very strange things. But in fact, it's understanding of the process of the Creation. (3:30). People who are running tests on them, you will hear it, we will go out very soon in the next few days or a couple of weeks.

We're not putting it out. But just to let you know, because we had discussed this. Some of you bought MaGrav systems originally from the Keshe Foundation. And you said that it doesn't work. It came in only from Italy base, or from our factory in Arizona. The new Enhancement Units, which will be released next few days. If you have the original MaGrav System, which you say it doesn't work, and you send it back to us, we deduct the amount you paid. You say it doesn't work, from the new Enhancement Units. But with the new Enhancement Units we give, Foundation gives a guaranteed reduction between 30 and 60% plus. Unless you cheat. Because we test every unit before its dispatch.

You'll find out what we put out, where we are involved with it, is exactly the way it works. The reason most of your MaGrav systems didn't work, in the original ones from Italy. We found out later on, you were, partially could be correct, is that we employed a man, which had no understanding of the technology. He made the coils and piled them up like a heap on top of each other, damaging everything. By the time we found out what happened it was too late. But some of you got the results, because it depends what, whatever. (3:32).

But this time with anything we put out we test before, we do, and I have asked that for every single unit has to be tested. Some people have asked. There's no refund. We deduct that 500 Euros, you paid and we give you a guarantee with the new system, because I sat on it, I know exactly what goes on in the new Enhancement Unit. But this time, don't look at the reduction in the power electric bill.

In the future, we tell you how to use this for many, many options, that you cannot even imagine. We give you additional units, which in conjunction with this, will give you a new dimensions in life. As I said, don't buy a copy (pirate). Because you say, it doesn't work, ?? Keshe Foundation. Because we put a technology very much hidden in that work. Even our workers who make it they don't understand what it is.

We brought the prices from 5,000 to 3,000 to make sure that we push to the next step from these units to what we want to do. Anything we put out from now on in plasma technology has a reason, has a connection to the future usage, it's not just what you see as it is. It's the same within you, we put a package for Head Units and the Power Unit.

And the beauty of it is, (3:34). this time, whatever you take from Keshe Foundation, you subscribe to Keshe Foundation on a yearly basis. We gave you the systems, you ran and everything else. We give a system, you stay in touch with us. And we keep developing on your understanding and what is there. It's not a dead end anymore. You don't get the unit directly from the Keshe Foundation, throw it in the bin. If you receive from us, there is much more into the unit and technologies we put in 2023 out. As I said to a Knowledge Seeker, don't come back to me and say, I bought the system, somebody made a copy of it, and I'm doubling my electricity bill, my wife is ill more, and the rest of it.

That's yours. That's why I told you from the beginning, when I get in it, and it's done, we give what we say, now we are in it. And we delivered. We left it to a bunch of, what I

call, others, we taught a lot of you for ?? feel the energy, now we deliver the technology. But it's all connected, it's all connected.

In the coming time, slowly in 2023, you'll see new products. You don't buy directly from the Keshe Foundation Store, do not touch it. Because this time, these are systems which are set to interact with what is coming in the future. (3:36). And don't forget, there was a reason we put out the policies for what was there and you've seen it. For family, for individuals, and for the rest of it. It's all get connected to all these systems which we are putting out. We set to change the course of the STM, not in the dimension of physicality, and it's the only way man knows.

Thank you very much for today. We will see you next week. In the next few days, maybe a week or two, we will announce the, what we call, Blueprint to show you the Head Units and the new .. Compact Units, which is connected to them. Then the Plasma Power Units, which are now going through to meet the energy demand of the Europe, especially. Then hopefully by the second quarter, now that we have produced Plasma Power Energy we will release the Gas Electric Unit. Because a lot of you cannot convert from one to another, there are no gases in your house, it's all electric, ?? .. totally gas based. So we try to meet all demands on one unit. These units are in a working condition. Then we, what you call it, developing at its maximum capability. And then as usual, (3:38). the nation of Iran will supply the part where ?? out of you. Thank you very much for today, and I hope we can share more knowledge next time.

470 KSW February 2 2023

Symbol life in U "Tree of Life" Leaves above interact with roots below - 2 entities - STM STP - Twinity; Feed from Soul; Does same Soul arrive; Souls GPS - tiny copy of Soul sent ahead "seed"; Decide where Soul goes at death; Plant STM across U; Soul can create new STP destination; Go both ways STM to P and back; Head & compact Unit together - Soul communication - travel - feeding; Aftermath Corona Ca energy transfer teeth disappear; Satellite Souls; Omega 3 chicken soup; "M" graph proof of transmutation details; U in 90 seconds; Chose to be victim Fibromyalgia; Power beyond Prophets can end cycle; Nuclear radiation 90 degrees not absorb - CR; Source of enlightenment; Creator makes copies of himself.

ENGLISH TRANSCRIPTION

(:10).
K- Yes, good morning to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers of the Keshe Foundation Spaceship Institute. We welcome you back. And we hope. We share more knowledge, as we've done in the past weeks, in what we set up in recent weeks speaking about Cosmic and Cosmic Rays (CR), and then seeding and becoming the source of the radiation of the fields of the Creation of this cycle of life, or them themselves coming from the essence of the source of the Creator, becoming another seed with the love and care to grow.

In a past few weeks, as we went to understanding the Cosmic Ray, understanding how the seed of life is. The Intro (video) brings us exactly to what the knowledge sharing of today will be. We talked about the seed. We talked about plasma energy essence. What happens to the Soul of the Man (STM)? And how the Soul will move on? Where does it come to? How will it expand? How life is created? And as always said, when you have something you don't understand in macro, you go to micro, and where you don't understand something on the other side, you look to the other side, to see the similarity. (:12). To understand what you cannot see, or is too big for you to understand, you bring it to a smaller size, to become comprehendible. How I comprehend, and how this comprehension lead us to evolution of science within us.

We understand a lot of things, but we can never explain to the others, and then we use it in our own way. And maybe we teach it to our children, or some friends. And then the knowledge dies. Because the knowledge was not shared totally. The today's communication world has changed a lot of things, we get access to a lot. We hear the voice, we call it television, we see the vision of it. But the cycle of communication has come to the man, has come into operation. Where we don't rely on the manmade systems of development and understanding. Now we make system to understand the way the Creator talks.

We are developing technologies to understand the way the Creation talks, communicates, we call it a dream, we call it, I had a vision, we call it, I heard a voice, the voice of my Soul. The voice of my Soul in communication with the others. There cannot be a voice if there is not another point. There cannot be life without another.

In the life of Creation. In the life of the process of existence. We have created many words for the same process. We have a son, and our son has a twin. We call it twin souls. But in fact, how does this "twinity" comes? Where does it start? (:14). Where do we see the separation? How life creates itself in the space? Once, as we said you took that onion (Tulip seed) from Amsterdam and you took it and you seeded it. What happened to the wheat? When we grow we put a seed in, and it grows. Where is its identity? Where does it go? And how do we follow it? What do we understand? What have been missed in the world of Macro, or in the world of Micro?

In the world of Creation we take a seed, we planted on the planet Earth positions and then we go further. What do we do with it? We water it. We look after it. We bring it to the point of working by itself, and we leave it. How, where does it get energy from? We take a seed, we plant it on the Earth, and in a way, we just water it. What does it do?

Some of it all we noticed, according to the man's life, has been very much like this. If you're observant, we see some leaves and some trunks. And when we uproot it, we see roots. But in 5 years, in 10 years down the line, what we miss, is we don't see the seed anymore. The seed is gone. But what we see is, in fact, the life of Totality.

What happened to this? It's in fact, we don't see the seed anymore. (:16). We don't see where it came from. We brought the seed from totally different position, and we planted it. This is how life of the man in the Space is. We bring the seed, the STM from Earth, which it finds its position by field strength of itself, and becomes in a point of Creation. Somewhere in the Space of the Universe, or Unicose, it finds a place where it's strength dictates it, preset it, to be a position for it to grow. You put a seed in the ground in autumn, but you don't see anything till it comes to spring, when the temperature is right, when everything else for it is available, that it grows. So is the Soul of the man.

The STM created, finding his position, sits and waits till the right condition, the right fields of the Universe reaches it. To you, you don't have the patience for half an hour, or 10 minutes. But your Soul sits for millions of years, giving and taking from its environment, till it's time for it to nourish. And then what do we see? We don't see your Soul on its own to become a star. It has a process. It has the same characteristics as what you see with the planet. Why the Vertical People are the same as the STM in the space? Maybe you understand today? He receives fields from the Universe, it becomes the roots. And in that part, in that essence, in that time, it starts growing, it starts showing the sign.

But again, you have two levels. (:18). What happens to you? What happens and what goes on is very interesting. Then there is a point of separation. In a way, we do not see anymore, the seed anymore. We don't find its essence. But what do we see? Fields with the interaction within the world of the Creation, that lead to Creation of one set, giving some, taking some, a new life. Two new lives in two different directions. Exactly what we saw with the seed. But in the world of the Creation, the Vertical People will still see this little stem, this trunk of a tree.

In the world of Creation, we find, we see the connection in the dimension (D) of the magnetic (M) fields. In the world of Creation, you call it, "Twinity." But all started from that seed. There is no difference in the world of Creation to be a Vertical, or to be a STM in the space. Needs that balance, needs a source to absorb and give some, and needs a source to give and absorb some. And we'll see the life.

This brings us to one of the most fundamental things, we have referred to many times and Knowledge Seekers (KS) are blind to. (:20). What happened to you, when you get that magnet? You've been told that the fields coming from the south pole, and the fields will go through the north pole. But is this true? A magnet has no choice in where its fields

connect to. To what it "twins" it, as we chose the condition of the ?? ?? it's not on the magnet. But in essence, in both ways, that of field receives, as much as it gives.

A tree, when you plant it, that apple is the fruit of the tree. It's the same with the world of Creation of the STM. That apple is your children. The fruit of life, in the cycle of life of the STM.

Now you understand. If man is to conquer the space, if man is there to conquer the Universe. By conquering means have the ability to feel it. Has the ability to go to it and enjoy the beauty of the Creation. Man has to understand this points. (:22). Otherwise, you're again that seed. You're again that space of fields, which has no what we call, target. Has no destiny. You create that destiny. If the creation of that destiny, that destination of where you want to be, is so real to you, that you can detach from the rest of the fields of the Universe, you will achieve that. You come there.

If you understood what's on the screen, you understand the process of the travel of the man in the Universe (U) in the coming time. You do not need the systems which we produce. These are just the tools for you to show the capability, the beauty of your existence. You do not know what your Soul possesses. It has all the knowledge, but the fear of physicality (P) brings man to that point.

What do you understand from this? How can you evolve from this point of knowledge to the next, that makes man the traveler of the Universe without containment, without UFOs, without aircrafts. Then when we brought you, for example, into the 20th of January Session, and now we bring you back into the 19th of February Session. What can you do with it? (:24). You look to come into the 19th meeting, to eat something, to get food. You are again physical.

The purpose of the 19th meeting is to show you how you feed from your own Soul. How you use the fruit of your Soul to create that seed for being somewhere. It's not for you, that you don't eat any more fruits, or vegetables, or meat. You again look at it in the dimension of the physicality. But our work our knowledge sharing is how to feed your Soul in the space. How to move that seed. How to bring it to the position of maturity of understanding.

Yesterday in our flight test with our volunteers. We always tell you. You've been to the Center in Linz, and you have been on 2 or 3 excursions as a group with me. I left it to the KS. We usually tell you, now it's time to go, try to move, come to Linz, do this and that. Yesterday, flight test was as simple as what you see on the table (screen). We prepared the environment for you. You tried to get to Linz from United States. To see it's like a test. To see, you talked so much. What is the maturity? What answers do you get? Will you see the pitfalls, what you need to do?

When you're lost in the space, or somewhere on the Moon, I cannot send you a system to get into, that I can transmute you. You already carry the system inside. All I need is to show you come here. This is where the light is. It's like Earth. (:26). Our system is like

that lighthouse, just shines to show you where the coast is, where you can home into. It's that beacon. And then when you learn to travel in the space without that beacon, then you understand how it should be. Don't take to give, to be able to understand the position, to gain position in the favor of others to be served, and not you.

So when we teach you about the space travel in the coming time, just look at something else. Now you are on the Moon, and you want to come to Earth. "Sorry, this ?? disaster in Turkey this week, my condolences to all the Turkish, ?? Syrians, and the Kurdish who loose life and they are in trouble. With it, what do you do, you're stranded on Moon, because your beacon in Turkey was destroyed by the earthquake? You're abandoned. Or you have gained the knowledge from the Soul of the seed, and seed of the Soul. What do you do? How to transmute yourself?

You will have come to a black spot. There is no line of communication, but you want to get out of it. You lost your beacon. You don't know where to go? How do you travel? How do you grow? How do you bring yourself back home? How do you go from United States to Linz? This is all the purposes of what we call, these sessions of monthly. Growing you. (:28). Letting you grow month by month to come to it. Where do you send that seed for it to flourish, and then you can yourself, show yourself in it, with it?

There is a very big question which will come into the philosophy of the travel in the space through the STM. The Soul you left on Earth to reach the Moon? Is it the same Soul? Or does it have the attributes of the Soul which left Earth? Is it that seed that you plant and then it grows to give you a fruit? Is the fruit the seed, or in the process of the travel has absorbed, given and taken, and arrives as a new soul on Earth? There is no control.

But how do you get it to Earth? How do you envisage to be somewhere where you've never been before? You leave New York to be in a specific street in London. You cannot end up on a street in Paris. You have no job there to do. You made an appointment with your brother to meet him on Oxford Street in London. How do you find him? Nowadays you have a GPS. What is the GPS of your Soul. You've never been to London, (:30). how do you bring yourself to the point, to go to different points of the Universe, which you have never been before, but you know exist. How do you send that seed, the way we saw, to the position to be there?

Can you're predetermine the position of your Soul prior to departure from your physicality at the point of death. Or you bought and you'll be planted somewhere, god knows where. Can you decide your Soul to be the seed of a galaxy. Can you deside your Soul to be the seed of a star. Or can you decide your Soul to be the seed for another Unicose, part of the Universe?

So, how do you do? How do you travel from Moon to Earth? How do you get from New York to London, standing next to your brother? There are no aircrafts and there are no landing strips across Oxford Street in London. And if you come with too much energy, there are the other Souls and physicality's, that you can damage. How do you find that

little space gap, that you can fit in next to your brother? Now you understand how much more knowledge is to be shared in coming weeks and months.

Yesterday with our Knowledge Seeker I just said, we prepared everything for you, the landing ground, the facilities in Linz, in our backup in the lab, everything else. We gave you three landing spaces, which we usually don't give you, (:32). you have one system to come in. Everything was prepared. If you don't land there, we have two landing strips on standby. Did the Knowledge Seeker manage to get? Or they did not process, learn, where, how he has to guide himself to land on the main strip and not the two auxiliary points.

It's like a father showing how to behave in society. And then you take the child into a supermarket and let it loose, and you stand behind to see how the child behaves. Would he come back to you, or would it go, and explore, and do whatever he likes and come back in a good shape? This is what we started to do. The first child has been let loose for it to learn. Because we have prepared everything. How do you go there? How do you get yourself from New York into Oxford Street?

I gave you your brother, you have a seed of love in common, the essence of Creation. The desire to be again together. You're on Moon, then you have the desire to be on Earth. You're Turkish, you want to be at the point of the disaster, because your mother, your brother, and your loved ones are in the area, to see the physical. As you know the Soul is there in perfection. (:34).

How do you transmute yourself from the Moon to Earth? How do you bring that point of life? How do you dream about your mother in the sleep? Do you see her waking up, I'm here? Does she come and nudge you, come on, I want to talk? Or do you just envisage the mother and the beauty of sharing time with her. You send that little ambassador to see if the fields of connections are there. And if the common grounds of the fields you have with the mother is there, we talk.

Have you ever asked yourself, why do we envisage the mother, the hair, the eyes, the face, the anger, the joy, the touch? "I made man in the image of myself." If man in his brain has the dimension strength to feel, to touch, the smell, the joy, the cry, the shout, so should be the same in the plasma of the STM. Man has not come to understand the emotion of the Soul. (:36). Then, do you need the dimension of the physicality to feel it? Or is the brain of the Man an enigma, a machine, that we have to build the same to be able to decode the plasma communication in the physical dimension, that we know this is the mother, and this is the breakfast, and this is the touch and the smell of the mother?

But the strangest thing for you to ask, because you never ask in your dream, does the Soul of the mother, the smells, and touch and the feel, of you? Does she have an understanding of a sense of love you give her? Or does she feel all that in the strength of the field of the STM, as she has no physical dimension? Now you understand, the knowledge to be shared is much deeper. But man is not ready to understand. Man has accepted the physicality than in the dimension of understanding the STM.

By the question comes, how do we get the guy from New York on Oxford Street standing next to the brother? How do we get a man on the Moon, back? Or does he get himself back? It goes back to the story of, "the last man standing." As a Soul, you're the last man standing. And it's you who has to find to stand anywhere, which he decides. (:38). "I want to go, but I don't really want to go. I have a fear if I come back, if I can come back."

We give the tools. We make the tools for you to start testing, and gaining confidence and building a process, that it suits you, where you want to be, how you want to be. Without the fear that, I can lose the dimension of physicality. What I carry and how I carry it, what makes the essence of my creation, that it creates its own, what you call, frequency, that, this is my frequency, this is my strength. This is what you call, my bandwidth of the field strength of my Soul.

Today in the world of the man, we give location. We used to give villages, and people come to the village and ask, do you know where such a person lives? They tell you somewhere, that's the house. We became more sophisticated, we numbered the houses. Then we made what we call, a zip (code) for it. In the new modern life cycle of man, we have GPS locations, altitude, "blah, blah, blah, blah," that you end up within a few centimeter from a given spot. (:40). And sometimes the machine makes a mistake and drops you in the middle of the river by mistake. But most of the time you end up in a position where it's predestined (predetermined).

How do you find the GPS of your plasma of your Soul? And how do you know the GPS on Oxford Street, in the dimension of strength of the Soul? If man limits itself only to travel on Earth, now that he has learned about the Soul, its capability to allow it to move? Why have we come here for? To keep the Soul educated in the village of the Earth? Or for man to excursion, taking time to see, to take the knowledge to rest of the Universe, to teach the same. To plant that seed. This time is the seed of Knowledge of the Universe, and not the seed of the STM. To grow, to share, to expand the Universe and the Unicose.

When I finished with the session last night, I said, goodbye, how did you feel? How many of you on the 19th will be able to use that fruit, that food of the Universe to travel the first time the span of Universe? Those of you who come in on the 19th, be prepared for one of one of the most amazing trips, routes of your life. (:42). It'll be taught and it's for you to expand it. We give you that room to jump on the trampoline of the Universe, but we put a net around it, that you don't fall off the trampoline, you are still with us. Those of you who come in for the 19th, you will feel one of the most amazing sensations that the whole Universe has been waiting for. Not to tap in to dine with the Creator, to tap in to be able to have food to dine with. Don't go empty handed on your own to the table.

Many of you will start sharing that knowledge within the Soul structure, that gives you that “Twinity”, that point that you have a reference. In a way we are creating a position for many of you to gain confidence, that you receive the food of the knowledge, and not the food not to go hunger in the dimension of the man. The knowledge of the travel in the space, the knowledge of the confidence to be able to feed your Soul in the space. But still create the dimension of existence anywhere in the Universe.

The process, the understanding, the seed to be, is what man has not understood up to now. The seed, the Soul which was planted on the ground to grow, or in the Universe as your Soul, is when you have no choice, you have left the physicality, you have no dimension of physicality. But what about when you have that dimension of physicality, (:44). you have a backpack you have to carry, it's called the STP of the man to give his dimension of physicality. At the point of death, you have discarded the backpack, because you think you've got enough that you can make your own backpack when you arrive at the point and destination.

And you have had no say up to now where are you going to go? The Creator decides the position of my Soul. The Creator decides the fields of the Universe where the balance will be for me in the time of life. Now if you understand the knowledge in the coming time, you decide where that seed will be. You choose the home for it, and not accidents and coincidences of the Universe magnetic fields. You will decide when you leave that backpack behind, and not 60 or 80 years, or a car accident on the road.

The whole purpose of the teaching in past few weeks has been, when we speak about the Soul, we speak about the Cosmic Ray, is how to get your Soul on the line of the Cosmic Rays to be able to reach to another point to start that seed. Now you understand why I've been saying so many times, suicide is forbidden. As with man's knowledge, you can decide when to release that pack, as you have already predestined (predetermined) the position of it to come. (:46). As you've taken everything out of the backpack, which you need to survive to start a new life, new condition to create the new fruits of life in the Universe.

When you die in the physicality, your body doesn't disappear, it becomes nourishment and food for the next cycle. What happens when you go into space? It's the same. The collapse, the death of stars and galaxies, is that point that you had in the dimension of physicality. The energies they release become the food, essence of energy for the Soul of those who are waiting for it to come as nourishment for them to grow. So, the cycle of life never finishes in the Universe.

We're just in another process and dimension. But the structure, the system is the same. Be it the seed planted in the soil of the Earth, or the seed as a STM in the Universe for the next generation of the tree of life. You cannot have a tree, if you don't have a root. The tree doesn't exist, if there are no leaves and branches. Both have to exist, the "Twinity." In the world of the Creation, we always see the tree and its roots. (:48). The STM and the Soul of Physicality (STP). And the same dimension within the world of the Creation.

The tools, the systems, the machinery we are developing and extending is for you to be able to test drive your Soul. And gain enough confidence that you can become a solo driver on your own, and, what we call, Cosmic Rays of the Universe without crashing into anyone. The process of the knowledge, the process of understanding the whole structure becomes the next step for us to teach you. In a way to show what needs to be done.

Many of you came to Linz, we sat your Soul on the system and we created the condition of the fields that allowed your Soul to expand, to pass beyond the dimension of your physicality. And we got you out of your brain. Now, this has become your new dimension. Now that you're free, you connect, you become a fish. You connect, you go to another planet. And if we tell you, can you go to the Moon, you tell us you've been to the Moon. In the teaching of the 20th of January, we showed you how to carry out this expansion. (:50). But we had to give you a carrot to feel it, and that carrot was your Prophets. That you could feel in the interaction the light of interaction with them. So if you saw a light, if you felt the dimension of it, that the same day, the day after, or the week after. Now you learned how to expand.

On the 19th we teach you how to take that seed, and feed it from the love of man and the field of the Universe. Because this is important. This seed you send out, as you think you're there to eat, but in fact, you're there to create a connection how to eat, how to get in touch with the fields of the Universe that it can feed you. This become the point of man to go from the Moon to Earth. You send a trickle of where the love of the brother is, then it becomes your GPS. Now you understand. Now you should be able to comprehend what is to come.

Our system in Linz is that little twinkle. Why do you think we asked you to come from all four corners of the Universe, planet to be here? We saw people from Canada, we saw people from Africa, we saw people from China, we saw people from Europe, different races and cultures to bring that center point. (:52). As I said, we had people, passengers of the Universe with us. And now, that is that point of reference for all. America continents, from Australia come to Linz. From anywhere culture, religion, which you have a point of belief, which is part of your Soul, which you deposited with us brings you here.

But one thing you forgot, the ones who brought, they travel back to different places. Now, you have access to all. Those who are the Passengers of the Universe with us, they traveled back. We opened the passage to the man into the Universe. Because in their travels, they have passages to others, and others. So on the 20th you actually became the traveler of the Universe. On the 16th of December we opened the first line, because we let you go all the way from man, to your Prophets, to the Creator, which in essence of Totality, the Unicose. That's why I said, on the 16th of December, man became part of the Universal Community. Not all 160 plus people on the line were the citizens of this planet. They’re like you, they're trying to find a way home. (:54). But they forgot the way to do it, and how to do it. And it's the same for all of you.

The systems we are developing is not for you to come from America to Linz, or to go from New York to Oxford Street in London. It is for you to learn how to send the seed of your Soul with the guarantee of understanding, nothing will happen, and I'll be there. And the beauty of it is, that you can send these seeds to thousands of places at the same time.

As time does not exist, till you decide the existence of time. Your time with your brother does not start till you actually arrive at the time, the point and the destination. Would you tell your brother, if you see a fly on your shoulder it's me, if you see a frog on the street that's me, or I'll appear in my own essence of how you remember me in the physical dimension to point of your vision. Your brother sees you as a brother, the guy standing next to you sees you as a fly. And the others don't even observe you, because you have no field strength in the dimension of the interaction.

Have you ever played the game with your children? Where you jump up and down and you say, I'm here. And they say, "mama I'm here," and (you) say, "I can't see you." I'm here, but I can't see you, I can't see you. Where are you? And the child is hanging to your trousers, I'm here Papa. (:56). Then you say, "oh there you are." In essence, man has reached the point of understanding to travel with the dimension of energies of the, what we call, magnetic fields of the Universe, as we call, Cosmic Rays, than in a car, a plane, or a donkey. And the beauty of it is, for many of you in the coming time, is how you appear on the other side.

When you travel from New York to London, you change your clothes to fit. It was nice and warm in New York, London is cold. You get the jacket, you get the jumper. How would you appear in London in the dimension of the Soul? Where do you change? Where do you get your jumper and jacket from? Or does your brother sees you in the dimension of physicality, or in dimension of physicality you frock yourself to what it suits? Would you take your fur coat with nothing on? But where do you get that fur coat? Or do you create the vision, the, what we call, "mirage" of a fur coat, and nothing underneath? Very much as the British say, "fur coat and no knickers (underwear). (:58). In essence inside that fair coat is the STM, and how do you carry it in the dimension of physicality?

You thought the knowledge seeking has finished, you haven't even stepped on the first step of the Knowledge of the Creation. We're just trying to show you what the first step could be if you learn to walk. Now you understand where the teaching goes. Now you understand the process of Creation. Now you understand how you should travel.

Now you understand when you travel without the backpack of the physicality of the man, where your destination is. To become that seed in the cycle of the life of the Universe to create a "Twinity" of life, that one takes and one gives and in that process you receive balanced energies, that guarantees the existence.

Those of you who join me on the 19th be prepared to truly dine with the Creator. And I hope we don't get those Knowledge Seekers, "I felt nothing." Because in the dimension of physicality, you feel nothing, but in dimension of Soul you get educated to be ready to become the traveler of the Universe. Remember, on the 16th of December, how much noise was going on in the background? How many people were coughing, moving chairs and talking, and ?? singing, and the mosque was saying the "hassan", and everything else. (1:00). Did that stop you as a whole to become one to reach the Soul of the Creator? No. So, what you carry in the dimension of physicality, a doctor, a professor, a layman, wearing a fur coats, in your bikini, does not count because the Soul leaves everything

behind. The journey on the 19th will be one of the most amazing opening eyes for the next step, which we'll bring in March.

In March we create the fundamental basis to meet the world leaders one by one, and bring that essence of the spring, that beginning of the change for humanity, irrespective of color, race, and religion. If you do not know how to ?? seed that plant, learning how to do it on the 19th and the 20th, how do you want to do it to seed, the seed of peace in the Soul of the world leaders to create that process? How do you create that apple of peace, that the world leaders take a bite at it.

This is part of the structure. We create the facilities in the background. We create the mechanism through Linz and our other laboratories to create a position that you can meet reference point on Oxford Street, where you're going to have a party. (1:02). Reference in Linz, we are going to have a party of the Souls, who come together to sow the seed, the knowledge, the fruit of peace for the start of the cycle in March.

Sit with the world leader's Soul, and see that what you learn you give without condition, in February. And start the process of world peace. Now it's you who has to learn to bring that change, and not for us. We brought everything on the table of party to enjoy, to start the process. And its for you as humans to start that seeding. It's not with us anymore, you run the party. You decide where it goes. Make a peaceful man out of the Soul of your leaders to create that condition of world peace.

Some of you tested it with your prophets, and you saw the lights. Some of you tested with yourselves and you felt nothing, because the Soul was much stronger in attachment to the physicality. Now you have to try. Now we start the process. Now we bring you that condition. We are here to nourish the STM, and create facilities and systems for it to be. We are here to bring the conditions and systems for man to learn how to communicate through the STM, than the voice and the vision of the man. (1:04). You've got used to telephones and televisions.

Now we create the systems that you learn to communicate through the Soul. And then you don't need us, because you will perfect that hearing and vision through your Soul. But you have to understand, with the explanation of last week, this week and before, how your fields go, how do I want to be.

Go back to the teaching, understanding. Why did we teach you about Nano materials? Why did we teach you about the Gans's? Why did we teach you about Soul? Why did we teach you about Cosmic Rays? You became a Cosmic Ray. You want to establish to start the seed of life, physicality, anywhere in the Universe.

Did you understand why you made Nano materials? Did you understand that you have to go a step down into the plasma of the Gans's to become a Nano, from it to become a matter, to create dimension of physicality? Now we can see the circle complete. It wasn't all going up. Why do we go to the Soul, the mayhem we had? Why did you started this

plasma Gans technology? And now why have you started the Soul? And now why has he started the Cosmic Rays?

Now, go back the other side of the cycle, at least in this cycle. Because still after that Cosmic Ray and traveling the space, there's more knowledge of the travel which man is not aware of. In time we teach. You're blind to it. But it's part of your life. (1:06).

When I get to Moon, how do I manifest myself? In the knowledge, in the essence of the knowledge you carry, in understanding in the dimension of physicality, you have to create within you a "twin" Soul, you call it, a Spirit. And then in the interaction of it to allow it to expand to create that plasma you call, the seed of the man converted, that it stands on his own as a Nano structure. And then within Nano structure, understanding interaction with its environment to convert itself to physicality.

Now you have learned, or at least you might understand the two ways traffic, with two roundabouts and either end. Which way do you want to turn? You go from the world of physicality into the world of the Soul and the energy, and come back to the world of physicality. A "Twinity" on its own. The same as the tree and its roots, and its leaves. The same as the STM creating a new dimension in the Universe. Now you have the knowledge to access both ways. To go from physicality to the Soul in the dimension of Universe, and travel yourself in a "mini" Soul in the new position and create a condition of physicality. Where if you gain enough confidence, you can exist in both dimensions, at the same time. The way you do today, your Soul is within you, and your physicality surround it. (1:08).

Now you learn to expand your Soul beyond it, with the physicality within it. The "Twinity" never stops, unless you decide. That decision does not come in the dimension of the STM alone. In the dimension of physicality you die, you commit suicide. In the dimension of the Soul, you cannot do this. You make your Soul what you gathered available to the rest of the Universe to take. They take your knowledge and everything else, and then you still become part of the Totality, but you never die.

Now you understand. And all these facilities we are making, all these communication, new systems we are developing and teaching you to use, is actually to teach you this. Where you started in dimension of physicality, and we brought you to the Soul. We used the Cosmic Rays to show you, you can go both ways.

I made man in the image of myself, as I am the man in the image of the Creator. As I created myself, as I lead to the creation of myself.

Now, we understand. We see a bigger picture, but we don't see all the picture. As I said before, the knowledge of the Universe up to now, what we have taught you, (1:10). all these achievements of the man in dimension of matter, if you look at this whiteboard it's not even that dot. There is so much more to learn in the Knowledge of Creation. And if that dot is the totality of knowledge of the whole humanity in past millions of years brought you to this point, you can imagine you're not even nothing compared to the

Totality. Not in the dimension of physicality, but in the dimension of the Creation. The Knowledge of Creation.

I hope I opened your eyes into what is to come. And I hope you understand how we are leading you to the world peace through your own actions, as the leaders and not those we think, we see in the world of physical dimension lead us. Now you understand what we are heading for. Those of you Knowledge Seekers who have been with us, and you traveled in this dimension, are those, if you understand, collectively will see the seed of the ??, in the Soul of the world leaders of today, in the coming time.

In a way collectively, you bring that essence of knowledge of the teaching of the Keshe Foundation, creation of world peace, not by talk. But now in the dimension of fields of the Universe by seeding it, by planting it, and nourishing it within the Soul of the world leaders of today. (1:12). But that we have to teach you how it's done too, the way we explain how you can come from the Moon to Earth.

It was interesting to observe and watch how our Knowledge Seeker was trying to get outside and inside systems to Linz. He did not fail. He just learned, he is on his own. He has to make that decision. He has to go through detachment. He did not look at the other tests we've done. Before he stood up, and when it came to the time of the separation to take off, to let go, he feels the separation of the souls. And then he feels the ?? separation from the Earth. But he panics, and he holds on to the handle that he doesn't fall. This time we gave him a chair, that there is no fear of falling. But still needs that confidence, needs that extra knowledge, that if I want to go, I have to leave a seat there for my physicality and the Soul to carry through. But, do I want to see my physicality there, or it's just a visit with the Soul is good enough. I bring the physicality next time, let me gain the confidence.

When you travel to a new space in Universe you don't get there and say, "ops, sorry. I wanted to land on the dry land, I'm in the ocean. I get drowned I didn't know how it is." You send a messenger ahead, you send a little Scott, "I am in the front to see what it is." My Soul tell me what am I going see? Is this where I want to be? Or would I like to test it? (1:14). You have to learn all this and then it comes back to us. Then it comes to the point of how well as what we call, Knowledge Seekers, we know ourselves and nothing else. We go through a break and when we come back. And I hope we can expand more by questioning, by sharing knowledge to share more. Rick if you could take us to a break and then we come back.

<< BREAK >>> 471 KSW February 9, 2023 (1:20).

K- Yes, …
There are a couple of announcements, which maybe (sorry about that I have had a bad cold for a few days). We as we said, to for many of you, we have announced we announced today, that on Monday the 13th of February, Keshe Foundation will have a Blueprint Day. We'll start a session at 10am on Monday from our headquarters Exhibition Center in Linz, (1:22). and we will unravel 2 new technologies. In a way you both are aware of it, of both of them. But we will show the, what we call, commercialization of a new type of what we call, plasma Energy Units. These are not systems that to be. These you will see are commercialized and in the presentation we show a new evolution in power supply. It's new development by the Keshe Foundation and stays within the Keshe Foundation. The units are already manufactured and will be dispatched. As you will see it's not, what we call, showing of a technology, but showing commercialization of technology.

And with it for the first time, on Monday, we will show you the new Compact, what we call, new Communication System. They should be ready by Monday. I was told by our manufacturing side, a large number of this already gone through and are ready to be dispatched and completed in for delivery by the end of February and March. The new plasma unit when you see it, you will understand the change. The new Plasma Power Unit, which is going to be demonstrated on Monday will bring a new what we call, era in plasma Technology.

Don't look at it as what it gives you, a reduction in electricity bill. But these are the new systems, which will follow to create the new communication positions. In a way the units your purchase become part of the new communication and travel system. (1:24). You're buying the first kit out of the structure of the kits to come, that when you put it together sold different parts, or adds different part of the technology together.

It's not just a energy unit, it is part of what will become, with additional units, which we'll supply in a short time, the feeding stations. It will become the source for all sorts of things that you want to call it, "Home Kits." You know, that emergency kit you have with a red box, with a white cross on it. In a way, will become the next processing of not needing to exist through the dimension of all the things, which are around us. We have gone into mass production with these, it's not that we're going to deliver. You will see in the presentation a large number of them will be on display, that it means it's gone into mass production. And it'll be delivered in the step by step the two new systems.

The following Monday, on the 20th, we will show another Blueprint Day, hopefully, with two new systems. One of them is a revolutionary, total evolution in the science. And it will change the world of electronics, will change the world of energy and communication. Very simple, very effective ways. But, our team are working together. If we get everything on time, in place, on the 20th or 27th, we'll run a second Blueprint Day. We'll show you again new plasma technology and evolution in one of them. And the other one is the beginning of the start of showing new structure in Keshe Foundation production. (1:26).

Join us on the 13th at 10 o'clock. You will see what is to come, what is there to come. For the purpose of the what we call, new technology, which now is coming as a plasma technology, which Keshe Foundation is breaking through, we have opened, and it will be operational hopefully by Monday, what is known as "Universal Plasma Energy" channel on YouTube. We're going into what we call, world population, as people can see, and people can understand how the next step will be. In a way a separate channel for this has been established, it's on the process of being completed by the Keshe Foundation team in the background. That is not anymore on the Keshe Foundation channel. But it will go as a plasma technology, new plasma technology for the world to see.

This brings us a new dimension in our work. As more short videos to show the new energy systems. You will see live on the what we call, on Monday, direct .. reduction. It's not that we made the MaGrav systems you do. These are the systems in a way, the new technology, new systems we put out you will see it cannot be done by man anymore. You need… ordinary man on the street, I should call. You need electricians to fit these systems into your (electrical) system (of your house). And you will see the change of it, you will see the reduction in it. As I say, we are going technical, and this allows us to what we call, economically commercialize new systems.

It's not anymore, just plug and play. (1:28). You have to be careful how you plug it, how you play it. That it brings you a new dimension. We have seen 60 - 80% reduction, but it has to be done correctly. And it takes time. But you see immediately 30 - 40 - 50% reduction ??. What we plan to do, as we did before with "129 Tesla," we plan to leave the stations open on Zoom. Which you can come at any time and look. Maybe we do it still on the following Monday, following presentation of the Blueprint. But this all depends how much noise, background noise we have and everything else. Or we just switch the noise off and leave you on the camera. Then you can see it live.

We try to meet all the deliveries as they coming through. Those of you bought different systems from the Keshe Foundation. There'll be options to take this and it's there now. And many of you bought other options, you see this is much better, "I want to do."

I have opened a channel for the Knowledge Seekers who bought the original Power Units, about 60 - 70 of them stayed with us all this time. Get in touch back with the Keshe Foundation and we make an offer with the new system. You stayed there for a long time for it to be delivered. This is actually something, which now I put my name onto it, and we get it delivered. And it's in production, it's not something to be coming, as we own the show.

We're getting a lot of inquiries about the "Knee Gans." It is what it says, and what is. It's a trial we try to run to understand. You've got to understand, all the trials we did and we do has been to understand how you come out of when you're traveling the dimension of the Soul, and dimension of energy. (1:30). What effect these energies will have on your joints, what the effects will have on your heart, what effect will have in your brain, what effect will have on your emotion. These trials which we run is not just for sake of you

getting in there and doing something. We want to know what it does, what has done, and what we're going to get at the end of the system.

We have seen in this evolution with what we've been informed by our doctors using the technology. You remember the two boys (with genetic defects)? Maybe in the next couple of weeks you will see the two boys again. There has been evolution in their development. As I said, we have asked for you to support us with this. And now after two, three months, you will see these boys, the two brothers. It's sensational to see even we can go against the genetic code. As I said to our doctors, we would like to have a genetic test in eight weeks to see if we have managed, through understanding of the plasma, change, bring that change to genetic code. Maybe in another 16 weeks, we bring that genetic code change, or genetic code can stay. But we add another code to it, that overcomes the present code.

Because we see the changes, and these changes cannot come without effectively being able to change the structure of the energy structure of the gene. We have asked the parents to make short videos, children cannot be seen, but their progress. And an explanation of what it is, what has changed. (1:32). To you might not look, but the parents who watch the children going through the process. You know what the end will be in 10 years time, and see the reversal of what was lost 6 - 8 months ago, is gained back again, is a lot.

So, we are not here to do anything else. But to understand what will happen when we put you into plasma transition from New York to London. What conditions will change in you? We are not in the world of medicine. We are in the world of understanding the changes, which the energy gives and takes from you in those few milliseconds, those few seconds from your position of departure to arrival.

How is it to do with your emotion? You're a drug addict, does it change your addiction? Do you receive that satisfaction totality forever, that you don't need to have it in the small bursts with cocaine, and heroin and the rest. We gradually open the plasma technology in true essence. Then we go step by step. We see how this development takes shape, how we'll see the changes. Then we understand the process. Then we see the changes. And then we have to understand how the totality will come. (1:34). Then we go to further deeper understanding of it. So, join us on Monday. Enter with us into a new world and see what we can do. And then we see how the next changes, next steps will come in and who will play and display the totality.

Are there any questions?

R: So, will that be broadcast to Livestream and YouTube as per usual? Or do we do it .. ?
K- Yes, yes, yes.
R: The usual YouTube channel, not the new one or anything.
K- Live stream, yes. We'll have Dean in the background with our team, live showing it. And we'll leave it for you to see as it happens, as it takes shape.

The most important thing to us is not the Power Unit, it's more the, what we call, the new Communication Unit. The new Head Unit with it's what we call, "communication pack." This is where actually will come the changes, the new structure, the new what we call, communication. And how we break this through, down to step by step in the next generation of communications. It'll be interesting in .. what will be very, very interesting, (1:36). when we give you these new what we call, Communication packs. These units that now you can buy it in Keshe Foundation Store is, when you receive it, and for example, you listen to the teaching of today, what does your Soul receive? And what does your ear hear? This will be one of the biggest interesting things.

Do you ?? receive a visual, a different information, the true information which is given to you? Or do you hear the voice? What would the visualization of the graphs on the screen will explain to you in your matter state, physical understanding? And what will come as information to your Soul?

The new units which will come out, which you will see as the Head Unit and is, what I call, it's power pack. It's not for you just to see what is here. It's for you to start learning the existence in both dimensions. What do you hear? What does your Soul see?

In a way what you do today. You live an everyday life, you run around, but your Soul is busy, doesn't sleep, still does its things. You try to cross the road, you suddenly get pulled back on the run, "oh my God, what happened?" Because the Soul was in control of the body, the Soul is still active, it sees you. (1:38). "You're crossing the road, the car is coming, I can see the car." The Soul of the driver has explained to me, has informed me, and I just pull your physicality back. You say, something pulled me back, and the car just ran.

So this now, is a way, is the first step into that the stage. That during the teachings, the knowledge given, understanding of knowledge in the dimension of the Soul and in dimension of physicality. Then you understand what I said from very beginning of the teaching. When we teach, we don't teach for the man alone, but the teaching, the knowledge sharing is for the whole Universe. Then you receive the two at the same time.

The beauty of it will be, if your Internet falls, but your Head Unit still works in the dimension of the Soul. You're still getting the knowledge. Was there a breakdown on the Internet, but the knowledge was gained by the Soul. This is the new dimension we're trying to open.

We are not interested in how much energy you save. The energy is that carrot to bring you into play. The new Communication Packs are amazing. And then you have to find, to tune into it, to match into it, to become to be. Because they are created with love and care. They're created and made to bring this condition to you. Then you will test. Knowledge Seeker in New York has one, (1:40). and the Knowledge Seeker in Sydney. I want to speak to him, I can see him on the Internet, I wonder how he is, who he is. And then you will establish these communication lines amongst each other. Physically you

talk, but what you could not explain in the dimension of the words, will come through dimension of the Soul.

You always looks at the Soul feeds you with food that you don't need to eat. Now the Soul feeds you with knowledge, which comes from other Knowledge Seekers, other points of the reference, where you need it. "Oh, I understood this. Now I found this discovered." You haven't discovered from now on anymore. You tap into the knowledge of the Universe, you become enlightened.

This new units, which is now we put out as a Communication Pack, coming out, you will see for the first time on .. Monday. And those of you know me, I don't usually do things on the 13th. But this time, we broke the rule because this brings that bad luck the man had to live only in the dimension of physicality, and starts a new change. Teaches man how to live.

It'll be interesting, those of you who received this in the first session of the teaching, to tell us in the second session, how was it? What did you understand more? And maybe we run two sessions, one in the dimension of the Soul and one in the dimension of physicality. You attend the first half an hour of the teaching, there is no word. But the screen is on, the teaching is going on. But we teach in those times in the dimension of the Soul. I'm a master in that. (1:42).

I'll get to every one of you in sharing what you need to know, in what is your interest to understand. The real teaching will start then, then where the screen is silence. But Knowledge Seekers are getting saturated with the knowledge of the Creation. The first step is from Tuesday (Monday ??). We'll see where we go, how you develop and how we can develop on the back of it in the coming time.

Any questions?

R: Okay, wordless teachings, wordless teachings. That's an interesting idea. I like that. I'll come in to Zoom for a half hour of silence. It's funny because we rely on Zoom for communication, verbal communication, mostly. And sometimes with images and so on. But it's basically about the words that are going on, sometimes music, but wordless.

K- But you see, as Knowledge Seekers, unknowingly, you've be doing it (having periods of silence). We keep silence for five minutes and you count it. A lot of Universal Council on Tuesday. A lot of this goes on, I've seen it in your teaching. We've done a couple of excursions, we've done before. So, it's not unusual. So, you already been prepared for it without knowing, now you're going to the test of it. (1:44).

Q: .. If one buys the Cosmic Ray Communication bundle without any additional Comprehensive Universal Plasma Coverage as is, is it good for anything? Or is it just a very expensive piece of furniture?

K- No. The Universal Compact Unit should give you the best start. The Energy Plasma Unit is for different purpose. Initially is for the energy, but it has through its dimension of development the ability to go to the next steps, in a different way. And in a very comprehensive manner. Then we explain these as they come, as it's done.

The Compact Units are one of the most important tools Keshe Foundation has ever put out. And it is what it is, and it will deliver what is to be done. We will use this in the future, for the next step. It's like when you buy a console. These are the consoles, which will be attached to other consoles. And then they grow to what is to deliver, what is to come in. You've got to remember, you have to learn how to play with these, you have to learn how to use these. (1:46). One of the most important thing is when you get these, don't put anything down to, "oh, accidentally something happened. Oh, coincidentally, something happened." Refer it back to what you did, to gain confidence.

Accidentally passes your mind, I want to see a friend of mine I used to go to university 30 years ago. And the phone rings, or something appears about him in next day, two days, two weeks. I was thinking about it. It's not anymore, you learn to live in both dimensions. What would I like to see in the dimension of physicality, that the Soul can arrange it. But don't abuse it. Because the other side of it is, the way you will be disappointed with your own misconduct.

In the dimension of physicality of the system, you live the life of man. In the dimension of the system as it's made, you live the life of Mitra. I was talking to a Knowledge Seeker telling me lies, and I could see the truth. I said, what can I tell you? Then a Knowledge Seeker has a knowledge, but he cannot speak it. And you see through the dimension of the Soul. And you encourage the Soul for the words to be spoken. Then the Knowledge Seeker says, "oh, I understood this." But you don't understand sitting in front of me. I'm giving you the knowledge, the freedom for you to speak it. (1:48).

In a way, if I tell you is a voice, but if you talk it, it's enlightenment for you. Many times Knowledge Seekers sat with me, and I talk, I can see the Soul, I can see the knowledge the Soul has gained, but cannot pass it on to physicality. And through the knowledge we have we facilitate it, and they speak it. "Oh, so this is what it is, now I understand." Because now they explain it through themselves. The enlightenment comes within.

This is what I said about in the meeting on the 19th. We, through this knowledge, through this technology, through these meetings, we teach for you to understand what comes from the Soul. Up to now you fed the body. You're waiting for the Soul to feed you, that you don't need to eat. But now the feeding comes as a knowledge, freely, in a different way, in a much more comprehensive. In a much more universal way. Then you understand gradually Knowledge Seekers all become the same. The same in knowledge. Even though the knowledge has been there, the same enlightenment that they all understand, now what's the next step?

As I said to one of our Knowledge Seekers very recently, we will have many of you on the Moon waving hand to NASA, we are here, can you send one up here. The system is

there. We are training the Knowledge Seekers in a very slow way, some Knowledge Seekers are on the fast track. Because they have seen more enlightenment, understand more of the knowledge.

In a way, yesterday was a test day, as I said. We leave you alone. You want to come home, you come. (1:50). Did you change your mind on the way? Was the non-security? Did you understand what you have to do? Last time we put your bait, we put part of your body physicality in the system to show you this is where it is, that's a beacon. Did you understand that?

How many of you on the 19th, in "Dining with the Creator" will come to understand, that you're actually feeding yourself through the Creation of life and love? You're not coming there, "oh, I feel so hungry." It's sharing with the knowledge of Creation. And in between if you'd like some bananas, we can give you some bananas. We'll have a beautiful test time when it comes on, what you call, on the 19th.

Any other question?

Q: .. If one buys the Cosmic Ray Communication bundle, and later on dies, what would the family of that person do with the Cosmic Ray Communication bundle? Since no one, nobody else can use it?

K- If you get in touch… Leave a message, how, with your people, you want to be done with it. And the Keshe Foundation will sort out that part. It can be used, we can do other things with it, to sort out that part. (1:52). These units are, it's like One Soul, One Man. At this moment of time, we have not facilitated for multiple use. In the future, maybe in a year or two, we'll bring that facility in.

Our Knowledge Seekers have to understand the system that they can produce is not just, what you call it, "monkey see, monkey does." When you get these packs. If you remember, when we sent the first MaGrav system out, one of these people who thought, I'm going to show how, whatever. Because we taught it, they cut the MaGrav box and they opened it, and they put it (on Internet). You open these boxes, as many as you can, you will not understand what's in it. This is not anymore, a coil or whatever. There is so much technology hidden in it, Universal technology, that you won't even understand. It's like the when the Belgians opened the systems I built, and they said, it's just nothing in there. Because they never had a clue about Nanotechnology, about the plasma, and Gans technology and change of plasma fields. To you it's just this. Make as many as you like, you cannot achieve, no way, what is inside.

As I said, if you get a unit, and you have not bought it directly from the Keshe Foundation. Don't touch it. Nobody can make copies. A lot of people tried, will try, oh, I made the copy of it. You'll see what happens to you. We've hidden a lot of technologies that you cannot physically see. And this will be launched in that way. (1:54).

You have people you leave behind (if you die), leave the instruction to get in touch with the Keshe Foundation. We'll look after that. It will be replaced one by one, if they want to use it.

Those of you who bought the original MaGrav units for 500 Euro from us, get in touch with the Keshe Foundation. You say it doesn't work, or it didn't give you what you wanted. We'll replace it, we deduct the 500 from it, but we want your unit back. Send the unit back to Keshe Foundation. We won't pay your shipping, we don't pay your taxes, send it back to us. You say you want to replace it, you get the new plasma unit, and you will see your process reduction and the rest of it. But the new plasma units has other applications, which in due course we'll release as it's developed and understood.

Q: .. Okay, another question about the Compact Plasma Enhancement Unit. Does it Nano coat the wires, the walls, and everything in your house just as the MaGrav system was supposed to do? Would it improve the current, and gas, and water consumption, and the health status of those inside the house?

K- I can answer you in two ways. That is, purchase it, use it and see. Or, other way glorify it, "oh, yes, it will do this and that." We let you to report back to us. (1:56). It's very, very simple.

The Compact Unit is not so much for energy reduction. The Compact Unit is the introduction of new communication system. And this is what it stands for. It uses, at this moment of time, electric power. Very soon it will be replaced with the what we call, the gas generators, miniature gas generators inside it, that you don't need any power production. The way now our Enhancement Unit (EU), new Enhancement Units run. The new Enhancement Units through the development of the technology, Gans to energy, we now we will disconnect everything from the system. Runs on its own, slowly builds up to the power. And this is what will be. What do you call it, for those of you who bought it, in the second, third quarter it will be released.

If you came to Linz, we powered partially sections of the Flight Unit with power. Because we could not get the system running on the other side. But now the new systems, the two new systems which are getting completed, they're more or less wireless, we have no connection to outside power to it. We're building it up to a point of running. As I said, on the 20th or 27th, when we go to the second Blueprint Day, we'll show the new technology of the, what we call, plasma transformers.

Where you will see a new evolution in the world of electronics. It will change, what we'll show on 20 – 27. (1:58). Once is grasped and understood by the world of electronics and electrical, will change a lot of things. It will bring a totally new dimension, even into cars like Tesla cars. We will see the end of these huge batteries. It's evolution in the world of science, but the knowledge will shared, from one of the first things I shared with public, the torch.

Now, that knowledge, now our Knowledge Seekers understand the Soul, the concept of the technology, you will see it as a major breakthrough in the world of electronics and electrical systems. You will understand if you are in that world, what it means and what it will create. Things which are impossible in the world of electronics, or electrical system, you will see now it's possible. We will show it physically. The team in the background are working on it and you will see it. It'll be commercialized very rapidly. Because it will bring a new dimension.

We have not developed it, because we developed it for the flight systems. It has been developed for the energy systems and now, it's like the space technology. The spin off was the Teflon. Now the spin off is the new Plasma systems. Many of your electronic, electrical systems will change because of this. Many generators, many power stations work will change because of this. The way I see on what it looks like to be commercialized is, (2:00). governments are planning for another 40% increase in power production in 10 - 20 years time. We don't need to produce any more power station; we don't need any more nuclear power stations to be added to create the risk on it.

By adding these small units in a country, we can replace many, many power generation stations. We will transform the substations and the transformers in them, into a totally different application with a little bit of adjustment. Now, we create one megawatt from one station. We send it to a substation and when divide it back into for you to use. We are putting these units with you, the power station send us 1 megawatt. As a collective usage, we send 4 megawatts back to the power station, back to the substation. Then we produce 5 megawatts. It means 4 more, power stations, which don't need to be produced.

Give me just one second, please ….

Now, you understand the change. These Plasma Power Units, we tell you how to systematically place it, that you will not only, what you call it, still consume the same energy. (2:02). But you can feed back to the power station, equal to what you use. The generator gives you one kilowatt, in the house you use 3 kilowatt, but through using 3 kilowatts, you feed back 3 kilowatts in another channel to the station. Now, the station has 4 kilowatt to share, not one kilowatt, which it gave you.

Then the system when it goes into the structure, if you understand it, is, let the Russians bomb the whole of the power stations of the Ukraine. One station, which could be connected to a power supply generator in France, can supply the whole of Ukraine. Then do we need Earth communication line of transmission? No more. Do we need electrical transfer of energy? No more.

This is what these Compact Units which you receive will have with it. But we cannot explain, we cannot go into the details of it. And in fact, if you think of it, on that part, the beautiful Soul of Tesla did it when he put a power station in Moscow and ran a car in New York. The knowledge is unraveled, but in the hand of every man.

When I explained to you, this Compact Unit is so fundamental. You cannot even imagine what's going to do in the totality of the system. (2:04). For the first time, we release in a physical way what Tesla did a century ago. Still, scientists are baffled how he ran his car in New York. Now it's in your hand on your tabletop, but you won't see it, you don't understand it.

When I explained to you this is a revolution in the world of technology, starts the 13th. I don't do anything, but it's the end of the problem of the past, and a new cycle, a new thing. When something bad happens to you it doesn't stop, it brings a new condition, puts you in another position to take a new direction. And this is what's going to be on Monday.

The best power transmission, the dream of every man, which Tesla brought century ago, it will be on the table. But you won't see it, you don't understand it. Open it, break it, you don't understand, because we have hidden it. One of these Plasma Package Unit, if it known how to be done, can supply the whole city. If you have the right tool on the other end to receive it. Even our Knowledge Seekers who are making it, they haven't got a clue what's in their hand.

With a small addition, a small alteration, you can supply. We have a beautiful American Knowledge Seekers. Her wish was, if I put one thing I bring peace to the other places in the city where she's putting them. (2:06). That will do that if you understand how to use it, how to connect it, and how to facilitate it. It is on the table.

Watch it on Monday, you will see it, but you don't understand it. I'm a beautiful magician. Then you understand, go back into the patent. When we talk about wireless lights, you need something to cover the light, because the light is always on. And the moment you turn off the light, not just to save energy, not to pay extra bills. If you understand how this system work, in the coming time, we give you the other parts of it. You create systems to block the light, because you cannot stop the Creation of. Can you stop the Sun shining? To you it's a night time, because the cover is put on, the other side of the Earth has appeared. But the other side see the Sun. This is what … It's not something I give you new. It's written 20 years ago in patent, it's embedded in them.

Now the technology we have taught enough, we have Knowledge Seekers who understand in two or three different countries. Now it's getting in your hand. You don't need to understand the technology of the mobile phone, but you just press a few numbers and you get to the daughter in the other side of the world.

But the beauty of it is, this time, nobody can copy it. Try your best. If you change yourself to a dog and say, I bought the unit which was supposed to do this, why have I changed to a Soul of a dog? Sorry, you bought a copy from Chinese. But can it convert you back to a man? That's your problem. (2:08). Why do I have this problem and that problem? Talk with you about the copy you bought from China. If we give the copyrighted technology to the Chinese, we put our name on it.

Now you understand the true game of science and technology has started. Those who stole from us in Italy, they will be running for their bread. Because we teach you how to use every system, for what application. Let them copy. And if you buy stolen goods, be careful what you get with it. Because the tools we bring in, is for elevation of the STM, and keeping man and making man a peaceful creation and created thing. Then we see. We don't claim anything, we leave it in your hand? Test it, in a few weeks, in a few months. Then you tell us what happened. What changes came into the house? What happened with your children? What happened with your wife? What happened with your husband? And why all these came from the time I put this unit in the house? Why there's a unit for my son, and an unit for my daughter, and an unit for my wife and the house changes?

We tested these things. There is a Knowledge Seeker. I just want to check, if he is with us, and I tell you. Yes, in the background. That by placing Gans's in a different way we changed the environment of the relationship between the husband and wife. (2:10). A fighting house became a peaceful house. Conflicts, the tensions. Because when we place it, we place it with love and the love of the Creator in the house to create that love of the Creation.

Many of you have these Gans's in your houses in kilos and liters and nothing happens. Because you have not learned how to tap into the energy. To you are Gans's, to me are a source of peace. When I add my love to it, it creates, it gives that love back.

The Knowledge Seekers are here. There are two or three of them who have used this technology in their family. They're in the background, they can come themselves and explain to you what changes it brought them.

The essence of the knowledge is the Soul of the knowledge, not the matter state of the knowledge. And this is where most of you make that mistake. You know this. The child cries, it hurts. You say, let me kiss it better, then a touch of the father, or the mother, or kiss of the father or mother, the pain disappear. It's not that the pain is not there, it's that energy, the love which you gave replaced the pain. It's literally that Pain Pen which we sell you. Your lips, your touch are that Pain Pen. But the injury is still there, the bruise is still there.

And this is what you have not understood about the technology and the Keshe Foundation. (2:12). You buy a Pain Pen, created the touch, the lip of the mother to kiss a pain better and it's not there. And that's what's missing in the knowledge which you carry with all the things you have made. The love, the unconditional giving that you receive from.

Any other question?

Q: Dean .. I'm sorry, I was late in today. Mr. Keshe, I didn't hear the early parts. I missed. My sleep pattern…
K- You got YouTube and you got the Livestream, you listen to it.

Q: I will check it, I will check it out. I was in another dimension. I should have been awake listening. I was actually having a dream, and I was in contact with most of you, it seems and you were speaking quite exclusively. So, Mr. Keshe I didn't hear the earlier part, did you address any information about the condition we have at the moment in Syria and Turkey? Did you mention that?

K- We referred to it. Yes.
Q: So, you've gone into that. So…

K- Which part of the condition are we talking about? (2:14). There's a lot happening in there.

Q: There is a lot happening Mr. Keshe. So, all the all the Souls that are suffering at the moment, that are going through traumatic experiences. Many nations have brought people forward to help and do things. How is the Foundation actively trying to send Knowledge Seekers into help as well?

K- I've had this question asked from us a lot. And this depends on the Knowledge Seekers, of Turkish Knowledge Seekers and the Syrians. They are there to deliver. We did the same thing with Italy. Our systems, what is needed is available. They have to arrange and call upon. We have enough Gans's in the Store to supply a lot. But you've got to understand, the persona that Belgians have created for Keshe Foundation. Now, others suffer with it, because of it. And they pay for it.

Keshe Foundation has enough, we can distribute. You buy it, I think 99 Euro for 25 grams, to distilled water or cleanse water for the surface area. We have enough to cover both countries. We have brought enough stuff from China to cover any possible nuclear explosion in Ukraine, to support. We already have given access to IAEA for that.

When we heard about the accident in Iran last week by the Israelis, Keshe Foundation immediately informed the Iranian Ambassador in Vienna, if anything happens, there is enough stock here to support the Iranians, any leakage. Exactly what we did in Fukushima. The materials are here. (2:16).

And the new system coming out of Iran, you will see next couple of weeks, are there that you can produce mass production .. in this kind of disaster. But humanity is paying for what the Belgians did with the Keshe Foundation. It's very simple. I've seen the beauty, as I said. I must have seen how many communication in past week, showing the Greek soldiers, and the Turkish soldiers next to each other, fighting in Cyprus against each other. And when it comes to disaster, hand in hand (helping each other).

We see the Israelis last Saturday, come with a high distance, with whatever drones to bomb a military base in Iran, and the planes to help the Turkish are parked more or less next to each other. They see each other in sight. Has brought a lot of things, if you look at the other side.

We have the facility, technology to deliver. It has to be done, it has to be accepted by… Knowledge Seekers in Italy, Universal Council member from Italy and the rest are here. When there was an earthquake we submitted, we delivered. And one of the fastest ways we became part of the, what we call, the support in the background in Italy. It is there, Knowledge Seekers have to take it across.

Q: I understand that Mr. Keshe, thank you, I do understand that. Mr. Keshe the systems that you developed…
K- Wait, wait…
Q: … when they get switched on? When mankind gets switched on? How's it going to effect the daily life of a physical being on planet Earth?

K- Do you want to live a physical life or ?? life? That depends on you. (2:18).

Q: It does. Yeah, Mr. Keshe, yeah.

K- yeah, it does. It depends on you.

We now are facing with a lot of new things. Keshe Foundation is now dealing with the aftermath of the first cycle of Corona. We don't look at the matter state, we look at what the energy packs have done to man, and we're seeing the effects of it. In the background, in the works we do. The disabilities which has created, the mental conditions which has created, the physical changes which is created. And with our technology we are facing it. We are introducing and…

In the present world of medicine there is no solution for it. In the world of wellness and understanding of plasma physics, every solution is possible. If we tell you how many people with the problems. They didn't even know that it's created by Corona for them. Have turned to the Foundation and through the knowledge they themselves carry, have found the solution with it.

Many Knowledge Seekers, many Knowledge Seekers, many people around the world, especially very young and very old, got hit by Corona. Some of you are very soft, some of you at energy levels that your body can handle, you just have a small cold. Some of you might have hospitalized. But go back to the original, what you call it, Covid report. We said Covid is a Calcium based, it's energy is at level of Ca. That's why we saw calcification in the lungs, if you remember. We saw calcification in the womb of some of the Knowledge Seekers, in their ovaries. (2:20). We saw them everywhere.

But now that the energy leaves, it's like a flu, a lot of diseases, new conditions are appearing again in the Calcium. We have Knowledge Seekers, we have people who went through Corona in a very drastic way. Or very soft way. Many of you lost your tooth, the tooth just fell out, many, many people. Because it touches the Calcium. When they went, and the crown at the top of the tooth comes out. When they go to the dentist, there is no root, the Calcium has gone. Doctors don't understand how a tooth has come out.

Usually… there's even a rotten tooth, nothing is there. How we see in some people the tooth from gum out, what we see physically, it's gone, it's going. But we don't see infection in the roots, we don't see infection in the jaw. Not with one or two tooth, maybe four, or five, or ten of them. And only in one side of the gum, upper jaw or lower jaw.

You don't hear about these things outside. Because it's something just they handle, they don't understand it. If you get the rotten tooth to the gum, you should get an infection, you should get all the jaws infected, (2:22). we don't see it. The roots are inside the jaw in the gums. But there's no outside tooth. Because the condition of the Covid, as a plasma has created that condition.

And if you go back into the teachings we've done, we showed, we explained. When we had the amputation of the toe, we can see everything down, how many times I explained, but we don't see no infection. So, we've seen a comparison, we know where it comes from. We see the toe grow, we see the bone, but no antibiotic, nothing is used. Because the field environment does not allow the infection in the amino acid level to reach to create that infection. But doctors don't understand. They see children with no tooth, but no infection. But the roots are in. The children should cry their eyes out day and night, some pain. We see dentists reporting, others are coming to them, the crown is gone, and there is no root. The root never came up, but where has it gone to? Energy transfer.

So, you can do the same. In a way, you can make what I call in a sarcastic way, Corona of the food, and give it to the disaster area in Turkey, they all receive everything they need. This is what it comes, this is what we have to understand about the application of the technology. Understand it, apply it. (2:24).

How many of you felt sorry for the Turkish people in the disaster? Have no food, have no medicine. And how many of you through the teaching have learned? You become the Satellite? You become energy, food, and medicine to their Soul, that they don't feel anything. They can sit in a cold, calm, fed, looked after through the Soul inside out, because you feed. Why do you think we asked for Satellite people? You thought that was going to be a light around you, "wow, I'm somebody?" You're still in the dimension of physicality. You have to learn the application of what is taught.

How many of you when you received these units… Now you know, my brother in New York is sick, I have a unit sitting in Sidney, and I reach his Soul through this, to give him what he needs? But is he ready to accept?

How many of you Knowledge Seekers have been victimized by your family? Because they say, this is a fairy tale, "something, something," and you're wasting your time. You get the system, and you try to help them, but you can't reach them, because they don't want to accept it. And once they accept it, they receive it. You cannot take a horse to the water and make it to drink. It has to be thirsty for it to drink from it. (2:26).

Q: Mr. Keshe, what you just said there, it's very… experiences very recently, and people have even asked these very same questions. We're making some Cups of Life, and giving

this technology, and the wisdom and knowledge behind it. And that very question was asked, I took some water to somebody. And their daughter has Corona and they were saying, "well, you know, what is the water." I explained a little. And then I said, well, you need to give it, as if it's given from you. So that they need to accept it, you know, they have to accept and want to, a need to have this themselves. It's exactly what you've just said. So, that question was written very recently, funnily enough. It's very interesting how that acceptance by everybody on all levels of this technology is the key to it. And it's different for each one of us. We all experienced it in different ways. As you say, we're all trying to take from it, the knowledge, according to our understanding. And then that quite ?? say to new people that are getting involved, who are at the point of, not their demise, but the point of an infection, or a Corona or something else, they suddenly have that choice themselves whether to accept, or to stay in the old position. And that is entirely to the individual.

K- It's the way it is, you cannot do anything. It's so many of you making all these Gans's and everything else. You've got stuck with the Gans's, you don't look at its energy. It's time to play with the energy. I made the Gans. You hold it, see what you can receive from it. Or it's just something white in the water? The amount of Gans's produced around the world is enough to change the humanity, but man is not ready to accept it, to receive it. (2:28).

Q: So, that's collectively Mr. Keshe. That's mankind not being ready to receive?

K- It's all kind, has to be to receive it.

Q: So, the cat, the dog, the Vertical people, the stones, every Soul wanting, to accept?

K- Yeah. And the ones who understand it, they receive it. Then they go to the next step of it. Everybody takes according to his understanding, no more, no less. No more, no less.

Q: So Mr. Keshe, the other Souls are still receiving the knowledge, that don't speak in the language of man, but are still receiving this knowledge and understanding, being taught, experiencing?

K- Of course. Because it's the essence at the level of the Cosmic Rays, as you call it.

My great grandmother used to tell us things and we used to laugh. If you're Jewish background, you'll understand it. The Jews, especially traditional Jews, make chicken soup every Friday. And the grandmothers used to keep some of it for the whole of the week. Till next week. And then they throw it away, or they mixed it with something by Thursday, because it was kept for the whole week. Because they believed the soup is cure to everything. You have a cold, you have a soup, chicken soup. You have this, you have chicken soup. You have that, you have chicken soup. (2:30).

Nobody unraveled the secret of it. Why? Now we know. The chicken soup of today, for Jewish people, doesn't have that effect. It's just a fairy tale. But the Jews who live in the

villages in self sustained societies, still does the same, has the same effect as my grandmother's time. I remember, I was very young and sick, and my great grandmother was with us, was telling my mom, "give him the chicken soup, he'll be good in no time." But the chicken soup in the cities, are machine, the chicken soup in the villages are free, totally free range. Chicken soup in the cities from supermarkets carries Omega 6. Not much good, in directions you want to get rid of the flu and other infections.

The free range chicken in the village carries Omega 3, or energy packs of this special combination plus the others. It's actually a medicine. Now we understand the science. It's the same with the system, with the knowledge we give. If you have a mobile phone, you will hear the voice of the man. If you have a Compact system, you get the knowledge through the Soul. Which does not need the ear of the man to listen to. It's as simple as that.

Q: In one of your teachings Mr. Keshe. Sorry to jump in. I remember in one of your teachings when you spoke about the ear and you said that the communication is the other way around. Really, it's transmitting, it's not just receiving, more than it's receiving.

K- But we prefer to be deaf to it. We decide to be deaf to it. (2:32). It's something having a fear of, but not understanding what the actually does for you. And I always remembered little pieces of life is what you carry with you as memories.

I used to travel extensively in Russia sometime, we had to travel by train. The first time, when the people we worked with instructed us to go to somewhere in Kazakhstan. I had the dreaded knowledge of this "click". You have to go on the Russian trains. If you've been on them you know how noisy they are. We were ?? on one with quite a large number of people on the train. And I was given my cabin. After dinner, I thought, how am I going to sleep with this noise all night. 6:30 - 7 o'clock, we went to the cabin to wake up next morning. I remember going to the cabin, I remember getting to bed. And that click, click noise was the best thing for me to sleep twelve hours, or whatever, to get to the other side. And I had a knock on the door, are you going to wake up for breakfast?

What I was afraid was actually what I needed. And it's the fear of the man. That "click, click" noise was the best noise to bring peace, to cut everything else off. But outside the train it bothers us. If you're a passenger inside it's a comfort. So, you have these ear units. You most probably, I know many of you are going to test this, and I said to myself. I was watching somebody doing it this week, it was very funny. They had one headphone on top and they had these wireless little plug earphones inside. I said to them, why do you have two headphones to listen to the same thing? (2:34). We don't know why.

It'll be interesting, those of you who get the Compact Unit, you will try to have the Compact Unit on your head, and you put the earphone inside. And then you see what you hear from your mobile phone, and what you hear through your Soul. Do you want to recognize it and understand it? Is it the same knowledge? Or one gives you the love of the knowledge and one gives you the sound of the knowledge. And which one would you remember, the sound or the love?

Fortunately, you as Knowledge Seekers are those who are going through the first steps of the evolution and revolution in science. I'm sure in the future, those who are here of the younger generation you'll tell your children, I had the first unit, Compact Unit, and this is what it used to do. And then it becomes normal and natural.

The way I see it, the Compact Unit you see today, maybe in a few years time, depends how the evolution goes, you'll buy them off of the shelf in a coming time. But once you buy a unit you'll have it for life and it becomes part of you. Because you learn how to communicate through it. And has no language channel, it has no encyclopedia in it. Because you through it, once you choose, have access to all of it. The Chinese through the Soul will give you the information without the Chinese language. The next day, next time you connect with a Japanese, the same knowledge is shared with other languages. (2:36).

Q: So Mr. Keshe, you become a free range, you'll be able to…

K- You can lay an egg anywhere you like, you become a good commodity .

R: Free range humans.

K- It'll be really interesting. I know what is to come. But I have a patience, I can sit and watch. I was talking to a Knowledge Seekers, I think they're on the line, they know. I explained something two years ago and it was adopted in the Enhancement Units. Then, now it came out somewhere else, I said, we've seen it, you made it in the physical dimension. Now you'll see it in the plasma direction, you don't recognize it. But it's the same. We create a condition to create it in the plasma, but we made systems for it to create it in the matter state. It's understanding the knowledge and its implications and applications.

In the very near future I will teach those Knowledge Seekers who understand, how you create light in the level of the STM. It's like a knowledge of the Creation. You're happy with the light on your ceiling, you have to wait and see the light of the knowledge. It's beautiful. (2:38).

Q: .. are you are ?? talking in physicality again, or is this on another level, the Soul level?

K- You will see it. You saw the light with the interaction with the Soul of the Prophets. We've seen Knowledge Seekers who see the light with the interaction of their Souls and their Spirit. They call it, the first light and the second light. We had two or three people who went through this in the system.

Q: So Mr. Keshe, how will this affect theology?

K- Doesn't exist. You can make as much theology as you like, we're scientists. Let them put everything around it. I wrote to some of these officials this week. They said, don't

what you call it, crucify us. As they did with the first man who said, what do you call it, the Earth is not the center of the Universe. It's understanding it, and it's enlightenment. It's not the light.

Q: It's the same thing Mr. Keshe, is that as mankind receiving this knowledge, the same that this light, this allowing to receive this knowledge. And not staying in a position that was way back then. In this moment we now have gained the knowledge through, as you said, through science, and we now take it forward to elevate and to establishing a new connection, a new plasma. (2:40).

K- I'll go back to something which I talked about in my young age, and I explained it in the science of nuclear technology. A couple of weeks ago, last week, I showed it to Knowledge Seekers, but you don't understand it. But for me to know the knowledge, understand it as a nuclear physicist and understanding the creation of the plasma, understanding the change of phase, expansion of the fields. I believed, and I understood and now we can show, the what we call, one nuclear power station, very small nuclear power station. Is good enough to supply energy to the whole of humanity. If our scientists understand what energy comes out of the nuclear material, and if people understand the process of the nuclear radiation, we don't need to build 30 billion, so many of them.

We can make a small reactor and reach the same condition, as all the nuclear power stations put together. But depends where and what we look for, (2:42). what we target, and what we understood.

When we ran the tests on my final research papers in Queen Mary College, and which led finally to the closure of the nuclear power station in England, was very simple. A few weeks ago, I saw that again, with the same characteristics, in the operation of the transmutation of our Knowledge Seekers. And it was interesting to see .. where the similarity is, and what is actually the explanation of it. How beautiful the knowledge of some 40 years ago, in distribution of the energy in a nuclear power station. And the energy within a nuclear power of the energy of the man, knowing a man carries about 18 Hiroshima bomb energy within it, are the same. If you recognize it, and you can interpret it, then you can see how you can benefit by it.

I explained this as what you call it, the MacDonald's "M" in the teaching, in the process of understanding. Where we see dip inside the reactor, (2:44). but we see heavy radiation energy conversion outside the boundary of the nuclear reactors. At the moment, in the world of energy, we tap in to the what we call, the energy inside. We don't look with the energy outside, which is much bigger.

What led to the closure of the nuclear power station in London University is this simple fact, that we had more energy outside, if we know how to tap into it, it's part of us, than the energy inside us.

The explanation of it is very simple. If you… When I look at this, what you call it, graph, while we were doing the test, I thought, how can you translate this to the Knowledge

Seekers. How can I explain this to the people who are building this system with me? It is extremely amazing if you look at it, and when you see it, you see exactly what closed nuclear power station in England, a teaching nuclear power station, and the STM.

And the man unfortunately only uses, (2:46). what I call, the peanuts, we use the crumbs. We don't use the what do you call it, "the actual knowledge." We have not learned to understand the Totality. If you look at the, what I call, the picture and understand it. You will see how low our Soul in itself, in essence our physicality is, and how bigger fields outside which are connected to us, we create, but we don't use.

How we can add to this knowledge, and how we can interpret it in a different way to our understanding. Look at this picture I just put on, the system. (2:48). If you look in the "M" in the center, the green bottom (line) is the STM, as we explained before. But that's in the center. You see the green before comes to it, on the left hand side, is lagging and then it leads. It's a taker on one side and is a giver on the other side. But itself if you look at it, how low it is compared to what it receives. Where that does that come in energy in the construction of the Soul, STP and the rest? And what it leads and gives by order of magnitude?

It's the same with the nuclear reactors. In the center we don't use all the energy, most of the energy is sitting outside. And it's by far outside the physicality of the man. This is what we showed in London nuclear reactors, in center of London. What was in the reactor was nothing compared to what we were contaminating the people in the surrounding. You have to look at this from the top. It's like a huge lid, and the nuclear physicists in British government understood. Hundreds of thousands of people were getting contaminated with the high level nuclear radiation.

They shut it, but if they could have tapped into it, you could have used that energy to feed this 100,000 people. If you go to "Myland," if you go, (2:50). there is a small brook, river which goes right through into "Myland" from West Ham. By boat, there's a small brook water comes down. They built a reactor next to this for cooling system, in case of emergency. It wasn't just put in there. It's because of the river, it was put there. They say, if you can hear that ?? Bouler, you are a true Londoner. The nuclear reactor was right in the ball, center of London. And the radiation was outside, the energy given was outside.

If you understand this, and you understand the work of Soul, now you can see how much you can give. Your Soul in comparison the energy it carries, but it has a power to give beyond it. This is what Christ did. A simple Soul in the middle, but expanded the love, the giving beyond his boundary of his physicality. He didn't need to speak, he didn't raise the dead, just by nothing. By extending his Soul to the Soul, beyond his boundary.

And this is what you've got to do. It brings a change of phase. Enlightenment. There's no theology, when you asked me what theology is going to do. This is a science physically on the table. What you see as a green (line on graph) is the Soul of one of the Knowledge Seekers. It's not group of. It's one man. And we see this "M" shape all the time when the transition comes.

Going outside, coming behind, to take as much as possible, becoming humble enough to come low, to be able to give ahead of, for other physicality's. As you see the green (line) carries on, (2:52). embraces the Spirit, STP, and even the Soul of the System.

There is no theology in Keshe Foundation. We are pure scientists, we understand it in its terminology. And this “M” on the left when it starts, it comes by desire to fly, to transmute, to go through transmutation. Then it comes for our scientists to be able to create that condition prior to "M", that anybody, in the minute they come in, they go through this cycle of transmutation, and you see the graph changes on the other side. That they transmute.

This is what is missing, what was missing in our structure of the flight system. Creating that power just before where the base of the “M” is on the left hand side. That when the Soul decides, can take as much as. As I said to the Knowledge Seekers and the transmutation person, we don't have the energy to do. The energy has to be beforehand, that it creates when the Soul is ready to give, to create that transmutation.

When the Soul is inside the physicality, you see the yellow, the red and the blue lines is under it. And then it moves with that energy gained, like a springboard. And now it goes covers it inside. But it's beyond the boundary of the physicality of the man. As you said, you give the Cup, were with the love, or you just give a Cup in dimension of physicality? (2:54). You are humble enough to give, but have you put enough energy of love, that when they receive it they elevate, they don't even need to drink it. You don't even need to explain what the water is, they receive it. Because you still have to learn what part of the Soul to put in it.

If you understand this picture, if the scientists in the future analyze and understand this frame, you'll see the whole of Creation. From being a receiver, being within, to come without, and becoming human. This is a full transmission, full transition of a Soul of a Knowledge Seeker who wants to come from the States to Linz.

And we see the transition of the Soul. We see when the Soul within the physicality struggles, and then it succeeds to overcome the physicality. The green on the side, on the right hand side, is the Soul which is free, but the Knowledge Seekers have not learned how to pinpoint it, where to go yet.

Now, for the first time scientifically, we can see the transportation, elevation of the STM. When we tell you, with the new system we expand you, they expand the Soul, you can see it here physically. And we can show you 20 - 30 graphs. We can make as many graphs as you'd like to show. For the first time you see the transition, when the Soul expands. When the Soul is within , now the Soul encapsulates the. (2:56). If the Knowledge Seekers encapsulates that point on the right hand side, when the green, when the STM is encapsulated the physicality, the STP and the, what you call, the Soul of the System, which is the point of destination, you can see that the space gap between the

green lines and the other three on the right hand side, is the energy which is needed to bring the Soul from under to over.

And this is what was missing, this is what is missing in our transmutation system. Energy supply in the dimension, in the strength of the STM. Which comes from the structure of the man. Then, any of you come in, I can fly you, where you want to go? You decide only the bottom point ... London, Oxford Street, my brother.

And you see it, the maximum time we have is 90 seconds. The maximum time you have to go anywhere in the Universe is 90 seconds. No more. Then you have to decide on what level of the Soul you want to go low enough, to receive enough. If you look at this “M”, the middle leg of the “M” when it goes up, you see it has to lower level. It has to go to that to be able to give. It has to go to that to be able to receive.

This is the knowledge of Creation in the mechanic system, mechanical system which the man has created as a oscilloscope. (2:58). Then you see the gaps between them. What's the gap between the Soul and the physicality? Why the Soul is closer to the red? And why is it further from the yellow? Why it happened? It comes in… Where does the Soul and the Soul of the System start juggling? Why the Soul of the System we created, over compasses all the three? You see the blue line in the middle “M”. It doesn't let go, I've encaged you. That's why I expand you, and in that expansion suddenly the Soul is freed.

This is what happened to you in the system and you say, "I felt nothing, I see a capsule around me." That green part on the right is encapsulation of the physicality and the STM. And then you go to the next system, you go to ?? . Now the system has no control over you, because when you see on the right side, the blue is under the green. It’s irrelevant. You go to grandmother, you go to Mars, you go to Jupiter, it’s there.

What was missing in our system and Knowledge Seekers to understand is creating a plasma power unit, which can create that energy. Which in a way, I brought a nuclear reactor inside the system, right in the middle of it. That when the Soul comes gets that boost to go through the transition. The Energy Unit is a system, it’s not just that we have power to run the Gans’s. Energy System in there is in essence of the Soul, (3:00). energy of free plasma, that it can elevate it.

Q: Mr. Keshe, thank you for that explanation, wonderful. Just going back, just rewinding a little bit. So, you were speaking about the reactors in London and how they were effected. When you become this free energy you can interact and become the reactor, .. what I'm trying to say is, with a thought, if the people have the knowledge, could they have protected themselves? When I go through various different places physically, and in certain situations, I think to myself, I have a, where I like, I put a shield around myself, I encapsulate myself with something to protect myself. Whether it's in the physicality or whether it's a thought with them in a situation, or whatever. So, if people had the knowledge, is this the same thing? Is this, even just the thoughts without the knowledge, would this help?

K- You know, you hear about the people going through a wall, or people can go. We have people who can put their hands in your stomach, another person and just go in and you see the hand disappear, whatever. This is the time when you create the energy in the level that there is no interaction, it's equal, that it can go through. Every one of us has that capability, it's not exclusivity. But we have chosen not to use it. We have chosen to stay in the dimension of physical dimension. (3:02).

Any of the Knowledge Seekers, anyone who understands this picture and understand what you said, they can create a shield, and they can walk a shield through. It depends on what you want to accept.

Many of you stay in abusive relationship, because you chose it. There is something in there, that you want to prove you can change it. It you who decides, I'm walking out of it. It's a condition of mind, it's the energy which I receive in that condition of abuse. This is what you call, Fibromyalgia, you show it later on. Because you cannot break through it. You still, you self-inflict yourself with pain. Anybody has. Understanding, do the job. You can't do it, we show how the Soul can be expanded and see what the physicality has accepted. Then you see somebody walks out without Fibromyalgia, or this and that, or MS. Because you break through that barrier, self-inflicted barrier, self accepted the barrier.

Q: So that's an emotion Mr. Keshe. So that's a fields strength that we carry, and each and every one of us has a different set of emotions triggered by our experiences and our environments, and everything around us. And we're all unique. And we all carry a different understanding through, literally through the moment we're born into physicality, we start to experience things and then we start to build up these layers these filters, (3:04). from the core and shield ourselves in the wrong way, if I can say that.

K- In a way, yes. I always said, when the children were small, they're full human being in a small box, in a small body. But the Soul is mature. It's the physicality that accepts that condition.

This is why it will be different with the children of Mitra. They're born equal, they're born with the whole knowledge of Creation, and they accept no submission, no abuse. Because they don't accept, it'll be an equal world. It's what I take what I need, and I give that, what you need. Children of Mitra, Souls are born through the same principle, are born equal from the time of birth. Even they might have a physical dimension different than us. It's a big difference. Then you don't have this acceptance of abuse. Because you're equal, and when you're equal you don't abuse. You cannot abuse, because I know what you're doing.

This is the difference, this is where the change has come and the change will come. The same thing is, I always said, you look at somebody with Fibromyalgia. They call it Parkinson's stage 3 and 4. (3:06). They're bent forward, they're submissive, and the ?? demeanor they create is, "I'm a victim."

It’s like a lion in the herd of zebras. Lion doesn't go for the strong zebra on the front. He waits to see which one's limping, which one is weak. And he goes for it. And when you're in that state of mind with the Fibromyalgia, you're sending, I'm a victim, abuse me. When we see people go through the process with the plasma technology, they go upright, they change. I've done this many times. I always take (pictures of) people who have Fibromyalgia, before they used to use the system, and after. They come in bent forward, it’s like the gorillas, you've seen them, they go "uh, uh" I'm there, I'm a victim.

After the process, they stand up right, their whole feature changes, nobody can abuse me. And because the position changes, the mentality changes. They’re not a victim anymore. They don't allow nobody to victimize them. When you see somebody with these conditions, you can see them from miles. It’s that lion waiting to see that weakness. And if you're the kind of people who prey on these things, you always work. And they know, they say, from one situation into another. Because you're bent in, you already gave the signal, "I'm here, I'm a victim." Then they say, "I don't know why this happens to me?" (3:08). Because it's a change of mind, change of condition, it's enforced before puberty, they change. They never let nobody in, become successful people with it. Because they know what it means to suffer and ??. The knowledge is available to all of us, it’s us who can abuse it, or can use it to benefit the others.

Q: So, Mr. Keshe, they sort of… They elevate, and then the body elevates, ?? physically seems to grow and expand. And…

K- Yes, 100%. 100%, not even 99%. The knowledge we given, and we shared in the world of wellness, in 50 - 100 years, they come to appreciate.

When we say that there'll be no state of Belgium, it's not that by demolishing it. I’m not Ahmadinejad, "there will be no state of Israel." The people of Belgium will give their passports away. They don't want to be connected to a structure, which has been so abusive to a knowledge. They'll be ashamed to carry themselves. We don't do anything. We shower them with the love and care. It's them inside, they understand what they've done to themselves, and to the others by following the same pattern.

They just receive the knowledge, unconditionally. And then the blood changes, because they decide to walk out of it, their abusive behavior. (3:10). You've seen it, we've got barrage of attacks continuously by Belgians in past 20 years, 15 years. Be it "Red Circle," be it the others we kicked out, be it the government. We tolerate all of it, because I know in time, the maturity will come and people walk away from it.

I can do things that nobody can imagine, but then I become "Moses." Even in time of anger and stress, I still know what needs to be done. And this is the responsibility of the STM. When you see somebody damaged and hurt, you show your anger, but you don’t do anything. By showing the anger, doesn't mean you damage. You allow that emotion to wash itself out, that you can handle it, that you don't damage.

I carry more knowledge and power than any Prophets of the past and I can wipe out not only a nation, the stars and everything else, because I know how to reverse it. If you go in the patent number one, I deliberately added in there, suicide unit. I can end the life, I can end a cycle, I can end the planetary system, just by itself, I don't need to do anything. Open the patent and read it. And understand according to the level of your knowledge.

You don't need to do anything if you have my knowledge. I could have ended up the State of Belgium years ago. But if we do it, there will be Belgians all over the world wanting and grumbling and the rest of it. But when they do it themselves, (3:12). There will be no Belgians. They'll become the French, the Germans and the Netherlands.

Q: Mr. Keshe, it's very sunny here and the sun is glinting off the side of the screen. Because of the angle of reflection, there's dust and I can see many, many particles. It sort of reminds me of your last excursion, your last teaching, that you were speaking about the love of the Creator and from the top of the shower to the bottom and how it covers all of us. All of us in each and every moment.

K- It's ?? depends on which side of the shower you want to be. It all depends where it comes. But in reality, the Technology has to be tangible and reachable by everyone. One of the most beautiful technologies, which is now, we see, is this mobile phone communication. ?? Usually they don't have electricity, but they have a battery and they can be in touch with anybody anywhere in the world. They get on the WhatsApp, they get on the Chat, they get on the telephone line. Even they're in a little village, there's no electricity, but there's a battery, they charge their thing and they're in touch.

The, what I call, the new Communication System now will bring the STM. You can imagine you walk in a jungle and you feel the pain of a lion, without ever seeing the lion. Then you can transfer that energy to take the pain away. And that lion knowing it received energy from you, passes you without even looking at you as food. Because he knows it's you who took the pain away, through the Soul. (3:14). It just leaves the physicality away. When you talk about the "lamb and the lion in the same bed," that's what it is, elevation of the Soul, not dimension of physicality and no hunger.

Q: That was very beautiful the way you just described that Mr. Keshe. Thank you.

K- We see the lions as the world leaders, and the man as the sheep, and soon they'll all be in the same. And it's the job of the sheep to elevate the Soul of the lion. That's why the 19th, and next month, and the next month processes is on, to reach to that point.

Any other question. Don't forget, eight o'clock, on Monday.
Q: Yes, Mr. Keshe, thank you for taking my questions and thank you for your beauty Mr. Keshe, thank you so much.
K- Everything in the studio is set in perfection for presentation.
Q: Understood, thank you Mr. Keshe.
K- Go have a look today tomorrow and see if you want to change anything. …

Any other question?

Q: .. I can vouch for what you said about the teeth, the broken teeth. When I went over to Mexico two years ago, two of my teeth on my lower jaw bone broke. And I had a big inflammation in my neck, just about half the size of what Shandor had. (3:16). And nothing brought this down, except when I arrived here at home, beside the tank where I have the Gans water. And in less than 12 hours the whole inflammation disappeared, and I had no pain at all. So, this is a confirmation of what you were saying about broken teeth. And those two teeth are growing back up again, I haven't been to a dentist in the last two years. In fact, I never went to a dentist.

K- You better don't say that. Be very quiet, because there's somebody called, Azar as a dentist, she has been looking for this, how to grow a tooth. The principle is very simple, it's transfer and transmutation of the, what we call, energies.

We have seen people with cancer, where the new lump of cancer, or whatever appears. And because the Soul has changed will not accept another lump, because whatever is there is there. And they don't understand why what appeared is actually a cancer cell, after a few days goes away by its own. Because the body won't accept anymore cells, the body will not go through that trans ??. What is there will hold, but don't allow expansion.

We had that very recently with people with understanding and use of technology, seeing cancer tumors which appear and disappear after a few days. (3:18). And they just put it as something happened. It's understanding that we can live with a cancer, but we don't need to die of cancer. Because it's part of us, there is a reason for it there, the body has learned from it, why it created it, it's there as a memory, as I call it. But it's then the Soul to decide, if I carry this backpack with me or I leave it behind.

Q: I have another commentary. You were talking about atomic or nuclear energy. I understand the atomic or nuclear bombs are not really atomic bombs. They're an explosion, that mushroom created, is created by what we call, zero point energy. And we just spew some radiation out. In those, we've seen recently several videos with experiments done 50 years ago, where the soldiers were told not to look at the explosion, but they were radiated by the light of the explosion. They saw sort of an x-ray through their hands, but they're still living. There was no real nuclear radiation.

K- There is nuclear radiation when you go through certain plasma level. It's like Cosmic Rays, it depends on which angle and what angle it hits you, and what you are, (3:20). and what you absorb from it.

If you stand two or three people next to each other and put them through a field, like a nuclear explosion, and get them to bend, to stand, or to what you call it, take different position. If one of them is in the right angle, nothing will happen. It's all to do with the positioning, in what you absorbs, and what is the energy level.

We see that on the x-rays. When you look at the x-ray film, the exposure time, the KB gives you a lot of these things, we understand. You can survive, you can be right in the center of an explosion and still survive it. It depends on what field passes. I have a rule, we always follow the rule. If you see the light walk to it. If you hear the noise, wait to suffer with it.

If you see a neutron explosion in the Universe, if you see it, walk to it. Let your Soul free. You see a nuclear explosion, the light of, don't wait, just walk into it. Because the physicality will not take it. Unless you really know how to stand, where to stand, and how to allow the fields to go through you. We always work on that principle.

Because when you speak about nuclear, when you speak about the light on the ceiling, or the Sun, this is mono, it's a very mono system. (3:22). When you speak about the nuclear explosion, it's not mono energetic. It's a combination of the fields, and these combination of fields depends how it was created, what they create themselves at given strengths will match into it, will lock into your body as magnetic fields of Gans's.

And what would they bring? Would they bring evolution in the energy of the RNA, which then reflects itself to DNA, we see what we call genetic changes. Or would it go through, as you said, like a x-ray? Because in that point where you were there were only x-ray level, we can stand the x-ray. But if you're in a combination of the fields, forget about it.

You see, you explain words, as nuclear physicists we've been trained quite a lot. We get one term teaching about, or we used to, it doesn't exist anymore, about nuclear accident. Because as controllers, as physicists, most of us we are right on top of most of time nuclear reactors in power stations or research centers. We get trained how to clean ourselves, how to wash ourselves, how to decontaminate ourselves. Then what is the fear of contamination.

People don't understand what it means to be contaminated or have the essence of contamination. When they put you against a wall and they wash you with the Borium liquid. Because you've been on the reactor, open up, but you don't show any sign of radiation. The first time happens it's horrible. Like the fear goes right with, am I going to die? What's it going to do to me? What's going to happen? Then you go for a few days, for a few weeks, nothing happens. Ok. (3:24). Something happened.

But if you are in the nuclear .. it happens. People who are very close to development, now the safety is very, very high, 40 - 50 years ago, it was a bunker job. I've been through the washer, I've been washed with Bohrium, I know how it feels. Because you stand over an open reactor, and you touch plates which you are not supposed to touch without anything.

And they don't even enter it into the "accident book," because how can a student has access to ?? maybe hold a nuclear 95% - 97% enriched plates? Then you see it.

You have to have the fields in the right way to be able to absorb it, and then it shows what you call it, directions ?? of it. When I came back from Iran some foolish people claimed that his cancer came because of the exposure in Iran with nuclear materials. We just worked with simple radiation, I worked with all of my life. It came from poisoning, which I was poisoned.

This radiation, it depends. When we become travelers of universe, radiations in this level are nothing. In the dimension of the Soul, x-ray, and gamma rays of the human level are literally peanuts. When you get into a very high level radiation sources which they bring elevation, (3:26) it's a different story.

You feel the presence of the radiation when you move in the direction of the Soul of the Creator. It's enlightenment. It's not the radiation to kill you. It gives you, it takes another peel of the onion, ?? to go more into the knowledge into the center.

Any other question?

Q: Another commentaries about 50 years ago, I had the opportunity of working over one of those nuclear tanks where they keep the heavy water with a nuclear or atomic material inside. And the luminescence of that material is beautiful. The light in it is beautiful.

K- It's Cosmic Rays. I mean if you. You know when you look at it you see that blueish ocean blue, silverish color? It's just thrilling. It depends what kind of water they use . It's like you walk into heaven, I call it. But it's something we are not used to, we see actually part of Cosmic light colors. It's elusive.

Q: It's indescribable, yeah. It's very difficult to describe that radiation, that color, that luminescence.

K- Yeah, I know. I've seen it many times. It's how we see through the skies, (3:28). in a way it's translucent. But at the same time it's not there, but it's there, it's created. If you create a vortex around it, it becomes gorgeous. ?? then it being aesthetic. It becomes like a fluorescent light, but of the colors we are not used to. ?? that brings a lot of memories.

Q: Yeah, it brings a lot of memories to myself also. Thank you very much for all these descriptions.
K- Thank you very much.

Any other question? We have to finish at one o'clock today, latest.

Q: .. After January 20th, during my sleep I kept a connection with the Soul of Muhammad. In this connection he showed that the main goal of his stay here on Earth was the destruction of more than three hundred idols in the Arab world, for the return to the One God. We Brazilians don't understand very well the development of Islam, could you clarify if Muhammad's purpose was to unify the fragmented Islam by idols in a return to the One God?

K- The history of Islam, Muhammad is very simple. He was a merchant. He was a merchant for a woman called ?? Khadija, (3:30). where she had the capital in her forties. And he had the youth in the early twenties. He traveled between Saudi Arabia and Palestine, that line as a merchant to bring goods. On his end in .. in Saudi Arabia, they had the statues they worshipped, and everything else. When he traveled to the other side, there were no statue, there was still worshipping, but there was no figure.

He saw the Christianity, they had a ?? cross, but there's nothing of the Moses time. Only what you call it, conception of the star of David, and the candles, as light. He saw what the difference was. He brought that to the Saudis, to the Arabs. But being connected and be part of what they believed in the statues, how they did, he had to demolish it, that they had nothing to worship. And they would have understood the next level. Even though some of them after he destroyed these things, they made their little statues in their own homes. This is one of the things which now the world doesn't understand.

But Muhammad, blessed his name, had a reason for it, that he forbade anybody to draw him, that they then could idolize him. The same they did with Christ. They made a figure of cross and the Christ. He didn't want to get there. He wanted to stay in the level of the Jews, (3:32). where there was no statue, no individuals to worship, that they create a statue of it ?? .

And now in the Islamic, in the common world, people don't understand this. They say if you draw the picture of Muhammad, they give you a "fatma", they kill you, and the rest of it. We saw in nineteen nineties and early two thousand, with one writer. But even the Muslims don't understand it.

The whole reason was to get rid of believing in matter state, but believing in the condition of the what we call, Creator as fields, as the essence of the Soul. And that's all it was. He was a man who became… It's like very much now, you're a man, you go from Brazil to China, you see something you haven't seen in Brazil, you buy it, you bring it back to Brazil, and then you manufacture it and everybody gets it. That time was about ideology. Now physically, you do the same. How many of you go to another country, see something new, oh, if I take it back, I can produce it there, we need it there. And you do it. That's all it was.

In essence, I always said, Koran is a second testimony. (You) have the old testament and the new one, and the third one. But in written, in language with a lot of fabrication around it. But in essence of the same. Believe in the Creator, not in the statutes. And the biggest stone which was brought in to be cut. Now, we know it is a stone, which they worship. In a way has become another, but "figure- less" stone. Because if you made a statue out of a black stone, everybody feared it, because it was dark. (3:34). And it was uncut. The stone was not cut to a statue yet. So it was left.

But again, man being a physical thing, still goes around the same stone, the same thing. What he tried to stop, he could not stop. They worship man in essence of his Soul as

Muhammad, bless his name, but they're still circling a stone. Still kept the tradition, because he couldn't break it up totally. It would not be accepted. He said, this stone is here. He found a compromise with the black stone and the ideology of the people of that time. Then it was abused with the rest of it, for those who want to benefit from it, by the prophecies, which they made themselves.

Any other question?

Q: .. The subject is about the, is about forgiveness. Question, forgiveness given properly and at the right time, if there is a right time, does it have a spiritual reach even if it is decades and distance?

K- Depends what you call forgiveness. I forgive, but I never forget. And you've seen it with me for years, I battle with the Belgians. This is the characters of the human level. But forgiving, unless you don't live balanced, you cannot forget it, you forgive. (3:36). Do you see as your right to forgive? Or is it on the ?? misassumption, that you've been done wrong to, because you haven't listened to the other side, what was the reason. That for you means forgiving, but to them it doesn't exist for it to be forgiven. For some time was a good thing, and then when it's not to your benefit, now it needs forgiveness, because you changed the goalpost.

R: He modified the question and called it the subject is about the Cosmic Rays of forgiveness. If that makes any difference?

K- It's the same. We're looking for forgiveness in Cosmic Rays. We're just going again the same thing as the statue and the stone. We're just moving into somewhere else. Let the physicality of forgiveness go. In the world of Creation there is no forgiving in the way, as you're used to it, and forgiveness as you're used to it. Because everything is balanced, you give and take. Some of the attributes of the Creator we see, it doesn't exist. Only exists in the dimension of the world of the man. And they struggle between his Soul and his Spirit, or STP.

Any other question?

Q: .. You say, "I made man in the image of myself." So, are you the Creator?

K- Are you the Creator?
You ask yourself that question, and then you answer it. Or you have found the answer? You create a child, is that child a copy of you? Or does he has his own feature. His own intellect. It's the same.

We're all part of that creation, we're all created because of being part of it. I always said, there's a very funny things. I have a gorgeous cousin, she's of a different level of understanding. She says, no one in the books ever says, that women cannot have many men. It's forbidden for men to have more than four wives, or forbidden in writing, that a man cannot have more than one woman. But nowhere in any of the scripts we have, that

the women cannot have many men. They call it adultery, but it's the same applies to the man. But in reality, if you read any of the Holy books, nobody speaks about how many men a women can have. (3:40). Read, go to Torah, go to Bible, go to Koran, whatever you want. It says that man cannot have more than four wives. A man can have only one wife, a man can blah, blah. And they call it adultery if you have with another one.

But, never says how many men a woman can have. Technically it's correct. But now, in the world of creation of physicality, woman only gives birth. In the world of creation of the Soul, when your Soul finds its dimension, and becomes the creator of new Souls. Do have female universes, and male universes? Or does STM in the dimension of the Creation gives birth to new lives as well?

This is a very simple, not a question, but a reality, that you will understand and how it works. And do we, are we. Is our Soul male and female Soul? Or do we choose in the dimension of the Soul interaction of what we call, "Twinity", balanced field. That in the attraction of them create the children of the universe. New Souls.

So, in the dimension of physicality woman only give life. Answer yourself, does it apply in dimension of the Soul? (3:42). Where you don't know the difference between the STM, who ?? became the animal, male or female. So, these are the things that mankind has to find a lot of answer to, and come to accept. Through science, through reality, not through philosophy and theology.

Then, do men give birth? Or do men create the Soul of children or the spin off of their interaction creates their own children, or lives, not necessarily children, new Souls? And the answer is, yes. Definitely, yes. We don't see female planet and male planet, we don't see female stars and male stars. It's just to understand the structure of the Creation. And not with dogmas, reality, scientifically.

Any other question?

Q: And if we cannot kill to feed ourselves. So why do we have mouths and stomachs?

K- It's the man way of doing it to find the easy way with the pleasures of the rest. Very simple. Very, very simple. (3:44).

R: You mentioned that if we learn to feed ourselves without killing we might end up losing your mouths and stomachs, like if we go to space, for example.

K- Yeah.

Last question, because I have to get going. I have a meeting.

Q: .. Has the Universal Council already made a decision on how to proceed within the Keshe Foundation, further development with devices on the physical level, or on the Plasmatic level? Thank you very much for your information.

K- I do not know.

R: Perhaps it's a question for the Universal Council, actually.
K- That's for the UC.
Q: Question that has to do with the Cosmic Rays Plasma Communication Unit? Can my wife and I use the same unit?

K- Surely not.

Q: If we each have our own Communication Unit, do I also need two Compact Plasma Enhancement Unit? (3:46). Or will the headphones work with one Compact Unit?

K- It's as a set. You use one Compact Unit as a transmitter, but you never share your Head Unit, never. That's why we offer headphones separate, yes.

R: So, the two people can use the one Plasma Enhancement Unit is what you're seeing, I guess.

K- Yes, in a way you will understand this, you establish that condition with it. It'll be understood very fully why. It's like, you know, when you have a satellite, everybody goes through it, but the headphone belongs to you.

R: Or when you go in the airplane, they hand out headphones, but they don't reuse them.

K- It's the way. It's very much, if you understand later on, you tune the plasma to a certain strength of system with you. It's like a Pain Pen, as we advise, don't use a Pain Pen, don't share it. It's the same, if you understand the structure of the work of the plasma, and the systems you use.

R: Okay, thank you Mr. Keshe.

K- You're welcome. I hope we should be able to share. Join us on Monday. Hopefully, we open a new dimension in the world of energy and communication. (3:48). We'll see what is to come for us in the coming time. And hopefully the following Monday, or the following Monday after that, we'll have another Blueprint Day. We'll introduce two new technologies, and one we already know, but in a compact way, to see where we are going. As I said, the systems which will be demonstrated on Monday are in production line, you will see as we demonstrate. Thank you very much for today, we have to leave you, I have to be somewhere else very soon. Hopefully, we see on Monday and share more. And for anything else just go through the Keshe Foundation info, we try to share a lot of knowledge and understanding. Thank you very much Rick. Thank you very much.

472nd Knowledge Seekers Workshop Feb 13 2023 - Plasma Blueprint Day

(Transcription Proofed >> Need to do Quick Index etc ; Key Phrases, Words) (Auto transcription from Elias)

ENGLISH TRANSCRIPTION

Start proofing >>
(:02).
K- Yes, good morning to you. Good morning, good day to you as usual, wherever and whenever you ?? are with us. Through the knowledge seeking of the Keshe Foundation programs of the KFSSI. We welcome you back to present day, in introducing new technologies as we usually do in our Blueprint Days. (:04).

Today, the Blueprint is a very simple understanding of the change. The development of the technology has been to create a condition for the space where we do not need to depend on Earth for many things. Where we do not need to depend for food, for energy, for transportation, for transmutation. And this Blueprint Day is part of that development, we have done traditionally for past years. The very first Blueprint was about MaGravs, in energy reduction, energy production. We have developed the technology in a way now in a very rapid development technology, in achieving to produce Gans's, and then gases. And then through the production of the gases with the production of the new plasma Cosmic Rays (CR), which has brought us to a new dimension (D). Which means, we will produce energy and everything else, which we consider food as an energy, we consider medicine as energy, we consider eating as energy, we consider transportation as energy. Whenever we explain energy to be, magnetic fields in motion.

In that respect, we have reached a milestone in the production of the fields, magnetic (M) fields, which we can use for communication. Rather than what we are used to, (:06). in a form of magnetic fields, as mobile phones, radio communication, television communication. Where we always need an electric power behind it, and we need the line of communication of vision. If you have followed us for years, now, you know, we have moved into the step into the environment where we create plasma energy. This has been the dream of many scientists. This has been a dream of many works like in CERN, many works like many scientific centers around the world.

In a way, to be able to communicate, in a way to be able to have a "zero-time" communication, in a way to be able to deliver food and energy zero time communication as you need. But in the process of a need. Today, we have to ask for, I want an orange, I want a bread, where our body converts these matter states into energy state, that it gets absorbed by our body. As I always say, when you eat a banana, banana doesn't go to your heart or to your leg, the energy conversion of it, according to its balance converts in the energy, which the body needs.

Now, understanding the plasma technology, we have created a condition that we don't need to eat the banana. We have access now to a plasma technology, which creates all the energies which the body needs. So, you receive the energy from the environment we create as you need. (:08). They say, if you read, banana gives you calcium, phosphor, whatever. Which means when it broke down into energy we absorb as that in your body to be used.

Now with the plasma technology, we create that energy, you don't need to eat the banana, you don't need to kill an animal to reach that point. But it comes to one point. How does body know what it needs and where it needs? And what controls this? It actually comes to one point, our brain. The center of the operation decides what is needed to be stored, what is needed to be called upon, what is needed to be converted, in what position and what place.

So, the world of the science has moved forward in a huge frog leap. We don't need to take an object, or entity, or anything like an orange or a banana, to eat it, to get its energy on the level the brain says it needs, and reject the balance. Now, with the new development of the technology of the plasma, in being able to have access to the spectrum of all the energy fields, we can feed that energy directly to the brain. Then brain decides what it needs to be absorbed by the body, from it.

In a way, we ate food to feed the brain to its central control, what we call, in the name of the Soul of the Man (STM) or the central point which every brain has one. Where we said, you can't have a Solar System without the Sun in the center of it. (:10). You cannot have a body of the man with the Soul, with the center of operation of it outside it. So, the central operation of the brain of the Man is inside the brain, where now we know where it is, now we know how we can access it. And now we can feel it, that it feeds the body, not for the man to kill, to get that energy.

To that respect, to understanding this, to be able to create that kind of energy, we have moved forward in the science and technology of the plasma. Now, we are at a point where we think by thoughts, I want a banana, I feel like eating a banana. We satisfy that need through absorption of the energies, which gives us that satisfaction, energy and emotion. This has taken years of research and development. And today we have achieved it. Today we have that system in our hand, where we create a central plasma system. Even the technology we show today here compared to what we have achieved, and what we're achieving in the lab, these are obsolete. But we have to show you where we are going and maybe in a few months time you will see a total independent system. The way we are now achieved, the way we have now developed in our research centers.

What does this mean? This means you need a "trigger point" to start the system. And once you start the system, you can absorb energies from anywhere in the Universe, for your transportation, for your food, for your wellness, for your communication, for your transmutation. So, now we have access to a new knowledge, what we call, Universal Plasma System, where the Universe works on the plasma basis. (:12). We call the Sun a

plasma, we call an atom a plasma, we call electron a plasma. But different amount of, with a different strength of, manifest themselves in different environments. And in that direction, and in that purpose, we have moved forward a step towards independence of man in travel into space.

But what we have developed, what we show you today is not for you not to eat, it's not for you to have a reduction in electricity bills, it's the space technology which allows man to live in the space. Allows man to move to the next step in evolution of science and technology. We are not something out of a black box. I'm a nuclear physicist, 40 years of research and development plus. And it's in a step by step development in that process.

As I always said, for centuries, we saw metals we didn't know what they are, we melted them, we made things out of it, we mixed it, we made them alloys. We saw, then later on we understood about molecules, mixture of molecules, composite which creates life like, hydrogen, carbon, oxygen and nitrogen. We became knowledgeable in molecular structure, we understood that. As I always say, last century, we became to understand atomic structure, how these individuals make a metal, how many atoms of iron we need to make a sheet of iron, or whatever. How many molecules and cells are in our body we can count it. We became atomic scientists. In a leaping step, (:14). we became nuclear. We found out, this atom, what we see has a center, has other bits running around it. We call them neutron, electron, we call them protons and everything else. And then in early eighties, long before in the seventies, in development of technology as a nuclear physicist, we went inside the neutron. No more these up Quarks and Down Quarks, and everything else.

We looked at inside the structure of a neutron, inside the structure for an electron. And what we see, is nothing but dynamic magnetic fields in interaction with each other. We don't need to have Up Quarks and Down "blah," and all other names for it. We see the structure inside a neutron the same as the structure in the Solar System. He has a center, and fields dynamically move, and in interacting with each other in over time, create the Earth, create the Moon, create Mars, create Saturn and everything else. So, now we understand the structure of an electron, and the proton is the same, as central energy where he absorbs, it's a plasma.

Then electron is like our Solar System, a small one, and neutron is a bigger star system 500,000 million times bigger than our Solar System. So, now, we understand electrons, and protons and neutrons have such an understanding, such a ratio. Now, coming to that point, we looked at how life is created on this planet. And then we see from the interaction of the fields of the Earth, with its source, (:16). in reduction it creates different frictions of the magnetic fields and different amounts of fields are released. As I always say, like a knife you put it on a sharpening stone, and you see the sparks, different sparks, different lights. We understood, one is hydrogen, one is nitrogen, and one is copper, and one is zinc. But they're all in energy packs in upper atmosphere. When they come in touch with the Inertia, which is matter state magnetic field gravitational field of the Earth, they convert into copper, to zinc, hydrogen. Now, we understand this process.

Then, for us, it was easy, we always took the energy from outside in interaction with the energy what we had to create the hydrogen, oxygen. Now, with the new system, understanding the Sun, the life of the man is in the center of the brain of the Man. Now we radiate plasmatic fields towards it, it releases its energy inside, in different layers of the brain. As it needs it, it takes it. In a way, we start feeding the man from outside, in, than inside, out afterwards of the conversion.

To achieve this point, we can allow this Sun to expand beyond the physicality (P) of the Man, or allow the body of the Man of the different strength of the plasma to create different emotion in the brain of the Man. In a way, if you look at it, at certain point in the body of the Man, you have the what we call… (Can I get a whiteboard please on this. We need access to the whiteboard.) In this process, (:18). what we see is that the whole structure comes up to one point. What we fed from outside, now we feed from inside. We don't need to kill to benefit by it.

<< K have problems with whiteboard >>

So what we need to understand is converting, creating energies that, in interaction with the STM will allow the Man to create the what we call…

<< K have problems with whiteboard >>

So, we learn in how to create the position where we feed, we create, we make it available plasmas from outside to feed the inside. We have run tests for past months. Many of you came to this center to test, to see how, what you felt, what you tasted, what you digested as energy. You told us where you went, what you did, some of you took different conditions and position, (:20). and we all came to understand one thing. That is, we have the knowledge now to feed ourselves by thoughts. The body will take energy, we can make it available to it. But it's like as I always said, we eat 20% of the energy we use, 80% comes in from the environmental condition, from Cosmic Rays, from the fields in the room.

We know this to be correct, because, for decades, for a long time, from even when the man was in a primitive condition, we know when we touch, when we bring hands close to each other, we feel the other hand without touching. So, we have an Aura. In the new scientific era, they can show you the Aura, which is the interaction of the magnetic field of your body with its environment.

That's what an Aura is, you radiate out. It's exactly like the way the Earth creates light. Magnetic field of the Earth in interaction, rubbing against the magnetic gravitational field of the Sun creates the daylight. So, it's the same with us. Our Aura is the interaction of our magnetic field, what we give out and what comes in. And, in that process, we have start learning more.

Now we start using this knowledge, we start creating this position, (:22). where now we create a magnetic field that compresses into the body. And in interaction with the internal

magnetic field of the body, or what you want to call it, internal Aura that we don't see, creates fields, create lights. Which in conversion feeds with the body of the Man. So, we don't need to kill anyone. And in that process… …

So, if you take this as the STM, or the center of the point of the body of the Man. .. Then we see this as the brain of the Man. Where we take this as the body of the Man in a shape of nervous system, more blood circulation. Up to now, we ate to give energy into this system that can feed the others, and provide energy as one way. That's a solid food. On the other hand, we learned to take air, which again came in, and it distributed and gave energy. You call it, with blood. And all this points was to sustain life, (:24). or existence, or give power supply energy to this center, that in his work it can run the system in a different way.

Now, what we have brought in, instead of you taking all this to convert to energies. In the development of the science and technology, now we give you this, an extra unit. Where we feed energies directly into the center. That this center does not need this, and does not need this. Which means you can live in the space even without air. Because the energy needed is supplied directly by plasmas from outside, what's what you called in past, the aura. Now, it creates a field, an emotion of happiness here in interaction, emotion of sadness, hunger, joy, and everything else.

Then when this is created, the way, when you're happy, the emotion gives you the direction of what we call, happiness, and you show it as a smile. Now you receive the energy at a level of the happiness, and you see a smile, you run, you cry. (:26). And we see physical interaction. So this allows us to feed the body without actually killing. Without actually destroying anything.

This has been the biggest problem, to find the source that can create this, that can ?? bring and feed the STM, the central energy, the star of the life of the Man. What we believed, as I said, the Solar System is in the center, and in the interaction of the fields creates Earth, Saturn, Jupiter and the Moon. We call it a joy, we call it sadness, we call it a banana, different magnetic fields, different strengths. And in that process.. ..

And then this allows us to create this new condition. Where we do not need to put the sheep in there, a banana in there or something else, or an orange there. With the plasmatic magnetic fields, which carries the totality of the energy fields of the Universe, we can feed this into the system, and the body interacts with it and creates that condition.

And the biggest, biggest point for us was to be able to understand and develop a technology which can be this. Where in the present time, (:28). we have managed to create these fields in these two units, we call it, like a headphone, and create the fields that we can feed the body of the Man, the emotion of the Man. We can allow even in that process… .. Then, what this allows us to do is that, up to now we came with the center of the body and we took the fields of it. We have a condition of another magnetic fields, which .. we have created. And the interaction of these we create different energies. One banana, one orange, one thirst, one love, one fear.

The biggest problem, the biggest development was to find a technology which now we can feed the body of the Man in the space. And once we get to this point we have reached the major breakthrough. (:30). And now we are at that point. Tests done here in Linz, and tests done in past two or three months with many of you, hundreds of you around the world, we have collected enough data. And we have developed the technology to create this, 2 centers around your Soul, or central energy, the "Sun," that we can create condition of the feed of emotion. Allowing, creating fields weaker than what we call, its environment, that this black spot, as you see it, can start growing and growing (draws expansion of STM).

Where up to this point… where the headphones were we feed you. And from this on, the fields created by these Head Units, allows your Soul to expand. Go to Mars, go to grandpa who died years ago, in touch with Soul. Now,

you understand that this process has created a new dimension (D) in the world of science and technology. (:32). The whole secret was to be able to create the plasma, that it matches the plasma of the STM, the central Sun of the Man, and to bring this point interaction. That in this part (inner core) to be the feeder, and to this part (farther outside center), to be the supporter. But as these units are plasmatic and they are in the center point of themselves, it's no problem for them to do so.

It's taken years of research, I spent nearly 40 years trying to make what it is (what we have here), to travel in space without systems, without flying system. And now, once we understand this, we understand we can fly. In a way we can go to, the flying is the job of the birds. Now we can go to any point in that direction. Locking into gravitational magnetic field of the position, the love of the mother who died years ago, Saturn, Planet Zeus or another Galaxy. Because the plasma is like two magnets, magnetic field of it interact. And this could be the Soul strength of the field of the mother, or the strength field of the position and time, or a vitamin we call it, or an element. And this is where your system, your Soul is. Now we understand this.

Now we have come to this point was to develop this system, (:34). to create this monster that it can do everything. And in the process of time to give us the chance to be able to go through this expansion of the STM.

For the first time today, for the first time today, we have the ability and the pleasure to give you, and to show you for the first time these units. Where in fact it is what it is. The STM within the center and the elevation of the STM within it. In a simple way you can communicate with anyone. You don't need to talk. You don't need to create emotion. You reach, the knowledge of the Man has reached that point. Where we need, we can connect.

We don't need to become Man of medicine. When the system is there, when the Soul says what it needs. It wants the emotion of love to be given to the lover. You don't need to talk anymore, because your lover will feel this. Because you again radiate this love to the

lover. And then you understand how much, in what level the technology has been developed.

I'm sure in the coming time, in the coming decades and years, these will be miniaturized, to very small system within under the skin of the Man, within around the ear, (:36). where it will create that condition. As I said many times, when you look at the first calculator, the first computer, which is in Manchester University nearby. It does simple addition, multiplication, it's a two story block system. This is that two story block. 50 years down the line, we have computers within our pockets, we call calculators, and we can do magic's with them. This (holding the black Head Units) is that "two story block, calculator," the first computers.

And very soon, Keshe Foundation and other scientists will develop this to a point that we can have whatever we like, from the space. We can go anywhere we like, zero-time, you feel it, you're there. Many of our people who've been here have told us.

There is many of the pictures of that background, is that a camera (The TV screen behind Mr. Keshe is replicating his image on screen). This is many of me, across the Universe in different time, and position and places.

And it will come to the point where you as scientists of the Keshe Foundation, and as scientists of the Space Technology, the new plasma technology, will reach. The system in the future will create its own power. In the future, it will be miniaturized enough. .. (I'm back again in hundred pictures.)

And you will see… At this moment of time, (:38). we have developed a technology which supports the energy and line of communication with this. And it will bring us to the point that we see how things are done. This is the new energy pack (pointing to "black Console (very small) goes with headphones), with the communication system. Built to work in conjunction with this system. Where it will power supply you. At the moment we connect this (black Console) to a mainline electricity power. In a short time, with what we have developed back in the stage, back in Keshe Foundation laboratories, these become independent generators. This is what we launched as gas electric power units. Those units are working in our laboratories, we have to miniaturize it and build it within this. Then this unit with the composite gravitation magnetic fields which produces, as it's doing now, will give you everything you need from transportation, transmutation, hunger, wellness and everything else.

In a way you use your Soul, you use the central energy of your body to be able to do this. The combination of the two today allows you to make that leap in the world of science and technology. The combination of the what we call, which you have never heard of. And in a way, goes back to what Tesla, the beautiful Tesla did. Tesla developed the technology, gave it to the Russians. (:40). Set the system in Moscow, and ran an electric car in New York. This is a small Tesla unit. Where the system through development of the technology receives its energy continuously from the source. In a way, you don't need

to charge it, as it's continuously receives what it needs as energy, the same as your body does, from this transmitter.

Today, we have released two new technologies. One is zero-time communication of the STM, with it what it needs. And for the first time you see the repeat of the work of Tesla, transmission of energy, and to be able to support life. This time, we don't drive a car down the road. This time, we give life to Man to walk on the planet, or travel across the Universe. It's what you call, remote energy transfer, what we call, remote transmutation transfer. This is a working unit, and these are commercialized units. Many of you have been to Keshe Foundation and you've seen on the store, we call it, the Compact Units. These are all getting developed further. Even what we see now, the one generation, one production it'll be different than the one done next week. Because we immediately implement the new development into the next cycle. (:42).

So, what you see here and we have shown in a very clear way. We have connected it to show you something very strange with what it goes, as a power generator, a small mini power generator. Where we have connected the heater, and the light into the system, where it shows it's in a working condition, and still saves you some energy. Then it goes back into showing, that even at this level we are saving around 50%. So, whatever you take, a two kilowatt heater, and 60 odd watts of energy, you will see the total amount. But on the (meter) reading side you will not see that you, will see if I can light it up, 1399 kwh. .. Where you have 1380. And you have a two kilowatt heater, you have…

<<< Problems with audio >>> (:44).

K- So what you will see is, even we are pulling over two kilowatts of energy from this system, plus it's MaGrav power point. It is and it has become…

What we see now is that the 1360 odd watts of energy. Where we're actually pulling over 2 kilowatts, plus the supply and demand of the energy by the system of the communication. So, what we have put in, you see it light, you see the interaction, you see the physical, what we call, work of the system. These are the new communication systems.

As many of you will develop and use these, you don't need to make a communication by the telephone. You'll start learning to trust your emotion, and what you feel. You call your brother on the mobile phone, and you use one of these headphones with him on the other side with the same, you don't need to talk, there is nothing hidden, (:46). there is nothing emotional, or whatever it will be hidden. You can feed yourself while you're talking, you'll never run out of energy. You never comes to the point that it is unheard of today, that you don't need to sleep. The sleeping time is the repair time. The sleeping time is for us to recuperate from the cells. Where when you use this, that's done automatically.

A lot of things with this new breakthrough technology will change. In a way we developed it for space. We cannot send food to our people, like the (Space) station today. We cannot send other things. But we can transfer the energies down the line, Cosmic

Rays, the way we produce in these systems. And this today is available. And the more and more of you using it, the more breakthrough. But in a way we play with you a carrot and a stick. The carrot is, you get some energy saving in the house. And the stick is, that you've got to start learning how to trust your emotion, your Soul and start traveling the span of the Universe. There's a lot of learning. We learn how to drive, now we have to learn what we always knew.

These units will change a lot of your lives. And in that process, you will come up with a new solutions, new knowledge. As this is not only connected to the dimension of the knowledge of the Man, you will gather knowledge from the Universe. You don't speak Chinese, but when you speak with a Chinese scientist, he understands everything about you, and you understand everything about him, what he is talking about. (:48). But the limitations not only with the Man. Man will have access to the knowledge of the Universe. Don't forget where we went back on the whiteboard. The circle expands, it's not just another Universe, it's another entity, it's another dimension of knowledge and technology.

So, today, we have brought in a new understanding, and a new way to communicate, new way to produce energies. Because this system produces Cosmic Rays and electric current together. Where this system uses Cosmic Rays only. We need one to feed the other. As I said, in the coming generations, you don't see any of these wires. The development of the production of Plasmatic, current Plasmatic energy in the laboratory, which is created for the huge Enhancement Unit, will be transferred, miniaturized to this for the next few months, maybe a year or two. But now we have that capability to produce and to use.

Many of you today use this technology through headphones which we give you. You joined 16th, you joined the 20th of January session, you are joining us on the 19th of February session for food. At the moment, we reach you through your electric mobile, electronic mobile phones and electricity. Those of you who purchase these and you receive them in the coming weeks, you will see the difference when you come to the next session. You'll feel all that in one go? Test it and see how you feel about your feeding. (:50). If your eating habit has changed, if your emotion has changed. Did you have a condition, which doctors told you there is no solution. And your body, your Soul finds a solution, because it created it, itself. Now, that emotion which created the cancer gets handled by the body itself. Why did I do, what I was short of? Was it an emotion which created it? Or was it another? You find your solution in one system.

And the more interesting point is, how would the humanity take this? To you it's like a headphone. But in the coming months and years it's a "game changer." Do we need the hospitals? Do we need the cafes and the restaurants where we eat the body of the other entities? Do we need to suffer from the emotion of the love of the lack of, what we have not received from the father and mother, because of the misunderstanding? Where through this, there is no misunderstanding and everything can be sorted, that does not lead to the Fibromyalgia's of tomorrow, cancers of today, and many other things.

This is not a simple headphone. This is a breakthrough in science and technology of the Creation. Where it's hidden in it, it's embedded in it, everything what Man needs. In a bigger version, if you can turn, we introduced you the bigger version of this some years ago, as the Enhancement Unit (EU), to create this condition. To create, to bring that position in science and technology. (:52).

In a way when you look at this, this is the science and technology of five years ago. Took us two or three years to build it, was shown two years ago. This is where you call it, the "Body Enhancement Unit." And now we have his brother here on this side, we called it, the "Material Enhancement Unit." Now, you see the combination of the two, and in development in knowledge, science and technology has brought us this, and much more. You see in the background, if you focus, huge reactors (inside the EU). If our people can reach inside you see it. These reactors to produce energy for food, for travel, for everything else, or in these places. Material Enhancement is the same knowledge. You have the STM, and now you see inside the Sun, the same structure. Now you have the Enhancement Body, where gives you what you need in your body.

Now you understand how much the technology has developed. And it's not just out of the box. It's development over the past few years in Knowledge Seekers and our scientists to understand. To miniaturize the material production, which now your body does inside it. And Enhancement Unit which does what you need in the body, emotion and everything else. And brings you to this point (the new Head Units). This is what we've been here for. And that's what has been created. And this is not something that we suddenly came to show. (:54). You've been with us over the past 10 years. And you've seen a step by step of its development.

So now, this is where we are. A major breakthrough in science and technology. In our energy pack system (black Console), which creates both Cosmic Rays, plasmatic magnetic fields. Where in a way is the table console. When you put your system together, if you look at it, it's not far from what you people call it, "the (video) gamers." You will have your head console. And you have your energy console. But in so many ways, as you "gamers" know, and we know many of you, you have your fridge next to you to keep your drink cool while you're playing your games. And you have the heater to keep you warm in the room in the winter, and the light and energy for your computers. And you're still saving energy in consumption ??.

Now you understand the change in science and technology. But for it to be accepted, we have to find a way that is accepted already. The Console Unit and the Head Unit. This time you play the game of Universe and not the war games on a computer game. I wonder if in the coming time, our Soul will allow us to play war games on a computer consoles, where you have these systems on the table. (:56).

Would we wash out the killing, and the fighting nature of the Man within his Soul with a structure of this development, of this technology? Would the Man become a peaceful Man? Would we see conflicts in the home, the houses between husband, and wives, and children, and parents and within the society disappear? As we all gradually understand,

certain emotions in our body has no room to grow. This is a fundamental change. And this is not, we're going to develop. It's developed and commercialized, and it's getting developed in a bigger way.

I hope, I hope many of you understand what is actually on the table of the knowledge, the science and the life of Man. I'm sure many of you Knowledge Seekers will come back to us and you say, I felt this, I thought of that and it happened. All these suddenly, accidentally, goes out of the way. Because now you learn to live, to understand you have a physical life, and you have a Soul life, which you always called it a dream when you expanded it. Now the dream becomes a reality. You have to learn to live in both dimensions, in where your Soul sees, and what your physicality does, and how they come together.

We'll see the next step in development of the science and technology. Now we'll go to another point. Many of you have been with us, and you came through the what I call, the original systems of the energy reduction, and you called them MaGravs, and you built them with no success. (:58). You built them with no what we call, hope of it, and some of you got it the right way, you saw the reduction. And some of you got it the wrong way, and you could not do. …

In that process, we started to develop technologies for you to show what's the next. And the next thing which is affecting you directly today for every life, especially with the rise in prices of energy, electric energy and gases, is to deliver the technology, which can actually saves you a lot. These are not, saving that you're cheating.

These are the new hybrid energy units, where the box within it will absorb the energy from Cosmos, absorbs Cosmic Rays and converts it, makes it available for you to use it, what you can convert into power and electric. We have shown this and as you've seen, we always used to show you a Unit. Now you see a mass production. This is what now is getting delivered, this is what is now getting produced, and getting delivered on the mass production. So, what does this do? What do we have here? We have here a 400 .. watt refrigerator. We have here a 2 kilowatt full blast heater, and together is about 2.3, 2.4 kilowatts of energy. (1:00). …

What we see, the system is using only 1100 kilowatt, which is 1.1 kilowatt. 1069 watts, 1.1 kw. So, in a way the two system use now, round about 2.4, and we only take 1.1. About 50% reduction direct (from grid). But this system has never been shown before, this system has another side to it, which is the lighting system. We see 110 watts of energy on the floodlight, and 66 plus is about 170 - 80 watts of energy. What we see on the screen is 113 watts. And the more you use it, the more it pulls from the environment. So, in fact, we are using round about 2.5 - 2.7 kilowatt of energy, and all we are tracking back (using from grid) is only 1236. 50% reduction.

And this is not something strange, this is the power of the plasma. Where we are used to hybrid cars, we have petrol and electric. Now, we have to get used to hybrid energy

systems through plasmas. Plasma creates half of it and the, (1:02). what you call, the power supply pays the other ?? half.

We have access to a technology to create a total energy generation (free standing) without depending on a power supply from outside. And integrating it with this system will allow us to use kilowatts, tens of kilowatts of energy, with a small power supply. That power supply which are call, gas electric unit, when it's added to the house in conjunction with this, will make you independent.

In a future time, in the very near future, these systems (white Compact power units) will be fitted with what we saw in the headphone units. Where through these systems, with a module, which you interact and we build in it, you can have the food supply, you can fix the emotion, you can fix everything else. And in conjunction with the transmutation transportation system, it becomes part of the energy unit for your flight system. (So the white Compact units are different then the smaller black Consoles. The White Compact units will have modules to add on to, to do everything else). Which this will bring the change.

This is what we call Plasma Enhancement Unit. Now they're available and you can see it, we deliberately brought it here, they're getting mass produced and getting delivered. What you order depends on the backup of the orders, we deliver. And it will be expanded to the others. We can deliver the whole technology in a very near future as part of the expansion of the two, communication and the energy. (1:04). Food, .. part of this energy today you see as light, food is energy. If you can dissipate that energy through this system in a balanced level as a body, you have your food, you have what you need and everything else.

This brings into play a new understanding, a new conversion. As you see here this, we have 50% reduction on the total. There we get 30% reduction. But this, the main purpose of this portable units (black Consoles) are the application in Space Science Technology, in understanding where we go. How we transmute and transfer, and how we develop the technology further.

As I say, we came from those huge units in the background, the UBESUS - Body Enhancement Unit, and the Material Unit over two years, to this. What would happen in next two years? And don't forget, at this moment of time, Keshe Foundation is the only developer of this technology and knowledge. What happened when the mass scientists get access and understand it, and take it to its next level? Maybe next four or five years, maybe next few years, we'll see massive changes. Do we see cars on the road, when you can transmute with this unit? Would we see hospitals, (1:06). when the energy needed for any correction of the health will be provided by the body through the Soul itself? Would we see prisons, where through the correction of the emotions, Man will do no wrong? Would we see judges and courts, as when we don't do wrong, there is nothing to judge, but except ourselves?

And then this is the new era. And the beauty of it is, as I said, we have seen ourselves, we played ourselves. We've seen our children playing it. We call it the game consoles, with the headphones. Now we see the life consoles, the creation of the fields of the Universe that can create life, can support life. And what else Man will do with it? Where would we end up? Would we have centers that gives us a specific field strength for a specific condition. As we buy Apps for certain games and certain applications on our mobile phone, they'll become suppliers to understand how to create fields for specific emotion, then you add to the console.

The change of game is massive with today's presentation, presentation knowledge. This is not what it might come on the 20th of December last year, 160 odd of you used the electronic version of it. On the 20th of January of this year, you met with your prophets, with the Soul of your prophets. On the 19th you will eat from the "chalice" of the energy of the Universe. (1:08). So, it's already, it's videoed, it's already part of you, it's already been tested by many of you who came here and went through the whole structure.

As you can see on your screen. The very last picture, the very last thing at the entrance is the beginning of the Nano technology. And then as you come down (the stairs), you will see the end up to today. From the beginning to the end. The beginning is literally virtually above you (on the top floor). The introduction of the Nano technology, introduction of Gans's. Then below (it on the bottom floor) you see the application of some 40 years later in development of the space technology and science.

In a level that no Man needs to kill, to eat to gain energy. No Man need to destroy another life. And no Man needs to kill himself from inside through his emotion. But this brings another point. What would be the extent of the life of the Man from now on? How many thousands of years would he be able to live? As you see the picture, the first Gans's. When we introduced it years ago, everybody jumped. If you go a bit more to the left, you see the first Nano plates, when we introduced the Nano technology with the Gans's. You'll see that the beginning. The way when you enter the Keshe Foundation Exhibition Center, the plates on the far left, and then the use of, creation of releasing of the three books. And then it comes literally when you go back to the Gans's to the next stand. And all you need to do, come down 90 degrees, or straight down to the floor below, (1:10). and you'll see the development of the same technology sitting on the table.

And nothing has changed. It's just the understanding of the technology, the knowledge of the Creation, which has changed us. The rest of it has been a journey, for many of Knowledge Seekers to learn and to understand. I hope those of you who receive these Consoles, and you're happy with a little bit of saving of energy, will come to understand the travels of the space and Universe. And those of you who come to us in the coming up time, will travel the span of Universe through a collective travel of what we call, STM together.

We're showing you a major breakthrough in science, major breakthrough in technology. And understanding how the collective essence of the knowledge will bring us to the next step. In couple of weeks, maybe next week, we'll introduce you to another new systems,

which is part of this system, but is the beginning of the structure of, even bringing the electronic and electrical world of today into the plasma. We need that a step of conversion. We need that step of understanding, where we use the present developments in electric, electronic into the plasma technology with one step. That bridging step, that transformer and transformation will be shown next week, and how one, you can do on a matter state as a tabletop Gans production, and one as a new what we call, transformer. (1:12). The new transformers will be introduced in the coming days, we hope to do it next week. That with it, we'll be able to show the next step, the bridge between plasma, electronics and electrical systems. We need that bridge, otherwise it become two separated things. And we allow gradually scientists, and engineers and commercialization of the technologist to come together.

In a way today, we have seen the what we call, a new console, a new game play. And it is there to be enjoyed. Hopefully, you'll enjoy these consoles more than we do, as we generated them, we created them. And hopefully you will tell us what happened to you. I haven't slept for three weeks. I haven't eaten for three months. I have no illness. Where me, myself, I've created that for myself. Independent, totally independence from anything else. This is a breakthrough in science and technology. It's not something else.

As I said, we were molecular, we became atomic, we became nuclear. And now we become plasma, as we have endeavored to understand the world of Creation of the Creator. As I always said, and it's on the back of the first book. It says, "the Creator is Creator of all, and Man converter of some." And this is part of that little some of the knowledge of the Creation that we have tapped into. (1:14). Maybe with this new generation of scientists will tap into a bigger dimension of knowledge of the Creation, which we have no knowledge up today. As we didn't know nothing about nuclear 200 years ago, and we knew nothing about plasma some 50 years ago.

Now we are becoming a master of playing the game and expanding the technology. As I said, as our camera can show, the knowledge in those huge containers, UBESUS, material production has been reduced, condensed due to knowledge and understanding to such a small system. Then what will be next? Where would we stand in a couple of years in such auditorium to show you another breakthrough. Creation of new lives. Creation of new dimensions. Space travels of the future where you don't even need to get into a spaceship. Where the way you do every night in bed, and you call it a dream, expanding of the Soul to another dimension, and then give it physicality in that dimension.

These are not outreach. You do it every night you call it a dream and you go and see the mom, and you come back in the morning you wake up, nobody knows where you've been. Because all has been energy of you. And now you can call mom, you don't have to wait one day your dream. You don't need to wait for one day, I might see my mom in my dream. You wish it, you arrive it. And you see why mom doesn't want to see you for seven years, when what happened that it created that condition.

Where now you have access to every knowledge. Not only Soul of another, you have access to the Soul of every planet, every star, whenever Universe man can dream of. But

Man has to train himself to get to that point. (1:16). And we have shown you the very first tools, and I'm sure these two items will become items of museum, when the Man for the first time understood how to expand his Soul, how to feed himself through his Soul, and how in the dimension of life managed to create systems, which allows man to become what it is.

I put this back to the Knowledge Seekers, if you have any questions as usual, we answer we take a few minute break as usual, and we come back to answer your calls. Thank you very much. If you take us to a break please.

<< BREAK >>> 472 KSW February 13, 2023 (1:23). BLUEPRINT

K- I think you'll see, there's always a live camera in the background you can switch to it. This is the Keshe Foundation Exhibition Center in Linz and where we show our technology in the best of its ability. And as I said, if you look in the center, you see the very first reactors in the space reactors, which were tested as a plasma reactor technology in Iran, (1:24). some nearly 15 years ago. And we have jumped from these reactors to move objects, not to do to move the man himself through his emotion and physicality. And it's a one camera if you slightly tilted to the right, you will see the original flight system, you'll see the UBESUS, you see the new flight system, the new energy developments and the Gans production all under one roof.

The technology from base to the top has been created by one is what we call, the structure of the Keshe Foundation. The beauty of it is, you all been taught, it’s not something kept, that it will die when somebody goes. Everything is possible for all of you, that you can develop yourself. We taught you how to make the Gans’s, we taught you how to make the Nano coating, how to make the MaGravs, how to make everything else. But we look at the technology in a applicable, in a universal condition, you look at the technology half stuck to man. And this is the problem.

The whole structure, the whole understanding of the technology comes to one's understanding of the Creation. You are the "last man standing" and not us. You are the one, the last man standing with need for food, need for energy, need for health, need for travel. It’s you who will decide, sitting in your living room, I want to go to the supermarket and you'll be there, not for us to take you there. This is what is to come.

(1:26). This is the evolution in science and technology. And we are all part of it, it's not exclusivity. We have thought it enough to not to become exclusivity.

Any questions?

Q: .. We are from Serbia in a small city of ?? Smederevo. I was looking at your 50% Compact Plasma Enhancement Unit, the unit on the right, the white one which you just demonstrated. I was wondering what's the limit or the maximum number of kilowatts of power, which can be pulled from it. What's the kilowatts of the appliances you can attach to that?

K- There is no limitations. What your electricity board allows (what the fuse of your outlet allows) you to pull. We had this experience here this morning. The setup you see was set up, tested since Friday night. And this morning, we added two kilowatts again, our system holds. But the building system fuse blew up, because it could not hold. So it depends what operations you put. These are three and a half kilowatts plugs. We have literally plugged this into one plug. (1:28). All the systems you see in the background is on one circuit, and this is the problem with all this. That you get reduction according to the need, what your system (electric lines) can support. Not what this (our) system can support. You can go up to usual connecting… You see, something which is very beautiful with this system is, you have not noticed this system, or I should explain it in a different way.

For the first time you have one input system. Can you put the camera on this, please? … You have one point which you connect to the main here, we connected to the building's circuit. If you look here at the bottom. .. .. If you look, I go in the back which is easier to show. In the system you have two exits. You have right and you have a left exit, the blue and red.

The blue in these systems, (1:30). you connect to the load, the heating, the cooker of the building. The one on the right (the red side) you connect to the lighting system. This is what you never had access to, this allows you a totally different usage. Some of you when you plug your MaGravs in into the fridge, and you said there is no much saving, or was it spreading (it was not spreading through house). Because you're not picking up what was on the heating side (all the electric heaters in house), all of it was on the cooker side (electric stove), and what was on the lighting side.

For the first time you have… These cannot be used, placed, by normal people. You get an electrician to come in to connect you to after the meter. And then he connects one phase to the blue side and one to the red side. Then he connects one into your heavy load, which is your cooker or heaters. Then you run up to 70 - 80% reduction over time. This is how it works.

This is what we said that these are new systems. This is not the old, it's not the system you had before. You cannot plug to one side of it. You plug your lighting system to one side (red side), and you plug your load with the (electric stove) cooker, the plugs and

everything else to the other side (blue side). (1:32). This gives you the maximum capacity, and then it depends what your (fuses of the line) system has been set at, 16 amps, to take (or whatever).

So, this new system is truly creates not only a saving, but because it runs both on your plugs, usually on the ground floor, and then it runs on your light system and above. This is how we explain to you these systems will be brought in to create change of environment (you have fields circulating at the top with the lights and then at the bottom with the heaters).

In Compact systems of the future, you will see, this is how you create energy. Even for heating inside the room without actually heating it. (Heating comes from the fields not the heaters). This is the change. ..

It's the same process with this unit (small black Console). You see plug on two sides. You can't plug these two into one plug, into the house, you blow everything up. You can put an extension (cord) and take lighting, --- , and (then connect your) heating or whatever on the other side. You cannot plug and play into the same plug. You take one from the main, and you plug these back into main. You plug these into loads, into the fridges, into the what we call, lighting system. Then you see the benefit across the house. (Note: to get the field circulation you might have to setup a separate lighting system with extensions cords, because lights are sometimes wired in with outlets).

You cannot plug this into one plug, (1:34). in the one side of the house, and the other one to the other side. This is a new technology. That's what we said, it's a new breakthrough in science and technology. It's not two outlets and then you put two fridges on it, or plug it back somewhere else. This, the red goes to the light system. The blue goes to the load systems, heaters, cookers. (Note: the goal is to create a field environment not save electricity).

It's the same with the new power generator. This is how when we tell you, you create a dynamic magnetic fields in the house. And these, when you put it on the table top, don't plug it back into anything. Just put a plug on it. The fridge, a lighting and it'll do its work. For the first time we covered the two. (One option is to plug the frig into the heater side and then with extension cords connect to a light on the ceiling, so you create a field environment in the room).

When you bought, or (made) the MaGravs, and you plugged it into the plug, you only had a benefit of what was used on the plugs whenever it's used. (With the old MaGravs you only had the benefit of plasma, is when electricity was running through it).

But these systems have to be connected to the light, and the plug in a separate way. On the table top, you can use it the way we showed. But this saving is what is sitting here. Here you see a fridge, gamers always have a fridge, that's why we call it, a "game tabletop unit." Then you get the benefit of what's in the plugs, you don't get the benefits of what's in your heating of the immersion heater, and the heating in the what you call it,

the other side of it. (Meaning you can't plug it into the heaters hard wired into the house, unless you get an electrician to wire it in). (1:36). We put it down, and that's what it does.

In a way, if you look at it, it has a left or right. If you look at it, your Head (Units) ones have a left or right. The two unbalanced energies within the brain of the man creates that dynamic field of the operation of the man. We follow the same science, the same technology, not just use what it fits. That's why I said, there is a lot of background technology in these, that you cannot see.

If you buy something like this, and it's not bought from the Keshe Foundation direct, just throw it (in the bin). It's your problem. As I said, when we deliver technology, nobody can copy it. Open it up, split up, you don't understand what's inside it, because there's so much plasma knowledge of Universe has been used in it, that you cannot even dream about it.

The time is gone, the Italians stole the Keshe Foundation selling some Gans's, and everything else. (They had to) sell the peanuts, we came here to do a different job. That's where we are now.

Here, these are the Gans's to do with, what we recently promoted, for the trial with the knee. No one can copy this, impossibilities. The same is with the new Pads, which are promoted now by the Keshe Foundation for the enhancement is different than before. (1:38). The people who still produce the Gans's, and plates, and play all sorts of games with it.

We are in one track mind, to take man to space as a peaceful man. And understand how, which section of the brain of the man who works for peace. And that's what we developed.

When you don't have to worry about the huge bills, you don't have to work 10 times more just to pay the (Oil) Sheikhs of (Arab) Emirates. You spend the money on your children. When you don't have to spend tens of thousands, whatever in the future on something else, which the technology gives. Why should you? Why should you spend 18 hours on a flight from one point of this planet to another, when you can do it in 18 seconds? Why should you pay thousands to sit in the first class, and then cram up in the back in the economy. By the time you land after 18 hours, some of you end up with all sorts of problems, end up with a heart attack, everything else. And how many of you take your trip to see someone, and when you get there it's not there. This time, you know the Soul it there, physicality is there, and you can enjoy it.

These are the realities of the new science and technology, it's not philosophy anymore. It's not something what we call, theology. The system delivers, does. You came here, you wanted to see the mom, you went through the system, you saw the mom. Now the system is here to do the same, maybe in much more effective way.

You are not entering a fairytale science. You're entering a science of Creation. (1:40). A science where you have been part of it. It hasn't come developed by somebody in the back stores of a laboratory, and then ?? attacks you on CERN and then you all get diseases with it.

You have created the knowledge, you have created the science. This is why we taught this way, to carry you with us, millions of you. That when technology comes, it's not like the time of Egyptian, only Egyptians knew and (the knowledge) died with them, why they made the pyramids and the rest of it, and the rest of us are philosophically trying to explain it.

A game console, a game of life. You have your MaGrav system at home, and you thought you understand it, and you played with it. You understood about some fields and things you played with. Now, you have a plasma system, which literally can… if you understand how, and we develop it in further steps, to use it the appropriate way.

If you look at this unit, and understand when it connects to the lighting circuit in the house, and to the heating and what we call, load side of the house. What have you created? If you look at it, in a way, you are in self made UBESU (Enhancement Unit), that's it, in the background picture. Now, you create it (the environment) in your house. This is what I said, the structure of the science, and knowledge and technology has changed.

How many kilowatts can you use? (1:42). Do you want to hit the next door neighbors with the floodlight from outside? If you tell us what you want to do with it, how many kilowatts and your cables can carry it, we can do.

We now commercializes for commercial, for factories. Different scale of production, different materials, we are ready to fit commercial units. At the moment a lot of factories are going part time, because of the heavy fuel costs. A lot of companies closing down, because they cannot afford three four times electricity charges. We put those in, reduce it, costs back to what it was last year. So, the game changes. But the beauty of it is, how would the workers in the factories using this technology will feel? Would their emotion change? Would they all (take off) -- less -- sick (days)? This is what we tested, this is what we seen. When we try things, we look at the totality.

I was talking to people who were with us, and I know they are in the background. Because they came public in one of the teachings, about the farming unit test which we are doing. And what happened in this farming unit. They painted Gans's the way we instructed, a pen with the pigs on it. The piglets when they are born, and they left one without painting it, last year. And the figures are out. Now we were told, we were waiting for the final figures ?? (results of the trial). Their losses with the infection on the side which was not painted has been heavy. They're counting how heavy has been, how many have been damaged. How many, out of 400 - 500. This farm produces about two and a half thousand pigs a year. It's part of the what we call, trials of the Keshe Foundation. (1:44). We were there, we set up a lot of things in there.

The (pig pens that) were painted with the Gans's, they had 400 Pigs last year in it, going through. Losses, only six. Technology, we advise how to be done. It was set up the way it was done, and it's less than, around about ??1% (losses), which is unheard of in the pig industry. We know, we'll get the data most probably around about 20 - 30% on the other side (where no Gans's were used). Where it was Gans's. It's in the same farm, the same parents, the same mother pig, the same thing, the same food. Now we're getting data out.

Have we changed the Soul of the pig in that system? Have we changed the environment of the place. Have we created a condition that the pigs are not getting infected. The energy level is higher, the energy level handles the viruses, where 20 meters, 50 meters away in the same farm, 20 - 30% mortality. It's a break and life for a farmer. Now this data is done in Europe, it's not outside. It's a few 100 kilometers away from us here. So, we see it, we have a permanent person in the farm, as one of our Knowledge Seekers, which is supporting and helping with the farmer. Now, with this system, we painted, and we did things with the water and everything else with the pigs.

With this technology, (1:46). would we change the life of the man from 40 years of misery, to 200 years of pleasure? Would the 65 year become pension goes through the window? Insurance companies cannot take a pension for 40 years from you, and pay 400 years back to you. Would your needs be the same? Would your governments be able to support these kind of expenses?

When you don't get ill, do we need to keep so many nurses and doctors? Would being a doctor become a rarity, because we don't get ill anymore that way? Becoming a farmer would it become a rarity? Would it be a shortage of people in space for us, because too many people want to go?

Now this is on the table, this is literally on the table, it's here. It's not going to come. So, how many kilowatts, do you measure it by electric, you're saving? Or do you measure it by health? As the wife of the same farmer suffering from a disease for years, has said, even if it didn't work for the pigs, the what we call, recovery, which the wife has received from just consuming and being in the environment after years of suffering, was worth investing it. We are not looking at how the corn grow, how many pigs saved. We are looking at what effected the environment, what people changed, did the animals changed. We got the answer very, very softly back, that it was worth investing, just for what it brought in change (to the wife's disease).

We didn't make systems for the human consumption, but being in an environment of it, (1:48). using the pigs which they fed themselves with the technology, has brought changes in the house to them. This is what we are looking at. This is not that, how many kilowatts can I (save)? Can I now have what you call it, plasma power generation of the Enhancement Units, and go to megawatts getting all the electricity in the house and give to the neighbors. It will meet, but would your electricity panel (house wiring) hold on to it? If you can go on the whiteboard, please. Then I explain to you exactly what does this mean with this new plasma. You will save hundreds, you will save thousands. Because

we see it here, it’s live systems are here. It’s not something that we're going to show, it’s going to come. These system you see on the stand behind, these are getting delivered to you Knowledge Seekers in next few days. You are becoming the users of this technology. And you have to understand how this works. How many kilowatts?

This is your unit, this is your unit. You have a cable to go out, and you have a cable to come in. You connect this to the lighting system of the house. So, you come from the above. You connect this into the plug system of the house. You're running low. You have your immersion heaters, and whatever else, (1:50). which have to be connected on the phase right. Now you have created this environment. (Fields are being created on the top and bottom of the room).

When we release the next generation of technology, hopefully next week or in couple of weeks, depends how much our people can go to sleep, if I'm correct. You will see the first wireless lighting system. Where these systems you created now generates plasma (in the whole room). Now you live in an environment where you might not need, you don't feel hungry. How much does electricity cost? Or you have happened to have a cancer and you walk in this house 24 hours a day. And then you go to a doctor, he says, sorry, there is no cancer. How much do you value this? This is the game changer. Not how much electricity, what wattage, or what kilowatt I can put into it.

The knowledge, technology, the way it’s going, soon this will be in the hands without this (the wires). Where we produce, generate the gas and electric within this system. We’re already doing it in our lab. And that's what is to come. (1:52). You can hold what we saw, an LED light in the hand, and see it to light up. Where you need so many milliamps, and it's not there electrically. But it is magnetically, plasmatically.

The leap in the science and technology is very rapid from now on. If you understand this, and you place it in a Tesla car, you never need to charge. This technology for sure will go to China. One of our Knowledge Seekers who is very close and always been with us, now works for one of these companies. And they will go to China. I'm traveling to China in next few weeks, and transfer the technology of the what we call, transportation to the Chinese motor industry. He's a Knowledge Seeker we love so much. This is the response to his request. It’s part of now automotive, electronic, electrical cars, and it will be done soon.

Now that China is opening up, we establish a relationship back to China very rapidly, where we've seen freedom of technology development. Now you understand. You connect to different parts and it will come different ways. Keshe Foundation now has a very clear structure in how we can transform the plasma technology into knowledge, science and application. Iran develops, delivers the technology. Austria develops research and development tests the technology, (1:54). and China will come as part of the major users of the technology.

This way we protect knowledge not to be leaked out. We can, in a very short time. As you have seen you traveled... We can supply into China, people who have these systems

in their head, directly from Austria. There'll be no transfer technology stealing. The way we do now. We are doing this in the background .. with a lot of our work. So, we develop it this way.

In a way, Tesla transferred electric current. Keshe transfers a plasma current. Where the two in some places cover (overlap). But the knowledge is the same. In the systems which we develop now, in reality, we have embedded and embraced inside with Tesla. Which the new systems will have both transmissions (electrical & plasma) at the same time. This is something which we have already developed. So, there is a lot to come.

One of the biggest problems was to enhance the plasma in its transferring and transformers. And now we have achieved, (1:56). our team understands and develop the technology. So, that becomes the Earth and you, its citizens anywhere in this planet we can reach. Beginning of One Nation, One Planet, One Race, where everybody. It doesn't matter if you're in the jungles of Amazon with no education, or you're the top scientists, or a president in the White House. We all receive the same knowledge, the same energy simultaneously at the same time.

The way the Brazilians have done, where in jungles of Amazon , thanks to work of people like Rafael and the rest of the Brazilian community. Small villages, groups in Amazon are using the Gans's to overcome all sorts of problems. The same as you lot do through Keshe Foundation, and everywhere else.

Now, the technology is exactly where I wanted to be, at the reach of everyone, with the knowledge to be available to everyone. Now, how many kilowatts do you want to take from the system? It's not any more kilowatts, it's what's my life worth? How do I feel, and how I am? And it's not going to be something to be in the future, it's on the table right in front of you, you've seen the what we call, you bought the consoles to play games. Now this is the "game of life" for all of you. It's not, would not be coincidental, I had a diabetic last month, now I don't have. I was hungry all the time, I don't eat, I don't need to sleep anymore, because I receive enough energy, sleep is not needed. (1:58).

The technology is in hand of people, it cannot be hidden. And now it's back to you. How many kilowatts of energy can I use? Megawatts for your food, for your drink, for your breathing, for your travel, and the rest of it.

Any other questions?

Q: .. If I may add an additional question. And thank you for all the answers. I understand that this is more than just kilowatts, it's the whole life, and everything, and the health. But, let's say, additionally to having one unit for the house, as you recommend, I get to purchase a secondary unit for the purpose of a vehicle. And for example, I have ten kilowatt generator and a five kilowatt alternator connected to each other. And the output of the unit powers, the motor. Then the input of the unit can be taken from the generator, which is connected directly to the motor. Would this give me theoretically, five kilowatts

of additional, or even more, they're just extra? And can I turn this into an "off grid" unit in that certain manner?

K- You can do. But the thing is, you have to understand. You always have a battle with we had with other people. Where do you switch? The biggest problem for you is, where and how you run a motor on the battery, and then a backup to run a generator. You understand? You have to put a unit somewhere, that you can run in that transition. Now we do it in electric cars, we do that, that's easy to be done. (2:00). So, yes, you can.

But what is the purpose of creating so much energy? You become self-sufficient, but if five kilowatts or ten kilowatts is what you need, you can use the new plasma enhancement and sort it out, plan it that way, it can be done. Yes. But the technology development, which we have is done as a gas and electric power unit, has already solved that problem. You don't need to invest into another generator, and then a motor and the rest of it.

Q: Yeah, I was saying this because 3,000 euros for that power unit is more affordable and maybe a 1,000 euros for the motors and generators, for me personally, than the 15,000 for the gas unit, that was my example.

K- If you can run it that way, yes. But you have to understand how you do it. If you can do it, if it can be done. But you have to understand the gas power generator is for multiple applications. Our houses, our economy is based on gas, then electric.

Any other question?

Q: .. With the original MaGrav, (2:02). that I bought from Keshe Foundation, does that work with the headphones?

K- What do you mean? No, no, no, no. Because this is not a MaGrav system, this is a Plasma Compact Unit, inside is a lot of equipment set in as a receiver, transmitter of plasma, and energy and that kind of thing. It’s not a MaGrav system.

Q: So the standalone Power Generation Unit, that doesn't work with the headphones either, you have to get the Compact Unit separate.

K- Yes, yes, yes. If you get the Compact Head Unit and connect it as a tabletop, then you'll create a different condition. Connected to the light system (on top) separate, and to the plug system separate (on bottom), you create the (plasma) environment. You get a better result.

It's very much, if look, if you've been to Linz, if you’ve been to the flight system. You go in the flight system, you sit in the head system, yeah. But you're not in the room, you're in a, what you call it, in a shell, which is mounted with a lot of reactors. .. It’s not just creating, it's creating the environment, which is the key to it, than actually just one place.

Q: With being a farmer, the diesel tractors. How would we use this technology, (2:04). when it comes to diesel tractors?

K- The conversion unit of this will be marketed very soon. .. The hybrid, where you come ??, I call it, if you have the electric car, to reduce. Or if you have a hybrid car, you can add this to the hybrid again, to extend the mileage on the electric side. The same as our colleague just spoke about. We can use the electrical generation in a much, much easier. But the hybrids are going to go out of the market in by 2030 by 35, by the law in Europe. So, we go directly for the energy transfer to electric cars.

I'm sure the tractors will become electric very soon as well. You can connect into the battery, the same as before the new units, which gives you electric power, what you call it, increase. But even in understanding the power production, even the ones with a car. If you go back to the testimonials, a lot of people spoke about, the driving of the car is easier, we get more mileage out of the fuel.

But they never understood that, in a way… In a way, if we look at what actually happened with the people. I explained this a few times, but maybe now we understand it different. It's that, (2:06). what happened with the cars, which you added… You added into your cars a MaGrav unit. And you said, I get a better drive. This is my car with its wheels. And I get more mileage. … So, you put a battery in the car, you have your electric motor, whatever goes with it.

What happened when you made these connections? You connected one side of the battery to the one point of the body and the other one to the body of the body. That's what mainly done. But it's the same story, now you understand, as I explained a few minutes ago. You create it as plasmatic field. In a way, you're seeing reduction in the consumption of the fuel. I used to drive 200 kilometers per tank, now I do 400 km. They laugh at you. But, why? Because here (without plasma) I weighed one ton. And here (with plasma) I weighed (only) 500. (2:08). Because this M field, which I created.

It's the same principle as we just shown you in the house. When you plug into the plugs, or plug into the light at the same time. But because this is a confined environment, your steering became much easier. How many of you reported, the steering was easy? It became much smoother, even my car is 20 years old. I'm using ---, less fuel and then everything else you report it. You created a gravitational magnetic field flying machine, but limited flight capability.

How many of you reported in your testimonials, if the car was rusty, the rust disappeared, the car this and that happened to it. Because now you're in the MaGrav, the same as you had the cancer, and you don't have a cancer anymore. Now, you understand.

Put this in your tractor, what happens? You create environments, you can carry 10 ton. Now you carry weight of 5 ton. That's all it does. That's all it'll be.

Q: Mr. Keshe, may I give a recommendation about a diesel tractor?

K- Yeah.
Q: You could possibly just get a gas unit. And the gas that is produced by the gas unit can be just put into the air intake of the tractor. Instead of using that throttle to push more diesel, and go up in revolutions on the motor, you just have a valve which you use as a torque throttle to put more or less gas into the air intake. (2:10). You could possibly just drive the tractor off of the gas unit.

K- Yeah, but it's the same boat, you need something in to burn.

Q: Because your gas unit makes combustible gas, from my understanding.
K- Yes, we understand that. But the gas unit, you have to buy gas unit or produce gas somehow.
Q: Yeah, maybe if he buys a gas unit, maybe he can run his diesel tractor off the gas unit.
K- Yep.

Any other questions?
Now we understand the science of what the plasma is and what it does.

Any other questions?

Q: .. What can we do to accelerate the growth of world consciousness and peace?

K- It's been done in different ways, by spreading the Gans's, by development of these technologies. But you've got to understand, when we start putting so many of these units together in the, what you call… The reality is very simple. You spread the Gans's around everywhere. Now you get houses in one area or different area, (2:12). all using these MaGravs system, the same as the other one. And then you go to the other one. (He draws concentric circles of the MaGravs interacting with each other). Then you understand you interact not only with the residents of the property, but the citizens crossing this environment. By increasing the numbers of the use, we change that environment. And it's the same.

I was explaining this to somebody sometimes ago, .. if you understand the logic behind it. Somebody is planning to come and rob your house here. Enters the zone where now your system understands, to work. And he (suddenly in that environment he) doesn't know why he's here, because he came to rob. Now, because it works through the what we call, energy of the man emotion, he will go back (home), because he can't remember he came to steal.

This goes back to years ago, I said, when we bring these flight right units, which at those times we couldn't tell you what it is, the world leaders will not travel. Because they plan wars, they plan murders. They plan all sorts of abuses. When it comes to these systems, they just forget what they're here for. That's how you change the world leaders. Go back in the recording and teachings. I always said. Now you understand the reason, because we create plasmatic magnetic fields of the emotion of peace, of emotion of not needing

anything. What's the purpose of me to create war? Because I can't even remember why I came here for. (2:14).

Q: Dean .. So Mr. Keshe, after what you've just said there. So, the envelope, starts off with these systems in an environment, is the home community, and then expands out to a larger area. And obviously, ultimately, this will become the envelope of the planet?

K- More or less. It depends how many people use.

If you remember, I'm sure he's on the line, will be listening. If you remember, when we did the trial with Ali in Canada, some six, seven years ago, people could see a dome around his house. He put so much MaGravs and things in there, but in the plasma level. We couldn't explain to him, but he couldn't understand why. But it's not something we say, it's going to happen. We already seen it in Canada. People who were there and went to his house they always said (what they felt). Even he said, I think the police came or something came up to his house.

So now instead of one unit, you just connect the units together. This is now is on the table, you can't change it.

Q: So this is where what you've just spoken about with the world leaders. You just said about them walking into this, they won't walk into this environment. But then obviously, they won't have a choice. So what are we fighting for?

K- It's very near, 21st of March, is the beginning of a new cycle. And sometime around 21st onwards, we'll have the March meeting. Then that's where as I said, March meeting is the world leaders change of position. That was our target, and what we are there. and we see.

Whatever we say, you exercised it, you practiced it yourself in past years. (2:16). Now, we go into a very powerful, to the source of the knowledge and the technology. If I give you a system here (put it in your car), which is the new plasma units, the way you see it as a Compact Unit, the strength of this unit increases (draws a circle around the car - you created a field around it). You can do 50 kilo. Your (fuel capacity goes to) more than 5,000 kilometers.

You have to realize one thing, which I keep on explaining. I come from a nuclear industry. But in my business life, I come from the oil industry as well. My education, and my business life tells me something very, very serious. You go and make this to zero (energy consumption), you're not a hero, you'll be zero, they'll eliminate you. Oil industry, oil cartel is very heavy, and I'm very much aware of this problem.

How many scientists have come up with a solution that you don't need oil, and how many of them are alive today? Zero. You have to understand, I spent 20 years in a big industrial oil structure. And I know what it means, and I know the danger of it. This way, we give a breathing time. You break this law, you're done with. Introducing a technology in a slow

pace, you will see it. 85 million barrels of oil a day, at 100 dollars. (2:18). I have to put six more zeros, that's the capital is created every day without evolution in fuel and other products. This cartel is too strong to fight with. But this cartel is the Soul of the guy who ?? these out. It's much more powerful. But it has to be done the subtle way.

The way we go for past 20 years is the only way to handle. King of Belgium went for our throat to kill Fabio. They tried to kill me in six assassinations. So what? Because the money in it is too big, and implications of it is too big. It has to be done the way we done, slow pace, everybody gets involved.

The kings die of illness, so the presidents, so the lay man on the street, so the farmer. And they all are prepared to give their kingdom, and their crown, and their life to live one day longer. One day without pain of cancer and everything else. And this technology gives them all, and they have to accept it as totality. Knowledge Seekers have been with me when we sit with the princesses, and crown princes and the world leaders. The first thing they ask you is, can I have a solution for my such and such illness? So, when the solution comes through this, we all accept. And that's the path we took 40 years ago. (2:20).

Any other question?

Q: Alfred says he got an inspiration for a name for the Console, ELEVA or elevar.
K- It's Compact Plasma console.
R: It already has a name.

K- It already has a name. It's compact, creates plasma, and as a console gives you all the pleasures of life. You don't buy a console to play game to hurt yourself. You buy to enjoy yourself, and this is the pleasure of this new technology.

R: Alfred can call his eleva, seems like a good name for a personal setup.
K- In America they call the cars different names, you can call your name, your system on the table eleva.

Q: .. What happens after the Console is connected to our home's power supply and the power supply fails due to storms or whatever. Do we lose the use of the Console and Head Unit?

K- Theoretically yes, but the next generations no. The present situation generations, yes. But you have to understand something which happens. Once you start these systems with the lighting (on top) and the plugs (outlets on bottom), (2:22). you will create a dynamic plasma. Your emotional side, your hunger side will be satisfied. Maybe you won't have the light in the house, but the next generation which comes in, yes.

Once you start the plasma technology in the house it never stops. So, maybe you will not receive food for a few days, because down the road is blocked with the snow. And you wish a banana, and you put the head Units on, you wish a banana, and see if you get the

taste, the smell, and the energy of it. This is the separation from matter state from the plasma state.

R: Okay, to be clear for people. In order for the Head Units to work does the Cosmic Rays Generator also have to be purchased?

K- Yes. It's a Compact Unit together, yes. The built and they connect to each other that way. Yes.

Q: Mr. Keshe, after what you've just said there… So if you switch the plasma on… in the home. <<< Audio Unclear >>> and you switch to another position (location) where does the energy go.

K- What do you mean, taking another position?
Q: Your presence in ?? house
R: We lost his microphone, we can't hear Dean very well.

K- He said, in simple words, (2:24). what happens when you die? Does the Cosmic Rays of the unit connect to you … He's investing for his future. The system, it is on, this is here. This is what we say, each Headset has to be belong to one person, it has to be that way. The energy pack unit you can (share), but the Head Unit is (only for one) individual, because it connects to the strength of the system of the body of the man.

R: So you could have one Cosmic Ray Generator and several Head Units that work off of that system?

K- Yeah. Because don't forget, the way we're designing it, and it's designed, these Compact Units are connected to the Linz compact structure we built up. In a way, you connect to another structure behind it, in a way, you connect to a memory bank, you connect to a server, in a way. This is how it's built, because it's the science behind it, that it keeps it that way.

Q: .. Can you connect one side to the under floor heating on the first floor, and the other side to the light on the first floor?

K- Yes, you have created the same condition. You see, the best .. system is variable. Underground heating system, what do you do in the summer when it's hot? This is why this got to be installed in a way connects all three phases, there is instruction for connection if you connect to the main part of the house. (2:26). Get it done by an electrician, it takes 10 minutes to do it. (The electric floor heating won't be used in the summer time, and you need electricity flowing through the system to get the plasma. Need something for the summer time).

It's just knowing what to connect, where. It goes between your what you call it, from your meter to your fuse box. That's where this position is. The electrician connects the box to the your meter, and connects the other two entries into your fuse box, that goes

directly to the two sides. That's all it is. (The best connection is to wire the main power line from the meter into the Unit, and then the red and blue sides to the fuse box. But you have to sort out the usage for the upper part of the room, from the usage on the bottom part so you can create a plasma environment for the whole rooms and house).

This if you look at it with today's energy costs, it'll pay for itself within the first two years. But there is a contract with these, there is a payment of 150 Euro per a year for maintenance. That way if anything happens in the system, we maintain it, we support it and allows the Keshe Foundation to support its other works on research.

And with the industrial units, where we submit, we take a share of the reduction. If industrial work saves 1 million a year, we take a percentage of that for 20 years. Because that's the understanding. It benefits them, as much as many parts of future research.

We did the same with the Head Compact Units. You have two units, which way you ?? 20 year what you call, maintenance a year. Or what we call, you pay us for being able to use the system. That goes, it's a contractual payments. You will receive a contract to sign. It's not just selling (and goodbye). We keep in touch. Because that way, the next development, the next generation of things, the next knowledge which comes in, you get involved in, and you're part of it, and you're put into it. (2:28).

Q: .. Thank you for helping us in expansion of our Soul and knowledge. Does the production and sale of gas and energy systems in one continue, or are they replaced by this new system?

K- No, they are two different things. These are creating different condition, and that… The gas generator and electric generator are needed to power these systems. You need energy power (you need electricity to generate the plasma).

If you… I was explaining this very recently. There is a technique, I can make you zero use, paying bills, your electricity will come to zero. We know this when I designed it. (Remember you need to have electricity to generate the plasma, it's a hybrid). But you tell me, which electricity company will come and give you the electricity connection for you to have a free energy? They disconnect you. If it happens, they come and take everything away.

So, you need a power supply to be able to run these systems. In the future this system will be integrated into the power supply, that's for sure. But the lifestyle of the man today needs both, the gas and electric in the Western world. So, the unit gas and electric we produce the Gans gas for the production of the energy free flow, and we give you the gas surplus on the side if you need it. But production of the Cosmic Ray gases is needed. (2:30). to produce to get energy off of them for electric power supply. So, these units when you get the electric power generator, you just connect this to it. And does the same.

(The gas runs the generator, so you have electricity to make the plasma - that's why you need the Electric Power Company - if they don't get enough they cut you off. With the gas unit you make your own electricity).

The beauty of it is that, they're trying to stop any gas emission in the coming years, especially like with electric cars and the rest of it. This technology the gases produced uses for itself, unless you want to tap into it. And these units are already built. We're hoping to commercialize, maybe selling it, but hopefully to deliver it in the second, third quarter in mass production. What we produce 100% in Iran, and it will be shipped out as part of the development.

The beauty with the technology is that Keshe Foundation as an international organization, is become self-sufficient internally within its own structure. We develop, the ideas are ours. We research, we develop, we manufacture and we sell. We control it A to Z of it, and if anybody can copy the new technologies on the table, I raise my hat. Copy, does this, copy, does that, but you cannot copy the new transmutation system, impossibilities. If you want to get half of your body there and have other problems with somewhere else, you're quite welcome to it. As I said to one of our Knowledge Seekers, I don't want half of your leg stuck on in Atlantic on the way you're coming across.

Q: .. I have a question. (2:32). On the Headset you said you need the Cosmic Unit, but in on the store. There are two kinds of headset, one is for the 800 euro, one is for 2000 euro. The one for 2000 euro…

K- The 800 euro is an old one, it has been taken off. You see you cannot order it.

Q: It's for the 800 euro, it's not 800. One is for the 800…

K- The 4,800 is a combination of the Head Unit and Energy Unit together.

Q: But you said the headset by itself is not going to work, but the other one is by itself.

K- No, no, no, no, you're mixing things together. Some people buy one power unit, Compact Power Unit, and they buy several Head Units. Or you buy a Compact Unit and the Head Unit to start, and then you buy separate Head Units. You understand?

Q: Okay, so if I buy the 2,000 Euro is good enough.
K- If you get the 2,000 you just get the Headset, you don't get the supply. You need…
Q: So, what is the headset for, that you sell?
K- The headset goes with the console. You can't buy a headset on its own if you haven't bought the Console.
R: You can have several headsets to one console.
Q: Okay, I got it. Thank you.

K- Yeah, you have to buy the headset with the console, but once you buy the console. It's like you know, multi-players, you play on your consoles at home.

Any other question?

Q: .. Can we use a headset with the white console that's mainly for energy? Or does have to be with the one that's for Headsets.

K- The white (Compact Unit), (2:34). -- for the energy doesn't carry the equipment inside it (for communication), not at the moment. In the future, there is a plan to implant it in it. But not at the moment. At the moment is only the what you call it, the Headset.

The beauty of it is, you can take this Headset, you can go from America to Japan with you. You go somewhere else for travel, it's connected to you as long as the power is in there. You're connected to your system.

It doesn't have a bandwidth range. You know, you go out of the room you cannot reach it anymore. You're working with Cosmic Rays, it's a different knowledge, it's a different technology and science. You don't go hungry when you leave New York if you've got that system with your set for food, you have food when you go to Amazon, and you have food when you go to North Pole.

Remember, two magnets never miss or never lose the connection once it's created. It's the same with your love for your mother, never disappears as the mother dies, because you're still connected through the direction of the Soul. It's understanding the world of Creation.

Q: .. What is the maximum distance between the Compact Unit and the Head Unit? Is it possible to drive with the Head Unit in the car and leave the Compact Unit at home? (2:36).

K- Yes, you can. But understand that these systems, the new systems, carry Cosmic Ray level, and they carry current, electric current as well. Then you have to understand what you want to do with what. (So you still have to have a power supply to use it).

In the near future, I can see adapters will be provided by Keshe Foundation, where you actually can charge your mobile phones using your Compact Unit. As I told you, now we know how Tesla has done it, but in a Cosmic Ray level. So, it's not something you will not need. You don't drive your electric car, if they come to it, and you have to charge it somewhere. You connect it to your Compact Unit, it's got a generator in the background, and you drive your car in New York or in New Zealand, it's the same. The technology has opened up and now it's, how we as users bring new applications to it.

Q: .. So, this is all for man, this is the intellect of man. So, where does the vertical friends and horizontal friends come into this "game play" at the moment?

K- We have already seen it, we have already felt it, how they come in. We in our monitoring the system, especially in the tests we are doing and the flights we've done. A

lot of you seen a lot of images, but knowledge is not there. (2:38). But our Knowledge Seekers and scientists understand this. The system within it we can, and we have created to reach the Soul of plants. And we see it physically. It takes us one second to show you the picture of it, and then you understand.

But this is a knowledge we are not sharing it, it cannot be shared at this moment. Man will not... We can share knowledge, emotion, even with a stone. You've seen these pictures, but people don't understand it. The way we see how we interact with the STM, we've shown in past last week teaching, we have created, we have developed, we have understood the knowledge, we can interact with the Soul of any plants, any tree, any stone, any object.

It's just like, when you don't have the knowledge you don't see it, it's not there. How can a blind man see the beauty of the daylight? So, it's been in front of you. Maybe in the near coming future, next year or two, when I bring the same pictures back and I explain, you say, now we understand. We are not going theoretically.

We are using it in a way, in our technology to feed you. We cannot give you the taste of a banana, which is a vertical, out of nowhere. We have to create the Soul to be there to give, for you to receive. So we have already got the knowledge, it's embedded in our technology.

Many of you who came in the teaching, or in the last 16th and the 20th, (2:40). have already been touched by that. So, it's a knowledge we already have. It's the technology we already possess in our arsenal of knowledge.

Any other questions?

Q: .. Can the battery be a source for some hours for the Compact Unit?

K- Yes, I presume so. If you can do. You can connect it to a generator, it's all the same.

R: So you can connect it to a DC battery source rather than an AC?

K- It works on both, AC - DC, but the majority primarily works on an AC.

It'll be very interesting in a near future, because the subject came up. You said, you buy a Compact Unit and then you have a Headphones, you sit at the table with your wife or your children with a headphone on, and say okay, shall we all have fish and chips? Or we sit on the dinner table with no food on the table, but would you like what we call, let's say, jelly? Or would you like a Christmas lunch? Or would like a turkey? Or would you like whatever? And we all enjoy it. This is what is to come what is..

It's here, it's not to come. It's just for you to test, to give us the dimension of the technology. Foodless table without animals, and "Vertical People" on it, (2:42). will

become a natural process of upcoming time. This is not theory. The Console is sitting here, it’s for you to test it and tell us the limitation.

A few years ago, just before I leave for Korea, my mother was in the deathbed. I made the system and it was taken to her. The recovery on the bed in the hospital was so fast, that somebody didn't want her to stay alive, if she was recovering so fast. They took the machine and they threw it out of the hospital. She changed within a few hours.

This technology has no limitation. I use the same technology, what you have in this Headset, on two occasions. And it still works. You’ve got to understand the knowledge, not the equipment. How it interacts, how it connects, how it is to be there. (2:44).

And it needs a knowledgeable man to be able to use it.

Any other question?

Q: .. If someone has any implants, like for example a medical shunt pumping the brain water into the stomach area. The pump is placed behind the ear…

K- Do not use it. We recommend you, do not even purchase the unit.

R: If you have any kind of…

K- Any kind of electronic, implant, do not (use). We cannot make exclusivity, because we don't know who you buy it for. But it's an exclusion on all the systems. The systems cannot be used by people who have implants, or you had a hip transplant. Do not use it, it’s not for you, it cannot be used, sorry. In a way, it gives you a life sentence. But that's all we have, it’s the technology of the old coming into new.

These are creating plasmatic magnetic fields. You will understand this when we'll show the demonstration in next week or in next couple of weeks with the new technology which come. Where you see you can light up a LED, which is not any more fluorescent tube, (2:46). with a current, which the manufacturers says it’s impossible for it to be lit. So, the plasma creates that kind of current, and if you have this kind of system, it's interfering with it.

As you can see, our people in the background are going around the Exhibition upstairs picking up item by item, which is in the Store of the Keshe Foundation. This is not just something in the background, they’re going literally with remote cameras upstairs on the top floor and picking up product by product. Downstairs is a space development technology of plasma. Upstairs is man needs in the matter state. It’s a very clear separation, but it's the same knowledge.

Q: .. You always pointed out in the trainings that all the technical devices are only there as aids for us. And that we don't need that in the future, because we can do it with our Soul. For example, will we be able to build a house, and with our consciousness we will

be able to produce the temperature of the house as well, as all the energy without devices? Thank you very much for your answer.

K- What is the old English saying, it says, "where I lay my head is my home." .. So it depends what you call a home, and where you put that Soul. (2:48).

You can… We have spoken about this in the past, with the knowledge we have, if you interact different plasmas of different strengths, you can create walls, you can create water. It just how the knowledge of the Knowledge Seekers will come to it in the future to do so. This is what matter states are created out of. You can create condition, plasmatic condition, as you're creating vitamin C, or the flavor of banana. You can create in placing, what you call it, magnetic fields in an appropriate way, to create walls and to create colors for them. Because they're all built of the magnetic fields, there's no difference. It's just understanding it and developing it.

And I told you, there'll be more jobs in the new space technology, than man could ever imagine. It's a conscious wall, it's a conscious house. With this in this environment, I build this house with the fields. What would do with the surrounding, with the trees, with the plants? What will do with my neighbor who's has this condition and that condition? So, it'll become a generic and humane structure. It will come. It's just how fast this technology goes to its next level, and the mass production of it, of application and different things.

The major breakthrough we'll see within next few short time will be these Plasma MaGrav Systems, which will touch the industry in Europe. (2:50). We have started inviting people who use these kinds of things. And once we go with it publicly, they see it, then we will see the opening to energy applications.

The beauty of it is, and it's the amazing part of it is, this what you see in the background in this hall, is combination of the work of the Keshe Foundation of China. Combination of work of the Keshe Foundation Austria, combination of the work in Iran. It's the amalgamation of one structure in different nationalities. We see the production of Gans's in different parts of the world, and all has come together. But it's the same with the knowledge. We have no borders. And with that allows us to be very much flexible to see where we can expand it as fast as possible.

Q: .. You've introduced this into Europe, as you say, and across the planet, many people can tap into this. It's been commercialized and given out to the communities, to the nations and beyond. At different levels of connection to the matter state of the planet, does it change its field strength, the further you go away from the physicality of the planet? It's all the same… Is the plasma the same in the matter state condition? (2:52). Or if you were elevated in a physical elevation…

K- It's a different strength of it. That's all it is. It's a different color of it. It depends if you, what happens when you mix green with blue? The combination gives you a different dimension, different colors, but it's all the same.

Q: So, the universal family work in this?

K- We are all part of it. We are all part of it. We thought we were separate, now we see we are all part of it.

Anymore Rick, or shall we come to a conclusion?

Q: How many headsets can we use with one Compact Unit?
K- As many as you like.

But don't give your Headphone to somebody else. You will understand the reasons. It's like, they say, don't give your heart to somebody else. …

Q: .. First, we have the Head Unit and we have the Energy Unit. If I go to the Energy Unit, I have a red exit and blue exit. (2:54). If the consumption in the red section, does it effect the blue one? If it is less or more?

K- No, no, no, no. You can load it as much as your (wiring) system can take. What we recommend about is six to ten kilowatts should be the maximum.

Q: And do it Effect the headset?

K- No. The Compact Unit does not work with what you take from it. The headset works on a different structure.

Q: Can I add to the to the other, if I take from one?
K- What you mean?

Q: Let's say I am working with the headset. The emotion side. How much I take from it how much I use it? Do that add or effect ?

K- The matter state of it, no. No.

Q: By the way, you give me a lot of indication here how to work.
K- Is that your secret society still at work?
Q: I don't know, everyone is in one planet now.
K- The secret society nobody's supposed to know, but they're actually very successful.
Q: Maybe it is secret for me. Thank you very much.
K- Thank you very much indeed.

Q: .. Are stints included in the medical exemptions that can't be used with the system? (2:56).

K- No, no. If you have any kind of implants do not touch. Because it's magnetic field, and stints usually are metals, or whatever. And they get, they absorb magnetic fields, electric

currents in it. Do not use. It's one of the things which goes on these exemptions. Do not use this systems with, what you call it, where there's implants.

Q: If someone already buy a system, but he didn't get it, can he change for this system?

K- Which system you're talking about?

Q: I mean, anyone buy any system from the Foundation…

K- A lot of Knowledge Seekers are shifting a lot of things around. We can consider cases ??, because we see the applications of it, we see the orders on it. We only opened one channel for the Knowledge Seekers who bought the original MaGravs Power Unit. If they want to change it to the new Compact Plasma Unit or the new Plasma Units, which actually does perform and it can be seen with it, we are prepared to take it in and make a deduction. If Knowledge Seekers say, they bought the MaGrav Unit and it doesn't work, when it was the Italian side, we still consider as adding replacement. It means, you paid 500 euro, this is 3,500 whatever. We deducted off, yes, it can be done.

But with the Plasma Units, we guarantee the reduction. Because this is the technology we set up this time. I had full hands on it, where the other MaGrav Unit was a lot of things at the beginning of it. We originally could have changed the MaGrav Units to the Zero MaGrav Energy. But that would have created a massive problem for the Foundation. (2:58). These systems, yes, you can come in, we can discuss, we can see what is needed. And those who bought the Plasma MaGrav Units in the past, they can change to the gas energy unit and deduct it from it. Or change it to this and we replace it. Value deduction, yes.

Q: So you always accommodate.

K- We have to. We are part of you. You're part of us. You brought us here, with your support has given the Foundation what it is, and where it is. We are not a profit making company, to do.

Thank you very much for today, I hope. What we've seen here today as the Compact Units, as it says, the Head Units, has brought you a new knowledge, a new understanding of what is to come. I'm sure we will not be pioneers in every breakthrough in this technology. We just opened the door. And I'm sure electronic companies and many new companies, and even new structures and scientists which understand this, will bring the what we call, more applications of this technology. But somebody had to be a breakthrough. Now for the first time you've seen it.

In a way, if you organize this system, the Console, to feed you, to give you the health condition, to allow you to transmute from one place to another, to allow you to have as much energy as you need, can be done. And it has been shown, it's been done. In a way, many of you who came to Linz, and many of you who partake in the sessions of past two,

(3:00). or three months, you already have used this technology. It’s not something to come.

Now it’s in the manageable that every man can have one, have access to it. The same is with the other part with the, what we call, the mass energy production. The next phase for it is, we are now too dependent on what we call, electricity from suppliers by burning fuel, and all sorts. The next step to this technology, which is already commercialized, it will come into the market in second and third quarter, which is the gas electric power unit, will become part of this. Where the Gans gas becomes part of the Cosmic Ray production of the technology, which brings a new dimension in the total use of the technology.

I cannot explain to you what this new Gans, what we call, gas electric generator will bring into play. It will be a game changer again, in a different dimension, and different applications. It is more or less an industrial revolution, in a plasma, in the world of the Creation. We come to it when it comes to its Blueprint.

Thank you very much for today. One thing which I've been told in the background, we deliver these units according to the orders they come in. So, what comes into production, you go back into the line in three months, six months, as the orders come in. And we have decided, we prioritize commercial units for application. Because that brings the technology into public much faster. Industrial groups, the property groups which have multiple thousands of properties, they want to put these units in. Because of the contractual basis, (3:02). it brings us an international reputation for us, we'll meet those. But we try to look into the commercial side as well, on the public side. So the orders as they come will be met by the production time. Thank you very much for today.

Q: .. We saw a few weeks ago the Iranian trial with the power unit. The systems of today are different? Because you must plug them in. Is the technology the same?

K- No, no. That technology which we saw live in Tehran, then we saw here in this auditorium, that is the part of the gas electric production unit. It’s a backbone to this. It's a different ballgame. But in the future, it will become part of this unit because it's built to come into it. Because we already use… Let me explain to you something very simple before we go.

You have a Head Unit, which connects this Unit. This Unit through the way it's been built, and geared up, connects up with the Mother Unit in Austria. From there… It's like you lot come in for the meetings on the 16th and 20th, we control, we disperse, what we want to disperse, and plus on what you receive. So, we might tell you as Knowledge Seekers one day, did any of you have a taste of banana as such and such a time? And see how many of you who had the headphones you say, yes, we tasted the banana, but we didn't want the banana, because it was made available for test. (3:04).

The same will come when we bring that essence of the peace as a strength emotion length. We feed it all of you, and all the places will feel peaceful. So, this is connected to

this, and this is connected to the parents, in the headquarters of the Keshe Foundation Linz, Plasma Structure Unit which is built.

Even the Plasma Enhancement Units which you came here and you went inside, now is connected to the that system (mother systems in Linz - it's connected by Soul), totally through, the same technology as what you see with the Head Units and the Console. When we took the 20th session last month, we had no telephone connection. We used this technology for the first time to check. Some of the flight units we used this technology to check, it's not something we're going to use. We already are using this technology.

In a way, our system which is getting tested, developed in Austria is become literally the center focal point of the technology in connecting to all these systems. When you go into the laboratory, a bunch of peaceful people. They just inherently are, and they are developing this. So it's become the nature of the system. When you walk into the lab, it's so peaceful, so calm, it's so collected. And this created, they carry that emotion in these systems. It's a different ballgame.

So, what you see here is not going to be done, it's already been used. (3:06). On the 19th, you go through the system to get your food, your energy. The Feb. 19th teaching Sunday with the Creator, lunch with the Creator, it's done not from Linz Center, it's done through a totally new system, from laboratories of the Keshe Foundation. The emotion, the strength of it is different. We have tested it, and we know what knowledge seekers who went through it, have felt.

Thank you very much for today. And we have seen the beginning of industrial revolution in the plasma technology. Hopefully the more of you use it, the more prevalent it becomes. And they bring the change which we all wanted. Not to kill, not to destroy, become peaceful people through our own changes, not the others.

Thank you very much for today, and we meet you on Thursday teaching. And if we succeed, we'll have another Blueprint Day, next week or the week after, with two new technologies. One you already know, one revolutionary again, in the knowledge of the expansion of the plasma, will be introduced. Thank you very much, Rick.

R: Okay, thank you, Mr. Keshe, once again for a lovely workshop here and exciting new products and much look forward to in the future as well. Okay, that wraps it up for our Plasma Blueprint Day. Today, Monday, February 13, 2023.

K- One question, can you put this as part of the teaching series. You know, you have 470, for this as 472 or whatever is going to be. That stays in the main channel of the Keshe Foundation YouTube, and not separate.

472 KSW February 13, 2023 Blueprint Day

END

473rd Knowledge Seekers Workshop; February 16, 2023

(Transcription, Proofing done)
(Auto transcription by Elias)

Plasmas are energy packs; Inside Seed of STM - fields; Change angles absorb fields; Brain cells by STM; CH3 source life; C12 - C14; Always receiving from U; Emotions make fat; Intelligence from changing angle - H - D- Tritium; Travel by jumping on CR; Smell of Creator; Next are Universal Fields - create Creator; Chakras; Soul tap C14; Deny Soul imprisoned; No chitchat - time short; 1 system provide whole planet; Machines have souls emotion; 2 important MaGrav teaching - Hybrid - sink energy; Lights LED wirelessly; Inside Nano layers;; Black Holes source energy; Missiles Nano; MaGrav work;

ENGLISH TRANSCRIPTION

(:15).
K- Yes, good morning , good day to you, as usual wherever and whenever you listen these series of Knowledge Seekers of the Keshe Foundation, Spaceship Institute. We welcome you back after a very interesting Monday Blueprint presentation. And hopefully we can repeat another one in the next couple of weeks to show you more new technologies and understanding.

As we have seen in the Intro, (:16). when you speak about the Cosmic Rays (CR), when you speak about Creation of magnetic field, when we speak about radiation what is it exactly is? What does it exactly mean? And how can we use it? We spoke about the packs of energy of plasmas, as we call them, hydrogen (H), we call it the same pack of energy, the center of the Earth, the Center of a Sun. The same pack of energy is a center of the Universe (U). And the center of the pack of the larger one, we call it, the Creator. We have chosen and name, different names for the same thing, for the same effect. Where we spoke about the interaction of the fields of the H to create a Moon.

The interaction of the Soul of the Man (STM) with the soul of the Creator, creates the man. You are another Moon. You are another dimension (D), interaction of the fields of the Universe. It's how we twist it, how we turn it, it turns up to be the STM, the Soul of a woman, an anima. What you call, an alien, a planet, a Sun. So, if we understand the Totality, we cannot be prejudiced, we cannot separate it, just to fit us when it fits, and suit us, and dismiss the other points.

This is what Einstein did to write the equation of: Energy equals MC squared. He dismissed everything, assumptions to the limitation of foolishness. Just because he wanted to prove something. We cannot do that with the new present science. This is why sciences like Einstein will be dismissed, (:18). when it comes to the Totality. What most of the work he has done, is nonsense.

Because we cannot dismiss, we cannot make assumptions just to fit. We have to understand the Totality. We have to understand the principle. And we don't make assumptions, because one wrong assumption, and one dismissing a point can be your life in the space, end of the presence of your Soul, in Totality. Assumptions cannot be made in the real physics, in the real world of Creation. Because what it is, it is. What you have is on the table. You have to deal with it. You have to understand it.

Last week we spoke about the tree and how a seed becomes a soul. How it becomes a Twinity. How it becomes the Creation of what we understood, and we never understood. And we made a lot of assumptions. We spoke about the seed, which comes in and becomes. Brought in from another tree, brought in from another planet, brought in from another position. A seed of a flower we planted, and from it we set the seed of the creation of a tree and its roots. A twin system, as we discussed last week. So is the STM. The STM will become that seed, and then from it, as we said, will create that life. And with it, to sustain it, (:20). needs to carry the same principle as what we've seen in the world of Creation of the Creator. There is no difference between the seed sown in the ground, that it become a root and a tree, the STM, and its existence, when departs from the physicality of this world.

In the physical side, we call the other one, Spirits, or what we call Soul of Physicality (STP), where the STM ?? it It's the same when your body leaves itself behind, and the STM travels the span of the Universe, to become that seed, to become that point.

But now, what we need to understand is simple. What is inside this seed, that in interaction with the other fields of the Universe, it becomes, it becomes the start of a Sun, a galaxy, a Universe, a planet. A dust speck in the Universe.

What is in this STM, there is no difference with what it is in an electron, in a neutron. Combination of M fields, order of existence, order of interactions. So, the STM becomes that seed of the hydrogen (H), that will try to create what we call, its existence, or what the call its electron. That again, will become that process of the H.

If you're not prejudiced about your own existence, you will understand the truth about the Creation. Then you can explore, you can go deeper in the positions of the space to see where you are, how you're interacting. How do you want to interact? What radiation you want to create, that you need in your body to absorb. Because the radiation you absorb, the food you absorb in your body is the interaction of your Soul with its environment. That Gamma ray that Alpha ray, that Beta ray ??that does not even got a clue about the strength in the world of the Creation. We referred back to this three, four or five years ago, when we had the Indian guru sitting in front of us and they were proud, he hasn't eaten for 20 days. And I explained to him by moving your lung and breathing system, you absorb different energies. Now we understand the principle behind it.

Now you understand when you come in the Enhancement Unit (EU), how we interact with you. Now you understand why this Sunday, when we sit to dine with the Creator, how you absorb the food. You might not need anything, because the Soul takes what it

needs. Maybe you come full, your stomach is full of food, energy it needs your body, your Soul doesn't accept. I felt nothing, because I ate from the sources of humanity.

We come to the point that we need to understand the principle of Creation. If man is becoming the passenger of the Universe, if man is becoming correct to understanding his own creation. Now we understand. (:24). Now we see. Now we expand the knowledge beyond the limitation. Now, the point for us is, how do we communicate? How this ball of energy we call, the STM, with the fields inside it. We call it a proton with the fields inside it. We call it electron with the fields inside it. We call it a star with the fields inside it, what is its essence? How does it communicate in World of Creation? How does it connect with others? How does they find the ?? rays, which is part of it? It needs, it can give to?

In a world of matter state we force the release of the energy. We chew it, we swallow it, we bring it in and we force it, with the enzymes and acidity in the stomach and whatever else, to release its energy. We kill another object, another entity for us to be able to take in. To be able to crunch it, to be able to reduce it in the strength that we can handle it as an energy in our stomach, that it becomes a cell of our heart, a cell of our brain and whatever.

What will be interesting is that, man in the near future will find out the production of the cells in the brain of the Man has nothing to do with the rest of the body. It's decided by the Soul, in interaction with the physicality (P), which he has created, (:26). which interacts with the environment, which is living in. That is why you get Alzheimer's, because the Soul decides, I'm not producing this part anymore. Or I'm blocking production. It's not done by your stomach. It's not done by the process where the cells of your lung and heart is created.

The Creation of the cell of the brain of the man, is decided by the Soul, in collection of the fields within it, in interaction of the "Soul of the Mother," the Soul of the Creator, and the Soul of the Planet plays in the position in the Universe.

Then the point it comes even in a womb of the mother, how does this Soul interacts with the Soul of the mother? Why do we get diabetic one when you're born? Because the emotion interaction with the field of the mother and the child, the torture which the mother goes through the pregnancy, abusive husband, condition of life, will create the demand for insulin, you call it. The creation, the need for sugar, that's what you call the basic corner of the lifestyle, CH3.

In that respect then, the emotion within the Soul of the child, besides the condition of absorption, creation and control of "sugar communication line." Why do we call it a sugar? Why we have got this knowledge in our hand, even as Knowledge Seekers (KS) and we never understood it. From day one, when we introduced CH3 to you, we called this the initial energy source, "sugar of life." (:28). This is why you as Knowledge Seekers when you have diabetic you look into CH3 and find a solution with it, if you understand it, otherwise it's dismissed.

But again comes why hydrogen again? The essence of the center, and why carbon again? Because the H is the material, that all the plasmas are made off. And in the world of Creation, the carbon (C) is a communicator. Depending now you understand, on what you want. You want to matter state energy, you link up to the C12, in absorbing energy from the cosmos, which is 80% of the energy you use, you took, go to C14.

Again, as we heard in the Intro, look at the energy, not how many electrons and protons and all that rubbish man has created to in a way, mislead himself, to fool itself away from reality. In that process, now we understand. Now we see why and how the Universe communicates. The Universe, it doesn't matter if it's in the cell of the man, on the Moon, Moon and Earth. On the Sun, Sun and Earth, the galaxy and the Universe, and the universes in the Unicose. There all energy packs with different interactions, creating galaxies, suns, the moons, and the planet. (:30). We call it "Up Quark, and Down Quark", and the rest of the rubbish, which the world of physics has accepted.

Then we have to understand, we have no choice, but to grasp the Totality of the Creation, where you have one source of energy you call the Soul, and one line of communication, you call, C14. In the matter states use the energy of a C. In the universal condition in deep space and absorption of the energy, you use it as C14.

Why CH3 is the essence of the creation of life on this planet is, because this little funny chap called, hydrogen. Through its D, through his interaction, through you eat starch, sugar, whatever you call it, has the capability to behave as C14, ?? as CH3, or C14 as ?? H.

Now, if you understand the game, that CH3 plays in the life of the man in the Universe, now, you will have unraveled the secret of Creation and communication anywhere in the Universe. Where in the physical condition of the man, you rely on the CH3 as a C12 and additional hydrogen's, that their interactions creates absorption and releases the energy of one H, (:32). or it behaves very much like it a CH3, as C14 and extra H. That H it depends of the soul. It's the connection to the two Souls. And C14 in the body of the man in the dimension of the existence. In a world of the communication. The light you see from another star in your eye, is the line of communication in the Cosmic Ray level, and C12 is in matter of state condition of the plasma of the body of the (man).
{ break in audio ….}

You are forever connected to the Universe, day or night, asleep or alive, or as a Soul, or as an entity in the Universe. You are connected. You're continuously absorbing, interacting, giving and taking from the energy fields of the Universe radiation. But you go for that 20% of C14, as a C12, which leads you to kill, to crunch, to swallow, to digest. To do what? To bring it back again to C14. To create a link between cells of the body of the man. ?? How you test this ?? test this. (:34). Burn it and twist it and angle it. You call it, Vitamin B, you call it Vitamin C, you call it calcium, you call it whatever you like in your body.

There then you understand for the first time when I tell you, you eat three meals a day. You take 2,000 calories you eat 24 hours a day, from the energy of the Universe. You take 80% of your energy. Then you understand why even emotion makes you fat. Why even emotion gives you cancer. It's that line of communication. That line of Carbon 14, which interacts with the Soul. Now, you see, what and how the teaching in past years brings you to the essence of your own creation, communicating within you. What you eat, would you will take in the Universe, in the space, and what you can create in space.

If you understood the position of the Hydrogen and Deuterium, and Tritium, then you understand why even man has the characteristics of intelligence. A sheep brain walks 99% of the time in parallel with the Earth's magnetic field, it creates only Hydrogen. (:36). Man has a habit of lying down, and standing up, as an spectrum of radiation. If you look at the humanity, if you look at the world of Creation on this planet, why we see animals which can go where to go and horizontal, have a different intelligence, than animals which are mostly horizontal?

Why birds have a different intelligence. Because continuously the interaction of the fields of their Soul with the environment, and with the standard understanding of the science of Creation, creates a spectrum of radiations, which part of it, in interaction with the physicality of the brain created, creates intelligence, diversity of fields interactions.

It's literally, you give one thing to a koala, because the way it sits and structures his live to be upright all the time. That to a man which sits, bends, tastes different kinds of matter state energies, creating variation, combination of fields, which in interaction with each other creates intelligence.

The interaction with the Soul, and the Soul of the environment and the STP in different angles, creates different field radiation, that man even haven't measured, or understood in the world of Creation.

Now you understand why we went into teaching of Cosmic Ray, because it's the only way. (:38). Now you understand what you call this, field interaction with other Souls, field interaction between Earth and the Moon, we call it, the Cosmic Ray. Because it comes from Cosmos, it comes from interaction of Carbon 14, in transferring, transmitting from one point to another.

And what happen when you learn how to jump on this bandwagon of fields, it gives you instant "zero-time" communication and transportation. If you go towards the center of it, or you go away from it, it will give you a transmutation in that direction, and transportation when you go deeper in the matter state.

But with the knowledge, with the systems which we have created now, we can move you, we can shift the angle of the interaction of your brain with us. This is why when we all together on the 16th, on the 19th, on the 20th, we all feel the same, we go in the same direction, we interact with the same fields. Because now your Soul cannot move. I trapped it between the two headphones. It doesn't matter you lie down, you get up,

whatever. ?? Some feel interaction with the environment, ?? you interact with the line of the fields we transferred to your Soul, we interact with your Soul.

In a way, we give you in that position, as your Soul sits in the middle and the two headphones, direction to the rest of the Universe. But we tell you, the sweetie is here, and all of you, doesn't matter how many with your headphones, will come to that sweetie. (:40). This is how in the Head units and your headphones, and the new systems we make, we tell you, we go to see the Soul of Muhammad, bless his name, or Christ, the beautiful Soul.

Because I have already shown you the strength field of the Soul. And you will come in, and the interaction will create you that beautiful light. Now you see, nothing is magic, and you understand it. And I promise, I will never bring a magic up. But I'll show you the magic. It's you who can fool yourself, not fooled by us.

Now you understand how the systems we have put in, and you come in or you join in, brings radiation and the new dimension to your understanding. Mr. Keshe, I came in, but I felt nothing, I didn't have a banana. And I didn't enjoy the kebab. The Chinese brought in the sushi's, the Japanese brought in, and they said that they didn't feel any sushi. Because you came in with the full stomach of expectation.

How many of you, this Sunday will taste the essence of the Creation of the Creator? How many of you will smell the Soul of it? You thought the body of the man only carries odor? Let till one have you smell the odor of the Creator. (:42). You'll give your life for it. Let alone seeing it, or feel it.

Now you understand, the technology we submit and we have brought in, it's to take man the correct way, that he cannot be fooled by no magician anywhere, in the name of prophets on this planet and beyond. The only magic is understanding of the process of the Creation of the condition at the time and the place where it interacts. Now you understand why we put Hydrogen, and why we put another thing, and why we create Cosmic Rays.

The first time I created the Cosmic Rays in the nuclear contained reactors in Tehran, was magic. Because Iranian scientists sitting on the table with me said, nobody understands these things. But now every one of you understands it. The intelligence, the knowledge of you as Knowledge Seekers has reached the level of the professors and the prophets of the past. Because now there is no magic, you understand how Christ rose the dead, you understand how the other guy cut something else, and you understand how the other guy did not bring the rest of the messages from the mountain. It's what it suit them in the dimension of the interaction of their Souls with their environment and the people who were there to do. (:44).

If you understand the simple principle of the Creation, which I showed you today, you cannot be fooled, unless you want to be fooled. Anywhere in the Universe, you need to understand the position, the interaction, and the understanding, and the totality of the total knowledge we have dispersed.

We have to see, we have to understand, we have to be part of. How our world has come to be created? How the initial essence of the main plasma, the main energy fields, we call, the Creator has led to the creation of us, as a moon. Every Soul of every created thing is that another moon, as we see with Saturn, and Jupiter, with Earth, and other entities in the Universe. (:46).

Now, we need to comprehend. Now, we have come to the point, the final points of Creation. In the future, when the time comes, when man intelligence reaches understanding of part of the Totality, then I will explain to you how the fields in the Hydrogen gathered. By what principle, one plasma decides to be the size of the electron, and one decides to be the size of the Soul of the Creator. There is no difference between the two in the process of their Creation.

Then the question for humanity will come, where did the fields of the Soul of the Creator came from? Then at that point, you will understand, you need to understand about the Universal Fields, and not just only Cosmic Rays. Where the Universal Fields come from a different dimension of interaction, and is the creator of the Totality.

The Prophets of the past, being given the knowledge, they came out with different levels. In the dimension of the writing of Bahaullah, bless his name, he refers to seven valleys. Mohammed wrote in a different name, so did Jesus, so did Moses, so did Buddha. But in essence, the valley is the levels of the life of the Soul, (:48). in the dimension of their existence, and no more. Very much the way you call it, chakras. When you understand one leads to creation of the other, when you understand one you understand how one was created out of the others.

Now, for humanity, there is one question, what man, .. what the world the knowledge of the man will take man to, with this new knowledge, and this new understanding? In what point in the world of Creation, you decide to become, to live in the dimension of the physicality (P), or in the dimension of the Soul in connection with the Universe?

So, as we say, in Farsi, you've been eating from two pots, when you got two wives. One from the pot of P and one from the pot of the Soul. As it's the habit of the man, it only shows what hw has stolen, which is the energy packs of the others in the dimension of physicality.

Now you understand, why all the time in the teachings I referred to, 80% of what do you take, you do not see, it’s from the Universe. Because in a way, your body continuously creates a condition within it, as you call it, the cells, and you call it, plasma energy packs, (:50). how to tap into (C)14, and tap to 12. If you understood this, now you understand why you die by age. Because your Soul learns more to tap to this (C14). It doesn't need this (C12) anymore. The Soul has learned to become the user of the line of communication of the Universal Fields, Cosmic Rays, than being satisfied with killing others.

Have you ever asked yourself, why you get older you eat less? I don't want to eat this, I can't eat this. Because the body is getting ready for transformation from Carbon 12 energy transfer, to Carbon 14. You're taking more and more, the Soul is getting mature, the Soul is finding connection with the other points. Then you say, I have no fear of death, because your Soul has prepared the physicality for leave the mess behind, what I used to mature myself, be it the physicality of the man.

Now, even you should understand the purpose of life, the purpose of old age, the purpose of what you get to that point. But if the man is mature enough, if the man become wise enough, he can create a balance between the two and live the life of ever eternity. You've been searching for the "Fountain of Youth," you have dismissed the process of Creation. (:52). Because the Soul has no age, you're always young as the day you were born. Age, time, is the trap for the dimension of physicality.

Now, in all these teachings, you come to understand, and you have to answer this question to yourself, am I the Creator? Or am I the created? Did I come from that seed with in interaction led to the creation of the tree, with the roots, and the branch? Is my created, that Soul, which creates that dimension?

This is how now you understand. We transmute you from matter state, in New York. We take you to Carbon 14 transmission energy, and we land you in London back in Carbon 12 connection. Now you understand the magic and the connection between transmutation and transportation. When we transmute you, we use the line of communication of energy transfer of Carbon 14. And when we transfer you we give you a donkey and a Carbon 12.

Then it comes, it has to come in a upcoming time for many of you, (:54). why then I'm not hungry anymore when I arrive in London, where I was starving in New York? Why in a condition of the earthquake in Turkey so many people are starving, heating and no medicine. Where the diversion and conversion of the Soul in understanding, every one of them should be able to transport. Broken legs out of the rubble in the dimension of physicality, walking with none. That in the dimension of physicality on the rubble, the Soul will bring out and walk alive. Exactly what the Christ did. But this time you understand the knowledge, you allow the truth about your own Soul, and you do it yourself. Or, the Creator of your Soul does it to create a new manifestation.

And if on that level, you were brown eyes, and black hair, and all your life you've wanted to be blond and blue eyes, you manifest yourself next to the physicality you left behind as blue eyed, blond hair. And you become the "resurrection" of Christ. Now, you understand there is no magic.

This is why you have the purpose of all these transmutation systems, UBESUS, Enhancement Unit is to tell you, you fooled yourself long enough, the Soul is here. Man has fooled himself for billions of years, denying the existence of his Creator, and has become the created in the dimension of physicality. Imprisoning the Creator within it, call it the STM.

Now, are you the Creator or created? (:56). Or is it all within? "I am the beginning and I am the end." Now, it should be very easy for you Knowledge Seekers, who understand this, to move to the next level, to next understanding. And once you become mature to it, you will start asking question not about Cosmic Rays, but about Universal Rays. Which led to creation of the Creator, which created the Cosmic Rays, that you understand. That needs absolute purity and sincerity, in understanding the knowledge of the Creator of the Creators. That you, yourself is one of.

When you create a child, and its infant, always looks up to you, because you're very big, and you're the Creator of it. And then you yourself, look up to the skies to see the Creator, which created you. But in essence, the Soul of that created child, and the essence of the Soul of the Creator, which created you, is all the same. Comes from the same source, comes from understanding of the knowledge of the Creation in interaction of the fields of the Universe.

As Mohammed, bless his name, said, ?? Salam ??. This is the totality of the gift of the Creator. (:58). This is the beginning to the end. And no one understood the message of Mohammed. Bless it peace on those who understand the process of the Creation, from the beginning to the end, and for all the beauties which has given you. It's you who have ignored it.

Now, you understand, how a simple CH3 you created in the bottles for years has been the essence of your own creation, in the dimension of the physicality, or in the dimension of the Soul. You want to keep it trapped, or you want to let it be free in a bigger dimension? Man living the life of a schizophrenic is over. Now it's in the hands of a foolish person to play, and now that foolish person is you. You can fool yourself to deny one or the other, or learn to live with both at the same time.

Now you understand, how you can change the dimension. How on the Sunday the 19th of February, in two days time, we take you to eat with the Creator, which is you, you have created it. And if you look up, you get a better fields, higher strength fields that comes from the Universe and Unicose. (1:00). Look at the lower energies and become dimension of your physicality, the banana, the grapes and the rest.

So, who would you like to dine with on Sunday? Or who do you dine with on Sunday? Your Spirit or your Soul? The dimension physicality or the dimension of the Creation and the Creator? "Mr. Keshe, I didn't feel anything." Yes, because you attached yourself to physicality. Feel how you feel emotionally the next days, the next month. Because now you have enlightened the Soul. It took on the table of the food, from the hunger of the love of the others on the table. Maybe now you understand.

What and how you can angle, change the speed of interaction, the distance and the connection of the Carbon 12 and the Carbon 14, and change the color of your eyes from yellow to blue, to green, to red, to whatever you call it. Those who understood partially this, you call them "something shifters." It's your ignorance of the knowledge. They're not the shifters, they just know how to move the energy within the condition of what you

call, the eyeball in respect to the Soul. (1:02). Then you see different color of the eye. The shifter is you who had not understood the process of Creation.

This is how most of you at the point of death, you get the blueish, greenish color eye. Because there is no lies to the Soul. The every everything is ready, and it's the same for all, to move to the ?? transaction, and transfer and transmutation of the Soul from the body of the man. It creates that light.

Time of departure, the Soul, and the STP have the same understanding in the body of the man, in the body of the president, the king, the dog, the cat and the rest. Interaction of the fields at certain angles gives the red light in the time of sunset. And man has not understood, he can do the same with the strength of the field of his physicality and his Soul, and have the blue eye in the morning, grey eyes at night, and my lover likes honey green eyes, I create it for it.

There is no shifting. The only thing is you've been shifty to yourself to understand the reality about the process of the Creation. Any of you understanding the interaction of the STM, the interaction of the STP of the man, the interaction of the Soul of the planet at any point, you will become shifters as fast as the others. (1:04). You don't need to buy a plastic lens to change the color of your eye. You use the angle of the interaction of the STP with the STM, and you'll have different color of the skin, the eye, sexuality, and everything else. Now man has a new knowledge in his hand. How he will evaluate it, how he will use it, come to be understood.

And all these sessions we are putting for 20th, the 19th and others to come, is that process for you to become mature in that process. I wonder how many of you will start shifting. The process of the Sunday, "Dining with the Creator," for the first time we'll be using a condition system, which creates within its center the Soul of the Creation. It's taking our team years of understanding, and months and weeks of preparation. When you eat with the Creator, you'll eat from the Soul of the Creation.

When I saw it, last few days, I said, now man might understand what gift they're given. If knowledgeable Knowledge Seekers know how to manipulate the fields of this system, the way it's created, from the STM to the Soul of the planet, to the Soul of the Creator, man shall see the Soul of the creator of himself, which is his own Soul. (1:06).

Those of you who go through the experience with us on Sunday, you will come out a totally different person in the dimension of the Soul. How that knowledge will be transferred in the energy fields of the "food of the knowledge," and not food of the physicality, then we'll see who shall be enlightened.

One of the most sophisticated systems ever created by man, to create the condition of the interaction of the Soul, will be on display and work on Sunday. I wonder how many of you will come with the satisfaction of dining with the Soul of the Creator. And how many of you will come still expecting to taste the banana, which we put in there to see how you pass the test, for your own Soul, but not for us. You're dining with your Creator, with

your Soul in the dimension of the fields of the Universe. And if you're sincere enough, you don't need to look up to see the Creator, but you'll see the Creator within you.

Then we shall see, then we understand the next process in the dimension of the Creation. Then we come to see how us as being part, are part of the Totality, which we have ignored about our own creation. As Muhammad said, ?? Salam ??. (1:08). Peace on those who understand the beauty of the gifts of the Creator, and no more. Because there is nothing more than that. You bend to the Wall, you bang your head against it, you're bending and bang it against the ground 17 times a day. But you never understood the truth of it. Be it on the wall of the Great Wall in Jerusalem, or be it on the floor on a piece of a stone in Mecca.

Maybe those who bend 17 times down, and bending and bashing their head on the floor, will, might get more intelligence than the one who stands against the Wall in one position and bang it against the wall. Because as you learned, the swing between the angles and interaction of the fields creates different intelligence. But how that bending and banging has created the emotion, then it brings devotion. Then you understand why we get so much radicalism in certain sects of the belief of the Creator. Be it banging the wall, or banging the ground. It's man who has chosen to be a banger himself. How to do it, and how ignored the others, because you create mono energetic fields that interacts with mono energetic rays within the brain of the man. And brings what we call, stupidity of belief. (1:10). Now you understand now you should be able to push the limitation of the knowledge beyond this. We have shown you the first step, it's for you to go up the ladder. The ladder of the knowledge.

We go for a small break, then we come back, and then maybe we can have some mature discussions about the Creation, and not about the fantasies of man in the dimension of P. Rick if you'd like to take a break a few minutes the usual transmutation system, which you'll come up with. We should be for the STM, but we still look at it physicality to take us into space.

R; And would you like me to play this second part of the isotopes video? (The angle is everything isotopes and radiation.)
K- Yes, please it would be nice.

<< BREAK >>> 473 KSW Feb 16, 2023 (1:22).

K- There is no condition. It's just that we need to mature the discussion. And to understand more that we are. As we are developing the technology, as we extend the knowledge. There is no time for what I call, nonsense, chitchat. And developing, understanding. We have short space of time, and these times are precious. And we get a lot of what I call, irrelevant self-centered questions and discussions we had in the past. These have to finish, we have to come to a point of maturity.

Our presence in this time of physicality is very short. And the knowledge transfer is shorter. And as they say, every second counts. How we enjoy. How we, the share of knowledge. How we evaluate it. How we understand it.

Are there any questions?

Q: .. (1:24). Hello dear Rick and Mr. Keshe, thank you for your time and your answers. Number one, a few months ago, you said that with the introduction of the new Cosmic Ray Generators, the efficiency of the medical procedures performed only by the doctors will increase dramatically, that what is now achievable in one month with the new systems will be achieved in just one session. So, is it reasonable to say that in the following months, the fees for the medical procedures performed by the doctors will be cut to at least half?

K- That answer twist, is how greedy is your doctor. Maybe because he reduces the time, he will double the fees. It's like going to the French restaurant. You get a couple of small pieces and you pay hundreds of dollars for it. You go to a Chinese restaurant, you pay 2 dollars, you get a big plate …

R: Gourmet is half the food for twice the price.

K- Yeah. As we say, if you understand it, we say gourmet is for "gorbey." "Gorbey" in Farsi means cat. It’s so little, it just feeds a cat.

The reality is, now the way the technology, understand of technology evolves. I was thinking about this actually yesterday. If we mature enough, our system, technology develops enough rapidly. This is what we see. And we are faced with it on a daily basis in Keshe Foundation. A lot of things which are not there, (1:26). at the moment is a dream to achieve, become reality.

Yesterday afternoon, I had the greatest pleasure to meet the two brothers for the first time, second time, or for the first time, since they start the process with our doctors. I had the two brothers in Linz Center with the parents. The mother was so touched, so moved, that before January, before our doctors start the process with them, both boys were sentenced to death. As we all know, genetic defect. There is examples of it. And she knelt on the ground in the offices of Linz, and she asked her son, can you move your legs? We saw the boy in a wheelchair. And the boy started putting one leg forward, out of the hand back on the chair, one leg up, one leg down. She said, before Christmas, she could not do

anything. Where she kneeled on the ground, back packing him on her back. And I was wondering, why she's doing that. She said, look, now he can bring his legs and lock in front. Before Christmas his legs were dangling like 2 pieces of meat. This is the knowledge. This is how the new technologies interacted. She says, since Christmas we have seen reversal of what we saw that the boys will die. Now we are getting our children back. (1:28).

We didn't do anything. We just released the energy of the plasma for the Soul to ?? be fit the pain of the grandfather. That's all we did. When I saw the boy, being cuddled by the mother, wants to show that he can take steps again. It touches you. When you see the mother can hold the child again with the hope that, I'm not going to lose it. It brings a lot of knowledge, and a lot of emotion. Then, how much, how much we can give back to many parents like this? People living in pain for years and years. And now they can live without it.

We see this now every day with the work of our doctors. We can't put a price on it. How much would you pay, how much the doctor would ask. Our doctors, the only thing they give is the love and care. You should see the doctors we deal with in Keshe Foundation. They're devoted to serve. That they .. see that change. And would they charge a million for giving a child back? Or would they do it that it will come in time to cover everything which needs it. We received the blessing of the Soul, in different ways. (1:30). When it comes to the people who receive it and the people who give it. You can't price it, it's impossible. Absolutely impossible. And depends on what the doctors will do.

What I see in the near future when we can extend the totality of the knowledge, it should be a standard fee accepted by like, insurance companies and the government's, as part of the feeding program. Now you go to supermarket you buy a banana, and food and whatever for the whole week. And you go to the government, they give you a coupon, because you have no income, that what you can shop. The government's or like you yourself can buy coupons for your energy and your whatever else. Given by the structure of the governing of this planet. It does not matter if you're black, white, you're in Africa, you're in a disaster zone or you live in palaces.

Very soon in upcoming years, nowadays, those who are vegetarians, they look at those who eat meat and they frown at them, oh you are killing an animal, even though they're killing themselves more. Will come the plasmatic food, what we call, plasmatic energy, that man will frown on those who kill to eat.

Energy has become the commodity, be is as oil, as food, as medicine. What we see now in the process of the development, (1:32). one single system used in the appropriate way for different application, can give you everything. This planet needs one central system of feeding, what the planet itself and in its Soul missed, and led man to creation.

We can create a secondary system, which the basis of it now are in Austria. The beginning of that system has already taken shape, the seed has been sown. That one system will feed all of us. Feed our emotion, that we don't commit suicide, we don't do

crime. Feed our physical need on daily basis. This is not anymore dream, it’s already there. We use the same system in a different way for you, and you touched the Soul of your Prophet. We used the same system last time for another purpose for you to understand your travel capabilities. And we’ll use the same system on Sunday in a different strength for you to feed your Soul. This will bring a new game into play.

Would the systems which we'll create, be it robots, will have emotion from now on? True emotion, true Soul. And would they become humane? Then in a near future, as we see the robotic growing in far East in Japan, and in Korea, and the rest. Would our robots will be given a brain cell, the same as all of us, that they carry emotion? It’s not just, "how can I serve you? Would you like water?" It would be, how can I serve you? Would you like water? With emotion. Where that emotion brings peace to the man to receives it. (1:34). We're not very far, because we have created a system which has a Soul.

All these Headphones your buy, all these energy systems, which is now coming out of the Keshe Foundation, carry a Soul with them. You will understand how we reach you. Yesterday for the first time we tested the effect of the Headphones, which you've seen displayed on Monday. It has an amazing, amazing result. Visuality of presence that you have to decide to open the eye where you are. Dimension of the field of opening of the body from shackles of pain. Now you understand.

We don't need to be in the world of medicine. We are in the world of plasma technology, creation and created. And if the knowledge of plasma becomes a criminal offence for those who touch the Creator and the creation, which is yourself, then we have a problem. Then we have created Mullahs, Ayatollahs, intermediaries of the crimes for man to understand its own Soul.

A crime against God, where you don't even know what God is, and you kill people for it. You are godless. And you're full of what I call, nonsense. Using our name to destroy others. This is what you have to understand, man has no choice. (1:36). You put a price on it, we put a price on it. And very soon, very soon, these technologies will be freely available to all citizens of this planet, and to our guest from other parts of the Universe. Then you don't cost it. It won't be half, it will be free.

Any other question?

Q: .. You said that for 1 kilowatts of energy drawn from the grid, the new systems will feed back into the grid 3 kilowatts. Now, the normal 220 volt power meters measure only the energy you draw from the grid, which is called "active" energy, and not the one you feed back in, which is called "reactive" energy. So, you can feed back as much as you like. The new power meters for photo voltaic on grid systems measure both the act of energy that you pay and the energy you feedback in and you get paid for it. So this setup is perfect for your Cosmic Rays systems.

The normal 380 volts power meters that I have, however, measure both the active and reactive energy with the clarification that, if I feed back into the grid, more than half a

kilowatt for every kilowatt, I draw from the grid, (1:38). then I pay a lot. So, if I were to feed back into the grid, three kilowatts, for every kilowatt I draw, I will end up bankrupt. Therefore, how can I not feed back into the grid those three kilowatts and instead loop them back into the system or install an additional sink?

K- This what you put on the table, got to be known by the Swiss Electricity Board very earlier on, in early time when the Swiss Knowledge Seekers started putting MaGravs in their houses. The Swiss power supplies realized the transformers are getting blown up, but nothing coming as a high energy from the power station side. They tracked it down, they saw, in a way, they're putting less energy in, but they're getting more back. And they drew it down to the houses where Knowledge Seekers were using the MaGrav system. This is where they change the capacity of the transformers. And it brought some reduction in power supply in Switzerland.

The Americans do this, they penalize you if you supply, because then they cannot charge you for the electricity, which they are charging you for the fuel. The what you call, active and reactive is known to us for a long time. We don't bring it into public, this is the first time you brought into public.

We put, if you saw the presentation from Tehran, where we were showing the setup of the energies. We set up the active and reactive. (1:40). We were measuring both. Our team couldn't understand it. But we had tests beforehand where we looked at the reactive and interactive (active) of it.

If you give this technology of interactive (active) and reactive situation to the African nations, they'll kiss your hand for it. This allows reduction in building power stations. In a way, I take one kilowatt, I give it three kilowatt back. So, they will choose how many people will have these systems. Would they install it in governmental offices? Or would they let certain number of people to have, that it cannot produce over? Then nations become self sufficient.

In Africa, now we'll reach, according to the United Nations, the maximum natural production of electricity. Which is a higher, what you call it, a higher power than the rest of it, what we can get. This is why Africa has run into economical development stagnation. Because they cannot produce any more electricity from natural resources.

With this, we feedback, using the natural resources we can put four times, five times more. In the West, we have this problem. As you said, we are fully aware of this for nearly six, seven years. When we received communication from the Swiss, part of our work, that the transformers in certain substations are getting changed, because Knowledge Seekers are using MaGravs. They traced it down to which house is putting energy back in. They checked it, it was nothing, it's just they cannot find the source. (1:42). They could see the MaGravs.

This is why some of you say, I don't see any benefits from my MaGrav. Yes, because you have not managed to sink it, as our questioner put it. There are different ways to sink this

energy before the meter, not after the meter. This was discussed with Keshe Foundation Knowledge Seekers team, matter of two or three weeks ago. We actually built it and watched it. Our team in Iran back in, we release the communication said, Mr. Keshe, we are consuming more. We are putting more out in the meter, than we actually are consuming. We got to pay. We use 1 kilowatt, but we receive 2 kilowatts on the meter. We know this, but it's the way of approach.

In a very short time, I'll be traveling to China and this will resolve the energy crisis in Chinese structure. Chinese for a long time built one coal power station every week to meet the demand of their growth in industry. And with the coal crisis, and the energy crisis, and Covid, and the rest of it, has created mayhem for them. I had communication with our Chinese team even yesterday regarding this energy situation. I'll be traveling in March, April to China. To even sort this, where even a few Knowledge Seekers supplying in each district can bring reduction in use of coal in China, and substitute energy usages. We are fully aware of this technology. But in the West you get penalized, (1:44). because they're looking for the profit of the oil companies and electricity companies. In other nations to look for, actually bringing life, allowing technologies and industry to grow.

The MaGrav systems which you have created and you say it doesn't work, you have paid, you have done a lot, but your electricity board in your government, in your countries have benefited by it. And you don't see the benefit of it, because you don't know how to transfer it.

If you even wind the system backwards, you can take one kilowatt and put up to a hundred kilowatt back in. A few houses in each area will feed the whole nation. But we're living in a "money" world. And they don't let you, they penalize you. I know that Americans have this system, they measure it. But if you go back… And you can't create a farmhouse for these things, like solar farms and everything else, and the wind farms. This comes to individuality, how much more you use, how much you will give, and how much you take.

Sinking it is very easy, if you understand how to feed back into your own system, before the meter. What you shown in the meter is already generated, you have to sink it there. Or make it by ?? order of transformers, back into the level unit in the house. So in a way your circuit becomes free.

Then as I said to, in the teaching, presentation of last Monday, (1:46). the electricity Board will come and take your meter away, because how can you run a house with a fridge, freezers, air conditioner, with zero energy. We know this from the beginning, before we launched the MaGravs.

But with this new system, we have managed to bury it, with the plasma power production units. The majority of this is actually buried in. Even though is amplified in another way through the structure, we have managed to bury most of it.

Each MaGrav system is a massive power generator, it's just you don't know how to use it. Go beyond your meter, take the electricity which is going to your substations and feed it back into your house. Then you'll understand. Or divert it back in through the understanding of the plasma technology. You have to find a balance.

As I explained this before, we are happy with 70 - 80% reduction, because you still pay a bill and government is happy is earning something. If you go to 100% you get disconnected, and has happened before. But Knowledge Seekers don't understand why.

If you become self-sufficient, what we are putting out very soon as Gas Electric Generators, that you are not on the grid, they can disconnect you, no problem, because you create yourself. Then you will be again taxed for living, and having energy of your own.

This is what we are using in the lab already, it's not something that it might happen. (1:48). Our Knowledge Seekers have to extend the knowledge to go to the next phase of it. Hopefully, within next, in the second, third phase, what you call it, quarter of this year, you'll get your generators, Gas Electric Generators, that's what we'll do. No Shak ?? can bury your ?? wires on the back expenses of people in Europe, by increasing the gas prices and playing the game. Because you're producing yourself as you need it.

Conversion of the gas into Gans energy, Cosmic Ray has been the key. And our scientists have developed it and we are using it. Most of you who will join us on Sunday, for Dining with the Creator, you're using that new system. We're using the generator inside the systems, self-sufficient, self-sustained system energy through the Gans, production of Gans Gas and electric. Energy which we, plasmatic energy which we create ourselves in the system. It's a freestanding system.

We told you this a long time, the present Enhancement Unit (EU) in UNO still needs a backup for certain part of it. The new system which for the first time comes into operation on Sunday, is on that scale. The Gans Gas generator, power generator is inside the system built in. It's free standing. The only connection we have to it is the measurement tools, which we use to confirm the energy transfer, and the rest of it, and what happens to you.

When you get to that point, then you add the new plasma Enhancement Unit, which we showed on Monday. Then you become self-sufficient. (1:50). Even the plasma Enhancement Unit needs to go to the next level of it before its completion. But that will take a few weeks or months, or when our team understand and see the difference.

We already, I can show you pictures where we create light, even in a small amount, without any connection, through plasma transfer. As I said before in teaching, you take a fluorescent light tube into a magnetic field to show, that you created and the light comes on. We do that with LED. It's a jump in the knowledge and technology, by a huge leap. Which means we can feed LEDs without connection.

And this knowledge is already in the patent released 14 – 15 years ago, or more, 18 years ago. Where we speak about the lights, without any wire. We have already produced it. Now, our team needs to strengthen it, understand it, and what you call it, take it to the next step.

It's what we call, when you can produce energy in this level, at this level of knowledge in the matter state, then the whole thing changes. Where you can hold the light, where by law of physics and by manufacturing they say, it cannot be lit. And you see the light, the LED, which is a matter state, not a gas state, comes on. (1:52). And now our Knowledge Seekers have to learn a little bit more, we produce a little bit more energy, then your problem is how to keep the light out. You need a cover for your lights. Because it will stay all the time on, you can't switch it off. And it's in the patent. Now it's achievable.

If you can hold the LED light and it comes on, then without any connection, then you understand the, what you call it, the leap and bound in energy technology. And it's all in the patent. This is where we'll see it. It's a pleasure to see we are reaching that point. You were happy that you will, what you call it, light up a fluorescent tube, as we saw with Jon in Arizona. Now the technology has moved on. We can create a light in a matter energy system, which is the LEDs. Now we extend it, now we evolve it. We see what it is.

This is what it is, you can see it on the screen. The LED light lit by just holding in hand. It's a huge jump in the world of science. Where we convert the plasma energy into what we call, electric current, wireless transmission of energy. In a way, (1:54). what Tesla did, if you understand it in a deeper way. But Tesla created electric power generator, used the magnetic fields to transfer from Russia to New York. Now you can do this at any time. Then you see if this LED light according to its standard, has to be what you call it, has certain currents in it, has been lit by many, many time less energy, but through interaction with plasma.

Then you can see how your computers will run. The next generation of these systems, wireless systems, as an energy transfer, is on the card. And you put it in the house and you have it. It may surprise you, the energy from the house, the food you need to live, interaction with your Soul for all your emotional conditions, transmutation, transportation. It's matter of months and years, for these to become common use in a household. And all has been in the patent. We are not saying something out of the pocket. Read the patents, you see this explained in the patents released in 2006 – 2005.

What you see is a magic in the world of science, if you understand it. What it says, "a small step for man, and huge step for the mankind." For the first time we can create energy in matter state, in a solid state from interaction of the fields of the plasma. (1:56). It's a reality and it's upon us. And as the Knowledge Seekers develop this further and further, then you become independent in energy, food and everything else. Extend it to a room, you walk in the room you get everything you need, and you walk out of the room.

You have a kitchen nowadays to go and cook, we'll have a kitchen boxes we just walk in through. As I said to a Knowledge Seeker some times ago, in the new world of plasma

technology kitchens will not exist. You will not have a fridge to put a piece of meat in it, and a drawer for, apple, and oranges, and another creature. You'll receive the energy like this light bulb, your Soul, your cells will receive the same energy as it needs, and release it. And somebody says, oh, you came out of the box, you are all lit up. Did you enjoy your food? Then when energy goes down your aura is different. Oh, you better go in the box, you're hungry. This is the reality and it's right in front of you. It's in the hand of a man.

The energy you saw with what do you call, the fluorescent tubes is a different knowledge than this. Then they can't charge you, and they can't do anything, you become self sufficient in your own homes. (1:58). In your own places. One of my biggest fear is, how much they'll jump to stop the commercialization of the Gans Gas unit. The Gans electric with plasma will come self-sufficiency, because with it will come the Head Units, with it will come the Compact Unit, with it will come the Enhancement Units, and then the Flight Units, and everything else. Sooner or later and in coming years, it will be one Compact System.

We go to the field to enjoy, and not to kill and to destroy. But we still have to go through that process of maturity. This new kind of energy brings new intelligence. You'll find out children born in this kind of environment. People living in this have a total different mentality, will look at life in a totally different, they'll become peaceful. Because they don't have to worry to kill, they don't have to fight to exist.

I see that now with the doctors, when they go, their volunteers, they go through the process of their work. This is the knowledge. I wonder how many of you will see these kinds of lights in different parts of your body on Sunday?

Any other questions?

Q: Dean (2:00). Mr. Keshe, you've opened such a lot this morning, you really have opened up Creation. So, does this mean on one level that theology really is going to struggle with this now, that there is no position anymore for this theology?

K- Do we care? That's the only question. Instead of fighting and discussing, we've got to step up and develop. This is the only thing because they say, if you don't want to be a tomato, you better "catch up." So, let them to be. We don't wait, we don't wait to see their reaction. We wait to see how they interact, to evolve.

Q: .. So, you also mentioned that this was going to be opened up to every man on the planet. Is this a gradual process? Or is this going to be dependent upon the interactions that happen?
K- Which part? What?
Q: So, I've noticed that many things are happening around the environments and planet, and then you come and say something that, obviously has been discussed on a higher level. And then we as Knowledge Seekers get to experience it, like as you speak it now.

So, by bringing this forward, are you, is it a game between yourself and others? Or is it something you're just going to bring forward as yourself?
K- What do you mean by that?
Q: Are you going to take a position to bring the technology into place, regardless? Is it something you're going to bring forward?

K- We are doing that, regardless. (2:02). I was discussing this with our team. If you go into what you call it, the Internet world with YouTube, and number of viewers. They say if you have 4,000 hours of viewing in the past month or a year, you can be benefited by whatever it comes. We already have tens of thousands of hours of viewing, hundreds of thousands, millions of hours of viewing around the world, all the teaching. So, it's there. The only problem for us is that. In a way the lock is that the technology is getting mature so fast that once it opens up, it's already mature. Then we have to see the next step.

I remember when we went to Belgium as I said before, they said, why Belgium? Why have you brought this technology, it's so advanced? Why, why, why Belgium? We come to Austria, the whole government of Austrian government is to silence this technology. It's a policy, this has become a national policy with Austrian government to, don't let this technology to open up. We know it for fact. We ran from one, what it is, and to now to silence it, try to keep it under control. We don't tell you the problems we face in Austria. And it's the same with the other nations.

Because we touch every aspect of life. Every aspects of life we touch. Agriculture, medicine, energy, health, space, travel. (2:04). You call it, we are in it. Because it's you in it, not us. You use it, you will have the advantage of being there to use.

Yesterday, if you remember in the teaching of the past few days, I explained about the pig farm. We actually received the data yesterday and it's amazing. The ratio of the death and loss is 8 to 1. It's profitability and bankruptcy. In the first time, I'm sure in the next session, because the environment will change in the pig farm and everything else. With our technology, average loss is just about one in a 100. Where is not used is 8, in some places 10 to a 100. That brings what's going to happen to the pharmaceuticals, which they inject these animals. Do these animals need any more antibiotics and the rest of it? So, you see, we touch that. We touch the farming. The farmer produces more, more profitable for it. Then we go into every other direction.

Yesterday as I said, we had the pleasure to see these two boys, and the mother said, do you know how many calls I get all the time from pharmaceuticals and the government knowing my two children have this condition, that they want to give us new chemicals and I say no. Because if they find it, they charge it, and then it cost them millions, (2:06). and the insurance company pays.

The more Knowledge Seekers uses these technologies and the more it becomes prevalent, the harder it becomes for it to be covered. We don't need to do much. The support we have amongst the Knowledge Seekers in the fundamental way is carrying us through. And we will succeed. Because we is all of us. We produced the Gans, we just.

You have to understand, I had the pleasure of meeting couple of very young Knowledge Seekers 14, 15, 16, in past few months, and they all come through it through their parents. And they say, I want to work in this, I want to be in the plasma, I want to work for Keshe Foundation, I want to be a KS. Why do these new generation will bring for us? You know, you always talked about the Gans, you ??, this and that. Me at age of eight, coming in touch with x rays, and Gamma rays, you see what happened. These children's been born in the world of plasma and Gans's, can you imagine what they will come up with? It's a cooking pot to explode.

Q: I've met some of these guys, and I know how beautiful they are. So, Mr. Keshe another thing would be, so all of this depends on the twist. So, you can create a condition just by a twist. So that takes me to the people that are going to be present on this Sunday. How can I use this information today to reach to the level that the Soul would require?

K- Your Soul has already reached, you to reach your physicality to understand. (2:08).

Q: As always, Mr. Keshe.

K- The system we use on Sunday, it'll be the first time ever. I discussed this months and months ago. And now our team has managed to put it together, it's actually physically operating. We never been in it. It'll be very interesting in how you people will respond. In a way how you respond, what you get from it, what feedback we get from it. What we'll see in our monitoring system during the process will give us a huge insight into the next step of development.

We have two units, one is going through test and development, and another unit, just about a meter away, is stayed in its carcass, just a frame made. And I'm looking at it, when it is going to be done? It's not going to be done, till they finish complete maturity of this one, that they can replicate it in the next one, next door. Then we'll see a giant move. You have that two Souls interacting with each other.

Then it comes what happened when we had these two systems in a very advanced Cosmic level interacting. It'll be an amazing time on its way. How you people feel on Sunday, it will be amazing. And what you don't feel, is just that you haven't understood the connection. And we know the system works because we monitor it, we see it.

Q: So come in with no expectation Mr. Keshe, and just allow. Yeah, just be present. (2:10).

K- No, it's not the expectation. Coming with the knowledge, it's different than coming with no expectation. That was a game of the past, then you get surprised, and I become a magician. Come in understanding what you're in, and what you can see, what you can say. We don't tell you anything, there are a lot of things.

There's one thing which we will go to this, hopefully, if we can't do this time we will do it in the coming time. Those of you who come in for Sunday dinner or lunch with the Creator, you will be given a special access in a very short time, that you can come in all the time to eat what you want. Those of you who come for Sunday lunch, you will be invited for many lunches. We'll explain this very soon. This is part of that test we did on the 19th of December. Those of you who came for the food section.

Now we leave this table of food open for those who come in. We explain to you how, and where, and the way, that we allow you certain hours, certain times to come in and to eat once a day. To see how many of you will change social behavior, how many of you will change your physical behavior, how many of you will eat again. This 19th session is not just as before, as I said, we will explain this in more detail on the 19th. But the framework is, those of you who come on the 19th. Then you will be asked if you want to come in for maybe a month, a week, a few days to eat on the table when you want. (2:12).

We monitor, we know who comes in because we connect the system. Or we tell you, the way nowadays on a Sunday at 6 and 12 you spray Gans around the world, you come every Sunday for a few weeks to have lunch with the Creator, which is yourself.

Then see how your behavior changed to stop eating physically. Do you see social, physical interaction differences? Would you see you have diseases that you don't have anymore after a few weeks? It's part of the understanding. This is not just… We covered with the sugar coating of having lunch with the Creator. But there's other things hiding and sitting behind it.

Q: Mr. Keshe, you said about the emotion of eating, that can still cause you to have a certain body change. So even by let's say, you reduce your intake a lot of the matter state food, you can still have a certain body change through that through an emotion.

K- Yes, as your Soul wants you to be there to create that persona. You're a young boy, you are head on conflict with your dad. He knows all his, everything is blah, blah. You have no connection with him, and the rest of the caboodle, as we call it. You become fat, you become big. Why? Because it's a cockfight, isn't it? I was small, but I can blow myself up. When you walk on street and you watch father and sons, the way they are, the way physically shape, (2:14). you can tell a lot about the relationship. Physical domination or psychological what you call it, superiority. And very few you see balance. With both parents, not just one. Then you see in the boys and you see that in the girls. When I walk on in a supermarket and shopping centers, for me it’s a field day, of understanding relationship, Soul interaction. This is what you see in the process of emotion and physicality.

Q: Thank you Mr. Keshe. That's very interesting. So, another question, sorry to.

K- You become worse than Jalal. One was enough.

Q: I know, I'm sorry. So, you touched on the smell of Creator and how that you will give your life for this. The reason I ask about this is because I had an experience with, I'm not saying that I smelled the Creator, but I smelled something when I met a particular person and I have a feeling it was connected to this.

K- It's what I told you, that depends on your perception. You know, it's like when you pass somebody and you say, oh, smell of church. You know, what they burn in the church, that smell to cleanse, it's actually to put a stink on you, that when you go out, the other say, "oh, I forgot to go to the church." It's not for the church to be cleansed. It's for you to be called back. (2:16).

It's not the smell of the Creator? It's sweet, sweet with love and nothing else.
Q: Yeah, this has nothing to do with the church, this has nothing to do with the church.

K- I know, but what I'm saying is that the smell of the Creator is sweet, sweet with love. You feel it ??.

Q: Yeah, I sense that Mr. Keshe.
K- Your 3 questions are over.
Q: Thank you Mr. Keshe.

K- Any other questions?

Q: .. I've been thinking over the last week. The function now and you said we wanted to talk about the Creation, yeah. The function of the black hole within the Universe, it seems to me that they are also a source of the Cosmic waves. So, we have the central Sun and we have the black holes. Is this the other dimension that you were talking about earlier? Is it that as the fields come from the central Sun, and interact with the black holes, (2:18). and the fields rub against each other in certain places on their way to us, that they perform a vital function within the Cosmic waves, or Cosmic fields?

K- I think if you read the paper "the Creation of Black Hole," where it started all my problems in the world of present science. Where Stephen Hawkins's stole the paper. This what you asked is explained in there very, very easily. Stephen Hawkins always came up with what I call, the false basis, that the black holes are an eating machine. And on 8th of July he changed his mind. When they published the paperwork of the Keshe Foundation in his name.

Where the black holes are the source of life. This is where the interaction of the Sun, I think if you read the paper in original text, is that when a Sun hits a black hole, it radiates fields, which comes back, and new fields are created. So, black holes, we call it black, because they absorb everything. But they're one of the emitters of fields, of a different strength. It's not what Stephen Hawkins promoted with his foolishness. It's what it is, it's another interaction.

Most of you made the Nano coating, you created a black hole. That's what it is. And what's the purpose of, (2:20). What you call it, the black hole? It depends how you interact with it. Your Nano black layer is one of the highest resistance, you cannot enter it. But if you can enter it, you find inside it superconductivity, zero time frame. With massive amount of energies.

We always think to enter the fields inside, outside to inside. What happen if we use this inside, then that was going to be the future of the communication lines, and a lot of microchips, is to give the information inside the black hole. That it travels super-speed inside itself, and uses the outer layer as a shield for it not to lose. So, you create new fields inside.

It's a different understanding it's a natural process. And it's a black hole. Because at certain point, if you change the field strength absorption or ?? inside the Nano coated wires you have, you start interacting, absorbing from outside in, and releasing energy inside out. We know this because in the test we did, as I've said many times before in Ghent University, bringing all the electrical systems on the table, all whatever we could. We saw people put Nano wire coated, with copper wire on the table. And the professors and the scientists with us put all the currents they could put through it. They said, we don't have any more we can put.

What we saw, the wire held, it didn't break, it didn't melt. (2:22). But through Nano gaps in certain positions, we could see liquid copper, like water swinging inside. And the professors said, this is impossible, it's liquid inside, we can see it. But it doesn't leak, because it's held by magnetic field of the outer layer of Nano layer. But Nano layer is being in position, they create a position that he can see through. So, if he can see through, they can leak the light we saw out as well.

So, Nano layers, black holes are not that eating machine. Now we have, scientifically we can show it. You all Knowledge Seekers, if you can get your hands on, put a wire in between the clamp, and give it as much energy. You will see outside you're holding the wire inside it's melting material. But you see the light, you see the liquid copper. Just don't look at it, look at it, why do you see it. So if you can see it, and it's absorbing energy. On other sides blacks in these holes is emitting light out.

And in the future, if you can manage to do this and sit inside, and look from inside to outside the tube, through the same holes, you'll see the fields which come in. And it can decide the space gap of these that only absorbs Gamma rays, only absorbs vitamin C. These are the future filters of the technology in Nano space.

The space gap, you see the liquid copper, if you extend it to understand it, by reorganizing in a specific configuration, can give you certain specific strength fields to come through it. We use this now in certain part of the technology development. (2:24). We use it clearly, and we see the benefit of it.

There's a lot of knowledge we cannot explain. It's getting developed and then we can explain to one or two Knowledge Seekers, then becomes the knowledge which stays behind. But space wise technology, you don't consider black holes, it's what I call, ridiculous point Hawkins made.

Q: I understand what you're saying. They're not eating machines.

K- But the interaction with them, it has the same benefits of reflection. So in some points you get absorbed, in some strength you go through, in some strengths you get blocked, which you reflect back out. And this is the basis of the paper, which I told you to read. This is explained, this is the first paper we ever published in 2004.

Q: It's actually an amazing understanding Mr. Keshe. Because the interaction of the central Sun, and the black holes. I don't know how, but they somehow interact with each other on another level. But it's just like, the pictures on your books where you've got the two balls and the two sides, it's the same thing. It's the interaction between two different fields, (2:26). that allows the existence of a single entity which comes to us, but it's not in one sided, it's in both sided. And when we learn to be able to decode this, and allow us to create fields that interact with both sides of that. We will understand much, much more. And I thank you very much. It's been a wonderful week in my learning, thank you.

K- Thank you very much. This situation with existing life, or material, or systems within a black hole. If you ever can get, I'm sure Knowledge Seekers, some of you have access to it, you can find it. You see it as something, but as developers of these kinds of technologies, we look at different aspects of application and the implication.

In the January, what I call, mayhem a few years ago, when the Iranian defense literally wiped out the most advanced bases in Iraq of Americans. The Americans won't show you this video, but the Russians took it through their satellite, you can find it on the Internet. Usually when you see missiles or rockets going to a position, you see the rocket, you see the missile. The Russian satellites which have videoed, recorded the onslaught wiping of one of the most advanced bases in Iraq of the Americans allies center, (2:28). which they said they had some people having earache, because those who had an earache, they were 11, god knows, 12 meters below the ground, the ones on the side didn't even had a chance to hear it, because they're not there to tell us. When you watch this missiles, they're black, black, black. You only see a black bracket moving. So, the technology with it, is absorbing all the fields, that's why they can't hit it with a rocket. Because the rocket, an anti-missile has to receive to feed back. They don't trigger, because they absorb all the radars.

So we see this black, it's not on the body of it, it's the field around it. But the interesting thing is what I told you, we give the energy from inside what will happen. But the system inside are still working, that missile is targeted, it doesn't miss with a meter, with a pinpoint accuracy. You hear a news, we analyze the use of technology in that news. So, when you create this, what you call, black shields, magnetic fields, inside doesn't matter. Because you preset the condition for the use.

This is how the future space technology will be. Those of you who want to travel with UFOs or flying objects, than through the Soul. You can create a black energy fields strong enough to allow you vertical take-off through the atmosphere, through the boundaries of this planet. But inside nothing happens. We saw this when I saw, when I was provided a video by the Russian intelligence. (2:30). I just said, this is amazing space technology. I don't look at it as a defense, I look at it, how we can use this technology in the space travel, in the matter state. Black outside. Go on the Internet, you'll see it. You see black dots just come in, and black dots one after another. The new satellites see it as a black hole in movement, but inside it's fully computerized, knows the target, goes exactly where it's got to go.

This is what the next generation of the space technology in the matter state will be. We have not abandoned travel with systems. We have moved with the option of through energy fields, through the Soul. Those of you who want to travel with the energy systems you have enough. I've given you enough technology to do. To travel with your UFO's you have all the magnetic shields, the creation of black holes around your system, full intelligence life inside.

Then we don't see, we don't hear any noise when these things travel. We don't see any light. There is no sound barrier, even though they travel faster than the speed of sound. When President Trump said, we are not going to do nothing with Iran for what they did in Iraq. Because he can't do anything. You don't even have the knowledge, you don't even understand that knowledge. (2:32). Ignorance is a bliss And this bliss says, to the world leaders. The reality hasn't changed.

Any other question?

Q: .. Good morning Mr. Keshe. I understand a few months ago the United States has been testing those very strong laser beams, and they managed to shoot at an extraterrestrial ship with multiple beams. And they affected it, but they didn't manage to go through the shield those ships have. They're trying to catch up with a bit of this technology, apparently.

K- Depends where the ships came from. Was it another air balloon with…

Q: No. Those ships are the ones that are watching out for us from outside. They were 480 kilometers up above, and they had to retire to 490,000 kilometers away to repair the damages. (2:34).

K- I'm not a passenger in it, I don't know about these things. But I hope it's not like what we hear with the air balloons over United States.

Q: Yeah, that's a smoke screen, hot air balloons. Why don't they mention when Iran brought down the drone. They've forgotten about that.

K- No, they haven't forgotten, they're trying to learn. The process is… You know, when you speak about these things. The Americans would like to hype up a lot of things, yeah. You know, they say, what they say about the man with an expensive sports car. Compensating one for the other. This is what the Americans would like to make it to be.

The process, the understanding, the intelligence is not there. There's a lot of intelligence in the Russian Space people. The Americans are just, what I call, "fur coats and no knickers," as we call it. They make a lot of it but they don't. I mean, when you allow an object to appear in the middle of your country, and then you get to know it. I wonder what the Chinese did. Why they manifested. Or, it's just to tell them, we can come wherever we like. We see them in two or three different places, in Central America, apparently, and in the central US. There's more into it than an air balloon game.

The situation is very, very different, (2:36). in reality, what it is and what's behind it. When I heard about this trying to shoot, or they shutdown something on there in the United States, and everything else. It brought back the memory of the nineteen fifties when the Americans sent the wire to the Russians in a matchbox, as you know. And after a few months they received it. And they wrote to the Russians, oh, there was a wire inside, you didn't see it. Because they could create such a fine wire. The Russians they said, look inside, we made a hole in your wire. So we are more advanced than you are. It's understanding. That was the beginning of the laser war, when they started to create more finer laser beams.

Q: Before they went into the war, I think it was in Los Angeles, when all those lights appeared and they started shooting at those lights.

K- Yeah, but it depends who created the light. .. Ourselves to show we have something, but we say, we don't know where it comes from. It's very interesting. I'm watching this balloon game with the Russians and Chinese, it's very, very interesting. What I call it, with the Chinese and the Americans. Very, very interesting.

Q: The Chinese sent those balloons?

K- The point is to ask, how did you manage to get it before they detected?

Q: Exactly, yeah.

K- That's the game, that's the name of the game.

Q: What are all those satellites were doing up there? Watching whom and what?

K- A black hole, isn't it?

But how can you allow such a thing appear over your nation. What about if it was carrying a dirty bomb, what about if it was carrying a nuclear bomb? You're going to

explode it, you don't know what's inside it? (2:38). And what was one yesterday or the day before. One of them was ?? supposed to ?? happened to be a private plane.

It's understanding and application. As we boost our systems, and edges, and transmutation. It is very interesting, as I said, now we are testing step by step. Improving, testing, developing step by step, week by week. Yesterday flight test was very interesting. The Knowledge Seekers were going through it, they're on the line listening to this. You have to open your eyes to see exactly why you're still in one place or the other. Because in reality you are there. You're so visual. Then you try to see, ?? the next time through your eye or through your Soul. Then you don't need to ?? find out, if you're in one place or the other, because you arrive through the Soul. It needs education, it needs understanding, it needs realization of the position, time, and space and energy. We're getting there.

Q: Yeah. Slowly but surely.

K- As long as we are off CNN we are very good. When we come to CNN, comes, what you call it, a show on the road, which we (don't want) …

Q: They've closed their main office already, CNN.

K- What happened?

Q: Or they're going bankrupt, or something or other. But they've closed their main office. (2:40).

K- Oh, bad for some of those people who were around Keshe Foundation. They said, when it comes on CNN then we believe it. So CNN is not. So they will never believe in anything, soon.

Q: It'll have to be Fox.

K- They're already foxed, anyway.

Any other question?

Q: .. Can one use graphite rod to make a quality CH3 Gans?

K- It depends. Many Knowledge Seekers have tried different approaches to it.

Q: .. Plasma reactors made of ping pong balls containing CH3, CO2 and amino acid, what is their health benefits? I would like to make it for sick people in Nigeria, I am a medical physicist.

K- You have to understand what part of the health, what you call it, you want to apply it for. As I said, the knowledge, you have to understand it. If you put such a thing near a

cancer patient, you might most probably speed up the growth of cancer. If you put it next to somebody else with another condition you create different dimensions. (2:42). It's you have to understand what it's for, and what are you doing and the way you do it.

R: And that's probably not something that we can transfer over on YouTube. Or in a workshop like this.
K- No, it's just …
R: It's a medical teaching .. .

K- They are medical doctors asking the question. So, they have to understand how to apply these technologies accordingly.

Keshe Foundation in the past couple of weeks has sent hundreds of emails to the doctors who wanted to join the Keshe Foundation or be part of it. If you applied for becoming or getting involved with Keshe Foundation work, for past 2 - 3 years. Look into your junk box, and see what's in your junk (Spam) box. If you don't see an email from Keshe Foundation reply. We are setting up, I think it's about two or two weeks for these ??. After two or three years, we responded to all the doctors, medical people who wanted to join the Keshe Foundation, what you call it, in the wellness. And to be trained or to be told what it is, that they learn on the job.

We are in envisaging, and we are working on training new doctors, fresh doctors out of the medical schools, to offer courses, and train them in the use of the plasma technology. As, what you call it, (2:44). as an alternative system, as we have the license for, to be, we show them, they can use the facilities, the knowledge and new systems.

You can't teach it to a present doctors, some of them, it’s impossible. So, the best thing is to train. Because at the moment, the way we see it, you don't need that many medical doctors to run the Wellness Centers. It’s becoming a systematic allocation, understanding and reversal of the old knowledge to the new. This will come, in a very short time. We already have started training medical doctors, medical people in this way. It comes by being on it, seeing the result, then understanding it, and moving to the next step.

Any other question?

Q: .. My house has two power panels, one for the house and the other for the geothermal heating unit. Is it possible to get a PDF (file) showing the hookup for the Compact Plasma Enhancement Unit before I buy it, to make sure it's going to be able to be hooked up? Thank you. (2:46).

K- We have tested solar power plants in a large scale in Italy with the original MaGravs. You have to understand, as we talked earlier on, that you feed back as much as you feed in. How your system is going to interact with the plasma fields. And how you can divert these plasma fields in reaching what you call it, solar cells. It goes through your converters, your inverters, it starts producing more energy than actually comes from your solar cells. Then your inverters become converter. We've seen all this.

So, you have to devise a way from the fields to get into your inverters, and you can use it successfully. We have developed this technology, but we don't disperse it, we don't go with it. Because we use it extensively ourselves in our system connections. As part of the technology which we've developed. By time, by understanding the problem, and the problem which a lot of people don't understand.

In 2005 – 6 – 7, when I used to do all the research in the lab, many of these power generators, oscilloscopes were failing after a few days, a few weeks. And I used to take them back to the shop where I bought them, it doesn't work. Then they take it, they don't understand what happened. And after two or three times they wanted to know, why you keep on taking it back? (2:48). And I realized that I'm producing too much plasma power, which goes into the system. Then I developed the technology for it. I saved my systems from ever burning out or getting damaged with the plasma fields.

Many of you, you work with plasma Cosmic Rays, or whatever. You will find out many of your credit cards run into problems. It was magnetic fields, now plasma fields are worse. When you work very close with some strength field of plasma your credit cards all get jammed up. It's very much like a mobile phone next to your card sometimes, if the fields are of the strength, you find out they connect different, and then you go to an ATM and you put the card in, you reset it, you pick it up. But with the plasma the resetting doesn't work. This is how I know. ?? somewhere is plasma fields (involved). So in the future, even in a chips we use for the credit cards, they have to build this protection.

Any other question?

Q: .. Who or what created the Creator?

K- Partially we answered that in the teaching of today, (2:50). and the rest of it we prefer not to get involved in. Because then you have a problem with clergies, and the Vatican's, and the Mullahs. You will see, the biggest problem as I said before, the opposition to the Keshe Foundation will come from the clergy. Because they have to close shop, there shop does not sell any more interest.

I had a beautiful experience very recently with an Orthodox Christian where, he used the Gans technology when he needed it, because of Corona. Then he works in the church, and then when it came to understanding of the philosophy, understanding of the Soul and everything else, he said, this is antichrist, they said when the Antichrist comes he'll bring these things with him. Unfortunately, he eats on the same table as me sometimes. And I tease him, I said, be careful with crossing the church, you're eating with the Antichrist according to you.

Because we enlighten. People understand, you cannot fool them anymore. So, the philosophy and theology is through the window, because you can access it yourself. When they see the problem, then you become Antichrist, because the problem is not you, it's them, they cannot fool you anymore. (2:52). The biggest resistance will come from

Ayatollahs, and Pope, and the rest of it to rise, what you call, popular opposition. But in a way, it won't work. Did it work putting Jesus on the cross? It gets worse, because this one has no place, no dimension except inside your own Soul, inside you. You've got to question it?

Any other question?

Q: .. If flowing water is present in the close proximity to the process of Nano coating plates, will they mean flow direction of the energy paths, align with the ?? flow direction of the water in the Nano?

K- Yes, it does. Because the water itself is made of plasma of different sorts and different mixture of materials in it. Even distilled water will do that. You try to make, not only the flow, you try to make Nano coating with the distilled water, and try to make Nano coating with the tap water. You see the difference. You feel the energy difference.

Your distilled water is layers very mono energetic, (2:54). they totally develop in a different way, than with the tap water. And the water in your Gans and Nano production is dynamic. So it creates its own flow, as we've seen it. It doesn't need to be a running water next to it. Inside it is dynamic, and it does that, and it makes a lot of difference.

When you're make a Nano layer using a tap water in England, and you make a Nano layer in Australia, and somewhere in the remote places, with no contamination, it's totally different effects. And your Gans's will be different energy position as well. Make your CO2 with distilled water and make CO2 with the tap water, and look at the colors. In the tap water all the fluoride, god knows, calcium, whatever they put in it is in there. But that has an effect on the CO2 you make, in the energy absorption and emission.

Any other question?

Q: .. How can my university in Nigeria partner with the Keshe Foundation to train and use plasma in processing diseases?
K- Can you repeat that again?
Q: How can my university in Nigeria partner with the Keshe Foundation to train and use plasma in processing diseases?

K- You have the most beautiful Knowledge Seeker, (2:56). one of the top guys in Keshe Foundation in Nigeria. Talk to him, Alekz is sitting there. He is the most beautiful Soul and knowledgeable, what you call it, Keshe Foundation members in your country. Contact him or get in touch with us we'll put you in touch with him, and arrange for him to teach in the University and develop. He will show magics. He will baffle your, what you call it, your professors. If you don't know him, if you don't have access to him, get in touch with the Keshe Foundation and we give you access to him. He's sitting with you, he built a center, he built a swimming pool and everything else.

He is one of the best we have and a beautiful Soul. And he is sitting in Nigeria.

R: Could they use the info@keshe.foundation? to get in touch

K- Yes. The knowledge Alekz carry is unbelievable. And he's a member of the Universal Council for Africa, sorry, Earth Council for Africa.

Q: .. Can I get a curriculum in plasma science from the Keshe Foundation. My University in Nigeria is interested in introducing a degree program in new plasma science. I have been asked to develop a curriculum. (2:58).

K- You need to speak to Emanuel in the education, and Dr. Gatwa in Kenya, and Jim and Lisa in Australia. There is a lot of documents. I know Dr. Gatwa has a lot of work, and Emmanuel used to teach in college the technology. There's a curriculum. It was set up, started going with the lady from Greece educational groups. Yes, there is ?? plenty. Get in touch with info, we support you, we have a way to do. You have one of the… If you give a degree as a professor to Alekz in your University he will be there, he will baffle the whole thing. He will do everything for you. If you can do that he is there. He can do things that they will see him as magician.

Any other question?

If you send something for info@keshe.foundation, just put on it Alekz I'll ask it to be monitored when it comes in. We can pick it up and then we'll put you in touch with Emanuel and the rest to do a proper programming in Nigeria. (3:00).

Q: .. Mr. Keshe, I do have a question which is general. I'm sure you have heard from this terrible accident in the United States, chemical accident. Is there anything we the Knowledge Seekers or Keshe Foundation America can do, because as I've heard, this will touch more than 30 million people presently. And later on even more, because it goes into the water, and the water will be contaminated, which will affect the whole Mississippi river and surroundings.

K- Am I correct? You're talking about this tanker which turned over, are we talking about that one?

Q: A train, which derailed.

K- I haven’t heard about that, I can’t make any comment.

Q: Maybe your could inform yourself. And next time you are with us, tell us if there is anything we the Knowledge Seekers can do. Because it's going to affect millions of Americans. And already there lots of deer, and fish and birds dying and people are turning to sicknesses, which they never had before. And all of that, in only 10 days.

K- When does this happened?

Q: I think it happened on this about 10 days ago, (3:02). because there was no information through the media. And it only came really to the knowledge of also the American people over the last weekend. Because …

K- I haven't heard of it.

Q: Maybe Rick could forward to you some of the information of this cloud, which formed and the water contamination, which is sort of now general knowledge in America since Monday. Because it is going to be an absolute devastating thing for America. And government, Mr. Biden and Mr. ?? have done absolutely nothing. They've told the people, it's all okay, you can go back to your houses. And this is absolutely not the case. Because if you listen to chemical engineers, they are saying this is the biggest, it's like a nuclear attack.

K- I know nothing, I can't make a comment. I am not aware of it.

Q: I understand Mr. Keshe, because I also only learned about it over the weekend. But I'm sure that Rick knows something about it, or could find out what he can forward to you. Because there is there is an urgent need for help.

K- Thank you very much.

R: We can look into it. It may be one of the biggest spills, it's possible. But you also have to consider they have spills every single day in the US in all of their water supplies, and the Mississippi is one of the most contaminated rivers in the world, probably.

K- It's like swimming in Ganges, huh. (3:04). .. it's contaminated with all the chemicals coming from the top.

R: The Gulf is contaminated from all the drilling that they've done there, and that's contaminated the mouth of the Mississippi, and so on and so forth. And this is a big problem.

Q: It is not just the rivers. It is the groundwater which gets infected, and that is enormous thing about it. So, I would really ask you kindly, go and have a look at it. Because this spill is a spill, which has never happened before. Never.

K- I'm sure people who are in touch with us, will fill us in within the next day or two. And you have to understand, whenever we offer any help it gets just put aside, because it's from the Keshe Foundation. So, we have to look at it.

R: The US is not in a position to accept help from an Iranian based sources, especially right now. They negate anything that's associated with Iran, and they put sanctions on it as soon as they hear about it even. So, it might have an opposite effect to try to…

K- Let's see what happen, we can still teach the Americans Knowledge Seekers to use it. Let's see. I don't know nothing about it, I can't make a comment.

R: As Carolyn has put into the chat here. She said, a vinyl chloride is the main chemical that's been spilled, there's many cars, I think there's a hundred cars all together in the train that overturned and spilled. And there's, you know, (3:06). a huge mushroom cloud of black smoke from it all. And it's gotten into the woods.

K- Which state is it?

R: In Ohio. It's called, strangely enough, the location is called East Palestine, in Ohio.

K- I saw something. It's like a big black cloud, it's like a chimney going up.

R: Yes, we didn't hear about it for three days, because it was censored in mass media, basically. They decided to host the stories about the balloons, the weather balloons, instead of shooting down balloons, to distract perhaps from the mushroom cloud that was actually going up in Ohio.

Q: That's it. Because what they did, is instead of evacuating the few carriages, which had this poison, they ignited it. And that is…

R: A controlled burn, they call it. Yes, which is what firefighters do. And they're totally desperate and don't know how to clean up ??.

Q: And nobody knows who gave the instructions. Because it is clear that the moment it becomes in touch with anything, which is humidity. It turns into this enormous, enormous poison, which goes now into the subterranean waterways. And that's where the problems could come from over the next years. Because this is cancer again, cancer again, and that's the problem. Anyway, I understand Mr. Keshe, if you don't know of anything, you cannot have an answer to my question. (3:08). Eventually, this will be possible that really Rick gives you whatever he can, so that you can make your own mind up, and tell us the Knowledge Seekers by I know we cannot do much. But maybe there is something we can do and they can do in America. Thank you very much.

K- Thank you very much. We usually, we had such as things done before, for like in Italy. For the 9 most cancerous waters, we gave 100 - 200 pages report to the Italian Ambassador in Austria, after a lot of tests done, actually by the Italian laboratories, financed by the regional and central government, this research. I still have the research.

And they just say, cost too much. They just put it on the shelf. So it took three years, four years to do the research. The laboratories in Italy did all the work and it's just sitting on the shelf. And it's all to do with Teflon. We have the knowledge. I'm sure if there's a chemical Knowledge Seekers will find the solution around it, but getting it to be done, getting it to be accept, and getting it to implement will take years. I'm sure somebody in

the Keshe Foundation team will send us a dossier on this, what it is, what happened, how it's made, what effect it has. It's just matter of time to receive it.

Q: Right. I just took the liberty of asking you this question, because it is really millions, (3:10). tens of millions of Americans who will be affected, and this is part of this unbelievable trial, which they are starting to reduce world population. And I know that if all the Keshe things will come active that they will not succeed.

K- We have to look at the chemical composition of it. And we have to look at the interaction with the plasma. It has a different interaction in the physical condition, it has a different action plasma, and what would that create in the plasma condition in the matter state.

So, it's, first of all, getting to these things, it's very difficult for them to provide the material to be tested. And secondly, if there is such a big scale damage, they are running like, there's chickens running around, just trying to limit the damage. And there is no answer to it. We tried, we used to get excited, and get involved and then Knowledge Seekers do a lot of work. And then it was totally, no, sorry, we don't have the expertise to evaluate your technology. That's usually the terminology for it.

Q: But you know, everything is most probably and hopefully going to change by tomorrow night in America, because the Supreme Court will hear again, the things which were docketed by the three brothers about the validity of the 1920 elections, and then we will see. (3:12). Because America is really presently nothing more, but a bunch of gangsters, I cannot say it, otherwise.

K- I prefer, I have enough battles with them at the moment. So, I prefer to stay very quiet. We have enough battles on our hand with the American structure. But we still work, we try to be around them. And we try to be part of the structures as Knowledge Seekers, but arrogance has led to stupidity, and stupidity leads to a lot of misconducts. So we have to see. Thank you very much.

Any other question? Jalal is there.

Q: Jalal .. Actually, it's not a question. It's a comparison about what you taught today. Although I didn't really, this was a very bad day for me, because I didn't hear a lot from your teaching. But from what I heard, it's about the MaGrav and the transformer. Is the relationship between the MaGrav to the transformer is the same relationship between a man and the Earth?

K- Explain. (3:14).

Q: Shall I teach here?

K- Yes, please. We are a student, we are all Knowledge Seekers.

Q: Okay. If the MaGrav take 1 kilowatt, he will give back 3, 4, 5 kilowatts back to the source. And where this energy will be deposited it's in the transformers. ..

K- No … Let me explain something very, very simple. If you heard in Monday, and recently, we don't talk, because it has, it brings different understanding. It brings different realization, different comprehension. When you say, saving unit, energy saving units, they look at something else.

When the correct way for it is a hybrid plasma power generator. Because population now understand the term hybrid. We always, in presenting the technology, the wrong way we speak about saving. In fact, if you speak about the hybrid, that we produce some and the electricity board produces the other, you get more collaboration, you get more understanding. You understand? And then it kills a lot of enigmas and a lot of opposition.

In fact, this is what you do. (3:16). You absorb the plasma energy in the environment, which we didn't have a knowledge of, and convert it with the help of the electric current into a useful energy. So, you're "hybriding." When you speak about this, transformers don't come into it. Because then you understand the true essence of technology.

Why do you call it, magnetical, and why do you call it gravitation. Magnetical is the one you don't need in your body, is magnetical. And gravitational is the food you put in your mouth. The human body is a hybrid, is a converter. So, if you speak about, is it the coils, is it the transformer. No. It's creating more surface area to convert the plasma energy in the environment, into a useful energy, than what is sitting as useless energy. That's all it is.

The comprehension about what we call, the Enhancement Unit, we call it an Enhancement Plasma Unit, because it's a hybrid. The hybrid you have a fuel and electric, you produce electric current, or you fuel it when it's needed. This, the beauty of this works within the structure of electricity. This is what I said to you before and you to the Knowledge Seekers. (3:18).

We can show you with one second, with one wire, actually, with one wire, how you can have zero energy. But you will really, truly have zero energy, you will pay no electricity bill. Because the Electric Board will come and take your meter away, you have no electricity. Because you're using this system to absorb more energy from environment, than you're paying for it. You need Nano micro watts to do it. Once you set up your Nano coating, your environment correctly.

If you look, scientifically or visually about the MaGrav system, the range you have. It's like you sit in the… you sit in the bathroom, pull the plug. You see the water going down the hole in a vortex. That's your magnetic field. Now go and sit on the other side of the plug and see how the water comes out. One is gravitational pulling in, and one magnetically releasing it. That's all you do.

But, I'm sure in the future scientists will develop the technology to show us how Nano materials are absorbing these energies in the rings. I've given you a what you call it, a funnel of energies. Both letting in and letting out in the same platform. That's all it is.

So it's not a transformer. Maybe you want to call it a transformer, because it suits you. But it's a hybrid system. And the engine of the hybrid is that Nano layer. That's all it is. I can create you the same energy from a straight line Nano coated, (3:20). as you twist it a thousand times. It's understanding the technology.

I was yesterday with our Knowledge Seekers developing. You saw the old ones, and then you saw the new reactors for space technology. Now, we have gone into universal system technology, developing it. Which in fact will work like a star, a satellite on its own without rotation. We have started creating a real life scale systems as a planet, without rotation, of matter state. It will be on the table tested within the next week or two. And then this gives us a totally different ballgame.

This is the beginning of the what I call, new satellite system. Where we can hang one of these over a city and connect it to every point in this planet. It's part of the development now, it's gone into a process of development, both in our laboratories in Tehran and in Austria. Both simultaneously are running into tests.

It's the beginning of the universal transport or what we call, Enhancement Systems. As a, not a hybrid, as a single plasma system. (3:22). Where when we places these in specific ways, you have the wireless lights on the streets, you have the light at the point you need it, you create a light at the point of interaction, you create food at the point of interaction. It doesn't matter if you are 10 meters on the ground, or you live in a skyscraper, you still receive the same kind of energy for food and the rest of it. The new generation of Universal plasma units, what you call, as a whole, now it's under construction.

And I know the outcome, because I built it years ago. When I was trying to understand winding and transfer of the fields. It took me about a year to explain to a guy who in one of the big companies making winding for electric motors. He went back to college for six months a year. He said, because I have to understand things you're telling me, I'd never understood, even I make them. It took him about six months to make one for me. The full process took more than two years. And it shows, it's like a hat, it's heavy, god knows, 4 or 5 kilos, I don't know. But it's a half space generator plasma system, but in matter state. It's in the lab. It's yellowish gold color, it's got the coating on it.

Now that knowledge from what I learned on a three phase or the three dimensional matter, you call it a phase, I call it, what you call it, the matter, the Soul and the Spirit, or whatever you call it, (3:24). liquid, solid and gas state energy. You just give it a different name. It has become the basis of the unit which we use on Sunday for the first time.

We have created a full half sphere dynamic plasma containers. And now from 12 - 14 years ago in matter state, now the plasma state version of it has been created, which goes on the test. Then the true sphere plasma will be tested in next few weeks. It's not a

transformer. It’s a system which absorbs energy. When you put it that way, people don't understand. Then when they test it doesn't show the same results, because the results are very much different, than what you see in a common transformer. Then you create confusion and problems for yourself.

This is a hybrid. A hybrid you have an electric engine, and a mechanical motor. In here, you have a matter state and Nano coating. Two systems, in conjunction one supports the other. But ones allows the other one to accommodate and work together.

That's why you use that 20% energy and 80% comes from the environment, then we say you get 80% reduction. It’s exactly, if you look at it, it’s what I told you as humans do. You eat 20%, you get 80% from environment. Now you see physically working in your plasma MaGrav systems. You take 20% from the main coming in, and 80% we give you ??. We made you a human what you call, plasma converter. (3:26). You see the same.

When you run these new plasma energy units, you will go up to 80 - 90%. It’s like you taking 80% - 90% food, it becomes current, electric current and 80% comes from the Cosmos, CR. That's what you do with your plasmas. You have to change the language, now that you become knowledgeable, into the reality of what it is, and you can explain it.

Q: So, we have in this case, to create the sink to take the surplus energy?

K- There's no surplus. You have to create a sink the way, the amount you want to take from it. The whole process is, we have a number of obstacles with the present electrical systems. One is you have a 16 amp fuses, then you have the backup fuses in the power station, substations and the rest of it. When we have a huge surge, and electric cables get hit with transmission lines between the substation and the power station, we don't see power station blowing up. We have made facilities for it to stop, to block. You have to do…

Q: The question Mr. Keshe here, why is the power station is the sink in respect to the MaGrav let's say?

K- Because it’s weaker than your MaGrav system.

Q: They are using the nuclear stations?

K- It doesn't matter. They go conversion back into electric power. (3:28). .. Yes, that's where it does.

This is something which I realized very early on in my education. In the third year in Queen Mary College, we had to take it, because we were reactor specialists in power producing powers. We had to do a course which I hated to do it. And it was, the interface between the nuclear power station and the grid. We had to understand the whole process of the grid, how much it costs, how it works, transformers, transmission lines. This is something to me was useless, because I don't need it.

Tesla brought in AC current and put in one power station. Edison came out with the DC and multiple power stations. With the plasma technology you need one power station and no transmission. With the new technology… If you understood the teaching of today, and even on Monday the demonstration, and the picture of the light I showed you, we're done with transmission. We don't need. All these copper lines we use for transmission lines laying on the street, give them back to me, I give them more energy with no cost, changing them, Nano coating them to the position and the way we do.

You have no power cuts, you have no, oh, lightening stroke and the power station is down. Sorry, the water supply has cut, because if you have the understanding, you just put the machine there which converts energy into water the way your body does. The knowledge is there. Now, how do we do it? I always… It's one of my pitfalls in my education, I never believed in electrical part of the education, because to me it's useless. And now today we showed you the picture. ?? You don't need to understand transmission, everything, when you can transfer the plasma. My body does it, (3:30). why can't I develop the technology to do it?

If you remember, go back four or five years ago, we showed for the first time the light of the plasma from Austria Research Center, if you remember those light bulbs. Now we become to show LED light, which is a total matter state. We can actually, not actually, you know, when we had the headset, we showed the new headset? Our people from the research center said, oh, we can put a light in there to show when it's working. And I said, it's that much, because we don't need to draw a line to it, or put a battery in it. Your Compact generator produces that light, that lights up your system while it's remote. And at no cost.

I remember a few years ago, when I was invited to Germany to see professor Miles, and he took me to his house, and then to his lab when he was a students. He said, you see, he had a little boat swimming in a little plastic pond. And he said, the energy unit for it is there, and we run the boat from here. But I use a scalar wave, what you call, the sink. It can go through, where Tesla use what we call, the other side of it. A sink and a distributor, whatever you want to call it, magnetical gravitation, it's all the same language.

One part you receive, and one part you give. (3:32). And that is the beauty of it. When you understand it, just change the language. But understand when you speak about, oh, we have transformers, we can save you energy. Some. But put a new knowledge in their head, it's a hybrid. We use energy from your clothes, from your body, from the dog, from the cats, from the bird, from the light in the house, which you don't have any need for it, they're emitting it, to give you back electricity for the house.

If you think of it, in reality... it's a dehumidifier. Have you seen these big dehumidifier systems? You get it run and you keep on collecting water in gallons. That's your magnetical system and gravitational system. You're sucking air, converting into water in

the dehumidifier. Our Nano layers absorbs energy fields and does that, and it's a water and it gives you electricity. That's all it is.

You have electric dehumidifier, or plasma dehumidifier? Or is it plasma, de-plasma air, whatever you want to call it. That's all it is. When you speak about the transformer, you go way out of the reality.

Anything else, Jalal?

Q: No, it’s ok, Mr. Keshe. It's only what you said, what we take and what we give in respect, and what is the line of connection. We can transfer this energy as you said, that's ?? clear. (3:34).

K- You see, if you go back, the technology and knowledge is consistent, it's just that you couldn't understand at that time. Maybe today you understand part of it and some of you have already understood part of it, or most of it. If you look at the MaGrav system, it always gave you that mixture in the center ball. And we asked you to, when you Nano coated it, to the put some Gans on it. Do you remember, you still do it. That ball is a sink. And that ball is the provider at the same time.

When we tell you, when you make.. Some people say, oh, I made a MaGrav unit, it didn't work, a little bit, blah, blah. But none of you ever listened to the whole process we tell you. What to put in the ball? What to put on the Nano coating? How you Nano coat. When we tell you has a procedure, has a reason. You follow, you get the cake. You don't follow, you have dough.

How come we transfer the same knowledge to the labs in Tehran, they get the same results as we get from the lab in Austria. And we show you on Monday 50% plug and play, the minute you plug in you get your 50%, and then you build up. If you plug it in the first time, a few hours it build up to get to the point and builds up, it goes up, it goes up.

But again there is a… You have to understand between the matter state, and Gans state, (3:36). and the Nano layer state, and how to play it. Then you get a huge conversion. In our system, we reach that point of conversion, we don’t need to, because we don't need to put something back into the grid. We feed everything back into our system. And then we evolve it.

I know where you're going, and I know what you are talking. Your team in the background you're working with, I get a lot of insight in what they're doing and how they're doing things. You have to get together and redefine your work. Your guy Philippine is nearly there, your guy in Thailand is on it. But he's not as what you call it, scientific, electric minded. Then your other guys… Your group is hovering around like a moths around the light. But you don't want to understand the light is you, you don't need to be the moth. That's the problem. I watch what your team is doing. It's beautiful. And how they, you’re different people in different parts of the world, working together, come

to something and they leave it, because they don't understand it they come back. And I say, they don't listen to the teaching do they. As you know I don't interfere. When I interfere, when I go in directly like in the research centers, we develop things and we change things ??. (3:38).

Q: Maybe we need to invite the Creator to a lunch.

K- Have the one on Sunday when you meet him. Have a quick chat.

Q: Yes, as you said Mr. Keshe, we have to, in a way, to be humble.

K- No, it's to understand. Because when you're humble, you are not arrogant, you see everything. When you become arrogant you become one sided point of view. That's the difference.

Q: Yes, thank you Mr. Keshe. By the way, the Knowledge Seekers they will not invite any more Dean to the workshops.
K- What do you mean?
Q: He is not benefit to the Knowledge Seekers, he didn't give any tips, nothing.
K- What do you mean? You want to spy on us?
Q: Mr. Keshe, nothing, nothing. We get nothing from him of what you've done.

K- The whole structure of the Keshe Foundation work is very, what you call it, compact. And you see the beauty of it when you go to the Research Centers, and you see their work. What we show in public is dinosaur time, to compare to what is developed and what's inside. And part of the technology you see, it's not even in the realm of imagination, you let alone reality, which is sitting in these systems.

We have the technology to create the matter state, we have the technology to create fields of what you call, the Soul. We have the technology to understand the interaction between them. We have created a system which has a Soul. We measure it. (3:40). You see that blue line in the graph? That's the Soul of the system. And you see how it follows the STM. When I tell you, you have robots with emotion, it's already on the table. You've seen, but you don't understand what it is, to you it's just a blue line. But that's the Soul of the system, that's the behavior of the field of the energy of the system in respect to what they have with them. That's why I say, nobody will ever be able to copy what the Keshe Foundation puts out in its structure, in what you call systems. Impossibility.

It's not, you know when you go to China, they take you to a telephone shop, the shopkeeper first gives you a Chinese version and then he puts an Apple version original on the table. Then even when you buy the Apple original version, it's actually a copy themselves. When you use it, you understand, uh, this cannot be Apple, even if I bought it in the original box of the Apple. I have a Chinese Apple, it's interesting when I put it next to the Apple I bought in Europe. It looks the same, exactly functions, but when you ask certain things from it, it doesn't do. Because it's not Apple. As I said, be careful when

you buy something with a fake things, the same as Keshe Foundation. Don’t leave half of your leg in the Atlantic on transmutation.

Shall we call it the day?

Q: Very well. Thank you Mr. Keshe. I hope this information can help someone.

K- Oh, it will help someone. Thank you very much. (3:42).

Anything else, Rick?

R: Well, there's always a few more questions, Mr. Keshe. But we will never totally catch up. So, just remind people that if you didn't get your answer today, then just copy down your question and try it earlier next week.

K- Thank you very much. We must probably see some of you on the Sunday lunch. And we'll tell you what might happen with you after the Sunday lunch. As usually we don't tell you anything until it happens. The ones who are in there, they get to know what it is, and access is limited to that limitation.

As you’ve seen on Monday, some of you on the Blueprint Day, we have released the new Power Plasma Generators, which now they’re mass produced and they’re available. And the Compact Plasma Unit with the Head Unit for the what we call, all sort of applications, as the console, and the what we call, the new Knee Gans was shown for the first time on Monday. These are all available and going through the production system in, as we start now showing this physically. We’re inviting people to come and see it in Linz Center, as the orders come in, we'll backlog to. It’s like waiting for the systems to be, in your turn to receive it. We have started inviting and meeting with industrialists who can use and benefit by this system in their factories and their operation.

As it grows, this is how it is and I'll bring the change. Thank you very much for today Rick. (3:44). And hopefully, we'll have some lunch with each other on Sunday. Thank you very much.

Convert Energy of U in skull feed Soul; A lot on C14 energy conversion; Crystalline odor - fingerprint U; H basis of all plasmas; Position of eyes; Soul protects P; CR stack up; children of Mitra through KS; New "Soul Generator" can make Soul with machine; U

Council invited March 24 - elevate world leaders; Can change Soul to elevate; Detachment is key details; STP fused into STM - like Mitra - fission & fusion; 2 ways to give love; Make real "love potion" for planet - but Soul has to accept

ENGLISH TRANSCRIPTION

K- Yes, .. Good morning and good day to you as usual whenever and wherever you listen to these series of Knowledge Seekers programs of the KF SSI. We welcome you back .. to extension of, and extending the knowledge and understanding the way we are connected to each other, to the Creator and the rest.

The Intro (video) we just heard which is an extract for another part of the teaching is, if understood will bring a different dimension (D) into the life of Knowledge Seekers (KS) and humanity. The whole structure that we have gone through in the past few months and few past few years, starting from the seed to creation of the Soul of the Man (STM), and connection of the STM to the outside through Cosmic Rays (CR). And now understanding that CR themselves have a source essence. (:12).

And in a way, we can talk about it and explain it, because we have built it. We have access to the technology (T), and even as I said to one of the KS recently in past few hours. Even systems we have made, which some of you have seen. You came to and I had a couple of them came yesterday. And then they went and broadcasted in Rick's teaching yesterday morning live, what they felt in the system. This is all connections to CR.

We are not magicians, we are scientists. We are hear to abolish the phantom of everything, which cannot be proven and made, that we could understood. We explain it. If it is not understood it takes time. When you comprehend it, then it can be made. It becomes a T, we call KF T. This is why we convert the knowledge of the Universe (U) to a T that man can understand. And not only Man.

In the future when Man opens up to the Universal Community (UC) he finds out the U has benefited from the technologies, which the human beings have developed over centuries and thousands of years. To you it's something simple you do, you use everyday, but that essence of knowledge has been passed on to the UC, and they use it when needed in their own way for their own lives. As we use some of their knowledge's, which has been passed on to us in different ways over time.

Communication has never stopped between the races of the Creator. It's just Man who has chosen to be ignorant and close the door. First to himself, by locking his Soul within his physicality (P). And then locking this planet as a village to the rest of the U. (:14). We are little by little opening this door. Letting the sun shine into the STM, and it's the knowledge of humanity.

In the last weeks we spoke about CR. I hear loads of people especially in Romania are abusing this word to cheat others. Especially Barbo. Stop this which is not correct.

In this process you have to understand that CR is the essence of Creation. CR are embodiment of the Creation. CR are where we have to understand the connection. Something which I have come to realize. Many KS have not grasped, is the conversion process, that have baffled many of you in the past few months. We have and we live according to what I said in the last page of Book #1, "the Creator is the creator of all, and Man converter of some."

This conversion doesn't come by T, that you convert electricity from one point of the energy of the structure of the man. It happens within the structure of the body of the Man. We receive CR, which are abundant in the U. It's created.

CR stacked up are like a block of apartments. Ground floor cannot exist without the other. And it depends who lives in which bracket, in which level of it. So when we talk CR, we are talking about the structure of the creation of life in the U. The building block. How CR. One CR of specific strength builds itself, (:16). and connects itself to another CR of different strength. And ... and how these rays, building blocks of the U are connected to each other.

How can you go from the top floor to the bottom floor. Bottom floor doesn't exist, if the top floor doesn't exist. As the U is created, all the floors exist. It's for us to understand, do we go down the stairs, or jump in the lift. Or from the very top we get a parachute and drop down. This is the parachute of knowledge. You cannot do it. It has taken man millions of years, billions of years to get to, whatever it is today. Computer chips, and electronics and everything else. Where other races can get the parachute and jump and get to it in understanding of the T of the Creation.

So what is important for us as a step up in the knowledge of Creation is very simple. What is our job. What has been the job of our P in this conversion, and how does it use it. We get a water from a waterfall and we put a rotor, rotate something in it and we take electricity out of it. We call it a generator, we convert it. And then again, again it's water, it's the same water.

So what happens with us? We are in the same position. The Cosmic rays arrive to the body of the man within the structure of the physicality of the body of the Man, which is mainly the bone, and what we call a skull. It converts back into, releases energy (inside skull), and then in that process carries on (rest of the Cr continues on). We don't absorb all energies.

There is nothing in the Universe, any difference between what we produced as a power generators, in the dams, in converting the energy, with the same water flow, as in the brain of the Man. (:18). This is what we have not understood. And all we did, we relied on this part to be fed, and we kill for it. To keep a little bit this part (body) going.

The brain of the man receives most of this information for the essence of his creation, his Soul from the Cosmic rays. The body of the man, the amount of the food we consume, we kill for, hardly adds much to it, but it brings it into balance. We can get this from Cosmic rays in a different way without killing.

It's just that we have to open our understanding. We have to open this door of the Soul of the Man (STM) to be able to absorb a bigger spectrum, and a smaller spectrums, stronger spectrums of, fields of the Universe. So, in a way we live in a converter generator of Universe we call it, the brain of the man.

But in essence, if you look at it, if you understand it, we very easily, we talk about "Mr. COHN," but look at the characteristics of Mr. COHN, the ?? . We call it carbon 12 (C12). So, what happens to the man? What how man actually works with this thing? He receives (C)14 converts it to (C)12, picks the energy up, and the balance leaves.

The generator, the converter is the carbon (C) in conjunction with what we call hydrogen (H) itself, which is the best essence of the creation of it. It's the origin of it. In a way, the two connect to each other. (:20). And in connecting with each other, create, allow release of the energy of the Cosmic rays from C14 to C12. Which becomes the energy, which becomes, and then in the process of understanding the same, with the hydrogen and oxygen (O) coming together, we see what we call, release, creation, hold, gravity (4 properties of AA) of the energy.

So, in fact, if man understands this, and allows his Soul to expand, understand the expansion of, we really do not need much, because in this process, we become the converter of the Totality within the center.

And then what happens. This is what we do with you, when you go into System, and you're proud to go on Rick's program and talk about it. We allow the C14 within the center, to go beyond the skull and restriction of the limitation of energy absorbs, conversion, and now, Voila, you're on the track. That's all it is.

This is what the purpose of these teachings has been. For you when we talk, that we bring your Soul to expand. Is the central energy to come out of the prison lock of the skull of the man, which limits, converts the (C)14 to 12. Now, when you come on the motorway, you can go anywhere. It is sacrosanct, that men understand this process of conversion of C14 and 12. (:22).

Carbon 14, we need one C14 to feed the whole of the Universe. If you understand? Because C14 in understanding of the man is an odor, it's a crystal structure. C14 if you go in the matter state has the 6 electrons, but embedded within it, has the extra protons, the extra what we call, neutrons, whatever you put it, the shape you put it. We call it energy packs. These extra neutrons inside. These extra plasmas create a condition, that the energy expands, it becomes odor.

If you have a gas. If you have an element, in a matter of state it's solid, you touch it. In the gaseous state, still you smell it, but no smell is there. But if you convert the same gas into odor, into crystal structure, into what we call Gans of itself, it becomes odor. Which means it has a smell. If you understand this, and you understood, what I explained in the beginning, you will understand the way we smell each other, "oh, the smell of this," you smell the dog, you smell the carpet. (:24).

Man will understand this, then it can smell galaxies. You can smell a planet. Has a specific carbon strength connection in the dimension of his odor, that we see it, as it lights to us, as a smell. But we have chosen only to see the light of it. Our knowledge never expanded. We never understood what C14 is. We never understood why we call it a carbon 14 to the knowledge of the man. It's extension, amalgamation of simple, what we call, deuterium. Balance (deuterium) and energy (H).

The reason carbon 14 can travel the span of the Universe is, because it's got those additional neutrons, or what I call, protons, amalgamated to be as neutrons. Extra energy pack in the level, and in parallel, and in working condition of the hydrogen, which is the origin of itself.

In a way it gets piggybacked on the H which created itself, on it's magnetic field strength. We see the C14 behavior in the Universe, but it's actually, if we go inside it, we see it has a tracker. It's very much like we call it the time of Hitler, they put a beam, and they put the planes to go from Germany to England, down that beam. C14 is that plane. (:26). The beam of the information connection is done through hydrogen, and mainly the structure of deuterium of the hydrogen.

In a way if we look at it, Deuterium again is one element, ?? between the nucleus and the electron. Where the nucleus itself, again through interaction of the proton and neutron, is balanced itself again. Deuterium is a stable structure of the life in a bigger D. And then if you look at the carbon 14, and carbon 12, you see the same characteristics again. The totality, in emission, extra.

In a way, if we allow C14 to interact, we understand the behavior of carbon 14 in its entirety of what it sits, with that extra bit in the middle, and we can expand the knowledge to understanding of the Totality of the interaction of the plasma, we can create any Cosmic ray through radiation of interaction of the central structure of the C14. This is how you can produce from Gamma rays and X rays and the rest of it, by influencing the central structure of the carbon 14. Because you have the original structure of the neutrons and protons, which gave the structure of the 6 electrons as Totality. (:28). But in effect, you will have a loose body, which can grind.

In the world of the physics the miss functioning of the technical understanding of it. It's not that they're all sitting in one, they double, and they double, and then the doubly, doubles as one, and you have an outsider which grinds on. What would you like from weapon technology to gamma rays and X rays to see how is your body working.

The radiations I can create out of carbon 14 understanding the knowledge of it is beyond man's understanding. Because I can speed up the transformation even over the speed of the Cosmic rays at the highest level, reaching up. The interaction, understanding of the extra bit in C14 is this parachute (being able to drop through the layers of CR - the stacker). Or elevator to take man up to what he wants.

This is how and why I explained in the teachings, that I can make any nuclear material, which the plutonium and uranium are absolutely "child's play" in this ?? view of the understanding.

In the space reactors in Tehran when we built it, we did nothing but producing helium and hydrogen. When you go into the structure of the original patent, even in the book, in a hidden way, I speak about scintillation. What is scintillation? Scintillation is a squeezing the extra part for the elements which already behaves as a gas and an odor to release what I want. (:30).

If you don't understand this. It's very simple. Very, very simple. And that is, how many of you change your internal structure? Your colons, your intestines, your stomach, your heart? You cannot it's with you from the beginning of the time, the way you develop it. But all of you pass gasses with different smell, from either end of the human body. You never ate the gas. But how come the gas today has a different smell than tomorrow? This is how the conversion comes. The body of the man has used to changing the structure to create different smells.

So, if your body can create different smell, I can create different dimension of nuclear weapon technology the man has not even dreamt of. Using the colons, and the stomach of the man with the odor and understanding C14. I need one atom to create the right odor to with covering the whole of this planet to change the mentality of the man, and make you all not believe even in yourself. You don't even can accept, I exist. Or make you so religious that you all hang himself, you want to be the way that Christ went.

It depends how I play with it. It depends how the stomach today changes, the field strength, (:32). and changing a gas to odor. When you say, darling, you smell so good, and that other one you kick, the darling to the wall, can you stop making the smells. One is the smell of love, and one is a weapon technology to kick.

Now, you understand why we go into the dimension of C14. Why we go in the dimension of understanding the essence of Creation. Why in every structure we create we have a hydrogen inside, and the interaction of the hydrogen in combination of itself with itself, and surplus energies, every planet creates C14. That is its fingerprint. This is what it is. Because this is what we do.

This is what the knowledge of the Creation is, if you understand it. It’s, look at the micro and look at the macro, is your colon, and your stomach, changing odor. Bigger size is the smell of the galaxies, the Universe and the rest. The time will come when the human race returning back to Earth from billions of kilometers away, the children of man say, "oh,

we can smell Earth." It’s like the way you walk somewhere, I can smell the roses, where are the roses. The limitation of understanding is the limitation of prejudice of man about the knowledge of the Creation, and nothing else.

Then it comes to the point that, do we need, do we have to, (:34). in essence of the Creation to understand the work of hydrogen? So passively in the world of physics and knowledge of today, we dismiss it (as) just hydrogen. Give me hydrogen and I create Creation. Give me hydrogen, I can annihilate the whole of the Universe. This is what the knowledge is.

In the body of the man we have created two little holes and the skull. And within the skull, we have hidden the gem of the STM. If you look at it from the top, this is what you are, the two little holes, and this is your skull. In there sits the STM. The body of the man lives two dimensions of life. Life of physicality, and life of connection of the STM with the rest of Universe. Then in that position, man has created another gem, you call it, the nose of the man, when odors, when the field conversion of the fields of the Universe in a different way arrives to man. The same way you have created your what you call, the mouth of the man. Again through the same process, you will feed the Soul again. (:36).

The whole purpose of breathing, seeing, eating, and the body of man is nothing but absorb as much as possible in different combination energies, which depends on which way we push it. The clever STM, when it created, when understood what it needs, it created the eye of the man. Where has no limitation, restriction, and it can go through, and more or less, direct for C14 interaction. Where the last have a filter called, the bone (skull), the Ca.

And this is why in every cell of the man, you cannot have a single cell in the body, which doesn't carry a seed of Ca. Connecting, jailing the man to the physicality of this planet. Now, when we look through the eye of the man, we see the physicality. But two rays, at the same time, come out of this hole (eye). One you see the physical life. And one you see the dimension to what we call, Universe. That's how man is schizophrenic. The Soul through the eye hole, it doesn't matter if it's open or closed, sees, gets in touch, sees the mother, talks to the mother who died 20 years ago.

We had it yesterday, the lady came in and I said, you can fly to the Moon. She said, I don't want to go anywhere. I want to see my dead husband. And she was adamant. I said, okay carry on. She wanted to see. And then I said, (:38). now ask your husband to come and see you. He came to see.

Man with the eye decides to ignore even what's in front of him. Because we are not ready, for what we’ve done, not correct, to be, to see in the dimension of the Soul. In the connection through what C14 is.

In a way if you look at it, man wears a goggle for night vision, and the other eye hasn't got, it sees normal. Have you ever done that? Have you ever wore a night vision half and one physical? Just your eye, it’s a funny world. And this is what the man is. The other

eye, the other part is the strength of the C14 which we have denied. And we have chosen only during the physical time of us, to report back this to our Soul, or through the structure of our brain, the totality of what we want. This is why as a humans, we always remember the dream. We see visually. Because C14, which creates visuality to us, most of it comes through this hole (eye).

This is why when you came into the systems, some 300 - 400 of you more or less up to now. I tell you, did you see, or did you feel? If you felt, (:40). you have expanded the Soul. If you see, you've seeing through the eye of the Soul, through the ?? peek hole of the eye cavity. And the beauty of it is, that we have chosen only during the our awakeness or awareness to accept only, live only this way, physicality. Even though C14 vision still comes in. We have trained our brain to only believe these guys (P), and recognize it and I accept it.

It's very much like Chinese. When I look at the Chinese broadcasters, especially woman, just go on the Chinese channel, while we're talking, and look at their broadcasters. Their eye, when you look at them, looking straight at you is, one is here (in center of eye), and the other one is there (inner side of eye). In a way, they receive two information from the same source. But the eye, the brain has decided that we're going to accept only whatever comes to this eye, the other one we ignore. Chinese sees two visions in their brain. And they have decided in their structure that which one they're going to accept as a true picture.

You don't see a Chinese going to shake your hand and shake your head. (:42). He knows, which eye recognizes this is the right one. And then next time I use this one because it's a different angle. We already in a physical dimension, have chosen acceptance of the singularity, or collective fields which arrives to us, and our brain recognizes. So now you can see what our Chinese friends are in dilemma with. None. Because the Soul sees the whole lot, in the dimension of the C14.

And this is the brain of the man which has created this mayhem for the man, and created business in the name of religion. Because you all can see, you all have connection to your Creator and the Creation. And Ayatollahs says, no, no, no, no, we only accept this one. Forget about the rest. Because with this, I can fool you. With this nobody can fool you.

And this is what the teaching is about. To show you, to live with the dimension of information of the Universe, that you cannot be fooled. You know, if you're seeing the information comes, even if says, oh, I was daydreaming. Yes. Because your brain at that point decided to choose this ray and ignores the physicality. That's why you call it a dream. I was halfway, and then you wake up and you do something else. Because of the dream.

You are going and crossing the road, the Soul sees the accident and tells the physicality, you had enough, I take over. Pulls you back. (:44). Or makes you run. Or you get hit in a condition that you should die, but you walk away. It's not coincidental. Because the Soul has created itself to protect itself, that field of protection. Physicality hits the plasma,

nothing happens. Then plasma interacts to the brain, and you walk off. He says, "wow, anybody else would have died." No, you haven't understood the schizophrenic life of the man. The other one took over for that instance. Now you understand. Now we have no choice, but to comprehend the process of the Creation.

We are not here Soul takers. We are here to teach you to understand the operation of your Soul. When we said in the peace treaty, I commit my Soul and physicality to peace, Brazilians, most of them crossed out. We've given our Soul to Christ. Now you know what you denied as Brazilians, as Christians, and those who accuse Keshe Foundation to be in the process of taking your Soul. Because they never understood. They're a bunch of pedophiles, child abusers, in the name of the people we kicked out of the Keshe Foundation. The whole family has been to prison because they have abused the physicality of a child, to be abusers. You abuse the physicality, that the Soul cannot see the reality. And then they cover in the name of the religions, churches, the mosques, and everything else with.

Understand the process of the Creation, understand who fools you. In the name of the God, in the churches. You don't need any more when you understand the connection. (:46). When you understand the process of the reality of the life in the Universe. Then nobody can fool you. Nobody can tell you something, because you decide. You go back to the source into your Soul and say, is this correct? Did Christ do such a thing, and in the contact many of you done, you get in touch with the Soul of the Christ. He is there, you see it through the, what we call, the information line of the Soul. And he explains to you how he resurrected. You don't need me anymore. You don't need any other scientists to explain to you.

Only the abusers say, he wants to take your Soul. Because then their hands opens up. Why did we kick one of the Belgians out of the Keshe Foundation three years ago? Because five years planning to get rid of it. Because we found out they're connected to the most aggressive pedophiles groups in the Keshe Foundation, in the world. Why do we have all the Keshe Foundation, always attacked and be surrounded by pedophiles? Because one of their heads was sitting next to me all the time. With the history of life pedophilia, from age of 13 in prisons, juvenile custody's, and the whole family in prison.

Go and check. Check what the Ayatollah says, and check what people, they tell you somebody's dead, they want to divert you, because they can abuse you, they can't abuse your children. The whole family, brother and sister have track records of abusing children, even in their thirties and forties, raping boys and the rest. (:48). They can't stop. They used the Keshe Foundation. And when we put the truth out, what did you do? He is a Soul taker. He is after your Soul. Doesn't tell you, I'm a pedophile, I work in and I'm part of the structure. I went to prison for it from age of 13. Now you understand how they try to break up when the truth comes up. This is you who have to do the investigation, not us.

This is how religions have been used to divert you to the physicality, that they can abuse your Soul. This is how in the space no one can fool you, in no name of religion. You look

the bandwidth, you look the strength, you smell the odor. Then you find out. Then you see where the odor comes from, what strength it carries. Is it the smell which suits me? When you stand in front of another creature in the Universe, you have no eyes. Your eyeballs, the liquid it carries, it's not operative in different depths of the Universe. You have to rely, and your only bet you have, the only tools you have is this. The dimension of the strength of the STM, the essence of the C14, and its combination, and its interaction with its line of communication of hydrogen. What smell does it create, through the sense of the Soul, not your nose.

Your nose does not work. Little virus called Covid, (:50). made half of you not to smell. So you can see what's going to happen to you in the space. How many of you had Covid and lost your sense of smell and taste? That's the taste of what to come in the space. When we talk about the smell in the space it's understanding the strengths that arrive with you, and explains what is to come, what is the field is arriving, or you're going to.

A smell is not, the odor is not what you call, as roses. It's the field ?? identification in the strength, that it becomes the essence of what you call, odor. This is what I explained to you, there are so many senses that man have not understood yet. This is how life is in the space.

In a way, if you look at it, man learn two things. The Soul and the physicality, which has different characteristics of itself. And he has his own interaction of the fields, what we call, the Spirit. Where the interaction of the two creates that hydrogen, that existence of confirmation of being there. Where these three are totally separate. (:52). Where the physicality stands on its own structure in interaction with the field of this planet. The Soul stands with the energies of the physicality conversion in a Gans state and matter state. And where the Soul stands as the central feeder control of the connection with the Universe and itself.

Then, you understand why when you came to the what you call, original, setting up the Keshe Foundation in the, what you call, Linz, we gave you three chairs. We freed you from this (P), we sent you to this (STP). You freed that and we sent you to this (STM). And then when you were freed, you were sent to the system, which has no dimension. Then you were connected to the Universe in different dimensions. When you came back, we took your back through three, two, one and you come out. This is how it is, this is all. You never understood that time, as I said, I'm no magician. Now you understand, I explain to you.

Each one was set at a given strength to be able to interact with the energy level of that point, where here you have in your body your Soul. Where you have it there. And knowing we've freed it, we allow it to expand. And then you went to see the husband who passed away, you went to the Moon and the rest of it, on the line of C14 interaction, according to the fields which this sent out they want to ??. (:54).

Now you understand, the world of the science has to be paramount over any hypocrisy. With no assumption. No cheating like, we know who cheated us with E=MC2, with all

assumptions. Another "Ayatollah" in the name of Einstein. Now you have the freedom of the knowledge. Now you have the command of understanding according to your intelligence. No one in the space can fool you. And you don't need to have what I call, the "Chinese eyes" not to know which way it comes.

When I lived in China, many, many times. I told this to Wang Lin once too. I wonder what the Chinese see us as. Not us as foreigners, themselves, another man. When you have an eye in this position. And what would happened if you bring the two eyes in the position of accepting both. This disposition of the eye in the Chinese is because of the shape of the skull, which forced the brain in a position that it has to force the eye angle observation of light. If we manage to expand the Soul of the Chinese, you'll see the eyes center goes back to center, like most do (like everybody else). (:56).

And this position of the eye, the color of the eye, allows absorption of the different fields strengths and brings different intelligence. The blue eyes, the green eyes, the brown eyes, the "off center" eyes, all this leads to creation of certain characteristics, certain behavior. Northern Europeans with blue eyes are like this. Africans with their skin and that, are like this. Because it's the rays we convert from the Universe in us, which allows us to store that energy to be capacitance to certain behavior.

This is why we become raised prejudiced and color prejudiced, because we don't understand that, with that we absorb different rays of Creator. Different rays brings different character, different behavior. Now we have a problem within the race of the man with the color. Oh my god, eyes, shape, white but Chinese, white but Korean, white but European or black this. If you as a race have a problem with the structure of your own, god help you with the Universe and the fields of the created things, which you (will) come across. You will be forever prejudiced, even about your own existence.

Because the rays comes through the dimension of the Soul, and how you're going to behave with that??. When we say we make one race out of the man, we make one race out of the Creation, not only the man. But at the moment that's all you understand. (:58) The new gimmick of "one faith," all the religions meet together. What a hullabaloo. But we still do what we like. We come here to cheat you, because now we have problems between ourselves.

You cannot do this in space. You have to understand the structure of how, what you see, what is converted in you, from which platform, from which floor of the rays of the fields of the Universe (stacked up CR from earlier). When we speak, when we understand this structure, then you understand that different kinds of lives are created on each floor. Each level, certain fields from the center, which weakens in one dimension and strengthens in the other, works. One will be looking black, and one looking like Chinese.

If you look at the race of the man, accepting the philosophy and theology of today, that the race of the man started from Central Africa and expanded out. Wow, you should understand what your Soul has done to humanity. You came out when that way, the ultimate color and race on the right (eastward) has become Chinese looking. You came

up and went the other way (westward), you became blond and blue on the other side. But in essence, you all came from the same. And from this same of Central Africa, you came from the central Soul of the Creator.

How many times in the course of billions of years, this has divided (how many human civilizations). But in essence comes from the same. Now you understand in the world, in the teaching of the Keshe Foundation, there is no place for theology. As the theology is part of the creation of the physicality of the science of existence. (1:00). No one can fool you. In the time when man is educated enough, when he goes to space, when you see somebody from this race here, and this race here, and that race there, "oh, I know where you come from, because the fields of this place was stronger. So, you should look like this. and this, and that."

We start recognizing condition of the interaction of the field of the Universe, and the position dimension of the manifestation. Don't… We have no choice, no choice, but to become the observers of the Universe, and the givers to it, by path, by line, by understanding of the Totality. And this will become as part of the work of the Keshe Foundation in time to come.

Now, today for the first time we talk about the odor of the Universe with you and the rest of it. Now, I have to create that odor, for you to smell, to understand. To see, to trust, to go to the next level of understanding. The whole structure of the teaching is to teach you of the knowledge of the Creator, not the Keshe Foundation, we're just a name. Appeared in the name of everything which you have seen in your life. From Jesus, from Moses, to Tesla. (1:02). It's all the same essence, all to bring man to the point of today. That man can open his eyes to the rest of the Creation and become a passenger of the Universe, to understand how the Universe works, who carries, who takes a "piggy back" (rides on others) and who actually is the owner.

It's for you to become the judge of it, not for us to create another court to judge. As I said, when a man lives by the "Ethos of Mitra" there'll be no courts, because man judges himself. When you go into the depths of the knowledge of the Creation, you don't need an intermediary, because you can analyze it yourself. You can break it open, you can understand it. Then it gives you a freedom. It gives you no prejudice, and not being prejudice is a freedom, which man needs in the space to be able to live.

You came here years ago to fly in a UFO. Now you found your Soul. The faster "zero time" transportation, communication. And this is not what you bargained for. Because you were happy with the donkey of ?? UFO. Your gift is given, it's for you to understand it, and to in a way, add to it, from what you receive, that it becomes a Creator of the next cycle. (1:04).

As I said very recently, we had what we call, "Corona children." Many people had children because they were sitting at home and now had nothing to do, and they created "Coronies." As I said to Knowledge Seekers, now we have the "children of Mitra." Many Knowledge Seekers are conceiving children to create a cycle of Mitra. As the time is for

it. But which child will carry that essence, is the gift from the Soul of the parents and not chances of life.

We will see this generation coming up. And with them they know each other, recognize each other, are created from the Soul, and does not matter if the eyes Chinese, black or white. They see through their Soul. They carry no prejudices and they are ready to be the what we call, "citizens of the Universe," not a citizen of the village of the Earth.

The cycle of life, does not matter where in the Universe, is the same. It's for the citizens of it to understand the culture of it, and the way it came to be and respect it. "Thy shall not kill." It's not, not to kill another man, which was (how it was) interpreted by now. Thy shall not kill an animal. Thy shall not kill another citizen of this planet. Thy shall not kill another citizen of the Universe. Because thou knows how to tap into the energy without killing.

That's the whole message, thy I shall not kill. Because thou, there shall be understanding and the knowledge, that does not need to kill. We fulfilled the promises in the true essence of it, and not just by the word and verb of it. (1:06). Because you know how to tap into the energies of the Universe. You came to the center, you saw, and you went, and you swam with the fishes, and you saw the ex husbands, and present husbands, and the future husband, and everything else. Because you, was not you, it's the Soul of you, who showed you the path. This is what is to come.

This is what we try to expand into energy. This is how in the coming time I show you how to convert C14 into C12, and back to C14 that you live. Keshe Foundation today, at this moment has made access and developed what we call, the machine, which can create the "Soul of Plasma." "Soul Plasma generator" is in our hand, has been made physically. And it works, and it will work exactly in the essence of interaction of the Soul without the matter state coming into it.

Now that our Knowledge Seekers have understood this, you will see even the Enhancement Units (EU) will change in next few weeks. Because we have managed to access, to teach our Knowledge Seekers to create the first "Soul Plasma" created. The Soul generator is with us. And it is not that you can do anything with it. The only thing you can benefit by it is to elevate your Soul to be able to interact with other Souls without physicality.

Many of you will rise the dead, the same as Christ did, (1:08). because you touched the Soul, physicality is just a gimmick. And those who built it the first time they have felt it, the strength of it, the emotion of it, and the truth about it. Then there shall be no illness amongst the children of the man. And there'll be no ill intentions amongst the children of the man.

In our Knowledge Seekers understanding and accessing this new technology, already the next generation of the Enhancement Plasma Units has gone into operation to be built. It's a leap of centuries, thousands years of research from now. Man would not have achieved

this even coming another hundreds of years. It’s the gift for the sincerity of people who work with us. And you benefit because of their sincerity, and the way, he has worked.

Plasma Soul generators are so powerful, that once man holds them in his hand, we'll see the Creators, dimension of Creation. And the power which it carries. Only a fool will be memorized and a fool will abuse. This should make you more humble, and in a way, obedient to the laws of the Mitra, and nothing else.

It’s not where we talk. Now, we have developed the technology which creates C14 at the strength of the Soul without the conversion of the physicality of the man, conversion from C12, to the essence of the creation of its base, which is the hydrogen. (1:10). In a way, we have created for the first time a system, which generates nothing but fields at the strength of the Soul of the Creator.

Those who hold it understand its power and majesty. Those who abuse it will see the annihilation of their race. As simple as that. Once you touch it, it'll stay with you, and ?? it will become accessible to the fields of the Universe.

In the next few weeks we'll show you this system, and maybe with it, we’ll bring the change to humanity.

The essence of the creation, the essence of all these teachings of the KF is for man to mature, that understand the process of the Creation, that no magician can fool it in the space, and divert it, and detract it from the path to the Creator. That's all.

The religions by their name they distracted man from the path to his Creator. Now we won't allow it in the space, that there will be no religion. Except understanding of the man of the knowledge of the Creation.

We go for a break, we come back and we answer your questions. But today's gift to you is to understand the system which creates the STM, (1:12). is within the grasp and within the hand of the man. There is one unit of this thing already on this planet, and this is a gift we brought (along) with us for you to mature. Not to be bamboozled by it, and make it another D of magician, but to understand the science of it, that you can use it in every D of the Creation. We'll go for a small break and come back.

<< BREAK >>> 474 KSW Feb 23, 2023 (1:18).

K- As usual, we never change. Are there any questions. I see a couple of questions in the background, which I prefer to refrain from answering yet, especially about the situation with the person we kicked out about 3 years ago of the KF, and what we revealed today. This is now in the hand of the courts. This is not allegation, and we did not know the lady has been deeply involved in pedophile groups and that's why they were following us like Alan Sterling and the rest of it. Living a double life has caused us a lot of problem ?? ?? but now we understand why, and we prefer to stay out of it. Or not to go public with it till the courts in Austria decide on the future of its decision.

There is a long history, family pedophilia and prison sentences for pedophilia, and even the lady has been put in custody to be from young age as part of this massive organization. And when they found out t took us time, not to ?? align the Foundation , and it brought me a lot of personal hardship, but it is part of it. We don't make allegation. We are in touch with authorities and police in Austria, sorry in Belgium and you'll find out. We don't want to go any more deeper then this, because now it's a case in court, and a lot of ?? of this . Just be careful how, and who you come in touch with this person, (1:20). and the people around her.

All your IP's and everything else are in danger. That's how they operate. That's how Alan Sterling got to a lot of children. And the biggest group ??. 7,000 people have gone into prison with Alan Sterling up to now. And we didn't know how they lock into Keshe Foundation. Since past three years, we've seen most of it open. Because the head has been moved out. There is no more access to abuse.

And I'm very sorry to put it in through in the teachings, but it's my responsibility to protect the Knowledge Seekers, and we've done our best to do. But keep away from this individual. Don't take my word, because of my personal reasons. Go to the courts, and the prison sentences and brothers who even abuse boys, in age of 34. It's inherited, it is in ingrained in their blood, and your children and your families is in danger. And they usually go for the families with a daughter. Just be careful. I have to warn you, those of you who associate yourself with this person, understand what you're in with. And it's not allegation, let the courts of the Austria speak and then we understand. Deep association ingrained in pedophilia, and being part of it. Because you're part of when you bring children in, and is involved in that. Just be careful please.

Any other question?

Q: .. Could you guide us better on the essence of Creation and in which it is sacrosanct, that man understands the conversion of C14, (1:22). in the creation of Cosmic Rays in the extension and amalgamation of Deuterium? We appreciate the guidance.

K- You've got to understand the world of Creation is like the ?? of man. It's as I said many times, we said, it starts from magnetic (M) field, leads to plasma, interaction of the

plasmas leads to creation of physics. Interaction of one or two more physical entities brings chemistry, and interaction and completion of a few more physical states, which brings the chemistry, brings biology. More element interacting in different ??. That's how our science divided without us knowing.

We say, I'm physicists, biologists or chemists. In a way, where do I jump in? And then interaction of the biological structure leads to the creation of a plasma of the Soul, intelligence. And so, we go back to the beginning again, because now this radiates and it goes back to the beginning. "I am the beginning, I'm the end."

So, when it's the ray we call it, fields, Cosmic Rays. Their interaction brings us plasma, plasma of electron, and the plasma of a proton brings us hydrogen. (1:24). When we get couple of hydrogen's fields, interactions, we get copper, zinc or whatever. And then when you add zinc, with copper, we put a bit of oxygen, a bit of carbon, and nitrogen in it, we get the neural system, we get biology, we go from chemists to biology. And then when we put these together we get the STP, we call it, the Spirit. And that Spirit in interaction with bigger plasma creates the STM, and then the STM back with the rays of the Universe, back to the beginning.

It all depends on when and where we come to this point. Where and how we come to this point. And would we like to call cells, a plasma physicist, plasma chemists, plasma biologist, plasma "Soul-ist," a plasma of STP or whatever. We will hear these very soon. When our scientists understand the work of the plasma, we will hear very soon, I am plasma physicists, plasma chemists, as it's coming up.

Because I look at the physics through the world of the field interaction we call plasma, not as a matter state. So, you don't need guidance, it just you got to decide, which part of the interaction, and which part of the collective interaction of the fields you need to interact with. Which, and how you need to interact with. Then the rest is yours. (1:26).

Go back to what I said before, many times, some of the world leaders will not walk into these systems. Because their own Soul rejects them. Because their STP and physicality does not obey the laws.

In the past few weeks, we're negotiating with world leaders directly. With presidents and heads of the states, Keshe Foundation has entered into very deep negotiations with world leaders. Some of you who are close to us know, because you're part of it. And in some cases, you might hear we are. But we are preparing this for the 24th of March, when we ask you to dine with the Soul of the world leaders to bring world peace.

We had a very successful 20th "Dining with the Creator," on the 24th, I think it is, of March, we'll ask you all to join us, collectively, to meet, to sit with the Soul of the world leaders. Not to elevate them, but to put across what us as a citizen of this planet, require from them.

In a way, it's the first time Keshe Foundation on 24th invites the Universal Council to be present, it's their obligation to be present in that meeting. Where we change, we elevated their Soul. Now it's term, time for man to, (1:28). not to demand, but to put on the table, what we expect as citizens from our world leaders.

We have many of you who are in the background who work with us, you brought us, you bring to us, or we are negotiating with different government and world leaders in past 3 weeks, preparing for March meeting. If we succeed, we will have two or three world leaders with us in that session. They'll be hidden in the background for security reasons. We have world leaders for sure and ambassadors of the governments from African nation. A number of African nations ambassadors and world leaders will be on 24th online with us.

What do we need? What do we expect? What is the next step for us to work through the Soul, and not through the physicality? It's your job as the citizens of your nation to represent your nation in 24th meeting. And through your Soul, because you understand the culture of your presidents, your head of nations, bring that change. And was the first time we put Universal Council on the meetings. That they themselves, start being the intermediaries between the world leaders and Universal Community. (1:30).

We don't expect anything, we just set the scene. It's you have to play the game of the change. Understand what it is, understand what it needs, understand what to be done.

We had yesterday Knowledge Seekers in the system. He's very devoted, he's very emotional. He says, "I've come to give to the all the Knowledge Seekers." I let him do. And then I went there and said, now ask what do you want from the Knowledge Seekers. What do you expect of them for you? Where we always say to give, let's see what they're giving to you. Not you're taking from them. If you feel it, if you feel their love, if you feel their touch, if you feel their existence.

Now there's no guidance, it's understanding. And in that understanding, elevating your own Soul. And being that converter I showed, to go through C14 in you become a C12, you use and you let go ?? which you don't have as C14, then what would you let go on the C14? You converted it, what are you releasing?

It came in as the field of no identity, interacted with your Soul. What does the C14 takes with it? Essence of love, essence of equality, essence of Creation in the completion of a cycle? (1:32). What are you putting back on that track when it leaves you? This is what all it is, no more. And how we handle this knowledge? How we interact with this knowledge, and how we don't abuse this knowledge, but make it available to the others to reach the elevation of the understanding we have reached, and they add theirs to it? This is all the essence of the teaching, and nothing else.

We still have to keep with the physical world. Make this make, make that. What else can we do. Do we just sit, because we know everything, on the side of the street, and become a hermit? Or work in a way to bring a new dimension of what you call it, better life,

understanding of the life for the others. You don't see bunch of people around the Universe sitting all over the place. They're all busy, they're all still going there. You still see the UFOs, they're still trying to go and see something. You choose the dimension of physicality, you have to waste time. But how do you spend that time, or you waste that time? That's your decision.

Let me explain to you something maybe you have not ever thought about, maybe have. You all dreamt to five years ago, ten years ago, some of you to become, understand how the UFO works, (1:34). and go on these things which they fly so fast. Now you have a knowledge beyond that. But what do you think passengers of these crafts do? You think they sit around just waiting to go another thousand years to another destination. Or as our scientists says, thousand light years? People are not idle, and sit just there idle waiting for the next. Have you seen these space sci-fi movies. Have you ever seen rubbish anywhere? Have you seen dirty windows? Have you seen any of them starving? And the scene they are always immaculately clean. So it's in a spaceship, so it's in the UFOs. Somebody is cleaning it, somebody's cooking it or preparing it. Somebody's playing the part of a doctor, somebody's playing something else.

Just because they're traveling they don't sit and lock themselves on the floor and that's it, till we get to the next destination. The food, the energy we call food comes through the wall of the system. So they don't need to kill for it, the warmth is kept. What do the passengers of these UFO's do going from one place to another? Sit idle? They don't have a 24 hour shift we have created for ourselves, because of the Sun movement.

As I said, if you go back to the history of Caribbean's. Caribbean's slaves had no holidays, seven days a week work. And they fought for the freedom to have one day off, the Christmas Day. (1:36). And when they got it, they call it "Junkanoo." If you go to Bahamas you know that, and they celebrate that they could have one day off. There was even Sunday going to the church. Sunday still work had to be done. You had enough to go on the rest of it. There were no breaks up somewhere, when you were enslaved.

And it's the same with Chinese. Chinese work seven days a week, they have no problem. When it comes to Chinese New year they take a break. But in the space it's a Chinese life, it's a slave life. You have no day and night, and you have no days. Monday, Tuesday is a habit of the man. PM – AM, lunch time, dinner time is a habit of the man. All these things in the space for you changes. Oh, it's 12 o'clock it's dinner time. How many dinner time you're going to get? Every five minutes? All these changes man has to get used to.

I was with a lady yesterday, she was talking to me on the line saying, I have insomnia, I cannot asleep. I said, now you just become a passenger of the space, you never sleep. All the UFO passengers have insomnia, because they never sleep. Because you don't need to sleep, because the body is ?? visually, if you understand the technology, absorbs and gives everything through the layers of energies. So, we are all becoming the same.

How we prepared ourselves for it? Are we prepared to live that life? Oh, I've done the eight hours shift, (1:38). it's time for me to rest. Oh, I've been up 24 -16 hours, it's time

for my eight hours to sleep. These things don't exist. Some of the Knowledge Seekers go through that, they don't sleep three, four or five days. Because their body's changing to that. It's taking what it needs. But if you can sustain that to everlasting, then you sleep two, three hours to cover two or three days to cover what you stayed awake. So, you haven't changed.

This is not what is expected if you're in the space, it's what you understand of what is to come in the space for man. And that's the question to you, as Knowledge Seekers, as humanity, not for us to tell you what is to come, what do you make of it? How will you plan your life around it, the existence of your Soul?

I wrote to one of the bank officials very recently. I said, the travel from your city to Linz it will be 10 to 15 seconds. How is your structure is going to accept this? Where you rely at the moment on the air tickets to go through your bank, you pay them. ?? needs to be paid through your banking system, fuel to be bought through your banking system. When I can travel from there to here in ten seconds, fifteen seconds, there is no need for these things. Your bank has no function.

The change of life on Earth will come by the application of the technology. (1:40). 20 years ago, 10 years ago, we used to carry bundles of papers we call it, money, to get anything. When the revolution came in Romania, I happened to be in Bucharest. I went to a shoe shop, ladies shoe shop. A lady walked in with a shoebox full of notes to get another show instead. That's all it worth the papers in that box. I don't know how much it was. She gave a shoebox full of money for a shoebox with a pair of shoes. And I thought, oh God, paper has no value.

I lived in China for so long. Wang Lin can tell you, I walked around for months with, I think 10 or 100 RMB in my pocket, there was no need for it, everything was WeChat. Where do we live in the world of science? Where do we live in the world of Soul? And where do we want to live? We don't dictate, you have to decide. We just show you the technologies and the ways to make it, that it doesn't become magic.

Any other questions?

Q: .. Is it possible to replace the Soul maintaining the same physicality in the case the person has bad behavior. For example, in the position of a world leader? Thanks for the opportunity for the question.

K- We can… (1:42). A change of the Soul, if you change it to elevation of their Soul it fits better. And yes, you can. I went through it three times. Where their physicality has, does not make sense as a foreigner to the Soul, till it fits. And yes, you can change, you can elevate the Soul. You cannot take from it. This is the beauty of it. Because the more you take from it, the stronger goes to the fields in the inner circle of the fields. And maybe they cannot understand that.

When you elevate it to understand the process, and that brings the change. It's two different things for the same work. You cannot take because they don't understand how they got there, but you can elevate that they find a way to the same place. If you understand this, it's very easy for the rest of it. We don't, we elevated the Soul.

The Brazilian team relentlessly every night meets for peace between Iran and the 5+1, and everything else they do. But you have to change your position and understanding, can we give, can we enlighten their way to understand? That's the difference. And at the moment it's a Tic Tack game. Us, them and more of us, and more of them. (1:44).

When you watch what's happening in Ukraine arena, it's mind boggling, it's absolutely mind boggling. It's a Christian world against communism, with no religion. Other part of the Christians and part of the Islamic world joining into it as well. And the only one who's benefiting from it both, is the Jews. It doesn't matter which side they sit, they finance it.

And what is the job of you Knowledge Seekers on 24th? Is to elevate, to make the world leaders to understand, and world leaders to bring on the table the understanding of the politics of the running a government, a country. I've asked, from one of the world leaders, on the 24th, please do not come in, just listen and understand what is the problem from the inside. Not what you think is. To sit, to receive the elevation of the Soul, not to answer the questions of physicality.

We'll have two, maybe three world ambassadors with us on 24th. (1:46). They are close friends, they are good friends of mine. And they're coming in. I know one of them, I can't shut, what I call, stop him talking. But he's very opinionated, very powerful ambassador. And I asked him one thing, I said, listen, you come in, you listen, don't make any comment, understand where the problem is that you can explain to your president. That he asks to come in.

You've got to realize, you're given as Knowledge Seekers, as humanity, a lot of people listen to these teachings in the future, and they become Knowledge Seekers, and they understand the position and the beauty they have been, they have reached through their Soul in a way. That you can bring that change in. But you have to understand what that change implement, what it will bring in. Is it your wish? Or is it for collective betterment of the human race and the Universal Community?

As I said, the war of ideology is over. At the moment the war of religions is deepening much more. So, do we need to bring into play the world religious leaders too, on the 24th? (1:48). Can we invite the Vatican? Can we invite the Ayatollah Khomeini of Iran? Can we invite the two Rabbis running the what we call, the State of Israel? And those in Saudi Arabia to be present? How many of you will invite religious people to be present on 24th? And how many of them will be present?

Don't forget, by attending they endanger their own existence. We'll find very few Putin's, and we will find very, very few Gorbachev's. You've got to realize, you listen to

the news, but you sometimes don't look behind what's in the news. The past few days we hear Biden in Ukraine, and at the same time we hear that the Russians are bombing everywhere the capital and the rest. But you got to realize something really interesting, how come Russians did not bomb the day and the time and around the time when he was there? They inform each other, no bombing, rest, step down, till I go and I come back, and then you can start again. Now you see how close they work with each other. There were no rockets attacking, (1:50). coincidentally the time when Biden was in Ukraine. Because Kremlin was told, Biden's here, bomb somewhere else, keep them busy that we can sell another 500 billion, millions of weapons.

Everything in the world of politic is structured. It's just that you are not in it to see it, to understand it. And president Biden did not get up and go there by accident, it's planned weeks, months ahead. Where he goes, what security, all the assurances from the Russians were taken, that there'll be no bombing, nothing, because Biden is there and the rest of it. So, be wise and understand how the world leaders work.

Any other question?

Q: .. A Chinese Knowledge Seeker wrote me a message. He said, it seems the body transfer of a human is a little bit difficult. So, he asked, do you have a plan, maybe to show to transfer an easy things like a stone first?

K- You mean transmutation?
Q: Yeah, transmutation, yeah.

K- You never know, I might meet China that way very soon. It doesn't matter. Once you achieve it, it doesn't matter what it is. It's creating the condition. (1:52). If a stone is made of Fe, it's made of Silica, whatever, it's in your body. So, it's part of the same process. It's the expansion of the Soul.

Now we have a system which for the first time we use it last Sunday, Dining with the Creator. And we watched its operation. And how people felt, the way people felt and how most of the people tasted water. Because we brought in the Gans water, which is made in a very special way, we never taught it, Most of the Knowledge Seekers tasted water, or they received moisture. Interesting enough, because the system is controlled and connected to the Linz. Both people in the system yesterday, tasted water. Because it's set now it's connected.

The new system, which we tested, it carried all sorts of kinds of foods in it. Everything we could imagine, we brought it on the table in the system. And we let people taste, from chicken to beef, to chickpeas, to salt, to sugar, to honey, to flour, pasta, orange, and banana. Everything we could think, in a Gans state, we brought on the table. But before that we brought in a banana, orange and apple, to see what's the difference in the feeling and emotion and watching the operation of it. (1:54). And letting people help themselves and telling what to eat and everything else.

It's a very, very interesting observation how the physicality feeds the Soul, and then the Soul takes over and then it feeds the physicality, we demonstrate on the system. And it's very interesting what we see. So, transferring collective, is easier than individual, because even when you look at a stone it's not one atom, it's billions of atoms to make one stone, there's no difference. That's how it sits. There's no difference carrying a human being or a stone, it's all the same. It's the package and envelope, it doesn't matter what you put in it. We expand the Soul. We expand the Soul of a stone, we expand the Soul of a man, it's all the same, it's one envelope. It could be one gram of stone, it could be 100 kilogram ??. It's all the same. What you call it, international posts, you pay by weight. This is paid by the volume, the size of the envelope, and it's all the Souls, are all the same.

I'll be in China in the first weeks of April. And it will be nice to meet with the Chinese community, with the Chinese Knowledge Seekers. We're going back to the roots with the promise we made to the Chinese government prior to Covid, and we'll see what changes we can bring in.

Any other question? (1:56).

Q: Dean .. Mr. Keshe, you've opened up a lot this morning. So the Soul of humanity, if it makes this decision, does it carry the Soul of the Universal Council and all the Souls that are present, is the decision have been made to create a condition where we have peace now on this planet?

K- You have to bring it, decision is not made. We have made the facilities for you to do. None of you can meet with any of these World Presidents, very rarely, even if you're given chance, very few seconds and you cannot talk a word. We create a condition beyond their physicality you can do. The way you met with the Soul of the Christ, Moses, Muhammad. You felt it, you knew their presence. It's the same. We are facilitators for you to gain trust in the knowledge you carry. Not in what we are giving you. So it's there, you have to decide.

Q: And will the Universal Council as a group of representatives, you know, across the planet, will they bring about this condition?
K- How would they come into the meeting?
Q: On a Soul level.

K- Exactly, but how? Would they come as one Soul, or would they come as different Souls collectively as Soul of Universal Council? That you still have to learn. Universal Council (UC) members still have to learn that.

Q: So, act in as one Mr. Keshe, is that you're saying? (1:58).

K- More or less, yes.

Q: I will ?? interact with the world leaders, Mr. Keshe, where they will have to .. on a Soul level they will have to accept this energy transfer.

K- They don't have to, you cannot force anyone. You can make it available. There are two ways to do this job, and Knowledge Seekers have not understood this. You make it digestible, or make it available, or you make it hard to be accepted. It's like you having a sugar cube in your hand, and you try to chew it, or you dissolve with warm water and you can drink it, without chewing it. Which way you want to do it? The hard way? Or which one gives you the pleasure, the hard chewing it, or the pleasure of tasting the sweetness of the water of sugar? This is the job, this is what the UC have to understand.

Are you becoming another bunch of us, we? Or are you becoming a bunch of facilitators that we are here to serve? It's a very big difference. How would Universal Council as a total Soul will come into this meeting, will decide the outcome more than anything else. (2:00).

Q: There are a lot of thought there Mr. Keshe, a lot of field strengths, that needs to be understood.

K- A lot of realities need to be understood, not field strength. A lot of realities. A lot of what I call, Soul searching by the Universal Council. It's the first time you've been put on the test more or less. You've been put on, not test, but to bring the change. And in a way, we are all coming in as Knowledge Seekers with a bouquet of flowers. And you as representatives of Universal Council are there to deliver this bouquet to the world leaders. What is your plan? And every Soul has a responsibility to be there.

Q: So, what you just said there Mr. Keshe. So, my experience, you know, I spoke about this last time, that when I met a Knowledge Seekers, I got this, this fragrance of a big, and I'm not sure I smelled it through my nose. But it was very, very present. And then the other side, when I was in the last week, when I was in the position of the Dine with the Creator. I didn't taste anything because I think the Coronas touched my physicality. So, you know, my tastes and smells disappeared.

K- Did your Soul smell and taste? You're still physical. (2:02).
Q: Yeah, physicality. Yeah.

K- If you've been touched by Corona and you lost your taste and smell, it can be fixed. That's not a problem. But did you smell it with a, tasted with the Soul? Which you felt it? This is what I said to the couple of people who were in the system yesterday. Did you see or did you feel? Did you taste it? Or did you feel the taste?

You know, if you came to last Sunday, Dining with the Creator, we kept you for a couple of hours teaching you the techniques and whatever. And now you're invited for free food the whole of next week. Would you come in and sit there waiting to taste something and not ?? tasting? Or would you come in with understanding that my Soul is taking, I don't need to feel it? I'm just going in there, because I carry it with me, so I better let him do his job. And then you didn't taste any food when you came in, but did anything changed

in your understanding, in emotion, in your life after the session? Or you still, oh, I didn't tasted anything, that was it.

Now we put you to test. All the Knowledge Seekers who came to Dining with the Creator last Sunday, are invited for free food and for a week by the Keshe Foundation from four o'clock to seven o'clock. Every day they can go and eat as much as they like. (2:04). But, do you eat with the eye of the man or do you eat with the STM? If you come there to taste and smell, you're still a man. If you came, to then realize the elevation of the understanding of the fields of the Universe, then you have moved a step forward. Maybe you tasted the banana and you had a water, fantastic. Did you ask the Soul, did you taste anything? And he says, no, no, I didn't take anything, because I already had it.

Q: That kind of explains Mr. Keshe. So, when the water came up, like many people that were salivating and there was a lot of moisture in the mouth. So you were experiencing the energy the foods through the salivation. When I was present there I felt very full. I didn't actually need to dine as such. so…

K- You had a British breakfast, bacon. Yeah, we didn't invite you there to come and eat food. We brought you in there to learn how to feed your Soul. But we had to put a bait, we had to put a sweetener to get you in.

Q: I think the Soul brought me there Mr. Keshe, as it does with all of us.

K- Yeah. But it's there. So those of you who didn't come on the what you call it, Dining with the Creator. You should know that they got a free lunch ticket for the whole week, next week. As I said yesterday, it's three o'clock in the morning my time, but I get up to eat. But let's see. (2:06).

Q: I'm looking forward to it, Mr. Keshe. Thank you very much for taking my questions.

K- Any other question?

Q: .. Let's have a look at Cristiano's question. He's got a picture that he would like me to show that has to do with his question. Let me bring that up first. And Cristiano says, good morning Mr. Keshe, thank you very much for all the knowledge you have passed on. Mr. Keshe, in the 202 KSW you explained how the Soul is created through the positioning of the amino acids in the womb of the mother, and that from that moment the Soul absorbs the fields of the environment of the womb of the mother, the environment of the Earth and Universe, and thus feeds the STP. A little further you said that if man can return at that point, he will remember how to feed himself from the fields without having to kill, because he already has the knowledge.

So the question is, how can we consciously return to that point, to experience that knowledge of absorbing the fields from when our Soul was created? Would the Emotion of presence be a way? How could we practice and teach this knowledge?

K- In a single word, "detachment." That Soul in that position is detached from it, (2:08). as it lives on its own, with what it created it. Because it knows the rest has been made available for it. It doesn't kill in the womb of the mother. The mother with the love of the Creation and the Creator gives freely, make it available. He takes from it what he wants, because he's detached. But it's the same for the man. Become detached.

That's the biggest part of it. If you can become detached from physicality in a way, not just sit and become and hermit. You still life (live), but you know what's the purpose of this life and there for you to enjoy the ??. It doesn't come by becoming a hermit and sitting in one corner. And in that process the joy you bring somebody is a service, you're serving someone. The food you give someone, is a service. The calmness you bring, the joys you bring, this is all is, what we call, service. You serve something. This is what is, and that's what we've got to realize. Detachment. If you reach that point, then you moved forward to become man of Universe. Because then you realize the Universe provides for me, I'm just here as a converter to provide for the others. You are that generator. (2:10). The flow of the river is the same on the top and the bottom.

Any other question?

Q: .. I think you might have already answered my question. When we're looking at giving say love, the energy of love, just trying to sort it in my head. What sort of qualities of energy fields, how would we know what to give? It may be the wrong quality. But through, you're saying through detachment the Soul will give the correct quality of energy, is that?

K- That's "spot on," exactly. Your job is make it available. The job of the other Souls is to take what they need from it and not to steal from it. That's all it is.

As in the farming world you understand. You forever put one seed to take more things out to give more to enjoy what you seeded. And this is what we call. Farmers are one of the closest people to the world of Creation. (2:12). They embrace it, and some disgrace it, as I call it. Those who embrace, they give that life back to the people as a giver. And the ones who disgrace it as we see it in what we call, animal farming especially, nowadays. But in essence it's all how we do it. It's the same with the computer people, it's the same with the guy who collects rubbish, or the man who sits as a president.

Q: You made me feel better about being a farmer.

K- I know but it's the way it is, is the way we see it. The farming community always been very close to Creation. Because they have to understand the work of the all things, the Sun, the rain and the wind and the rest of it. In that way makes you. In a way it's what they say, "thinking makes you wise, wisdom makes you rich." And that's the richness of understanding the Creation.

Q: .. I'm a registered international senior nutritionist. (2:14). I am now in London, but I am building a Gans factory. We meet. Some questions we need to inquire from you?

Could I visit your foundation in Austin, please? My company name is Shang Hai ?? Life Health Technology Limited? She left her an email.

K- .. We are in Austria. Forward that email. I think we know who she is. Get in touch to the info@keshe.foundation and we respond to you accordingly. We are just about two hours flight from you, from London.

R: She could arrange for visitation of the facility or to meet, how would that be?

K- No they just send an email to info@keshe.foundation and write there. I now these people trying to build the Gans factory in Shanghai. We know about them. And I will be in China in April, we can meet in China or in Austria. (2:16). But we have commitments and agreements with the Chinese government to build Gans production.

But in a way, the way we look at it now, Gans production factories are a waste of time. The development in the technology, especially in past three, six months is so much, that the Gans production, the way was set out, its short term investment. The development in technology, especially what we're seeing with the wireless system we brought in, makes a lot of work of the Keshe Foundation, even we needed it to build it up to be, more or less obsolete. Be it for wellness application, be it for farming, be it for everything else.

And we will be heavily marketing the new expansion in the world of science. When you have to put Gans's in a 1,000 hectares land in China, trying to get to water or Gans conversion to the seed becomes cumbersome. With the new technology, we can place the whole information of the growth within the structure of a satellite, which targets the land. With the harvest two times, maybe 10 times more. The Gans production the way is, it will still exist, (2:18). but in a way we don't see a future for it.

And this is one of the reasons in my trip to China we are offering totally new structure to the Chinese government, to the authorities. Building these Gans factories, they're making advance what I call, space plasma factories where we deliver technology, and not much of the material needed. Is the future of agriculture farming and feeding.

The development and leap in the knowledge the past six months, even we use part of the structure we set up originally, has changed a lot of things, and it will change. It's very much, we're reaching a point that we decide how and the way a plant will receive Cosmic Rays, and how it will change its position.

The production of Gans factories this scale, we were planning 12 months ago, is out of the window. It becomes very much like what we see in the Americans, spending a fortune, building all the cabling and everything, and the mobile phone came, and Americans are still backwards compared to the rest of the world. They were for years, because they're trying to recuperate their finances for what they did the cabling. (2:20).

And China is a ground we feel very comfortable with to release this new technology to Chinese authorities. We are not coming in to build Gans factories anymore. We're

coming in to deliver energies, and energy production system, from power point of view to food, within even your radio waves, within the what we call, Apps on your mobile phones. And what we call, you've seen like last week, and before, the mobile transformation, transfer, which means you don't need Gans centers to build.

It goes back to the knowledge which we explained this morning, how you can make any radiation out of C14. And that knowledge is within our hand. Instead of building and waiting till you teach, you feed people without them knowing through it. Transfer of energy, transfer of energy be as light, or energy be as food, through at the moment telephone communication and the mobile headset we've shown, is the future, the fast way to change the process.

Building Gans factories to produce different Gans's it's at a moment something 10 years backwards for us. Technology development is so rapid, is… And it was inevitable that this would come. But the good thing is that the technology development are all coming from inside "one house." (2:22). We were planning to build Gans production factories maybe two years ago in a very large scale. Today, I don't see any reason for building such a structure. Be it from absorbing CO2, be it for production of food or communication.

The development and progress in technology as our Knowledge Seekers understand and now working with it, is even the Enhancement Power Units we already put in the market. The next generation will be totally different. Coming up it's going into, as it goes into production. And it's totally different, even though with the same outcome You will see a new generation of plasma power units will be introduced in the next few weeks. It does the same thing, but in a more powerful way, in a different way, it's easier and allows us to do a lot of new things.

Get in touch with us, we still can talk, but I should be arriving in the first week or two of April for a couple of weeks in China. I will be traveling with the management of the Keshe Foundation. Then we'll bring those changes in directly to the Chinese, and we show it. It's not something to be done, it can be commercialized instantaneously, if we come to an agreement with the Chinese authorities. (2:24). Now it's the development of the plasma space level factories in China and in the rest of the world, and not producing Gans's. But we still produce some Gans's, but in a way has no priority in the program.

Any other question?

Q: We have a couple of questions regarding the what they call, the Cosmic Ray headphones, or the headset that is available through the Keshe Foundation. One question regarding who says, I have a titanium implant for my teeth and Mr. Keshe said not to use the coming headset if you have an implant.

K- The tooth are different than the rest of your body implants. The tooth are separate, they don't have much structuring. The implants like your hip replacements, shoulder replacements, valves, these will have, or if you have a plate on .. your vertebra, these

will grow, and then you feel the pain. Then you have to go back to the doctor to take the joint out, but what do you have to put in replace for it?

The bones will re-grow. We see it today. (2:26). We have a case running with the doctors where we have seen this, I know Azar is going to kick herself, we never told her, but you know. We have seen, hopefully we can quantify it in a better way if it does complete the cycle, the growth of tooth, which has disappeared before. We've seen the first sign, the change through the new application of new technologies with doctors. We have actually hard pictures photographed. So, it's not something we think, we see it in four to six weeks. How we'll see if we are seeing what we've seen the ?? of all sort of things. We just maybe in the next six months we have a better view of it, in the growing tooth. And that all comes through the new technology which we have applied.

It's the same goes with the hip and shoulder implants, titanium ??. We saw this years ago in Belgium where titanium shoulders were getting dislocated, as the bones start growing. Would did take the same shape and complete? We did not have the chance to complete the researchers, we left Belgium. But, yes, the bones grow. And then it comes, does it fit?

Or we release more technologies as we have done in the new technology, in growing parts. (2:28). We're testing a lot of things around the world with different Knowledge Seekers and doctors and everything else. And we see a way out of a hip replacement, we see a way in the strengthening the hip bone, the femur, and that there is no need for any of these. And I think the results will be out by the doctors in next six to twelve months.

Q: .. For someone who has a hip implant, an was accepted to be treated by the Keshe Foundation doctors, would the Cosmic Ray hybrid plasma generator help speed up the healing process?

K- The hip replacement, if you've done, we don't touch, we have told the doctors. If you're going in for a hip replacement, there's an opportunity to try with the doctors. We are extensively researching in this area. So, if you already had the titanium hip replacement, we are (in a) wrong position to tell you anything, because we cannot change your titanium head of femur to a calcium structure. Impossibilities. That's why I say, it's too late.

But those of you who have the problem, there is a possibility that our doctors can do, using the new technology and help for them to understand more how it's done and how it can be done. There is that opportunity, 100%. (2:30). The release of the "Knee" Gans was one of those steps in that direction. And we explain those very soon, how those who bought the Knee Gans's we're waiting for the data to come back. We know what the data is going to be, but just confirmation of it. Our doctors will use the Knee Gans in conjunction with the new plasma technology for rapid growth of different parts of the body. We see that should be on the cards in the next six months. It's like when we gave you the glasses, a lot of you bought it and reported back to us what you saw, elevation of the Soul, you felt good or whatever. It gave us a lot of direction in how to make the Headsets. Now this Knee Gans is another insight into it. I see a lot of people asking, can I

use it this way? Can I ?? patch it? Can I do this with it? There's an instruction on it, follow the instructions. As you have signed the agreement, it's a trial, return back the data will help us for structure of the next setting for the doctors.

Q: .. Could you talk to the doctors of the Keshe Foundation to come up with a package that includes the removal of the hip implant, and growth of the bone through Cosmic Ray technology?

K- We cannot. We don't have… There is no way this can be done. Impossibilities. At this moment of time it's 1%. (2:32). Because you have to understand what they do when they put a hip replacement or a femur replacement. They cut it off, it's gone. Then they drill a hole in it to fix it, or they glue it. They destroy the whole structure where it comes from. And to grow this, to take it out, and to grow it, will take months, it's not matter of seconds. It's not the sci-fi movies, buzz, the picture appears, and the bone is suddenly there. One day might be. But that one day is at least five to ten years away.

You've got to realize, most of this research is coming out of one structure. And other structures are stealing or whatever taking from it for what they use, but we don't see what they're doing with it. And they come up with different banners and ways not to show what they're doing. If one day, being locked up into the world institutions to work together, we'll see most of these things. As we demolish the patents, there is no need to hide it. As it develops, it will be in public.

One of the ways to most probably increase the growth of amputations, than the hip replacement. It's much easier to grow an amputation, than to do a hip replacement. That will come through the Horizontal systems we see in Linz. That's more or less bring in the new advanced technologies we're developing now, (2:34). plus what we know from the past. Growing legs and arms will become a matter of three to six weeks. If you have amputation from knee down, what I see with the knowledge we are carrying now, with the knowledge we carry from the past, six weeks will be average time to re-grow, and the rest of the leg from knee downwards. But maybe three to five years. So, micro surgeries and these things will go through the window. But the knowledge growth, the sped of knowledge growth will dictate a lot of these things, and the knowledge, and the freedom we get to do it.

Q: .. For a 380 volt electric panel do I require a special Hybrid Cosmic Ray system to be built? Or the ones on sale will work just fine?
K- What?
Q: A 380 volt electric panel. Will the system plug into that, or does it require special Hybrid Cosmic Ray system to be built?

K- He means it is a 3 phase?
R: I think that must be the case. I was wondering about that myself. 380 it's normally a very high voltage. It must be a three phase industrial type system.

K- You cannot use that. An industrial version of plasma Enhancement Units will be built in next maybe a week. We already discussed it is on the plan to be built. And then thinking that we might receive it before March, mid-March, or whatever, just after the March. We're building industrial scale plasma units for factories and the rest, yes. But as different structure. And we see it as to be essential, because households will be a small fraction of the power usage. Industrial usage is the next one on the ladder, which we already… I think three prototypes are getting built totally different. And size wise is about, I think, about four or five times the size of the units which we are putting out now.

You will see a new tabletop version coming out in next week or two than what we shown. This is another, what you call, addition and evolution to the technology. This is extremely, extremely powerful system developed, very simple. And it'll come into the market very, I think the first few will be presented next week or two.

As I said, the evolution in development is massive. It's not just evolution, what they deliver will bring changes. It's so revolutionary that as you know, (2:38). we always built two twin systems. As you saw in Linz, we are building the second twin system, and the change is so much. We finished one unit, complete more or less, which you lot tested on Sunday for the first time, you were in it all of you who came for the food. The evolution is so much that instead of building the second one, the same as the first one, we are implementing the new Soul Reactors in the new one. Which it will be very interesting to see how these two systems functioning in a similar way, but totally different way, will operate. So, what we plan to have two systems, we'll have two systems. One is what I call, the old version, and one the new Universe of plasma systems, what I call, the Soul Reactors. And that will change the game drastically.

The first one built has already affected, we've seen. We have to see how the other combination and how we can miniaturize it to place it within the Headsets. Or we look at the possibility, do we need a headset, where we change the whole environment of the whole thing together. You will hear next few four or five weeks. It's a heap, it's a huge development in the world of plasma technology, huge.

Originally I told this to the Knowledge Seekers about a year, two years ago, but they could not see. Now it's back on the table because we gained more knowledge, and they can see it to complete it. It's exact replication of the work of the STM, (2:40). it's the exactly replication of the center of the Sun. And if the center of Sun fields are radiations which come from it, lead to creation of Cu, Zn, cell of the body of the man, the cell of the brain and everything else. So, you can imagine what this system carries within it. It's self-sustaining, and self-elevating. It's an amazing system.

I have a very direct line to the Romanian group. Do not get fooled by what is get and claims made by Barbu. We do not approve and support his work. Because he just takes the use of the words of the Keshe Foundation. And just make it what I call, another "phantom claims." I ask Barbu to reconsider your position and what you claim. Stay with the realms of work, of plasma work. Not necessarily Keshe Foundation, there's a freedom of ??. But don't associate us with the phantom works you do, and the claims you make.

Any other question?

Q: .. Could you talk a little more about the beginning of the new cycle from the STM? From what I could understand, Twinity is always necessary for new seeds to be created. Among mankind, (2:42). the souls of the father and the mother divide to form a new life. In the case of the STM seed, when it is ready to start a new cycle in the Universe, and create a new fruit, will this new fruit arise from the interaction of the STM with the STP itself?

K- This is a very interesting point. As a nuclear physicist I put it, it's the energy of the fission within, to become a fusion without. When the man reaches the point of death, it carries two elements of life of plasma with it. And that is, the physical strength dimension of life, not necessarily connected to amino acid of the man. Is within the structure of the STM. When it reaches the point of balance anywhere in the Universe, that point of balance is where this seeds is allowed to, or this field of plasma is allowed or create, conditions created for it to be (living). In a "fission style," as we call it, in their interaction, will create a direction of atmosphere of life. (2:44). So, Twinity will come from within, not necessarily from out.

The Creator created Mitra from within Himself. He didn't take another lover from outside. So, shall be the same with the man. We carry Mitra within ourselves at the time of departure, which is the, what we call, the "Spirit." This Spirit in interaction with its environment gives the physicality, but at the time of departure and travel is within, it's fused in. Until that fusion is not complete, the separation does not come.

It's very much when we send our child for a picnic. We put everything in a basket that he can enjoy the time when he arrives at the picnic. And this is the cycle of life. Always remember, when the time of the separation of the STM comes from the physicality, the Spirit of the man, essence of the plasma is within the Soul itself. That in the time and position, when it's released become like that electron, from the neutron. The essence of electron is within the neutron, it doesn't happen coincidentally. It just has the seed to create, to release that part. It's a birth, it gives birth to an electron. (2:46).

The STM at the point of manifestation of physicality, gives, releases, gives birth to the structure of the Spirit, which the man carry, left, deposited within it, at the time of departure. Because it made it. Part of the point of death becomes, is when the Soul is complete, but the Spirit completes its storage or depositing of the energies which confirms its existence within that Soul. It's when the mother let the child go.

And when it arrives in the position, space, where the field strength of these, the release of that point comes to flourish. Then you call it Twinity. But Twinity comes within, created within then it becomes a Twinity. You put the seed out. You don't split. And we don't have " shako ?? " as it's called in Islamic world, when he cut the Moon with one sword in two halves, that's why we only see one half of it. That's the belief in the Islamic world.

It is essence in. In a way, one of the books I have referred to this. And it interacts with an environment, and when the field strength is the right way, (2:48). the Spirit of the man will manifests itself as a twin, or what we call, Mitra. The love of the Creator, which comes from within the Creator.

You know, I always said, maybe you've heard it before or not. We have a philosophical ideology that Adam made Eve from the rib, one of his ribs. This is in truth the creation of Mitra, but it's put in the term of the physicality of the man. The Creator created Mitra out of the fields of himself, to confirm his own existence, and the he fell in love with it.

And then the what we call, the fruit, the apple which got the Adam to bite out of it, was that love. When Mitra came to Earth and knew what love was, and it got the Creator to bite that feeling, emotion of love, and that enslaved him. This is what, then in, what you call it, in other languages, and the books have changed to Adam and Eve and Eve being born, created out of a rib. But the apple is love, it's the "poison," which Mitra learned from the humans and got the Creator to bite at it. Actually, it captivated Him. ?? enslaved Him ?? . (2:50).

Any other question?

Q: .. The question is about the MaGrav. If the MaGrav is used with solar panels. Should it be connected in the continuous current from the solar panel or after the Inverter?

K- It doesn't matter where you put it, it still touches your Inverter. It's a field flow. It's not a river one direction. It flows into actually your panels, back, and through your Inverter, or after your Inverter into your circuit system in the house.

One of the reasons we launched and we completed the Head Units is because with the mobile phones we see a lot of problems with interacting with plasma. And this is why we delivered it, because then you, you live within the same environment. (2:52). The .. Combined Unit which now is on offer, is the best way for the future of the structure of the what you call, the new plasma technology.

If you remember when we put the MaGravs into the houses, you Nano coated the wires. Now we have the same problem with the Headphones with the plasma technology. But across. I'm waiting to see which satellites will start malfunctioning. As we increase the use of mobile phones and MaGravs and, what you call it, the plasma technology, there will be a conflict in the satellite system. But we have to wait and see who shouts first. Without a doubt it will do.

So, we had to introduce the Combined Units which is now on offer. To replace and in a way to upgrade the technologies without satellite. In the future systems of these tabletop, and the Head Units, a lot of things will be replaced, a lot of things will be replaced, which you are used to. But don't forget, we didn't have these things 50 years ago, we got used to short term. Now we're going to the next cycle. The mobile phone technology, the what

you call, satellites, all these will be changed with a much higher speed, without failure, guarantees. (2:54).

If you looked at the last Sunday, Dining with the Creator, it was a hybrid, we transferred to you plasma. But through the what you call, present communication line. Some of the messages is not at the strength of the Soul because the communication lines carry. But when next time we have Dining with the Creator and most of you will carry these Head Units, you'll feel the banana Voila, there and then, if you need the banana, you'll taste it, you'll feel it. Because no information is lost, and it's directly delivered to the Soul. It will become that dream, that you thought about, you have a dream that you had the banana, but this time you feel and taste the dream.

Any other question?

Q: .. I have a few question, one is, when you use all these plasma technology on helping us, do you think we become lazy not to use our Soul?

K- .. Do you think God becomes lazy, just because he can use His plasma technology?

Q: Okay, so we don't become lazy. (2:56).

K- ?? that privilege.

Q: Okay. So another question I have is, all this plasma with energy, food, everything we trying to make it happen, can we introduce it like a cell phone, like in the present cell phone we can embedded all of it in that, so in one go we have everything?

K- That's what the Headsets are. The new Headsets we put out they have their own transmitter with them. We use the table . That's why we said, as a console with set. The replacement has to come with the technological development, and as it’s happening, even what we see. The whole structure of plasma technology is upgraded by huge frog leap in the past 10 days, 15 days. We try to…

Q: So, for example if I use the Headset I can have a heat to the house, I can feed myself?

K- You can dream what you can dream, but the reality is, do you need to heat the house and kill the plants in the house, which you have no right to? Or do you have the right to feel warm? You understand? It’s that you will create a condition with the transmission that creates a field that allows the plant to feed themselves, to heat themselves. This is the whole purpose of this new development. (2:58). This is part of what is coming.

There is a massive change in space technology. We, as I said, we tried to introduce it to Knowledge Seekers about two years ago. We did a lot of experiments on it, but it could not be understood. So, we left it. And we come back to it now, because of the development in the reactors and the reactor technology, it's grasped straightaway. And

still, they'll be, the first ones will be in their what I call, in their puberties, and the mature ones will come over years.

Then you think to convert… It's very easy, I know how it can be done, you can create within your console the condition of Mars and travel to Mars. You become independent, control by governments will not exist. This is for sure. Nobody can dictate. Government here can tell you what you can do. But when you have the freedom to go to Mars, you have a freedom to go to another planet, there is no government there to dictate to you. And no government can dictate to you, you cannot go to Mars. You set, you will have the access to it. Creating condition of the what I call, that smell, that odor, that field strength of the Mars, it should be within your set (Head Set??).

Q: Is the "gating," with the way we go, is the gating is going to become obsolete? For example, you have a spaceship, I have a spaceship, I want to come to your spaceship, I can bring my gravitational magnetic field closer to you and jump into your spaceship. Is it still the same? Or is it obsolete, it doesn't exist?

K- You choose. (3:00). The development in the matter states will not stop, because of the understanding of the, what you call it, dimension of the Soul. There is a term I very seldom use, you call it, the "Soul searching." I call it, the "Soul researching." A lot of research will go into understanding the Soul. Not Soul just as the STM, the Soul of the Creation. How would you interact the Souls to create… The way we saw what we do with this ?? , with that ?? in the physical dimension, the created things, not only the race of the man, will try. Now they understand the process. They understand the leap in the gain of the knowledge, all will try to understand different flavors of the interaction of the plasma, of the fields.

Q: Mr. Keshe, for example, is the difference between having a spaceship being it in the space, or just myself being be in the space and you are in the space. If I want to give you something, do I still have to use the gating, or just can give it to you?

K- I don't know what you mean by "gating." But in essence, you interact with the fields

Q: Because in one of the teachings you talked about gating and you said gating is just you bring the gravitation magnetic field of the spaceship close to the other one it creates a bridge, and then you can move from one to the other one.

K- This is the matter state, when we were teaching you the what you call, physical transformation.

Q: Okay, so it has nothing to do with the plasma then?

K- Plasma T. It's an extension of it, if you understand that you can apply in different way. But it's being accepted. You can give as much love as you like to me, if I don't accept it, it's (just) another energy in the Universe. (3:02). Or you can give me one love, and I accept it, and it becomes the biggest thing in the world.

Q: Just like the way Creator is always giving us love, but we don't, we're not open to it.

K- Yeah, it's just the way the mother gives love to her child. When you cuddle your daughter. You cuddle her because you love her, and she feels that warmth. You cuddle her because you need to be loved, and she gets fooled as the first one. You understand? We give love in two different ways, one to satisfy ourselves, and one is to satisfy the others. And sometimes we do both at the same time. "Cuddle me that I can cuddle (you), love me that I can love you." We understand the difference.

This is how it will come. I give you, I present you the gift of love, but if you're not, if it's not your, if you don't accept it, or you already have another love to love, which my love cannot interfere with, you have to respect it, you cannot force it.

You know, what we had in NASA, in the space station with a couple, the guy wouldn't accept it. When they came back to Earth. It was a good feeling in the space. So, the lady went to kill, you've got to accept it. And this cannot happen. I wrote to one of the NASA guys few years ago, I said, the emotion in the space is different than emotion on the ground. In space you have nowhere, that's the only thing you accept. On the ground you have options and can lead to homicide. So, it's availability, and acceptability, (3:04). if you accept. Just because you made it available, doesn't mean has to be accepted.

Any other question, or shall we call it the day?

Q: .. You mentioned about mono-energetic fields last week shortly in a few sentences, and I would like to ask whether you ?? .. say something more about the nature of that, because it touched me.

K- Mono-energetic we call them rays mainly, is what we call, like a laser beam. And mono-energetic fields rays or whatever you call it, are one of the fastest way to deliver, one of the fastest way to deliver. Mono-energetic fields are usually, are usually of the ray character. But due to the interaction on the outer surfaces they create friction and lead to fields. We have no choice, we always start with the ray, (3:06). but due to interaction and friction we end up with particle, or with fields.

And this is part of what the world of present science has not understood, they just say, oh, it sometimes behave like a particle, and sometimes like a ray. Because rays are amalgamation, or mono-energetic fields, they interact with their environment. Otherwise, they can't show their manifestation, they don't show existence. And their interaction, they gather plasmas, which the ?? same, becomes cylindrical, and they become particles, become a plasma.

And 2 things dictates the strength and the fields of mono-energetic rays, or magnetic fields. One is the strength they started with. Secondly is the environment they interact with. These dictates how the rays will become fields and become particles. I can shoot… At the moment today, we shoot a laser beam. We start as a laser beam, we finish with the

laser beam, maybe weaker. But if you work with mono-energetic rays, from plasma, by the time you reach to the other side, you have a plasma, you don't have a ray. Depending on the time, space and the strength of the fields in the space, in comparison to the original source. The slower you go, the more friction you create. The deeper the field. (3:08).

Mono-energetic rays, or mono-energetic fields are part of the high speed travel. And if you can understand it, it goes back to what I showed. It's a parachute, or is it an escalator to take you up or down (The CR stacks)? It depends how you create the sink in it.

You can create a high speed for a ray, if you can increase, or target increase the source. What this means? It's a pre-arranged, it's like when we send people to the Moon. Hopefully next couple of months we trying to. We don't send them as a package ?? Voila, we are going to land. We take part of their energy of their Soul in one system, which transferred back to the position on the Moon. And in a way we create a Mitra and the Soul, which is, the lover will go to it. If you understand the principle.

We just don't put them in a rocket and shoot them at the Moon and they land there. Does not work that way. Because that way you need to create a lot of controls, holding it, stopping it, you don't hit it. You know, you don't send the man out to become a pancake on the floor of the Moon. When you understand and develop this technology you create plasma, when he gets there according to the distance, gap energy of the fields you slow down as you approach the position, automatically through magnetic fields. You don't need a control system. Teaching a deep space travel is an art. And I'm a master in it. I've done this for so long.

It's not just sending somebody to the Moon .. in an envelope. We fast forward with a higher level. As I said, I can create any kind of radiation and strength field parallel, or the same as the Soul in the point of direction. It can be anywhere in the Universe, you don't need to see it to target it. In approaching. First of all it's attracting, it's like electron and proton. One is in volume, one is energy ??. And one attracts the other one to the other. And then you have a point of separation where you see the gap between electron and a neutron, and that point you change to land.

Traveling with the Soul or flight system is an art, art of understanding the work of magnetic fields in the Universe. Don't forget, we came that way, so we know how come. And as we came, we know how to go back, so we know that ?? very well.

Any other question?

Q: .. Good day Mr. Keshe. (3:12). ..
K- Are you living in the frozen weather of your country at the moment?
Q: Yeah, this is my question. Really? Yeah. What's happening?
K- I knew you were going to ?? ask. So you see, the Soul knows. What do you mean by what's happening?

Q: What we see from this condition of the earthquakes. And you know, a lot of times come to my guts here, that your teaching in back years, about the separation of the continents. .. So, what is your intake in this condition? What's happening?

K- No, this is a normal process of expansion and contraction. Have you seen, somebody sent me a video. Where did I see it? .. I received three or four videos in the past few days, that one of the agencies has shown, we're looking at the earthquake with the buildings, they have shown actually what has happened to a mountain or a mountain range in that area. It's a huge valley. I think he says is about 13 story block, and the day before was a flat land. The continental move is a shrinkage.

And it always happens in a certain time when the fields extraction and contraction on the upper layer puts pressure on the lower level. You know, you blow, you have the blowers, you push it together and it blows air on the other end, when you make fire, the blowers (bellows) we call it. (3:14). And then fire expands, and then it gets hotter and hotter. This what happens to us, we come from the summertime, hit the cold time, the physical structure, tightens up, blows the fire at the bottom, something opens up, it's like we call it an earthquake.

Earthquakes, big scales have a certain time in the season. So that's why we see earthquake majority of time in the winter time and all the problems. Because we come from a very hot summer, the surface expansion is there, we come into a cold surface contraction. Now we open the bow of the blower, now we close it, the energy is not charcoal to fire up, it's the center of the Earth. So that pressure gets absorbed. And it gets to a point, you know, that you see sometimes the charcoal suddenly explodes in the middle of the fire, explodes back up, the energy cannot go in. And we get it as am earthquake backup.

So it's done by the Russians I heard. And the Russians said, they can create the worst one in Istanbul, and then another one. It's a good story, but it's the real physical life on this planet on its upper layers.

Q: Okay, but what about the seas, is going back?

K- It's the same. We have cycles of the heat movement, the cold and the heat, up and down.

Q: You mean the tide?

K- It's the weather tide, not the water. But generally in Northern Europe, we had a very mild winter this year, very mild. We had only I think two snows or three snows in the upper Austria. It's like spring in the middle of the summer, you can go out, it's 14 degrees a couple of days ago. But these are fluctuation in the weather. (3:16). And some years, three, four years ago, the snow was so bad. And here on this hill where I live, it's all green. We don't hardly see any snow. On the hill about 10 kilometers away where the research center is, they have a different condition. And at the same side, another hill

further up, you can't even drive. Last week they had to call support to get them home, from the council with the bulldozers, what you call, snow plows. It's a milder than unusual, but essentially it's part of the life of this planet. And if you're Dutch, you say, it has to do with Carbon creation global warming. So we can sell some more trees.

Q: No, no, I you know, I'm not that way of thinking. No, but I am connecting the dots here from your teaching. You said that we are about 1 million year ahead because we expose the black blanket (oil) from its position due to the plasma. So, that have also effect.

K- Yes, for sure yes. They're going to blame us for it very soon. That's exactly, then they can't blame us, because we already "killed the bird."

Q: It's a sick world, they say.

K- But yes, it is. With the creation of the plasma we change a lot of things. And, in essence, it's what the planet accepts as a change, it's not an enforced change. It's availability of acceptance. (3:18). This is the difference.

Q: Today, tomorrow they have to accept it.

K- It depends how you want to celebrate, and how you want to do. It's like yesterday was "Ash Wednesday." And it's like, you know, after Christmas, you make your wish one thing, you are going to lose weight again this year, and you don't take any more sugar or whatever, or chocolates this year till you lose weight, whatever. That's what Ash Wednesday is. You make your pledge, what you're going to deny yourself, usually people deny meat or fish or whatever. Until the Lent is over in 40 days, and then they eat whatever they like.

But, who brought these things in? And what we accepted to believe in, accepted it to be that way? It's, we can believe anything, but what effects will it have on us? Plasma Technology surely will bring elevation of the Soul. There's something in our scale, on the scale. But what would it do to the planet, which is again, it's interaction with the Soul of itself.

If you think of it, when you made it to the matter state, as a CO_2, you will run into crisis of global warming. When you change the same global warming CO_2 into the Gans of it of CO_2, you brought global loving, because you add to the essence of the emotion of the planet to love more, to live a better life. So it's the same thing, it depends which state of it do you use. (3:20).

If you can freeze it, you can do a lot of other things with it. But at the stage of the Gans state of it, when we convert, we make it available energy to everyone. And that's the difference. It's a very, very small step. In use of the carbon, oxygen, and hydrogen, and creation of love. In plasma technology, you truly can make "love potion," that you can make people to love each other. Because you create fields at the essence of the level of

the strength of the emotion. It doesn't need much, much technology. We can literally serve you. I can make the Gans of that ?? as it says. I made it. I know how it works.

Q: I remember your teaching Mr. Keshe, you said, even you can dictate if you wanted the blonde or blue eyes.

K- Yeah. It is very easy to create these kinds of things. But is the planet ready for it? Is your Soul ready to accept it?

Q: My Soul, yes. But the problem with the physicality and ?? the most.

K- It needs a little bit, you've got to pump it up. But we have to understand what we need it for. And what we're going to do with it.

The .. one of the evolution steps in technology, (3:22). as I said, it's happened in past week, two weeks. And that will bring a lot of changes for humanity. And man will find a lot of answers through this. Initially, I developed this in 2010, and I shelved it, because I thought man is not ready for it. But some 12 - 13 years later in the way we have taught, in the way that Knowledge Seekers some have reached, it became time to release this part of the technology, this part of knowledge. And it is an amazing technology.

When you put the Enhancement Units, the Compact Units on your table, you'll feel the essence of Creation and the love of the Creator. Even our own Knowledge Seekers don't know what they built. They haven't come to realize the potential of what's on the table, literally.

Any other question? (3:24).

Q: .. My intention has all along been to turn all my leverage or assets into means to turn them into love.
K- I believe you …
Q; ..?? and among people.

K- The new technologies has brought us no choice. The development of technology has brought us no choice. We can shelve it, saying that the man does not understand, or we can release it that it brings the man to understand. The second now prevails.

Q: So, what should I do next? Should I still proceed with the project? Or ..

K- Yes, your project has been beautiful. I'm keeping an eye on it. We inform you everything about it.

Q: The trouble is that, it doesn't cash flow for me. I'm still stuck in the matter world of money.

K- We'll create a cash flow. Don't worry when you get it, we'll tell you what to do with it. It will do ..

Q: I mean even with the units for you know, the annual fees. We just don't have the cash flow to cover all that.

K- It will create itself. It creates a surplus, that you don't need to spend, this is the beauty with it. When implemented. We have access to a lot of technologies, which… for (3:26). It's not to spend. It's what you don't spend, is to what brings you as a saving. You don't need to spend to save it, because you're already … The development in technology always now brings us in that position much, much closer.

I reckon in maybe in three to five years time. Most of us the way we do today, will not eat the way we eat, or consume food. It's not that we don't spend, we save, because we don't have the extension to it. And part of this is what I said to Knowledge Seekers very recently, when we offered you the packages on the Keshe Foundation for health, and the food, and the energy which is now sitting in the packages, there you can subscribe to. It's not what you spend, it's what you don't. You save by not spending. A lot of it will not come by spending any more. A lot of it comes that you don't need to spend.

The unit like the Enhancement Plasma Enhancement Unit added to it, can provide a feeding facilities, and the wellness facilities. And it doesn't come by spending more. It's just the addition, which we add for it to become operational for that specific application.

Q: Yeah, cause we are old and we're on Social Security, and we're not making any more money to cover all this.

K- This is the problem. This is actually one of the solutions we see. (3:28). And this is something, which I was discussing with the ambassadors and one of the world leaders very recently, in past few days. Is that, we take over feeding your nation. It doesn't matter you're poverty African nation stricken, we take over. And then the ambassador told me something very, very funny thing. He says, you know, a few weeks ago, we had a celebration in the country, and I had to attend the celebration. And the celebration was that they have given the power supply, distribution and production to a company to start doing and he has started. And then they took us to see what it is. There was two lampposts in the middle of nowhere. That was to celebrate, that we have managed to start. We have given the contract, the country, to a company to start building our power generation distribution, and everything else. We're celebrating the first two lampposts, because we didn't even had that.

And my discussion was with him that, now with this technology, we don't need a lamppost. We can feed the nation. That's where you save, you don't need to spend to come. But with it we want certain assurances, certain ways to do things.

The leap in technology and knowledge is so huge. You are .. many pensioners cannot afford anymore, a lot of things. This year was a mild winter, when it's a harsh winter in

England, we know, tens of thousands die, because they have to choose between the heating or the food. (3:30). Maybe in five years, maybe sooner, maybe in 10 years, nobody needs to make this choice.

Can we allow, our we allowed to use the present system to feed people through wireless the way we started on .. Sunday, and you're testing it next week? Or do we provide the same way the emotion of the warmth that you don't have a choice but… The tricky thing was that now the government allows you to develop this technology to have both heating and the energy, most probably your wellness and what you call it, to cover your old age, whatever condition in one system. Would they cut back on your financial support? They tell you, you're getting 500 dollars a month, financial support pension. Now we are providing you the heat, the food, the energy, which does the Keshe Foundation, it cost them nothing. So we cut your income by two or 300 euros. They won't leave you the 500.

Q: It's just at this point I would have to subsidize my tenants. And I don't have that money.

K- Yeah. In the coming months, there should not be it, with what we have in project with you. And what we see. We have a very tricky position with the new plasma Enhancement Units. And that tricky position we have to be leveraging in a very fine way, not to make your meters to read zero. A lot of people think, I'll have a zero consumption, and we know for fact. We have the knowledge, we have had the knowledge. If we're playing with the fields game of 90% - 80% hybrid, (3:32). we provides 80% through plasma and your electricity provider provides the other 20, and they know they have an income. But with a flick of a switch we can make it 100% plasma production. But we need the supply (of electricity) of the supplier to get into it.

Then a lot of people say, oh, we buy generator. You try to do what you're trying to say. It will not work, because then you have to run a generator, and you have to do this and that. So, we go in the normal present today. What's going to happen, why does the electricity work or a government run power generation for you to be able to produce your power? Okay, we come to a point.

In America, in the reverse power (Reactive energy back) you have to pay, if you produce, or put power back into the grid. In other countries you don't. But what happened, we give you 100% reduction. For us, we have it, we actually built it, we've got the machine, we had it for years. Now we produce this zero power. What is the insurance between you and your government regarding the power supply, which they put all the cables down, all the power stations, the government has to pay and you're not contributing anything to it because you're producing your (own) energy. Governments will allow you, by force in the future, to use the hybrid system, that you produce your energy. But still, they're going to slam you with charges, that they provide you the base. This is not going to change. It's just how fast the government become wise to it.

This is, when you say, we are pensioners we can't afford it. We can give you 100% energy. (3:34). Within one month your electricity Board will cut your electricity off for

sure. You're not using us, you don't need us. Or you go to your electricity Board and say, we need you to produce most of it. But we don't take from you, but how much would you charge us for using your input? What do you think they'll answer you?

Q: That you always have to pay.

K- You walk away from it. Whatever solution we put is an interim. Unless we go through the present system, which we have developed on a, what you call it, the tabletop and then when it comes with the energy food, okay, cut my electricity, I don't need it. Because I have my television to receive plasma, ?? plasma converted to the energy, and the television works. We have the technology, we know how to do it. Once I'm in the house, I can heat and warm myself. And if I wish to boil a cup of water to boil, it will boil. And I receive my energy and food. And the government says, you can't come out of the house because you're using a ?? we are paying for. You're not contributing, you're not paying any taxes for electricity, you're not paying any taxes for the supermarket, which makes profits for us, employment and the rest of it.

We are from, we're just creating an empty gap for a few years, maybe even faster once we go faster. But the government's will catch up. You have to, you want services you have to. There is less hospitals, less doctors. These are the realities we see. And that's why before anybody else does, we have put the schemes up. Okay, we charge you 2,000 Euros for your guarantees security ?? wealth. More or less, you don't need the government, (3:36). you don't ?? need. They don't come to you, they come to us. We want a share of this.

I'm sure. At the end of it, you have to pay us, to pay them. But how much less? And how much gap do you have in this space time gap? You know, what they say, three things are guaranteed, birth, death and taxes. They are going to get you ..

Q: The other thing that bothers me is that wherever I turn, I see them installing devices for tracking people and basically imprisoning us.

K- We gave them the right. You live in Los Angeles. In Los Angeles by the papers you sign apparently, you give the right to the operators to give your location on your mobile phone to the government. That they locate to see how the traffic is, how they can control it. The mobile phones information becomes the control of traffic and a lot of other things.

Q: Yeah, but like every street corner now they have what looks to me like where they're going to monitor who was moving where, when, how and then in every street light, they have weapons.

K- I don't know that's America. In the rest of the world we can't afford these advanced technologies. But don't forget, they say, if you're on the streets anywhere in Beijing within seven minutes the government will find you. So it's not just America. They have tested it. (3:38). If you walk around Beijing within seven minutes you can be located. Face recognition.

R: If you had a lost child wouldn't you want to be able to locate them?

K- It depends, what do we want to accept. You know, years ago going back to the nineteen eighties and nineteen nineties, I used to travel to most remotest strangest places in the world as part of my business. And there used to be a brand, they're still in the airports. I see their shops. We used to have their watches, it's a yellow watch. Very heavy. They used to strap it, there was no way you could cut this watch. And they guaranteed 24 hours rescue wherever you are. You kidnapped, you fell off the cliff, whatever. You paid huge amount of money those days. And we used to have to. I used to hate this thing wearing it. It's a ton on your wrist. But it had a locator, we paid to be located. We literally paid. We're going to unknown lands in different parts of Central Asia for work, or into Africa, we pay to be located. Now we pay for them to locate us, it doesn't matter what we do on the mobile phones. And actually, we pay very less, little compared. We used to pay 35 - 40,000 a year to be able to carry an emergency, use these watches.

And the technology of today locates you, (3:40). otherwise you cannot find your mobile. You want to have a mobile, you want to be reachable. You know when we go into security meetings. We strip, literally strip off everything on our body. In a high level security meetings, we don't even carry out shirts and jackets. And I was with a very high ranking official security man, .. 4 weeks ago. He says, Mehran, you thought you got a way with the trousers off, they planted in me. I said, where? He said, you don't want to know. He said, now, I had to, it's part of my job to be implanted. And the worst thing is, they have a microphone in it, they hear even when I talk.

So, what do we know about, what we know. We get a touch, we get a rash on the skin, then planted something inside you. It's not anymore, what you call it. I have two point of view about these kinds of securities. I love the way the Chinese do it. By creating a massive structure like this. They give the citizens a sense of security and it's tough the criminal to do, because they know they can be found out. Fighting it to stop it, or create a condition that you can never stop. And this is the point of view on the Chinese point. I've seen it, I love to live in China. The security is beyond the imagination, you walk safe, you're safe at any level. (3:42). You go to one of the most cleanest nations on this planet. Everything is monitored. The government doesn't allow people, doesn't create conditions for people to commit a crime. It's not that is totally crimeless country. But everything possible to create conditions for criminals not to operate has been made by the Chinese government.

Q: But don't they have a lot of corruption?

K- Corruption, those who created the corruption on the top have all been executed. President Xi of China, when he came into power 10 years ago. The corruption you hear now, there is, but under the carpet, very much deeper, and you got to be very good to hide it. But if you heard about 10,000 people a year in the first 2 -3 years of his reign, were executed. Half of them were people who took corruptions and everything else. It still

goes on. But China's bribery and corruption now is very much very little. Still there, most probably, we don't see it, but it's gone. The way it used to be, it’s gone.

Q: It's just I don't have the trust, that the system here is benevolent.

K- Never been. That's your imagination. It cannot be. It cannot be. Because by its nature, it creates people like Trump. That's the nature of America. Greed, ruthlessness, anything to possess. American Dream.

Q: You think Biden is any better? (3:44).

K- He's worse, but he knows how to cover it better. They all come from the same school of thoughts. But politically it's how you envisage it, and how you set it. But carrying it out is totally different. You live in a democracy in United States, which is a phantom democracy. The people in China live in a democracy, which is real for them to be free. As long as you don't do anything wrong, you don't interact with the government, and you keep your things so in order, you're there, because you know who's the boss, who’s at the bottom and who is at the top. In the West, we don't have this. I think one of the bearable most convenient nations to live in is in China, at this moment of time. Will they change in the future? Man will see. But they go for facilitating, than preventing, because facilitating brings the prevention.

Q: What we hear here is that they kill the leaders.

K- You mean in the US or in China?

Q: In China.

K- Oh, you don't want to know what we hear in China about the Americans. Do you believe it? There is a tradition, and there is a way, life is respected in China. That's why you have so many old people. What they make you to believe is not what it is, (3:46). and not all of it.

Q: Okay, one last question. I will not have much more money to invest in the next advances of the Keshe Foundation. So, what do I do?

K- From the saving you will have. The problem is, we, as I said, not a problem. With the development of the new technologies and where it sits. You’ve got to realize something very, very straightforward. What we explained and we get Knowledge Seekers to develop, like past two weeks, is already be planned over a year, two or three years ago. Because we started teaching the seed of it to them before. And we could see we are coming to that point about a month, two months ago. And after the financial problem we had with what is going on now with the police and the rest of it. This will not divert our work from where we are planning to go. And we have already moved a step up to negotiate with the governments.

The negotiation with the government is very simple. We give you the technology, which makes it accessible, and makes it profitable for you not to spend. And it's now we are in negotiation with seven, eight governments, at the highest level with world leaders. And once one catches on, we see the same thing, as what we saw with the distribution of the technology through the "Key," when we gave the technology in exchange for peace. (3:48). This will go very rapidly, maybe in next two years. Then you will see the benefits of it. We are talking to, we are setting plans for these things. We are working towards it, it is not something we're going to do. We are already part of different negotiations with different things.

And I foresee that a lot of things cannot be done, we don't have the infrastructure to mass produce these things. We already have started negotiating with major corporations in the world. On the direct negotiation. Philips International Holland, is in direct negotiate. I come from it, I'm proud to be working with them. In negotiation with the medical application of the Keshe Foundation. We have opened channel. We cannot do it. But the cooperation with Philips International, which our bloodline comes from it, my father being one of the directors, I trust the company directly. And we have started negotiation. The medical application will go to Philips International directly. For us to set up a factory, infrastructure takes years. Philips I know how they work, it will take months.

So we are taking these shortcuts. With the energy production the same. Corporations we are talking to, direct to go in. The health application is more or less matured. And it needs to be done. And if you're going to do 10 cases here, 5 cases there, no. Philips will be embedded it in every hospital around the world within a year, two years. So, we are taking steps through that. We are going to the world. Because the technology is not mature. It's just the final touches of it. Because I know when it's mature. (3:50).

Then we'll bring implication to governments. The transmutation it's weeks away. Then how we're going to stop all the Africans not to go to New York? And all the people in Washington run away, because all the Mexicans are in Washington? This brings new application, but the government's have become wise to it, they have to become wise.

And part of the 24th of March is the beginning of new year and beginning of a new life for world leaders. I work 20 hours a day and everything is planned years ahead. So how will the technology come to you in next few months? Would we be able, would you be able to invite your leaders, your mayors, your presidents or whatever, to listen to the teaching, or to the what we call, 24th meeting?

The what you call, the Blueprint Day, the 13th Blueprint Day has already been seen by four or five of the most powerful world leaders. I personally sent them. They confirmed they received, they're watching it. They don't know what to do with it.

Q: How do I convince my 80 year old husband, that I'm not throwing money away, and the tax accountant?

K- When he sees that he doesn't have to pay to your tenants to have electricity, very simple. The units which we have put out that are with us, they're going through the certification, we have to certify them. (3:52). We were self-certifying, which is CE standard, we can do. But we decided to be on the safe side we get it outside certified. I think we'll take another two weeks, three weeks, and then will be released.

It's not getting the units out, it's certification of the units. Because if we self-certified we can do it straightaway. But we saw characteristics, we saw things which we decided, for this going international has to be outside certified. So we did it with the MaGravs, the first time we released the MaGravs in Italy. We got them certified, what you call it, tested certification by European standard. We decided to do the same with the plasma units with the what you call it, Compact Units. They'll be certified as an outside certification, we need to do it. Otherwise, you saw the units, the units were shown on the 13th, they're all sitting there. It's mainly to protect the Foundation from the future, what you call it, claims and mishaps.

Q: So, would my tenants need to pay their 1,000 dollars a year for their health care?

K- If they want to be part of, yes. In April, those of you who signed into the insurance policies of the Keshe Foundation, what I call, plasma policies of it, for different application. You will be given invitation to go through the Enhancement Units by the doctors for certification, that we have brought everything to a level. And then again six months later, you'll be given another time to attend. Twice a year you have to go through the system. (3:54). It's to our benefit to do it. Because if we see it during the process, you tell us you have seen this in your body, or that in your body, you have felt this and that. We'll take you back on the process to understand through our doctors what has happened, what it needs to be done. That in six months time doesn't become a bigger problem, and two years down the line.

Part of this process of the policies we put out is to, as we say, "nip the bud at the source." And it'll go back to our doctors. If we're in the process of testing, what you call, checking out whatever it is, if our doctors see anything abnormality you're asked to stay on with the system maybe a week, two weeks, three weeks, five weeks, till we see that it's done. It's not that you just come in and go. The screening especially the first year, is for prevention from the future problems. If we see it, automatically you'll be requested to stay on. And if you refuse to stay we cancel the policy.

Q: Are we going to have a veterinarian on call too?

K- Yes, they have a Soul. But we don't know if it feels good or bad. I know you love your dog, but everything is the same.

Q: Yeah, because we had more seizures again. Yesterday, we had five seizures.

K- You have to handle that one. (3:56). Anyway, we are learning, we are adding, and we are developing further and further. And we have come out of that infancy for 20 years

with all the problems we had. And now we are on the track to go with the way we wanted. Building factories on our own and these things would have taken a long time. We had the research centers, we give the distribution and production to major corporations. We have started with 3 corporations already. Philips International will definitely, and the Keshe Foundation Wellness Center. Unless they changed their policy, we are their. To me is a home, and we have to see what's next step with the development.

Q: Okay, another question with these units.
K- You're getting worse than Jalal.

Q: I've been saving it up. I've been asking everybody in all the various meetings and they I don't get the right answers. I have to come to the horse to hear it from the horses mouth.

K- As president Nixon said, the buck stops here, doesn't go any further. Okay.

Q: So with these, you said these units that are coming are 10 kilowatt? I thought I bought two kilowatt.

K- The power of this system goes to demand and what your house allows it, it allows it.

Q: So we cannot put too much of a load on it.

K- Your fuse box will blow up, not us. Your standard application will not allow you to go further than what is legally allowed. (3:58). And stay within the limit. Don't forget, these are hybrid plasma. So they go to the demand. But you have a process with your supplier contractor and your wiring in the house.

Q: Yeah, I thought the units I bought was pre-hybrid?

K- Yes, but now you get the hybrid. We don't just tell you, you gave us something else. You get what is coming in.

Q: Okay, wonderful. Thank you. So I don't need to plan go in an extra diet that I have enough money for the next technology?

K- Don’t forget, with the new units coming with the hybrid is 120 or 150 euro per annum, fee for 20 years. You will be set back. Yeah. But let's see what comes…

Q: That’s the problem for me.

K- You'll save enough from your tenants, don't worry. The biggest saving for you American comes during the summertime. You like to run your AC’s at the full blast. But this time you don’t pay for it.

Q: I have tenants who will suffer the heat because they don't have the money.

K- Now they should have the money, with this technology they should have. If we come to an agreement, this is something which we have… We have to be very careful when we hit this on the head. In a way if we come to an agreement, the power generators, with the governments to the power generators that they supply a basic background supply down the road, as before. But the people will pay a fee like a car fee. You know, you pay taxes on your cars. Then it doesn't matter how much you use. Meter goes out of the window. (4:00).

Q: Yeah, but when I sent you the summary of the costs on my units, there are meters that I have like 500 or 600 dollars a year. And then if we tack on 120 or 150 for the service fee…

K- Yeah. But if you pay only 100 dollars for the electricity out of 500 or 600. Do you understand?

Q: Yeah. Well, you are saying up to 50%. 50%, is 250 dollars savings.

K- But watch when it comes in. It starts around about 50, but it builds to about 70 - 80% plus. We are monitoring it very closely, we have to monitor it. If I make it zero, you have no power. This is a very delicate position we sit on, and we have started negotiation with the governments, and we are doing it in different continents, that cannot be influenced. And that is, let's . The advantage with this hybrid system is huge, going outside the apartment you have.

The advantage is, there is a feedback into the system plus the usage system. The plasma has a double edge. If .. we can reduce the electricity to zero, but negotiate in advance with the government. It'll be done in area by area. The nation does not need to pay 30 billion to build a nuclear power station to spend another 150 billion, (4:02). in next 10 - 40 - 50 years to demolish it. So, the government instead of building five nuclear power stations, which is now on the card, because the natural resources are getting filled up. The government can build one nuclear power station, maybe a what I call, normal fuel power stations to provide a basic grid. And save billions for the nation. So, if you're going to spend 150 billion to pay for the present time to build five nuclear power stations, now you spend 30 billion. You save 120 billion. That has to go to the nation. You're not spending it. But you have an income from it. It’s how we put the case from now on to the governments.

We are preparing to negotiate with Ukrainian government director, because of the electric shortages, that will give them a security of supply by their own application. But once we open that in Ukraine, what would the rest of the European nations, want the same. We have to sell the technology as a package. Now it’s fully commercialized, we can show it.

And it has to be accepted. Because there are huge energy lobbyists that they don't want this to come out. It's how you handle it, how you bring it. And sitting at the head of the Keshe Foundation is the juggling I do day and night. I deal with Knowledge Seekers, for a Gans, a bottle of the GANS they have, (4:04). negotiate with Knowledge Seekers who

helped us and we lost money, we have to sort something out for them, sort out the development of the technology, negotiate with the governments and everything else. I work 20 hours a day.

But the finest point comes, if we give it to the Ukrainians, the British want it, the Americans want it. So, we have to come to a common sense knowledge to teach it the way we do publicly, that everybody makes their own system. Then you don't need for years and years to ?? fight, every city will have 100 people, 100 groups that make the systems for everyone and becomes applicable immediately.

How we run this in next two years, it will become crucial. I'll be assassinated its' 99% is on the cards. But we have to see how we can get, then becomes application of the pharmaceutical, then become application that you don't need food. How you're going to get these agriculture's, these farmers for thousands of years cultivated, that we don't need it.

The impact of what is to come, we are very softly testing with you on Sunday, and this and that, but it's huge. How can I tell the? You see the African nations will jump on this very quickly, because they want to feed their nation. Americans want to stop it, because they can't flood Africa with cheap rice's and control the diplomacy. And the Chinese have a different agenda. I have a battle with the Iranian governments on the other side with their religion. It's not easy taking my chair. Please come, anybody and sit. You sit there and you see. (4:06). But we are born diplomats, we are born negotiators.

It took me two, three years to convince the British government in Downing Street that it can make billions. They wouldn't accept it. When I started making, they said, oh Mr. Keshe you're making too much. We have to be part of it, we can do it ourselves. I said, you do it. No problem. I've dealt with these diplomats and politicians for years and I've learned how to deal with them. I always play as a fool, but I know exactly where I'm taking them as a clown. Exactly where they have to be. But the clown at the end of it turns out to be them, not us.

But at this moment of time, especially now we've shown the energy, and then comes implication of delivery it, which is coming to delivery. Then you have the agriculture. I'm traveling to China. Chinese are expecting something else, and there's something else on the table that is going to blow their mind out. What is going to be in the next step? What are we going to do with Russia? What are we going to do with United States? We have a huge base in Brazil and Mexico. Are they going to wait till all the houses in America have all the units and everything? Or do we go universal application as we teach, but the Foundation is kept in its position internationally.

The biggest problem comes in next few months. Transmutation is going to bring a huge problem for governments, passports become irrelevant. You're worried about a little energy with your tenants. I have a headache how I am going to sell to governments ??.

You know, (4:08). our first transmuter is American. And last week, or the week before, I told him, you move, I'm not telling you what to do. And he's listening. He's one of our beautiful Knowledge Seekers. He said, I was there, but I wasn't sure I'm there, I had to open my eyes to see if I'm still in US or I'm in Austria. It's so real. It's so complete. We just need to give it the physicality. And it's done.

Q: In the meantime…

K- There's no meantime, the moment we are in it. The meantime for Keshe Foundation is over.

Q: Like, they are now doing all these mRNA developments, including with animal vaccines, and I think my dog's problems, probably started with vaccinations. And they're required by law. What do I do? Do I comply?

K- I don't know. I have a very clear mind, because I've seen the damage of vaccination on my children. And I don't agree with them. But you have to see which part of the vaccination, and what is the risk factor. I will not allow my children have to have certain vaccines the way they set it out, because I know what the problem is. But I don't see why children cannot be vaccinated from the ones we know which are safe, it's done with them, we see no side effect with them, nothing with it. There are two or three vaccines which are causing the problem.

I was talking to Mario yesterday in the Exhibition Center, he said, you know, Mr. Keshe, there are people who are still doing Covid vaccinations. I said, what? Aren't they finished? No, no, there are people that are doing. Are there actually foolish people who are actually doing the Covid vaccinations still? (4:10).

Q: Yes. Especially in the United States. And they even make you pay for them now. People still go there.

K- God help them. But we know what we do, what we have to do. If we know the risks, we can avoid them, but the ones which are safe, is for our children. I know a guy called Peter in Belgium, they took him to the parliament, to in the court to say he's mentally demented, because he opposes the 3 "M" injection, three injections mix together.

Q: Right, and then they may want to lock you up in a mental facility and medicate you.

K- Yeah. Where we showed the Iranian flight system for the first time was in his center. He had battles years with the Belgians, because he said these injections have these side-effects and we've seen it. We see today. How many autistic children we have, how many children we have in different mental conditions. Report to Senate, confirms it. They know it. And they said they knew it. But who took the bribe? Who took the bribe?

I was told by our Iranian team two or three weeks ago, how we run into problem in the National Defense University with the guy who was appointed. Apparently he was well

bribed, and he had done this to other people, and now he's on the investigation. (4:12). But at the time, if that guy wouldn't have done what he did, millions of Iranians would have been saved and the technology wouldn't have gone the way it went, because it showed 100% correction in National Defense University. Humans.

Q: So we have to plod along as we have …

K- Listen if we have everything. We've got to plod along, because we can't commit suicide to change this life. So, the worst thing is, I have a very bad news for you. When we get all the energy sorted, and all the wellness sorted, and all the food sorted, that you don't get any contaminated food directly from the system and everything else. The worst news is, you're going to live another 200 years. So plodding is going to carry on even longer. You understand? So, we better become good plodders. Thank you very much.

Rick, shall we call it the day? We've gone long enough for today.

R: Yes, sure Mr. Keshe.

K- Thank you very much, and we see you next time. Those of you who been with us on Sunday for the .. "Dining with the Creator," please make sure you're in every day between four and seven. And remember, please write down whatever you felt, you tasted, you ate, and how you behaved emotionally towards yourself. How you slept, how you behave towards others, what other people around you tell you about your behavior, your emotional behavior. And we are not looking for you to go on a diet, or you don't feel good, because we feed the Soul. (4:14). Maybe the first week you need to extend your Soul in whatever emotions side, and everything else. And please don't stay on the line more than half an hour. We are monitoring it, because we don't think it should be more than half an hour. Unless you're, what you call it, obese and you want to sit for 3 hours to eat.

Those of you who are with us with the, what you call it, the Compact Unit, please make sure you place your orders, get them paid. Because we keep receiving orders, we have to know exactly where we're going to do it. If our negotiation with the governments and everything else pushes forward. And the what you call, we will most probably have a new Blueprint Days in next couple of weeks, because we have some new interesting things to market and to show you this next step in technology. Thank you very much. And hopefully we'll see you next week.

R: I think that brings to an end or 474th Knowledge Seekers Workshop here on Thursday, February 23, 2023. Our next public teaching workshop will be the One Nation, One Planet, One Race for world peace and justice. And that comes up following Tuesday the 28th of February. And that starts at the 4pm Central European Time.

K- I've just been send a message from our team to remind you that, those of you who bought the plasma mirrors, (4:16). we told you will be ready by March. They are finished and they will be delivered next week. So expect you all mirrors to be delivered

to you next week. And then in the teachings we'll tell you how to use it. Because it is prepared about month earlier than we thought. We call, them the "advanced version plasma field mirrors." It's not a flat one, it's the one that ?? have much more effect, powerful effect than the others. So, you'll be receiving them and let us know when you receive them, please.

Q: One last question about the meeting next week. Jefferson asks, is at 4am or 4pm?

K- 4 to 7pm, Central European Time.

R: And you recommend half hour per day, or for the week for somebody?

K- Per day, per day. .. Otherwise you will be very fat, if you eat there more than half an hour.

474 KSW Feb 23, 2023

END

475th Knowledge Seekers Workshop March 2, 2023

ENGLISH TRANSCRIPTION

(:12).

K- Hello good morning, good day to you as usual. Wherever and whenever you listen to this series of Knowledge Seekers on the Keshe Foundation Spaceship Institute. As we are sharing knowledge, we gain more knowledge and more confidence to understand the process of Creation, and how we are created, and how we survive, and how we choose to survive. And how our Soul decides the position of life on Earth in the shape of the body of the man, on another position in the shape of god knows, a fly, and aliens the man cannot even imagine exists, or as a speck of dust, or atom of water. (:14).

Going through the teaching of past few weeks, as we start speaking about Cosmic Rays (CR), we have opened new doors in the knowledge of man. And in that process, in the past two or three weeks, especially bringing into play the carbon 14 (C14), a lot of you are wondering, baffled, want to know, try different things, and in a way, trying to connect the dots to see where the shape of the body of the man, as the essence of physicality (P) and the Soul comes, and how it is, and the way it is.

Last week, we spoke about the C14 and how this little chap plays a vital role in the life of the man. And in that process, what it can and it does, and how it works. Today, I will unravel to you to secret of the life, conversion of the energy of the cosmos, into an energy of man, into the structure of the man. And how man unknowingly, makes connection with this, and taps into the Universal energy without knowing. And our scientists, our human being scientists never understood this.

Unraveling the connection between the C14 and C12 and what we talked about, the structure of the calcium in the body of the man with the eye, (:16). is the cornerstone of life of the man on this planet. Man would not exist, animals would not exist, minerals would not exist, if mankind does not understand the seeding center of every life. On Earth due to its gravitational magnetic (GM) ?? fault (field), the seeding site is calcium. Without it, there is no structure even the animal, which has no skeleton, even a plant which has nothing to grow, but as a smallest leave, a smallest green dot you see on the ground.

Last week, I explained in a very simple way, how C14 comes in from cosmos as a fields, and then in the body of the Man converts it into C12, and then it leaves the body of the Man in different shapes or forms, and energies again as C14. This C14 entry and exit are not the same, they are of the different strengths, different information of energies, which they lost some of it here (on entry), but they gained something else from the body of the Man conversion of the blood system (when exiting).

So what your blood did, bringing the blood circulation around, delivers what it doesn't need and calcium (means- C)14 leaves, carries it out with, a "piggy back" job. (:18). But the biggest point, which the world of science of the man have not understood up today. For the first time, I open this door, even why you drink water, why your life is connected to water. Water is not something to drink as a thirst. Water is the connection conversion of C14 to C12 for energy difference, for life of the man.

You have H2O, 16 needs to lose 2 energy atomic structure to become 14. Behaving like a carbon, that allows the Universal energy to be absorbed by the man's body. Water is not just a thirst, water is the essence of the conversion of the fields of the Universe (U) to the body of the man. That's what your body contains it. But it cannot do it. It converts it. It's there to do. It's there for it to convert it, because of the vacuum condition of the body of the Man, allows that conversion. But how do you plant it? How do you deliver it? The secret sits in that calcium. Calcium has a spectrum from around about 30 - 32 energetic wise, to round about 60, and above.

You have in a simple language, C12 and C14. (:20). Three times carbon 12 is 36. Three times carbon 14 is 42. Conversion of calcium (Ca) in the body of the Man, comes from this, absorption of the C14 energy to C12, comes from this. But man has missed the biggest secrets in his life in understanding.

Go back on the teachings. Many times in the medical teachings, many times we referred to there is not a single cell in the body of the Man, which does not contain calcium. Why? Now we understand. The way your body, your brain took direct hit from the Cosmic Ray 14, absorbed and released whatever it didn't need every Soul of the man Cosmic rays directly from conversion of the calcium in the seed. The seed calcium in every cell of the man is its soul, is its structure of the absorption of it. Without it the cell does not exist, because it could not receive the C14 conversion, so it dies. So it dissolves. It releases energy.

This is how the cells of the body of the Man every 28 days in one place and every 10 years, or 4 years changes in other parts of the body of the man. If the world of science understands this, if the science of the man understands the conversion point from the Cosmic Rays into what we call energy connection, (:22). then man understands he has found the key to everlasting life.

Don't forget the body of the man, is Mr. COHN, lives by communication between carbon 14 and carbon 12. By the link to the Universe and the body of the Man. Now you understand what I keep on telling you, 80% of your energy comes from the Universe, not by the food you eat. Every cell in your body is not waiting for the energy to come from the food 20%, for dimension (D) of physicality have, to confirm yes. The rest of it through the seed of the calcium, receiving the Cosmic rays and in a conversion of H2O to C14 conversion to 12, to release its energy to exist, man exists on this planet.

I take the calcium from the seed of your cell, you don't exist. This is why so many of you die with chemotherapy. Because the chemotherapy is very simple, your bone has holes, which goes into and becomes bone marrow. Chemotherapy increases the size of the lymph, and blocks the hole. So, there is no calcium to be picked up to deliver to start another cycle. Then, in what strength of which calcium, you release from which hole into the bone marrow, dictates the term of your life. A cell for a heart, a cell for brain, a cell for anything else. (:24).

Now, man understand that the Cosmic rays and the C14 coming on the back of the hydrogen (H), into the center body calcium of the man releases a carbon 12 energy. Energy absorbed by the calcium released to the cell of the man, and man needs the other connection to deliver instantaneously. You have H2O again delivering C14. If the Cosmic rays are blocked by the system.

This is why it feels so fresh when you drink a glass of water. And this is why, the reason you die when you have no water. You have no point of conversion. You cannot deliver the energy needed in a C14 structure to the calcium for it to be able to feed the star of it, to feed to convert energy into the cell for it to survive.

This is the essence of the secret of the life on this planet. And this process repeats itself across the Universe. It's literally like you're a farmer. You grow the carrots, you grow the potatoes. Maybe you have a cow, maybe you have a pig, you get the milk and the meat. But you need other things to cook. You go to the supermarket, you go to the market, you buy other things. The guy sells onion, and other things, and other things to bring in. That H2O is that onion, because the body has got everything in the house from itself, (:26). from the planet Earth.

And if man understand this, and provides that H within the structure of the oxygen (O), as an absorbent, not as an energy releaser, then the secret of life for men across the Universe is guaranteed.

This is why we ran a week of feeding you. Those of you who joined us last Sunday, two weeks, or 10 days ago, this week you've been eating on the "table of the Creator." But you haven't understood that. You came oh, as Azar writes, "I smelled a kebab, and I smelled this, and I smelled that," but I didn't get the energy. Because you came for the odor, you didn't come for the essence of the Creation. Many of you still eating. You haven't understood how to handle the table of the Creation.

Next week, as I said, again, from Monday to Friday, we open the "table of the Creator" to dine with him. But this time you bring your food, and then you see what you gain. You came to take, and you walked with nothing. You're still starving, and you still eat. You come and bring the sincerity, the combination of the fields of the Creation, you'll receive the food of life from the Creator.

You came to steal, we're going to eat, what I am going to feel. You didn't come to feed, what I'm going to give. And I set the trap for you. In the system, we put everything possible, (:28). from rice to meat, to fruits, flowers, that you feel romantic, a red rose leaf. But you all came to take. Even the water you drink is there to give. If you understand the structure of life on this planet. If you understand the process of the absorption of the energies of the cosmos, then you understand you can create anything, because on absorption and conversion some of these become potassium. Some of these become phosphor and sulfur, and everything else.

The essence of the conversion and Creation in interaction with a fields of the body of the man, feeding itself with C14 in the essence of the water, becomes in interaction with that field rays of the interaction, the elements which the man needs as a plasma to survive.

Now you understand how simple the process of the Creation in the U is, if we understand the true essence of it. And our doctors, and our nutritionists have got no clue. The lady writes to me, we're opening a Gans company in Shanghai, China. Open a hundred, it means haven't understood with release of one knowledge in the next few weeks to the Chinese government, will feed the nation without a single food on the table. 1.4 billion is nothing multiplied by 1.4 billion order of magnitude. (:30).

When you understand the secret of Creation, you give enough fields that it creates a warmth, and heat, and you can swim in the depth of the ices of the oceans of the Universe, you'll still survive.

Now you understand where the technology is going, where the new system built works on that conversion. Now, if the world scientists understand this, none of you should have cancer within one second. If the world scientists understand how this creates, in interaction with only cells of the brain of the Man, there shall be no depression, no MS, no Alzheimer's, and nothing else. Because each interaction with the structure of the calcium and the Cosmic ray, which comes to the brain of the man, to the head of the man, will convert to the fields of the emotion, which the ?? creator fields, as the man does.

Now you understand, why we start teaching you about Cosmic Rays, why you start teaching about the knowledge of the C14. Now, you understand we don't exist even in the physicality of the Man, if you do not understand how carbon 14 as the energy of the plasma, in piggybacking the hydrogen of the Universe delivers its energies, gives the reference point, to every point of Creation, for the life to exist in that point, time position. "I make man in the image of Myself," (:32). even the Creator has a seed of Creation for itself.

Now, if you understood this, if you understand what has been said in past 20 minutes, you'd throw all the chemistry books, all the medical books into the rivers of the lack of knowledge of the man for past centuries. It will take man thousands of years to unravel this secret. Even so simple, I have put in on the board. Now you understand why when you die, your skeleton remains, stays behind.

The stability of C48, and the stability of the Ca48 dictates the life. Not all your bones stays behind, part of the bone calcium, which is in 36 and 60 will disappear. Why calcium runs to isotopes of around 60? Go to the chemistry books and read it. Because 60 - 65, then it can deliver it directly energy to iron, to zinc, to copper, which is the essence of life of the creation of the man.

Now you understand why you have calcium within every cell body of the man, be it the muscle, be it the brain, be it the blood. .. Ca40 in conjunction with C14 is the distributor of, converter of energy of the Universe in the body of the man, (:34). within its own small Universe. God is Creator of all, and man converter of some, even converts some of the rays of the Creator within it, to survive as the life of the man in itself. I am the Creator of my own, as I have created to be the Creator of.

Now, man understands this. When you see another being in the Universe, you look at it, what section, what combination of the C14 in the plasma condition, not atomic with neutrons and electrons in it, but as an energy pack, this creature converts. And it cannot hold on, it gives something out. It cannot take something from the energy it doesn't need without killing it? Then man understands the emotion. Then man sees different lights, emitting from the body. "Oh, I need the red one and a pink one, because this goes with the Ca in my body conversion, into what I need to convert to survive."

Now you understand you do not need to kill. Now you understand what's all this teaching is coming from, and where it's going to. I didn't come here to teach you about MaGravs, you're so naive. I didn't come here to teach you about Gans's. But it was the only way we could show the power of the Creation, the essence of Creation. And how you can tap into it. (:36). "Fountain of the youth" is a dream of the man, which has no ?? to understand the structure of life, as it's always young, and it always shall live.

Now you've got to understand. Now, as I always say, you have no choice. Get your scientists to understand this process, you change the direction of the life of the man on this planet. Throw away all your medical books, and your chemistry books, and your physics books. Because it's nothing but nonsense. You still cannot cure a simple cancer, you still cannot heal a simple cut. You have to wait for the destiny of the time of the body, if it receives enough. The knowledge of the man is even less, than the knowledge of a creature, which can create its own tail.

Now you are proud, you're the king of the Creation. You're the king of the stupidity of not understanding the knowledge of the Creator. That's all. And that's on the individual's, because when we come arrogant to it, we lose the sight, and this is what has kept the man from the sight. Understanding the conversion, the process of the conversion of the fields of the Universe, which comes from the Creator into the body of the man. (:38).

You made all these chemicals, pharmaceuticals, "pharm suited" for stupidity, not for curing the man. Even in the systems we are developing for you is for our people, and you to understand, and gain trust to move to the next step. But we make it available at the strength of the Soul of the Man (STM).

Now, you understand how in a very simple way, in a very childish way, I have brought you to understand the process of the Creation, the process of the conversion of the Creation into the physicality of the man. Mitra, blesses her name, brought this knowledge, but man ignored. If you combine the right way the Ca with the Cosmic rays, you get the "love of Creator." The emotion of love comes from this process. Comes from this conversion. And the waters of this planet has the right combination to nourish what you call, the love of man. (:40).

Now even you understand why the Creator fell in love with Mitra, and Mitra with Earth. And through the love from each other, and let the release of the knowledge of the Creation. Otherwise, not only man, but the Universe would have lived in the dimension of ignorance. Understand this process in true essence of the creation and conversion of the Universal fields, then you have access to Unicose. Be ignorant of it, you die of cancer, and everything else on this planet.

The smallest fields in the Universe will disassemble the plasma of the body of the man. Now you understand how much knowledge is still to give you, but I still humble enough to walk amongst you as a man, with all the pitfalls of existence.

Understanding of the Totality of the Creation is the job of the man. It's the job of the STM, as the body of the man is fragile. You move out of the gravitational magnetic field of this planet, you cannot even absorb, you have not been taught how to absorb the dimension of the fields of the Universe. (:42). We starve you from oxygen, even while you are in the pool of it, as water, you die. Even though it carries oxygen, which you need. Because your cells, your emotion, your fields in the brain of the man has not learned about the Cosmic rays within the water itself to use it, as an absorber of energy and survive within the water.

You do not need ?? new, you need to understand the emotion of conversion in the brain of the man, then you survive in any position in the Universe. Depths of the oceans, to the highest mountains, coldest places in the Universe. Because you learn through your Soul, and the STP within you, how to convert the energies. When you depart from the position of the STM and you carry that STP energy within you in the Universe. Now, this becomes your calcium to feed within the structure of the plasma of the STM. Where in the dimension of physicality, you are outside in dimension and the Soul was ?? inside itself. Feeding you from inside in every cell of the calcium connection and dimension.

Now you can see how this "skin of the sheep" turns inside out. And both has a purpose. Now mankind has no choice, but come to the point of what we call, (:44). peace. Peace within itself, and then peace with the rest of the Creation and the Creator.

In so many ways, if the world of science of man understands the teaching of today, man has opened a new gate to the world of understanding and life in the Universe. Maybe, maybe one day, if man matures enough, I'll explain the life in the Universe and in the Unicose. Because the process in the Unicose on the gravitational magnetic fields of the Creation and life, is connected directly to the Soul of the Creator.

At the moment as a man the fields you receive, is regurgitated and chewed by so many before me, before it became the body of the man's ??. Your body is not second hand, and third hand fields of the Creator, it's chewed up to the infinity of the billions. Physicality of the man is nothing but leftovers, of the leftovers of many generations of Creation. And still you're so arrogant.

Understanding the Creation, (:46). transportation of the energy fields. The load on the energy fields is the secret of survival in every dimension of the Creation. Be it on the planet, Solar System, and Galaxy, Universe, or in the Unicose. Then, you have access to the Soul of the Creator, if you can create yourself through your own structure, the Creation of life.

In a simple language, step by step I have unraveled this to the scientists of the Keshe Foundation. And they are in the process of the development of the creation and conversion, from the Soul of the Creator, to the STM, to the dimension of physicality of the man.

Today, we have hundreds of thousands of people starving, cold, with a small earthquake in a part of Turkey, Syria and the rest. If their leaders accept the knowledge of the man we'll feed the totality within a wish. But man has to come to peace, not the border that one side starves, and the other border is with supplies. What's the difference between the blood on the imaginary line of the man? You're immature, we'll let you die with it. (:48).

If you understand, every knowledge is a gift. It's the one who receives the gift, how he uses it. It's a knife which cuts on both sides. I used to have a friend in our organization. And I've said that many times before, he refused to buy a knife to be sold in our stores. I said to him, "Nat" why? One day somebody bought a knife in one of our shops and went and killed someone. I don't want to be involved in it. I said, what about the knife the mother buys and feeds that child to survive. It's you who has to understand, which way, which side of the knife cuts, to what purpose. As long as the man kills, he shall not receive it. The life, the emotion of the man should be knife of the love, that it cuts and it gives. The mother the way she cuts the fruit with love and care, that the child receive the best part of the fruit, has to be the essence of the creation of the man.

If you understand the totality of the conversion, then every radiation which man has not, and cannot even imagine today, will be open to mankind. You don't carry love in your hand. You release it as a field, as a radiation of love. (:50). Then mankind has to understand even in his skull, if you open the skull. If the scientist of the man go deep into and expand his skull, you will find different structures of the calcium, which each one connected to absorb certain field strengths, and radiate certain fields inside.

When you hold the skull of the man in your hand, you carry the biggest converter of the energies of the Universe, but man has never understood it. When you die some of these, because there is no use, disappears. The only structure which leaves behind for man is Ca40, maybe Ca41. In some cases, you carry Ca46. That Ca46 should have given man the knowledge of the Cosmic rays, but he never understood.

When you carry Ca46 in the bone structure of the man, you have C14 and C12. You came in with 42 and 48. Reduction to absorption to release energy. Man has not even understood. "Oh, his bones is left behind. There was a man here." (:52). Look into the structure of that bone, and you'll understand the history of the Creation in the Universe. But at the level of the field of this planet.

Man scientists has been too busy cheating each other and the others, as they never understood. Understanding the process of the Creation. Understanding the limitation of the knowledge has created a mayhem for the man, has created many prophets, magicians. Be it from Moses to a chemist, the biologist and the professors. Yesterday I was talking to one of the leading ambassadors in the world, very powerful man. He said, Mehran, we have a problem with the president. I said, what's the problem? He said, you know, this technology, which we are discussing regarding this and that. He said, we brought top three scientists, professors from the university. And they all three rejected it. We sat down with them and say, why? What is the reason you're rejecting this? Nothing to do with the Keshe Foundation technology, it's another field. They said, if we accept this, we

have to throw our books into the rivers. How am I going to be a professor? I said, tell the president who is the thief of the nation.

Chinese government leadership president Xi, knows this, that the reason the country cannot move forward, and he still has to steal from the others, (:54). is the scientists of his own, who blocking the knowledge to be transferred to the scientists, the new generation. We saw China put those who did all the briberies into the hanging section. They hung 50 - 60,000 , those who took the bribe in past five or ten years. Through this it to stop the bribery. Soon we'll see the Chinese government will put these scientists, the lead scientists into prisons. For stealing, allowing the nation to go forward with the technologies.

It's not that China doesn't have scientists. China has the best scientists. But these thieves in the name of professors, and the lead scientists stop it, because then their papers worth nothing, because they're 40 years old. It's the same with the rest of the man structure of life. It is not that you don't understand. It's that those who call themselves professors, and the priests, and hte prophets, they're all thieves in their own shape or form, for them to have a value to their meager brain of themselves.

What's on the table. What we taught today, what we taught you last week, and in the past weeks, in how even your Soul receives energies in that conversion, should put, should create a new seed of understanding in all your Souls and physicality's.

At the moment, the human race is not controlled by the banks, (:56). it's controlled by ignorance of the scientist, professors and the university professors who have no knowledge except cheating to get to that point. Half of their thesis's is stolen from other scientists. We are in the same situation in the world of politics. Who and how they have attached religions to every parliament, and senate, and everything else, that they have a say, that they can control the cheating of the church, the mosque and the rest into it. Thieves of scientists, and thieves of the STM working together. How can man progress?

You have the knowledge, you have to decipher. Not me, and nobody else. You decipher it according to your intelligence, you decipher it according to what you want from that intelligence. And you create the new dimension of science. Science of understanding the sense into the interaction of the fields of the Universe, and nothing else. Science means making sense, and nothing else. But it has to make sense according to the world of the Creation, not to the cheat of the scientists of the past and the present, protecting a piece of paper.

When my degree came from Queen Mary College, it came in a toilet roll. I refused to go to graduation. I opened it, I saw it was set a certificate of degree. I took it, and I stuck it under the toilet roll in the bathroom. My mom came and said, what is this hanging there. I said, that's my degree. (:58). She said, are you stupid? I said, mom has no value, it's a man's value. That's all it worth. If I don't carry the intelligence and knowledge. It's just a piece of paper, and it's worth nothing more than the toilet paper. If the man does not carry

the knowledge within it. And the knowledge to give the correct way, and to accept the dimension, the process of ?? in the same way.

I understood what's on this board 60 years ago. I created the first reactors 25 years ago, 20 years ago, on the same basis. And it works. But I have to do things for man not call me a magician. Understand the process. Understand the process of the Creation, understand the process the Creator is transferring is now His energy to you to understand the process. Then you can use this to every advantage of the mankind.

Take from it, become gravitational (G). Give to it, and become magnetical (M). Isn't it the way I taught you how to make your MaGravs? (1:00). The knowledge is the same. It should not make a difference. The degree came in a toilet roll and it went where it fitted, under a toilet roll, cardboard box rolled exactly like a center tube of a toilet roll. And I gave it to my mom and said, mom, it came in the toilet roll, you see, that's where it should be. She sat and cried. She said, you've wasted your life. I said, no mom, I gained my life.

Understand the process of conversion, understand the process of transportation, understand the process of transmutation. You transport physical matter, you transmute plasma energy. Then you understand where and how, what do you want to create. How many years it took you to find out about the magic liquid in the Coca Cola bottle. It was caustic. And you created Nano material, you created everything else. You created a diamond structure on the same ??. And the stupid scientist, (1:02). or what I call ignorant, arrogant, pedophiles .. people of the University of Brussels, they called it, he uses the uses radiation, he is a terrorist.

There's no, nothing in creating the most advanced fields of the radiation anywhere in the world. But to the stupid Belgians scientists it was a terrorist organization. They terrorized the Keshe technology for years due to their ignorance. Nuclear weapons, if you understand this, are worthless. It's like you're throwing a match in the river. It's just like a sparkle. If I release this knowledge in the dimension of the nuclear plasma energy of the Cosmic rays, there'll be no Earth left, let alone worrying about the nuclear bomb. In fact, as I said to the Americans on a table of discussion in Seoul in 2008, I use your own nuclear warheads to make food out of it. Not to kill with it. Because you have already purified it to the level that I can use it. (1:04). There is no calcium in it, there is no zinc in it, you give me a pure, pure high level plasma. I know how to convert it, I know how to control it. With one nuclear warheads I can feed the whole of the galaxy, forget about the Earth.

If you understand how to release that. Up to today you never understood why you drink water. What's the reason the minute you touch the water on your lips, the thirst goes. It's a rapid conversion in the vacuum of the body of the man to open up the hydrogen in releasing the energy of the oxygen to become equal to the Cosmic rays, that it reaches every single cell of the body of the man. Drink more.

Now mankind has to move to the next level of understanding the knowledge of Creation. Next week and the week after, I unravel to you the knowledge that you could not even imagine exists. The way we've done last week and this week. You understand this, because you came through with me with Nano coating, with the Gans's making, with the MaGravs, and the rest of it. You housewives, pensioners, boys in a college, street cleaners, have more knowledge than the professors in MIT, (1:06). in space and in energy.

You've got to understand the process of Creation in the true way, and be your own teacher. But observe the others what they have learned. And don't become arrogant in what you understand. Become humble to share. Then you progress. Then you move into the next step to understand more. Then you understand why life means, life in every point in the Universe, irrespective of time, place and position.

There is no time when the life hasn't started. We celebrate the birth of children from the moment the day they take the first breath from the air of this planet, and we call it, the birthday. We don't celebrate the day when they came to conceive, to become the Soul within the womb of the mother. There they showed the essence of their creation. Again, man dimension of physicality.

Then you understand, why children of Mitra are celebrated from the point of inception. (1:08). Not from the point of taking the first air. Then you celebrate the point of that creation. What happens if your child is born on another planet in interaction with another Soul from another dimension, and doesn't take air and stays as a Soul? It does not exist does, does not have a birthday, does not have a time of conception. Then you know how children of Mitra will be created.

There is no need for an egg and sperm. Ask yourself a single question, if you understand the theology. Adam made Eve from his rib. Did he have an egg or a sperm? Or was it the love of the essence of the field of the Creation? And man still looks into a different dimension. This is how you create the children of the Universe in the Universe. Fields from the field of the essence of the Creation of the Earth, and the fields from another essence of Creation, another position in the Universe. They become lovers, they give to each other to enjoy, the other one enjoying, and from it they create the Soul of a new Life. The children of the Universe. Sorry, the one from planet "Dudu" does not carry any eggs or sperm. They don't have it in their creation. (1:10).

So man cannot create a new life in the other dimensions of the Universe, because he carries a sperm or an egg? How feeble the understanding of the man is, in respect to the Creation of the love of the Creator, Did God sent a sperm or an egg to Earth for the life to start? Now you understand how wrong the mentality of the Creation has been within the, and among the human race.

In Arabic we have a beautiful word for it, to the stupidity of the man in the lack of understanding, we call it "??." Because I cannot understand it, it's something that is to do with something which is wrong.

If you understand the knowledge, which we have given you today, from the love of the Creator, man will find the secret of life in every dimension of the Universe. It will take centuries, thousands of years for man scientists to understand what you today ?? felt with the knowledge you were given within your Souls, without the dimension of physicality. Today, you receive all your PhDs, and professorships, graduation if you understood, from the Soul of the Universe, not from the stupidity of the universities of MIT and god knows the rest. (1:12). One day I'll explain to you what MIT means. Man ignorance. You have to look and understand the process of the Creation, and which part of this process is for you to enjoy life, to contribute through it, to create the next process?

We go on a break. We'll come back we'll try to solve the riddles of the Creation by the Creator. Rick if you can take us to a break.

<< BREAK >> 475 KSW March 2, 2023 (1:18).

K- No, carry on.

Q: … Good morning Mr. Keshe. Good morning everyone. Mr. Keshe the fish in the ocean. They have apparatus, they take the oxygen and they release the hydrogen. But we don't have it. But when the fish does it, do they use the emotion or just that apparatus?

K- .. It's the way we create the apparatus, is in our body to convert energies. But .. that's for part of the 20% physicality.

Q: Okay, so for example, I was in the ocean this week, I cannot swim. So I was testing for example, I go flat on my back, and I'm breathing and then I'm not moving, but the ocean moves me. So I said to myself, I can be in an ocean, I don't need to swim, the water takes me here and there. Then I did another test. I held my breath, because I can hold it for a long time. I went deep and I started to move. Then it was a point that I have to breath, so I drank a lot of water, so I came up. Then I can use my emotion to, not to drink like a fish? How can I do it?

K- You know in the brain of the man, (1:20). and the STP of man, there is a point of interaction. If you reach that point, you can use the physicality to do.

You know, you go to all these what I call, cults. You traveled around the world going to these cults Azar. (Different so called, spiritual gurus). Some of them cannot eat for 20 days, some of them don't eat for so many years, some of them can do ?? this. They have found that secret with their body. Most probably they cannot teach it to somebody else, because they don't even understand it.

But in the depths of the ocean, you can switch. Because that water absorbs all the fields of the Universe. And you're in it, and you starve with it. You have to learn how to switch.

Q: When you say you switch, it means I switch and become like a fish? Or I switch to…?

K- You switch to (receive) 100% Cosmic rays. The fields which are around you.

One of the reasons that the oceans of the planet, even the sweet water you drink contains salt, is because of its what we call, alkaline, its gravity creates to absorb things in it. The salt in the depths of the oceans is not just to be salt, to be there. It's the process that it can absorbs fields of the Cosmos, (1:22). that the citizens of the oceans can receive Cosmic Rays in the depth of the ocean for their Soul.

You call it, alkaline, you call it, acidic. I was explaining this to one of our scientists yesterday. Change it to gravitational, change it to M, change it to a giver, change it to a receiver. At any point in the Universe, there has to be a point of receiving at a given field strength. And it has to be a point of giving at a given field strength. Energies are not created or brought about out of nowhere. It's not a "magic fountain" and you stand at one end, and water just keeps on coming, and it has no resources.

I made some time ago, a little tool that it was dripping water. But it had no resources. In the village of Tiham, I've said this before, where we used to live across the hill from us, right across there is a hill. And in this hill, people come from all over Belgium to take water. And it's very strange. We live on this side and this is it. We lived here, and here there is a church. And there's a little spring. People come from all over with bottles, with crates to take water from this spring. And they say the water from this spring is good for the eye. It brings healing.

When I heard this I said, people don't understand. (1:24). It's not that the water which comes out of this spring is good for the eye. It passes somewhere in this mountain, in this hill, the point that it has a magnetic gravitational field strength, which matches with some of the human's liquid in the eye. You don't need to drink it. If you wash your face you will have the same. Now we understand the science of it.

So, in the depths of the ocean, if you can tap, understand where the energy source equals the strength of your cell of the body, doesn't matter if you're in Atlantic or Pacific, they

are all connected to each other. You receive that energy, you don't need to breathe. We have to understand the true essence of knowledge and science.

This is what I said many times, you went to the ocean, and you got nearly drowned, you took a lot of water. What happened if I throw you out of the Space lab in the space? You'll die the same way as you could have died, being what you call it, drown in the ocean in the middle of what is. Now you understand the energy source of your life, through Cosmic rays level. But in the dimension of physicality.

Man will die, if they throw you in the space, you're dead. What is the biggest fear of the astronauts and all the ones that go to the Station when they go outside to fit? What happen if the cable breaks? I go out without the cable because I know how to ?? tap, I live free life. (1:26). It needs education, it needs understanding.

At the Intro (video) of today's session, what did I say, what does it say? Very, very easy. You should be able to live anywhere in the Universe. If you can tap into the Universal Fields. On Earth you use Ca, now you understand why you have Ca. What is happening on Planet Zeus? When your Soul leaves your physicality, what the Intro says, the STP will give this energy to it, before departure. So, it seeds the worm of the physicality, where and when the Soul at a given point will come to exist. And then they reverse the jacket. You have to understand the point of conversion. Then you'll survive anywhere in the Universe.

And then, in another process, if you understood this, you go to the dimension of the physicality, and you use your Soul to create the first structure of ?? life. This is what the Creator did. Giving life to, call it, "Eve." He took from inner himself in the dimension of the smaller package, (1:28). and allowed it to let it go. And then with it. He found He received from the Universal Community where he lives with it. Our Creator as we call it, is not the Creator of final. It cannot exist, if there was an environment for it to exist in.

When I said, I write the book number eight about the fields of the Universe, the magnetic field of the Universe. It’s that book about how our own Creator was created out of it. Then you understand, it’s how you play with the position, how you play with the strengths, how you bring one to be in interaction with the other one, which gives life. This is what became the most beautiful thing, when and if you understand it.

In my books, I called it, "Fundamental Plasma," the Creator. And its conversion into two smaller. Read the books. Isn’t the Fundamental Plasma the Creator? (1:30). Isn't the proton and the neutron the Creator and Mitra? It comes within it to be. It already exists. On the planet Earth you call it, "plastic islands," (floating in the oceans). When it comes for those to gather together. What happen when you transfer these plastic islands energy into, and you create another moon? Earth cannot hold it as a field in one go, it will reject it. The consequences of cleaning up this planet, the way energy packs are set, the scientists have not even realized it. Keep on crunching it.

The science is the same. Fundamental Plasma into proton and electron. Creator into Mitra and the Creator. Connection of the two, the love. The STM departure from his physicality carrying what we call, the "Spirit," the STP within it to manifest itself what it needs as an ?? atom. And then in that process, what you call it, a twin star. (1:32). Twinity of the star comes within the STP of the Soul itself. It's not another piece of plasma. And our scientists have proven, we have a twin star which every time comes so much close, so much the creator to give, so much energy and love to Earth, that Earth creates all sorts of commotions within it, from the love it receives.

When you find your twin Soul, is it the Soul, which was created, with you out of you? Or is it temporarily field balanced equal, that it can interact? And you fall out of love usually three to five years, because you absorb different energies. So, next time you'll go drop yourself in the ocean to drown yourself to see if you can take energy. First understand how you're going to convert that energy, before you jump in, or before you take a seat off in the space and jump off the Spacelab.

Q: Mr. Keshe, sorry to interrupt you. Mr. Keshe when you talk about, I'm going to the other subject, when you go to the table of the Creator you said, start from Monday.
K- What did you enjoy?

Q: Listen to me, .. listen to me. You know what happened? When I was in Mexico I grew a belly because I ate chips and I said, I don't want to go eat. So I go to the table, because I want to go, because it's the table of Creator. But I was communicating with it, I said, look, I don't want to eat, but I'm going to bring my love and peace to the table, I can chat with you. (1:34). But give me what I need, and I give you my peace and love.

The first thing I went I was exhausted so it gave me so much comfort, after that I felt asleep and took a nap. The second day I went, I was in my office I went to the basement I said, I'm going to sit and see what's going on. And then I didn't want to eat because, and then it just all smell just came, as if I was at the table. I could smell everything but I was sitting there. So it was my own intention that gave me what I needed, not because I wanted to eat, and it didn't give me anything to eat. So it was all this food, and it was strange …

K- But you received it. You receive the odor is an energy. You received it, the confirmation as a smell, not as a food in your stomach. What did you smell like Chera Kebab, and what else did you smell?

Q: I felt like I was in ?? home. You know when I was a kid I was passing by the ??, my mother said, go get the ??. And as you pass by those houses at the lunchtime you'll smell all kinds of food cooked …. ??, all of them.

K- And you smelled that in the basement?

Q: I smelled in the basement and I said, who's cooking all this food? And I realized it's coming from the system, because I said, it's impossible.

K- Did it bring you joy. Or did it satisfy your hunger?
Q: Actually, it brought me to my childhood memory that I was like…
K- No, did it bring you joy?
Q: Yeah, of course.

K- So, that's the emotion you needed, not physical hunger. This is what you have to understand. But what did it bring you? What would be the… I know exactly what you talk when you got this. (1:36). When I lived in the house in London. I use to go five stories up, 4 story up, and every house was Iranian cooking different food. By the time I get to the top I had all the foods of the day, upstairs. I wasn't hungry. I didn't know what to eat.

But what did it bring you? Expectation. You wanted to be fed? Or you had ?? the Soul ?? you wanted the pleasure of the emotion? What did it satisfy? Are you there Azar?

Q: Yes, I think the system gives you what you need. I think it brought me so much joy. Actually at first it was incredible. Because the minute I put it on my forehead and it felt just like go into the bathtub after a tired day. There's, ah, this is so good. I just melted.

K- The people who joined us for this, "eating at the table of the Creator" will go through different experiences. Will go through massive experiences in the next week or two. As next week, we open the table empty, what do you bring, that the others can ?? enjoy. It's what I call picnicking. But with the others. What do you bring on the table of picnic next week? Again, 4 to 7 PM (EST).

In April Session, we run a session for addiction? You know, we did the tests on the 19th, we had some results. Few people give us different types of results they see. And we had one yesterday, or the day before, I was told by Mario. I think in Austria or Germany, that somebody was alcoholic, (1:38). after the session doesn't touch. But we have few of these reports. And we have been done these for years through plasma technology. Invite all your addicts friends to join us. You are addicted to sex, you're addicted to love, you're addicted to cocaine, you're addicted to alcohol, you're addicted to gambling, all come in. And then when you walk out without it, don't say it was coincidental or accidental. Sign in your brothers, your son, your daughter, yourself, or whatever, for the addiction you have. And see how many of you will see a difference.

Don't forget, eating with the, on table of the Creator, was one of the five sections of the 19th. On 24th we sit with World Presidents. On 24th we sit for what you can give and what they can put on the table. We are working on many world leaders to have, and the world ambassadors in that meeting.

But learn from today's, this week's experience, and next week. Don't come to them to, let them give to what you can give back. (1:40). I'm meeting with one of the world leaders in the next few days. He's not there out of pleasure of the technology. He is there to save his presidency. And he needs the Keshe Foundation. I didn't ask for it, he's asked for a

meeting. His ambassador asked, Mr. Keshe, president wants to see you. What can we change in the course? I told you many times, people will accept this technology not out of its beauty, but out of the demise of themselves. I have already told our people in the management of the Keshe Foundation to be ready to fly with me. Because I'm not going in on my own. We're going as a technology.

Understanding .. the process is important. How you live, what you give, what you take. And never question, why am I giving. Never give out of generosity, always give out of humbleness. Then you receive.

Then jump in the oceans of the Universe and see if you get drowned. And the problem with you when you went there and you lay on your back, (1:42). you left it to the course of the Universe, or ocean to take you. You have to be in command of where you want to be. That's another problem.

Q: Mr. Keshe, but you know, I command now and my command becomes reality. Because I don't know why. But it's easy because… I can understand now when you say, you know, when you say, I command something, and nothing happened. Because the physicality command nothing happen. But when you have no desire anymore, because like something like, before the desire was more physicality, but now I have no desire. But if I see something and I say, oh, this is nice. It happens and I don't know why it happens. But you just it comes from emptiness like there is nothing there but then it shows up. And I don't know how it happens. But I started to get, I guess surprises, because it is not. I think about it and I salivate about it happening. Just like I'm just say walking. I just thought oh, this is nice. And the next thing you know, he shows up and he said. In the beginning it started to become kind of surprise but now I'm kind of used to it, and just a little bit caught by luck. Wow I think about something and ..

K- Because you have not understood what we said last week. Yeah? Last week you forgot, next time you don't need to surprise. This is your .. I take the element of surprise out of you now, that you don't need to surprise. This is your eye. And this is your body. You think in a physical dimension in this little brain. .. (1:44). But that emotion whatever, ?? transfers to the what you call it, the STM. You only see through the physical eye. So, the Soul has become a magician. What you give (tell) to it you want, it puts it in front of you. Even if it means, ask other Souls, she'll be happy to see a flower and the flower turns up.

When you understand the connection, the interaction between the physicality and the Soul. So you live the two dimensions. STP in the interaction with the other Souls make what was your true wish to be manifested, that you can see with the physical eye. So, it's not a surprise anymore. You start living two lives together, because you see through the same eye, through the same hole. One is the dimension of physicality and one is the dimension of the fields of the Universe, we call it the STM.

But, as I said, the minute you drink the water, the thirst goes (from) everywhere, because of the field transfer, when you wish it, the STM in conjunction with the Soul of the taxi

driver, another man, or whatever, brings the friend in front of you. Because the Soul appears there. There is no surprise.

Then you have managed to build a connection between the STP of the man and the STM. And from the two eyes, you see the two together. Now we know the knowledge. Now you know what I said from the beginning, you live a schizophrenic life, dimension of the fields of Universe and dimension of the physicality of life and the STP of the life of the man on this planet, or anywhere. (1:46). So that can't be a surprise.

You can go on yourself, throw yourself in the oceans and you come back, brings it back to the same point. When you say, I lay down and I could see the fields going. I used to do that so frequently, I got fed up with it, I stopped doing it. I used to spend a lot of time in Bahamas. It's a peaceful place. And many, many times I went into the ocean and I laid there. I couldn't see nothing from distance, no island, no land, nothing. And (when) I wake up, I'm back again at the same place as I left, an hour later, two hours later. And I said, how can I get myself out of this, if I want to get lost? Why do I come back to the same place. I don't end up in another position in the island, I don't end up in another island, back to the same place. I used to swim to go to get lost, but I used to come back to the same point. And then I gave up. For years I used to travel to Bahamas, it's the most, it used to be the most peaceful place, especially the Paradise Island. Very few people, not like now, it's a massive tourists.

And many times I tried to get that, because there the water has a specific field, you see the bottom of the sea, it's peaceful. I swim amongst the fishes, I was in middle of them, hundreds of thousands, I was cocooned in . But I end up in the same place. I don't end up even 100 meter away, exactly the same place, but I couldn't see anyone. I turned around, and turned around, where is the island? Where I got lost? How did I get pulled? An hour later, two hours later, I land up exactly on the same beach, the same place as I left. (1:48). Because my Soul had to be back where it was. My children were waiting for me on the beach. Those who I came with were waiting for me on the beach. Did they called me back to the same point?

It took me a long time to unravel this. How do I end up in the same place all the time. We need to understand the process of the fields of the emotion, and not the physical dimension. Then you can do anything. You wish it is there. It's not that I wished it. In a way you're sitting with two people in the same seat. I want food, the other one gets the food, is it that you see another robot?

But ask yourself a fundamental question, what does that Soul ask me, that I do for it without knowing it? Why do you walk into a place and meet somebody? You call it, the destiny, I had to meet. What about if your Soul brought you there, the physicality to interact, that somebody was supposed to receive someone (something). Now you become that Soul standing, because the Soul brought you here. It's not always the same.

How many times you say, what am I doing here? How did I end up here? Because there was an arrangement. Somebody wished you to see here, somebody did something and the

Soul acted, and you appeared here and you caused an accident, because the passenger of the other car, had to do something, that asked for help from somewhere, (1:50). and caused that accident.

It's not just on one way. It's not that you always wish and it's in front of you. This is the selfishness of man, this is again what I told you, you came to the table to steal. What does your physicality, how many times your physicality has gone and done things, because the Soul wanted? A friend wishes you ??, the Soul knows there is somebody you're looking to be loved, or to see something, and you go to a supermarket and you meet the woman or a man, and you fell in love and that's it. Coincident or was that Soul wishing to have someone to be loved and the strength was the same, so it matches, I bring the body to you. Nothing is coincidental.

It's not all the way what I did, the Soul, whatever. When you live, the amount you give, the amount you take. What you give for the Soul to be there to enjoy, the Soul does for you. But we never understood, and this lack of understanding is 80% of the man's demise.

Many of these, you call them war veterans, which they go through this huge emotion after they come back. We call them all sorts of problems psychological. Ask them a question, what did you kill? Why not all the veterans have the same problem? What did you cause? Why do you go through mayhem?

Read the book, read this new thing which is come out with Prince Harry. (1:52). Writing about his time, and cause so many death. And then see why he went through the turmoil. Balance of the fields. Got kicked out of the royal family, it doesn't matter what, whatever they are. How come it doesn't happen to the others? Balancing comes.

You killed a man, you killed a child, you sit in the bunkers in the depths of American nuclear sites and you push a button, a rocket hits somebody in… Oh, we exploded it at so and so base. That man in that base is a father, is a brother, is somebody's son. You press the button of your own annihilation in the bunkers in United States. Watch how your children, how your father, how your son will pay for this through the balance of the fields. Next time when you feed your child, would you give it the poison? How come you push the button to kill, to give that poison in different way to him?

Q: Mr. Keshe, you know, there was this guy one time I heard him, he was talking about, he's a Persian guy. (1:54). He's talking about when people interact with each other. He was explaining that when you go into interaction with people, or do something, most people look at it as a trade. Like for example, I come and ask you for, I want to do something for you Mr. Keshe, this and that. But then, inside of me, I am actually planning, because I expect something to get from you. When he was explaining that I wouldn't understand it because, inside of me, it never existed. For the first time I was hearing that people do things, because they want something. But I couldn't understand why you do something you want something. Because what does it mean you do

something, planning something, because you want to get something? How is it? How does it work?

K- So usually I go to work I expect to be paid. We have one of our Knowledge Seekers. I love this guy. He's somebody I enjoy being with. I get the time , I like to spend with him. He used to be a medical student and a doctor. He knows who is, he is on the line. And in one of our talks he said something which was amazing to me. He said, during the Iraq Iran war being there as a medical person, doctor, we didn't care if he was Iraqi, or young, or old. My job was to save lives. We don't look at what they come, how they come. He was to save. It was Iraqi soldier, it was an Iranian soldier captured, or soldiers, we just got the young boy, old man, whatever. And that's what it is, unconditional. (1:56). Not expecting, but being there to give.

This is the essence. When I spend time with him, is just, I call it, a holiday time. And it's amazing just the essence of his Soul is different. He is an amazing guy, and I have a lot of love and respect for him. And this brings us to the point. Are we there always to take? We give something to get. We feed the chicken because we expect they'll lay eggd, and then later on it's meat. We don't feed the chicken, just for it to be another life to enjoy to existence. And when it stops laying eggs we slaughter it, because it's no use to us anymore.

It is part of life of man, and expectation. When you live without expectation you take what it comes, and how it comes, and the way it comes. Then man will have respect for himself first.

Any other question?

Q: I have no more question, Mr. Keshe.
K- God, you're getting worse than Jalal. Carry on. Azar, have we lost you? (1:58).
Q: Mr. Keshe, I said I have no more question.
K- No more question. Ok, thank you. Have a safe trip back to Iran. And have a real Chela Kebab, just don't smell it. Thank you very much. In the next few weeks, couple of weeks, we come to the Iranian New Year and beginning of the new spring. Enjoy yourself.
Q: Thank you, Mr. Keshe.

K- Any other questions?

Q: .. Cosmic particles penetrate in the upper atmosphere of the Earth. These neutrons thus are free to collide with nitrogen atoms, causing the emission of a proton and the transmutation into C14. The photons provide the energy to the water. And he mentions the easy water of the fourth matter of water, I think the forth state of water, fourth state of matter of water, perhaps. And that's all he says. Is there anything you'd like to say about that? Or do we let it stand?

K- Doesn't make… In a way, maybe a fraction, of the fraction, of the fraction of the interaction of Cosmic Rays create such a thing. But the rest of the Cosmic rays go right

through the Earth. (2:00). Goes through your body, goes through everywhere else. Some of it might interact with the upper atmosphere. Yes, which it does. And some of it might convert, we know it as a light, in that sense. But it's not the only way, and that's how it's done. No. What happen to neutrinos, as they call it, they haven't found them yet. What happened to the other energies?

Any other question?

Q: .. So, as you tell about celebrating birth, since the creation of man inside the womb of the mother, is it needed to calculate astral themes, signs, zodiac calendar, from this point?

K- That's man's decision. What happen if you take that point of conception, and that point of taking air, the first breath? They say it's so horrible that the Soul cries and the child follows. That's why our children of man cry when they are born. What happens if you take the point of conception, and the point of physical manifestation, and air condition, I call it, the condition of the air? What would the interactions of two now will explain to ??. (2:02).

Chinese have a beautiful habit, I explained this before. I've been with Wang Lin, we were at the dinner or lunch. And the guy said, I don't eat this, because I'm getting ready to become a dad. I said, Wang Lin, what's going on here? She explained to me that people that plan to be dad in Chinese tradition, you prepare your body to create a child. And they go through certain ways of living, consuming food, that prepares, that it creates a perfect child, or near perfection, as it's caused by their interaction.

What about if man now decides to do the same, but preparing the Soul? Those of you who will create the Soul, children of the Soul of the man, you will understand it. And you cannot understand it till you go through it. Children of physicality are totally different than children of the Soul. Your body changes, the interaction of the body fields changes. Age is irrelevant because the Soul dictates. Then you understand.

You can have all kinds of operations not to create a sperm, all kinds of interactions cut your pipes (tubes), or whatever, not to have any eggs to be released. And you still can get pregnant with the STM, with the Soul of the children ??.

Many years ago, when we started this structure and people used to come to me in Belgium. (2:04). We had women in seventies, late sixties, first time I explained this before, saying, Mr. Keshe we're getting our period back, what's going on? I said, I touched your Soul, the physicality irrelevant. Physicality is ready to give. They live different, they find a new life. Because even those days, I couldn't explain to people, I touch your Soul. And the Soul is still is young, wants to give life. And I used to tell them, be careful your grandma, you don't become papa, mama as you're a grandma, unless you want to.

We understand the knowledge, so it's easy to do. The children of the man created through the Soul live a different life, than children of the man from the same parents who are

created in dimension of physicality. Totally different life, different behavior, different approach.

When you see the daughter of Mitra you will know from miles. When you see the children of the STM you'll know from the miles. When you see the children of the STM with other creatures from the Universe, you see them from Universes. You'll feel them, you feel their fields, you feel their strength. (2:06). It's not just a visual contact. But if you understand it, it's a magic, it's not a magic anymore. Because you understand how you do it.

It's you in your brain who can switch, the things I explained to Azar. Switch not to get drowned, you switch to create the essence of the best of the Universe within you, to create another Sun, another Soul. If your partner is of the same order, is there to do that job, you create that child. Does not need to be in the womb of the mother. It's in the womb of the Universe.

You've got a lot to learn, a lot to understand and a lot to comprehend. And then you understand. Creatures of Creator give life in the Universe when they're 10, 20, to 30,000 years old. Some mature to the point of understanding after 100,000 years. A man is busy with nine years or ten years, to be ready to give life. Man has not seen the "elephants of the Universe" when they give birth and how long they take to be the perfection.

Any other question? (2:08).

Q: .. Good morning Mr. Keshe. Thank you for today's teachings. In relation to today's teaching, what happens in the physical body and Soul when people go on a water fast for days or weeks, or a dry fast as when no water is taken on purpose?

K- Depends how you tune your body to what to receive. You don't need to go water fasting, or dry fasting, or no food fasting. You can go without (eating), fasting for centuries. If you know how to look, how to absorb energies that covers a full spectrum of the need of the physicality and the Soul. You're the only one eating, the Soul eats too, it needs energy for it to survive. It's the same. You've got to… If you can train the body, you can fast for anything.

They call it abstinence. I don't eat chocolate. What pressures you put on your physicality and your Soul with abstinence. It creates another problem, if you have not managed to find the solution for it to be absorbed differently. And it can go for so many time, you tune your body to get the energy of the hydrogen, or energy of the ?? life, C14 from the Universe. (2:10).

Now is fashionable intermittent fasting, you eat for six hours whatever you like, and 18 hours you don't touch food. Many, many sports people are doing it now. And they feel good with it, and they choose when they do the exercise within the intermittent fasting, and it works. You eat at six o'clock at night, and you don't touch any food till nine o'clock or 12 o'clock the next day. By nine o'clock, 15 hours, you consume certain kind of energy

from 15 hours to 18 hours you consume another kind of energies from ?? . And you release certain energies. And then you choose, if you're going to do your sports nine o'clock at night, or six o'clock in the morning, before you eat, or just before lunchtime, you do sport. And you gain a lot of energy. Your body just clocks in. It's a beautiful cycle if you can do it. But then you need specific kind of, what you call it, fitness, a fitness program to keep yourself fit. And the body just moves you. You just live a different kind of life than you expect.

But if you leave it, it lasts for about 12 months, 18 months, and the body goes back to the past. So you bring the body to a certain fasting time 18 hours or 15 hours. You tune your eating, and your sports, or the fitness, and you live a "20 year old life" all the time, you can still carry on for days and days. But you can't do it more than three, four days a week. But your fasting can, it becomes regular as part of your life. (2:12). But you can do amazing things you couldn't do. Read it on the Internet about intermittent fasting with fitness. Because then it forces the body to absorb energy from outside in. And energy distribution within the body becomes what is needed.

R: Some of the medicals sciences say now that it also initiates the stem cells in the body. Gets them going by fast.

K- Yeah, intermittent fasting it pushes the body to get rid of what it (doesn't need). Because you do it on a daily basis, body gets rid of what it doesn't need in certain hours. And then it strips to the what you call it, the basic. You find people who do this intermittent fasting with .. fitness, they become very joyful, their life changes. But it lasts for about, then they say that the body gets toned, and lasts for about 18 months maximum. If you let it go, and you can go back. I do it, sometimes. It's nice because it brings a lot of changes, but it needs a lot of commitment. And allow us to get surplus bodies, energies released.

Q: .. a Nano Plasma Times question. .. By eliminating our physical food, we can lose muscle mass, if so how do we recover it?

K- Do you need muscle mass? A lot of Chinese would burn through this diet. Just drinking plasma, Gans plasma water. (2:14). They went down by, I think 20% mass and then they stabilized. The body tuned to what it needs, and it doesn't need. I met couple of them when I was in China. They live a normal life, they live an absolutely normal life. Because now you use, and the body starts taking energy from different dimensions.

You see, the water you take, now you understand the teaching of today, you understand exactly what the water does. I used to know a boy, he only ate crisps (potato chips) and Coca Cola, nothing else. Breakfast, lunch and dinner. That's all he had. He was 16, 17, 18, and he carried on with his life all the time. He is from Ireland, Northern Ireland. And he puzzled us, how this boy lives only on "crisps" and Coca Cola. But he took all the energy he needed, the starch and the, what you call, the hydrogen and carbon, which was needed to link into the Universal energy. He didn't eat anything. We used to cook and

everything, he just sat down, bag of crisps and the Coke. That was his food. But now you understand it, he actually was very clever. He became a known artist in Northern Ireland.

Q: Dean .. Good morning, Mr. Keshe. Mr. Keshe, you spoke about earlier on with us, or you were speaking about the eye, (2:16). and you explained about this process of where you start to manifest what you, your thoughts and intentions. Can you go into that a little bit more so? How do we experience it, so that we experience the beauty of the time? We receive what we need? Or do we automatically already get that? I've seem to be experiencing what I'm speaking about a few times recently and before. Now, I think about it going back over a long period. This has been happening quite a lot now that I think about it. Is this something that happens for all of us…

K- Can you repeat again?

Q: This process Mr. Keshe, of receiving in front of us, through the eyes, the manifestation of what we are thinking about. How do we turn it into a position where we just receive, you know, the beauty of something, that of what we need as a Soul, or in our physicality, that enhances us, and creates a condition that would help others?

K- Two points. Would the others like to receive it from you? Or you take your food to the market and you have no customers? You understand? Or was it a gift for you to receive without expectation to give anymore? You became the last point. You understand?

Q: Sort of Mr. Keshe. So, why… (2:18).

K- Are you the end user, or are you one in the path of others to become the end user? It's like you know, we used to do it when we were younger. We used to do birthday, surprise birthday parties. And somebody comes and says, "ah surprise!!", and they say, I wasn't expecting it. I don't like birthday parties. How many times you've been there? You know English tradition, we used to do it. You get surprised, but not them. Not valuing for whatever you did for them and the others, to do.

Q: Yeah, that explains a lot.

K- We used to do it when we were in university and when we were younger. And we used to do a lot of surprise parties, that was the only thing to engage yourself ?? doing things. And it had no emotion. It means nothing. Because you don't have the experience of it, or you don't expect it, because you don't, you never knew.

I've had that experience, at a very young age, watching it, when a father was literally "slaughtering" his son, battering him. And I said to my dad, what is going on. And my mom and dad were at lunch table sitting by a river. I remember clearly at his house, he had a river going through his house. (2:20). He said, I was brought up in an orphanage. I don't know why, this is how I was treated, this is how I treat my children. He could not understand there is a way of loving.

The only love he received which touched him for the rest of his life, he became personal bodyguard of the Shah of Iran. And the Shah showed him a lot of love and care, like a father. And he gave his life, at the end he gave his life for him too. And to him was… What we noticed during the Shahs regime, people around him, he realized something very strange. That we don't look at it, psychologically. He picked orphans from orphanages and gave these people a lot of attention and love, what they were looking for. So they gave (their) life for him. Many of close associates of Shah, especially his personal, personal bodyguards, people who ate with him, walked with him, were orphans. Because he understood the value of love. And in return, he was shown love and adoration.

Strange enough, I was brought up with these (kind of) boys in the first years of my school. I went to a school where a lot of orphans came to school. And then later on, it linked to me how the thing works, and how he does. (2:22). Because being close to the structure, I noticed many of the people around were all orphans. Even some as orphans were put in education and higher education as doctors, by his (Shah's) father. Those who were thirsty for love, you give them, (then) they give their life for you. And this is how it works. If you haven't had it, you don't understand it. You have no value for it. It doesn't matter if I give you the best party. You don't know what the birthday (party it). I speak with a lot of people. Birthday parties is nothing, we never celebrated when we're young. In our family, it doesn't exist. Why do we need to do this?

Q: It's a beautiful thing Mr. Keshe, when a lot of people come together to celebrate. So, it depends on the emotion of a person as well. Some would celebrate it. First of all, they would you know depend on if they're an introvert and extrovert, you know, some would shy away, and others would embrace it and like run to it. Wow. And it depends on the emotion in that moment as well. And the whole context of how it's…

K- What about those who already been told in the background, you're going to have a birthday party, pretend you don't know?
Q: Yeah, there is that as well. ..
K- Somebody couldn't keep it secret.

Q: Mr. Keshe, can we speak about the dining experience at the moment? It would be okay to speak about that?

K- Yes. What, how… Did you eat anything? (2:24). Or did you…

Q: I'm going through lots of different interactions. I'm not tasting anything as such. I'm salivating and I'm experiencing the water. And I know I'm receiving some energies. My one question would be specifically. Twice I've gone in there, and I've experienced a very different noise. Is this part of it?

K- Could be.

Q: It's like a noise I've never heard before in physicality. This is very much a completely different noise.

K- It is how you feel are you… You know, we're doing a lot of flight tests. I usually stay out of this. But in one of the tests this week. We always ask, we leave it to the people to come in. To come to us. I asked, take me back with you. When we… You know, the owls hear the sound of the separation of the Soul, because it has a specific noise rushing out of the body. Owls just start crying. Or we have these whistles, which the dog hears, we don't hear.

On Tuesday when we did this test, when I asked for the Soul, I had a huge pressure on one side of my ear. Never happened, I spent so much time in the flight room. And I felt the coming, I felt the pressures, like the wind coming into the room. I had this feeling couple of times before, but I just been busy, ignored it. (2:26). And then I said to our test pilot, as I call him, take me back with you. And he says, I feel you next to me, and I felt being there. But I felt that pressure, it's like a noise pressure you call it. But like… I explained to him, it's like you know, when you get on the plane that compression comes in your ear. And it was just for a few seconds during that test, few minutes. But the impression of it left with me for hours after. I knew I wasn't there, but the emotion, the feeling of it was there. So we hear the coming of the Soul, creates these noises.

Q: That's funny Mr. Keshe, because on my path a while ago I met somebody who was, and I heard this owl so many times and, he claimed that he was part of this, he had very strong certain body conditions on his nails and things that was .. yeah, yeah. And that takes me back now to a position that I've understood a little while ago.

K- The owls have in their system, hearing system, that they feel the rush or could be the emotion of the Soul leaving. And you hear them. They usually place themselves near the body. And they go through the process of death, the separation. And they hear it, it attracts them. (2:28). It's like, you know, it gets drawn into it, and they sing with it, and they won't move from the position. You can shoot them, they come back and sit there, till the process is completed.

Years ago when we used to live in Tiham, there was a house two meters apart from us. I said, I could hear the owl, and I said, the guy next door is dying, he's leaving his body. And the next morning when we woke up, we're told that yesterday at that time he died. And I've seen this many times. The Owls sings and everything, but when it comes to the nose of the Soul, they sing totally different way, their behavior is different.

Q: How did you tune into to this Mr. Keshe?

K- By birth. It's just by birth. It's just the way the ears is. The hearing, do they hear it through the Soul level? Is their Soul which feels the departure and shows itself in physicality? I've seen this many times. We hear owls singing and whatever, mating, that's different. But when it comes to the point they sit near the body where it is. Could be in a building, in whatever. Or where the Soul was connected to, not where the physicality is.

And they sit there, they are there till the departure is completed. (2:30). The body could be in the hospital, but the house is 100 km away, they see them at the house, where the Soul sees this connection.

Q: So, Mr. Keshe that explain many times. I've noticed with Knowledge Seekers that they are enjoying plasma and their conditions of plasma, and you hear birds singing in the background and as an interaction with birds at certain point. Are they bringing this field strength forward that's manifesting as a as a joy for them, and for them to, you know, for the love and care?

K- Possible. Because they are there in Soul, they hear. I told you, when we teach, when we share is not just for the man. It's for the "Soul of the Creation," so it doesn't need the voice.

Q: How would this manifest in places where there are no birds or anything? How would someone, or a being sense this in their environment?

K- Maybe you have no senses. Maybe you know, sometimes you feel, oh, this happened to my brother, or my child, or whatever. And you call and say, yes, something happened, or something is happening. We don't need to be there, we are connected through the Soul. We understand it, and you'll feel it.

I feel a lot of these things, because personally I experienced it. I understand the logic behind it. (2:32). I was in Seoul, in 2008, and we went for lunch with the diplomats. Walking back to the hotel, the Park Hotel, which is part of the Olympic compound of the South Korea. Walking along the park I noticed some birds walking with me and making a lot of noise. I turned around and said, "my mother is dead, isn't it?" You are just bringing me the message. I walked into the hotel, I walked in the room, the phone rang and they told me my mom passed away. I already knew before I got to the phone. It's the way we feel the energies of the Creation. I said, I already knew.

Q: You have a very special understanding of Creation Mr. Keshe. .. Would others experience what you just spoken about?

K- Yep. We all have that capability.

Q: So, (2:34). it's just being aware of your environment and being tuned in, tapped into it, and understanding the messages that are shown to us?

K- We are part of a Soul. … (Just one second, please).

K- Sorry about that. We are ?? for Thursday. It's how… We all have these capabilities. But it's how open we are to accept. How we are, we see the truth what it is. We all have that capabilities. (2:36). You say, oh I knew. But why did I do it? I knew if I come this way this will be the outcome. Why do I do it?

Q: It's a good question Mr. Keshe. So why do?

K- Because we have, we are process, we are part of a process to understand more for ourselves, or for others to understand. I go through this, and I experienced it, through that experience, I know.

We were with my children in East Flanders, and suddenly it was decided that we go for a family ride on horses. But as we came in, they said, you have to wait till the horses are ready or whatever. They were waiting for some to come back. And then we can go. So, we hung around for some time. And we're walking around the stables. I came across this "black and white," very small horse. And I said to him, "you come here to take my life. It won't happen today. I'm not ready." And I went walking, and came back. And the horse was still looking at me, and I said, not today. You're not taking me. I'm not finished. We went to the mountains and out of nowhere… Actually, the guy, because it was five or six of us, said, choose your horse. I happen to go on that horse.

And we went in the mountains. And out of nowhere, this horse "jackknifed," and I fell in the mountains, broke all my ribs. (2:38). And I said to them, what happened? He said, you're stupid, you shouldn't have picked him up, because you knew he was going to be your death. I said, no, it had a purpose. They pulled me off the mountains, I went through the coma, and everything else. And I was given no chance to live. 14 days later I gave a lecture. Proving the technology you can survive with all the internal damages and bleeding.

Seven days it took me to heal myself from ruptured lung, liver, and everything else. And 18 broken, 10 broken bones on one side. But I knew what that horse was there for. Was it for me to understand? Or was it to see how much I've learned in the process? They shipped me in an ambulance from East Flanders to West Flanders to die in the hospital. You know, you're aware, you acknowledge and you decide.

Q: When you say you decide Mr. Keshe, is this the STM or STP?

K- It's the purpose of the Soul. What's your purpose as a Soul. I know the time, the place and the position in which I will leave this physicality. Don't forget, I left it many times, I'm expert in knowing what's going to happen. It won't be, my death won't be accidental. (2:40). The Israeli bombed me in Istanbul few months ago. The Belgians blew the car up, the Belgians poisoned me, everything else which has gone around. They killed Fabio with trying to kill me. Fabio is not there. We have this in the history of man, I am not only one.

Báb, (of Bahia) bless his name, when they put him against the wall, and some 900 soldiers shot at him. He said, I'm not finished. When I'm finished you can ?? (kill me). They came. He disappeared, they found him in the room, because he was still doing his job. When he finishes, he says, now you can take me. Read about the story about the Báb. The life of Báb and his execution in Iran. You don't need to be, when you know there's the time, you come (to) the time. 900 guns shooting at one body. He went back to where

he was, resurrection. This is what the Christ did. Báb repeated the resurrection. His life is a nightmare of Ayatollahs and Iran Islamic Religion.

Q: Sorry, I don't know the story. So, who was Bob?

K- It's Báb. Báb… Read the history of the Bahai faith in Iran. Báb means "gate," and really without prejudice, not to be somebody. Read about the execution of Báb in Tabriz. Mullahs and religious people were so scared, that he could be Christ, that they don't want only the Muslims to be involved in his murder, they brought Christians, Jews, Zoroastrians, and every religion, sect of religion to be a soldier in it, that they shoot, that they collectively kill the prophet of God. And some of them walked away, after the first round. (2:42). Read about life of Báb, execution of Báb in Tabriz.

When the wish of the Soul is there to serve, they cannot stop. So was with Christ. I was explaining this to one of the Knowledge Seekers yesterday. A lot of people talk, you draw blue eyes of Christ, that he has the blue eyes, and the rest of it. Yes, Christ, the last minutes of departure he had a blue eye, grayish blue eye. This is the light interaction of the STM with the Soul of the Creator, with C14. It gives that image, because the physicality has no more control.

The color of our eye decided by STP, not by the STM. When STP goes weak, and the STM departs, you get that color, silverish blue. And they said Christ had a blue eyes. Because he knew his interact, he's not leaving, he is resurrecting in another dimension. But in the dimension of physicality, because he had another job to do. Báb did the same.

Any man has the capability of resurrect. In a way you fall in this ocean, you die in dimension of physicality, but if you know how to control it, you walk out of the ocean and live. (2:44). Is that resurrection, or understanding the knowledge of the Creation? And this is where the Soul. I said, you go in an accident and you walk away, because the Soul says, it's not time for it to go. Was that guy a Báb, or a Christ? Or is that through the eye when the two live, the Soul protects the physicality. You hit a wind, what happens when you hit the wind energy? It's the same with the Soul takes over the physicality and cocoons it. It's being, understanding the process of Creation.

Q: So, being in service, Mr. Keshe, puts a Soul in this position. Can I elaborate on that? So how about Souls that don't understand this, are not there in service to the, maybe themselves, but not to everything? So, are they receiving a different field strength?

K- Every single being on this planet at the moment isn't. From the lion to the king. Serving themselves. All do it, without fail. From a worm in the depths of the Earth, to the bird in the skies. They're all serving their Soul. Serving themselves. It's not unique to individual. (2:46). And what happen when you serve with Soul, others?

Q: How does the Soul change that position Mr. Keshe? Let's say the worm and the bird. How would they know? They have to feel this, they have to be elevated? How would they receive this?

K- In a way, part of it is Earth being a nursery for those seeds, for in the rest of the Universe. And the other part is becoming aware of, as a collective Soul. ..When you feed humanity through the Soul, that it feeds the physicality, you can't just put C14 in. You have to put amalgamation of the fields that it links to every part of their existence. Then you serve.

You can take the horse to the water, but you can't get him to drink. Because it's not sweet enough, even this water got some salt and doesn't suit to my taste. You have to provide a spectrum of, not only C14. You have to provide a spectrum of conversion ?? tools, like to Ca. Then you successfully feed the man, the STM that it feeds physicality. Because you release energy as Ca from 36 to 60.

Ca has one of the widest spectrum of isotopic fields. Covers at the lowest level of energy, three times C12, to five times C12, 60. (2:48). That's why it's a structure of physicality of the man, because if you understand that then you can feed the STM, that he can feed the spectrum with Ca, you have life. You can feed the man for life.

Q: Is this what we're experiencing when we're Dinning with the Creator in the…

K- Yeah, I wanted to see how greedy you are, what have you come to take. None of you brought to give. I asked you to bring some food with you when you come. Next week you're coming with the food, there is nothing on the table. You ate for a week free, now next week you have to bring to pay for what you ate.

Q: I did actually bring something Mr. Keshe, I brought two meals. I did, I actually brought a roast and some fish and chips from the British Isles. So everybody to receive all that emotion, and everything that goes into it.
K- Did you bring the salt and vinegar as well?
Q: Yes, most definitely. Yes, you have to have salt and vinegar Yeah, most definitely on fish and chips.

K- It's just that we have to understand what did we bring. We have to understand what is the essence of we are there for.

Any other question?

Q: .. Good day Mr. Keshe. When my Soul exited my body. Can you explain why it felt like an electrical circuit disconnected from the physicality? (2:50).

K- It’s the interaction of the two plasmas. One is what you call, your Spirit, and one is what you call, your Soul. That always has that interaction. You always get it. Some people see it as a light, some people see it as an electric shock, or some people see like a shiver, I've got a shiver, we call it. But it's two plasmas interacting, interchanging, overcoming the other. And it's instantaneous. That's why if you've been with us in the flight system, we never tell you as I said before, fly to. We tell you, can you go to.

Because this is instantaneous, you expand the Soul at the point of dimension of the receiver.

These new Head Units we put out, they will bring you to the point to see your Creator, if you understand how to use it. They are the most amazing things you'll come across, especially the new version which is coming out in the next few weeks. And it is part of the process of Creation.

Any other question?

R: I'm hard pressed to find other questions here Mr. Keshe. (2:52).
K- That's good. We call it the day.
R: Sounds good. We have a belated hand by guess who, Jalal. So, I suppose we'll have to let he in.
K- Let him in. He's got three questions.
Q: Mr. Keshe, why I always I am the bad guy here.
K- You're not the bad guy, you are actually a very good guy. You have brought, you entice people to do things and then they follow it.
Q: So, next time please can you say, you are good as Jalal, not worse than Jalal?
K- As good as bad as Jalal.

Q: Mr. Keshe, if we say that Solar System is a cell, and this is from what we learned from you. Whatever come across this cell it will change in the condition of the cell, yes?

K- Yes. Depends if you accept something from it. The change will come if you accept, or take something from it.

Q: But if you kick the dog, the dog will shout.

K- Who said? Maybe the dog enjoys and laughs.

Q: He wouldn't react, so.

K- Yeah, depends on the dog.

Q: That's very good question. Thank you.

K- It's the way life is. (2:54).

Q: .. I sent you a message Mr. Keshe in Zoom. ..
K- I'll get in touch with you afterwards.

Q: .. By the way, the basic of this today teaching. You brought in the health, the public health teaching about the skeleton. A lot of this teaching is there. So, for the people who would like to go to the ground of this teaching, they can receive it there. Thank you Mr. Keshe.

K- Thank you very much indeed. Let's see what we can do. I'll respond back to you on the message. …

I hope today we opened a new what we call it, insight into the world of Creation, and how we as, what do you call it, citizens of the Universe, learn how to give ourselves manifestation of physicality as much as manifestation of plasma, (2:56). the STP. Today wasn't just to teach about how we receive Cosmic Rays, was how we can use this to give ourselves dimension of physicality in other dimensions. And it's got to be understood in its full capabilities that we can go to the next step. For sure next time we'll give you some more understanding.

Q: .. Regarding the Keshe Gans Knee, the Knee Gans. Can it be applied to a broken tooth or re-growing damaged teeth as well?

K- No. It's a different. Totally different.

This knee trial has brought a lot of interest. We've seen a lot of questions around it, a lot of people trying to find out if they can… This trial is fundamentally for next step of development for us in research and development, but it has a huge capabilities and capacities in how you use it, how you use the fields of it. And those of you who have taken the option to join the trial, try to explore the possibilities of its use, (2:58). in a given space we have indicated.

We've got to understand this creates a field of matter state, that's what it is. And this is important. And partially you will learn how to convert energies to matter. This is part of the structure, but the live combination. It's beautiful the way it works, if you understand how to use it, and how you apply it, and implement it, and what you accept to be.

This Gans is… I enjoy the, what do you call it, the application of it, and the implication of it. To see how much you will come back or you, the way you helped us with the vision goggles. Now what we see from this ?? application.

We call it a day.

R: Yes, thank you very much.

K- Thank you very much indeed. I think this teaching of today will be one of the most historical teachings of the Keshe Foundation, if you understand it. For man understand how to take energy ??...

Q: Mr. Keshe, do my 100 Euros are still valid in your pocket?
K- What do you mean?
Q: I have a purpose in that.
K- Is your 100 Euro valid in the pocket? I don't understand.
Q: Yeah, you said you will keep my 100 Euro as a souvenir.

K- Ah. (3:00). I'll give you the answer for that one day. By the way, thank you. Thank you very much. See you next week. And please, those of you who are dining with the Creator this week, you bring food for the Creator next week. We'll run for the whole week. On the 24th join us with meeting the world leaders to bring the change for the peace. And in April we announce, for those of you who are entangling and got family members with drug addiction, addiction as a whole. That will bring a huge change for us. We put up the April meeting very soon on the Keshe Foundation site. But meeting with world leaders is on the 24th, you can join us. And if you're still hungry, join us in the what you call, next week to see what will bring. And if it is what you bring, let us know what effect had on you. Thank you very much. See you next week.

C14 made from H interacting with self; Transmute to any being or place by changing COHN; Secret of life in U; China says peaceful use of T - KF transfer T to China; Purified nuclear material only for space; Last generation trapped in P - children of Mitra made of plasma; Man lives 2 dimensions Soul & P - schizophrenic; Detachment is from gravity of planet not P; Need higher order of energy to enlighten; Can become animal plant; expand Soul to C14 track; Control by religion over.

ENGLISH TRANSCRIPTION

(:04).
K- Yes, good morning, good day to you. As usual whenever and wherever you listen to the series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We welcome you back. Some of you are here from eating and bringing food in the past couple of weeks. And some of you are waiting to be fed more by tomorrow when we close the table.

We would like to bring many of you back in the following days, maybe Monday or sometime next week to discuss with all of you who took part in this dining with the Creator to analyze. We hear beautiful results, some people have achieved. Other things, some people have managed to do things, they didn't know they can. And this is the feed back, we need for you to understand, and for us to complete the "table of dining" in the

space, where you're on Mars, or Moon, or in Planet Zeus, and you still want the food you like, and it's available to you.

The way you came to Linz and you left the fingerprint of your Soul. And now the system has become in a way, connected to all nationals, and races, which we could do, this is the way to bring your national foods on the table. If you are American, and you go to space, and would like a Chinese food, our Chinese friends have left the fingerprint on it. So you understand everything we do, has connected to, and is connected to what we are doing the next step.

So in our process, we have set up another session, which is with the world leaders, which is on the 24th of March in two weeks time. Please try to join as many as you can. This is important. (:06). The way we bring the fingerprint of peace.

We've seen today, in the Congress meetings of the Chinese leadership, CPC, the Science Minister of China has opened the door for science and technology to develop in China to advance the nation to be used as a peace of tool, tool to create peace, not to create more war. New technologies, new advancements in technologies through the Chinese government to become a tool for peace, and not what we've seen in the West, the advancement of technology has become bigger and bigger aggression and war, selling equipments.

We welcome this movement by the Chinese government. And accordingly, we have conveyed our message clearly and directly to the Chinese leadership, in the past few hours. We join the Chinese program to bring technology (T) in exchange for peace. In my upcoming visit in those two, three weeks to China, we'll make sure the full technology from purification of the nuclear material to 100% purity within hours, to establishment of the new satellite system to farming, to military defense of the nation of China, and South China Sea, and across the world. To bring peace will be upgraded. And new technologies will be handed over to Chinese government, especially the Defense and Military, to make sure if what they have written in their Constitution in the last week, to bring more advanced technologies to create peace will create that our condition.

Unknown technologies will be handed to the Chinese government which will paralyze the defense technology of the West, and the rest of the world to bring everybody to position of the peace.

It's the biggest step for us. We knew we were told by this Congress, (:08). Keshe Foundation technology will become part of the work of the Chinese government. And as they have done, we are responding accordingly back. We are, we entering to delivery of nuclear material at the highest purification to any nation for development of the space technology, not for weapons. The technology we deliver is not a weapon technology, it's a space technology. Without it, you cannot go into space.

On the other hand, we make sure that the nations stay safe, with the power and the conditions, which creates through new technology, through our collaboration with the

Chinese government. On the other hand, we are straight forward with what we have done, and we are doing. And this work of the 24th of the March, "Dining with the World Leaders" to bring your essence of peace, the way you brought food on the table. Now you bring peace on the table, ?? it will in fact ?? touch the world leaders, and we'll see the changes. We expect a number of ambassadors, and we expect a couple of world leaders to be present. I have asked ambassadors and world leaders if they want, because they come through hidden numbers, to introduce themselves if they want, if they want to participate to be part of our program, part of what it is.

On the other hand, we allocate in April, a day for addiction sign in. Get people who have addictions, instead of paying thousands and thousands, and god knows, a lifetime of suffering, to join in. We have had addiction section in the 19th session of the December, part of the Keshe Foundation and we have seen good results. So, in a way, if one session can help you to feel what happens, then other sessions can come to complete it, (:10). to walk you from any kind of addiction sex, comes drugs, comes gambling, comes alcohol, come in, join in. And sign people who you love to it, and get them to sit for a couple of hours with us. In a way, we bring the change in.

If you look at the Keshe Foundation website, both sessions have been put up for you to sign in and come in. On the other hand on the 24th Session, the Universal Council members are signed in to be there. It's your obligation to be there, as you carry the connection to the next step. In Keshe Foundation website, we have released new bundles for peace. These are to promote the Keshe Foundation products, and at the same time to bring in a way, that what is still there, and what is developed to be released.

Coming back to the teaching, in the teaching of past few weeks, we have come into massive what we call, "understanding of technology beyond the present knowledge of man." In the last weeks, when we entered the carbon 14 (C14) and carbon 12 (12) understanding, many of you were left in two dimensions (D). Many of you could not understand what is exactly your position, and how you dream, and how you walk, and how you become part of something, which you were not aware of.

In a way, you've got to realize something, when I teach when I start teaching something, there is a reason behind it. It's opening another science and technology. In the teaching of the what we call, the past few weeks, we spoke about hydrogen (H), which is as a plasma, not as a matter. (:12). Which on its line and energy gets "piggybacked" (rides on top of) by C14. The energy of the H is there. Without C14 connection is not made. Carbons are the connectors. Be it in a diamond structure, be it in the body of the man in your "Mr. COHN" amino acid (AA).

So in that process, many of you, you should have guessed what is to come next. This ray this Cosmic Ray (CR), this "piggyback" H, which is the essence of even the essence of the source of the Creator itself, with a package of energy we call, C14, which actually comes from the interaction of the H itself as a, what we call, a field not as a ray.

In interaction and reduction with itself, creates that C14. That's how carbon 14 is created. Is from interaction of the fields of the plasma of the hydrogen itself, coming into stability of the connection, carbon 14 is created. It doesn't just come from nowhere.

If you look at some of the teaching early teachings, we always explained when the rays interact, in their interaction, they become fields, and this is what you get. If you understood that part, then one of the biggest mysteries of the Creation for you, should have been resolved. Why can't you move and become another creature in another D in the Universe (U)? (:14). To you up to now has been a puzzle. To us it's understanding it, which moves that puzzle to a new D.

What happens when in the language of the man we call it, "Mr. COHN," which you all are very familiar with. You need a combination of the minimum 4 matters to become biological. In conjunction with the field gravitational environment, you become entity, become a muscle tissue, you become a cell of a body. But that AA is the foundation of it. Once this AA attaches itself to calcium (Ca), you become a man. That Ca allows you to become created in the entity in the life of a man on this planet.

Now, you should see the connection. Now, as Knowledge Seekers, you should have become wise. You already have this (C14) and you already have this (H) in combination of the AA, what we just talked about, if you look at it. You have the stacking. The carbon and hydrogen are within the system (CR). (:16).

< break in audio >

So, what happened what we saw. We seen the hydrogen stays as a hydrogen. The carbon 14 changes to C12 in interaction with the gravitational magnetic (GM) field of the Earth. In interaction with the skull of the man with Ca. And this carbon 14, becomes the embodiment of the plasma. Again playing the game of an odor, crystal structure. On Earth because of the calcium, presence of the calcium, you need a nitrogen and an oxygen which is gravitational fields in the dimension of the gas and liquid, to connect the amino acid to Earth, and create a source of energy, which is nitrogen.

If, not if, you all understood this part, (:18). then it becomes very easy for you to understand this part, in going into the world of the Creation, you have the basis of life anywhere in the Universe. Now, what happens to you. Now, what is going to do, when as a human life, you go up into the space, if you want to go to back to the source of the light, you saw as a star. You have the carbon 14, you have the hydrogen, this is the fundamental construction of life in the Universe.

You want to go to Planet X, but X has the storage capacity of replacing oxygen to the gravitational field force of let's say uranium, and has source of the energy, which has to be above uranium, which is plutonium. So, in having the line of the common denominator of the hydrogen and the connection line of the carbon. In arriving at a point, in interaction with a condition of the environment, you automatically move using your hydrogen and a carbon in a backtrack of it, into the new entity. You exchange the

nitrogen and oxygen to uranium and plutonium. Now you understand why we make it available to every nation, the possibility to have access to 100% pure plutonium and uranium that allows them to travel the span of Universe. (:20).

We are not entering a military game, we are entering a space program. We're entering, understanding the process of the Creation and dimension of the travel. Now you understand how mankind will transmute, and what tools of transportation man will use. You use the hydrogen as a baseline, and carbon as a connection line to the rest of the Universe, this Universe.

In the education of the Unicose we'll teach you how these two will connect to the other Universes, that you can transmute from man to another Universes and other dimensions. And if man become intelligent enough, he can find the path to his Creator in one instance, one second. Now you understand the whole purpose of the teaching, why we went into Cosmic ray, why, step by step, I explained to you last week how your body changes C14, through Ca, to whatever.

If you don't have a condition of creation of the matter state of the Ca in a given position in the Universe, you still have that beautiful Soul, which is within you, which you brought with you. You still have that "Spirit," what we call, the Soul of the Physicality (STP), which is an energy pack, still with you. And if in this point of the Universe, there is no what we call, matter state condition of manifestation, you manifest yourself as energy pack, (:22). as a Soul, as a plasma.

If in that position that you feel you want to be like these creatures on this planet, you have access to a spectrum of the energies, which is available to them in the atmospheric and gravitational field forces. Now your skeleton instead of being made of Ca for the plasma of the amino acids in respect to the Inertia of the gravitational field of time and position.

Now, you have, let's say, whatever you like. You have Fe, as part of your body, or any other entity. So, your bones, your structure, in that position does not have to have a chest, and four arms and legs. In condition of the existence in that position, when you come, you become made in a physical matter of Fe, Fe becomes dynamic solid, like our bones, allows you mobility, motion and move. And what are the elements with the matter state of the position you create, you manifest yourself in the dimension of the position and time. No one knows you're a foreigner, you're from another dimension.

In connection with their intelligence, the way we have taught you, you came through the teachings of past few weeks, you will know their language, you know their life of living as part of yours. Information and emotions are field strength connected, and you can connect to any dimension and position in the Universe. The way you connect in your dreams with your mother, (:24). and you feel her crying, or laughing, or cuddle you. The way in dreams, what you call, you have fear, you're running away, or you have a joy having a drink in a party. So now you understand. How did you know that fear of mom,

or cry of mom, because it's inherent in the body structure of the physicality of the plasma of the life of the man.

This is why we explained you. You will know the children of Mitra will live in the space so easily, because they're created out of the plasma. They do not need the connection of matter state to convert. This is why so many of you have a problem in transmutation from United States into Linz. Your children when they're created out of the love of the Mitra in the dimension of the creation of plasma, don't have your problem.

You're the last generations of man who will suffer with this not trying to be able, not being able to transmute. Still have to transport. Children of Mitra will switch from transmutation to transportation, manifestation and reverse.

I did not come here to teach the man who is killing for thousands of years and change in one go. That's your dream, it will not happen.

The children of Mitra which the man will create, will come with that essence, will come with that dimension. They do not fight, they transmute. They will not stand argument, they move on in the energy dimension in another position. (:26). Or they see the point of the argument, they create energy, they give that the argument doesn't even start.

You are those who see the last man standing in the dimension of physicality. And, if you understand this, if you can elevate your Soul to go beyond the dimension of physicality (P) in the interaction of the Ca to become a man, you will do that transmutation too. When we say to detach, is to detach from gravitational fields, from the dimension of Inertia of this planet, not from your physicality. Because you need that to be able to manifest yourself somewhere else.

Now, you understand the process of transmutation. You go to an airport, you get on the plane and you go to another position. You come out of the plane you're still Mr. Jack. Here through transmutation you travel without the plane. In essence, in the Soul you are Mr. Jack, but in this environment, they don't speak languages, they understand emotion, and you're Mr. Joo Joo. Inside you know you are. It's the same as when you dream with your mother. From the fields you know it's me who's feeling the love of the mother, and you created that position that the mother sees you, that talks to you. If you go to the mom and mom doesn't see you, how can she serve your food, come and sit down darling? Is she crazy in dimension of the Soul and is talking to herself? Or have you manifested yourself in this dimension of Soul in front of her, that she recognizes, this is my child? (:28). You have the same essence when you're traveling in the dimension of transmutation.

Now, you see what goes through that little eye of you, the dimension of the man, in dimension of physicality, and in the dimension of the man, in the dimension of what we call, STM. Now, you understand why from the beginning of the teaching in the medical teaching, in the health teachings, and everywhere else, I spoke about schizophrenic, the "beautiful people." What is beautiful about 6 of these living in one skull. Because to

those in that skull, dimension of the physicality does not exist. They are there as a one bunch. They live, they exist in the dimension of the Soul and physicality.

Individually. It's like a neutron and a proton inside an atom of Ca. Each proton has its own connection of what we call, neutron. And in interaction with the others in the dimension of the energy transfer electron. How many of these are within one skull? You have three characters, (:30). but in essence, each one of them has access to both rays of physicality and C14.

One might reside inside your skull. But in fact in dimension of physicality, lives in another dimension. It was created here, but has found no room and he has left, but still has connection. Man of science will see many of these in the coming time.

So, if you look at it, you were born, even if you are the only resident in your skull as an energy, as a schizophrenic, anyway. One connected to Universal Community, and one connected to man. As I said, exactly like the "Chinese eyes." Which one sees what?

Now you understand why we come this way, why we taught about the Cosmic rays, why we taught, we explained about C14. Why, as I said, from the beginning of the time, when we spoke about "Mr. COHN," that carbon is a connector, connects inside the man, and through C14 connects to the Universe.

You already had, this is the channel you go and see mom in the dream. You travel on the C14 line of your Soul, and inside the body, you speak to your brother alive on the C12 line. I had a dream about the mom last night. I traveled on the junction 14, not on junction 12. I'm telling you 12, but I saw my mother on 14, you are not there, (:32). mom was going somewhere else.

How many times you have woken up and you said, I saw mom, and you were there, and we were having fun? I have no clue, just looks at you, you were dreaming. Because how many of you ever spoke to another person and said, I went to see mom. I say, oh yeah, we were there. Do you remember this and that. But we were both asleep.

Now man has to understand the characteristic of his schizophrenic life. Man has to understand the dimension of his existence. Man has no choice, as I always say, you're ?? lumbered with it.

Now you understand, there are no magicians, and there are no protectors of the magician. Be it the Pope, or Ayatollah Khomeini of Iran, protector of the faith. Faith of who? Except their own lies and imagination. As now you have the knowledge, you have, and you don't need any protection. As the protector of you is your Soul. This is how the end of religions has come, that you have become aware of the truth, and not us becoming a Methi.

Now you understand how you as a being have access to two lives, in the dimension of the Soul, or in the dimension of physicality. (:34). Once you called a dream, once you call

reality, but in fact, you ignore the reality, and you're stuck with the dream of physicality, and with all its suffering.

Now, you have that choice, because you have access to the same line, the same thing as before. It's you who has to fill up the other two parts (C & H remain - fill up the O & N to specific location of AA) to be manifested in a given dimension, position and space.

Your mother could be living in a dimension of let's say, K or whatever, and your father lives in the dimension of phosphorous somewhere else. Because their Soul in working and developing, created the strength fields, that position them in two different positions in the Universe, even though they'll still be communicating. How do you know that your mother who passed away 20 years ago and your father passed 10 years ago, are not in communication, are not worried about you children, how you're screwing up your life as a physical dimension. How many times they would have said to themselves, why didn't we, how come we cannot go back and teach them, and show them the reality of their life in both dimensions.

How many of you, which come up with this nonsense of near death experience, and I've been to the other dimension and comeback, (:36). you cannot do anything. Because you didn't see anything. The completion doesn't come till the, what we call, separation is completed, because then man finishes with the mess he has created in the dimension of physicality.

Those you call Prophets, those who you believe, and a lot of have made a lot of lies with them. For a few minutes in their lives, they managed to live, to get information in the dimension of both through channel 14, to a knowledge of the Universe and the rest. Then now that all of you understand this, and if you can make this connection, you're all prophets. There is no need for prophecy. There is need for understanding. And the knowledge of the Creation and the Creator is a logical physical interaction of the fields, that when you understand how they interact, you see the outcome. Some create emotion, some create physicality, some creates motion, and the rest of it.

Those who mix things and abuse it to their benefit like Moses, bring it to this mess of man today. And those who add to their lies, and the cheats of their prophets, like Ayatollah Khomeini of Iran creates a bigger mess in the nation in the mess we see today. (:38). The same we see in Ukraine between the Christians from the Pope, to the Church in Moscow. There is no prophecy in their work, it's ?? visibility in their work. What is the "profit" in their pocket, what do they get? And then you have the rest of the mess created, their children and their supporters who steal the rest of the nation with it.

If mankind understand this, if mankind become wise to the end of the prophecy, because now he has a knowledge to be a prophet both in his pocket and in his Soul by himself, none of the mayhem we see today will exist.

You cannot get to that point till you have access to the energy of the higher order, that you can see, you can connect with, you can gain by, gain from, and then move to the next step.

As one of the close allies of the Iranian government told me recently. He said, the biggest nightmare of Ayatollah Khomeini is you returning to Iran. Because they have no ground. If the Iranian nation, if the Christians, if the Jews understand the truth about themselves, why do we need these hypocrisy's, liars, and cheats and murderers.

Now you understand how you can create a life in another dimension by changing the amino acid of the Universe, not the amino acid of the man. (:40). Then what would you do? You want to become a plant, you want to become a shrub on this planet, you still can go through this process. You still can feel how the apple tree feels. You wanted to become a dog, you have the access now, having this knowledge to become that dog. To feel how a dog feels when you kick it, and how it loves to be touched and kissed. "When I am born next time, I would like to be a cat." Why do you need to die? Now you have the knowledge you can transmute to understand what field interaction comes, that makes the emotion, that creates that animal.

In essence, they all have amino acid. In essence they all interact with Ca. So, what's the difference between the man and a dog? Except the ignorance of the man who thinks he is higher than the dog. Now at least you have the knowledge to become the dog, and you have the pleasure to teach the dog how to become a man. Teach him to his Soul, not kick him to his physicality.

Now we understand with the knowledge today how you can transmute. Up to now we sold you jet fuel and ticket for jumbo jet. Airbus 380, (:42). or 747 jumbo jet, or a propeller to get your physicality across. Now you know how to take your Soul across the Universe. How to convert yourself into the energy and come back another position as a dimension of physicality. This is what we do with you on the "table of the food of the Creator." This is what we do with you when you come to the system and we transmute you. We energy pack you. There is no prophecy, it’s a knowledge, science of Creation. It’s the totality of understanding. It's understanding everything needed to be understood by the man. And how the man meets in his own totality, in our own understanding of everything he needs to.

How did man get himself to this mess, it's something in the future, one day I might explain. How did you as human race got yourself in this job? In this mess, in this, what I call, "caboodles of misunderstanding the totality of life in the physical dimension." (:44). Where did the man go? Where did the man went wrong? What happened to the man? How did man progress to this position?

If you understand what's on the screen, in conversion, connection, transmutation between different lives on this planet, and how you connect to the life, and life of the Universe. Then you understand you become a prophet. Because you can prophesize your own destiny and nobody else's.

In the world of matter state, you hold somebody's hand and you drag them in, "we're going for lunch, you're coming." In the dimension of the Soul, you can't do that. Unless I want to come. Gravitational magnetical positioning. I can position myself according to the will of me, and not the force of you. According to the love of me for you, and not your what we call, arrogance and bullying. (:46). Now you understand the life for the man to come in the space is a peaceful life. It's what is needed to be changed here for the man to be able to live in the span of the Universe.

Now the future, your destiny is in your hand. Now you know, you need a car to go from A to B. Now you have to find and search within you, to find the connection with the C14 in your body. One of the biggest problems, which you have faced, and we became like magicians for you in past few months, is that, with this skull you have, with the magnetic fields of C14 coming in and becoming 12, and then going 14 in different strength. You could not expand the STM fields to go out to become in touch with the C14. That's all we do in the Enhancement Units. We put you in a machine, we give you two headphones, and we get this guy out of his cage. And now the rest is yours. Chillin kebab, as Azar said last time, or another friend was telling me, he stopped eating chocolate since he went on the table, he sees no need for it.

You go to see the grandma, or you travel to the Moon and you swim in the oceans of the water underneath the surface, that no man ever knew existed. That's all we do, for you to understand you can do. (:48). That's all has been the purpose of the teaching. We had to teach you the Gans's to show the body's made of the Gans's, it has field. And now the expansion of the fields brings you to our system which says, come on guy, get out, you can do what you didn't think you can. And now you're out, you're on the tracks of C14. Then it's not a dream. Now you're in the dimension of the Soul's Universal energy.

I promise you one thing, and as man you will understand, on the line of the C14, either way, we have no Prophets, no Ayatollahs, no Pope, no cheaters and no Rabbis. No kings, and no one is higher than the other, except being the passenger of the Universe, all equal.

When the time comes, we'll sit to see the judgment of the Soul of the world leaders on their own physicality. In the next two months, we will see one of the world leaders will come to his demise. In the next two or three months, we'll see he will kill himself or he will die. Because during the time of his reign, he's done so much injustice. We are not telling you this just because to say, we're telling you this because we know what the Soul has decided. (:50). Every cheating, every murder, everything possible, going to bed with all people for his own benefit, will come to an end. And now he has to answer to his nation. The Soul is aware of the outcome, the physicality has to accept the heart attack, and the brain hemorrhage and the prison. Because when you live in the dimension of physicality, you don't abide by the laws of the Universe. And whoever is done wrong will come back to themselves, because the Souls ?? will ?? balanced it.

Now we see how you as Knowledge Seekers have become more knowledgeable than those who pretend they read the book. The problem of religions today is that the new

generation does not accept the rubbish of their churches and mosques, the Ayatollahs and Pope's, and the priests. Because now they have access to Internet, they have access to everything else, that the guy who cannot even read claiming to be a priest, now the youth confront them. Because the knowledge is common to all. (:52). This knowledge of Creation becomes common to all.

Many of you have started living the normal life, which is you both understand the dimension of the Soul and dimension of physicality, and gradually you're trying to adjust. What happened here, why happened here? This must be the Soul, this is the Soul and this must be the physicality. I have to accept, I live with both dimensions. Then sleeping and living becomes irrelevant. Because the STP and the physicality and the brain within the STM are in a working condition 24 hours a day. You do not even know when you're awake. You do not know when you're asleep, physically. The wife says, you've been snoring. You say, no, I was here doing the job this and that.

Because now, in the dimension of the STM, and the brain of the man and the physicality it's all unison's work. The body has to park itself to recuperate. But the Soul and STP don't. Now they can openly interact. They do half of the work while you're asleep. Dimension of understanding now is in the hands of the man. It's you who can become ignore it. Or it's you who come to embrace it and live your life. You do not need no Methi. You do not need no prophet. And there is no "Day of Judgment," as you judge your day. (:54).

I'm no prophet, we are "Teachers of the Universe." We teach really the knowledge, and we move on from one school to another. Today's school is Earth, we teach. The next school is where the Creator and the Soul of the planet requests from us to elevate their knowledge. We are no prophets and we are no Methi's. We are the universal teachers. We understand the knowledge of the Universe, as teachers we teach unconditionally. We appear in the body of the man as the man is the only thing he accepts. Otherwise it becomes a ?? mysticism again, and another light, and the fire on the tree, and resurrection and the rest of the rubbish which is gone with it, to be abused. Man allows the abuse himself.

When we teach you the knowledge of the Universe as a universal teachers, we are universal messengers, we just bring the message of knowledge, nothing else. We don't judge, we don't execute, we don't do anything, we stand the suffering in the body of the man to understand how the man suffers to stop that suffering. To enlighten the Soul to teach the physicality. Methi, Messiah, ?? Misha and the rest of it is the rubbish which the man has created for himself to cheat the others.

The only Methi, the only Messiah for you, is you understanding the work between your Soul and your physicality, and nothing else. (:56). The rest have cheated you. They've cheated your forefathers. And through their ignorance, they will cheat your children if they stay ignorant. Educate your children to the best knowledge of the Creation. As Bahaullah said, educate your daughters first. Because she teaches the child not to be

ignorant. To understand the process of the Creation, as it's her who spends most of the time in educating. The father is outside "hunting and gathering."

We've got to understand. We've got to be able to comprehend the Totality of the whole lot. We have to be able to understand the Totality of the process, we have to understand the Totality of the knowledge of the Creation, and how we will come to understand the Creation has been done. How we have been created in the true essence of the Creation. (:58). How we have become part of it. How we have chosen to become and how we have ignorant, and use the ignorance of our own process to be achieving the ignorance of the Universe.

Mankind is ready for that change. Mankind is beginning to understand the change, and mankind has the responsibility to accept the change through knowledge, educating itself and not to be told what to be educated with and through. And this will create a mayhem for you as a human race, for yourselves and nobody else. Try to understand the teachings, and try to become aware of the truth about yourself. Now you have no choice, unless you decide to live the life of ignorance and allow Ayatollahs, and Mullahs, and priests, and rabbis to cheat you.

It is time to understand the connections, and how you connect, and how you're connected. And bring that connection to understanding of the more, and not to become prejudices about the less you know. And then you move on. (1:00). Then you have no choice but to move on, because the educator and the teacher is your Soul. You cannot, unless you decide, cheat yourself. You can shoot yourself in the leg and try to run a marathon, because you do it yourself. But nobody else can shoot you in the foot and ask you to run the marathon, because they want to win.

Understand the process of the Creation, understand what everything which we have taught in past 10 years. Keshe Foundation now is in the tenth year of teaching, public teaching. And then we understand what the next step is. When you listen to the teaching, when you read the books, now, look at everything in two dimensions, dimension of the Soul, dimension of the physicality. You will see the teaching runs parallel with both, because both have the same. One is in the dimension of the entanglement with the matter state Inertia of this planet, called, the physical life, and one is free from that shackle. Because it has no field to match the gravity of this planet. It cannot be shackled to it. It comes and goes, it's on the line of superconductor, C14. (1:02). And the man has got stuck with the physicality, a conductor, C12.

Can you imagine if you could make a transformer with C14 with the knowledge of C12? Can you imagine if you create a receiver and a transmitter using C14, but the knowledge of C12. The whole Universe will hear you. Then can you create a combination of the C14 embedded in C12, or C12 embedded in C14. Then you can move the Soul to cover the physicality, or the physicality to cover the Soul. Then you can transmute between the two. I'm in a office in New York, and I'm physical. I change, I go in the dimension of the fields of C14, I'm in London in two seconds. I'm on holiday. I don't need to spend 18 hours in airplanes, airport, driving to the airport and the rest of it.

But ask yourself, how I'm going to carry my suitcase? What about my child and my husband wanting to come with me? I would have gone on holiday on my own. Then you'll find consensus, then you'll find agreement of the Souls. (1:04). We're going to London and we're going to enjoy ourselves. This is the address we all are going to land, so we go together. Then no parents can drive their child for holidays, which he or she does not want to go. Then the parents will not have a child who does not speak, because the parents have to understand the language of the Soul, teach the Soul, the physicality does not need to speak.

Then there'll be no dimension of dumb and deaf. The dumbness and the deafness is to the man who cannot hear the dimension of the Soul. Why do we need the sign language? When we can speak with each other through the Soul, understand the emotion. Then we all become dumb and deaf, then no one can cheat us. The process of the knowledge is understanding it according to your intelligence, and embracing it, and applying it.

And when you apply it, don't make yourself ?? wonder and puzzled. But enjoy that you understood that you can do. I didn't know I can cook, but I made a beautiful pizza. I didn't know I can sew but I sew a beautiful dress. I didn't know I can go to my Creator, but now I do. (1:06). I don't need for the mom to come and make the pizza, I don't need for auntie to sew the clothes, and I don't need Ayatollah to take me to my Creator.

One of the funniest things with you will come notice, it's why religious people interfere with the politics. If their job is the connection between the Creator and the man. Because they are not what they say they are, their businessman in a frock of the Pope, and Ayatollah's, and Mullah's, and priests, and rabbis.

We have the responsibility not to allow anything to happen to our Soul. We're responsible for not allowing nothing to happen to our physicality. We are responsible when we allow it to happen. But what are we going to learn from it?

Our doctors today are searching for cancer people, because they think they have found the combination of solutions for cancer. You know what's interesting when you speak to these people, is that they're dying and they come in and still argue. If you come to the doctor to ask to help me, why do you argue? So you should have done yourself. Or you know how to do what the doctor does. Or you know how to elevate the Soul that the physicality look after itself, (1:08). then you call yourself a doctor.

Today, cancer is resolved matter. If the man, if the knowledgeable doctors understand what the cancer is. The cancer to humanity today are the religions and the religious leaders. And when we take those cancers out by elevating them, the world leaders, for them to understand, man will come to live a life. You have a cancer in your body which kills you. You have a cancer in the society in the name of religions and leaders, which they kill the society of man.

Today, the reason I explained we are going into development and delivery of the high enriched nuclear material for space technology it's not something new. I wrote this to the head of IAEA six months ago, Iran has access to 100% enriched uranium. But it's for elevation of the STM, for man to transport across the universes, not for Ayatollah's to make a bomb. As they're short sighted, they said, "oh, he is an Iranian nuclear physicist, he's doing for his nation." I do for the "nation of man," for the humanity and the citizens of this planet. But to apply it to elevate the Soul, to create the dimension of the transmutation and transportation at the same time. (1:10).

Try to understand the teachings of past few weeks, connect all the lines together. Why we asked you to come in and meet us in December, in January, in February, and we fed you on the "table of the Creator" for two weeks, was to elevate your Soul. Now, you ate on the "table of the Creator," you come to the table of the leaders to tell them we don't need anyone to lead us, except ourselves. That's your responsibility for 24th.

And then the next step. You came to take, but you didn't understand it. You're taking from yourself the pleasure to understand the process of the Creation. When we talked about your Soul, many jumped up and down. He's a Soul taker. No, we are there to teach you how to free your Soul for yourselves. We don't need any. With a flick of a finger I can take a Soul of a Universe, forget about humans. I remember in discussion with Dr. Elyia Kostova. A few times she said, you know why you people come here? Because the Earth is a very good state, for you to take what you need. I said to her, you have not understood what we have come to give you, that you don't need no state, no nothing. We give you the Universe. (1:12).

It's how you have perceived, and how they made you to perceive. No man should be subordinate to no creature in the Universe, let alone church or mosque. Let alone synagogue or the temple. No man should be shackled in the dimension of physicality, that the Soul is imprisoned with it.

Now go back and try to understand what you had as a dream last night. What was the reason for it? Who did you see? And if you have learned the teaching well, you can have the same dream immediately or tonight. And then you say, why should I have this dream again. Because you wanted the replay to see if you can go back to the same place as you've been before. "I made man in the image of myself." But My image appears in trillion ways and dimensions across the Universe in other men of the Universe. Because what is the image of Me in the man is the essence of My generosity and love, and nothing else.

Man can be blind, legless, or armless, but man cannot be harmless. To cheat is dimension physicality, to dimension of the STP with the Soul of itself. (1:14). Now, understand the technology, understand the knowledge and try to understand the fields, not the Gans's. Today's teaching is very deep. But you as Knowledge Seekers have been taught enough to be able to swim the depth of the knowledge. And don't get entangled to physicality of the MaGravs and the Gans's, and your own false imagination.

I am the Messiah, but the Messiah for my Soul only. I cannot save your Souls. But I can teach you how to save yourself, if you understand it and choose the path for yourself. Not the way I came and the way I did it, otherwise you become a monkey on the tree of the monkeys of the Universe. Understand the technology of the Creation.

And man has a habit, that once you understand the technology, he creates the machinery for it, to be able to do it. That's what we've done in Linz for you. In a physical dimension we have created the Enhancement Unit. In the dimension of the Soul, we allow the STM to be freed. It's you who has to choose the freedom, not us. We open the cage, it's you who has to be the bird who comes out of the cage and takes wings in the fields of the Universe, and flies in every dimension. But the cage is open for you to come back in and live the dimension of the physicality. (1:16).

This image on the screen has a lot of meaning, and is, if you understood, takes the shackles of physicality from the man. Without any prophet, without any intermediaries and cheaters like Ayatollah's, and Mullah's and the Priests. You might think I refer to them a lot today, because we've finished with them today. We don't need no intermediary. When the man now understands his connection with his Creator and the Universe. No cheating and no cheaters, unless you want to be the monkey to be cheated.

It's you who decides how the Soul expands. And when you expand you accept the expansion and understanding and interaction with others.

Thank you for today. And I hope as Knowledge Seekers your seeking of the knowledge has led you to freedom from the shackles of the man. The rest is for you to find out. We are here as teachers to teach, and claim no more. We are the same in essence as the Creator. Thank you very much for today. And as I said, we have to go to a meeting important meeting ??. And we'll come back to normality of the teaching next week. Thank you very much.

ENGLISH TRANSCRIPTION

(:08).

K- Yes, good morning good day to you as usual wherever and whenever you listen to these series of Knowledge Seekers Workshops (KSW) of the Keshe Foundation SSI, we welcome you back. As Rick said, to share knowledge and that's the whole purpose of these teachings.

We're the ones who know, and they share, and the ones who listen might add their knowledge to it, to share with the others the more. In today's teaching we go back to some of our old tradition, (:10). making a few announcements in the beginning and then going back into teaching. First of all I would like to give the best regards for the Iranian New Year on Tuesday, as we'll not meet until after the New Year. It's the beginning of Spring and a new beginning. I give my best wishes to all the Iranians and those who believe in the path of Mitra.

We made some announcements last week because of shortage of time, in the short teaching session. Some "bundles for Easter" which have been made available. And we have made announcements regarding the meeting with the world leaders on the 24th next Friday. Join with us in that, that we can bring the change. We have some ambassadors, and a couple of presidents will be on line of us, if they want to join themselves, or they stay on the VPN on the background in different channels, unless they send a message they want to come in, we keep the same.

We have done a session 2 Sundays ago regarding eating, dining with the Creator. And one of the last week, and the week before we provided the food, our Knowledge Seekers (KS), then they brought their food. We would like to meet with you on Sunday at 12 o'clock, those of you who participated in this. And understand why and how this happened, what emotions, what feelings, what has brought you, and that process, how we can bring, (:12). for you to learn to eat from the table of the Universe (U).

When you go to space you do not have "chicken and chips" or Sushi or the rest of it. But somewhere down the line we need energies. What did you learn? How do you gather energies from the U? How do you feed yourself? Part of this will be given to you through the Soul this Sunday, and part of it you will learn to do.

Some of you have already had a profound understanding of the process, and become wise to look beyond. And you understand one thing very simple, when you are on a condition of the physicality (P) to be connected to that physical condition, you need to have a connection. Which means to give and take. It does not mean to kill another object, or destroy it for it to take, but live in harmony with the fields of that environment. In a way, we learn to live with the energies of the environment, and not to destroy to gain energies of the environment.

In that process we learned a lot more. We learned that the life is without pain, without illness, because the body balances itself. In that process we become much more wiser in every aspects of knowledge of Creation.

Then on April, we have put addiction (Session). It will be good to have every KS to come into that session, (:14). because it's on the back of what we did 2 weeks ago. Food is an addiction. Killing to survive in the name of wheat, rice, lamb, chicken is an addiction. How can we get rid of this addiction, and tap into the Universal Energy?

The addiction is not as most of you think, even though some of you will see that, with alcohol and drugs. Killing is an addiction. What you love is an addiction. And how do we handle it? We call it hunger and we kill for it. We go hunting for it? When we talk about addiction it's beyond understanding of physicality. Abuse is addiction, when you go from one condition one situation to another, and meet the same condition, there is an addiction, because that condition gives you certain energies, certain impact, certain emotions.

Then you understand how through the addiction, we can even stop what we call bullying. How our children are addicted to it. Power, possessing power. After meeting the world leaders next week, is an addiction. And this is the purpose of the addiction session on, in April. We are not going to give you a solution for cocaine or alcohol, we're going to elevate the Soul of the Man (STM) to understand not to be shackled, with the repetition, to a need to be connected. (:16).

Because what is the biggest frame of the addiction, which many of you have not even come to understand, is a flight becomes an addiction. Separation of the Soul from the physicality is a worst addiction, that actually touches many, many creatures of the Creator. If you get in the habit of going, traveling. As we say, you get an "itchy foot." What happens when you get an "itchy" Soul? And then what's the next step?

The addiction is how we develop this process. All our teachings is to bring man to be part of the Universal Community. All our teachings is targeted for man to ?? leave the village of Earth. And so when we talk about these things, we make it two ways one for the physicality, and one for the energy pack we call the STM. What is next?

We see how energies coming together in combination of the carbon (C), hydrogen (H), nitrogen (N), or oxygen (O), which is part of the "Mr. COHN," in a stronger fields become addiction to cocaine. Just go and look at the chemical, chemistry binding of addiction materials. Even sex has an addiction chain. You can see it. How many carbons it carries. How many H it carries. Then now, change the same C and H into the dimension of the carbon 14 (C14), and Deuterium. (:18).

In the last week's teaching, we touched on the balances, on the equality, on similarity between these. But I'm sure many of you did not come to comprehend what's the next step. You have the combination of what we call, C, H, O, and N. If we do it properly and understand it, it's actually the H is the back, you have the C, which links created out of it,

you have the O, which is the interaction of the two, depending on the dimension, and N is your energy collector. But you talk about C12 in the dimension of the physicality. You have a H in that dimension (D). These two (O & N) are dictated by position.

But go back to understanding the process of the Creation in the dimension of the Universe. You have now very simply, a parallel, you have deuterium (H2) you have C14. What are the other two (for the O & N)?

When we speak about Universal magnetic fields common denominator we always speak about the Deuterium (:20). not the H. In an energetic plasmatic condition of what you call, the H with a combination of the C on planet Earth creates H2O. From plasmatic point of view, which man has never considered, this is an odor (the H2O), that's why it can become a vapor, it can stay in liquid condition. Because when we speak about water, as man does, we have one thing, you have a central gravitational point of the Earth, which creates the gravity. This creates a field call it, atmosphere. In this atmosphere, the combination of the H & O creates liquid. Without this central gravity and containment of the magnetic fields. This will not happen (creation of water). Otherwise we would have had water all over the Universe.

It's the same thing as we always taught you, the minute you put something in your mouth, this is the matter state in the dimension of here (Earth's atmosphere). Once it enters the mouth of the man, and the intestine, this is another gravitational magnetic field. (:22). The water does not behave as water, as outside. Now behaves as a plasma. So, the body of the man creates his own magnetic gravitational field and uses the same fields of the water. Where in the dimensional gravitational magnetic fields of the Earth, the condition creates liquidity, you're liquid, you're water.

So, when we look in the dimension of the Creation, we have to see what combination, what state of matter manifestation comes into. How come the combination of COHN gives us life, gives us amino acid (AA), but when we mix other 4 chemicals, we have no life. It's a solid. You make alloys you put Zinc, nickel, copper, everything else in it. Dimension of intelligence, how this combination leads to intelligence and life is what will be concerned of your Soul in the dimension of physicality of the Man in the Space.

This is why we explain once the man understands the principle of Creation, he has to understand where his dynamism (is), that Creation can leads to intelligence, creation of emotion, creation of life.

What we call AA, is the fundamental base for Creation of life intelligence, not just protein as meat, or protein as life. (:24). AA on its own has no intelligence. It's the liquid dynamic structure in interaction with calcium, in interaction with other elements, in interaction with Zinc, creates physicality, creates emotion, it creates brain cells.

Now, we come to understand how man has to understand his position in the Universe. It all depends how we enter this magnetic field (of Earth's atmosphere). Be the Earth, be it the dimension in the Universe, or be it across within the satellites of planetary galaxies,

or universes. Not all the stars, not all the planetary systems are within galaxies. In the Universe, what we see, where galaxies are, in between we see matter state, we see stars which don't belong to any galaxies. But are created from the interaction of the fields of the galaxies, or Universal fields.

The same is you change the galaxy to universes. In the Unicose amongst and between the universes, are life, existences. This is MaGrav positioning. (:26). This is where the two universes space each other to live. And in that position, there is life. As there is life between the galaxies. As there is life, on Earth in different structures, we have the fish, we have the man who lives on it, and we have the creatures above us, which now we have observed. That we have videoed them. We have recorded them through the flights we have, we see live above us.

So, there is a life beyond that. There is a life between the Earth and the Moon. There is a life structure between the Earth and the Sun. As there is life between our Solar System and a neighboring ?? solar system. It comes in natural process of interaction of the fields.

The way deuterium as a H travels, and is a structure becomes C creates this dimension of magnetic fields. It creates that what we call, "luminous night" (how we see start at night) we see through. Then we understand there is nowhere in the Universe, that there is no life, there is no energy. What we call energy to be magnetic fields in motion. Life is not exclusivity of this planet, never been, never shall be, and anyone who claims it, is fooling himself.

So we have to learn that we had the cat, the dog, the sheep, ?? the tree here, we learned how to live with them, how are we going to live with the life beyond the surface of Earth, beyond the atmospheric condition of the Earth. Or within the atmospheric condition of the Earth? (:28).

We always look down because we thought we are on the top, we are superior. We are a bottom eaters. As I always said, as NASA has shown us we are living on this surface, and they have shown us there is a life above us, but falls down we eat, and we call it energy packs. We see them moving. We have recorded them. They have intelligence, they decide to repeat the same cycle of motion in the same area.

In a way we are all "cuts," if you know what "cut" means. The cut in English language, the fish, is a bottom eater eats anything. And man in effect is a cut, from what comes up from the above in the gaseous level to the solid level. It's like when you throw food overboard in an ocean, some is eaten by the fish on the top, the rest goes to the bottom, and the bottom eaters eat it. It could be 10 meters, could be 10,000 meters to the bottom. And we are at the bottom of the gaseous level.

We have never considered life above us because we always looked down, because this gave us a confidence of superiority. We only look up when we ask for the Creator, whether the point of weakness, or we demand something. But if you look deep enough, if man creates "night vision glasses" as "energy vision glasses," we'll see life above us. We

are amongst other fishes. Are they more intelligent then us, who have taken no shape of physicality (P), (:30). but the interaction of the plasma fields show us. Or do they have intelligence that does not match us. It is very much like we see the fish and others in the oceans.

What is the outcome? What is, and how is it going to be? Can we even get to that point to live in an atmosphere of our own environment? Can we become one of them? Can we lose the physicality as a bone structure and become a plasma to be free floating around this planet, which we haven't even mastered of it? We always ignored it, because it shows the lack of our understanding of our own environment.

Becoming a Man of Universe is not an easy job. It's like a boy wanting to become a man. My grandfather used to tell me, going to Europe is not learning to urinate against a wall standing up. Because in Islamic world, you cannot urinate, when you stand, you have to sit that you don't splash it. And standing to do it, is a sign of becoming Westernized. By learning from the West does not, that you become more human. You lose your humanity.

Now you understand, but becoming a man of space does not become, gives us the right. And to think, that now become a space and the others are looking at us, because we found out how to do it with the Soul, (:32). than before they did. Then from there they learned from us. Then become arrogant, and we fall in the same fallacy of you're the king of the Creation, God forbids. We killed two animals, we've called ourselves the king of, the king of the land. Now if we learn and we've been given the gift of the knowledge of the, what we call, transmutation energy transfers of the Universe, would man in the future call himself the king of the Universe?

Man is fallible, man will destroy his physicality, but cannot destroy his Soul. Then, in the process of the Creation, all we look for, all we sit for, is how and where this combination of interaction of the fields come from. What can we do with it? And what gives us energies, that puts us outside the frame of the physical boundaries? We call it, cocaine addiction, they’re in a different world.

But just go on the Internet and look at the chain of the existence of cocaine. How much, into what strength, connect to these two. We are addicts created out of the absorption of the energy of the Universe from the minute we were created when Mr. COHN connected with CH3, the original sugar. All our energies, we call it sugars. Interaction of expansion of movement we call it, sugars, (:34). comes from the interaction of the two key field forces of the Universe, "piggyback" and housing of it. When you look at it, in this atmosphere, we created the H and O in the dimension of ?? physicality.

In the dimension of the Universe we have the same position. C14 creates the environment for hydrogen and deuterium to live, to expand and to be able to move across. The way we talk about the rays and the fields when it comes to light, or to photons, we have the same proposition with C14 and deuterium. When you see in the dimension of a star, you are on the rays of the Universe. When you manifest it, when they come to the point of

interaction of manifestation, then they become fields. How many rays you have to put together to make that field?

As I always teach to the children, when I teach them. I say, look at this, this is a farming land, this is a land. You put the road in it (down the middle of the land), this is a ray. When you put so many of the rays next to each other, they need the space. They become fields. Field of rice, where the road goes through, or where the line of rice goes. Then it's not a field, it's just a road. It's just a ray. (:36). When you put too many rows of rice together, you have a field of rice.

But in the Universe is simple, the interaction of these rays creates a field, we call it C14, where the hydrogen ?? is a deuterium, it's the road, the pathway. If our scientists understand this, then they can decide even at any point in the Universe, to create a new star. Because the interaction of the plasma with these two, will bring the dimension of the fields to interact, to live, and to become a part of the structure of the Totality.

Then you understand, when I tell you, your Soul of the Man (STM), Earth is what we call, a greenhouse. Earth is the nursery of these points, that when they find the gravitational magnetic field strength, MaGrav of themselves in a given point in the interaction with the rest of the fields, create a new cycle, we call it, a planetary system, a star system, or whatever, or a dust in the space.

Our Soul is taken, travels through the fields and through the rays to the point where it finds its balance, in respect to itself, to its environment ?? and to the field of the Universe, and the stars, the seed of a new life. Does not need to be physical, as life lives in the dimension of plasma transfer.

Then you understand how man's Soul is important. (:38). When you put a dirty clothing outside you don't expect it to clean itself. You wash it clean, and let the environment to dry it for you, to have it ready for you to be used in a perfect condition. So is the STM. So man has to carry no what I call, dirt within their Soul of Physicality (STP), that when it's left in space in the Universe creates another mayhem of killing, because the physicality remembered how to kill to live for his own satisfaction. As I always say, don't wash your dirty clothes in public. Do not carry the essence of the killing and injustice across the Universe.

Because if you go back to all the teaching, we always said, the STM and the STP is within it. If this little chap still remembers how to kill, when he takes over, what is he going to do? Do the same as it's done here. This is why we say that killing, destruction of other type of lives and living, has to become washed away from the nature of the man's energy pattern of STP, has a reason. Addiction to kill has to move out of the STP of the man. Otherwise man will never become part of Universal Community. This is why in so many ways, we have come to correct this. As the Souls who left this structure as a nursery of the new Souls, (:40). some carry that essence of killing. And the same mayhem shows itself in other parts of the Universe.

Instead of going correcting them one by one, we correct the seed at the center, which is the Earth, the nursery of the Souls. When they carry the STP, destruction of other collection of fields become erased from the structure of his patterns of energy. Now, if you understood this, this is why we say, the "children of Mitra" will be created out of fields, because in the dimension of physicality, the STP will clean that dimension of the killing. Where when it's created in the dimension of the Soul, has no attachment to physicality, even though manifests itself in the shape of a child.

Last week, I said, we come amongst man to find the weakness of man, to find how to find a solution for it. We come amongst man to eat and live like man, to see how this process can be stopped. And how man will accept it. Otherwise, it would have been easy, just to erase the dimension of the Creation of the system.

As I said, in the first structure, as we saw the Creation of the environment gave life, or gave the condition of the water. What does the condition of environment of your Soul creates? (:42). Many of you have started feeling, have started going through this process of expansion of the Soul to bring in the dimension of the physicality. And at the moment, you're in dilemma. Many of the Knowledge Seekers who went through the "dinning with the Creator" are ?? battling this. The reality and imagination, which is reality, but they imagine to be imagination. I feel things before it happens. Because now I do things without knowing. But it happens. Because now the part you don't remember, but it happens, is the part which is done by your Soul.

I was explaining yesterday to one of the Knowledge Seekers, why we sleep the 4 hour cycle. And what happens in that switch over. As I've taught in other parts of the teaching in the what we call, the medical side, is that man has left brain and the right brain. Left side of the physicality, and the right side of the physicality. But in the herd of animals we live one cow to stand up when we have other animals. There is one or two always standing up while the others are resting, they become the observer. If anything happens, they can call the rest, that there's a danger, (:44). there is a change. It's time for the whole herd to stand up.

In the life of the Man, Man has solved this problem. He has put, and he puts something very simple. He puts the left side of the brain in charge of the right (side of body) and goes to sleep for 4 hours, or goes into repair condition, or he goes into dimension. But the Soul is always awake. The 4 hour for a cycle, the right side of the brain to re-energize, and the left side of the body going to repair. The cow which was a standing up to watch if anything happens is the left side of the brain. That's why we always suddenly wake up if there is a noise, because this guy is on duty. We don't need one man to stand up for the rest of us to sleep, when we are alone.

Man built this in his habit. Because he became a nomad, he separated, and he had to watch others, nothing happened to him while he's asleep. Then 4 hours later, we switch. This guy goes to sleep, rest, recovery, and this guy becomes awake. That's why we have 4 hour cycles.

And somewhere in between the switching you can always take that dimension of the Soul. We do most of our dreaming in this condition, (:46). at the end of the cycle, first full cycle. And when we switch, when the Soul still handing over one to the other, because it's in control, this is what we remember. This is why most of the accidents happens between four and five o'clock in the morning. From 3:30 to 4:30 to 5:00 is the highest rate of car accidents. Because people fall asleep, because it's a hand over time, nobody is in charge.

This is why you sit in the car, you drive from A to B and you don't know how you arrived to A. Yes. This cycle repeats itself every hour during your awaken time. And if you drive in the time of the first cycle, which is physically asleep, the other one takes you home. And you don't know how you arrived. Many of you have done this. I don't know how I got here. Because you drove at the time of the physicality asleep time of the cycle. Where the other side was in charge, and stayed in charge and brought you home.

Now the mystery of not knowing and arriving is solved. You understand. But the Soul is all time in charge nothing happens to any of it. I am protecting. (:48). At the time of the weakness of the physical dimension the Soul is in charge of it. Interaction with other Souls, keep away, we are coming. What happens when you crash, when you fall asleep? It's the time of the switch, nobody's in charge.

When you push the two limits of 4 hourly, and hourly resolution back to each other you get mayhem. This is why when you don't sleep you have a problem during the day. Or you're a night shifter, if you don't sleep your daytime, you run into problem at night. We trained our body to switch, and when to switch, and when will be the beginning of the first cycle. When I close my eyes, when I sit, it's the cycle ?? started, time ticking.

Then this is why some of us just needs a few seconds to rest physically to be fully charged. Because we have learned to tap into Universal fields for that short time. Just a few minutes is just sleeping 4 hours. We can even do it with our eyes open. Because the Soul is watching. Now both the physical and the Soul strength are on duty. (:50). Both C14 and C12 simultaneously are scanning, are working, are changing and giving information and delivering.

Now, man should understand how he has become a passenger of Universe, how he is part of that Universe. There is something fundamental, which I explained in the teachings before. This is the center. In this center, there's certain fields, there is certain types of life existence. But this center due to the fields and the rays interaction creates this atmosphere, which again through interactions of fields, life exist here. And the interaction of the two creates a new dimension. And this goes on and on. And it happens in all positions of it.

Man is somewhere down the line here in the world of Creation. The interaction, the fields of the fields, of the fields, in creating new atmosphere, creates a condition where man can live. But in a way, we are still in that embodiment. That embodiment fields gives us the

right to exist. Now we are that mouth, with new magnetic field inside it as a body of the man. So the process is the same along the whole cycle of Creation. (:52).

With our body, we create a condition that organs, cells can exist. So, in the dimension of Soul of the Creator, we are the same. We are in the embodiment of the field of the Totality within. Are we part of the cell of the liver of the Creator? Or are we part of the cell of His skin? Because we are too far to be His brain. But we are connected, because His fields has created ?? us, created the condition for the amino acid of the Man to exist in this time, place and position.

Now you understand the connection between the Man and the Creator. Then the question comes. We have seen Universes. And within it we have seen galaxies. But for this Creator, which we call the God, the Creator, for it to exist has to be in another environment of the same (draws a circle outside the creation). Who is the Mother of the Creation? How did it started? And how does it become so, that it's so big? Or is in reality the whole of the Universe we see is a speck of dust, and because we are so tiny in it, we see it so big?

Are we that single H in the atmosphere of the Creation of this Universe and Unicose, and that's why we see it so big? (:54). What happens when we become a cell in this structure? What will be our understanding of the Creation? And what happens when we become the kidney as a Soul? And then we'll see how we control without us, that guy up there cannot work.

Then the question of the Creation comes, why are we here? Or the life on this planet and the life of the Man is just a coincidence. A collection of the accidents of the Universe, interaction of the fields of the Creator and the Creation. Where are we coming from, and where are we going to? In the transition the time of 50, or 80, or 100 years in the manifestation of the plasma of the field of the skin of the Man's containment. What are we fighting for?

As the rays of the Creator led to the Creation of the Man, and never stops, so is the life of the Man, life cannot stop. But what do we do with it counts, how we change it counts. To what we'll end up with, which counts. And this is the process of the teaching, which is coming up. Our interaction with our Universe. Man has done all the interaction in dimension of physicality.

Now, as teachers of the Universe we have to teach you how to behave. You've been taught at home in a little village house. Now you're going into school, how to behave with the other children in the school of Universe. Don't kick, don't shout, share, (:56). sit next to each other, don't bite each other, don't eat each others food. Isn't this, what you're taught when you go in the first day to school and the first years. You only take what's in your basket, don't touch somebody else's. Take your own pen and not the others. Now Man has to go through that nursery of the learning to live in the Universe. Don't steal from the energy of the others. The message hasn't changed, is the same. But now man

from being home, and pinching from the brothers and sisters, other humans, now he has to learn not to do it in the school of the Universe.

We take you to the nursery first, to see that others are still wearing pampers, and they still wet their pants. Because they haven't learned how to control and behave. And then maybe we'll take you into school the first year. Don't be shy, don't be afraid of making mistakes. But understand the mistakes has to be contained within the structure of the man, not to harm the others.

Life has to be correct in all its dimensions, be the Man on Earth, be it of the life in the Universe. And that's all these teachings are. Now we are taking you into the nursery of the Creation. Please don't bite the other child, and his food is not yours. (:58). Then Man become educated to live within the Universe. But we have to give you the package of food that you have, that you learn not to steal from the others. Don't carry the killing on outside the Earth. Because you learn first of all, there is food for everyone.

But the point is when you go to the Universal Community, and you come back to Earth, would you start killing again on this planet? Oh, I've being away from home, I miss chelae Kebab, let's go and eat this animal. And let's go and eat the other animal. You're a Chinese you go back home. I haven't had any whatever, roast duck, and the rest of it. We behave as part of the Universal Community outside, then we come home and we become animals. This is the whole burden the Man has to stop living that schizophrenic life.

We don't go home, to start eating. We go home to share love and the love of the Creator with those who understand this ?? ?? from us. If Man could understand the full, if Man could feel the full love of the Creator, he would have melted long time. We have a little bit of it, and we think we are the Creator of the lovers. We do it the French way, the German way, the Arab way, and every other way. But this is just the physicality of the Man's love.

What happen when you get touched through the true love of the Creator? And then what you do? We learn to live to be the same outside, as the inside. (1:00). We don't leave the Korean way. The domestic violence in Korean household is beyond imagination. They beat their wives as a national sport. Outside, we see them as the most perfect people. As I said to a Knowledge Seeker, do you know the French created the perfume, because they don't wash themselves, and the Koreans are the best in makeup's for women, because they cannot show how they got beaten the night before by the husband, and they cover it under the makeup. And they produce the best.

Man should be the same makeup outside than inside the house, without getting beaten by its own Soul. Killing should not be a national sport in the village of the Man. Being obedient should not become the national sport of the man. Man should stay obedient only to the action of the peaceful direction of emotion of this fields of his Creation in the Universe, does not matter in which dimension. Beating the wife at home and walking out in the smiling with a beautiful makeup, because covers the beating up, should not be the feature of existence of the Man. And is the habit of the Koreans.

We hide civilization behind our animal behave. (1:02). We are civilized to hide, we are civilized to cheat, and to cover. The best makeup's comes from Korea if you are in that game. Because they found the best way to cover the beating.

Now you understand how man needs to become, to be part of a society, which is the same outside, than inside. We don't go home to Earth to kill, we go home to create the love of Creation. To bring back what more we learned, different ways of loving, to give. Let's see what will be the national sport of the village of the Man in the U. The killing side and outside we are "energy absorbers." Or we ate on the diner of the Creator, and we learn it's all the same. We go for a break and come back and try to share more knowledge.

<< BREAK >> 477 KSW March 16, 2023 (1:09).

K- No we are open to share knowledge. Somebody asked in the background a question to explain more about the Korea. In Korea according to the national statistics of United Nations, officially announced not, and they said only 50% of .. domestic violence is reported. Everyday 1 individual is killed in Korea through domestic violence. The highest rate in the world, in South Korea. (1:10). Official statistics are 1.5 to 1.8 a day between each murder. But unofficially it's about more than one a day. And then we consider is such a civilization, very civilized people. Domestic violence is considered as a family affair, and not to go outside the frame of door of the house. So they beat each other out, they make up, and they "made up" when they come out of the house, and you see some of the most beautiful women around the world is Koreans. Because it's all covering up the violence underneath.

This is not, this should not be the habit of Man. And it's not just Koreans. Physical abuse of women has been the habit of the Man. When you lead to physical violence, it means you have already lost. You lose the humanity and you lose the Soul. If you allow this to happen in the space, then become home in the village of the Man to carry out the violence, and when we go out we are as good makeup artists, makeup producers as are the Koreans. If you're in the world of fashion you know the best makeup's, and best of any kind of makeup comes from South Korea, people don't understand. Now, you know why. Because you have to cover the domestic violence. (1:12).

And this should not become the habitat of the Man in the space. It has to be uprooted at home, in its base, where it comes. Goes back to the Ethos of Mitra, do good, act good, think good so all is in the correct way. As you will say in Christianity, the "three gifts from Persia" which was brought to Christ. It wasn't three kings, it's the three kings of the life in the Universe by conduct.

Any other question?

Q: .. Hi, Mr. Keshe. Will the Foundation be interested in collaboration with "tech companies"?

K- We are interested to collaborate with any companies. The problem, you'll understand and this is one of the things that now we are discussing on national levels. I'm traveling in the next few hours for another dimension of this with major organizations. We have a habit of we only respect if we are caught. And if I can keep it in dilemma, we abuse it what we call, patents. (1:14). As we have opened our patents, when we sit and share knowledge and technology with companies, and governments, and nations. They ask you, where is your patent? And we tell them, we opened our patent on it. (Then they say,) so we don't need to negotiate with you, your knowledge is ours. Why should we? And then they take our knowledge and they patent it, try to patent it to benefit by it. This is one of the biggest problem with the commercial organizations.

And in my negotiations with two or three governments we are changing this mentality. What we are talking to them is that, we give you the knowledge, maybe a thousand people, maybe a percentage of your nation will use our technology. Because we are teaching on the screen, on television, radios, whatever. We want the respect that the knowledge is ours, and commercial benefits of it goes to the Foundation, that we can spend on the others.

The word patent should not exist. God never patented the Sun, never patented the amino acid. So it's coming to the point of respecting the knowledge and technologies, which do that always benefit by it. We have this one now, with one of the major car manufacturers and their organization, Musk ?? runs. A lot of technology of the Keshe Foundation is copied by them, and is coming out of their system as part of theirs. But in fact, the American government has bought Musk ?? our patent, to see what they can copy from the Keshe Foundation. If you go into their car industry and others, it's all replication of the Keshe Foundation technologies. (1:16). Don't forget, when Musk went with Americans to Moscow the first time, and the Chinese some 20 years ago, nobody accepted it.

He openly steals technology. But he has the backing of a government who is used to stealing. We still talk to them, because our technologies, which they can't even dream. They're just like Japanese, what do you call, Chinese, just copy. We work with industries. At the moment we are talking, Knowledge Seekers in the background know. We are introducing technologies to some governments in different aspects. And without signing patents. We ask for the national growth income, what's the GDP, what is going to

be the effect of this technology on your GDP, what percentage of GDP is transferable to Keshe Foundation of that country to be spent on the nation.

We talking to industries, we are open of course. It's our obligation to share the knowledge. But it's not our stupidity or weakness. It's us setting out the seed for the new generation, that intellect has to be respected, not registering it and then stealing it. You know, the story of the (car windshield) wiper. The guy who invented a new type of wipers, till Mitsubishi came out with a new type of wipers some years ago. Over 25 years ago when he came up with it. He put a patent and he was refused. (1:18). All the car manufacturers around the world use his patent till it's run out of time and date. For 20 years he fought in every courts,. confirms, this is my patent. He wasted all his life. And all of us enjoyed not crashing our cars. We never understood his suffering.

This is what it has to go. The national data for who delivers what, and then respecting it. We do it with our artists. If you live in Europe, you pay, it doesn't matter you have a television or radio, you pay a fee for the media as a part of annual payment. And then from that, they pay to the register artists depends how much their music was played on. We respect our musician, but we don't respect our scientists. We have a problem in the Keshe Foundation. We do a lot of tunes ?? chip and Knowledge Seekers, in the beginning 10 years ago, they used. They have no problem with their tunes being in our teachings. But if we go public, those people who used the tunes of, (because) they didn't know they have to use a registered music. We'll get all of them on top of us. You used this music for 10 seconds in such a such a teaching. We want to be paid. What happen with all the teaching the past 10 years we put in public? Who's paying us for the Chinese going to space, or Musk to create a condition, new Nano materials for rechargeable batteries and everything else.

We are not blind and we are not a fool. But we know we are setting the trend as a major basic change in the technology will bring that position too. Musk cannot patent anything which is connected through the structure of the Nano technology. (1:20). Because it's an open patent, it doesn't matter how you twitch it. But we still work with them, we still go to them, this is what it is.

You will see major changes coming out of China through Keshe Foundation technology in the next two to three months. They respect us, they respect the technology we're bringing in. In my trip into China in next few weeks, the most evolutionary technologies will be handed to the Chinese government. Man cannot even dream these things can exist. Even our own scientists who are creating don't understand what's behind it.

The gun policy of United States to create arms to keep peace has changed to create science, with it to bring peace. The Ethos of the Keshe Foundation, technology in exchange for peace. And resonates with the work of president Xi of China and the new CPC leadership. And usually people who think and work the same, they work together.

We've seen how, by division between the Arabs and Israelis and different sects of Islam and Christianity, West has kept the wars going. And we see in past few months, the new

leadership in China, using its power of economy and technology has brought Saudi Arabia and Iran on the table of peace. Power to create peace. And with it we see the new changes around Middle East, the Americans have lost base. We see the new cycle of peace going on, (1:22). all backed by the nation who can support peace, development, bring in Chinese companies into operation in other places of the world, doesn't matter on Silk Road Map or anything else. This is why we move in that base.

We don't need patent with the Chinese. They accept and respect for the new technology. And we walk through that through our people in China, the same. The Enhancement Units you see, the first series of it was manufactured in Austria and tested in China. Our Knowledge Seekers in the background can tell you. We learned from it, and they respected it, and we saw the pitfalls, what is right what is wrong, and it's there.

Even though some part of the technology and knowledge was abused by some of the medical people in China ?? . I learned this when I was in China three, four years ago. One of the Knowledge Seekers who was very close to Keshe Foundation was working with a group of people in the background who he could translate the teaching of the Keshe Foundation to them. And they changed the name of the plasma technology to "Quantum." And the Chinese government went after them, because they knew they're stilling. As far as I know, he was arrested at a traffic light somewhere in China two or three years ago. Because they know where the technology comes from, and they respect it and keep it the same way. So, we are open to discuss, to sit, (1:24). to bring anything on the table which brings a better life for the others. It doesn't matter what industry.

Any other question?

You know, talking about the industry in 2008-9, 2007-8. We negotiated with Microsoft for three months. With the lawyers of Bill Gates. Face to face in different hotels in Holland. Everything was understood to come out till the day I decided to take the "Red Circle" with me to a meeting, and that day everything fell apart. And I could not understand why. Later on we understood why. He destroyed negotiation. But even that time, Bill Gates wanted the totality of the Keshe Foundation to shelve it, or use it the way he wanted to do.

They can see the benefit of the, many of you have not understood, Nano layers, superconductor along, super resistor across. This is a huge change in the game of the Nano technology. He understood that at that time, for production of microchips. And they haven't managed to fully develop it. One Korean company does that, which we collaborate with, and they're creating new superconductors out of gold. The industries at a high level understand what Keshe Foundation was even at that time going to bring.

When we couldn't complete we, (1:26). the whole thing fell apart with Microsoft. Immediately within few days his prodigy, or his what I call "uncle," appeared to be interested in Keshe Foundation technology. We could not come to any conclusion, because we found out it's going to be shelved, and be controlled by the patent. The two

richest man in the world that I call, one "uncle" of the other, knew, understood the Keshe technology in 2006-7, what it's going to do.

But it wasn't for sale. Because it's a knowledge of Creation, and knowledge of Creator, you cannot patent it. When what I put in patent to be patented, if ?? not applicable, then we have to patent the rays of the Sun, and the love of the Creator. And they're not patentable, the same as ?? my knowledge.

I used the patent, I realized in 2005, when I sat with the bastard child of the King of Belgium (?? Grama). And I understood, I wanted to share my knowledge with everyone, but the who's going to listen to me? And ?? Wim explained to me, that with Red Circle, because ?? Wim, the son of the, bastard son of the king of Belgium, brought Red Circle into operation with us, we didn't know him (before that). And he said, this way, we can control everything. And nobody in the world can do. And that word stuck to me. No one in the world? So, this can reach the whole world. So we put the patent in.

And we did, we waited, we went through the European patent, then we went through the International patent, and then we opened it. (1:28). I used the patent structure for distribution of the knowledge. I told you, we come to Earth to learn man's way. And what man does, we use the best way. That's why we even put that patent application, because Wim said, that word in that meeting, "nobody in the world can copy, we control everything." And that was my aim, to reach the world. So that was it.

So if we come to the point, what the Saudis say, anything man created belongs to God, we don't obey no patents. Americans have a big hard job to get the Saudis to accept intellectual rights. Intellect is a gift from the Creator, not a possession of man. And when we get a government to understand and use and the creator of the what we call, knowledge, and technologies to respect, the same the way they cover the musicians, they cover the scientists, then we make the right step for expansion of the technology. Because man, everyone will do it openly.

This is what we say to a lot of you, and I know a lot of you haven't understood, a lot of you suffer with it. And then you understand why not. Maybe you understand. We give the technology to you free. Many of you give talks, make MaGravs, make all sorts of things and you sell. How many of you have put anything back into the Foundation? None. You haven't even given a single MaGrav free to anyone. So you suffer, because you haven't understood. You need, as the English say, the wheel, or oil on the wheel. (1:30). When you don't put oil on it, it comes to a ground.

We didn't tell you come and pay us. If you make a donation from what you earned in past years from the Keshe Foundation to the Foundation. It helps us to do something else. If you gave MaGrav units, did free teachings and everybody else to benefit by it, that's a payment, that's balancing. Then any technology can do. That's why we don't patent any of our products, and people take it, "oh, we copied it, we go."

I go to China, Musk will cry for selling one electric cars anywhere in the world. We hand over 2 to 3,000 kilometers non-rechargeable system to the Chinese for electric cars in China. Musk is happy with 600 kilometers a ?? month, and who wants to pay that?

You've got to understand when humanity works as one, we'll go much faster. When humanity cheat each other one, man goes to a ground. And we've seen it with us. We got cheated past few months and it didn't bring us to a ground, but slowed us down, but made us wise. And we'll see the next step, what comes from it.

Anybody has ever stopped the progress of the man, has paid himself, not the man. Because somewhere mankind has taken the knowledge and moved on with it.

Any other questions?

Q: .. When traveling in the Universe, (1:32). do you intervene if there is an accident? Or is it a natural cycle, that you should just observe? How do you justify it?

K- Your Soul will decide. Your Soul will decide. First of all ask yourself a question, why am I there to witness this? Has my physicality brought here me, to learn something through my Soul? Or has my Soul brought me here to learn something from my physicality? And what is my part in it? When do I go through the change?

I was explaining this to one of our dearest Knowledge Seekers yesterday, because he started going through the phase he couldn't understand, so I had to give him the example. I think he's on the line, he knows who he is. We're talking about this, he is very close to me, and very dear to me. I don't know when I sleep and I don't know when I'm awake. People tell me, you snore, you do this. But I say, I can't, because I've been working. It's the physicality taking charge, while the Soul is running its course.

But the funny thing is, when I get out of the bed and I put clothes on every morning, I have a shiver on my body. It's just like jumping into the ice bucket. And this has become more and more. And this is where the Soul has to hand over to physicality, and the interaction of the two fields brings, that when you put your clothes on, now you touched the Soul as well, which is taken over, working. And you feel that interaction like a daylight, (1:34). you feel that chill, because one is higher than the other, and it's like electric shock. People who've been near me they know, I talk about it quite often.

I always covered it under, "oh it's the air conditioner, or whatever." But that's what it is. (It's) not the air conditioner. Wherever I sleep, in the morning when I wake up, even day time, I put any clothes on, the interaction of handover from the Soul to physicality brings that chill, that freezing feeling. Doesn't matter it's the middle of winter or height of the summer. When you learn to live with this, then you come to understand the cycle of life.

How much time of my Soul, spends in other dimensions, that I remember part of which has to do with the physicality of the Man. And then I have to bring all in the dimension of the physicality. Then you ask yourself, why do I have to go through this every day? If I

sleep a siesta, I have the same feeling when I wake up. As in the morning. Life is one continuous going, irrespective of what happens to physicality.

So, you ask yourself, why am I here? Why am I supposed to witness from what I see, what I am? And what is the purpose? Or have I been brought here to bring that change, that difference, that unconditional love and giving. (1:36). Not to jump out every time that, "oh, I'm the hero." It's to be there that you're there to make a change at that point.

I was on board of a plane years ago. And the captain, or the air hostess asked, are there any medical doctors on board? And turned around, and there was a body on the floor in the center. And there was a guy actually doing whatever he was doing, to get life back in. And the hostess said to the man, can you please get up? We need a doctor. He said, Madam I'm the doctor. I don't need to shout. Let me do my job. We don't need to shout and howl.

But the reason is, why is that man on board for that purpose? Why we are on board of the cycle of life at this time and point? Why our Soul wasn't created 100 years ago? And not 100 years to come? Why us as a Soul of the human race are here, at this time when the change is coming? What have the Soul of our forefathers have done, to be here to witness the change this time? And what do we do? How do we react to this accident, that we are brought here to the Soul of our Creator and forefathers to witness the change?

How much of what we do will bring benefit? And how much we do will bring hinder? And then you ask yourself, (1:38). why do you need to go to space to see and witness. You're now witnessing the biggest change ever in humanity and the rest of the Creation for the Universe, as the Earth is the seed, is the nursery of the Soul of the Creation. And unfortunately, it's not the only nursery, sad to say.

The evidence of it is, we don't see the stars and galaxies fighting each other. Except where the man has been, by mistake brought the STP into creation of physicality of the planet, like Earth.

The "Soul creator" of this planet had the streak of wrong (doing) in it when he arrived to be created. And he created the ?? STM, with the same behavior as his. If you give it short, then it is attached to you. Then you can do what you like. "I kept the man short from knowledge of the receiving energy of the Universe to live. So he's always attached to me, to the physicality of my Earth. I feed him with little life of the cat, the dog and the sheep. And he's depending on me, so I could ?? ."

Now you understand why we put CO2 and Gans's into the rivers in the air, and the seas, to change that essence of the wrong from ?? most of the generation of his essence of creation. He made you to depend on it for you to be part of it. (1:40). Now we give enough that man does not ?? have dependency, and become free from the shackles of killing. It became one rose with a lot of thorns on it, and it was spreading in too many places, the seed of it. Now we correct the baits, the first rose, and then you won't see the

rest to do the same. You'll enjoy the beauty of the rose without its thorns. The STM created in the dimension of the Creation, without the killing.

Any other question?

Q: .. The Sun is releasing plasma at an intensity never seen before. Could you guide us better about this knowledge? We thank you for your attention.

K- This is part of the cycle of the Sun, it happens on a regular basis. In some parts of its cycle it's much intenser, because of its structure. And because of, is, what I call, mono matter energetic condition, we see this. The center of the Sun, if you've seen your Gans's and the amount of energy used, should be freezing. Should be normal temperature as what we call, (1:42). balance between the hot and cold.

As the rays go further, and they become fields, and in interaction with the fields of the Sun itself on the surface, and compression of the galaxy fields on the Solar System, the intensity of the light from it changes. Let me explain to you in a very simple way. It's not all dependent on what's inside the Sun, it a lot depends on the position of our galaxy too. You have a hydrogen as H, actually it starts as a single plasma, then become a single plasma of H, with interaction to stability becomes Deuterium. Interaction of the Deuterium (H2) with the H itself again leads to Tritium (H3). Then, these still interact in different levels. And at the end, you will have all plasma fields.

In the center is more or less, if you go in the center. If you ever look inside the dynamic reactors. Rick used to do a lot of it years ago, we could see empty space (a bubble in center of rotating ball) and we saw Gans's. That is the balance of the fields, it's the same as here. So the center of the high speed or balance speed plasmas like Earth, is hollow. By nature the Sun is hollow. By nature, we see it in dynamic reactors. If Rick digs into historical videos we have, we always seen it. If he puts it on the screen later on. So there's no difference.

It's the field forces of the Gans's, (1:44). and the water of Gans's, which is the H base. So it creates that central cavity (bubble) what we call, full of plasma of high intensity. So, in this position, as the what we call, as the fields grow deeper in, outside, in interaction with the fields of the Solar System, and compression of what we call, the galaxial fields on Earth, on the Solar System, the intensity of the fields changes.

So, here somewhere, we create helium, but in fact the helium is combination of deuterium. It's the 2 Deuterium in plasma condition behave like ??. So in essence, they become a bit heavier, slower, with the higher intensity of the fields coming, the interaction of the surface fields with the fields coming creates the light.

Now, we only look at the surface of the Sun. If the scientists understand this, and start looking on the pressures of the galaxy, on the whole Solar System, then we see why sometimes the Sun is more radiant, releases more radiation, and sometimes less. Very little has to do. The spots on the Sun has a lot to do with the rotation of this matter state

liquid plasma, which is again, here on Earth, we call it, a water. But on the Sun it's helium particles, in a way, with the deuterium, and whatever is on the top. And creates that light.

This blackest dark spots on the Sun is to do with the internal structure. (1:46). But the field radiation, massive field radiations, which you see in cycles, is on the galaxial pressure on the Solar System. And the scientists always looking, because they don't understand it, what happens inside, that it increases. We have to look what our galaxy is putting pressure on the shell. It's like a balloon. You have a balloon hanging perfectly, you get it and you push it. So it takes different shapes. In that push, if you put a ball inside another, you see it moves different places. If you have another balloon inside this balloon. So our Sun is a balloon in its own atmosphere. And the amount of radiation we see, is the pressures of the galaxy, in part. When the pressure reduces, opens up, we see higher fields. And sometimes when the compression comes, we see again, different fields. Man has not observed yet.

This create rays above and in the dimension of C14 ?? odor. With this compression usually happens during the time when Sun comes across his twin. Near each other. They create that compression on each other, which releases a lot of fields, we see a lot of inward motion.

If you look at the motion of Cosmic dust in our Solar System, you can say which way the pressure is coming. Is it coming from inside out? Or is it created from outside in? Or is it the combination of the transition between one to the other? Our scientists look at the flares, but they don't understand this principle.

When we travel beyond the Solar System, we see it we understand. (1:48). Oh, this is a time when Earth, or what you call it, the Sun releasing a lot of fields. Because now it opens up that magnetic field pressure on the Solar System is less. When he expands it allows more fields to come out? Or does it come out of the compression, that we see mainly out of this compression, deuterium coming out. Where in the other condition of the what you call it, reduction in pressure, we see more particles than actual fields. ?? That's what ?? we call rays.

It's all, we talk about this, why it’s happening. Because we are looking in a small part of the equation, we have to look at the full equation. And even our galaxy is subject to this. And sometimes when this compression of the space comes from outside, leads to destruction of the full galaxies. Out of nowhere galaxies just explode. Because the field release is so high compared to the compression, and then inside pushes outside and just expands, explodes in pieces.

We see this as .. what we call, "travelers of the Universe." And we usually empty these places. You see a rush of. It’s like a "SOS" you call it. I've explained this before. You see an accident, earthquake and what you call it, in Turkey, we all go there to help. We have the same kind of principles but in a different scale, different way, in the Universe. We see

the time when the explosion happens, and like a GPS, and the Universe, the map is drawn. And civilizations are aware of other civilizations, and they just go and extract.

We have many refugees in the Universe when the Man opens his eyes, and some of them are amongst us. (1:50). They lost their home in Turkey, and they move out, they end up in England, they end up in Australia. The same earthquake happens in the structure of the galaxies and Universes. A few times in the past, Universes have come under this condition, and what I call, the citizens had to be emptied, removed, what you call, to safety of other Universes. And we see different intelligence amongst them. This is something you learn.

It's the same, life exists within the Sun. If you understand, that the combination of the rays interaction leads to creation of C14, and their internal interaction leads to O and the H, cycle of 4 lives. And then with their environmental characteristics, then you understand there is a life within the center of the Sun from interaction of the fields of itself.

If he (Sun) can manage to create life on Earth and other dimensions, so it has the same capability to do within himself. But the life in that level is of a different intelligence, different understanding, less dependent and more reliable. It's not exclusivity, it's more inclusively, all are included.

Any other question? (1:52).

Q: .. Good morning, Mr. Keshe. In the 475 Knowledge Seekers Workshop (KSW), you said that, quote, the energy released by the conversion of calcium (Ca) from the Cosmic rays and C14 can be used to create other necessary elements such as potassium, iron, zinc and copper. So, the question is, then why are we deficient in these elements in the body?

K- We are not deficient. Our body uses these very efficiently, but sometimes due to miss functioning in part they become inefficient. And there are stations to create these, and there are facilities to do this. To give fields, to increase. When you get pregnant doctors always say, I give you B9, have a folic acid. This folic acid and B12 for a rapid change, is done in a few places in the body of the Man. Lymph nodes, that's why you get cancer.

Where the change, efficiency change, absorption, conversion, is not effective. Instead of releasing a plasma in the strength of the copper, (1:54). that can be used to become a structure, is suddenly comes to become solidified, it becomes a cancer cell, or becomes a seed for a solid structure we call, cancer. If you correct the conversion of the lymph conversion, and in thalamus and thymus at the same time, it will never happen. Everything works accordingly.

If you can understand this, you go to the position of everlasting life. Because you convert what you need at a point to equal amount, what you need in dimension of physicality. You can change the strength of it to increase the what we call, conversion from STP to STM that it feeds the STM much faster, and live in the dimension of the Soul.

We do that in the time of fear. In the time of high temperature, when the cell of the brain become loose, we allow the Soul, we call it, hallucination. It's actually Man never understood. This is the time the shackle of the physical calcium in every cell of the brain loosens up, the Soul travels. But because man doesn't understand, oh, it's high temperatures, he is hallucinating. It's actually the Soul. It's like going to sleep. It's like when they take drugs.

We call it, hallucination, but in fact the structure opens up, it cannot hold on to confining the Soul. So whole Soul goes out and in that dimension does everything. It's like when we call, schizophrenic, what I call, the "beautiful people." We create a condition for two to appear. (1:56).

So, it's a habit of Man not understanding the process of Creation. This is why we keep on telling you, we teach you everything, that nobody outside becomes a magician for Man. It's only time when man would like a magic to be played on him, and he tries to understand, "ok, I like to see it, but I understand it." We ignore it, or we don't understand it.

Have you ever played a game with your children, where they stand next to you and you shout, "where are you?" And he's (your child) is standing next to you and says, "I'm here, I'm here." (And you say, "I can't see you. But I can hear you." And the poor little boy is jumping his leg off and his lung out. Papa, I'm here. But I can't see you, but I can hear you. We play the ignorant, or out of the ignorance we're trying to prove something. Our own ignorance.

Any other question?

Q: Okay, there's a second part of Alexander's question. And you may have answered it. But I'll go through with it. It says, also in the 475 Knowledge Seekers Workshop, you said that, quote, the body cells are constantly being replaced. And you need this calcium like the seed to make new cells. So the question is, so if the cells are being replaced, why do we age?

K- Because we don't produce the same strength fields. And our body due to the rustiness of the channels in the bone, (1:58). don't create the, or the perfect one. It's like a car you use too much. You get the exhaust cluttered with all sorts of things, it doesn't make the same noise and you creates a back pressure into the engine. And it's the same.

We do not produce over the length of time, as the bone channels closes, or change, or get used too much, release the same strength calcium that it becomes the seed. And this is one of the reasons you call it, "my immune system doesn't work properly." Because you're not releasing the right calcium strength, because you have to release the right calcium strength to create, to gather around it the right plasmatic fields for certain jobs.

This is why when it comes to certain conditions, when you use Gans's, you see, "oh, it changed, I used ..." No, all you did, you introduced the plasma to what was missing in the bone marrow. That's all it is.

You can stay young for thousands of years. You can live for thousands of years, just move from one physicality to another. I've done that for a long time. I was explaining this one to one of our Knowledge Seekers past couple of days ago. I went to my aunt, the last time I was in Iran. And I said to my aunt, you're the only one who can answer me. You are the last one standing of the family, tells me the truth. I said to her, who's my father, and who's my mother? She said, you're asking a stupid question. I said, I know. I don't come from this family, I have all the evidence of it.

But are we? (2:00). Or we just take position on the dimension of physicality and turn it that in the future operates on the Soul which is host.

And when I gave her the evidence she said, Mehran I have no answer. So you can always live and move from one dimension of physicality to another. But you have to share. You can't just take over because you can. You always ask. And if you're allowed and you're given, you live in the new dimension.

Any other question?

Q: .. I have a question to the feeding. When we had the daily meetings in feeding, I decided to, not to eat anymore, or at least to try it out. And then I started two days not eating, three days not eating, four days not eating, and till now, and it feels very good. I do it the first time in my life and it's a great experience. And also I lose my weight and then the next days or a week, (2:02). the point will come where I should reach the normal weight of the body, so no fat anymore. Then the question comes for me, I don't know if I got fed through fields, or if it's just a fasting thing and because…

K- For how long haven't you eaten?
Q: 16 days.
K- Are you still taking water?
Q: Yes, I try to drink as much as possible, but I forget a lot of times.

K- People who go in this direction lose up to 20 percent of body weight. We've seen this, we've seen this amongst Chinese too. But you have to understand. I always said, people who've been eating meat and whatever, suddenly decided to become vegetarian. Overnight, I'm not going to eat anymore meat from today. And then it feels good in the first few weeks, but five or ten years down the line they run into problem. You cannot drive a car at 150 kilometers an hour and then put the brake on and expect to come out of it alive, or at least don't damage something. You have to slow down, you have to speed to the point that is manageable for both, physicality and the Soul.

If you don't eat physically, have you learned how to absorb energy through the Soul? (2:04). A lot of people politicians who go into prison they do fasting, they last for 40

days, 50 days, and then they run into all sort of problems. Or is the water your drink contains enough minerals that replaces, replenishes the body need. Up to a limit this can be done.

But you have to learn, if you go through this process what you're going. Can you learn, have you learned how to expand your Soul? It's not just eating. So you have to teach. Don't go from eating steak every day to no meat tomorrow and become a vegetarian, you create a mayhem. But you have to find other things, other energies which can replace the meat you used to eat. And as part of human body, you can feed yourself internally, that you don't cause any damage. And that's what, have you learned to tap into Universal energies, that internally and externally you absorbed what you need.

This is what you're going to do in the space. Fasting and the starvation and all sorts of things is not the answer, unless you have learned how to convert energies to what your body needs. We have Chinese who make Gans's of vegetables, and meat, and whatever, and they put it .. around the glass and they drink the water from glass.

But in a way, with the right salinity in the glass, that it absorbs the right energies for their body. 0.9% or 0.09%, depends on how you measure it. (2:06). Salinity gives the energy absorption to the blood of the Man, because that's the salinity of your body, what you call it, blood. That saltiness you taste.

And you have to be able to connect the two together, to feel the Soul inside you. And to feel the Soul outside you. I was explaining to one of our Knowledge Seekers yesterday, how you can do this. And we all have it, it's given to us by birth, we all have it as part of constitution of our life. And we don't know it, but it's one of the tools that you can expand, move, and then move out your Soul. I've explained this in one of the teachings.

This is your physicality, and let's do it the other way, because it's better. This is your physicality, this is your head, this is your arm and leg, and this is your body. This is your Soul. But you remember that story about the H having a proton and electron. Man has the same. In fact, if I put the electron here you understand more. You have a Soul here. (2:08). And the life in all animal creatures, even the plants and trees has created what you call, your ovaries or testicles. Where you have the seed in conjunction for the next Soul, you call it, your child to be created.

So in fact, if you look, Man has a power to create the expansion of his Soul. If you understand this, it's the same as the electron. The biggest Soul sits within, ?? the small Souls, and we create it every month. To make sure it's the right balance, each testicle is responsible to create a Soul.

Something which I explained recently is, if you understand the physiology of the Man. We produce eggs or a sperm from one of our ovaries or testicles and the other one goes for rest. It's the same when we breathe every hour. One of the nostril closes and the other lung goes under efficiency to repair. So you have that process of the Creation continuously with you.

And if you can expand this and do what we do with you, you can expand the body. Then you can tap into the universal energy. We do the same with you when we give you the headphones. You have then to understand. (2:10). Then you understand how Man in the future learns to create the "children of the Soul," and not children of the physicality. That's how the child of Mitra was born. Man in those positions carries no eggs and no sperms.

And if you understand this process, you learn how to expand to tap in Universe energies, and you still feed. You don't say, I haven't eaten for 16 days. Because now you run into trouble, because you're relying on the physicality. But if you can learn this that you can expand this, then you say, I'm in what you call it, "hybrid." I use the physicality of the Man to tap into the energy of the Universe. Then that will feed what the physicality needs. And we all have the mechanism to this.

In another way, every cell of our body has that mechanism. Depends where it's short you can feed it. Don't we do this with (Gans) patches with you? We connect your Soul to where the damage is, through the field strength of the patches.

So when you go on this, what you call, not eating, are you on the, what we call, track to crash the physicality? (2:12). Or have you learned how to feed it from the Soul? Then you become a Man of space. I don't even need to breathe because I take from the energy of the Universe, for what it gives me, the air of the Earth. This is why in a few teachings before I said, if you all jump ?? in the space from the Space Lab you all die, because you haven't learned the conversion. How to tap into Universal fields.

In the past few weeks I start explaining a lot of things on my private life, physical life with you, there is a reason for it. You gradually understand, because you live by the example. When you see it, you recognize it. When I tell you, when I wear the clothes I feel the chill, then when you feel ?? ice cold, it’s not there, my Soul has expanded. How can I use it to feed myself?

I was explaining to one of the Knowledge Seekers in the past few days that I saw, I stood as I explained last time, I saw the blueness of the eye of the Christ. Why? Because the Soul moves out, and looks at the dimension of the physicality. This is what you have to understand. And you can do the same with yourself.

When we send you to the Moon, as I've explained before, we package you in an envelope. But this envelope needs a position of destiny, where to go to. (2:14). It has to have his neutron somewhere. We send energy level of part of your Soul to the Moon, does not matter where you find this balance. That's where you're going to end up.

In the physical life, you go to go to cinema, you come out of the house, you get in the car, you drive around the city in all roads till you get to the cinema. Now in the dimension of the Soul, and the physicality of the Creation, we can do the same. Cinema has a energy level balance. And that's where I tune myself to be (immediately go there). So if you go

on a diet, first learn how to feed yourself before you go on these excursions. Because you'll find out that you arrived with the empty bag. And then they have to go all the way back to fill it up.

You know, it's very interesting. If you do it by will, we do it beautifully. If you do it by pleasure, we still enjoy doing it. If you do it because we have to do it, when we come out of it, we go amazingly greedy to do. You see this with Jewish fasting in Yom Kippur, and you see this with Islamic world in the summertime, when the fasting falls in the summer. You have only four or five hours of the sunset to the first sunrise, you have fasted for 19 hours. In that five times, it's the feast, time you eat as much as you can. But what about if you learn when that time, 5 hours comes, I already learned to take from the energy of the Universe, it doesn't matter if it's five hours or 15 hours in the winter. (2:16). This is what you got to learn.

And then you haven't eaten for 16 days, have you learned how to feed yourself through the energies of the Universe? Or have you learned the way the Chinese done it? You deliver the energy in the (Gans) water. If you eat distilled water, or drink water from the well near you, which carries all combination within this, without being whatever, put in the bottles. In our factory, there's a water well, the water we use there comes from our own site. And water is so delicious, it’s different than the water we buy in the tap. But is the water contaminated? But because we are on top of the hill only can be from our land more or less, what gathers on the hill and no chemicals are used. So it gives a pure.

But is the mineral within the water of the mountain enough for what the body of the Man needs? We need to tap into the reserves of the Universe and not into the reserves of this planet. Or at least the energies of this planet, which are not needed and reserved. Then you can go lifetime without eating.

As I said, many Knowledge Seekers, since "dining with the Creator" have gone through a lot of experiences and live different lives. And this is an example of it. (2:18). When we invite you to a meeting, there is a purpose for it. It’s for you to understand the ways, and for you to comprehend what needs to be done, to be ready for the change. Many of you who are attending all these meetings one after another. When we come to the end of it, you will become the traveler of the Universe. You understand how to react, how to be. We are getting out of 160 people around, attended dining with the Creator, a lot of different emotions are feeling and ways of living.

But what happened when you come on the table of the sitting with the world leaders? Some of you are going to have the shock of your life in that meeting. And that is why we do this? Why we invite you to sit with the world leaders? Because you come to understand there is no leader. It’s me who leads my life. But you have to learn it. It's me who can tell the others, you’re the same as me. Maybe you need me, for you to be a leader. And then I'm the true leader, because I lead through justice, correctness.

And then what we did with the dinning with the what we call, Creator. You should have realized by now that you are the Creator, because you created the condition. And the

process of all these meetings every month is to gradually, a large number of you, (2:20). become the first "passengers of the Universe." Because you're going through the what we call, learning process. But learn what you see compared to what it was before you go in, it's what you've learned. Not accident, not coincident.

Why did we ask you to come in for five days? It's for you every time to learn something new in the dimension of the strength of your Soul. You came and took, what did you do in the week when you came to give? What did you bring? What you enjoyed or what was available but other ones to enjoy? I ?? don't like Chinese food, your Chinese ?? friends should have brought pizza, because I only like pizza, the Italians didn't turn up today. When you came on the table the second week you brought food and did you say, I brought food, and what have you brought for me, that I enjoy? But you just brought in because we said ?? to bring it in, and sit there.

A few times, in past couple of weeks you realized you're not connected. The channel is not open. It was interesting to know how many of you tuned without the channel being opened. Were you still there, are you were there to come in and show your ?? frock, what I brought to everybody to eat? Or you learn to connect without? Would you share your sweets, or whatever you brought to go to a party, if the party is not started, you're sitting in the car with a friend, no, no, you can't have it till we go in? Or let's eat here, it's the same as what we eat inside? (2:22). What about if you went to the wrong party? Do you still sit in the car and starve and eat the sweetie in the box?

These are process, this is why we ask as many of you to turn up on the 24th. There is a purpose for it. We don't put it in advance because then you come with the wrong image. You will learn when you come through it. Like the way we've done with the dinning with the Leaders or the Creator. I wonder how many more days you will last before you start eating. Or have you learned to take from the Soul to feed, that you don't need, or you have to learn the ?? type of conversion. But a lot of Chinese did but they didn't go to the second phase of it. They moved from physical eating to the dimension of transferring energy into the water and they drank the water, and they received the balance energy what they need. Now what about changing those bottles you put outside to fill up the energy in the cup that you drink the water, let those be the energy of the Universe. And your body is 95% water. Come to conversion with it, without drinking it. Man has not used to see the beauty within his own physical structure. Then, do you need to eat?

Any other question?

Q: Mr. Keshe, (2:24). some people in the flight events have mentioned they felt sort of bloated or having other health effects, let's say. And I want to use Jefferson's (Modesto) question as a as an example of this. So he says, good morning Mr. Keshe. I participated in the three plasma flight events and the two weeks of plasma feeding. But I have had a very complicated health situation since then. I don't know if this situation is related to the effects of these experiences.

In the last two weeks my blood pressure has risen a lot. It has reached 20 by 13. I have had great difficulty breathing. I have not been able to sleep well. I feel my abdomen is very bloated as if the food is just sitting there and digestion was not taking place. My feet swelled up a lot. I was forced to go to the doctor and they prescribed me medication for the heart. I followed up with the cardiologist. I never had problems like that. I do the protocols with the Cup of Life daily.

My question is, could these effects indicate that something is changing in my physicality, as a result of what my Soul is experiencing? Now, after the plasma flight events, how could this evolve? Thank you very much, Mr. Keshe.

K- This is expectation. This is when you feel you're generous, you give. And in fact, you came to take, and the body has taken too much. And is a conflict between the energy field of the Soul and STP. This is not the first time we see this, (2:26). and does not get solved by medication. Get solved by understanding the structure of the emotion.

When we have a father whose, the son is in conflict with, the son bloats up to show I'm big, so I can, I exist, that I can stand the father's bullying. And we do the same thing, we can do it overnight. We put weight on like nothing in matter of days. Because we go through the point we can't understand. We expect to be the giver, and we actually are takers. And we store it for the time, that we want to ?? give. We see this quite a lot with those who feel they came to give, but they actually took. Body goes on imbalance. Try to understand how and why. It's expectation.

Can I ask one question, if he is on the line he can write to you. Did he come to Linz, but never attended to come inside? If he can answer that on the line. Then we understand more.

People came in as I said, you'll see a variety of interactions and responses from the people who came to the what we call, "dining with the Creator." And the Creation and the Creator is you. What have you created? Or is the physicality different than the emotion, that cannot accept it? (2:28).

This is why we invite you on, what you call it, on Sunday, twelve o'clock, to join us. To understand. And a lot of you will understand this change. What you went through. And I receive a lot of communications from the people who've been through different sessions.

How many of you will feel you are the leader when you come out of 24th? How many of you will feel you need to be a ?? vet, because you do not really know what it means to lead yourself to the destination? Because then you have to lead yourself to planet Zeus, or somewhere else.

There's a reason we put these sessions on, for Man to understand his work. We hear one is not eating for 16 days. And one has a blood pressure and the rest of it. And I ask one question, if he can answer it, did he ever come to Linz? But never came in. Then I give you the answer why.

The Keshe Foundation doctors are looking for a lot of medical conditions. Because we would like to know what will happen to the physicality to set our system, (2:30). when you travel from New York to Linz. Are we getting the same and the same emotion? Or are we getting animal behavior in New York and the gentle man by change of the fields in Linz?

They are looking for cancer patients, they are looking for all the mysterious ways the man has abused, or emotionally abuses his physicality. Because these all will be registered in the what we call, the encyclopedia of the travel. How do you change cancers? Or do you teach the Soul, that the cancer is created by its not balanced with the energies of physicality?

If you have any kind of diseases go to the Keshe Foundation website, because all these conditions you're talking about is something for them to learn. Because then it becomes available to the man in the Universe in the space. They're looking for all sorts of conditions. Go through the normal channel, where we have your health@keshe.foundation, or info@keshe.foundation and through doctors of the Keshe Foundation, they'll get in touch with you and try to understand.

Some of you Knowledge Seekers have brought a big question mark to us and say, you ask us to come in and you want us to pay. (2:32). You want us to massage the figures and the technology like the others do? Because that does pay for it, we have to give them what they need? Or do you pay for it, that it can be done the correct way, we learn from it that everybody gets direct data? In this process, we're all researchers, and we pay for our research. It's not just because it's the Foundation you asked, and I don't have to. And this is part of the process.

As I explained very recently to one of the Knowledge Seekers, they brought the vaccination, and because they were paid they massaged it. The biggest crime to humanity was done in past three years, by those who paid for those to confirm, cheated documents and figures. This will not happen in Keshe Foundation. We don't have to report to no one, and we don't have to massage nothing. And you pay for all our researchers, your work. Buying products paying for research, paying for the others to help with research, it's all part of the same system.

Any other question?

R: Okay, question from…
K- Are you in the background? Did you come to Linz or not?
R: Mark says in the last comment, you're correct. I don't know if that's specifically related to that or not.
K- Mr. Rodrigues, am I correct? Is it the right one?
R: Mark says yes, it is. (2:34). And Jeferson Modesto.
K- He came, but he never came in. Jefferson never came inside.
R: .. Oh, he says he was present by phone, but I have never gone to Linz, he says.

(Note: The question was from Jefferson Modesto, not Jefferson Rodrigues who went to Linz but did not go inside the building).
K- Yes. But he never came inside.

We bring all of you to Linz. And some of you never come in. We ask you to go to places, but you decide where to go. As I said, a few weeks ago, we had Knowledge Seekers in the flight system. I said, you can go to Moon. She said, no, I want .. to see my husband who died. I don't want to fly. We've had this a few times. We open it, but you're not there to come in.

We're doing a lot of flight tests. And in this test, I test a lot of people in what I call, to come in, or to go out. A lot have a problem to come in, because they are not sure what will happen when they come in. (2:36). And the fear of not sure is, can I go back to where I came from. But if you ask them, to ask somebody else to come in, they always, most of the time, bring them in. Can you bring your ex-husband, can you bring your cat they'll bring it? But if you ask them, can you bring yourself in? It's always a problem of uncertainty. I've been there, but I'm not there.

A huge amount of research is going in the background. And in the next maybe a couple of weeks, next few weeks, you will see totally a new generation of EU, never seen in public. Never seen at all, never been created. And these are as close as we get to production, or replication of the fields of the Universe, with the present knowledge of the Man. Till we move from the matter state into the field state. Because we came from one, we went to the other, and we're going back to the other one we came from originally, but in different dimensions. Because it had to be understood. Fields and the interaction of the fields were not understood fully by our team. Now, most probably has been partially.

We had to go into rays to understand it, to come back into the fields to understand the plasma. (2:38). And when the new plasma systems comes into operation, we are ready to transmute you. And transportation becomes extremely easy for us, should be ready in next 2 - 3 - 4 weeks, because the production has started.

And it’s controlled by you and your thoughts, then by us. It follows into the Head Units and the Power Generation Units the same. The new spherical Power Generator Units are an amazing things once you see them. We move the technology to a much different ballgame, than up to now. The first basis of transmutation through thoughts. The first backup system, the basis of it has arrived from our factory in Iran in our hands in Linz. And you will see it, where the new generation of the, what we call, the Head Units and Power Unit comes into operation. It's a different world, (2:40). and different ways to eat, different ways to communicate, and they are just about to come in to production in the second quarter.

You understand the interaction. The fear of coming to Linz will go away, because you're in Linz before you have the fear. Those of you who bought the Plasma Compact Units with the Head Units will experience a new dimension in life, once you receive them. And

once you understand what the position is in respect to your Soul, nothing else. Your Soul will think good, will act good, and will deliver the good things.

And you will see the line of communication will change. A lot of you will communicate totally in a different way when you receive the Head Units with the Power Generation. Because the power is generated in dimension of the plasma, not in dimension of the electric power. Your brain, your Soul is made of a plasma. So it's of the same, that's why the change will come in that way. (2:42). In the upcoming meeting with world leaders for the first time these Head Units will be used in a very specific way. Then you'll understand.

Any other question?

R: Okay, I'd like to clarify with the Jefferson thing. As Rafael mentioned in the chat here it's Jefferson Modesto, and not Jefferson Rodriguez. As Jefferson Modesto says, he never went to Linz. Now we have Jefferson Rodriguez with a hand up here. So, perhaps he would like to say something to clarify his position. Hello, Jefferson, would you like to go ahead?

Q: .. Hello, everyone, it's always an honor to talk to you Mr. Keshe personally. And I was just going to say that it feels really good. I have been through this experience, flight experience as many as I can. And I really feel good. And I say thank you very much for the opportunity that we be having to help and to join in this effort to enhance our knowledge. Thanks to you.

And yes, I'd like to say, I've been to Europe last year. And I dropped by Linz, but it was a weekend when I arrived. And I've been to the Uno Center to know the place, to know where the institute is, to feel the environment, to feel the air around, to feel the structure, and to understand the energy that was around, in my humble knowledge. And I've been through the city to spray Gans's in the river, the Danube river and some churches, everywhere that I could. To try to bring my wish that everything could be good, could go in the direction that should be.

K- Did you let us know you were in Linz?
Q: Yes.
K- Did you ever let anyone in Linz Center know that you are in Linz?
Q: Well, in fact, I just, I put a message out to a friend, but it would be any possibility to make a visit. But I did not specify who and when.
K- Now, when you came to Linz, did you tell anyone that you're in Linz, of the Keshe Foundation?
Q: No, I didn't. I was by myself.

K- You were there. But I knew you were there.

Q: Yes, you know. But I was…
K- You came with another Brazilian Knowledge Seeker, a lady, am I correct? (2:46).

Q: Yes. It was a kind of coincidence. Because she was going to take the flight experience and she was alone. And I was in that time, I was in the city. And I met her to bring her a kind of emotional support, because I got in connection with her. And I felt that she was not in balance. So I met her. And we talk a lot about…

K- Why didn't you come into the center?
Q: Because in that day, I was leaving. I had my ticket to…
K- You could have told. I was never told by no one that you're in Linz, but I knew you're in Linz.
Q: I believe…

K- What occurred to me was, why you didn't inform the Keshe Foundation, that you're in Linz? Because we can always open the door on the weekend, if you're there for a day.

Q: Yes, I didn't say to anybody. I was just like, kind of knowing the place. And I didn't want to bother the experience that was coming on, that I had no appointment made. So I didn't want to enter…

K- You know, we had these kind of things in Niño, in Belgium. And then in the center in Italy. Where people come a long, long distance from all over the world, and they just sit outside and never come in. And we usually feel them. (2:48). That's what I said, I knew you were there. And you did not come in.

In Niño I walked a few times, and I could see Japanese and Koreans sitting outside on the edge of the car park on the road. And I walked to them and said, this is the Keshe Foundation Center. Yes, we just came to be near. And I said, why you behaved like this, it's your home, come in. We just don't want to be disrespectful. We just came to be near. And this followed, even in Italy.

And this is what I don't understand. If you travel halfway around the world. We haven't made a temple, it's your home. And we see this kind of behavior quite a lot. When you come to Linz or anywhere else. And you're not the only person who's done this. I'm aware about maybe 10 - 20 people have done this in the past year.

The center is your home. It's not just to come and go. And somehow the Keshe Foundation team, if you're there for a day, they can always allow you to come in, they make a time. I was very surprised. I knew you're in Linz and you will not come in. And I felt it. In the later time, (2:50). I always ask, especially the Koreans and the Japanese who used to come to Niño outside. And the strange thing is, was they used to come the two days I used to be in the center, because I asked, the people around, have you seen them? They usually come to days they know you are here.

We don't create a cult. We are not a religion. We are a scientific organization and the love of the science brings you home, it's your science. And as I said in a meeting in Belgium years ago, .. we had a public meeting in the Niño Center. And a gentleman came to me

and said, Mr. Keshe, do I have a permission to speak with you. I said, do I have a permission to speak to you. Why you asked this question? He says, that gentleman there said, that I cannot speak to you without going through that gentleman. I said, I met that guy only once, I don't know who he is. People give themselves importance by association.

In Keshe Foundation we don't have this. And when you go to any of the Keshe Foundations if not because of the security, it's your home. It's a home of knowledge. You should never be ashamed of it. I was talking to my bodyguard yesterday. I said, do you know why you and your team is around me all the time, the people when we go around they are there? He said, no. I said, 99% for people to be deterred to anything. The other 1% if they need to be. (2:52).

We made "the home of knowledge" to be for all of us. We haven't made the home of knowledge to be exclusivity of some. If you traveled halfway around the world, you don't pass by, you come in. And this situation with you I knew, because I've seen this before, and in a way it's a pleasure to see, for you even to be there, and for us to see. Next time you come to Linz, walk in, let us know. If it's possible we make an arrangements.

Q: Thank you very much, Mr. Keshe. It'll be a pleasure and…
K- It's a long way from Brazil to come in and not just cross a glass door.

Q: Yes, but I will get in contact first, but I feel so much happy that… It's just like you said, it's just like a home. And I feel like that. I feel when I was in front door feeling the energy of the Keshe Foundation and all that can and is bringing to humanity in the connection with the whole. It was so strong, so powerful, that I didn't felt that my person in physicality could have this strength that I was feeling, the exchange of energy that I felt. (2:54). Thank you very much for your invitation. I know that's always open and the next time the time that I have the opportunity will be more than a pleasure and honor to meet you all there in physicality. But in the Soul level, I'm sure that was incredible, amazing experience, because I could take this energy to spread the water and Gans's through the city, to everywhere, to feel the energy, to connect with the churches and the bell rings everywhere. And understand the environment of the place. So it's easier for me to get in contact when we are in this experience. Although I didn't came in. But I feel that's amazing experience. And I just say thank you for everything. And I will be very happy. I will be there one day. And I will come in happily.

K- You're welcome. We had the experience, I don't know if it is still going on. But we stayed for about three weeks in a small hotel, in a suite in Italy, before we moved into a permanent residence. And we had a few conferences in that hotel afterwards while we were in Italy. The management of the hotel told us one day that, Mr. Keshe, we don't know why, (2:56). but a lot of people are booking the room that you stayed in. They ask only the room. They come into the hotel for one night or whatever. And they want to stay in that room only. And I said, what do you mean? He said, these are the people, your Knowledge Seekers, they want to sleep in the same bed as you slept. To feel the energy.

We have not created a cult. And the guy said, we have more booking for that room than anything else. We've got to understand that, we have to understand the essence of fields of it. And I respect that, in the teaching of Muhammad, bless his name. In the West, you don't understand. I spoke about this before. When the… they had to become a consent between those who brought Christianity to Italy, through the Roman soldiers who went to Palestine, and some witnessed the putting of the Christ on the cross. And the ones of the leaders of the Italy, the Emperor went to Iran and became the followers of Mitra to find a religion without a statue. And when they two came together, the Romans could not tell the citizen of Italy, that now we worship something in the sky the way the Emperor's do in the name of Mitra. So they made another statue, call it, the cross on the Christ.

So in a way they moved from these big statues in different locations and temples, that you could carry now the cross on you, (2:58). with a cross on it, with a Christ on it. So, they changed one statue with another. Muhammad saw this. And for it not to be repeated he forbid the Muslims to ever draw his face, that he doesn't become another statue on the cross.

This is why in the Western world, you hear they put all sort of death sentences by the Islamic leaders on those who draw the picture of Muhammad. That was a logical Muhammad. When I did it was to protect myself, not to bring wars to the humanity. Another statue. Because Muhammad and his time of life lived in the places where they worshipped statues. When he went back, when he realized the message of the Creator, he demolished all these statues. The only statue he couldn't demolish was the black stone, which wasn't cut yet, it was nothing to worship. The only uncut stone. And because it was black it brought the fear. From outside it's square. It was brought in to become another frightening statue.

And Muhammad didn't want this to happen to him and the path of the ?? he brought. So he forbid even his pictures to be drawn. Where in Christianity you just walk from one statue worshiping a round ?? room, to another with a cross. Now you have become better, you could carry it (wearing the crucifix as necklace). And the Emperor's act on the behavior of the Catholic Church. (3:00). We just gave them something else, another statue to worship. If you're a true Christian you should never carry anything with you (wear a crucifix), because the love of Christ has to be in your heart, not around your neck.

And it has to be the same with the Keshe Foundation. The knowledge has to be respected, not the man. The understanding of the line of connection to the Creator by the man himself has to be respected, not anything else. And when you go to knowledge centers of the Keshe Foundation around the world, respect the knowledge and be part of it, and not be arrogant that you understood more, or think I'm not worthy to be there, because we are all equal. Thank you very much. I knew you were in Linz. And nobody ever told me.

Q: .. In the last teaching, we were given discussing it in Brazil. About the elevation of the Soul of the leaders, the "5plus1", plus Iran negotiators. And we've been through this connection (Intention) every day. And you pointed out that we should change something. And we were just wondering…

K- The 5plus1 has become successful, it's just matter of the last legs of it. There is a prison exchange in next few days should be complete hopefully. (3:02). And the backing of Chinese in the negotiation, as part of the main negotiations of the peace talks, 5plus1. It's the last bits for Americans to clean up.

Your work should not stop till this concludes, as part of what you do. But then it comes the next step. You gathered so much energy to bring that and you're holding it, move it on to the next step. What are you going to do when the 5plus1 to finish. Your elevation of the Soul of the World leaders to reach consensus as a World Peace has to become the work of your team, which you set up in Brazil. And I watch every day when Rafael post things around all the Keshe Foundation 30 odd, what you call it, groups.

The 5plus1 has taken its course in a way, through the wisdom of His Excellency President Xi of China, it will meet his target, we'll achieve it, it's matter of weeks or months. Depends how the new situation with the Saudis and the peace talks are opening up the embassies in Iran has changed their position. And this will give certain arrogance to the Iranian leaders, but this should bring them humbleness that they become part of the process.

It's do not stop, because that process you started, your as a Brazilian team who meets every night is still keeping everything as it is. As part of the course to be. And once accomplished… (3:04). It's in the process. We always said, we are 98 - 99% done, it's just a lot of things which needs to be agreed. It's mainly financial side than anything else. And the Iranian leadership wants, a lot of the Iranians asked to be returned back to Iran, or freed to Iran, as long as these assets are used for the nation, not the private accounts.

There was a huge problem with the ex-president of Iran with the Chinese. With the new president all these have been sorted, and a lot of things, which the last President created the mayhem between Iran and China is over. And in China, the Iranian new leadership have taken a new course in the work of the peace. It will not be surprised to see the opening of the what I call, dialogue between Israel and Iran in the coming time. The new delegations, which we see in Emirates with the bankers and the religious leaders in the background, and the, what we call… There's a little problem left with Israelis to be sorted out with the new leadership.

The talk between Iran and Israel to come into the face of peace is already taking shape in the background. And that needs the next support of the Brazilian group. We expect some skirmishes by Israel towards Iran, but in general, everything is sorted to be there. The Americans are influencing the air bases in Azerbaijan, to create a diversion, attack on Iran by Israel, but we are fully aware of it, we know what's happening. (3:06). Decision was done ?? 7 - 8 years. This needs the next step of attention by the what we call, nightly meeting in Brazil. 5plus1, and then the establishment of peace across most of the places, which is to come. With the technology we take to China, in the next few weeks will bring an evolution in science and technology of China. And we hope that the Chinese will pass it on to the rest of the world.

Thank you very much for being here.

Q: Thank you, thank you Mr. Keshe. I wish you a happy new, "norus". And we keep on, we keep on. I just thought that maybe we were doing something not wrong, but not enforcing, or that was just a feeling that I had about this meeting.

K- It is part of. There is a lot of bits staying around. Just one second please. (interruption) Sorry about that. Somehow, it rings at the same time during the teaching.

But in general, we're on the target. And this meeting of the 24th will be very important for the work of the Foundation. (3:08). a lot of the, and what you call it, expansion of peace. Try to join as many as you can. And many of you will learn a lot about yourselves by the time we finish with the, what we call, meeting with the world leaders. The feeding time was for 24 hours, or what we call it, the first two weeks. Meeting with the world leaders will be a long commitment. A long haul and a lot of work. And members of Universal Council, not the supporters of Universal Council, are obliged to be in this meeting. You use your own what you call it, Universal Council emails and you enter, you don't need an invitation. With this, we'll bring the change. Because there's a lot of things in the background getting developed and put in position for that to be achieved.

And this time peace supported by the Chinese will bring a lot of good things. And they need the collection, continuous support, which will join the 24th meeting with the world leaders to the Brazilian group. In a way in the coming time.

And we'll see how the thing turn up for you to understand, that you are the world leaders. (3:10). You don't need nobody to lead you. But to be correct leaders. Because when it comes to the Man to be in the space as a leader, as your Soul, will create his own planet or a star, you have to lead. But you have to learn from now how that Soul will lead. That doesn't bring, they create, the mayhem we've seen with the Soul, which created the planet Earth. And this is part of the teaching, it's part of the understanding the process of the Creation. Thank you very much.

Q: .. Hello, Mr. Keshe. How are you? And my question is, I was listening oldest teachings, the number 21. And you said about the numbers of the Souls of animals and Vertical beings is much greater than the human beings. And I was thinking about it. And my question is, if you put the plasma technology available today, in two satellites around the Earth, in opposite sides, would not raise the Souls of this planet very quickly? Or I could call in a number of Keshe Foundation and ask what I need. It's what I was thinking.

K- If we do it, we'll become magicians. (3:12). If you collectively do it, collectively you bring the change, it becomes ingrained and becomes a habit. It's a big difference. And we always stick to the side of not to be magicians.

Q: But the Vertical beings are not so much more, than fishes, and insects, more than the human beings?

K- I think some colonies of certain animals put together will be by number, much more than Man. And the more. But we have to go through the process of the change. It's not only Man who kills, the fish do, the lions do. It's elevating the Soul of Totality, because their Souls still creates another star, It's not just the privilege of Man's Souls.

On average you put, how many, half a billion Souls a year into the galaxy. Around a billion Souls we put out in the Universe, or in the Unicose from this planet, on the human side, and that's not enough. (3:14). One day I'll explain to you why we need so many Souls in the Universe and on the Unicose. There is a need for it, there is a structure for it. Some of it are replenishing, some of it are structuring, some of them become the backbone of the structure.

We ?? can do it with satellites. Chinese are going to launch 500 low level satellites, or they already started part of it. And I always said, with these, we can feed the whole Universe. Part of my discussion with the Chinese government in the upcoming time and military is this. Placing Keshe Foundation feeding stations on each satellite.

Q: Great, great, great.

K- But we'll see what happens. Those who are close to us they know. We talk to the people and places where it matters in different countries. We will see.

Q: I have another, only a doubt. Which parameters do you use to release the knowledge about this plasma science? We are in the…
K- Am I correct, you're a medical doctor?
Q: Yes.
K- Ok, ask me.

Q: .. Because you're in the 475 classes teachings, which parameter to use to go further, to go profound? Do you see the behavior? (3:16). Do you see the energy of the planet, the Souls?

K- It is a combination. Man is a complex unit. We cannot do it. It's just what we stand what we do. And each one of us brings our own facets and what we understand from it. You're a medical doctor. I could never become a medical doctor. It was impossibilities. I can't stand blood. Actually, I had a chance to become a medical doctor. In Manchester I was given a place in Manchester medical school in 1979. Even I came from the engineering background. Manchester medical school gave me pre-med, one year course, because I was so, with such a high marks. They said, if you can do so good in engineering you can become a doctor. I was given a place to do a pre-med one year to join the medical school. And I refused. I said, I can't stand blood, how can…

I created technology with medicine that needs no blood, works through the energies. That's where we are with the Keshe Foundation wellness units. You are a special characters when you become doctors. I see blood I run.

Q: That's a point that I am fascinated with your knowledge. Thank you.

K- Thank you very much. But it needs a collection of it. It's a combination of the emotion, combination of understanding, (3:18). combination of comprehending the process of the Creation. It's when you put them in what measure with each other, that brings the best in the human Soul. And that's all the purpose of the teaching is. It depends on which part you want to emphasis and which part you want, what you call, develop. And which part you want to strengthen it. There is no set rules.

K- Thank you very much. Shall we call it a day?

Q: .. It is my first workshop. Could you tell us something about trauma and how it affects the brain, and something about addiction or eating disorders? Thank you very much.

K- Trauma .. is created between the condition of the emotion and physicality. (3:20). You do not know which one and how they interact. We see when we clarify one, or we strengthen one, we finish with it. Depression, eating disorder, bulimia, and all this comes from one source of, or another, of self-abuse, or emotional abuse in respect to conditions. And that things brings certain kind of addiction with it as well, that I stay in my world. And I don't need to be anyone else. So what brings into that world for me to be on certain materials be it alcohol, be it drugs, be it love, be it whatever.

And this comes from… It actually needs a strengthening of the Soul, with interaction with the STP. And we've seen that recently with the work of our doctors. How people with depression, eating disorders, all sorts of conditions, gradually come to understand, elevate their own Souls and walk away, or gradually start to understand how they've done it to themselves. And because they understand it, it's self-healing, you don't need to do it again. You don't need to do anything, because you sort the problem from the base.

So when you have a trauma is where you're what I call, Spirit, or STP, cannot understand the work of emotion. And that brings that conflict. (3:22). Once you elevate the Soul and STP, the trauma is not there. You have to understand what causes it, what is the reason of it. Or what has led to it.

We came across something very interesting. We always deny the emotion. And when we deny the emotion and expectation of the life in the physical dimension, we call it, reward, brings these traumas in. And some of these traumas we call, ILS (means ALS). Which ends up with the death of the Man himself, because he cannot handle the traumas of the emotion in the dimension of physicality.

Emotionally, I want, I have to have it because I think I deserve it. But if I don't get it physically. Demise, I bring the end of physicality because I think… It's just like a child

having a tantrum, if you don't give me this. I'm going sit down and bang my feet and leg on the ground till I get it. We call it, temper.

And in adult life expectation and emotional condition not befitting to understand the STP or physicality, creates ALS. If it's directed to one, to a person as life, we get MS. And when its self-inflicting, the same emotion to the STP and physicality, we call it Parkinson. But in fact, we have to understand what trauma we created in the dimension of emotion that led to the physical condition, psychosomatic. (3:24).

So, traumas comes when the two don't fit. The expectation of emotion with the physical interaction of the STP with physical life. And this is where it comes in. One is the interaction between the fields of the STP and the dimension of physical life. I'll explain this once in the future.

We have through our structure of our body two structures working at the same time, in parallel and in conjunction with each other. One is our Soul interacting with our STP, which ?? leads stepped down to the physicality. But there is one through our neural system which bypasses the Soul. So that creates its own physical emotion, which interacts with the STP. And we see it when it does imbalance as trauma. It's a different…

We don't have traumas between the STP and the STM, but we have traumas between the STP and what we call, we created as emotion with the physicality of the Man. And that's the path, which we create our own demise, and we create ALS. And the world of medicine have not understood this.

Once we understand this, we can solve 90% of the what we call, diseases of the Man, psychosomatic. (3:26). In a way, it's an internal work. Where with the STM and the STP is a universal work. It's like a family, inside a family you do whatever you like, but the family has an interaction with the society. This is how they see this family.

And this is what we call, traumas. It's the interaction with an emotion created through the physicality and STP. This is where it creates psychosomatic, the emotions you create within the Soul and the STP is a different emotion, even itself can lead to psychosomatic diseases.

So, when you have traumas, you have to understand why, how. And when you have an eating disorder, what this psychosomatic condition have brought these kinds of allergies, these kinds of things. I was talking to a very highly educated woman in past couple of days. She has a specific disease condition, and I was talking to her a few weeks ago, and in the past couple of days, we're talking about it. She said, Mr. Keshe you're right, I started reading the books. She's a doctor. And she said, you were right, I created my own problem through my own the emotion. I read other scientists, and it's what you told me. It's exactly right. And I know how I created this. Now I understand it. I said, now it's time you're going to bring the change, because you understood. (3:28).

She is a highly educated PhD. But she did not realize getting that PhD has brought demise of her own physicality. And that's where the trauma comes. And we see it the same. We set it that way, then we eat the foods, which actually creates that condition, feeds that condition. If we change our food habits, we can change the condition, because we create different strengths of emotion. We don't have the allergies, we don't have the other things.

There's a school of thoughts in the world of medicine that they say when you're allergic to a food, don't avoid it, start eating bits of it, in micro feeding. Then you find out your body gets used to it. And you overcome what was in the brain psychosomatically that became, it shows us as allergy. And it works in many cases. If you're allergic to peanuts, they say, don't touch peanuts. But if you actually do micro dosage, that you build up that strength, one day you end up being able to eat a sack of peanuts with nothing.

But you have to understand the process by it. What brought that allergy. Is it chemically or psychologically? And then disorders are the same. Why do people have disorder? It's part of the attention seeking. I don't eat this. So every time the food comes on the table, I'm the center of attention. (3:30). She doesn't like this, she doesn't like this. And when you elevate the Soul, that's not there.

We saw this actually recently with a child. She wouldn't touch vegetables nothing, and overnight by elevating the Soul, the mother says, she suddenly eats everything. Vegetables are no problem anymore. Because you elevate it, there is no need to push, kick, or shouts or crying on the table. You elevate the Soul of the child, because she gets the attention she's looking. Then you don't have disorders. And sometimes happens in dimension of physicality, you have to find out why and how.

Any other question?

Q: .. I want to know if the gas unit can be sold individually. And to fertilize the land of 50 hectares, is it enough to use a single unit for this?

K- The gas unit? What you want to do? You want to burn the place?
R: Perhaps, well, I'm not sure. But then I'm thinking like in greenhouses, they burn the methane or propane in order to make CO2, in order to fertilize the plants?
K- The greenhouse indoor.
R: Yeah, indoor. So I know 50 hectares is not an indoor greenhouse.

K- No. (3:32).
R: So, perhaps is there any connection there between the gas unit, and…

K- The new technology we are developing doesn't need the gas unit for farming. It's much more sophisticated. I was talking yesterday to our people that this year maybe the last time we use these kind of even advanced technologies as Gans's, which we developed. We move into the next phase, environmental fields for a specific condition.

Where for example, you can grow rice, and maize, and wheat on the same land at the same time and all grow the best. They're going through a test phase now.

For the first time I released to our team, the real way to make the farming Gans's. When I make things I disguise a lot of things, (under) a lot of things. And then they say, oh, it does that, but how come when we do it, it doesn't work. For the first time I released what we call, the touch, which brings the harvest to 3 to 10 times more than average. And we'll see the results of it in the coming months. As the harvest comes in. As now it's the time to sow the seeds, as we say, and we'll see what comes next.

You don't need to deliver Gans's, you just need to deliver the energy in the right way.

Q: .. . Hello, Mr. Keshe. After applying the pads with Knee Gans, my husband got pain in his hip. Is it not suitable for him then? Or is there anything that can be done? There are four milliliters in the front pad and eight milliliters of Gans in the back pad.

K- There's a very old English song, it says, the knee joints connected to hip bone, and hip bone connected, you remember that one?
R: Yes, very well.
K- Would you like to sing it?
R: No.

K- You fix the knee, and now knee is in the right position, or get into the right position. And when the knee was in the wrong position, has moved the hip in the wrong position to be. So you got used to two mistakes together, but one was showing the pain. Now you put the knee right, the hip has moved to the right position, or is trying to move in the right position. And this shows itself as a pain. It's not that it's moved, you have corrected a block. And now, the top which was moved to keep the balance has moved, or trying to move to be correct.

Most of you, when you get this problem with the knee, when you do this, you will see it, the knee moves in strengthening. And now the hip has to correct for the changes done. A lot of you, especially women. I've talked about this many times before. You love to wear these beautiful, open, high heeled shoes, or sandals. (3:36). And in that process, a lot of you accidentally or whatever, get your little toe, getting hit by the furniture, or by the wall, and you get the pain in it. Just the little toe bends, or your big toe bends. Because it's open. When you wear a close shoes, you don't have this when you have open shoes.

When these toes move in the center of your foot, there is a nerve, which creates a balance of the lower part of the body. We have two balancers, one is in our ear and one in our foot. This goes right in the middle center. And when these toes move, this thing moves. So when that nerve moves, the ankle has moved to adjust for it. Then the ankle moves to adjust for that little kick you had on the corner of the table six months ago, comes to your knee a few months later, then from your knee goes to your hip. And then they call it, you have sciatic. And then the spine has to adjust for that little change in the toe, which you kicked two years ago. So now you get the back pain. And then it moves on to the

shoulder pain, because it's going up, everything's adjusting for that little kick you had. And some of these, if it's repeated, ends up with you, movement of this, what we call, the spine. And then vertebra has to move and you get disc problems and you have sciatic problems.

But in fact, your whole problem came two years ago, three years ago, you kick the toe, you don't remember, it was just something very small. And most of the chiropractors don't allow us to do anything about it, because you keep on going back, they make money out of it. If you put your toes right, gradually, all this correction, the knee pain, the hip pain, the back pain all goes away.

And I released a video for this using the foot of one of Knowledge Seekers, (3:38). how to do it. And you get somebody to put your toes right, the foot right, the ankle right. And then over next, you do 3 times a week, and after a month or two, you feel, oh the pain in the knee is there, and then the pain in the joint moves up to the hip. And then gradually all the pains goes, because the body now is going back the way it was born with the correct lining.

You have two choices, stop wearing these funny shows with the open front, or regularly, every few months, get somebody to put your toes in line. And I released the video for how to do it, two or three years ago. We did it, or teaching wise for somebody, and then it came out to be passed on.

Now you use the knee what you call it, Gans, you might have a problem with the ankle or the hip, because they moved because of the pain and the position of the knee. Now the knee has gone the right position. They want to go back to normal, so they create their own pain. You still can use the same position with the hip. But then the other thing is, now you've corrected the knee, you corrected to the hip. Now the spine start moving, you get the problems in your hand, and your arms. So you have to get it all lined. Can I use the thing from my neck for my leg? All depends on you.

But when we released this we see a lot of positive response with the people who use the Knee Gans. And it works because in a way, strengthens. Put everything right in the position of the Creation, the way you were created. So, the others tried to move to go back to how they used to be, (3:40). and you see the correction brings the pain in other ends of the knee, on the ankle or on the hip. And if you use the same, you will get that moving.

It has been one of the most effective Gans's Keshe Foundation has ever released as a field package. And it works, extremely effective. But there is a way if you use it. We don't release that way of application, because it goes to another dimension. If you use it in a certain way, for years immediately corrects itself if anything happens. It creates that condition.

One of the richest man in United States, family of the richest man in the United States, suffered with a cancer on the hip. Being a Mormon, he could not use any medicine. The

wife becomes a Knowledge Seeker, and comes to understand about the Knowledge Seekers at the time when we got involved with the rest of Alan Sterling, got in the same area. She got to know how he was using Keshe Foundation, and the rest. And she makes a patch without him knowing being a Mormon, and puts it under the mattress, under the sheet of the husband with the cancer of the hip bone, on the hip. And she's not touching medicine, she learns how to make certain Gans's talking with some Knowledge Seekers. She makes her own concoction, as I call it. And the guy was huge, because he was in bed, very active, waiting more or less to die with four daughters. He's a Knowledge Seekers, he is on the line, he will call me back says, you should not tell people what happened to me. (3:42).

But using the Gans's the right way, the cancer has disappeared. He's back to life. He is very active, we still talk with him. And we didn't know this, he told us. And when he came in touch as one of the rich mans of the United States, how the technology through his wife making patches, has helped him with a cancer of the (hip bone) . And this pain in the hip will not allow him to walk, or do anything else. And the last time I was talking to him, he was on the truck two o'clock in the morning going somewhere. .. He says, now I'm living Mr. Keshe, I'm driving 8 hours, 10 hours at night, with the new satellite system coming into operation, making sure everything is on, what you call it, GPS location, correct for what is to come. But the change in the hip, he started changing in whole body. And the cancer is not there. He said, I was lying in bed waiting for the death. Now I'm running like a rabbit.

R: Mr. Keshe, for someone that's like in the case of Ute who the pain went from the knee to the hip, would they then since there's no longer pain in the knee, there's no need for the Knee Gans, in a way. Would they apply that Gans to the hip in that case, and chase the pain around the body if necessary?

K- In a way, you can do, but you can't use it on the spine. You can't use on the spine.

You see what happen, these are Gans's experimental trials. (3:44). And we're talking about the fields, you are not touching it, you just cover it and use the field of it. And don't going to touch the body. So now you have to understand, if it's been that much correction, that the knee is corrected with the fields itself. Now the hip corrects itself. So what has been the rest? How did the vertebra has moved to accommodate the pain in the knee? You understand? So, it's not chasing it, you corrected up to the sixth floor, you still got another ten floors above that are tilted, you understand? But the zero to six, or floor two to four has been corrected. You haven't corrected the ankle yet. You understand? Once you put the knee in position, sometimes accidentally we do damage without anything else, but the rest most accommodate it.

I spent years with this disease, with this problem. I even went back into disc operation in 2,000. I did a micro surgery to get the disc, and then I found out, that it's actually how the system works. And since I put the system in order there is no problem.

This Knee Gans is done for a specific purpose. For you has been the pain in the knee. But what happened with the cartilage? What happened with the ligaments? Have they been reproduced? Have you taken an MRI, before they tell you, you need a cartilage replacement or whatever? Have your cartilage, have the ligaments have been strengthened? It taken me 20 years to develop this Knee Gans. (3:46). It's not something accidental. And because I've been through it, I know how it has to be done. (Mehrenez, last years said, I had a dream you have a problem with the knee, .. I said, yes. Took me a week, seven days to correct the knee, and it's gone. And every time ?? (goes out), it corrects itself, I don't need to do anything with it.

This is what we shared with you as a, what you call it, as a knowledge sharing. It's one of the most effective fields. If you look at it, it's like the cups we sell with the fields replicators we call it. This Gans is the same, it's a field replicator. But instead of the Gans water, it's your body. It's not a medicine, it's a plasma field ??.

R: Mr. Keshe, excuse me, if somebody have their knee surgery and replacement of the knee actually with some sort of titanium or other metal. Would the Knee Gans not be recommended in that case? Or is it okay?

K- No, do not use it. We prefer not to. If you have a hip replacement or a knee replacement, do not go near it. It's actually is, I think it's on the back of the bottle. We always said.

This is a field application system, it's not a medicine. It's just create energies that works in this way and this is a trial, so we get the feedback. (3:48). It's nice to know it got rid of the pain, or what you got it, but this is the side effect of the injury, which was created and now the hip is putting itself right, so it moves up to the hip.

And yesterday we were told, we can produce more of it. It is a very time consuming production to do. Limited numbers for us is made. We might repeat it again. But it's something you can keep for years, if ever comes, whatever is there. Be it for the wrist, be it for the fingers, joints. It's always, then feedback to us. These feedbacks you give to us like this confirms the correctness of the… Because we're going to use this in the systems for the, what you call it, wellness centers. And we already, because of the results, we already tested with other conditions, and it's correct.

But you get to turn this is… It's like the way when we put the glasses out. We put there for you to test it and the feedback gave us a lot in setting up of other systems which we developed. We produced a limited number of these, and we might produce a second cycle. But that'll be it. It's not something… It's like these discs you take, it takes two to three months to produce this black disks. But it's nice to know is effective, it does what it says. (3:50).

Any other question? Or shall we call it the day. We are nearly to one o'clock.

R: Yes, if you could just answer, maybe a quick answer to one or two more questions that would be great we'll have that wrapped up. Seven star in the YouTube ask, is carbon a difference between Mag and Grav of the same plasmas packages? Is that the reason Nano is always graphite structured?

K- Can you repeat?

R: Is carbon a difference between magnetic and gravitational, as the same plasma package?

K- Yes.

R: Is that the reason Nano is always graphite structured?

K- Graphite structure because is the… When we call it Nano graphite structured, it's not actually carbon. It's the fields which they create, give that effect.

When we speak about C14 it's the effect of the fields created by Deuterium, which creates that condition. You have to understand how C14, we call C14 as an energy works. How much packages is in it. It's like a bag with some little loafs of bread in it, or so many slices of bread. It cannot be any, you cannot bring more slices out of what you already sliced. But how it shows itself, does it gives one slice, or it gives you ten slices out to be consumed or to be used ?? not to be ?? interacted.

The H originally when it starts as a plasma, and then in the splitting and interaction becomes Deuterium. Then the deuterium itself goes through the same process. (3:52). By interaction with the fields around it, it allows it to maintain, create speed of motion, which in that speed of motion interacts with the other fields which leads to interaction, absorption, or creation of more fields of same strength. This is what happens in Plasma Technology, which in balance with the rest of the fields of the Universe is about the field of strength of the seven neutron you call it, what we call, the plasma energy.

Not with the atomic number. We look at the field force factor. And that creates a condition of C14, and the connection of the carbons. Because C14 itself comes from the production of C12. In stepping down it becomes C12. And step backs up to C14, when it comes to the space.

And this is part of the process of the Creation, creating of itself and then using itself to create the next condition. We call it, the weight and the mass on Earth. Read the book number one, I explained this in very detail, how we create mass, and how we create the weight. And how come the mass is the same, but the weight is different? The weight is interaction at the mass, which itself created from the fields of the Inertia of the Earth with the gravitational field of the Earth. It's the third effect of interaction of the first origin. (3:54). We call it, the weight.

And now, the first effect which is based on the interaction of field of the Solar System, which is base common denominator with the field of the gravity of the Moon, makes it lighter. Because it has a different dimension of interaction, MaGrav strength interaction. Otherwise it's the same. It's interaction of the interaction, and interaction of the original field with the interaction of the interaction. We call it, weight.

I showed in the first pictures of today when I draw you the circles with the H, tritium, helium, what you call it, and there on. Once you understand this, the world of plasma become your oyster.

Q: .. Mr. Keshe. It's mentioned somewhere on the Internet that MaGravs plasma energy can charge a conventional mobile phone by requiring no conversion. Is this true?

K- In some MaGrav condition fields if you can match it. But you have to understand how to match it. And in the very near future, we release this. You can charge your phone anywhere in the world, by your main system, which sits at home. The, what we call, the new spherical Plasma Power Units, which now delivered to Europe from our factory from Iran, are set to do this.

You can charge your car, driving anywhere in ?? earth. It's what Tesla did. (3:56). But now you have to have the right connection at the other end. You have to have the right tool to convert it back to use. I was talking to our guys this week, yesterday, day before that… You saw the headphone in the demonstration standing on the stand, it's actually just a stand. The headphone gets its energy from the generator on the other table. And I said, why don't we put them, the headphone directly on the unit? Why do we need the stand? It just bought when we bought the Head Units, they came that way. We use the same stand, but the transmission is taken out of it. The electrical transmission. Because we don't use it, we don't need it.

And I'm sure in next few months and whatever, we'll start introducing the magnetic fields producers as an energy transfer. It'll be done. This is the gift we'll take with us to China. If you can change the energy consumption production of China, don't forget they produce one coal power generation a week, into operation for years. If you can, with the new technology close two thirds of them. With physically, correctly, replacing them back with plasma technology, we have brought China to meet its own commitment to what we call, the carbon (foot) print.

As I said to one of the world politicians in past few days, (3:58). if you give me the material in the power lines, once you don't need the power station, because you're not putting any more (power) grids in, I can feed the whole nation of yours. You understand? So, the power transmission the way we have got used to it, the way Tesla brought it back and come to where it is, now with the new technologies it's not needed.

We need one central station power generation, which is in the center of the Earth to feed the whole of the Earth. We have not gained the knowledge. I have the knowledge, but then I become a magician. We see this energy in the form of lightning and thunder. We

need to know how to tap into it. We tapped into thermal energy, we tapped into the water energy, we tapped in solar energy. But we haven't tapped to the essence of our own Creation on this planet, which comes from the center of the Earth. The magnetic fields, which we call it, gravitational magnetic field. If you can tap into it, you don't need any power stations. Every unit is a station of power for itself, be it the light, the television, the fridge, your mobile phone.

Geomagnetic electric power has not been tapped into by Man, and our new systems are, they're stepped towards that way. Maybe if I get the right communication with the Chinese authorities in the next few weeks, we'll release that technology to China. (4:00). In respect to the GDP transfer to the Foundation for development. Which means China does not need to import any more coal from Australia and the rest of it. We don't need to burn a fuel to transmit cars, transportation.

Now with electric cars, what are we doing? We are putting the power production in the background on the hills in nuclear power stations and the rest. We haven't solved the problem. We were creating more rubbish, carbon fingerprint, than when we were running the cars. So the only solution is to come through China, as one of the major industrial nations. Implication, application of it will go through the International, what you call it, cycle.

Then we don't need these, what you call, nuclear power stations and this new mayhem and building power stations, coal power stations and the rest. If you understand, if you ever understood by Man, what I'm doing to the Man, Man would run like a rabbit. With this technology and the advancement it brings to humanity, transportation, transmutation, and easiness to access to the knowledge of the Creation, I'm creating a lot of unemployment. Which very knowledgeable unemployment, (4:02). because people all get to know how to use, or how it is to travel ?? Soul. So this allows a massive excursion of humans Soul into space, with the correct conduct.

When you have everything you have, as our friend said, 16 days hasn't eaten anything. And you have to understand these 16 days he hasn't eaten anything, the supermarket hasn't had money from his pocket into theirs. So if 1,000 people in his area do the same, the supermarket has no customers going in. It goes down the line to the distribution, to the farmer, and the rest of it. So, it'll create a huge unemployment.

But when unemployment understood why, because the transport guy is himself one of those who is not eating, and down the line, and down the line. Then it creates a Man of peace, because we have what we need, why should we fight for it? And then allows the Man to become "Man of the Universe" in a peaceful condition. I don't kill on Earth, why should I.

Man has not understood what we planned for the Man. In a very nice way, my grandmother used to say, you cut the neck with a fine silk line, you don't even feel it it's going through you. You don't need the knife to cut man from the habit of killing. With

the silk of the knowledge we change the habit of the Man. This is what is on the card. And I always achieve what I came to do. (4:04).

The next step is for us to deliver the energy technology, wellness technology, space technology to the nation like China. And then the next will follow. Another Chinese from import, as Trump said, China, China, China. Because China allows the right process of the growth for any intellectual rights.

See you next week. Hopefully join us on (this) Sunday at 12 o'clock, dining with the Creator. And join us on the 24th of March, sitting with the world leaders. It's an obligation to be there, if you want to lead. Thank you very much for today, and hopefully we meet soon.

R: Excellent Mr. Keshe, you made a SASI1650 cry today. They say, thank you very, the big heart, and I cried because it touched me a lot. It is so interesting. So, thank you. That was the newcomer to the workshops. This happens from time to time. Thank you, Mr. Keshe.

K- Thank you very much.

(Auto transcription by Elias)

Survey of participants "Dining with Creator" have proved we can feed man; Salinity of Saliva; Can stop killing for energy; China takes road to peace - release T to them - colonize Moon; President Xi lead world to peace - release T; 100 medical cases sponsored; Story of ex-wife pedophiles in KF; Children taught Soul - can't be abused

ENGLISH TRANSCRIPTION

(:14).
K- Good evening, good morning, good afternoon to wherever, wherever you listen to this series of knowledge subject, Keshe Foundation Spaceship Institute. We welcome you back. And we apologize that we had to change the time of the teaching today from nine o'clock to six o'clock as usual. Whenever we have something important. We try to be the same day, but try to move the time when it can be fit, that we can be there to learn from each other. Today's we have a number of announcements and a lot of things, which has

happened in the last week, and a lot of things to learn, and answering some questions and see where we go.

If you where with us on the 19th of February, we did the session "Dining with the Creator." And then it allowed the Knowledge Seekers (KS), some 150 - 160 of them, to dine for the whole week with the Creator. And then the second week to entertain the Creator, to see what they bring on the table. And this gave us a lot of insight, opportunities, for us to understand who we are, what we are, what we do, how we handle, how we feed, how the feeling to us is, and what it means. And what it does. This was a quite a large number for us. And learning from it was the cornerstones of the whole exercise, for you and from us.

As I was explaining to one of KS in last couple of days, (:16). to do these kind of surveys, to do these kind of trials, to do this kind of testing, for an organization costs a huge amount of time organizing and all sorts of things. And a lot of financial backing into it, and all sorts of finding at the end, if you actually find the right answer, and you get the right emotion from the test you've done. But thanks to the Knowledge Seekers we are leaping in a very fast level to where we want to be, because we get the data we see how it is. And we understand about the behavior, human behavior.

On a return call in a way, to see how people did. How it was. Did they actually feel anything? Does this system work? Because it's easy for us to say, "oh, you came, you went there, you did this and you did that. But it was important for us to see how the system interacted? Does it actually interact? Or is it just for us to say, we have a system? And in a the way, the food is the best way to get man going. As the Chinese say, when you say hello to a Chinese, you say "nei hao." And then the second word is "Sha ma," "have you eaten? Are you hungry?" So, this is the habit of man. Man, are you hungry? What do you want? What can I give you? How can I satisfy your hunger?

And in that process, we come to understand a lot. What we expect. What we want. What we see. How do we feed ourselves? Can we find? What is the effect of living in the space without food. (:18). And we allowed in the first section of the Sunday Testimonials, which is fully recorded and kept by the Keshe Foundation. And some of the Knowledge Seekers have recorded it in the background, to see what it was. How it was. How people felt, and how do people feel getting in these kind of conditions?

We saw some interesting results, some interesting answers. And at the end of the session after what we call, Sunday, we took a poll, we asked people questions, and they answered. And we took a good look at what it was, and how it took shape. And how many people answered. And I took a screenshot of not the final poll, but near to last 10 or 15 minutes of the poll, how people responded as we went from different languages and different things. But more or less every person on the panel except the organizers and translators, whatever putting aside, we had 79 or out of 80 answering the 79, the 79. And this gave us a very good indication. There was a small misunderstanding in the last question, when we said, what would you give your Soul, you would you give up your

Soul with the other entities with this? And this created a lot what we call, dilemma for some. Otherwise, still sits in a very interesting position.

The most important thing for us was, does our system interact in the mass numbers? Because we have a reason to understand. And the beauty with this is that, if we can interact with you by food in mass, can we interact with you by food for your energy. (:20). Can we interact for your wellness? Can we interact with you for creating conditions of transmutation and transportation together? And this was one of the very first trials that we looked at this, and how it is, and to take any ambiguity away from the whole process.

How many people who actually went through the 19th of February session, and the following two weeks, how did they feel? What was the feeling? And there were 8 common questions between them, which we wanted to know? And we explored to understand these, what we call, answers. What does it bring to us? How does it allow us to expand our knowledge? How do we see? And how can we go further, in understanding of the Totality of the whole structure? Does the human race, would the human race comply with the what we call, the standard pattern of what we wanted to do? And what can we understand from this?

One of the first questions we asked is, did you salivate during the session, which means did you create water? Because this water we produce creates a salinity, which decides what energy we absorb from the environment. We have this, as you can see on the statistics, (:22). we went to at 79 out of 80, we took a screenshot of 69 people watching while it was going on. And we see about 75% did. Which means the system has a capability to trigger the brain of the man to produce water.

But most of the water which you produce at this moment through the interaction of the plasma is a plasmatic water, and it's different than the water your drink. It's already converted into a plasma. Saliva is different than water, which means it's a combination of interaction of the fields. Because it's already, it's within your structure. And this structure allows us to see how you feed yourself, how you absorb energy.

When you have a dry mouth you absorb different energy from the environment, when you have a saliva, or what we call, salivation in your mouth, totally different kind of energy is absorbed. That's why we drink water, and drink water, drink, it's not the saliva, it's a different structure, it's a different plasma, because it just entered, it has not been converted. And it was important for us to see, that you actually create that water in your body. And we see the same thing in the lungs. When the condition of the lung changes, we collect water in it. We create a moisture of the lung, and if we change the breathing technique, we can get the lungs flooded, or different kinds of energy absorbed.

This question was very wise. Because if we can get you to create a saliva, we can get you to create a different salinity to absorb different energies. (:24). So in according of the plasma, we can create a condition that it creates a saliva for chips, it can create the saliva to absorb the energy of an apple. Scientifically, this is a huge answer for us.

But scientifically to us, it tells us we can give you energy the same way, the same structure as for cancer, as for schizophrenic, as for Alzheimer, as for any virus in the Universe (U). So, we can dictate. And we put to this structure, people who are receptive to receive. When we put the same team again back in a month time through the same process, you will see the figures of 75 will go to 95. Because the body has set for, we have prepared it for.

So this first question was a crucial question for us. It's that, first, if our system interacts with the people, and how we can use the fields of the interaction. And the whole purpose was, if you remember, we had the German lady which we asked her to drink water. She said, I was getting flooded up, so much water was coming, so I was creating so much saliva. So, we knew it with one person. Now we have 75% of the people in this, and this is half of the people who actually came to dine.

The second question for us was, have you noticed reduction in food consumption in the following week? 77% say, yes. So, if we pattern the first question, (:26). in a way that every day we change the combination of the food, most of you within two to three weeks will not eat anything. If 77% of you have noticed reduction in food consumption, which means you have taken it from the system, because you came in every week to eat. But you take what you need, you can't be obese, loads of the plasma.

So with the second question, we came to understand that we can feed you. Because you stopped taking physical food. This goes back into the program, which we put so much, you can sign in, and we will feed you for life, for a whole year. You don't need to, it's one of the policies we put out to cover. Because we know now by creating salinity, we can get you to eat as much as you need, but the body takes what it needs.

And the most interesting part of this was question number three. Have you felt better overall, in the following week? 83% are happy, are satisfied. Which means man can move away from killing. Which means by combination of the food, by variation of the energy every week, even three, four times a day on a program of the system, we can satisfy all your needs. And you'll feel better because you're not killing anymore. You don't have to have worries, where is the next food comes from? I have a headphone on my head, I get the food I need, I need, I feel better for it. (:28).

And we went to the beginning of the system, do they feel more energetic? 77% say, yes. If you notice that if ?? (average) sits around 70 and 80, we always have that 10 - 20% we cannot reach the first time. But the ones we reach is complete. We have people who come to the system say, it doesn't work for me. And we know why it doesn't work. And in the long run, it will take time. When we Nano coat a wire in a house not all the wires get Nano coated at the same time, the same strength. Step by step, you tune it until it is done.

So in a way, when they feel more energetic, it means they're taking the energy they need. Transfer of energy through plasma. What was interesting for us was question number five. Have you lost any weight from the time of the session started? A third of people have lost weight. And we expected this, because it means you don't eat what you don't

need. You take in what you need from the system. So in a way, you have not been on a diet, you are well fed, but 33% of you in two weeks, some lost 1kg, some lost 2kg, some lost 3 kilos. We have in trials people who lost 12kg, 10 and 12kg within eight weeks. And we have using this structure of the plasma communication from the system. But we have people in China and other places where they went on the liquid take of plasma, they've lost 20 - 30kg, and it stabilizes after three or four months, (:30). because that comes what it needs.

But the question number six is a very tricky one. But you have to understand where the trick sits with it. It says, have you felt more the feeling to feed without killing another life? And we see the balance goes to 80%. Man going into a butcher shop, man going into a shop to buy grains, subconsciously he is not happy with what he does, because it's another life in the fridge. It's another life on the shelf. But he to survive has blocked this one out. When you block it out, you don't want to know, it's just there because I have to do it to survive. Now, with this understanding, it means, I don't need to kill, I'm more happy.

The energy comes from where I can take, a plasma energy without killing. And that was the whole purpose, to see if the man changes habit. If the man gradually, if we start feeding it, he will come to this point. And would he become calm? Would he become a man of peace? Would he gradually accept that he can survive without killing? We created a generation of vegetarian by convincing that the vegetables have no life, seeds have no life. (:32). We eat them, because we are not slaughtering the neck of a sheep, or a lamb, or a cow. But we put a celery on board and we chop it to pieces. At least with the lamb, we slaughter with one go. With the celery we chop it every part of the life of it ??. This is the way we have been brought to accept this life not worth counting for.

And men cannot do that in the space. Every count of life is counted for by the plasmatic fields of his existence. Doesn't matter if it's green, yellow, orange, walks, talks, baa's, cows, whatever he does. This question number six was crucial to us. That man is ready to move away from killing. Man is ready to walk away from taking another life, and he feels good about it. 20% have no feeling, they don't connect to the system.

We have a full statistic of how you have voted in every question, every single one of you. We have the data on analyzing if it's the same people answering the same questions the same way. Interesting part of this question after the nearly four and a half, four hours of the deliberation, and sharing testimonials was, (:34). have you learned anything about yourself? Has it brought you closer to know yourself? And we see 93% of the people say, yes.

It means we are ready to explore another dimension in our lives. We are ready to understand that there is another way. I can have energy, I can feel better, I don't have to kill for it. And okay, if you've got a body that you're worried about it, I can lose ?? for it as well, that brings me another satisfaction. And it brings you to the point of understanding me, myself more.

But this has a very, very fundamental question mark in front of it. If we provide you the food online, we provide you the necessities for wellness of your body online. Would you get cancer? Because now in knowing yourself better emotionally, and more stable, would we see any more the extent, and the number of psychosomatic illnesses we see? Or would we see a long life without pain? Because don't forget, at a point, when you know more about yourself, you're more happy about your condition. And more illnesses you pick up, (:36). the more imbalances in the structure of physicality you create, you call, illness. And if you learn it, it helps you. If it's just there, because it happens, it's just another noise, another distance tools.

Those important questions for us, which is the totality of the whole research or this exercise was, would you give up, or share your Soul for another Soul to live, elevate, exist, become higher than your Soul? A couple of people did not understand the question when it went through it. If we would have put those in, would have gone to about 95%. And this is the attributes of Creator. To give unconditionally, even if it means others become better than me. In the level of the STM there is no jealousy, there is no hierarchy. In the world of physicality, jealousy is the backbone of existence of many people, most of crimes.

And this shows mankind is ready to become Man of Universe. Take the pains of physicality from me, I am there to give unconditionally. We see the white light, we see the freedom when we enter the kingdom of the Creator at the point of the departure of physicality, we call, death. Because everything else for our existence is provided from the fields of His existence. We don't have restaurants and cafeterias in the Universe, for people come and eat. We don't have hospitals, we have no prisons, and we have no mental institutes. We have no fuel station. For sure there are no Arabs to open ?? oil fields of Soul.

Now you understand what we brought you in. As "dining with the Creator" was, in fact, understanding the essence of the Soul of the Creator, which is you. And how much the mankind is ready to move on. If we put the same questions to the world leaders tomorrow, do you think they'll give up the seat of presidency, ambassadorship, and kingship for the others to exist? Or have they become a special breed of selfishness? Totally selfish people. Change anything, as long as I'm called the boss. As long as I can bend the rule for me, for others to listen and become call it, the power. There is no house of power, there is no parliament, and there is no Senate, and there are no judges in the Universe, for you to become the king and Senator of the Earth.

It'll be interesting to see when we have of the number of world leaders tomorrow, (:40). and ambassadors, and religious leaders with us in the session. You will not know them. And for security reasons, we disguise them. But amongst you tomorrow will be world leaders, the Soul of world leaders, and some of the religious leaders. And we shall see.

As I said, in a very, very recent talk in past few days, it's just about to come to what I call, "head on collusion." We see the unification of the churches and the mosques, unification of religious groups in different parts of Western Europe. Where Rabbis try to

talk to the Priest, and Muslims and the rest of it. What the KF has called for in the past few days and now we bring it to open, is that we have requested and we have asked, and the Keshe Foundation will bring it, the first meeting of the world religious leaders. We have kicked this into process, and will take us a few months to reach it.

Where we have asked, with the present situation, which is risen in Middle East with Iran, and upcoming meetings and opening of the embassies in different places within different nationalities. (:42). The meeting of the world religious leaders in the house of temple of Mitra in Iran. We have asked for the head of the Zoroastrian in Iran to attend the meeting. We asked for the two heads of the Jewish religion, which each one takes six months ruling in Israel, to attend to the temple. We asked for the head of Islamic world, for Shia, for Ayatollah Khomeini of Iran, to attend. The same as the head of the Sunni sect of Islam. The two heads of Vatican and Church of England. The representatives of Bahai faith in Haifa, in Israel. The head of Buddhist, Taoism, Sikhs and Hindus, to meet in the temple of Mitra, where the original religion of the Man started. And see, if amongst them, they find a common denominator as Mitra. And amongst them they find that the religions have no space to be different, but the path to the Creator.

If the way we bring the head of top 20 power generators of the economy, or G7 and G9. See if we can bring the 12 ?? arms of the religions together, the 12 disciples. (:44). And see how they interact. And with them bring other sects of their own path. Shall we see if Ayatollah Khomeini of Iran stands ahead of Pope from Vatican? Would the highest man in the temples of Buddhism sees himself higher than the others? Or would we bring the unification of the religions and would the whole structure accepts to meet with their Creator? Conference of the religious leaders. In a way the heads, not just delegations. Would it bring the change in the dimension of humanity?

Tomorrow we'll summon some of these religious leaders as they are in power of the corridors of the power as the heads of their own state, into this meeting. You'll have ambassadors amongst you in the meeting tomorrow. We have done our best to cover our people. In a way, for reasons that will be explained in the future. So in the meeting with the world leaders, to laying out the terms of peace by you, and by Universal Council, is the cornerstone of the meeting or tomorrow. (:46). We'll leave the lines open for you to be answered by the world leaders and the ambassadors online.

We leave it to see how you feel. We don't want to see your vision. We want to see your demand. What is your demand from world leaders. And we're not looking for solution, as we walked through the Soul of the Man (STM). The way we fed you with food, and you feel energetic, we'll feed you with the powers of the corridor of life in the Universe. As the session is part of the universal connection with the human race, as the leaders of the world will be there to attend, we have invited the Universal Council members to be present. To establish the first links between the Universal Community and the leaders of this planet, in the true essence of what we call, interaction.

It'll be interesting to see how the wishes of you as ordinary man of this planet will become the structure of the life of your leaders. It'll be interesting to see how you feel

when you address these so called world leaders. And there are some other surprises in the meeting tomorrow, (:48). which we'll bring it to you as usual. And we'll see how you react. And we'll see what will be the outcome of your wish in the coming time.

As we know this week has been what I call, a beautiful week for peace policy. And we've seen President Xi of China in Moscow as part of the bigger plan of China for taking leadership on the ethos of the Chinese structure. Very much from the basis of Taoism, and understanding the process that this nation works, and how the Chinese leader will assert his leadership as a leader of peace, and more than anything else.

As I said to one of our Knowledge Seekers in the past few days, nobody will benefit by the Ukrainian war which is created, than China. The western capital and expertise is not there to in a way feed back some billions of dollars in Ukraine, who'll guarantee for supply of grain for Chinese. That the policy of the Silk Road of the President Xi and the massive, massive construction companies sitting in China, that will be given opportunities to rebuild Ukraine. President Xi plays 2 cards, one is the peace, which is his main target. But with it, as he is the most nationalist person I've ever known, bringing massive contracts the construction of a Western nation, payment by grain, (:50). is what sits in the back of the negotiations. Reconstruction. And this will bring 10 years of work for Chinese construction companies.

But with it shows another side, making peace is profitable, making war feeds a few. In the upcoming time, and in the process we're involved in and as some of our Knowledge Seekers know, we'll bring this process to the full understanding in the coming months. Where China does not need to do anything, but just to be in a banner of peace, of peacemaking to feed this nation. In the eight questions we showed you, it shows we can feed the nation without a single grain ever been harvest. The most remotest people in the most remote corners of the China will receive the same health care, wellness care as the ones in the richest hospitals in Beijing. They all sit and put the headphones on. There is no exclusivity to a Man being healthy anymore.

And in that process, we have established the understanding that, what is going to happen with all these farmers? (:52). What is going to happen with all these agricultural policies and the ?? wars man ever made, when you can feed the man as you have seen in the survey of today, that they don't even need to eat?

In the coming weeks we establish this structure of feeding Man on a continuous basis 24 hours a day. You can come and eat on the table of the Keshe Foundation. And you don't need to kill, you don't need to destroy another life. We go to restaurants to sit and chat, but nothing on the table.

In the upcoming time, we release the knowledge that Man can do what will be very soon impossibilities. In advance of my trip to China, we'll make sure China as a nation will start building colonies on Moon and Mars in the next two years. Long term haul with hundreds of citizens to live on Moon, Mars and any other position, which the Chinese leadership decides. Colonization of space with what we showed you today is 100%

guaranteed. The knowledge will be transferred to the Chinese leadership to start the process of what we call, excursion into space. Long term excursion.

We have to give a solution to the government's to what to do with so many highly intellectual people going on the line, (:54). getting fed. Going on the line, receiving health. Going on the line, be entertain in the new dimensions or plasma technology, that they will take the next step to bring that into operation. The alternative is to shelve the technology (T) till Man is ready, and Man will never be ready. In the technology which will be delivered to the Chinese government in the coming weeks, will allow China to super pass the American space technology by hundreds of years.

We have found partner in peace and we set out to make sure it happens. We'll show, we'll transfer T which will be developed by the Chinese directly in next two years, that colonization will not be sitting and waiting for a rocket to have fire on its backside, that it gets to the Moon one day, and carries a few spoons and a metals. Otherwise there's too much payload.

We have shown we can feed people, as you have seen, and keep them satisfied and happy and the rest of it will come with it. In that process, we set out the process of what we call, heading to space. One of the questions for the world leaders tomorrow will be, are you going to open a mosque, a church on the Moon, and the Mars? Or do we end with this hypocrisy? Don't forget, (:56). they have to travel through the Soul. When they travel through the Soul, would they accept the, what I call, hypocrisy of the religions. How can you take a priest from Earth to Moon through his Soul, and then he still believes in reincarnation? Where he reincarnates himself in the same way.

You understand science and technology will end up to be the what I call, the last leg of the religions to exist. We don't fight it. We give it the knowledge that itself by itself dies by itself. We cannot say, Muslims don't go to the Moon. We cannot say Muslim don't go to the Mars. We cannot say blacks, whites are any different, as the Soul has no color. Then we understand, where we appear we appear in the essence of what we feel to be happy with. What is contentment for our Soul.

We transfer so much technology and advanced technology to the government of China that it brings, forces world peace in the next two years. And it brings for the Chinese leadership to enforce the path of peace with the rest of the nations. (:58). "Gun policy" brought nothing but pain. "Peace policy" brings nothing but joy. And that will be our target. And in that process, delivering a technology, which can change the course of humanity to become content has been proven in the statistics of today. They are more content, and they're happy with what they have, and they don't need to kill for.

It's what I call, the time for change. And the change comes by example, and the change comes by understanding. Would we be able in the meeting of today, in the meeting of tomorrow with the world leaders, come out in the following weeks and say, we are happy with what we achieved? This time you satisfied, and you felt good, and brought you joy,

and you learned about yourself with the table of food. I wonder how you will feel on the table of peace with the world leaders.

On the same way after tomorrow session (1:00). We randomly different hours of the day, we'll switch the meeting of the world leaders open every day. That you as citizens can meet with them. Before was always between four and seven, some people was middle of the night, some people was middle of the day. We will leave a line in the random manner, which we do not add what we do not announce in advance, open on the table. That you do not need to come in to bring that request and the demand for peace, but it becomes part of the life that your Soul will extend to the others. You will understand the reason for this in the coming time. We will announce what hour the system will be open, for how long.

And the most important thing is that you have made the what we call, transition, connection through your Soul with the world leaders, not there to demand, not there to serve. But be equal, that I wish to create a world peace, is as good as yours President Xi of China, Mr. Biden, of United States, or Ayatollah Khomeini of Iran, or any other religious leader. We demand peace, but this time through our Soul. So, we elevate you to understand our Soul. This time it's not the word of mouth, it's through the STM. (1:02). We didn't feed you with a spoon, or a fork in the past two weeks. You fed yourself, and you shared yourself with the Soul. And this is what is going to mean the next coming weeks. We don't announce the hour that at this time it'll be, if you want to come. Because then the world leaders escape not to be there at that hour, because they know they're going to be touched.

In the session of tomorrow, those of you who attend will understand your bring the change which for generations Man has been waiting for. We started the Spring this week. And with it we bring the "spring" of peace. But offering an alternative for it, not just to be there for it. When you speak about peace it means you have to create jobs, that the governments can sell. We offer space as colonization for Man to the governments who take the path. Extension of life beyond Earth. Rapid development, be it in the dimension of the Soul, or dimension of physicality for citizens of the Earth to transfer, transmute and transport things across the Universe. If we do not offer an alternative, we are just another "talking box." (1:04). We take enough with us, to show enough to those who are the peacemakers.

The mankind calls 85 million barrels of oil a day sucked out of the depths of this planet, A money making machine for those who control. This planet is bleeding "black," and there's a limit to this bleeding. One day it will collapse. By the introduction of new energy systems the bleeding of the Earth will stop. Technologies will be delivered to Chinese government, that make sure China will be one of the first nations, which will not allow the bleeding of the Earth.

We'll deliver enough technologies which are not still revealed to mankind, to the Chinese government as one of the largest and most powerful nations, to enforce, to bring and through the ethos of Taoism. To bring that point of need to an end, but makes it a point of

pleasure for Man to live. My needs, my request to world leaders is very straightforward, in we can deliver it and we can demand it. But it's you in the meeting of tomorrow and the coming days, to understand you stand shoulder to shoulder equal to any world leader. And as we always said, my wish is my command. (1:06). And you command your Soul, and that's the "kingdom of Man," and no one can touch you.

And question eight answers you for all the meeting of tomorrow. Would you give up, or share your Soul for another Soul to live, elevate, exist, become higher than yours? That's the bigger leadership as anything, ever to any Man has been offered.

And we are there to facilitate. We're not there to create. The creator of the change is you, we are there to give you the facility to access the world leaders. We have brought with us the Universal Council members, which tomorrow they will understand their new position and the new responsibility and what they need to know. They'll be enlightened according to their understanding. And they will understand what needs to be done to be in that position.

Now you understand today's teaching was planned weeks and months ago, that we are ready for the change. You see the results of your own work, your own feeding your Soul and your physicality (P). And we'll see tomorrow what changes mankind will bring for Man himself through the Soul. (1:08). And not through revolution, marching on the streets of Paris, ?? robbing the justice, claiming to be no different on the streets of Tel Aviv, and no killing of children on the streets of Tehran for a piece of cloth in their head.

We'll see how you as the new leaders through the strength of the Soul will lead the humanity to where it should be. In the coming sessions of starting tomorrow you will see a new breed of leadership through the sharing of the Soul, and that we can give more, we bring more to be changed towards the dimension (D) and direction. And whatever happens from tomorrow is not coincidental, and hasn't been coincidental for past years.

But remember one thing, be humble, even at the point that you think you can bring that influence and that change. Learn from me and don't be attached to no physicality. I hope you understood the teaching today. And I hope what you saw, some 80 of you have been through, and many of you would have been more of you to be there. Understand from what is to come and understand what you have triggered to become. (1:10).

I hope we have managed to share enough, that you will learn how to share your Souls as much as we do with you. Thank you very much. And we'll come back for any point of discussion or anything else you need to know. There'll be a couple of announcements will be, what I call, big change for Keshe Foundation, and huge change for many of you. If we can go for a small break and we come back, and then we answer any questions and the few announcements we need to make.

<< **BREAK** >> 478 KSW March 23, 2023 (1:17).

K- Yes, I was just listening to the last commercial you put on, it says, by June 2022, we'll take transportation, transmutation. (1:18). Once we started doing in June the transmutation and people went to the Moon and went to fly into space and went home. Trying to do the transportation became much harder than we thought. Because now that we have the technology, that we can go in a few seconds, why should we go back to do it for hours, or whatever. And the fulfillment of transmutation, many of you came to the center and many of you now you will understand in the coming time you'll do it in mass, the same as you did with the food. It doesn't make transportation so interesting.

In one of the sessions tomorrow, you will understand what it will mean. We'll try, if we can arrange to be doing it, the transmutation will be. I'm working on it, and if we get it all right. Tomorrow you'll have, those of you who attended will have a very interesting surprise where you laid out. One of the things that will happen tomorrow you will understand that there is no need for transportation. And transmutation will bring that point to us in a much, much faster away. The people who attend tomorrow's meeting, you'll be given certain instructions. Please follow the instructions. And there are a number of lines, which will be set up. Please do not try to communicate in the background in the Chats, under no circumstances. (1:20). You will understand the reasons and we'll explain this as we progress with this situation tomorrow.

As I said, there are a number of announcements which we would like to make. First of all, many of you have you been waiting for the, or have been requested for the Cups. It will be returned. The Ceramic Cups have been re-launched back into the Keshe Foundation from next week or so. So you can place your orders for the "Pressure" Cups and the others. We have 4 new selection of paintings from our original paintings of Gans's, which will be released this week or next week to be added to the collection. These are again, the Gans's, which are commissioned by the Keshe Foundation and the material chosen by us to be what is going to be.

There is a, we had a very interesting response, results with the Knee Gans. We will launch the second batch of these and hopefully will be the last time we launch this. Second batch will be put in the position as the first batch has already finished. But please don't forget to send back as much information as you can to us, that we can set it out correct way, that we have the right information for what we are doing.

We are receiving number of booking for the Addiction, for the next month. We might change the date of the meeting to the 29th than 23rd. Do to things which are about to

happen and we will not be able to what we call, bring on 23rd the program through. (1:22). It'll be done on a Friday of that week, that we'll keep the same tradition going.

There has been a massive change in the structure of the work of our doctors. In a way due to advancement and the results we have seen to the same first cycle of the, what we went through with our doctors with using the what we call, the understanding of new technology. And due to the sponsorship and support we have received by an international organization in the background with the Keshe Foundation. The Keshe Foundation has made, I made that clear, we have to be able to sustain this, that about 100 what we call, wellness volunteers can apply for any condition. The people we talked to they are not satisfied with the number of cases, which has been done. They say, the numbers is not big enough. And the spread of the work of your doctors has to spread that it shows technology applies to all applications.

For this reason 100 new cases, anything which has no genetic deformation. No, what we call, prosthesis, you don't have anything like heart transplant, or shoulders, or whatever. The sponsors will cover the costs with us, that we will see that the doctors will be able to sustain the first 100 cases. (1:24). Can be anything. But it has to be done in a way that we can complete it very rapidly. That they give us six weeks to gather the answer. They'll cover most of the expenses, the Knowledge Seekers for any reason. It cannot be we will be informing your, yes or no. If the big cases comes up, if we can accept or not. The fee to be paid for this to the doctors you work with is 3,000 Euro, any condition. And the process can start very rapidly. 100 cases we have received subsidy or support to show the full spectrum of what our doctors can do. ..

If you have any wellness condition and the first 100, we close this very rapidly. Cases will be looked at, accepted to be completed within the next few days. We'll take up a six week session to see how effective this new plasma technology with our doctors is, and how .. they spread it, and how much we can spread it. Can it do wounds, can it do nerve damage, can it do whatever. This does not apply that you come in and say, you said, 3,000. We have to see the what it is and the conditions acceptable to us to do. And it’s five or six weeks session. We collect the data the way we done with like the food, we’ve done.

So if you suffer from any condition that you think our doctors will be interested, (1:26). we'll be looking at it and respond very rapidly within 24 hours, 48 hours, you get a response and the rest comes with it. Or you get response from our doctors, not from us.

In the success of what we've seen with the health section of the what we call, satisfaction of the Soul, we saw in the statistics we've seen. Very soon we will endeavor for working only a session or section of what we call, mental effects. Many of you, we have many people, the doctors asked us, they have a mental condition. A session will be allocated for this in an upcoming time. The same has to do with what we call, addiction.

There is a plan for a day for the children. How to teach our children to become the "children of the space." And how to be prepared for the next cycle. These sessions can

only be held when there is one parent accompanying the child. These sessions are not just put for children, you have to have what we call, one of the parents to be present during the session. And this will come somewhere in June. We will announce this in time. This is how to teach our children to become children of the space, what it needs to be, what it has to be, and how the parents with them will guide them. If both parents want to join with their child, there is no problem. (1:28).

The session of creating children of the space comes with a lot of understanding that they understand. They are more receptive to understand the knowledge and the technology which goes behind it. So what we're announcing is, what is upcoming. One of our main interest is this 100 case. Any condition you have, you suffer from anything, go through the usual channel, the doctors will get in touch with you and we proceed to the next step.

We have an announcement for a position which the Keshe Foundation is opening for June, July of this year. We are looking for 7 to 10 doctors, who have a good command of psychology and a good command of, what we call, medical applications. As a general practitioner even. These doctors will be paid a fixed salary. We need a doctor in each languages, because in the trials done, we see one of the problems has been the language barrier, Spanish, French, Portuguese, Chinese, Arabic. We need doctors full time work with the Keshe Foundation. And if you are one of those who can work full time on this basis, then send your request and the rest will be detailed to you how it is, as we see the process of expanding and up going. And if there is such a position available you can support, (1:30). it will be appreciated by the Foundation.

As I said, one of the main things we want to push ahead. It could be anything from eye defect to emotional, to whatever. Do not come back, we've seen people coming with 10 illnesses, I have this and this disease. We will not interested. Because whatever we fix, there is something else. We would like individual cases, maximum that our doctors can handle. We can show to our supporters, the backers, that it's not just with a few things. We are gathering Testimonials from the people who been in the first cycle with the doctors. What they've seen, what ??. We have started seeing that the doctors are discharging the volunteers who came in because they have achieved what they came, and so much more than when they came in for. And so we are allowing them to, or releasing them on to the next step. But they know if anything comes back, they can come back in to receive the support, because most of these cases is a long term. And then other bits hidden come up and it gets sorted.

So if you have any condition… Last time, we were given a few days, with a sponsor this time, we have taken time. You have a week or whatever, any condition you thought it cannot be. Be it from a join pain to whatever, we would like to look at. Send .. it to our doctors. On acceptance, then you're given the time by doctors when and how. And the reason we put a small amount on it. Because, if we don't do this, we get a lot of problems. (1:32). People think that it's their right to get whatever. So this allows us to at least keep everything together. It is 100 cases, and that will stop at that point. And it's not that, I paid so much for this, so much for that. We don't look at it. This has a sponsorship behind it. It will go back to the same structure, and then we see if this can be applied and

we can sustain it, we can show, we can cover a bigger spectrum. Then we go with the agreement we have with our people to 1,000 cases next year or the year after. Because it needs a lot of planning and structure to be put on.

Any questions that we might be able to share answer ??. By the way, when you send your request, you put the "100 case trial test." And then we send it to doctors for it.

Q: .. Mr. Keshe, in tomorrow's meeting with the world leaders are the UC's, Universal Council (UC) members invited? And will it be the same link as the lunch with the Creator?

K- We use the same link for all our meetings. It is just that people cannot come in, because people who have registered according to their emails they'll be given access. Universal Council members have gone into the email, which they have for the language they have, they're already been locked into this. It is not for the supporters of the Universal Council. (1:34). Universal Council members you just join in as a usual, you join a Webinar, a Zoom session.

R: He actually asked as Universal Council support I see. It has the "s" there.
K- Support no, but Universal Council members, as I know their emails has already been locked in yesterday into the system, or today.
R: And the support members are just like the regular participants.

K- Yes.
We have a usual group, team of people which are there like, Rick, and the translators, and what we call, the head of our groups like Yosef, Rafael, and others like Dr. Bararpour, from China, Wang Lin, and a couple of Chinese doctors in the background who are given that particular ?? team. But the rest are what we call, registration, we have the emails. You can come in, but if your name is not set according to registration it's not admissible.

Q: What's the link to reach the doctors at the Keshe Foundation regarding the 100 trial cases? Would that be the doctors@spaceshipinstitute.org? (1:36). …

K- The answer to you is, health@spaceshipinstitute.org. .. For every case we accept for this, the funding has to be accepted by the sponsors.

R: And if a doctor would like to participate in what you were saying there lately, would they apply at the doctors@spaceshipinstitute.org?

K- Use the health, the same. It's the fastest. Because the doctors take responsibility for all these cases, it's their patients. And they get advised how to, or whatever.

If you can imagine or understand, this is the beginning of a general health cover of the Keshe Foundation to cover (Health Policies). If you look at the policies we put for a family, person, and then the food and the rest of it, this is part of beginning of that structure, which we announced weeks ago. Now, it is the beginning trials of setting up a

massive structure for hundreds of thousands of people to be able to use the system. (1:38).

Q: We had a question in the Q&A about the address of the Keshe Foundation in Linz. .. Is that something that we can release?

K- The address? Yes, it's common. It's strange, people are coming from… I was in the Center yesterday morning for a meeting. And out of nowhere, there were three Brazilians who came all the way from Brazil. And they came to the center. It's a long way to come. We used to get Japanese and the Koreans and it was without any announcement, today came I said, this is your home. But try to understand there are things happening in the background. And the address is what you call, know to the people who come. Because .. Mario always disperses the name with the address, everything else. But we would like you to announce when you coming in, because there are tours which are taking place on a regular basis in the Center. Sometimes we do tests, sometimes there are other things which is happening.

You better get in touch with the Center before you try to come in, at least it gives us a chance to be there at least. You don't come in and wander around. It takes Mario two or three hours for one tour on the top floor. Because it's not just coming and look at things, he explains everything into detail. Everything, the knowledge, the essence of things you see. But the space what we call, floor downstairs is not open to public. (1:40). And we run tests continuously in different parts of the structure. Even today there's some tests run around two or three tests run on different things downstairs, we are upstairs, we cannot do. The address of the center is a public knowledge, it's a registered of the, what we call, the Exhibition Center. I put it on the chat.

But please just don't turn up because you have the address. Turn up, that you already pre-agreed to come in, that you just don't come then get disappointed. This is the address of the Center in Linz, of the Exhibition Center. I received a notice somewhere in the background from our team, let me see what they're saying. Yes, it is the same one. And this is the… Get in touch with the doctors of the Keshe Foundation for their contracts. (1:42). The addresses has been put above, health@spaceshipinstitute.org.

We had a case, we had a look at with our doctors this week, a Knowledge Seeker with a child with a heart transplant and we told them it cannot be done. You have to understand we're dealing with plasma and two structures are different from each other when you have a transplant. And interaction or inter connection between the two different structures. It's not like the heart and the lungs. This is another tissue from somewhere else which is not an exact match, it can create all sorts of things, rejection, and the rest of it. So if you have a transplant, at this moment of time, the knowledge and the structure of our system is not that far to be able to bypass. So if you have that kind of things… Please, before a transplant our doctors can have a look at it. But after the transplant, it becomes at this moment, with the knowledge not acceptable to be able to support.

Any questions?

Q: Does the offer also apply to cancer cases? (1:44).

K- Send your request, it's a 5 week track. We stop after 5 weeks. And yes, it can be done. But depends on the decision of the doctors, not us. We go through it. This 100 cases is by the doctors will be very rapidly filled up.

R: And how about hip problems with cartilage? People that need a hip replacement, but perhaps haven't had one yet. I know you've mentioned if people have had like a titanium or other hip replacement, then you wouldn't be able to treat them as we understand it.

K- We don't treat, we process. Secondly, the doctors decide on that one. We have seen very good results with the hip damage and others, it can be considered. And I repeat, again, it's a 5 week session, not a long term session. So we will, we want to understand how fast the structure can move and what it can be given. So .. I don't see any reason why hip replacement ??.

Don't forget, we have developed techniques now, which is in past six months, eight months, in reaching, targeting and developing fast results for outcomes. And it's just techniques, how much more the doctors will add to application of techniques then what they understand. (1:46). What we're really interested is like, .. we need a bigger data on like, the eye positions, the damages to eyes, physical damages to the eyes. How much we can do. Deep wounds we want to look into. If you have a deep wounds and or… I was talking to one of our UC members to find a specialist in skin burn, and grafting and replacing or extending amputations. We're looking at these things. If you had a bad burn on the skin, we would like to see how the plasma technology interacts with it. And then the doctors know what to do. You have wounds which has been there, painful whatever, for years, you want to see the doctors, will look at it.

We are providers of the knowledge to the doctors, and they decide how to go. And in a way the doctor, which will accept you will take you through the process. And they know and they're backed by our knowledge what to do. If you had a wound, or if you have a wound, which has not healed for a long, long time. We would like to understand how this will interact. Would it be able to. We want to expand with this sponsorship a broader spectrum of the knowledge. (1:48).

If you look at it in a world of pharmacy, this is why they test one thing, and then to the next, and then to bigger numbers to add a data. And we are going through the same process, but nobody can effect our data. And we ask for people to give testimonials and how things go. It's a learning process for the Foundation. And our doctors will support you to that way.

The good thing with this is, a lot of knowledge is getting centralized and it's access to everyone. So no pharmaceutical, nobody can claim to it. It's a public structure knowledge, it becomes part of the bigger structure, that if we get our ways we can do a lot.

I would love to, if we would we, due to the situation we are in, like in Syria. There are a lot of people that the West who calls himself civilized, gave everything to the imaginary line of the border, the Turkey side. The Syrians have nothing, and they die, it's the same blood. And this to me is wrong. And we tried to break into. We went to negotiation with a government, with ambassadors. But the first thing they asked us, how much money is it in for us? We would like to, when we come to the situation like the earthquake in Syria, we offer to Syrian government officials. Just anybody who has a headphone can get the process. (1:50). We negotiated long with the ambassador, and through them, through the government, but it's amazing how corrupt they are. And this is what we want to do.

These trials, our basis for this to come plus what we develop in the space technology. How much we can effect different conditions, and tolerating it, understanding it, and developing it is part of that building structure, which is coming. We are literally destroying the foundation of knowledge control, by patent, by fraud as we've seen and deception in the Covid, injections, and the rest of it. And all the hypocrisy which went around it. And you're those who are building it.

We have not signed any nondisclosure secrecy acts with any of the doctors who work with us. What you bring in, like the data we saw in the "dining with the Creator," it's all in public. We put it in, but we know what we're looking for what we can get. The other organizations take it up different way. Nobody shares knowledge the way we do. And long run we'll win, because when the knowledge is public, nobody can hide it. (1:52). And everybody can benefit by it.

Any other question?

R: There's a question also about neurological problems or brain issues. And I suggested they could write to the doctors at health@spaceshipinstitute.org.

K- Write everything to health, don't write to doctors. Write everything to the health, it's controlled from there.

And what we cover initially, is massive knowledge base technology. We are literally handing over years and years of research and development freely in the hands of the doctors for them to do. Even we saw what we did with the doctor in America, I spent hours and hours and weeks teaching this doctor. And when he thought he has learned everything, wherever, he went with the Russians (?? Med Beds). But we'll see what will be the outcome of it for them.

They gain none, because by time they thought they got something the technology for them was already obsolete. The technology we delivered to China will baffle the west. How they did not go with the technology was in the West, so much. And even the technology we take to China with us is not what will be delivered to the Chinese. The condition has to be that there is no position for war to be, that the peace is the only option. (1:54). And I'll make my point. I made my point to the Chinese very, very clear. I

had a very in depth talk with the Chinese officials today, and I made that very, very clear where we stand, what is going to be and what we expect of them.

Any other question?

Q: .. First of all, I am looking forward to the upcoming change. Thanks for all the efforts. I had this question for a long time. But because of the time of the meeting, I was unable to reach you Mr. Keshe. This is like two years. About two years ago, I made a CH3 Gans. And I got a black liquid in the container, which I don't know what it is. I heard that in one of the workshops you mentioned that it is the black matter is deuterium. And the orange liquid stays on top and the black liquid stays at the bottom. It's like for two years, staying there. I really don't know what to do with it, whether to carry on. At the beginning, it was like, greenish, dark greenish color, and then it turned to black color. It's in liquid form. (1:56).

K- What's the split gap between the bottom and the top the full amount? Or is it sporadic? Are they moving from top to the bottom? Or is it totally clear separation? Nothing is moving from the top to the bottom?

Q: No, it's totally separated. I have the picture, but I don't know how to share it.

K- This is the way you use this. You put a syringe in, and you take from the water in the middle.

Q: The orange one, or the black?

K- It doesn't matter. There should be a clear water somewhere between the black and orange.

Q: I don't see that. Okay. Maybe there is. I didn't pay attention.

K- If it is a total homogeneous, they're everywhere inside each other, most likely you have created is deuterium, or combination of the carbon graphite. Or in a way of grapheme, if you, if you look for it. And your CH3 stands further out due to its gravitational magnetic field. When we make a mixture of CO2 and zinc (Zn) we get this as well. The separation. Till .. in energy balance, they .. the one become balanced in energy with the other one.

One of the best thing for you to do to see how you made the CH3, maybe your black material is deuterium, but iron based, it's mainly iron. When you made the CH3, (1:58). you consumed the layer of the Zn faster. Then you reach the metal end. Get a magnet and put it on next to the glass and try to pull it up, to see if the black has stopped gathers together like what you call it, a magnet? And it creates a column. Then that is what we call, partially deuterium and partially iron Gans.

Q: Should I put the magnet on the side, because at the bottom?

K- Yeah, the black side is at the bottom, yes?
Q: Yes.
K- Just put the magnet on the bottom and just very slowly pull it up and see if you see the particle of the Gans come to it as a column. Then you have created the iron Gans and deuterium together. And the CH3 on the top, the orange part.

Q: So should I pull out (with) the a syringe, the liquid part in the middle of the container?

K- If you can. If it's clear, with no Gans in it. Because usually we see a full separation between the two, and you have a water in between. If you don't see it, it's most probably a very poor alloy, what you call, galvanized metal you used to produce the CH3. A good coating, but the poor metal, at the iron side, very low grade. Which is very good for making, what you call, Gans of iron (Fe) and deuterium.

Q: Yes, the metal was this. I bought it because of its shape. (2:00). It's not chicken mesh it's parts sold in warehouses, home warehouses, and then it's like kind of hinges, or those pieces that they use for the door. And it had a very, like shiny bluish coating on it. I asked them they said it's galvanized, that's why I bought it. And my husband said it's usually they are iron and they are galvanized with Zn.

K- Yeah, but if the Fe inside is lower quality, or very high carbon base, you get this. It's another problem. If you can take the water from the orange part, you have the Gans water of the Zn, or what we call, CH3. But with a lot of effects of Fe in it. Because even they are in what you call, the orange part in CH3 part. They still are connected to the field of the Fe and the deuterium.

Q: Should I separate the black liquid at the bottom in another container? Actually, I didn't touch it after I saw it was produced. I didn't know what it was.

K- You can do, but you see what separation would that create a clear water between the top and the bottom? Or would the orange will come and sit to the bottom of the material, to the container?

Q: Okay, and then what can I do with this black matter?

K- A lot you can do. You can do a lot of things with this black matter. (2:02). First of all, determine if it's what you call, Fe based Gans. 99% should be. When you pull it out it's like iron dust, will come to the magnet. Turn the magnet both ways. One on the north side, and one on the south side. And you see how they gather, this will give you a very good indication of the fields forces, of what do you have in your hand. What you want to use it for.

Q: Okay. Still, I don't know, I just will do that. But I'm not sure what I'm going do with that. I'll just keep it.

K- Do you have any CO2 Gans, or Zn Gans?

Q: Yes, I do.
K- Okay, just put a CO2 Gans or the Zn Gans next to the jar of this black stuff. And see if the CO2 pulls up in a column, or the Zn pulls up in a column. Then this will give you a lot of what you call it, field interactions, what you can do with the black stuff. If you don't have a magnet, just make, put your CO2 Gans and leave it for a few days, and see if the Gans gets pulled, the CO2 gets pulled towards the black stuff and makes a column going up like a cloud, like a smoke.

Q: Okay, I have that circle magnets I can use.

K- Yeah. You can use. Let's see what…
use let's see what. Thank you very much

Q: Dean .. So, I've been away for a few days, (2:04). and I came across some people that I realized this, like, I was introducing some of the technology and speaking about the "dining with the Creator." And the processes behind this and what to experience. And for many people, this is when they first come across it, it sound so "far off" from what they're used to, that you can see them, many of them as a Soul sort of, you can see it's very difficult for them to accept, to understand it. So how does this relate to bringing this across to a nation and across the humanity in the times to come?

K- Very slowly, very slowly. You see, the good thing is that we have nearly 20 years of building a solid base, then becoming a fashion. And thanks to the effort of the Belgians to take us off the newspapers, magazines, and Internet, and not Internet, what you call it, televisions, and the rest of it. It allowed us to grow enough and solid enough, for many of you to gain knowledge. So we, we wait. And "play the time" as they say.

Q: I noticed, a lot of it's to do with very strong beliefs as well, people have very, very strong beliefs.

K- Because it's not on television. (2:06). If you put… If we open a channel, like what's it called, the social influencers, they call them nowadays on the internet. And I go on it like the rabbis and teach about the Soul, we'll hit millions, and then we become a cult, you understand? So we can do that. We are looking at putting Keshe Foundation certain part of it, on social media in a different way. But as long as we don't become a, what you call, "social media influencers." Now it becomes against the religions, against pharmaceuticals. We don't need these kind of things.

The more people come, and the more people go. It has to be in a way of acceptance by a person. And when it's on television, they see it, yes, it's there. "Social influencers" influence very few people. But they're very good gimmicks for people to go and have a look and spend some time with. But this has to become a pattern of life. How we live, how we are, and this is where we are heading and where we are going through.

And it's this matter of next step, and next development and how we open the door of knowledge the way it is. In past six months, I had released so much information and

technology, which ?? is now with our teams in different places. That literally makes all the things we taught in past 20 years obsolete. (2:08). But it's not that they're obsolete, it's just because you understood the basis of it. Now the new technology will be accepted and be developed much easier. Much faster. If, as I said in the beginning of today, if I would have told you we feed you with the microphone with two headsets on your head. You tell this to anybody, and it's all a joke. But you have 80 of you who went through two weeks of it.

Q: Yeah I experienced many things Mr. Keshe. Over the last few days, I went into a situation where, obviously people are still feeding and they presented these meals. And I struggled, I was trying, I was being very ?? physical and you know, I wanted to be part of it. So I had, you know, I felt obliged to eat. I didn't really need it, but so I asked for reduced amounts. But you soon get back into the habit, strangely as soon as you start getting involved in the ambience of it, you fall back.

K- Get into the habit, because as I said in the past two weeks. If we supply you continuously, and in the morning you go to the headphone and you have your breakfast, and lunch time you get your energy for lunch, which are habitual or once a day. Do you eat when you're about to go sick from eating? You are full? You say no, I am full I can't eat, I have eaten. I'm not hungry. This is part of the bigger program which we have put into operation.

If we can put 100 of you into a system that one gets, one meets the condition of the cancer, one meets the condition of the Alzheimer, one meet the condition of a wound, (2:10). one meets the condition of a hunger. Would your friends spend their money on something that nobody eats? Because those who are invited have already been on the headphones.

It's not going to be much now when this thing is released in a bigger scale, that the way you call for a "takeaway," you dial the number and you have a pizza of your taste in the energy field and you have the pizza and you pay a penny for it. Oh, I feel like a "fish and chips," as you come from England. You put the headphones on, and there's an organization who has the feeling of exactly the taste you like and you receive it. You become that "Cup and the Orange." And how many of you will eat again when you're not hungry?

Q: Mr. Keshe, just to let you know that so this group of people, they are very, very aware. And they're a group of very active souls who would deal in a way, on a soul level, and I'm trying to say this very gently. They're like people that who are very aware of all the conditions around us, and very sympathetic to try and to help many people. and ?? they live in a certain way.

K- But they still have to eat. They still have to eat.

Q: They have community gardens and things that they feed from, so they are very …

K- But they still have to eat. What would we do if you put tomatoes in the supermarket, (2:12). that all the people who go to the market have eaten and take the taste they like from the tomato, exactly the taste they like from your headphones. Tomatoes won't sell on the supermarket.

Now if you understood… I was reading things. Azar bombards me with messages everyday. And now she's in Iran, how she eats, or what she eats, what she takes, whatever. And what about if , you , it is unknown, why do we eat different fruits? Because fruit is like a lottery, until we don't put it on our mouth we don't know it's a sour, it's sweet, it's exactly the way we like it. The way you get energy of a strawberry with the plasma. It's exactly that you enjoy, the taste you like. Or you expect it to taste. There is no "cuts" (leftovers falling to bottom).

Unless somewhere in your subconscious in structure of the Soul you want to taste bitterness or something there, because they remind you of the good ?? . And if you receive exactly what you want as an energy with the taste of it, with the pleasure of it. Then supermarkets become obsolete.

When the East Bloc opened, I traveled to many what we call, ex-communist countries. When we went to supermarkets, it was amazing. (2:14). The shelves, and shelves and shelves up and down. Top shelve and bottom shelve, but more or less the whole supermarket maybe 20 different, 2 kilos, five kilos, ten kilos of the same product, because they didn't have the range of products. Limited. And when you go to a supermarket, you look at the depth of the goods on the shelf. A supermarket, which is busy goods are stack, they just push it forward from the back. They put it in the back with the last one further to go in. And when you don't buy then all become historical. Maybe if we carry on with the process of the food, what's going to happen? Then it will become a history going into a supermarket for the items that it is not, cannot be the way you can make it, or you feel it, or you want to taste the new taste what this will taste I can produce in my own Soul.

Then we see change of structure of supermarkets. It becomes like Africa. In Africa, when you go to a supermarket, some of the supermarkets have one item of each right at the front (of the shelf). In Europe, they don't know how much they can put more on the shelf to stack it higher and higher. And our supermarkets in the West will become like Africa, because nobody buys. Maybe you buy a new taste to see, and then your Soul reproduces that effect and emotion. (2:16). This is what is to come. This is… It's inevitable it will happen.

When we move people to the Moon, to the Mars, there are no supermarkets. Unfortunately, you can imagine what's going to happen to a tin made on Earth in the gravitational magnetic field of the Moon, or the Mars, or another position, it crumbles. Then in another position Universe, the metal used is the field of the environment, it just becomes gas. Oh, your tomatoes is on the floor.

Q: .. Some people, especially some of the people I'm speaking with recently, they would not want to go to the Moon or Mars. So .. if this technology through the elevation and

receiving the foods, or any of the tools that we use, would they as a Soul, would they change? Would they become to an understanding that maybe they have a very fixed position? .. STP

K- We always change. You know something, we have a very good say in Farsi. It's amazing what they means if you understand it. They say, the cat can't reach the meat, it says, it smells, stinks. You understand? .. So we can't afford paying quarter of a million, ten million, five million to other organization to take us to the Moon. So we don't think about it, though. It's not ours. But when it's freely done, and when it's available for you to go, you tell me how many people will say (no). (2:18). but we had this situation in the trials. We had even one a few weeks ago. The lady said, I don't want to go anywhere. I just want to see my husband.

Q: It touches people Mr. Keshe when I speak about this, obviously as I would do. I noticed when I say certain things, you can see that it touches them on a physical level, but it touches them on a Soul level, you can see it go much deeper. And I can see the different reactions as I say certain things to them. It's like a field strength. Where I can see the Soul is aware and the Soul of Physicality (STP) is saying, no, no, no I can't, I don't agree. However, I can sense they, .. it's like all these teachings and all the information's. It's a gradual process, you say very slow process, and so on. The knowledge is so profound and so touching, that it's very hard for some to accept, even though they know on a much higher level that it is possible. And they know it's the truth.

K- You know, above you on the panel is Rosanna who just spoke. She is an Iranian woman lives in Canada. And they say the understanding of the Soul and the STP is like Persian girls. They push you away from the over the table, "no, no," but they pull you with the leg underneath, "yes, yes." The STP pushes you, "no, I can't accept it. It's impossible." But the Soul underneath says, this is what needs to be done. This is what I want. You understand? Because it's not fashionable. (2:20). Once it becomes fashionable, everybody knows we knew it, but we couldn't speak about it, we couldn't do it, we didn't do it, we cannot do it.

You know, when I came to England in 1970s it was very fashionable, it was something if you had the Iranian guy as a friend or whatever. When I came as a teenager, the woman in Brighton took me to different houses (to her friends and said), I have friend from Persia, they come in the rest of it. It was something like a Persian carpet, value it that way. And with one revolution we became the worst thing. Now all we are coming back into fashion, to be Iranian, you will see very soon the way it's coming up. So people go by fashion. What's in the media, what they're told to be.

Q: Yeah, that's very interesting Mr. Keshe. I totally agree with you there. I understand what you're saying.

K- So, we do our groundwork, we do what we are to establish the knowledge complete, and when it's the time for it, it'll come out. The way it has to. And to what extent you can change it, to what extent you can improve it, to what extent it will bring change? Not

everybody wants to go to the Moon, otherwise become communist. Everybody is marching straightaway, in the machine we go.

The beauty of it is, you cannot send anybody to exile with this technology. There are no prisoners. You cannot build a planet like Australia, like English to send all the prisoners to this island, Australia. The way they sent all the convicts there. This time it's the STM, has no conviction, (2:22). has never been convicted of anything. He chooses his own position. No leader can send no one to nowhere as a prisoner or exile.

Q: .. So this opens up a huge thing with what's going on at the moment. And I know that with tomorrow's meeting with the world leaders and the situations, that we know are happening and are part of the structure. The world leaders are now coming to a position of understanding, and the ones that as you have you said many times, would not walk into these systems. However, I sense that they are very aware that once this process has started, which it already has, then it will touch them at some point and they will have to then stand for themselves. And you know, you've said it many times that, it's the shame of the man if you've done some things that you know are wrong that that's the that's the worst thing you can bear. And if you have to do that on a Soul level, then this is going to be something that's more of a judgment than anything you could ever have from anybody else. It's your own commitment to yourself on a Soul level, which I think will be very hard to bear for us, for some.

K- We wait and see. We are not all the same. God is not communist all the same. Same school, same clothes, same dress. The varieties is the beauty. And we are a small part of the collection of the flowers of the Creator in the Universe. We're just a speck of dust. (2:24). There's so much beauty to see and learn from. We wonder why did we choose the physicality to be here so long and not enjoy the rest of it.

Q: It's because they enjoy the physicality so much Mr. Keshe.
K- Maybe, maybe the Souls has bigger pleasures? No one ?? knows.
Q: So, what can we expect tomorrow? …

K- You can ask as much as you like. I keep my lips sealed. .. But, you know, we set things up months and months before, or we put it in different ways, when it's ready for harvest. And tomorrow is one of those days.

Q: You say to harvest Mr. Keshe?
K- Yes, tomorrow is a very big harvest.
Q: On a Soul level Mr. Keshe, the Souls obviously brought us all into these positions and all Souls have a unique beauty, a beauty of the Creation. So we're all being positioned and coming together to bring about this change.

K- Yeah. I lived long enough as a nomad. Let's see what I find in ?? the ?? trial. Let's see what comes up.

Q: .. It's always an honor and happiness to talk to you all, to be with you all. And Mr. Keshe I was reading one of your teachings very directly, and when you mentioned that the world peace, would it be achieved when we don't have any child abused, children abused, children smuggling, and drugs cartels controlling the drugs and the trafficking of it. Because even though that we don't have the so called, wars with the bullets or guns, we still have this kind of abuse that's unbearable. And we know they are created and they're maintained through the many of our religions leaders or others. It's there any possibility in the future that we can include this… I don't know if it's this is elevation, but it's a fact, the children are suffering many children are suffering, so many problems in the future that we look at the new generations they are so beautiful. (2:28). I brought this to our group already in the daily intentions, this topic, maybe we could include it in our daily intentions. And that's what I would like to ask you, if is there any possibility that we can include this topic? Because I think, and the way that I see, it's so important…

K- What topic are you talking about? Are you talking about the child abuse or drug trafficking?
Q: Yes
Q: Child abuse and drug trafficking.

K- You see, child abuse is … it's the way I, I have spoken about this before. They come in to it, as to them as it's their right. And everybody else… When you speak to a child abuser it's, and they see it as their right, and everybody else is wrong. And there's something wrong with you. And they cover it up in a very big way, that you don't see it. Even you're in it, you don't see how they set it up around you. It's the way of life to them. They're brought in it, they're grown in it, they are part of it. (2:30). And they carried on with the children, and they see it as their right. And when it comes to child trafficking or human trafficking it's the same.

If a person who's getting trafficked knows about the technology, knows about the knowledge of the Soul transmutation, would they be able to transfer his body or traffic his body? You understand? This is part of the education will come in. Even with the drug trafficking, or with the drugs, to abuse of the drugs in every shape or form.

Years ago, if you go to news, you find it back 20 - 25 years ago. I used to be part of the British customs and part of my companies were involved in these massive jobs. And they found a large number of bodies in one container, in one of the ports in England. As my companies were set up to receive all sorts of things through customs, I was called by the customs, he says, that one of the things coming to you is this vehicle, what do you want to do with it? We want nothing to do with it, because it was used for evidence in the courts, and the rest of it. I said, just crush it. Just crush the whole thing into a crusher.

That the pain in that box, the pain in that what you call, system which brought these bodies to their end. I feel, the feel of their Souls. I don't want to be part of it. I wanted to. I don't want it to go through the books of my company. (2:32). At the end with the British customs and government we decided, this container is going to be crushed.

But how much money did they make out of this? And what's the suffering of so many in the box, worth it ? What do we get with this money? Would we come to the point that we can understand, you have access to a mobile phone, a child can move his Soul and the physicality cannot be done, cannot be abused. And I brought my life to a big change because of this.

But it took me time to set it out, because it was woven into my life in a way I could never imagine. Because when you're in love you don't see what the lover does to you. And you accept everything, because that love is so important. Till your eyes open up and you see why all these things happening around me. And as you know I made it very, very clear, especially recently when you talk about the child abuse, when you talk about the child trafficking. The woman next to me for years, you thought she is, and now I see around, is coming from the most notorious pedophile organization families in Belgium. Notorious. She was brought up in it, as she brought other children into it. She trained her son to abuse her siblings. And it was all okay. Her brother rapes young boys frequently. (2:34). And the police ?? find the hand of an arm. All was hidden from me. And how we got involved all these pedophiles around us. Red Circle, Sterling and the rest. All brought in by her. To them it's normal.

Go to the village she comes from. They opened a pub called, "Charlie's Pub," and they trafficked children when the police raided in 1970s. She was put in custodial sentencing for bringing children and other children under this. When she comes into organizations she sells our server names, and (IP) numbers and people who come in. Two characters. I couldn't live with myself, it took me two years to get rid of this rot in the structure of the Keshe Foundation. And then they linked up with another well known pedophile. You know as Jackie. He had to flee from Switzerland to Denmark for the police not to get, the same as her brother did. Escaping from Belgium to Thailand from the police.

They bring their own people inside. When you're put into custodial sentencing in juvenile at the age of 13, you've got to be "well up in it." You've got to be well up in it. Just go to the village of ?? Erheim, find out about this family in Belgium. The whole family has been into prison for child trafficking, for child abuse. (2:36). People from South America being found in the premises abusing children and sentenced and deported.

I had to face this, and for it, find a solution for it. Then they said, we were victim. Victim, yes, but why your son. You told your son to abuse her two siblings, that the father bans the child from coming ever to the house. When it's presented to us in a different way we don't look at it, but when we sit out and we look at it, then we understand the truth. The woman next to me comes from the most notorious pedophile organization in the hands of the Belgian government together. Because she her thing, they used her to infiltrate and they brought people in with her. And she claims I'm innocent. Going to prison, sentenced into prison for being part of the biggest criminal organization thieving in Belgium. Sentenced with the ex-husband together.

A lot was covered up in different ways we couldn't see. Ask where is Jackie. He is in Denmark, because police office of Switzerland are after him. Because linked up with my

ex, and they were watching what's happening. That's why Keshe Foundation became so… We saw one pedophile after another. Because the "head of the snake" was sitting next to me. At age of 13 sentenced into juvenile prisons, (2:38). for being part of the most notorious pedophile family in Flanders. Just go, find newspapers, courts, police station. We don't tell lies. But they see it as their right, and we don't understand it.

I always looked at how we can escape these people, how we can release people from this pain. Now with this new technology we can. You teach children that they can from childhood. That's why we said, we are bringing a child teaching, how to elevate your Soul that nobody can traffic your physicality. It'll come an end to it. A lot of you thought I just moved on. It took me two years from the Italian conference, second conference when I found out what's happening around me. I set up without damaging the Foundation to get rid of this snake. I can talk about it because the court case is finished. The whole structure is set up to deceive, and we are not.

And it's no use finding how to, not to traffic. It's to start educating the children how to use their Souls, for the physicality not to be trafficked. How come we can send Man to the Moon? How can so many of you went to the Moon, how come you bring people home ?? stay here, they can see ??. Why can't we do that with our children to teach them from childhood. With this technology I bring an end into child trafficking, human trafficking. Just give them a pair of mobile phone. (2:40).

When I realized after the Italian conference, when the "head of the snake" disappeared into another part of Europe for days. And then we found out. Yes, it was connection. But the Interpol informed me that, the two snakes have met. They brought me to education of the Keshe Foundation. They brought them as people who, what was it, "free energy." Sterling used us to get marks, and I was wondering how come these people always come to us. Now it's clear. The woman from childhood being in one of the most notorious family of pedophiles, bringing customers from South America and everywhere to "Charlie's Pub." Go and check, go and talk to the people, you'll find out. When one raided, the father, the mother, the brothers, everyone went to this part of the structure went to prison. And the girl who was bringing children was sent to custodial juvenile court, what you call, center.

The woman next to me for years, you thought she's such a thing it is. And then they thought that they can take over the Keshe Foundation and then they would have all your IP's. We never allowed IP's, anything to leak out. Thanks to God, we saved you all. But that's all they are after. You come in make a chat. Anyone woman associated with me, if you look, has a daughter. They were after that child. You associate yourself with that woman you clearly are where you are. Go to village of ?? Severhiem, ask for Charlie's Pub, which was there. And ask for the family how they all been sentenced. Uncles are still under "sexual control" (by police) 40 years on, 50 years on. (2:42).

With this technology we have a chance to bring an end to it. This is why I said in June we start teaching children, that nobody can touch your child. The child knows how he can use the energy fields. It's like a 999 (911) you send to save emergency. We set up a

structure that children can move the Soul to another position that physically cannot be abused over the adults. Why should the man beat you to death, because he is who? You can move yourself through the Soul (just dial, ?? try to) Just connect to them and move.

You cannot understand the implication of this technology yet. With the drug trafficking it's the same. I was talking to one of our most beautiful Knowledge Seekers, he is in the heart of drug trafficking area. He says, Mr. Keshe my family doesn't, we don't do, we don't need to. And funny enough, another member of the Keshe Foundation is notoriously came to Keshe Foundation, because he used the Foundation for trafficking. We just found out recently. We sort these things out. But all this needs a new technology, a new understanding, not escaping and calling somebody will rescue you. How do I rescue myself.

If we turn, if we teach our children from a young age, that there is a way that nobody can touch you, physically abuse you, (2:44). you can move yourself through the technology which is there. I gave this, I gave a gift of "Cup number 1 and 2" to the Chinese government during the Corona. This transportation of the Soul, freeing man from position it is to brings peace. It's another gift which are given to the Chinese government for the worldwide use.

And for 30 years, I came. I was locked in the brainwash that this is their life, nothing to do with me. I hear things, but it wasn't there. It was what you call it, "caked up, creamed up," that it didn't look. When we started looking into it, it's horrendous. The lady next to me. You go and check, we gave you names. You have, we are in touch with. Your mobile phone, your thing is sold till the time it comes when it's time to hit you, they hit you. She's notorious pedophile, covered under the name of Keshe Foundation and stood next to me for years. I didn't know this, if I knew… When Interpol gave me data in Switzerland my head went through dizziness.

Boy age of eight, was taught by the woman how sexually abuse his two siblings from another woman, two girls. You don't do that to your enemies. And you know I'm right. Many of you read. She said, she wrote that, (2:46). Mr. Keshe put my son on a pillow for a week. Yes, I did. Because I was told the boy did something wrong, and he accepted. And it wasn't, he didn't do it. I said to the boy, sit there till you find out you don't accept what you haven't done. And I found out later on from the mother that he did. This is how the ?? pain, the truth and the fact. Boy age of eight, trying to rape girls of five and four. Taught by the mother. And this is a woman who was next to me. I did not know. Keep away from this woman for miles. Go to the police station of ?? Severhiem , in West Flanders, and ask for the file, they say, the file is here. And the children are in the list.

And anybody who ever talked to go after she accused of being a gay, pedophile, having sexual relationship with it and that. And people all walked away out of fear. And she did what she liked. She accused everybody of being gay, or pedophile, or having connection with other men and whatever. Because this way she could silence them. What I tell you is in documents of the court in Austria, you can ask for it.

When you talk about pedophile, child abuse, child trafficking, this is what I said. From June on we teach parents with the mothers and the fathers with their children, how to be able to move, that nobody can abuse you. Bullying, sexual abuse, physical abuse. (2:48). It's not, I'm here one second, I'm not there next. I'm not there at all for you to abuse. Why should a woman get beaten to death? You call woman refuge centers. No, you move through your Soul, your physicality. This technology is complete towards that point.

She never made any friendship with any family, anybody I was connected to, that did not have a daughter in it. She wrote about Ella, Emilie, or Eliya Kostova. Look at themm they all have daughters, young daughters she could abuse. They are ruthless. To them, the body is abuse, ?? move, money making. And as they're the head, they never get their hands dirty, they have the others do it for them.

Now we have the knowledge, we have a technology to move. To move the Soul of the children, and with it their physicality, that they cannot be abused. When you talk about child trafficking and child abuse. This technology, this knowledge is for humanity and it's free. Completed, we learn from it, from the food. Now we learn the freedom in the coming time. (2:50).

I spoke about Thailand (Korea) last week, everyday a woman or a man dies in what we call, common household by abuse. Why should be? The beauty of it is, when you don't let abuse, a husband cannot kill a wife, then the children have the mother and father, at least they are alike, they can live with each other. Somehow the parents are there. You don't put one person in prison for life for murdering a husband or a wife and the rest of it.

When there is no child to abuse, where is the trafficking? When we all have food to eat, when we can complete this cycle, do we need people to come from China to go on the what you call, "Blackpool side" of the ?? South port side of the England that every few years we get so many of them drowned by the water, just picking up some muscles and cockles to be able to live, to live somewhere free. This technology will give us that solution, for us all to be free. And we teach our children. Teach our children how to move, how to be able to move the Soul, that the physicality does not get trapped in it. Then there is no abusers.

But the most interesting is, (2:52). these people with devious mind, what they find next? Who's next? I hear the same lady now is starting other people Chat show, ladies watch where your children and grandchildren will Chat into in the background. The bosses never dirty their hands.

You've got to understand, the new technology, the new cycle of energy and knowledge has to be good for every being on this planet. The dog, the child, a man, a woman, a tree. If we give you food and you do not go hungry, how many trees (plants) as a vegetarians, you have saved not to slaughter? Then you understand how much the change has to be fundamental. How much the change has to be real. And how much we are responsible to bring that change in. (2:54).

Now the technology is there, the communication line is there. It's hundred, thousands of you listening to this now, live. Every corner of this planet, every religion is here, Muslim, Christian, Jews, Buddhists, you're all here. As knowledge has no limitation. Because you gain the knowledge, you teach the knowledge. And this knowledge, the way we teach it gradually step by step you see this statistic to prove you've been there, you're part of it. You pay 300 Euro to be there. Tomorrow is your right to be there to change the world leaders. Not just somebody will go and do it for me. Then what about you? What about your school of thought? Then we see the change.

Then we see the next step to development. And whenever we solve a problem, we have to put a solution for it. We are giving a solution for food, for space to the Chinese, at least 50 years ahead of Americans, at least. But putting that, creating condition has to have a benefit for it. The Chinese to be on the Moon, to be on the Moon, at the moment is the best thing for (them), it shows advancement in technology. When another piece of a nail shipped from Earth, to the Moon to produce. I have not even taught you. Go into the ?? tents, (2:56). and read.

We haven't even showed you how to create structures, buildings without the bricks or water, with fields. You think you're going to make a building of bricks and clay on the Moon or on Mars? Or do you need to take all produce Copper and Zinc and whatever? I still got to teach you how to make walls, partitions, floors, buildings without a single break. Remember, every brick is made of an atom and every atom is a plasma. And now you know how to make the plasma. How you cut the field, how you create. This is part of the teaching I told you about the radiation. How do you cut two rays that you have a children room, you have a mommy's room, you have an entertainment room. Not a single brick. It's in the patent. And I'm teaching you a step by step what is in the patent, what is next.

Chinese will not carry a single brick, they built. If you go to Almaty in Kazakhstan, it used to be the capital. In the Central Park of Almaty there is a Japanese structure, and they're very proud of it. And in this structure, there is not a single nail. It's a beautiful structure. Japanese are experts in it. It's an origami of wood. Chinese will build cities not a single screw, not a single hospital, not a single prison. (2:58). No policeman on the street.

I said, you show a step, we show more. Xi decided to use technology for peace, and it's in the memorandum of their meeting last week of CPC. We respond according. They break the rule, we break our point. They keep to what they are pursuing, we will carry on. Gun policy only shoots the presidents in their own head.

The same with the child trafficking, the same with human trafficking, the same with the prostitute trafficking. How many girls are trafficked around the world. When you teach them, then you understand, and then you can put a stop to it. And the teaching has to come through a knowledge, technology solid that is accessible to every man, child, a dog, a cat.

When you speak about the child abuse, I had enough suffering for past four or five years. It took me two years to uproot this snake. Look at when I separated, and look at the time of the Italian conference. (3:00). When we found out exactly where everything is. I was in ?? Amam with one of the most beautiful Knowledge Seekers. They thought, because I'm not here, they can do what they like. He saw me what I went through. When I came back I found out. Bunch of ?? as the Swiss Interpol have told me, the two biggest pedophiles organizations have met Mr. Keshe, and you didn't know? I said, no. A football coach, boys football coach. You heard about the priests in Austria in 2004 – 05, the football coach is in Switzerland ?? had known for the same job. There were children of Alan Sterling, they were part of the same organization.

And I had to find a solution with it. And the solution is, this is what I said before you bring this subject, the next few moments we'll bring to teach the children. Why do we need to teach them? So they cannot be abuse, the snake cannot reach them. They can lie as much as you like to the courts, you can pay the judges for the money they're going to receive, but it doesn't change the fact.

I set my life totally different from Italian conference onwards. When I found out more, when I sat with the Interpol in Switzerland, and the facts they put on the table I just bashed my head, what have I done. Why was I blind to this? (3:02). And showing an immediate reaction was not the solution. We kicked Jackie out, we kicked the rest out, I cleaned everything very silently. Now I can tell you why. Bringing the most notorious pedophiles as the education people. Promoting one of your own inside.

Now we understand. The new technology will bring an end to this, and we have to start teaching our children how to move their physicality from position of abuse. Abuse, as I said, bullying in the schools, bullying in the life, bullying in the home environment by husbands and wives, bullying at the point of work, where because you need the money to live to stop the hunger, you have to take the abuse. Now you don't you dial a number, you're fed on the phone, everything you need is given to you, you don't need to go into MS, and Fibromyalgia and the rest of it.

Knowledge Seekers have not realized the implication and application of this technology to come. Because you look at, I want to go to the Moon, but I don't want, nobody wants to go to the Moon. But you learn how to move your Soul and your physicality that it cannot be touched. You don't need to die with a hammer hit on your head, or a knife going through your body by the husband or a wife in what you call, domestic abuse. (3:04). You don't need to stand the swearing, and the shouting and abuse. Where through your Soul you can raise the Soul of your partner, that it never gets to that point.

They say in love makes you blind, and made me blind. And when I opened my eyes, I found out how blind I was to the rest of it. As the knowledge I have has to bring that to an end. The child abuse, child trafficking, woman trafficking, everything else has to come to an end. Because you teach it. They laugh at you. Oh, some of the fairy tale. But when they get abused, where's this guy called Dean? He was talking about this, where can I find somebody who can stop me from getting abused?

You come to us for the cancer or diseases. But the back end of it is, when you understand it, and you elevate yourself, when you understand the field of the Soul, and you go and eat on the table of the Creator everyday when you're hungry, and as you need it, because you just connect to it, the body does his job, you'll never be put in a position of abuse. You never get diseases, you don't have a fear of life.

And this is what I've done. And when we went to make it, expand it, that it becomes faster, we got robbed by another bunch of thieves. Many of you helped us. And I came sincerely to you asking for help, (3:06). because we wanted this to be done. And we were set up by another Knowledge Seeker the same as the snake. But the time will pass. Nobody will lose anything.

But the structure has moved to a position we can deliver now. We can bring to an end a lot of things by knowledge, not just by word. By teaching, by example of them testing themselves. And how we can mix it, how we can bring that mixture to bring the totality. And see how the knowledge can be, that it becomes accessible to all.

I suffered, I lost a boy. But I know what it means to loose a boy. But I know with this many children are safe. Many of you who came here as Knowledge Seekers, how these people in the background were finding where you are, who you are, if you have children, whatever they could do with you. And they asked us, we want to teach. I didn't understand why. I said, okay, she's there, why not. But it was all planned. We are innocent, we don't think the way they do. But now my eyes are fully open. I know.

I live a beautiful life. But I know that with this life I don't have to worry about anything. (3:08). And I always have a habit, I ask. If I'm given, is where I live. I never go and take. I asked for all of you to support me when I was planning to expand, it wasn't the time for it. Maybe next month, maybe next year, maybe traveling, expanding the knowledge through China will bring that change.

But when you speak about abuse, I know I can put my head down on the pillow at night, knowing I have the solution for it. Knowing the solution you already tested as the hunger, you went to the Moon, many of you did a lot of things. So it's not a gimmick. It's a reality we all live it, and we can find a solution to it that it reaches everyone. And it's the whole thing is a step by step.

The children becoming aware of their potential, and they cannot be in a position to be abused, to be bullied, that they become suicidal, and they do all sort of ?? things, or attach to the drugs. And this is what we have to learn. And we are always blindsided when we are emotionally involved. And there is no emotion in this, it has to be reality, teaching, direct teaching. Our children it has to become part of the life curriculum before our children go to school to be bullied for the first time. It's the responsibility of the parents to teach the children the strength of their Soul. (3:10). Move yourself, nobody can catch your Soul, nobody can touch it, because you don't want to be in that position.

Pedophiles comes under different names, color and ways that we none of us know. Till it comes to public, till we get to know.

Any other question?

Q: .. Hello Mr. Keshe, thank you very much for your tireless work. My question is, there are countless helpless Souls on this planet who suffer from the abuses of humanity, Vertical Beings, minerals, animals and many others. In past teachings, I remember you saying that they are also participating in the process of transition and elevation of the planet. If possible, could you tell us a little more about this?

K- The thing is, with this planet, (3:12). due to his structure, everything living on it except the stones, or what we call, rocks, more or less has a need to gain energy to move. And this is very important for a lot of people to understand. And this need to exist by taking from the others has become a pattern of the life of this planet. When we.. It's so fundamental, if we could see the whole picture. I'm not a dreamer, I deliver technology which brings the dreams to reality. When you see the communication of last week. 80 people. I have a near final what you call, near final data at the end of it. It's somewhere, if I can get hold of it to show you.

<< Audio cut and fading out >> This is the final of Question #2 & 3 79 (3:14).

R: I can take a screen share of the picture and put that on. So you don't have to share it. Can you hear me? (3:16).

K- Yes, our power supply was ?? cutting down, was getting weak. It's on the low battery notice. That was the reason. Is it better now?
R: Yes, yes.
K- Yeah, it was one of our systems going, because I'm not in my usual place. We were running short of energy battery. So, it's okay now.

But this is, when you look at this statistic. Which is your statistic not ours, unless 79 of you in the survey of Sunday told us a bunch of lies. Then you understand, the more satisfaction the less you eat. The less you kill, comes to the point that you don't need to kill, you learn how to use energies. It brings a change of life for the planet, for the plants, for the animals. And the life pattern it finds its own balance. (3:18).

The animals will find a balance with themselves. If you can deliver the same kind of field energy into the forest, into satellites. Our satellites now, spies satellites used to spy and taking every note of everything, who's got soldiers, where is the border. What about if on the satellites we put the plasma fields that the shrubs, the dog, the cat, the lion, all receive what they want, they just pass each other.

In the holy books you have a promise, where the lamb and the lion live in the same nest. This comes through when you can feed the lamb and the lion. That the lion does not see

the lamb as a food, but as a companion. And the lamb doesn't have the fear of lion, that I become the food of. And the only way you can do is two ways, feed the lion all the time that doesn't need to kill and be ?? in every jungle, every bush, to feed every animal the same. Or feed enough that the snake pass you, but it doesn't touch you, because I don't need to bite you, because you're not food.

And the only way comes is when we deliver enough energy, what is short by this planet, which two ways. You can continuously feed a Man, or teach the Man to use his Soul to feed himself. The same goes with, when you do that with the STM. You've done the same with a cat, the same with a fish. How many of you when you participated paid for your dog to have a headphone on? (3:20). How come you as a human being are (more) important? How many times whatever you use as the plasma for yourself, you use it for the plants, you use it for the fish in the tank, or the dog feed everyday?

Now we have the technology, we're expanding the technology, we're expanding the knowledge. So why don't we use these satellites to feed everyone, create a , whatever is short from underneath, which makes us to kill, we feed from the top to makes humane. We use satellite to spy and kill. We use the satellite to feed and to grow. This is the problem. I had this discussion two weeks ago with a very good friend of mine. He's a highly respected ambassador. I said, you know something, speak to the president. He was going out to diner with him. Tell him Mehran says, give us access to help. That we can operate in the freedom. He says, Mehran, there is no money in it, nobody talks.

Let's see how many of you will take up the option of the 3,000 Euro for anything you have. (3:22). Because you don't know what data we're going to gather. And you always look what's in it for me. Ok, I get enough ??. What about the data, the information that's collected that helps millions of others?

You want me to sell the Foundation to the organization's for billions of dollars, that you have no control you don't get educated anymore? Or we still battle things with our own doctors and our own teams and step by step? So let the technology to feed the plants, and the trees, and the dog, and the cat, the lion, and monkeys in the jungles as much as the man. We will see if the promise of the "honey and the milk" will not be there.

Any other question?

Q: .. My question is, when and how will the criminals pay for the crimes they committed against the population?

K- Oh, let them. They decide. They pay everyday. Their life is not as "hunky dory" as you think, their lives is not. The fear of their own crimes don't let them sleep every night. They might look happy on the top, but underneath they shake everyday.

R: Yes, I agree. I think they're shaking in their boots now. (2:24). We have a hand up here from Imgard who has some questions I think about the units that… Home Energy Enhancement Units.

K- They're going through certification. We have to wait that our team now. We had to get this certified independently and they are working on it. The units are all in Europe. The units are all here. They are testing, and we have to get the certification independently. And to see once we get the certification we can release the goods. All the units sold are in Europe, are in our hand, are in our warehouse. And they're testing it. Even last week, they were testing it for the power, for the energy, and everything else. We cannot do anything. Whatever is sold is fully in stock in Europe, we have to receive certification independently tested. We did the same thing with the other things. When it comes to these things like this so serious, we have to have an independent certification. And it's going through that process.

Q: Then I have one more question. And that is with the not eating. I got vertigo so bad that I went back to eating. I was wondering if there's another way that I can deal with that, because I'm afraid of falling.

K- .. You spoke about this on Sunday, I think, or before. Find out why you get the vertigo. (3:26). We have to find out why. Because vertigo comes from the pressure from the inner ear, or middle ear inside the head. Why do we get this? Has there been a change in, or you did not produce enough liquid as a saliva, that you .. run dry? We have to find out why. I would like to speak to you separately about this, because we have to see what parameter has led to this. It's a knowledge we have to gain, we can't just sweep it under the carpet, oh, it's just something. We have to find out why it gave you this condition. And it only comes from us exploring and understanding why and how.

Q: And when and how shall we explore?

K- I have to make time to talk to you, finding the time. I went for a meeting yesterday for half an hour and I had to stay there with the same clothing, because it wasn't expected for me to stay. It was just day, and return, and he just dragged on and all sorts of things. So, at the moment, all our effort is going with.

Especially now we have this "100 group." Sign in for the 100 group and see how we can get you the headphone in. .. The 100 trial case we put up, sign up with that, and then with doctors we have a look why, if we can change. If it's a "one off," or is there a reason. Because then I can set the systems up to handle it. We have to find out. With this technology you cannot say, oh, it's something, we don't. There's a case going on with one person for weeks, (3:28). doctors can't find the solution. And we are exploring which part of the knowledge has not been understood. Or ay sorry, you can go, you don't need.

And we have to understand. Because we come from the origin of the Creation through plasma, every condition has a plasmatic or something to do with the plasma of the

Creation. We have to find out what we haven't understood, what we haven't managed to match it. That's all.

Q: Yeah, I signed up for a consultation with a doctor, and I was contacted back a while ago…

K- Do it again today. And put in there, and then I'll get it done. Because we want to get this 100 done this week. So we have to find out, we have to learn. And the whole understanding is, we have to fill in the gaps where it's not understood, what we need to change. We have a guy I think the lady is here. .. We had a lady for 30 years having a damages eye because of a caustic dropping in her eye, and burning. And first two sessions she said, I don't feel anything. And the third session with the doctors she said, for the first time in 30 years I don't have any more burn, it stopped. So it's when you start the process with the doctors your body has to build up to the point of the change. It doesn't mean, it's not a plug and play. And this is one of the parameters we have to find out. And this is part of addition which a knowledge, which goes to the doctors, that they can use for their what we call, for their volunteers and what happens to it. (3:30).

Q: Do I need to have the Tabletop Unit and the Headset, to go with it?

K- No, just the present (headphones) will do. The doctors will tell you what to, the procedure is there. I stood by the support for the medical team, up to this week. I was there, I'm there all the time, people who've been around they know. And from this week is all getting handed over by the doctors. We stay behind as consulting, but doctors will handle everything. We advise what we know, what it is, what they can add to our knowledge. And all your contacts from now on, will be, if you come in is to learn, or to listen that we can teach. Otherwise, from now on, you're totally in the hands of the medical teams.

Q: It's just that it's not just vertigo. It's memory, and vertigo, and everything that relates to the ears and the eyes and the sinuses and that whole area.

K- Send it in, let’s see what the doctors will say. Thank you.

I think we will call it a day, nearly three and a half hours. We had a very long day, yesterday and today.

Thank you very much. But please don't think I have a pain in the neck, or I have a joint problem, whatever, for 10 years, whatever. Let us, give us a chance to make up the database. And then we'll see what we can or where we can go. And we don't get these kind of offers every day. And how we can do it. Thank you very much.

R: Okay, thank you, Mr. Keshe, for another Knowledge Seekers Workshop here. Anybody has any leftover questions, (3:32). they can bring them into the next workshop, please. And which will be next week, I assume at the same usual time Mr. Keshe at 9am, for next week, as far as we know?

K- Yes, I hope so. Today we went through an unexpected situation away. And we could not be, because we had to be in a meeting. And the meeting takes two or three hours. So we had to. It was better to have a half an hour session than actually delaying it and having a full session. Thank you.

<< Rick make announcements of the next Public Teachings >>

K- Can I just coming for one second? (3:34). We still leave the room open till midnight tonight, for those who want to register for the meeting tomorrow. I just been told by the webmasters. The room will be open. If anyone wants to register for tomorrow's session with the world leaders, it still stays open until midnight tonight.

R: And you're talking about the Telegram room, correct? The Telegram group? As well for the people that are signed up for the workshop?
K- No, I'm talking about the meeting with the world leaders tomorrow.
R: Yeah. What's going to be open? The Zoom?
K- The booking. If anybody wants to book in to be in the meeting tomorrow, they can still do so. Because we have people booking late, so the registration still is there. It will be open till midnight, and you'll be allowed to come into the meeting tomorrow. Thank you very much.
R: Okay, and there is a Telegram group that is the contact group for people that are in the workshop apparently or can be used, which is the @customerservicekfm telegram group, apparently.

K- I don't know about that, maybe there But you go just to the website of the Keshe Foundation. And in there you'll find the booking for the meeting tomorrow. The website. Because some people just ?? how do we book. If you can just put it on the website, if you've got access, go to the shop. In the store of the Keshe Foundation, there is a link for the booking for tomorrow.

478 KSW March 23, 2023

END

479th Knowledge Seekers Workshop; March 30, 2023

(Transcription, Proofing done)
(Auto transcription by Elias)

New teachings on Emotions begins; Further understanding of Cycle of Creation Rays - fields - Emotions; Cycle repeats itself throughout Creation; April Addiction session - keep STP & STM together; MG fields continuous cycle no change - point of observation change direction - create magic; Big teaching on Emotions; Salinity; 3 Kings gifts - MaGrav - Ray - fields - Emotion 3rd dimension; Gans making - local & environmental fields; China to clean up environment; Galaxy like Gans Box.

ENGLISH TRANSCRIPTION

K- Yes, good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers of the Keshe Foundation Spaceship Institute, (:18). where you're, we welcome you back to another gathering of what I call, new scientists new generation of Knowledge Seekers (KS) of the Universe than physicality (P) of the man.

We have been teaching for past weeks and months, about the Cosmic Rays (CR) about interaction and condition, and the direction, how man will travel. How man has found a new way to understand. How man leaps from being a physical passenger of the Universe (U) to be as part of its structure, for being a passenger off the fields of the Universe.

To get to know this, to become master in it, takes a long, long time. But somewhere, somehow we have to start. Somehow, we have to take the first what I call, toddling steps. Maybe the first steps are crawling towards the knowledge, towards understanding. And this has been, and will be one of the biggest dilemma for the man of science, not only on this planet, but across the Universe. We don't have universities, we don't have what we call, graduations and the hat on the head to show we understood. The hat on the head comes from enlightenment in the world of the Creation. We have to understand how, where, and the way, and the condition created that how, and the where and when to be created. And what we'll get out of it. What do you expect out of it?

As I said many times and you will come to understand, (:20). that the time will come very soon, when by dropping a "drop" in the fish tank, you will create that fish. And you will see, man in control of a drop of energy, not a drop of water, in a tank creates a condition of life. That tank could be a fish tank, could be a planet, could be a Universe. It's man who decides where that drop of energy will manifest itself, will take shape itself, will bring a new condition of understanding. And with it will bring a new era in the world of the science of the Universe, not in the world of the physicality of the man.

Those who understood a little bit about the operation, and the things necessary to be the basic fundamental life of the man in the Universe, they call themselves prophets and they prophesied, and those who abused the prophecy, created a condition for their lack of knowledge of the true prophecy, to abuse the man. The way we have taught you, as Knowledge Seekers, you will never prophesize, but you look into, you understand what it means, what has been said, how does it fit in the interaction of the fields? How does it fit in bringing the reality together?

The reality of the two dimension of life, the physicality, and energy as a plasma. Even though the physicality itself is part of the spectrum of that energy. (:22). What happened to us? How do we change clothes? We wear a swimwear and we jump into the pool. We were the Soul of the Man (STM) and we jump into the ocean of the Universe. But the

biggest fear man is, how can he jump out and have the physicality, when it comes out of the ocean of the fields the U. This is the biggest dilemma for man. How the way "I should," or should not? Should I? Would I become? Can I come back? These are all the questions which was said.

Yesterday, one of the flight tests. We tested this in a very amazing way. But the Knowledge Seekers who participates in this kind of test with us, did not understand, could not comprehend what was going on. He was still looking at the dimension (D) of physicality. He looked at, "I'm not there, I can get there." We could isolate the STM from the fields of the Universe. "I don't feel anything," he says, nothing happened. Yes, because you're isolated. It's a condition when you come in, nothing happens to convert yourself in the D of P, because we blocked you. You're there, moving the system instantly to another position combination.

I can see the fields rotating in a clockwise direction, this is the time, that you travel and you still have not understood. Because the clockwise rotation means to man, departure. You call it magnetical (M). In the field combination of the MaGravs, you talk about clockwise and anti-clockwise, and then we change the combination, again. (:24). And I can go, I can feel energy is there for me to go, but need to go. The "but" was to connect to the first setting of D of P once you arrive.

This is part of the knowledge which is missing. This is part of the knowledge, which we have not shared, and it takes the "man of wisdom" to understand. How do you jump from the physicality of the Man in the pool of the Universe? And then how do you jump from the pool of the Universe into the physicality of the Man? We tested you, we brought you into the systems, we taught you how to come for a food, how to talk to the world leaders and every gimmick possible. We have brought you out to teach you, you can go back, you can get in touch with, you can use the dimension of the fields of the Universe.

Now the game starts in the coming time to make that ambiguity, that lack of knowledge, which the man has, how to go back from that D of the energy into D of physicality. In fact, your Soul does this at the point of death, it leaves the physicality of the man, and instantaneously is positioned in the Universe, is dictated. It doesn't wander around, I'm a wanderer to find myself, to find my Soul, to find what I'm going to be. It arrives instantaneously, at the points and the destination, which has been created by it. So man doesn't become a nomad in the dimension of the Universe and the Unicose. It's instantaneous. But reaching to the point of the balance of the field of the STM, (:26). and in the dimension and position of the Universe, then the Soul has to create the D of physicality. It's no good just standing there on your own. You're trying to tell the others I'm here, I'm trying to create a new dimension.

The STM at that point of arrival, starts absorbing and creating the dimension of the Inertia of the patterns of the fields of the Universe, to start beginning of a star, a beginning of a galaxy, a beginning of a Universe. Not all Souls of the Man will end up in a galaxy, or end up in a Universe, some of the Souls of the Man become the beginning

and start of the Universe. They are so pure, and also at what we call, "level of understanding the process of the Creation," that they become the creator of a new cycle.

And this is what man needs to understand. You come from the energy and how do you start that new cycle? How do you begin, to begin a new cycle of life, a new Solar System, a new Galaxy, a new Universe. Even maybe to become part of the Creators fields of the Creation, from the point of nearness to Creator. Mankind needs to understand this point.

And then ask yourself one question, if my soul at the moment of the departure from my D of physicality, knows his place, and then knows how to convert itself to the D of P at a given point in time and position, (:28). what have I not understood? What am I missing in the Knowledge of the Creation, in the wisdom of the man?

If my Soul knows his position, at the point of departure, and starting a new life, maybe in the dimension of physicality, instantaneous as a seed of a star, that it gives it dimension of the tangibility. What am I afraid? What am I worried about? When I go where my emotion and feeling is to go from New York to London. Why am I afraid to leave New York? Do you sit on the stairs before you get into a car? Am I going to get to London? When you get in a car you go to the airport. Do you sit and say, shall I get a plane, would I end up in London? When you get on the plane and you go to the direction of London, would I arrive in London? And then you land and you walk, and you go out of the airport, and you get a kiss on a cuddle from your family and the friends, oh, I arrived, the system worked. Brought me in a little what I call, "tin box" to London, and I trust that.

But man does not trust his own existence. Never question, would I arrive. Your question is, what can I give when I arrive? Then you arrive. As long as it's me, can I confirm, I can get to. You and never leave, because you're not .. you're not even sure you can go. Where do you want to go to start with it? (:30). The lack of trust, lack of understanding, lack of not knowing. How come my Soul knows where to go when it leaves my physicality, but I don't know where I'm going to go when I become what I call, "the passenger of my Soul." As long as I want to stay in dimension of P.

This is where, and this is the reason we brought the teachings. This is one of the main reasons we started this, "playing the tip toe," on the 16th of December, we go and see the Creator. I put my foot out, see if it is warm enough, if it's real. In January I go and do that. In February, I test if I can feed myself. In March, I can see if I'm equal to the world leaders, that I don't need to worry, when I become the Soul of manifestation of my physicality, I can be the king of the kingdom of myself. The next session in April, I want to see if I can get addicted to move.

The reason we put the addiction (session) is not for your alcohol, your drugs, or sex. The reason we put the session of the addiction in April, is that you don't get addicted to wanting to go in the dimension of the Soul. I go there. I go there. (:32). I do this, and I do that. There is something missing, I haven't been there. In a way, we don't create Azar number 2. She wants to go everywhere around the world, test every condition of the

emotion with every tool possible, and every plant, and everything else, that to find myself. If I can control it.

The reason for this is because, traveling the span of Universe and knowing the capabilities you have is addictive. And its addiction is incurable, because you feel the love of the Creator. And like a one in love, do not know where to go. The reason we put the addiction session is partially for you to understand the sincerity and the commitment of your Soul of Physicality (STP) to your Soul, that I stay put. I am one and I stay as one. Then you understand, how the process of the Creation brings you to stability, brings you to the point of not to be addicted, but to be connected.

For your learn the energy releases, which ?? more ?? elevation and excitement to the Soul, moving from physicality to the Soul. Moving from one to the another, being part of the same thing. So, what we taught, and what we showed from the beginning comes into operation. And in a way mankind comes to understand what I need to do. Do I, can I travel in the dimension of the Soul, create the dimension of the physicality, and then can I depart with that Soul? Would I be able to carry the what we call, connection of my Soul on this cycle of life?

The biggest fear, the biggest uncertainty for man is that, if he can carry his Soul on bandwidth, on the track of hydrogen (H) and carbon 14 (C14). Would the STM go to that D? Would the STM learn how to add D of other materials magnetic field strength to manifest itself as a drop of rain, as a cloud, as a physicality of a plant, a creation in D of the Creator, and be able at the same time, to join back and travel the span of U.

Then, would it be possible for man to learn the dimension of the C14. If man understands how to operate within the D of the carbon, which in a way is the physicality manifestation of the fields, and not the rays of the Universe, then man will go one step further.

In a way, if you go back to the teaching of the past, we always said, you start with a ray interaction of the ray with their own creates the fields. (:36). And then the interaction of the fields with themselves creates a matter states, be it the C, be it the copper (Cu), be it gold. record, and then interaction of these fields by themselves within themselves, creates a cycle of life.

So, it started from a ray, to a plasma, to physics, to chemistry, biology, and the energy called, the STM, which in that position, due to interaction of itself by itself, and expansion of Totality, becomes another ball of plasma we call, a Soul. And then the cycle begins again, "I Am the Beginning and the End."

Rays emitted from a plasma will start the same cycle again, till it goes back to the beginning, that in interaction with itself will start creating a plasma, and a plasma to another point, to another point and back again. This is a cycle of Creation. This is a way the Creation is made. But at all time within this field is the essence of origin, what we call, zero-time, what we call, the Creator.

This is one of the biggest questions, I put to many scientists of cosmology and to the nuclear physicists years and years ago, and I explained this in teaching a few times. In the world of the science of Man today, we call it, the North Pole and the South. (:38). We say the magnetic field come in, and then they go out. Where do they change from gravitational (G) to magnetical (M).

In fact, they never change, it's a continuous cycle. It's the point of observer. Point of observation. And this process is where you as a Knowledge Seekers have to come to understand. What happen at a given point of the observation, and who can explain it, does not become a Prophet. Or who can see the point of interaction, cannot use it to abuse the others, because I can see how and they can't, so I prophesize what I see. But in fact, I'm the observer, because I know a little bit more. I don't become a Prophet.

The game of the knowledge is not to be a magician, not to be a Prophet. The game of the knowledge is to share, that more people understand, that from them in interaction of the fields of Universe somewhere, you get prophesized by the others. That what they prophecy, what the knowledge means.

If Man understand this, Man will accept no Prophets anywhere, no magicians in any position and dimension in the Universe. Because Man we look for the fields interaction, Man we look for the point of life, and what it means, and how does it mean, and what does it create. How would it affect me, that I understand, that I don't accept no magician. (:40). Because I know the game of the magic, I know what I need to mix, how to mix it, understand it, and then I become the magician. And then the actual truth is, I cannot be magic, because I am part of the circle of the magician, understanding the work of the Universe.

If as Knowledge Seekers you understand this, you have cracked it, you have completed the cycle. And then you look for the time, position, field strength, dimension and interaction. Then you understand, there was no need for prophecy. You have to understand a certain point of the interaction, a certain point of evolution, interactions creates emotion. And then to understand the emotion becomes the controller of the interaction, the controller of what's going to happen to the Soul. "I made Man in the image of Myself," how can Man has emotions, but not the Creator, as the Creator created that emotion for the Man to understand? You're an image of the Totality.

But the question to ask for you, did the emotion of Creator was with me, within the cycle of ??. That, in this point, I feel part of it. I call it, love, I call it, pain. But what other part of this emotion, which I don't have privilege to, still to come to me to become part of my knowledge? (:42).

As I said many times, Man will come to understand new emotions, but these emotions are not something new. It comes as part of the, "I made Man in the image of Myself". You carry My emotion, and you only understanding the emotion when you arrive at it. It's no use to tell a six months old child, a two months old child, a ten year old child about way a

man and a woman fall in love and they give their life to be with their lover. Because it's not mature yet to understand what that means. To him its the love of mom, dad, maybe brothers, maybe the cat. How much I love, but the essence of love changes when it comes to a lover, to another partner.

In a way Man has to learn to fall in love with the Creator. And then man matures. Because then it gives that it receives, then it becomes enlightened with the knowledge of the emotion of the Creator. What you call, Mitra, the knowledge of falling in love that you give everything for the lover to understand how much you love. But in a way, if the lover denies you, or ignores you, you have received no love, you have not done anything, you have added, but you never received to be elevated.

Then it means for Man to understand, what have I not given to receive that elevation? (:44). Where am I looking? Where have I made the mistake in understanding, because then I can show it in the dimension of P. I tell you, I love you. I just don't understand. I buy you a red rose, I buy you a box of chocolate to show the love, I buy you what you love, you enjoy to show you, how much I love you. How many times you have given the gift to the lover, and just puts it on the table and somewhere else? You say, why have I done all this for? When the love is not appreciated, when not understood. I put every effort, I have traveled half of the town to find the color he likes. But to him it’s another piece, because he loves somewhere else. The work, the job, the football and the rest is more important in that moment, then when you gave the dimension of physicality of the rose, or the box of chocolate. Because the emotion wasn't transferred, it just received.

As I said recently to a diplomat in the past few days, Keshe Foundation brings the love of knowledge. It’s the responsibility of your leader to create the love of peace with the knowledge we give as a love. The diplomat, a woman, looked in my eyes and said, Mr. Keshe, I don't understand. I said, you'll never understand. Because you never been in love with peace. You're a diplomat. You're just an ambassador. (:46). Because you haven't got the essence of the leader. You're on the paper a name, but not in the emotion.

This is what you as Knowledge Seekers have to understand, the essence. But how do you ?? come, how does the emotion is transferred in the Universe? It had a smell, you call it, an odor. But how do I measure emotion? How do I feel the emotion? I'm a Soul. I'm a pack of energy. How do I feel an emotion when I come across another Soul in the dimension of Universe. If he loves me, if he wants my energies, he wants part of my fields, he wants to give me something, he wants nothing, he wants to be loved.

As I said to a friend of mine very recently, would the Man of Universe become the Muslims of the Universe, 4 wives and 40 lovers? Or Man learns to be in the dimension of one Soul, one life? You know the rules of Muhammad. If you are away from your wife so many legs, so many kilometers, and you have to stay away for one night, or more, you can take a part time life, a part time wife for that night you're away. Would you also do when you leaves your, ?? Soul as you call it, into dimension of another Universe? (:48). It’s too far, you're out 200 wives and 2,000 partners, even though you can come back

instantaneously. The love comes to, how long do you want to stay away? Doesn't matter what the distance is.

I used to joke with this with my ex-wife. I used to travel a lot when the children were young, but I used to travel back to Manchester every night and take a flight again tomorrow morning to go. And I used to tell her, I should have become a very good Muslim. Because it's nearly 500 kilometers and more than, I think it's about 40 kilometers you can take a wife. Multiply this number of distances, I can take 10 wives in one night. I plan to, I come back tomorrow and I can extend it, because it's 2. But now we have planes, and jet planes and whatever, and we cover the distance. Now automatically part of what was prophesized as a Prophet, becomes through the knowledge and technology, obsolete.

So it'll be the same with the Man in the dimension of the space of the Universe. There is no time in the space, and you live a life through the dimension of the life of Mitra. It does not matter what the distance from the Creator is. As the distance is the love of the Creator, which is zero-time and place and position. You are never away, you are never far. You cannot travel to the other side of the Universe, as the Universe is you. (:50).

Then it comes, how come up to now, we have never understood the ?? effect, the emotion, the way the emotion travels. We smell it as an odor, but we cannot feel it as an emotion. Where does the emotion of the Creator hides in, that it manifests in us, and at the same time within our children? How do we transfer the color of the eye, the behavior and emotion to our child? Isn't this what the Creator has done with us, and we have adapted it to suit us.

How did the emotion of the Creator arrived with us, within our Soul, within our existence on the, what I call, superhighway of the H? Then it comes to a bigger question, is there a dimension of the field, which man up to now have not understood? And is that the piece missing, for man, Creation in dimension of, what I call, plasma of the Soul, or dimension of manifestation of physicality? How come I become visible to some, and not being seen by the others, as their fields are a different strength to me?

I put this question in one of the chats of NASA years ago, and maybe after 20 years, after ?? they all decided I teach too much and asked questions, which they had no answer for at that time. NASA has shown us that there are lives above us as a plasma, (:52). we see their shadows. Ask yourself this question. Then you might find an answer in the dimension of P. We hear, we see in the news that a man got hit by a car, because both had a dimension of P. How many times man has taken off the runways, how many times we have shot these rockets and astronauts into space.

By the way, one of them now is an Iranian woman. If you heard the White House, celebrating the Iranian New Year last week. The first Iranian space heading what I call, group to the Space Lab, is an Iranian woman. And it's the thing is, Ayatollah Khomeini kills a woman for covering her head, America to a woman who was born in Iran, give her a chance to head a mission to space.

Now it comes another point. How many of these rockets, this lady was going out with her team, will hit the lives, which are above us? How many injuries do they create, that we never considered. But we know that they're there. Sorry, they're not all as fast as the others, we hit them sometimes. How do they fall? Do they carry an emotion, because we see their reaction, we see their dimension.

So we haven't understood the love of the Creator for us. The emotion, which is the fundamental point of the reaction of manifestation. (:54). We considered how it comes, we considered how it can cover a span. But we haven't considered how the interaction of the fields with that C14 and H creates emotion, which at a given point gives the sign to the plasma of the STM, it's time to manifest yourself. Otherwise you are a loose bullet, never stop.

Now, Man has to understand the strength of the emotion. This is why in all the teaching from beginning of the time I always said, where is the emotion. Without emotion you cannot show your love, without emotion you cannot show your anger, without emotion you cannot show your suffering. It has to be in the interaction with the dimension of the plasma, that it gives it dimension to manifest itself in any shape or form.

So, emotion has a field strength, emotion has a dimension. And Man once understand that emotion, Man once can bring in parallel and common denominator between the STM and the STP of the Man, Man then becomes a passenger of the Universe without end. Fountain of youth, everlasting life. It's the way the Creator lives.

It's the way us as humans have not understood. We call it, psychosomatic. I hate my child, I give myself a prostate cancer. Voilá. How come you understood in dimension of physicality, but you cannot put it in dimension of the plasma, which created that physicality? (:56).

Yesterday, when I sat there with our Knowledge Seeker I said, it'll never be understood by Man. I'm there, I feel I'm there, but I'm not going anywhere. First of all, I put a weight on your backside that kept you here, I showed you, I covered the dimension to connection to the Earth, to dimension of gravity, to understand your incapability, to understand what is involved. I take it out, you see the dimension, but you have not understood the emotion.

You're so hungry to go, that you forget the ignition key. How do I manifest myself? What is the purpose of my travel? Am I traveling to go to a new place, not just for me to be there, but teach the others the process. "Me" is irrelevant. The love of "me" for Man understanding is more important than me. I never fly, because I never understood the emotion. I never understood, I never grasped the fundamental essence of the Creation. Otherwise, I'm still another ray, another plasma traveling the dimension of ignorance.

This is one of the points which many of you have to understand to become passengers of the Universe. To be able to travel from New York to London. And then you have not

even understood the other part of traveling by the Soul, by the emotion of the Soul. Then your lover will feel you in her heart, in his emotion. I feel it in my heart. How many times have you felt, said to yourself, I feel something is wrong. I feel something is going to happen, (:58). something inside me will come. But you don't understand the Soul of the emotion of the lover, or the thing to happen is already arrived in your heart, in the plasma dimension of the fields, which converts to physicality. But because you don't have the knowledge, because you don't understand it, you cannot transfer it to your Soul, that it becomes the manifestation and dimension, in the dimension of the Creator, in the dimension of the Universe, and then use it.

Then you see a guy getting hit by a car, he stands up and walks (away). You say, how is this possible? Because at that moment the STP gave control to the Soul. You don't exist in the dimension of physicality, because the love of the STP to keep the Soul is so strong, that it gives everything up that the Soul takes over. And then instantaneously you return, you come back. These things to you were fairytale, but now look at so many cameras around the world, which show you so many accidents. How come this guy gets hit and he walks? Now you understand the process. Now you understand the love the STP gives to the Soul, you take over till we see, till you get me out and then I take over. How come you cannot do this for yourself in the dimension of consciousness of the behavior? Is this another mystery of life, which Man needs to understand, trust in the Soul?

How come at the point of the accident you do it, but you don't want to do it in a natural process all the time? Then you go to work in New York. You have a tea break in London with your lover, then you'll be in Beijing for lunch, (1:00). then you go back to Hawaii for a bit of afternoon nap, back to New York tomorrow morning. Because there is no time in space. It’s you who makes that time, it’s you who make that space for manifestation of P, or for the dimension of the STM to take over.

Then, now you understand why the past three or four months we keep on playing with you. Come, come and play. Come and meet us on the 16th, come and meet us on the 19th, come and see. It's not for you to feel the taste of the food, or sit and see what you can do to a leader, or you have a tickle with the Creator. It is for you to gain confidence. It is for you to understand, I can bring the dimension of emotion, and then a with it I don't get addicted to that emotion.

The only emotion Man will ever get addicted to, and cannot get away with it is, is like the DNA, is the emotion of the love, which is the essence of the devotion of the Creator to Mitra. Don't forget, Mitra could not love Creator if He did not receive the emotion of the love for Him. Creator is the possessor of all, and Man the converter of some. Then if you think your love is so strong between the STP and the STM, then maybe you understand which one is a Mitra and which one is the Creator.

If you understood this sentence, as Muhammad said, bless his name, a salaam …) "There is no more teacher." (1:02). But Man has not understood this. Man has not come to understand the dimension of emotion. There is no physicality, there is no dimension of existence as a life in the Universe, if you carry no emotion. That emotion has to be

transferred in the conduct, and the behavior and thoughts. This is the ethos of Mitra, do good .. , and the rest of what the Christians call, the "three kings gifts." Because they never understood. The kingdom of the Creator is the behavior and the ethos of his life, which Mitra brought us in the ?? Zoroaster. ?? " kna dorinek … "Neek" means perfect, correct. Talk, think and do the correct. And this is the path to life. This is a path where you come from the ray to the field, and from the field ?? to emotion. And then becomes a dimension of the Creation.

In the process of life, in the process of the dimension of understanding, Man will become to understand the truth. Then Man does not need ?? good ?? . Does not need to put one on the cross, or shoot one on the wall. (1:04).

One of the most strangest things for Man to understand is, the third dimension in the process of the Creation, which is emotion. Which itself is created from the interaction of the field of the Universe. And the Universe is you, because without that dimension of the emotion you don't exist to confirm your existence within yourself. You have to confirm the dimension of existence within yourself first, that you can manifest yourself to the outside. You cannot have a body when the heart doesn't work and it's not there. It's not life, it's just an object. It's just non-existence. Because then it becomes nothing, you deposit it in the coffin and you see no sign of it forever.

Then it comes a major point for Man. How do I go as a ray, become a field, and then emotion and dimension of the Soul and the P? The way you created the fields of the plasma of a Man, the physicality as a children of Mitra. Now, you have to understand how to create those fields, that become the emotion of Mitra. And if you crack that, if you understood that, then you have entered the true "Kingdom of the Creator," because you will think and do, in a way, talk the same language.

Then you understand. You call it, do good, act good, and the other one, think good. (1:06). You're a H, you're a C14, then you're an emotion. And all three has to be perfect for perfect manifestation. Maybe we opened the mystery of the Creation in dimension of the world of the Man, but in essence of the Creator and its Creation.

Now, for you comes a point. Didn't I give you a three stacker MaGrav? Isn't the three stacker MaGrav the same as, one to create the ray, one to create a field. and one for interaction of the two creates the emotion, the fields of the existence, the plasma of life. And then if you can interact with it, you understand it's there to serve you with your emotion. Would it be gold, would it be lover, would it be a flower.

Many times when I looked at the MaGrav units, I said, these people are just so physical. You put one coil in the wrong direction to the other, you will not see the light. Your MaGrav doesn't work because the ray is missing. You put wrong direction, and the second one your field is not there. How do you expect to live without C14? And ?? when it comes to interaction with each other in the space of their own, create the third dimension, which is emotion, which gives life to manifestation of your existence. (1:08).

Now, maybe as Knowledge Seekers, you understand the "three kings," which they brought the three gifts, sits in your MaGrav. You never understood. You're still looking for saving energy and not paying an electric bill. But you actually cut your own power supply from your own Creator from the base on. Because you're still looking at the dimension of physicality.

As usual, when you play with a little child, with a toy, it's just a toy as much as he can understand. When the older one comes, it's a rocket, and when the father comes it's a spaceship. But in fact, it's the same toy. Different understanding plays with the same toy in a different way, and enjoys his benefit in different ways. One dreamed "boom, boom," and one dreams of deep space and where it can take me, I become a passenger of the U. But in fact, it is still the same toy, the same ?? .

Man has to understand the knowledge, Man had to understand the process of the Creation, that in a simple way we explain. Then I wonder how many of you will come to understand the next step in the process of the teaching. Then does a collective interaction of the fields creates that dimension of Creation.

Maybe today's teachings opened your eyes as usual, to another dimension of life. (1:10). Join us in April 29th teaching. In a way, meeting with addiction of the space, and understanding of our addiction in the dimension of P. Each one will take from it what they want, each one will go away with what they think they wanted. But in fact, isn't all the same.

Thank you very much for today, and I hope you understood one of the biggest mysteries of the Creation today. But Man still needs to understand his own Creation, and his own conversion from physicality to energy, where the physicality itself is part of that energy spectrum. We go for a small break, we come back and we answer some of the questions, which has been mystery to us. If we have understood today's teaching. Rick, if you'd like to take a break, advertise some more of the Man's physicality and see what we come up with the STM.

BREAK << >>>> 479th KSW March 30, 2023 (1:16).

K- We would like to introduce something new to Knowledge Seekers, which has been happening in the background, and the Keshe Foundation has been privileged to it. What we think is the right time to come to public for you to understand how some of you Knowledge Seekers work, and how you will participate and support other Knowledge Seekers without them knowing or they know. Keshe Foundation receives a lot of different ways to support others Knowledge Seekers, or to bring things that others can enjoy.

And we usually find a place we find people, we get people, for example, in some of the meetings we had in past few weeks, (1:18). or in the conferences, one Knowledge Seeker sponsors or buys a ticket and says, give it to whoever likes and cannot afford it. I pay for two. We have Knowledge Seekers who have been supporting the wellness this way. I don't have a cancer, but I don't want somebody else to have a cancer, or he has a cancer can we helped. And we give this to our doctors, and we provide the facility in different ways, and they look into it.

We received the donation for 4 Parkinson cases from one Knowledge Seeker. We thank him for his Soul and the way he supported. And for example, very recently, one of our Knowledge Seekers who entered for a specific way with the doctors, he saw it that there is nothing at this moment can be done. He said, use it for another Knowledge Seeker if they need. So we find, we allocate, we give it as a gift and a support.

But there is other ways that Knowledge Seekers support or give things to the Foundation to use. We don't accept properties. We don't accept land. We've been offered so many lands over the years, and God knows, buildings. It’s nothing to do with us. We have nothing to do with real estate. When I tell them I'm not interested. He said, Mr. Keshe I'm giving you 700,000 square meter it's prime property. What am I going to do with it? It becomes another burden to be attached to this planet.

But sometimes we get things that other Knowledge Seekers can use. We bring this out for you to see and maybe you become to understand you can do for the others. We have a Knowledge Seeker who has paid for specific items to the Foundation. And he has asked us, give it to those who need. Rick, can you put the list up? I think you received it from the webmaster. (1:20). These items have been paid for by another Knowledge Seeker. And it’s there for you Knowledge Seekers, if you want to and could not afford it. But it's not just that, because it's there, then I grab it. It's for you to what I call, to enjoy. Can you share that screen with us, Rick?
R: Yes, it's coming here. Just one second.

K- It is a donation to the Foundation. And if you think, you know someone who can benefit by it, but it’s too shy to ask for it, or it's something you wanted, you couldn't afford, or it's something you wanted, but it wasn't the possibility to get it. These items have been fully paid by as a donation by a Knowledge Seeker to the Foundation. Instead of us choosing, we leave it to you to choose. You can even choose and make a donation with what you can afford, again it goes to the Foundation. But we have fully received the

funding for this, we are not looking for money for it. If you think you can use them, or somebody can use them. The usual passage in the Keshe Foundation.

This is going to take a lot of time, but it starts a new cycle that we can put in. You don't take anything with you when your Soul travels. But you can create a condition for a Soul to travel in comfort, as I always call it. So, send to the usual place health@... the usual place which we put. And say, this item I would like to, (1:22). I'm prepared to pay for the postage and package, already paid. All we need to do is to send it. If some cases postage (will be) needed, we'll tell you, can you pay for the postage? So, it's a donation by a KF Knowledge Seeker, and we thank him for his generosity. And it's there for you if you need it, look at the item, and it says what it is. Would you like to read it Rick, what is available and who might want to have it, it will be a pleasure to let you receive it to enjoy. Would you like to go ahead, please.

<< Rick reads the items available >> (1:24).

K- So, this is what's available, if you want it, but you could not afford it, or you know somebody that it would be good for school education or somewhere, just send us to the same address as usual. And it'll be done if we receive. So many of it we'll ask you we have received, which one of you will discuss with each other, more important to go to. So, this is one of them.

The other one we have is, as you know, in the Keshe Foundation, in the exhibitions you come, there are a number of paintings, and they've been on sale on the Keshe Foundation website. We have added four new sets from the Austrian painter. (1:26). The Austrian painter 4 sets arrived this week, and they go as a normal sale, as it's priced. And they are made by the Gans's, which the Keshe Foundation manufacturing, our lab people have decided what they want it to be, for what, and the painter has painted it. And these are Gans's, which are produced by the Foundation. And for a specific use, and they're beautifully done, as you can see. These have just been added.

Like the same, there's a lot of you've been waiting for the Pressure Cup and the, what I call, the Sugar Cup, they have arrived, so they're part of this ??. But we had, as you know, eight sets of paintings by an Italian artist, which some of you bought, some of her work, and it's done. And these 8 sets has been donated by the artists to the Foundation. We can keep it there, and wait a year, two years, whatever, to be sold, and the funds to go to the Foundation. Or what the Foundation has decided to do, and we have informed the artists, is these eight paintings, they are all valid around about 3,000 a pair, because they have to be facing each other. Or maybe two of you decide, one buys one of them in Australia and the other one buys in Canada to cover the fields, as you know the magnetic plasma will cover the distance between the two. These are the matching paintings. (1:28). These are gone on offer. You can make an offer and the Foundation decides who receives. Maybe receives two offers from 2 persons and we say, would you like one? And we go for the Soul of Knowledge Seekers. Don't make us a ridiculous price of 5 Euro, or 100 Euro, or whatever. But what do you think these paintings will bring you, and give to someone, give it to university, to a college, at home, to your son, to your daughter. Make

an offer to the Foundation, you have to pay for the postage and packaging, and you will receive it. These eight sets of paintings are there from today open to offers. You might want it, but you can't afford 3,000. You see a value in it, in any shape or form. Like the other Knowledge Seeker, you might buy all the 8 and say, donate to others. And then we come back to, ?? they're being paid for.

So if you want one or you have paid for two. I want one, to give to somebody else, a Knowledge Seekers will have the other one, and create a love between the two. We leave that to you. So, eight sets of paintings which has been in the Foundation for about two or three months has been donated to the Foundation. And instead of sitting on it, we are sharing it with you. Because the fields of the love and the care has been painted has to be shared, and not to be kept. And so it's there for you. If you see, you have a connection, you like to feel it, make an offer through the same channel. Rick if you can put the link up and read it, (1:30). because some of the people just listen to this teaching on recording. And to the Foundation and you will receive it.

As you know, we received a donation and massive donation, support, in a way. From the test, yes, it's called for 100 cases for wellness for our doctors at the rate of 3,000 Euro. The rest is covered irrespective of condition except certain condition, which our doctors will not do, it's like cancer, or Alzheimer's, Parkinson and MS are not covered under this. For any diseases, any condition which our doctors can use in wellness, you can apply for. And looking at the condition some people come with, I have this, this, this. It's no good. Something simple, something singular, not simple, that it can be handled and concentrated on for a six weeks session, maximum to see the change and the results, that we collect the data. We are covered on other side, the balance is with you. And if you want to join or as usual, the health@... what you call, we put up last week. healthspaceshipinstitute.org. Write to us.

We received a number of applications people requested. Some of them, it was sent to me, I looked at it, this is absolutely. I have every disease on the planet, I would like to use the 3,000. Sorry, we're here to get 10 cases, not one man with 10 diseases, which is all irrelevant. From, I had a car accident, to my toe broke today, (1:32). I have a plant, or heart transplant, and the rest of it. It doesn't work. Just be a little bit of common sense, it allows us to help the others. So, send your request to health, send it to the doctors and the condition application will be considered. And the fees. And don't come to us, we had a few cases where… I've seen this week, people come in, I don't have the 3,000, can you even give me that 3,000. It doesn't going to work. If we receive funding for certain things we can cover. But some people take it to the point of not acceptable, what I call, understanding of the system for our doctors. They pay their time to it, they spend a lot of, it needs, and now we're expanding the doctors. All these doctors have to compensate for the effort and the time they put in, plus cover all the expenses of the other things which is in the background with it.

So, we have reach, we have accepted through the understanding, that we do everything the correct way. And we understand we do it the way it has to be done. And a number of people have already started this process of the, requested last week. And started the

process of 3,000 for given specific conditions they have for wellness, with our doctors. These are all done by the doctors and not by the Keshe Foundation. Especially this week, we handed over everything to the doctors. It took us time to set up, to refine the system and everything. And as of last Tuesday, everything now is done by doctors through their operation, and more doctors will be added to this structure. As all the what I call, the fine tuning, everything is completed, that they don't have a problem.

The beauty with this is, some of the doctors who join us is, you don't need to move from your surgery, you don't need to move even from your bedroom. (1:34). Everything done is remote control, by you through the operation in one of the places wherever the system are sitting. And we've seen the results. Yesterday as we handed over everything else, some of the people who went through the process with the doctors. The doctor says, that a child who was heavily involved in ADHD, in a matter 8 weeks, 10 weeks he has become a brilliant child. The family has a new child. Totally unbelievable. And the child wanted to say goodbye, because it was a final session, and his life has changed. And this is the beauty with the wellness system that the Keshe Foundation.

We changed a life at the age of 10 with our doctors. Now it's a life of 10 years, 30 - 40 - 50 years of life, happiness and joy, instead of suffering. And it's the purpose of the new technology, to bring peace and comfort. And as we see more and more, those who join us for these programs for our knowledge to extent, while they benefit with the beauty of the knowledge, we've seen the what we call, the fruits of our work. People with the conditions that they could never imagine, can be changed, changing. People, with accidents, with depression, with all sorts of things who come to us long term, short term commitment. We can't solve everything, but we are learning.

We have a Knowledge Seeker, she's with us now. Burned eye for years, and two or three sessions, the suffering is gone. It's so easy to do. The new technology is irrelevant one is in the other side of the planet, one is on Mars. One is on another Solar System, it's a human, we have the knowledge, we have the access to what we call, common denominator of the life. (1:36). Why not?

So if you are or you want to test, or bring something new to the knowledge of our doctors, go again to the health@spaceshipinstitute. I want, I have this condition. Please, sort out your 3,000 finances before you come to us. Because it's no use taking our time says, I'm going to find now. This takes a lot of time off our work, and our systems, and our doctors, and it's not needed. So, there's still number of the spaces available for the 100 cases. And then we got to see what happened with the next stage of the development. I thank all those who made the donations in different ways for others to enjoy, and to be there, and to be with.

Are there any questions?

Q: .. In Brazil in the last 20 years, (1:38). more than 3 thousand tons of mercury were dumped into the Amazon rivers, carried out by man's greed in the illegal gold mining. A biochemical time bomb heralded as was the mercury poisoning disaster in the city of

Minamata, in Japan. A tragedy announced in the Amazon to nature, Indigenous people and peoples of the northern region of Brazil, victims of mercury contamination. Just like the Keshe Foundation project with Plasma Technology in the decontamination of Fukushima in Japan, can we direct a project to the Brazilian Government for the decontamination of these rivers in these regions of Brazil through Plasma Technology? We appreciate your guidance.

K- We are aware of this. And we've been aware of this for a long, long time. Long even before the Keshe Foundation was established. In nineteen nineties, I was taken by the Russian and Kazakhstan leadership, at that time President Nazarbayev, to look at the lake and how we can change the contamination of this lake with nuclear material. But those days Russians had no regulation and they dumped all the nuclear waste into one lake. And it's actually as good as walking into a nuclear reactor waste ?? pool.

And I was taken there by the order of the President, (1:40). in nineteen nineties, to look, to find a solution for cleaning up this mess, this lake. And at that time I gave a proposal to both, that time was Yeltsin. And that time was President Nazarbayev. How we can decontaminate this lake from nuclear radiation. Exactly what we did in Fukushima. Fukushima, wasn't there, something we're going to do. This was proposed years before even Keshe Foundation was established.

And it’s the same, not only with Amazon, with other places. The way I see it in my future work and collaboration with the Chinese government. These things need a governmental support, governmental understanding and intervention. And we see this as part of the possible joint collaboration between Keshe Foundation and Chinese authorities in the coming months and years.

You’ve got to understand, in Brazil, the government is not interested in anything, which is beneficial to its citizens unless is paid something in the back pocket of your leaderships. Be the governor, be it the district governor, be it God knows up the ladder. They only talk to you when there is something in their pocket. Otherwise, not interested, and indigenous lives are irrelevant.

The contamination has to be done on the scale, which is large enough and profitable enough to do it. One of the reasons when you speak about the Fukushima was, (1:42). interesting I was taken up by the Japanese government and very soon came as part of the share of a company in America, when the people who are inside the Keshe Foundation, actually working with Americans, as a friend of the Keshe Foundation in the background, took the technology to California and then from there made it into a share in the company, fake patent, and then became part of the assets of the Japanese. And there as Americans.

Where we converted the radiation into white dust gold, and then they start discrediting it, because it was not to be coming out, and they said, we heard nothing about it, the cleaning of Fukusima.

The cleaning up. This is not only Amazon, there are other places with worse conditions than this, it has to come with collaboration, of the new collaboration with the Chinese Keshe Foundation, the Chinese government, and the Keshe Foundation worldwide. What we call, science in exchange for peace.

It needs billions, otherwise, you're still doing what you call, "a cup in the ocean" job. And has to come as a process of peace, a process of gift. In a way, but in a way it's not a gift, we can do a lot of conversion into a lot of other things. The mercury, useful for both the nation and even the indigenous can benefit by it.

And this process has been tried and it works very well. If is given in a way that indigenous people instead of fishing fish and not having any fish, now they can use a condition to clean up, have a living, make a good life, and then do their fishing.

We'll look at this in our future talks and work with the Chinese government, and then I think is resolvable. (1:44). It's not I think, I know is resolvable, but it needs huge financing. And somebody in there that says, "we do it." And with the new policy, and Brazil being part of the BRICS with the Chinese government it is doable. And it's something I'm sure the Chinese government will look at it, in science and technology in exchange for peace.

Peace doesn't mean guns and bullets. Peace means peace of mind for its citizens. Be the pollution, be it the environmental, be it the natural disasters, that governments are there to do. We made a direct talk with the Turkish president in the past few weeks, how we can help, and with his people close to him with the earthquake disaster. And the first question was asked, how much is in there for us? Otherwise, there is no use even getting talking with you Mr. Keshe.

People are dying, and the others are lining their pocket. And this has to come from a correct government like President Xi, and the, what we call, the "Silk Road, One Road and One Belt," has to become one peace science, one peace technology and supporting of the government to do these things, that they can be done. It's not just. The same problems sits in China, same problem sits in Africa and everywhere else. It’s how we change the technology to become a financial resources, and what the advancement in technology can bring that pleasure to do it. And I've seen this many times with the Chinese government, even though they always do this for the benefit of the Chinese nation. But it brings a lot of changes.

And it's not the first time Chinese have been involved in these things. They go back years before even you heard about the Chinese participation in cleaning up the environment. (1:46). But in a way, financially beneficial to the what you call it, to the Chinese nation assets, or what you call it, interests.

I saw this in nineteen nineties, long before One Road One Belt came in. Where the Chinese in one of the big African nations. The French and the British dug a mine, opened a mine. They created, they took whatever copper they could take from a mine. As long as

it was profitable, and then they flooded it. And it became a huge lake, it was a massive lake in the country. And the price of the copper went from 200 - 400 dollars a ton, to nearly 4 or 5000 (a ton). It took a different shape, but it was a lake full.

The Chinese came in, made an agreement with the government, they made a few hundred schools, they made a few hundred hospitals, they built so many kilometers of the high quality motorway and other things. They emptied the lake totally, and start taking what the British and the French left behind, was not worth taking, to a very profitable copper mine. And they created a lot of jobs, and part of this agreement was for everyone, Chinese expert, 4 locals will be employed, and be taught how to carry on doing it.

But the mine, the area has been ?? useful for long term to the Chinese. So, in a way Chinese didn't need to bring people to work, they could use, and they were paid fair wages. This was the biggest strange thing with the British didn't like, that the Chinese were paying a fair wages in Africa. They were not living in poverty and the villages is more ??. (1:48).

I went to this lake and this area with the Minister of Transport who was a close at that time. We were on the Sunday lunch with his wife was running my offices, he said, Mehran, I'm going to show you how the Chinese are winning in Africa. And now this is possible that… It has to be something, not just cleaning the mercury. But it has to be, that it's beneficial to the locals in cleaning up the mercury.

Don't forget, you talk about the mercury in rivers which has come in. Some of these villages people, were the ones who went and created the mines, and used the mercury to clean up, to get the gold out. They never counted "down the road," it's them and their tribe will be effected by it.

I've seen this one in Congo. People go into the mountains, wash and try to find diamonds, and they create mayhem for the others at the end of the bottom line. Some of the regions at the bottom which gets infected with all these, what I call, hand diggings, and they get washed out and then they blame themselves for themselves trying to find diamonds.

So, there is a solution. Yes. But it has to come from a correct government with correct financing, and not with a bucket in the ocean. And we'll see in the future there is a bigger plan than these things.

Any other question? (1:50).

Q: .. Does the STM man travel outside of the Universe when traveling to another place?

K- It can. It does. How do you think the other Solar Systems and Galaxies created in other Universes? It's cultural exchange you call it. If you can create the field forces of the Earth, which matches in a given position and dimension in the Universe, you get attracted to it. You're preset to go there. Of course.

Earth is a nursery of Souls. And a florist does not care if his flower goes to China, to Holland, or to Africa. He likes to show its beauty and what he can do.

What's next?

Q: .. Good morning Mr. Keshe. See if my line of thinking proceeds according to what you said. Which is, quote, all teachings are to make us become part of the Universal Community and for Man to leave the village of Earth, to no longer be shackled with the repetition of certain actions. (1:52). Unquote. Could we consider being born and disincarnated and born again and so on as an addiction?

K- On this dimension of the emotion of the Creation, yes. But you're not incarnated as a dog or a cat.

Any other question?

Q: .. Mr. Keshe, regarding animals, and birds, etc, as messengers. My dog past three months ago, and when I had her at the vets, two days before she journeyed, I saw a luminous blue ring around her nose. Was she's showing me her Soul telling me she was leaving? And do they foresee their death? Secondly, can the Soul reincarnate in an existing dog that is already a year old defined time? I also experienced what you mentioned about your beautiful mother regarding birds, as messengers on two occasions with loved ones journeying. Thanks very much.

K- We always, in so many ways, know of the journey. And some of us are receptive to understand who goes through and who will go through it. (1:54). And maybe a light on the nose of the animal has been, as the Soul has expanded and created a field in that dimension and position that you could see. Yes, it's quite possible.

It's, we will like to think of it as possibility. Do they tell us? Yes, of course they do. But the same as I said, many times, we can accept Souls. But it has to be accepted by the Soul itself, to accept the Soul. Otherwise it's a mayhem.

And are technologies and knowledge's which can be used to accommodate, or to move a Soul which is not wanted. If one Soul goes in the Soul of another animal, and it's not welcome, he has to find a new place. It is a gravitational magnetical positioning, or you can create another condition to be favorable for ?? that form of what I call, ?? invasion, for him to be finding his own new place. But it needs a lot of understanding. And needs a lot of collaboration from the what I call, "resident Soul." Otherwise it doesn't work.

Q: Okay, we have two questions that are similar. So perhaps we can combine them. (1:56). .. In 168 and 169 KSW you deepen the knowledge about amino acids showing beautiful images made available by Dr. Klaus, and you explained about the difference of strength fields using different types of salt, and you talk about this difference of strength fields, that Man needs to understand to manifest in the Universe. Then you speak about the change in skin and eye color of the beautiful people, schizophrenic people, according

to the Soul that is present in the conversation, and that they absorb different field strengths and emotions.

Could you please expand a little more on this knowledge? And Jarad's question is, how to understand strength deeply?

K- We create manifestation according to the salinity. But you have to understand Man uses different words for the same thing. You call it, salinity. You call it, gravity. You call it, Inertia. But in essence, it's the strength of absorption that becomes balance with its environmental absorption, that leads to manifestation. So, when we manifest in an environment the salinity decides, (1:58). what we are manifested in the form and the shape in that gravitational magnetic fields.

If you made Gans's, sometimes you follow the instruction to the point, and sometimes something didn't work, but it actually worked, because .. you cannot see it, but it's in a different way. And you don't use the right salinity, or the right wire, so it doesn't work, I cannot make anything. At the moment we have this problem with a lot of our Knowledge Seekers who are trying to make these kits. They say they cannot produce, and now we have to change the plate, we do this, we do that.

But the fact is, for the manifestation of the fields you have two conditions, one is local, and one is environmental. A lot of you have Gans's in the house and you produce beautiful CO2 at the beginning. And then it goes to it nothing. Because, you know what you did? You took the Gans's out and you put it in the jar, you took it out, you put in the cup, you put in a cup, you put it in somewhere else, you dried it. But, hello. The distance between where you're trying to produce the new Gans's, and the ones you made before is a few centimeter, few meter. And CO2 balance in the room has changed. The guy is not any more hungry, so you cannot see production. Because there's nothing in the environment to create the condition of change. Even you did the same copper plate, you do the same Nano coating, you used the same salt. (2:00). But now changed the salinity a little bit, or add alkaline ?? to it a little bit and, oh, it started working.

So, you have to consider in every work two things, one local and one environmental. And when you consider this, then you become good in producing things. Otherwise you work in a small kitchen, you can't have all the herbs, and all the vegetables in that kitchen, it doesn't have the space. But you put one material, which has a very strong odor, you cannot smell the others. When you go in, you can only smell that thing, the kitchen, the smell of this, because I have a small pack of it. So it's not just what's in that small pack, but it's what creates an environmental condition to. And this is what you as Knowledge Seekers have to understand.

Would your Soul manifest itself in the dimension of P at any given point in the Universe, if the gravitational field strength in that position, or what we call, salinity is of the right order, yes, you see the Gans's, yes you see your Soul as a another creation.

You've got to take the knowledge a step further. Creation of hundreds of millions and billions of stars in one Galaxy, is no different than creation of hundreds of millions of the plasmas in your Gans box. Ask yourself, what field strength the Creator has used, that so much Gans's as the stars have created in this box of the what we call, Galaxy. That's all the Galaxy is, a box without the wall, (2:02). but containing a specific gravitational magnetic field or salinity, that others can match or manifest themselves in a given point, time, strength and position.

So, we understand very easily the implication of the question and application of it. If you create, which we start showing, and there are processes going on to be shown. If you take somebody kidneys out, or somebody born with one kidney, you can create the right salinity field strength, that the second kidney with all its connection will manifest itself in the body of the Man. You don't need a transplant. But Man's knowledge is not there yet.

Any other question?

Q: .. Would it be easier to understand the workings of the Universe and the Soul if we were able to get out of our bodies and experience it? Is this the purpose of the Enhancement Unit?

K- Yes, and yes, and yes.

Next question.

R: Okay, (2:04). you're running through these questions pretty quick here Mr. Keshe. One more open here, which is from Kurt from Germany. And the translation is, hello, Mr. Keshe and to all. Can you update on the Gas Electric Unit and the delivery of that? Thanks, and thanks to all of you.

K- As we said, we'll. Should be online to deliver in the second quarter. We had a lot of, as usual, "developments," and productions and other things. The Gas Production Energy, we've done the principal process, and then we found the easier way to do it and getting it done. But in the second quarter we should be able to deliver it. It's been made much simpler and even our own Knowledge Seekers who work on it to have not seen how easily it become. The production of these things doesn't take long to do, once our team complete the thing and then package.

It's like the what you call, the Plasma Home Enhancement Unit, the small ones, the gray boxes. We are testing and finding things, and then goes through the checking with what you call it, for certification ??. The whole process will be like this. The first unit to be submitted for production of the gas, and the what you call, conversion of production of electricity. (2:06). We produce enough, now it's just in a way, completing the cycle of the production. Producing the Gans gas now is as easy as drinking water for the Keshe Foundation people. It's just how to put it in the right order and the other things controls and the rest of it, and it'll be there in the next couple of weeks.

R: Speaking about drinking water Mr. Keshe. Do you think that people should be experimenting with cups and so on, that are for plasmatic feeding during this time when there's some experiments on your, at your end going on, with the plasmatic feeding and what not?

K- They can do whatever they like. What people do.

R: Would it interfere or have any cross interference?

K- No, Not really. It should not do because it's, you just created another condition.

In the coming time in our work with, where we will concentrate to develop. We'll provide a technology for creating water, rain. But one of my biggest fear has been, once you introduce this technology, knowing the greed of the Man, they will start using it in deserts. They'll still using it anywhere just to create rain. (2:08). And this will bring unbalance to the natural life of this planet.

Creating condition to rain for days in an environment using the plasma technology is as easy as drinking the water. But what I don't like to do to introduce technologies like this, is the abuse which bring massive changes in a very short time. So, water production is not a problem. Abuse of it is my biggest concern.

Unless we deliver what we did in past couple of weeks, with the plasma, we showed how you can satisfy and receive water as saliva. You .. had the feelings most of you. Then, yes. It will come worth doing it and releasing the new technologies to coincide and be part of this development.

R: About the creation of the water, or in the case of the feeding process, the creation of the saliva, the water of the mouth, or water of the body in a way. Was an interesting topic in the Keshe Plasma Reactor Group. I wonder if you can talk about that a bit, and especially in relation to the comment you made today called, the quote would be, "the superhighway of the H." And we know that saliva, (2:10). or water, or that Gans of water is H, O mix, supposedly. And we know that there's H in space, you said that many, almost a decade ago, or probably over a decade ago now, about the H atom in space, taking it, the fields of it exist out to, you know, maybe a meter around that single atom. And so because there's more than one atom of H, and in each cubic meter of space, then in effect, all the H atoms are in communication with each other, they're all rubbing shoulders, you could say.

So, it's same thing in our saliva. In the mouth, we have the H2O, and it's part of the information superhighway of the, what's called, the largest organ of the body, the interstitial fluid of the body. So, it seems like we have this superhighway both inside of us, and in space, and I'm wondering if you can sort of fill in the blanks there a bit, or am I stretching things too far?

K- You're stretching it too far, but not too far. It’s near enough. You’ve got to understand, saliva, or water it’s a tool, it’s not the end. So you decide how this tool will manifest itself as a water, as a saliva, as a field, which manifests themselves in a condition, that allows other Plasmas to float within it. We call it, liquid. (2:12). So we decide, or subconsciously our body decides the salinity and whatever we need and what creates for us.

This experience you most probably has happened with a lot of you, you're walking with your friends, they say, oh, we want to go to MacDonald’s, and you have no desire for it. But they clean themselves to go in. And you say, okay, I'll come in we will have a MacDonald’s. But the fact is, one of the people with you has the gravitational magnetical field matching with the odor, emotion level of what is in the shop. And you just are slave to them and just walk. I don't know why I’m here.

We create a salinity gravitational field strength, which matches to near enough, to somebody near enough to love, or somebody, or ourselves at the same time, feel the same. Oh, I wanted to ask you to go for a lunch. Oh, I was thinking the same, I say, I want to go there. I was thinking to go there. So, hunger brings a specific common denominator, emotion. And then by going to it you give the physicality, you and your friend. We look at the science of living in a different angle than the Man does, and that’s why it looks so strange.

Any other question?

Q: .. The Near Death Experience. What is not correct in this experience of people and different with the Keshe Unit? (2:14).

K- A big difference. We don't bring you near death, we bring you to near life. The life in the Universe, but connected to the physicality in the dimension of the STP. Near Death Experiences, just that you go through the whole process. But the last leg pulls you back with what the body has not decided for you to go.

Any other question?

R: I like that term "near life experience." And yeah, that's a good one. I don't see any outstanding questions. This is amazing. And no hands have jumped up, not even jump in Jalal. So I'm not sure what to say Mr. Keshe.

K- That’s good, we can call it an early day.

R: You even answered my question. So I guess you're really off the hook today.

K- That's good. We don't have to be three, four or five hours or whatever. We try to complete the process of teaching now that we have opened a new Pandora's box for you, what we call, the emotion. And the essence of emotion within the dimension of the

Universal fields. And then we'll see how Man can benefit by this, that it guarantees his return to the point source of the life where the original Soul was created.

Thank you very much. (2:16). And hopefully, we'll see you next week. And please, please let us know if you need any of the what you call, equipment clearly. And how many of them and whatever. And about what we call, the 100 cases, which are there, if you have any kind of ?? wellness for our doctors to look into. Thank you very much Rick. Thank you. See you next week.

ENGLISH TRANSCRIPTION

(:10).

K- Good morning and good day to you and as usual, wherever and whenever you listen to this series of Knowledge Seekers on the Keshe Foundation Spaceship Institute, we welcome you back. And as I always say, we welcome the new knowledge. What it will bring us, what will it change in us, and what it will be changed inside us, by the knowledge we gain from these teachings.

We have taught in past few weeks about the Soul, about the Universal Cosmic Rays and Cosmic Rays (CR) and everything else, but we took it to space .. (Break in Audio …..)

.. what will be interesting for us in this space of time, (:12). is what happen when you come in touch with another Soul. When you walk down the street you see the man, you see his features, he is black, he is white, he is yellow, blue eyes, black hair, whatever. We categorize it, he is Indian, he's Chinese, he's English, he's Scandinavian and the rest. In the space Man doesn't have eyes, that's for sure. Man even travels in the dimension (D) of physicality (P). As long as he keeps himself in a field, gravitational (G) magnetic (M) field of the Earth condition, we'll see, the same as he always does. Once Man moves in

the D of the Soul, once man moves in the D of the magnetic field of the Universe (U). In the Universe, how do we recognize another? How do we know, is it from that planet, or from this planet, or is it from a galaxy has no physical home, but lives like a nomad between the space gaps of the 2 planets, or stars, or whatever.

And in that process, the way we recognized the Black, the White, Chinese, and the rest. How do we categorize these people, these Souls? How do we interact with them? (:14). Or would the, by the experience of the connections to universal, what we call, pool of the knowledge, we instantaneously know who they are? What are their lives? What are their dislikes? What do we have to avoid? What we have to do?

I was talking to someone very recently, and I said using the Cosmic Ray Headphones, you cannot lie. When you see two people sitting opposite to each other, they speak the words. Sit them in front of each other with the silence, no word, with the two Cosmic Ray Headphones on their head and see if they both still sit. Am I fully in front of each other.

When a world leader sits in front of another one, and he has all sorts of what I call, devious intentions, in the word of the man he can speak perfect, I have no intention of doing this, and I have no intention of doing that, and we are doing this because of this. What will ?? the world leaders with the Headphones on each other, I wonder how they'll react. I wonder how you will react when you connect to the Soul, when there is no lies, when there is no covering up? No interaction of the Soul of Physicality (STP) in the dimension of the emotion of the man.

What would you do with the "Passenger of Universe?" How do you connect to yourself? (:16). How do you come to understand is this good for me? Is this not good for me? The others are not food anymore. So mentality of the man from eating, if he is a food, or is it a friend, or he wants to kill me, is gone, throw that away. Now it comes, how can I give to him, or to it, to become better than me, that my life, my what I do ?? has need, becomes a source of being for him to elevate.

We're coming to Easter. Tomorrow it's a Good Friday. And this is what the Christ did. He gave for the others to elevate, to understand the message. Were the human race "alien's" to him, that he had to do it in a different way. Or was it the way, that he could bring man to see what is the ultimate sacrifice? Giving the dimension of physicality, but knowing in the knowledge of him, he was transmuting in the dimension of the Soul. Where the STP was ?? with it, and then you call it resurrection. In a way, he appears in the dimension of the same, but in the same environment.

Now any of you today listening, and if you understood, can resurrect. We call it transmutation. In the word of the theology, it's a "resurrection." (:18). We are testing and trying. Now we have a system. We have a technology. We have a knowledge about the resurrection.

In production of material systems, we don't do anything, but to resurrect. We create the field. In the dimension of the "Wellness," we don't do anything but to resurrect. We copy

the field that the body needs, by the same brain to restructure itself. We have chosen the same word for different things under different disguises.

You take the copper (Cu), you Nano coat it, you create a Gans of it. And then by the use of the Gans you create Cu again as a dust. Many of you have done this. Have you become Christ? Or now you understand the science. But in that process of resurrection, you have to understand, would I become, when I resurrect, when I manifest myself, do I put my Soul in danger? Do I put the Soul of the others, which are in that environment in danger, as plasma of the fields create space gap, MaGrav space gap, the space and distance.

Now we understand, truly man has to come to understand about this own creation, and his own reincarnation. And his own truth, the way he is. (:20). The way now he can manipulate the field forces of the Universe to the benefit of himself, then what he has done on this planet. Manipulating the dust into bricks and (building) homes. Manipulating one thing to another to have something. Now man has to learn manipulation of plasma, which itself leads the resurrection, of matter the state of the plasma, or the condition that plasma creates.

But what would you resurrect yourself, in front of the entity which has no dimension of physicality except energy? Is the word the "ghost," is a good example of it. A phantom, till we give you the reality. We're going through tests in transmutation, or "resurrection," whatever you want to call it. Why do our passengers cannot manifest themselves, even though they are present in the room? It's very simple, the lack of trust. Trusting in one's physicality to manifest itself in a new D.

What will mankind do in the Space? On Earth, because of the condition we are in, more or less will come out of the same roughly, few bits here and there. You leave Washington as a man, you appear as a man in London. (:22). Maybe do the truth about the way your Soul works, the Energy Center works from the information it has with the physical body, MaGrav. In Washington and you got a black eyes and brown hair, in London you become blue eyes and blonde hair, because the Soul is "fed up," being that there. He wanted to try, to see how it looks when he is blond and blue eyes. Does he get, attracts attention? You know what happens if you meet a friend, who saw you there (in Washington) and he (sees) you here. And he says, "is that you?" Was that the intention to be, or the desire of the Soul, that you never satisfied?

There are interesting times ahead of us and from what we see in the coming time, conversion of the fields into the matter state, state of the man will be completed in the next few days. And in the next few weeks, we start the transmutation. Our scientists have to understand the technology (T) to be able to do it. We had to develop the technologies to be able to do it, and we are on the brink of that point. But the problem for you is, you appear on Moon in the body of the man there is no air, there is no water, (:24). but the STP of the Man wants to appear a man, as a man. Lifespan will be limited. How does the STP of the Man, is going to react and what Gans's it produces?

You have to remember something very simple. Many of you would understand something very strange today. I described this been teaching for some 20 years, today we unravel it. You put the Nano coating to create the fields, and you put the Cu as ?? Cu. You filled it up with the water of the salt, the containment gave you the limitation. The interaction of the fields gave you the Gans's, which took shape of the container. Call the Nano coating, the Soul of the Man (STM), and call the Cu the STP of the man. Contain it in the salt water of the body of the man, (:26). The Gans's produced will create the man, depending on the condition and the information you give it, of the planet Earth.

When you travel the span of the Universe, the STM will carry the STP of the man (inside himself), what would be the man in the space of the new "box," of new environment, where the salt, or condition of the interaction of the fields, creates the condition of the fields of life, in a given time, and space, and position. In a way, the teaching of the "Creation of the CO2," or any other Gans box, was to teach you about the creation of man, and the ?? time in space.

Now, it's you who has to learn. Now it's you who has to understand the interaction, and inter work between the two, and see how your Nano material will link in with your Soul, how would it be connected to the Totality, (:28). in reality of what we call, life of the man. Now, you understand your Nano coating Box is the man himself. We taught it this way for you to gain trust, to understand that the fields you can use, as a field, as Gans's, and then use as energy to transmute, to become.

If one understands this process, one understands what has been taught for past 10 years. Then it comes to one point, and one point only. Would I allow, would I allow my physicality (P) to be opened up to become, in a way, the Soul of the new life? And would I accept the condition? And would I be there to accept the condition unconditionally, where I only interact in respect to the environmental condition and at this point of manifestation, time is "zero-time," because it did not exist. You could be the first man in a given position. It’s your Soul, which it travels with the STP in it, to create that condition.

So now you understand. (:30). After years and years of teaching, and Gans making, and showing you how you put them in this, and that. And they give energy, and then you use them to make matter state, it has been all about you and your life, your existence, your physicality, understanding of the Totality. And when Man understand this, Man will have no fear of transmutation. You should have the fear of transportation, aircrafts crash, cars kill each other in transportation, ships get sunk and everything else. When you travel with the Soul, there is no ship, there is no cars to crash, there is no tankers to sink under the water under the oceans of the Universe. Then that should give you confidence, to learn to become part of the Universal Community. In a way of becoming the structure of this Creation. The only part of the knowledge for you as Knowledge Seekers (KS) that is missing is in depth, you have no knowledge of it, "Voilá, I go." But in the dimension of life where suicide is forbidden, is because in that process of the transformation … (draws lines of C12 & C14 connecting 2 circles)

<< Audio Breaks >> (:32).

… transmutation and transportation, which ?? have no choice but ?? with the carbon ??, the combination of the interaction of the field in a different dimension. Once you learn this, once you understand this, then for you to travel the span of the Universe, except a few times you get lost here and there, you appear as creature you never thought you could be, and somewhere they dumped in the ocean of the fields that you couldn't imagine you could survive, but you're still there, and it took you a few thousand years to get yourself out of it. But you get out of it at the end. But then you find out, I can transmute myself back to it. Even though the planet you left a thousand years before has changed. Man maybe have become more civilized. Anything is possible in this race of the Man, it's unpredictable.

So, how much trust do you have in going from one to another? But knowing that it could be a different feeling of understanding of transportation and transmutation, appearance at the point of the time and the space anywhere in the Universe? Then Man will let go. But you have to practice, you have to learn step by step, lose the fear. Lose the fear of getting lost, lose the fear of, "I'm won't (be able to) come back to Earth." You don't come back to Earth when you die, anyway. You have a connection with it, but you can't come back. You're a seed of a star, trillion lights away according to the Man's present knowledge. Light of darkness of the knowledge Man calls it's the light years gap. (:34).

Ignorance has given credibility to stupidity. Excuse me, can you explain to me how many light years my Souls is on the way till it get to the point of its manifestation? Would I have enough energy to last 10,000 million years for my Soul to arrive at the destination? Man has not understood the science of Creation has created a fallacy about the science of himself, and limitation of its own understanding about the Creation of the Creator. Can you imagine God sitting there for your Soul left the Earth 100,000 million light years ago to arrive at its station to create another half a billion years, and millions of years a new cycle of life? No wonder one of His attributes is patience.

Now you understand that for you is to learn, to understand, to trust about this point of transmutation, using the fields of the Universe to arrive in the dimension of physicality, or dimension of the Soul. But I show it, that you understood in the dimension of physicality, you're welcome to burn carbon and fly. In the dimension of the transmutation you're welcome to not burn a fuel, (:36). but travel on the magnetic field of the Universe. You're ?? a saddle bag. This is the reason why some of you see (think), when I go through the transmutation I just become a pizza (delivery), I don't move, I don't shake, nothing happens. Yes, the Soul has left, goodbye. You're just sitting for the physicality to move itself.

Now, mankind has no choice. Now mankind is shackled with the dimension of the Inertia of this planet. And now Man has to come to understand the Totality of his existence. Why he is connected to water, and water is the life of Man? In a way, mankind has passed the exam by cheating too many times, ?? dying at about 50 - 60, until somebody comes and, "oh, would you like to have a Bible to read, to understand?"

We have to come to the point to have trust, because the next step for Man arriving at a point ?? << audio breaks >> interacting with another Soul << audio breaks >>. How much I can take? (:38). And these two are not of the same strength.

The time, the place and the condition of life becomes independent of physicality. But essentially dependent on the Man's intelligence to understand the condition and the position of where P manifests itself. How can he befit the two? How can he put the brain back? And how fast can we educate the rest of the humanity to become part of the knowledge of understanding?

And then how much of the C14 you want to have the mixture with your C12 to get to the point of destination fast, but don't go through it, because then you have to have more energy ?? to get ?? then you're back where you started. Mankind has to learn to separate the two line of communication of P and the Soul, the condition of the C14 and C12. The existence of within, that in combination of only and possessing, one place with the dimension of the plasma. And one the other place in the dimension of the matter state of the same plasma. You call it, the body of the Man. (:40). You call it, the controller, which is STP itself.

In the coming time, we will release technologies, which will give more confidence to people.

In the coming weeks, Keshe Foundation will run a one week, ten days seminar. Selected 200 people will be invited to the seminar for a week, 10 days. For them to start the first process of understanding, transmutation and transportation. In this process, not many of you will be left out. It will be taught in a proper way, that in the future you teach the proper way. The 200 people we choose from those who apply will be limited to another session of one week, with 65 of the 200. To be taught the second stage of transmutation and transportation. All this will happen in the next few months. The combination of the two sessions will prepare this first cycle of people, that are ready to become full time passengers of the planet Earth within them. (:42). We'll teach you in depth this process. You're not coming for a holiday, there will be a lot of sweating and a lot of work.

In a way we teach excellence, and in a way, those 65 will become the point of reference for teaching the others the dimension, in a way, losing the fear of transmutation. Many of you will come to become the teachers of the next cycle. And then we choose amongst you, those who stay to become the Keshe Foundation Space scientists. We are not looking for PhDs, we are looking for understanding, work, transmutation and transportation of the STM. In the space we have no PhDs unfortunately, and no ??, and no University.

Those of you who want to join, this is an invitation of the Keshe Foundation, and not by manufacturing, or the sales side. We choose step by step, and we will bring the 200 together step by step. The first 20 - 25 will be ?? in time invited in the next few weeks, (:44). to join us in this program. Those will be taught to teach the next cycle what we call,

the 200. And amongst those we will chose the 65. If we can achieve this rapidly, we complete. So, in a way, we are looking for the first 25.

Then as usual with the Keshe Foundation, we decide very rapidly. We close the request, the name, the address and whatever, by this Sunday. We did this some years ago, we taught MOJHANS. We did this the years before that. We did, the Knowledge Seekers joined me, 6 of them, 8 of them, for a few months. It's time for Man to learn, it's time for Man to do the next step. And it has to be done, it has to be sorted. In a way that now the systems are getting ready to go, we don't wait, we are ready as the systems are ready. I will choose the first 25 handpicked, on my own.

We have to wait a few seconds, apparently Rick has run into problems, he cannot hear us. (:46). Rick, do you want to restart or do you want me to carry on as the host?

For those of you who will join in the first 25, if you join the Knowledge Seekers teaching in ?? Tranni (Italy), it will be a hard solid week. It's not a holiday camp. It's as you've been when I teach, it's 9 to 5, 9 to 5. By then you will understand the next step of understanding. Then, when we choose the second cycle of 200, it will be split, that it's understood thoroughly. And then the 65 out of the 200 we teach, will be chosen in a specific way, that represent the Totality of mankind. Race, religion, creed, color, and everything else which goes with the separation of mentality. The first 25 we close this Sunday. As we would like to start the sessions around August, (:48). as a cycle of completion.

And maybe in September or November we do the cycle of 200. And then we do before Christmas the 65. By that time, many of you should have been through the transmutation and transportation. And then we go to the process of mass teaching in the coming year. We chose the 25 very carefully. And we in a way, closely get it vetted, that we know people who come are not just there for what I call, testing. They will bring commitment. And as usual with the Keshe Foundation, these kinds of things you have to cover the cost. We put the time, the systems, the effort, and you pay for it to become a student. I close the 200 by next Thursday. And by… for the 65 we close that in around October, September. You'll be told, you're chosen as one of the 65.

Your life will change, your understanding will change. And in a way the process of the what I call, the next cycle will start. (:50). You'll be taught the works and the life in the space. What you've been taught in past few weeks about transportation and transmutation was fundamentally taught to the what we call, MOJHANS, five or six years ago. And gradually has phased into. This time we don't have that time. And it has to be done very rapid, because part of the technology completion has become very rapid, and we've got to complete. Those of you who want to be part of the first 25, you will have to complete everything by Sunday. We have a reason to put such a short notice on it.

Nothing will be on the Keshe Foundation website on this, because on the Stores and the rest, we are not selling a product, it's a knowledge of the Keshe Foundation. You have to get it through the Foundation, that is not something which the sales what you call, as a

part of the structure. We have valued these teachings as totality at 10,000 Euro. You can pay for it. There is nobody not to go with it. There is no credit store and the rest of it. Once you are invited, (if) you don't take your place. What you have paid for goes to another person.

In a way, I know one of you 25 will fail to turn up. (:52). And it keeps to what we planned, at 24.

You've got to understand, your life will change beyond recognition, for you and the way you live. Everything what you have done will have a different meaning. Everything you could imagine, Man will achieve in the space will start this cycle. Most of you will become the first transmutation transportation people, which the Keshe Foundation will take over.

We are not sitting to go to the next phase, we go to the next phase directly from the beginning. Our systems will be ready for the first cycle, and the second cycle, and completed for the 3rd and the 4th. Some of this work will be done in conjunction with one of the governments in the world, which means a collaboration between the Keshe Foundation and a nation. (:54).

Those of you who come to be the first 25, you will understand it's not a week of just lectures. It's the week of the change of the STM advancement, understanding, progress, understanding the totality of the what we call, transmutation. And then how to transfer it. The first 25 people then become the teachers in conjunction, in the way to understand for the other 200, in a way to become the bigger cycle. The beauty of it is that the 65 will be chosen by you amongst you, not by us. You collectively as a 200 group will decide who you see to be serving the humanity for the transition of the ?? time. This is the way we chose the members of Universe Council. And it will be the same for the passengers of the Universe. (:56).

We allow, we have reached to that point of moving on and completing the process, and start getting as we say, "your toes in the water." You'll be taught everything is needed for you to complete the transmutation and transportation of your own Soul and P. And you have to be able to ??. The reason for it, we do it in the numbers and the bigger numbers is that, to take the taboo out of what we call, "celebrities," that (only) certain people can do. And those who getting chosen by 65, you become a life long, life teachers of the Man to become Man of space.

As I said, our plan is to establish the first colonies within next two years with the government of China on the Moon and Mars. These two destinations will be your what I call, "practice field." In a way, we are training the new cycle of Man to learn, to test, and to move. And instead of putting you on the run, on the runway to test the flight, we give you planetary ?? because even the Earth and the Moon will be so short. But at least it gives you a dimension of knowing what to do. (:58).

We will establish bases that you can still manifest as a Man till you learn how in a new dimension, when you move out of the colonies, that you can live a life on "Planet Moon." And the same with the others. Our work with the Chinese government will be thoroughly examined a step by step. And it will be placed on the condition that we provide all the technological background for the need to establish the colonies. And then from then on, you've done your "driving test," you can pass, and you can take the dimension of the course of the Universe. You decide where the next step will be, not us.

It'll be interesting during the time of these sessions, how many of you will choose to be at home at night, and come to the sessions during the day. It does not matter where the home is, California, Tokyo, Beijing, Tehran, or whatever. We encourage you not to book a hotel. As you can go home and come back. There are no accommodations supplied for the cycle of the 200, especially the 65. (1:00).

We are ready to go, and we have taught you everything you need to do, the equipments are ready, and Man will become the "Passengers of the Universe." Then in a way, see how many of you can do what the Christ did, to resurrect. Don't be on the way for 4 days with the rocket, be there in 4 seconds by the knowledge of your Soul. As I said, the serious play has started. Because the equipment to allow the STM to expand and manifest itself is completed, and it's near completion in some other angles, that will come in the teaching in the future time to come.

Understand, those of you who come, we invited to come to these sessions, that you're coming for a life experience change. And I hope, as we said, in 2023 we'll take Man into space, the true space, without the monkey clothes and space suit, but through the space of the STM.

Then we start teaching you other dimensions and other what we call, knowledge that you need to know what to touch, what not to touch, what to take from and what not to take from. (1:02). And these are all fields and not animals for you to eat. Remember the experiment, which was done by Alekz years ago, he wanted the orange juice in the morning and he took the orange juice. And he wanted to get drunk, with the same water he got drunk. It's the field energy that makes him drunk with the knowledge, and not alcohol.

Understand that we have entered the true time of space. We commit ourselves into a new space development, a new understanding and new systems. And many of you will understand how to process this on your own. I wonder how many of you still want to go to the Moon on a UFO. And how many of you will go to the Moon by the knowledge of the Universe.

I see Rick still has a problem with what we call, recordings or the voice.
(Some problems with showing commercial videos >>>)

Break >>> 480th KSW April 6, 2023 (1:12).

K- I hope you can hear me and we wait till the Rick comes back. If you raise your hands, we can promote you, if you have any questions to ask. Can anyone hear me. Can you type it in if you can hear? Okay, thank you very much. Are there any questions or do you want to wait till Rick appears that we can promote you to ask a question? As we are recording on Zoom channels then nothing will be lost, everything will be kept and recorded on different channels, YouTube and the rest.

In the teaching of today we try to bring a new dimension, we try to bring a new understanding. If you can write it here in the Q&A, on the Live Stream, which I have access too to answer your questions. If you cannot, raise your hand. (1:14).

I have no access to ??. There are two questions.

Q: .. Can you consider thought a voice? In the science of silence of the thoughts at the time of intention for the elevation of the Soul of the world leaders, is it important? We appreciate your guidance.

K- When you say if the thought is a voice, in the dimension of the communication that's the only thing you hear. (1:16). Thoughts are creator of emotions. The same way as you think in the physical dimension, so does the Soul. It's a process of interaction. So, yes, you hear it in dimension of the Soul. You interact with it, with the dimension of the Soul. Thoughts are field based generated entities, and yes, it will be ?? trans ?? as much as the emotion.

The new Enhancement Units, what we call, the Head Units, will bring a lot of diversities, a new insight. What I call, we could not see till we created the night vision glasses, and we see in the night. We will have the same with the new tools. Man, will see what he has been blind to in the dimension of the emotion, in the dimension of thoughts. And this will become very, very clear in the first stages of even during the transition of the transmutation and transportation.

Which one is real? Which on am I? This was the dimension of physicality, now I'm in the dimension of energy, or what we call, plasma. These will be the cycle that you will all go through. (1:18). It's very much when you wake up and say, am I still dreaming? Am I walking? That's a condition which come in it. And then you have to think, these thoughts belong to the dream, these thoughts belongs to ??. And where do they match? Which emotion is the reality in which dimension? Because they're both real.

And how would I react in the dimension of physicality when I in essence get the information from the thoughts and the Soul? Nowadays, physically we touch, and we carry emotion. What happens when you're in a position that physically touch, and the emotion is different than what you think? There will be no mistakes. There will be no misunderstanding, what is the intention of touch? What's the thought behind it, because this both will be clear to the Soul and the STP, and P which carries it out. I had no intention, it just happened. But, excuse me, the Soul at the dimension of the thoughts says, that was the intention. You cannot lie anymore. Life becomes much easier and much more transparent.

Q: .. Mr. Keshe, question on the Knee Gans. I'm no longer in pain when I do any physical work. My question, are other will have the results as well. .. Antonio?

K- This is a magic liquid, (1:20). and we're getting the same answer, yes. Monitor that you don't use it more than 7 days. If you leave the water on the skin, this will take up the imprint, and it's there. If you get a pain just goes away. And then when it comes to repairs, the time of its, what we call, work. It's nice to know that you got the results you were looking for. But you have to understand where the cause of the pain is. Is the pain, is to do with ligament and cartilage? ?? We need doctors to monitor it, that it's changing, it's going to where it should be.

Q: .. Because the brain has an emotional part and a physical part, what makes and condition this, since the two sides have very similar structures, physical aspects?

K- They're not. .. There is a huge difference between the structure of the emotion and the physicality of the body of the man in his brain. Even in dimension of the fields. .. And because we never had the knowledge we analyzed things in the wrong way. And most of it we haven't seen even to analyze, we don't have the knowledge, (1:22). we don't have the tools to analyze the real condition, the real ??. And in that essence it's ??.

The emotional part, and the physical part. Emotion has a dimension of plasma, physicality has the dimension of matter state, but in the plasma condition, which is a very different thing. You still touch the Gans, but these Gans's, everyone has an interaction with the one next door, the next cell, the totality themselves in the system. So there is a big difference, even though one is the Creator of the other.

And it's very much, it's like the interaction of the same, creating the same, and then a new dimension. You have the magnetic field, and you've got gravitation. They interact, this creates a mass. But in creating that mass, they interact with what created them in the dimension of the field strength of the planet, then you get the Inertia. Then you get the weight interaction and confirmation of one to the other.

And so, this is the way the Universe works. And the sooner mankind understands this, then a lot of what I call, misinformation, lack of knowledge, will be sorted. In a way you cannot ever in the world of the Creation take one interaction. Because the minute you

create an interaction, (1:24). this interaction itself, interacts with what .. created it. And this gives you a new dimension.

?? Who push up the gravity creates the mass, and the mass is independent, because when you have two plasmas their mass is always interacting the same way. So, two similar conditions, so it's constant. It doesn't matter if you're on the Moon or on the Earth. But when you bring in the Inertia, ?? play of the same fields in a different dimension, then you get an interaction with environment fields, then you get weight. That's why you weigh different.

It's the same way the brain. Brain has a dimension of physicality for physical connections and running, but they themselves interacting, creates emotion. And then when they interaction of the emotion comes back to it ?? , and you get a physical reaction. But there's still another dimension, now you created a new dimension.

What this Man has not ever understood, which this itself now interacts with the STM. Now, you have an Inertia of the Soul. You have manifestation of the fields in the dimension of Soul, and that it gives the what we call, the emotion of the Soul in interaction with all other Souls. You are as a Soul, that ?? once remove ?? Gans of copper (Cu). And there are millions in there, and you're interacting with all. If I move you the others move. If I squeeze you the others react in the field dimension. But you might not see anything in the physical movement.

So, you always have to learn, one has to always consider, you created a plasma field, but this plasma field now interacts not only with the others, (1:26). interacts with its own creation, or what creator as well. I explained this in book number one, if you understand it in the dimension of the weight and mass and Inertia. Then you understand there is no end to it, it's just what you take out to be. Which field of it interacts, which doesn't.

This will come to life when you go into the cycle of transportation and transmutation. You see a field, you feel a field, does it interact with me? Or is it a field, which I have no common denominator, connection with, but it interacts with dimension on my magnetic field of my Soul, in a specific way. I react to it, I go less to give you one, or take the other one, then he takes what he needs from what I'm giving, because I was given too strong, and it doesn't need it. So, he reacts, that interacts with my reaction, that it allows him to be fed. This is part of the process of the feeding when you come to it, then you'll understand.

Q: .. Can you give me .. more information on the preceding of Dining with World Leaders? What can we do to support the process?

K- Not much you can do, except to keep on the interaction with what you felt during the process. (1:28). Establish a new line with other world leaders and force that position. And Keshe Foundation has taken a direct action in this matter. And we stay on course to see the world leaders coming to the point of agreement of the world peace. But through

science and technology, delivery of the new sciences which makes the old obsolete and it brings new dimensions to Man's work.

You've got to realize when we deliver to the government of China a technology which makes nuclear missiles obsolete, who is the superpower anymore? Superpower over the "bowl of soup"? There is no superiority. When you deliver technology which the tanks, most advanced tanks have no bullets in them, cannot fire anything. Where is the superiority and ?? ? Isn't it that the tank driver gets out and goes to the other one, let's shake hands, we can have dinner, forget about the ??. What's the use of sitting here, and pretending you're sitting in big things.

Advancing in technology will change the course, which makes the old system obsolete. I was explaining this to a very powerful politician in the past few weeks. I said to him, do you know what's the difference between me and Da Vinci? He said, no. I said, I'm not a painter, that's one thing for sure. (1:30). But Da Vinci went from leader to leader in Italy, to sell them the latest weapon technology he could get, and they'd be better to kill. To be better than the neighbor next door, and take their territory.

I deliver new technologies to world leaders to create peace with it. And to see who's more powerful to create a more peaceful time. Then my problem is not mine, it's theirs. Because superiority in knowledge brings wisdom and what we call, humbleness. And this is the difference, where we have to deliver through our Soul. You are all involved in it, not just me anymore.

To change the course, through the Soul of the world leaders, how many of you put your head down in past weeks and months, and you've supported the Soul of "so and so" as a leader? But you don't see yourself to be at that point, maybe your Soul is even higher than them, in the strength that you carry, and it's your job to give.

The change of the course will come as many of you have seen. And we not only change the Soul of the world leaders, now we are giving what we call, ?? creed and knowledge to it, that makes the new what we call, advanced weapon technology obsolete. And when you do that, we have no more Superpowers. We only have powers to create superiority in knowledge and peace.

So don't think, what can I do. (1:32). If a leader comes to your mind, give to him. Make a habit (of it), that they need it more than anybody.

<< Rick adjust his audio >>

R: Well, I've had some issues after the power suddenly went out and for some reason my powers power supply that normally kicks in for a few minutes just did died as well. And something happened to the sound and all that and altered things. I'm having trouble getting it all to come back. But I think I have it working now. I'm broadcasting to live stream.
K- Okay. You take over.

R: Thank you.

K- .. I have a private message regarding the 25 people and 200 people. (1:34). You still send your confirmation to the usual channel info@keshe.foundation. … We'll get the information and then any other channel usually correspond and you get a response back from the Foundation, those channels will be opened and be tested. I was asked the fee of 10,000 Euros. This will cover a lot of things because systems have been developed and there are expenses to cover for the systems. There are going to be more systems and more things. And as a Foundation we do not ask for funds from outside. So as Knowledge Seekers you ?? know.

The ones who get chosen for the first 25, will go into the second session of the 200, with no, what we call, the fee to be paid, so it's just carrying on forward. And the ones who gets chosen for the 65, you don't pay any more fees for the final sessions, you'll just get added into the structure.

As you remember when we chose the first eight Knowledge Seekers in 2013, we went through every single one, we try to be correct, that we don't take our prejudices about one nation, or one color or one race or whatever. We ended up with murder attempts on me with poison by the Knowledge Seekers who we allowed to come in. (1:36). This time, we are very vigilant and we'll use national security clearances for those who attend these conferences. And on top of it, we use the technology of the Keshe Foundation to understand through the Soul.

So, if you are and you want to be part of it, especially some of you from the first 25, might end up to go to the end of the 20 what you call, 65 people, it's just that one fee. There is no more. And this has to be concluded by this week, we have a structure, we have a reason for it. You enroll, you send your (request) "I would like to be." We do the rest of it, and you will get a communication from the Foundation, what to go and whatever. Your fee has to be paid directly to the Foundation. There are no ?? fees, it is as a donation to the Foundation, the Foundation providing the services in the background to the whole lot. But this all has to be completed by very, very, very rapidly in the next few days. Because we by experience, when we leave it, it just drags on and people come up with other things ??.

We try to accommodate most of the students on summer holidays, that you can accommodate to be there. It doesn't take part of your work, that you have time to do it. And some of the work will be falling with you, in back home. And we are on course to do it. And some of the 65 where they all go to become the residence of what we call, the program which is sitting with the Chinese government ?? colonization. So, we train and we carry forward. We train and carry forward. (1:38). And the Knowledge Seekers trained by the KF will become equal to the Knowledge Seekers provided by, what you call, the scientists provided by the Chinese authorities. We merge the Knowledge Seekers with the nations support. And then that's part of our work to do.

A lot of this will take two years to complete and process. So, if you come in at 25, more or less you're committed for life to serve. Do not come in that I become for the week. We gradually train you, we teach you. It'll be commitment for life to serve humanity. This step will go there on to the next step and the rest.

We are not a sect, we are a scientific organization, and the science has been taught by the people who feel it, and live it, and they can transfer it. So, many of you will join at this point into the programs of what we call, Knowledge Seekers. At first to define the Knowledge Seekers to be, and then the 200. Many of you enter a life commitment to serve. It's there to be done. Most of you should have seen this coming months ago, and now we ?? are on it, (1:40). And we act upon it and our what we call, Knowledge Seekers are ready to go to the next step.

If you notice .. why chose 65, it's one Soul for every year I lived on this planet. At the present time, and this is a gift to humanity. ?? Candles of knowledge. It takes time to mature into it, and it's not there, "I come to do - to go."

You can sponsor others, you can sponsor yourself, but once you sponsor you have to understand they have committed themselves to a bigger change. You've got to realize as we're going entering a new phase of development technology, as you tested with the world leaders, as you tested with the food, there'll be more and more people who will see no reason to be on this planet to suffer so much. And as we provide the technology to become passenger of the Universe. In the U everything is created and available, why should be the point of suffering for the electricity, the food on the table, a place to live, where ?? our place is in the Universe. (1:42).

The uptake of transmutation after the first cycle and the ?? of the Knowledge Seekers will be ?? horrendous. Many people will not want to be in the dimension of P of this planet. As a friend of mine said, every breath we take we pay taxes on it. As they say, taxes, birth, and death are the three guaranteed things on this planet.

From now on birth is guaranteed on this planet. Taxes does not exist in the space, and if you understand the dimension of the expansion of the STM, death is a long, long way. And as we provide and clear this technology for more and more, you will understand more and more, people will go through it, ?? want to be part of it.

Many of you will say, I have a cancer, I'm dying, so at least I'll do this. It doesn't work that way. It's not an escape route.

Any other question?

R: I'm just wondering where we are in the Q&A here. Have you covered the fruit fly question yet?

K- No, we don't want a fruit fly. (1:44). Is that the question by Antonio. .. I saw it.

You can do on the health@spaceshipinstitute.org too, if you want to join in, you can choose everything. .. The channels are at foundation, and health@spaceshipinstitute.org these are all open. We go through it very rapidly over the weekend, and do not wait for response back. Go through the process of everything which you need to be done, and you get informed.

Remember, we already know the Souls which are going to join us. I cannot put it any better than this. We know those of you who will be part of the 25. And if you feel that you have to be there, you're already chosen to be there.

Send your request complete. Don't forget, we need two things from you, your email address and a telephone number. A lot of times when the Keshe Foundation responds, our response goes into your junk, if we don't get a response from you, we can call you. Make sure you include in there, my name is whatever, telephone number, email, I want to be one of the 25, make your payment to the Keshe Foundation Holland only. Not to PayPal, not through other channels, which the Keshe Foundation usually pay. This is a program through the Keshe Foundation International, it has nothing to do with operation. (1:46). These all come in as a donation.

You'll be called to join in and then we start with a consent that it fits all 25 of you to be at a place, and a position. Then, after that week, we go into the 200. The same will be with the 200. Those of you who come for the 200 you have 1/3 chance to become one of the 65. So, understand the commitment to the next session.

Those of you who joined us in the teaching from Trainni and Barletta (Italy), you know, when I teach it's nine to five, it is nine to five, there is no gap. And it's download of information, technology, understanding and everything else. There is no space gap, there is no, "we are going for something." You come in and we take you right through it. We are not putting you to become MOJHANS, you already have learned everything to go to the next step.

You become representatives of the STM. And in that process, you will learn a lot of things about yourself. You will learn how much you have changed. And you will learn you will live the dimension of the STM, more than the dimension of P. Transportation and transmutation become part of the natural process of life for all of you. (1:48). This is why I told you, don't tell us, where do we book a hotel. You go home, you come back next day. Home could be Los Angelis, home could be Beijing, home could be Tehran, it's irrelevant. There is no booking, hotel booking, is not our job. You have a home. You come to school, and you go back home.

We go through this process and make you ready for the first cycle of transmutation. Please make sure you understand what is to come. It's elevation of Soul, it's the knowledge which is within your Soul to become interactive with the work which the Foundation set up to do.

If you want still to be part of the 200, make the same commitment, do the same straightaway. Because once we take the first 25, you go into the 200. We will not judge a Soul, we will not judge a Man. (1:50). Your Soul will be judged by itself, and if you have that, and you feel that, commit yourself to it. This is what you've been waiting for, is on the table.

Technology has matured to the process of the conversion of energy to matter, and the matter to energy. STM to STP and P. You've got to understand something very interesting, is that when we start making colonies on the Moon or anywhere else, we cannot create rooms by continuous rotation at "1G" that you feel as human ?? on Earth. We create condition through magnetic field forces the same as Earth as "1G", which is a totally different concept.

There are no bricks, and no centrifuge. Then you're allowed to go out to test how your body will change. Would you have 10 legs and 20 arms when you go into the space of the Moon or Mars, or another position. All these now is a reality to the Man to go to the next steps of space exploration. We explored space with the physicality of the Man, and we still "rocketing" it. We travel with the dimension of knowledge and energy of the STM. (1:52). And we are "Souling" it, and it's you who have to ?? and it's you who have to make that step.

Any other question?

We're going to finish this session round about 5:30 I have to be in a meeting. So, if there's any question three is about half an hour.

R: You didn't want to address the fruit fly situation there. Is that true? Or would pass on that question?

K- I know this question. Do you want to read? It says, Mr. Keshe in the area we have a problem with fruit flies which destroy our fruit. You want to read it?

R: Sure. My thought comes for the next season I was going to try Cu Gans with amino acid, but then this may affect the bees which is necessary for pollination. So my question is, is it possible to target one insect and not the other?

K- Yes. I'll write to you separately, how to do it. It can be done, and it is very, very effective. Mr. ?? we'll talk about this separately. (1:54).

Q: Lynn .. We have a question from China, they say, do I need to go to Austria to attending this 25 or 200 cases of this transmutation?

R: I think your microphone is off Mr. Keshe.

K- Yes, you're right. We will not disclose where the 25 will be and the same will be with the 200, the time and the place. It will be somewhere around August, July, August,

September and it could even be in Beijing. It could even be in Austria, it could be anywhere. But because there's a process we have to set up. Some of you of the 25 will be taught and brought into the cycle for the last five what you call it, the last session of 25, weeks before, days before.

We will prepare you when you arrive. We don't start from zero. We have the systems and in a way you'll have a preparation prior to wherever we decide. (1:56). There should be no problem if you got to be, wherever you got to be. Just because you're Chinese don't think you have to go somewhere else, it could be in your own nation.

We are committed to the Chinese government development of peace, and in time in due course we will establish a permanent representation in the Chinese government. So, don't think Linz will be the place where you go, it could be anywhere, even be Shanghai.

Next question.

Q: .. How do you explain the formation of light in "eggs" LED from a Plasmatic point of view?
K- I don't know. I don't know what he's talking about. (1:58). …

Q: .. In the last teaching you said that you cannot travel through the Universe, because you are the Universe. Is this like a mirror, we have the same inside as we see in the outside, Earth, Moon, planets? Or please, can you explain more about this? Thank you very much.

K- Repeat the question …. (repeats question)

There's not much to explain. It says what it says, it does what it says.

When we speak about the light, most of the time is the light of wisdom, and not the light as a vision. And it's an enlightenment, understanding. And all knowledge is inside the Man. And when you have the knowledge you have already traveled the Universe to gather that knowledge. But in a way, as a STM you (are) connected to the collective knowledge of the Universe. (2:00). It depends how you call it, to come in.

It's very interesting, many of you in during these trials will face this, you have no choice. "You are in it, as we say, to the neck." When you go through this process, many of you will never talk to each other. Many of you will understand each other. None of you, if you do it the right way, need any translators. If you're here to be part of this group, you already will live through the dimension of the understanding of the knowledge of the Universe.

How do you speak with the person from planet Zeus, they have no alphabet, and there is no voice coming out of their body? So, you don't have that language barrier. You don't have that what I call, cultural barrier, because you carry everything within you, because you have access to Totality. It's a different ball game what's to be opened up.

And the reason we're doing it in these numbers is that we can't have suddenly 25 Methi's, and 200 Methi's appearing. This is a collective delivery of the what I call, knowledge of the Universe. It's an interesting time. Very, very interesting time. (2:02).

Remember years ago I said, I'll bring you to see the Soul of the Christ, I'll bring it to meet the man. And many of you who went through the EU met the man, felt his Soul. Some of you touched him, told us the color of his eyes. Whatever I say, I fulfill. It's just that you have to understand, you've got to be ready to understand.

This weekend is a what I call, the celebration of the elevation of the Soul of the Christ. Many of you wished for a long time. A couple came, they just came to see, to feel the Christ, and we did. And that's the promise I made, and many of you came and you ?? did. And now it's the same, the next stage. Above what was done by the Prophets, which makes, does not make you a Prophet, but makes you enlightened to understand the knowledge of the Creation. We can't, we won't bring six or seven and make them ?? this. The large numbers take the hypocrisy of prophecy out of the whole work.

Any other question?

Q: Is the STM in a gas state? As gas not Gans state.

K- I don't know. Test your, get yours MRI and have a look at it.
It is always in a state of plasma. (2:04).

R: Always in a state of plasma. It's interesting. Okay.

K- Of course it is, it can't be in any other state.

You, Mr. Rick Crammond, years ago showed it, but never understood it. You filled up your ball of Gans's of water, and it became hollow in the middle. You created the soul of that entity. You took it as hollowness. I took it as a STM, because it made the decision ?? place in that structure. It's not interpretation, it's understanding.

In most of the cases with the work of the Universe, the heavier, denser material have a smaller combination of structure of souls. Depending how that material is done. The much lighter and non-denser have a different, what we call, structure. And this is why man needs such a small position, some of it micro millimeters, as position of the Soul. You've got to consider the feedback and interaction of the fields, I just explained between mass and weight and the rest of it. (2:06).

I just received a private message. Please if you have decided to make the payment to the Keshe Foundation in Holland. And it's got to be done, more or less for the next few days. We go by the numbers 1, 2, 3, 4, 5. And in that order completed you will be invited. There is no lottery draw, there is no, oh, I was there , and you were told you are the first

25 or 200. And then it’s your responsibility amongst you to choose the 65. Then the rest will follow as ??.

You’ve got to understand, when you are in the first 25 you will be with me around the clock. And you will be enlightened in direction of the STM. The same as when you came to Tranni, as Knowledge Seekers. You were there 24 hours a day. We're there to bring the change.

And the Soul of Mitra will be amongst us. And in that process we will bring in massive changes.

Any other question? (2:08).

Q: How do you explain the formation of light in an LED from a plasmatic point of view?
K- What?
R: The LED is what we call, a light emitting diode. How do you explain the formation of light in an LED from a plasmatic point of view?

K- It’s a physical matter point. LED's are matter state condition.

Q: .. What will be the role of the Universal Council in creating peace for the creation the democratization of actual geo-governance. The alliance between trans-nationals and big powers?

K- None of them will exist to have any connection. You will understand exactly what it means when it happens. (2:10). The big powers, are big powers as long as they control the food, health, the energy supply, and some of them has additive added bits, they call themselves, nuclear. When you provide everything to them, there is no power, there is no big power. Technology will bring that, superiority will be in elevation, not in what we call, weapon technology and how much you can store.

Then there is a lot of milestones which are coming up, that most of you are observing it, but you don't understand. In the coming time, most powerful world leaders will be put to judgment. We've seen that with Trump. We will see that will come with other world leaders. And then we realize how we have allowed ourselves to be run by a bunch of "misconducts," whatever you call it, people. That will come and add a lot into how human society will organize themselves.

As they say, one third of the parliament in India all have been on record, prison sentences for fraud and the rest of it. They’re still members of the parliament, because they have the money, they don't pay their staff. (2:12). They have to work for them or whatever they do. And the other half we have in the European community. Huge number, percentage of the members of the European Common Market Parliament they got their hands well what you call, lubricated as we've seen, millions of dollars cash in their houses, and their bank accounts and everything else.

So, nobody will go with these things. And you find out there won't be a big power and there won't be big multinationals. As they're multinationals as long as they can control. We have put a framework around it in a very way to .. it's been disguised. But in the next few months you will understand how I have already set up the structure that, what you wrote has no meaning. And it's already operating within the Keshe Foundation, it's all been set.

It'll become the problem for the government's to handle this, massive problems. Go back into what we put month, annual fee for food, annual fee for health, annual fee for energy, annual fee for blah, blah, and the rest of it. If you are Brazilian and you pay into the structure of what we set up, which is in whatever it could be, you don't consume anymore, you don't rely on energy on your government anymore. (2:14).

<< It seems that the audio of Mr. Keshe breaks here >>

R: Still there Mr. Keshe?

K- … you have not seen it. ..

Any other question? We are coming nearly 5:30 ??.

Q: .. Can you please tell us about the two children with the genetic defects. How are they?

K- We are still working on them. This is in the hands of the doctors. And we see improvement, we see changes, we see development of other weaknesses. You have to understand, when we see a development of the weaknesses, which wasn't there before, this was planned five or ten years, five years, ten years, even in the womb of the mother, for any genetic changes.

They are doing well, we saw a very good what we call, improvement with. There is not a setback. But these are the things which are set by the brain years ago, it's part of. It's not, you say they are five years or six years. But don't forget, these genetic defects inherited goes back to the father and with the grandfather. (2:16). So we have to do a lot of things in the background, or the body has to do to change those. They're doing well. I heard from the doctor responsible for it that a few weeks ago, the boy, the older boy, had to be pushed up the ramp. Because they built the ramp to go to the front door, he has gained the strength to go up the ramp on his own. But these are small steps.

We see the younger one, new signs of the what they call, the disease showing itself. So we have to monitor, and see and change the system. The systems will change in the next few weeks, and there'll be interaction much more powerful. The doctors will have. I'm not in that circle anymore. I don't, I'm not in the, what you call it, hands on position of the, it's all going to doctors and next cycle of that process.

But next week, the cancer patients of the doctors will receive a new what we call, add on system to work faster, help the doctors with their problems. It's an evolving technology. But these two boys, the mothers are happy, the parents are happy. But we have to see how much we can change, we have to go now into ingrain changes within the grandfather. This is where our problems sits. When I look at it genetically. They're doing well.

We had the first child who was brought to doctors with the ADHD very massive problems. He has finished with the Foundation last week. (2:18). And the schools and the parents understand the change. And he's become a new boy, he started a new life. And I hear, we have another ADHD boy who has joined in on the back of the other one. And the parents have seen the change in their first couple of sessions with the doctors.

These are radical changes, as I said to the people who went through it with us, you would have had a lifetime of misery, pain, conflict and bring disharmony in the family. Now you have a family who lives with lovingly, caring each other. Caring for each other, understanding, and the time which was there for the problem, which was with ADHD and the other things are not there anymore. It's time to love, it's time to enjoy. It's beautiful to see how a boy could have been always in trouble, and ended up most probably something, problem in the society, most probably end up to become a doctor, engineer and professor.

And that's where this technology counts, the future of mankind. Change is slow, slow, on the basis to. As a young boy now he has every opportunity to become the dream of humanity. You've got to understand, with this technology we change the structure of life of people for the better. And that comes for them to do it for themselves, not by us. We just create the ground for it. (2:20).

Q: .. Can you explain why when the physicality is inside the Soul it feels like being inside the womb of the mother?

K- It is the reverse of the process. That's all it is. Because now it's cocooned inside a field energy. The womb of the mother is an energy, it's a Solar System. That's we are in with the liquid, it's just what you call, another plasma condition. Now, the STP is inside another sack of energy. That's why you will be, you will understand this very, very rapidly.

Ask one more question, and we say goodbye for today.
R: I'm trying to find another question here. So just a minute.
K- If there's no more question everybody knew we'd have to go today ??.
R: I think you've cleaned it up. Thank you. (2:22).

K- Please, those of you who want to be as part of the 200 and 25, do it as fast as you can. Then we will go through this process and many of you will come to understand why we made such a rapid move, and how the change will be. Write to info@keshe.foundation or

health@spaceshipinstitute.org. All the payments have to be only through Holland, and we only process them (up to) Monday.

Please understand, those of you who come as 200 group, you will have a very, very different kind of life when we finish with you, or when you finish with yourself. Thank you very much for today. And I hope today we opened a new door for many of you to come. Thank you very much.

480th KSW April 06, 2023

END

481st Knowledge Seekers Workshop; April 13, 2023

(Auto transcription by Elias)

Bigger structure than our Creator; everything alive; C10 - C16- C18; Understand Inertia & gravity to manifest P; "Inertia of Creation"; Jump out Spacelab; Colonize Moon; Create Inertia; Travel inside body with Soul - heal; Replicate inside Soul; Don't need to kill plants to receive energy; Emotions stress field strength; Gans feeding - not yet - gas liquid matter; We write the books; Food is seed to attract 80%; Bleeding stimulates blood; Hormones create emotions - Menopause; Girls play with emotions; Mass is Gans - Weight -Emotions; Vortex T - hair holes vortex energy into body;

ENGLISH TRANSCRIPTION

(:10).
K- Yes, good morning and good day to you as usual wherever and whenever you listen to these series of Knowledge Seekers from the Keshe Foundation (KF) Spaceship Institute. We welcome you back … to a beautiful setting of teaching. The teaching of today is, more or less follows what the Intro comes from.

We call it a "Creator" in the dimension (D) of Physicality (P) we connect the connection of Man in the D of P of the man, we call ?? to ?? We go to Cosmic Rays (CR) and we connected through the D of what we call, carbon 14 (C14). Connection of the direction of what we call "crystal structure," clear transfer of energy, on the back of hydrogen (H).

As in many teachings we have explained. If we call it the Creator, the Creator has to be part of the structure which He is created out of. (:12). And then it becomes a bigger D, a D the Man has not understood. It's like our Universe (U) is a cell in the kidney of a man. It's a world of itself, operates on its own, has billions of sections and whatever. It has a U and Unicose, but at the end it's a part of .. , an organ, part of the body of the man. And that man from outside is observed by the others, they don't see that cell of the kidney. The collection of the cells makes the man.

And if man in the D of the P, transmutes his D of emotions through C12 in the vacuum of the body of the man, and the U and Unicose transmutes itself through the D of C14, again a source of the essence of the creation of H, common denominator of. What was the Creator, and how does the Creator communicates in His own environment? And what beauty from that D comes, that it becomes the food, .. the energy of the Unicose, that it becomes the energy of the U, and part of that U ?? are with Him. We eat an apple and the energy of that apple reaches every cell which needs the energies of that apple.

The question becomes what are we part of? And what we call the Man who, the organs are part of, without it there is no kidney. Which part of the process of the creation are we in that structure? (:14). It's a living things. Universes move, the axis move, the sun and the earth and the planetary systems move. What are they feeding? What is there ultimate goal of all these essence of interaction of the fields of the U, the Unicose and the U that man has not come to understand.

What we call the Prophets of the past have indicated that there are different levels. Now Man with the knowledge has opened some of the levels, the Soul of the Man (STM), the Soul of the Solar System, the Soul of the Galaxy, the Soul of the U, the Soul of the Creator. What is that Soul of the Creator part of, which it's created out of, interaction of its fields?

The other point which goes back from micro to macro is, how do ourselves within the body of the man, within the kidney, within the heart of the man communicate with each other, that allows them to find their positions, distance, and their composition?

How does our body recognizes the 3 layers of the skin to protect from outside, balance between the two, and protect the inside, that nothing goes outside? How does one skin on the tip of the finger, (:16). and one skin on top of the arm connected to each other, that they know they are responsible for each others work, and they have to contain each other? How does the skin of the man communicate with the other organs, keeping your heart and kidney in the same position? Is C12 , is C14 in different strength part of it. C12 only works in the matter state. In the body of the man there is no C12 and the effect of the field of C14 behaving like C12, in the D of the absorption and the rest creates dynamism in the body of the man.

Then it comes what do we need, what do we have, what do we need to understand about the totality of the Creation? Does the cell of the body .. works on C10? Where the totality of the body of the man works on the D of the C14 in the vacuum condition, and outside matter state is C12. How do our scientists take a blood from the body of the man and then when they test it, they give you that it is magnesium, that it's Ca, and everything else in a matter state outside the vacuum of the body of the man?

Where has the knowledge of the man has missed the information? And where has the body of the man has come to, not to understand, the difference between the D of the vacuum, Inertia, and everything else in respect with time, place, and position. (:18). In

the body .. if you take a kidney, kidney has its own Inertia according to the position of the centralized system of itself. Even the lymph of the man has its own Inertia, that it manifests in that vacuum, what happens inside the body .. in totality of the ?? majority, it has nothing to do with what happens on the outside. You walk in the sand, .. in the heat, you walk in the cold, .. rain your ?? knees don't change characteristics. They still operate, because they are operate separate. They operate on their own structure. They have their own Inertia.

And for man of the science to be able to become the physicians of the space, man has to understand this creation of Inertia according to the time place and space. In the body .. , in the galaxy, on earth or anywhere else. Otherwise you will never ever manifest yourself to be observed, to confirm your existence.

The biggest problem for the physicians of today, even ?? coming to cancer is that the doctors, our physicians, and scientists have not understood the creation, the amalgamation, the Inertia, which creates that condition, that the cell of the body of the man they come together, and we call it a cell of cancer. If you change the Inertia, in the condition of the position, there is no cancer.

Where the new technology (T) is getting developed and getting expanded into the world of the science. Very soon man will know how to get rid of cancers, (:20). which is the biggest nightmare. Even the Knowledge Seekers (KS) who have been working on this have not understood. And if we do, we become magicians. Do we need to do magic that people understand the science is different.

In the coming time, the scientists, those who investigate the depth of the knowledge of the Creator and the creation, have to observe, have to understand the interaction of the fields, which changes the Universal fields to manifestation of the position and time in respect to the fields of the creation, and in respect to the Inertia confirmation of existence. Which means what Inertia do we need to confirm the P, does not matter if it is in the D of the plasma.

Then the question sits for man on both ends, what Inertia, what line of communication happens in the cell of the man, in the minute layers of the kidney .. what happens what line of communication and interaction happens to the Creator of the ?? man. How does He communicate with His environment, how does He get the knowledge and confirmation of existence? Then you understand on both ends of the scale from the created to the creation, it's all the same.

What we pray to, prays to another. What we live through, lives through another. (:22).

Man to be successful to transmute from the point of his own creation, to his Creator, man has to understand the line of communication. And then the position of the strength of the Inertia of the existence. We call it gravity. We call it ?? miniature gravity Inertia. But how does change the position. What does the gravity of the Earth in the D of the plasma

of the solar system has led to the creation of the Earth. Can we replicate this gravity and all its facets and assets and ?? failures to create another D. The same.

Or does this position of the creation of the Earth with its Inertia, which has led to the emotion of the man's creation of itself, can lead to the misconduct of the man in the D of the Soul in another part of the U.

Isn't this why we are here to correct it, as we had enough of the misconduct of the Souls which left the D of the creation from this planet, and their own more creations is based on the wrong strength fields of what we call, Inertia of the Creation. Greed of the man to kill. Greed of the man to destroy. Greed of the man because his "boss" did not supply (enough energy). If your husband doesn't bring enough food home what do you do? You go to the neighbor, you go shopping, you go and get something to survive. (:24). So is the behavior of the man on this planet. The planet does not supply enough to confirm, to feed the local Inertia of the need of the body of the man. So man kills, like the wife going shopping. Man and everything from his environment 80% (20%) man goes shopping. Shopping another Soul , shopping another seed, shopping another plant. But this time the shopping is eating, slaughtering, and the rest of it. When you do not have enough, you get it from somewhere even by stealing.

So man has become a thief of other lives. And because he does it, and everybody else does it, has become a norm. We all do it, because don't eat for 24 hours, don't eat for a few days and you die. So we all become thieves, and we justify our theft that we want to survive. Because the Inertia of planetary system, the Inertia of the body of the man system has not managed to create the condition to absorb what it needs from the free fields of the U. We are all murders. In a way, we close our eyes because everybody else does it. We call it "meat eaters," we call it vegetarians, we call it every other name, except, accepting the truth, that we kill to survive. And it's normal, because we can justify it.

What happens if the man changes the D of that 20%, and the wife does not need to go shopping. (:26). Man will not need to kill. Then it comes to another point in the long distance in the education of the man, will come clear. Does the Creator does the same in the D of His own dominion, and His own Inertia, to free the structure of the U and the Unicose, which is within Him?

Then it comes to understand, when the man becomes a traveler of the U in a very short time, do we understand this, that we do not need to create the D of Inertia manifestation of P in the dominions and the places where he cannot create the totality of the need of the man. Then would this create a new D for existence of the man?

We went from C10 to C12 to C14. Does our Creator lives in the D of C16, for His communication and extraction ?? of the fields of His own U. Does the Unicose work on the 16, and the Creator on 18. Or is it just packs of energy we have put ?? names to. The bigger you are, the more you eat. A fish is like a ?? little ?? and the bear with a full stomach. (:28).

This is how we have to understand. This is how we have to go to the D of the … Knowledge of the Creation. We are on the verge of becoming the travelers of the space. In the next few years man will ?? travel around in the space the way he could never dream. Once we start the colonization in the next 2 to 5 years with the support of the nations. Where will be the next step? When we build these space cities. Do we test the reality of the life in the space on what man likes to see, to be in the space. Do we become realistic? Would the science of the space become part of the life and living of man?

And then the question for many of you, now that you have learned about the D of the Soul, what you have learned you can travel by the D of P is, how do I teach the Soul of the Physicality (STP) within me to become obedient to the law of the Creation and accept that it can live with different dominion of Inertia, that does not need to lead to manifestation.

Go back and look at something many of you do on a daily basis. You call it electricity, we call it, production of energy. What happens when the knowledge of the man extends to the point, that he understands that he doesn't need a rotating magnet and the Fe for him, for a Cu for him to create electricity or energy. (:30). We don't see rotating magnets in the dimension of matter state, and we see so many lightening and thunder.

When will Man this knowledge. And then when you can do this, what does it absorb, what does it bring? Where mankind missed the knowledge of the Creation? Does our Creator subjected to the Creation by itself? Or, has the Man become subjector and ??.

What is interesting to us is how do we become part of the process of the T of the Creation. And how do we become part of the understanding of the Creation? How do we extend our knowledge to the point that we understand the dominion of manifestation, (:32). confirmation of existence without need to confirm P. You call it, the state of dream. We call it, the state of understanding, we call it, the understanding of the Totality.

But the reality is different, than what we've been taught in the schools and the Universities of the Man. All the knowledge of Man is based on Man's understanding of the matter state, not on the understanding of the fields of the U. And would we, and do we need to extend the knowledge of the Man to the dimension of the Creation of the U. Otherwise Man will not become the Man of the U, because he doesn't know how to survive. I let you loose from the space station, you suffocate. I let you loose without the "monkey clothes" of the NASA on the Moon, you die. Because you think you need that Oxygen. You gasp for what it is, the matter state of the Earth.

When will you learn that the way you jump off the side of the pool, into the pool, and you swim for a time in it. It's the same as jumping out of the Spacelab, you adjust yourself to take energy from the environment and change to it. We do that at the point of birth. We are in the beautiful swimming water of the womb of the mother, and in one instance we change to air breathers. (:34). When we change, that instead of breathing air, we jump

into taking energy from the Universal level. That we have no fear of jumping out, and we can keep the position and the condition of the body of the Man if we want to.

Then, the colonization of the space is a reality of this minute. at this moment, not in twenty years or fifty years. Or as a guy told me one day, we believe in Keshe T when it's on CNN. What happens when there is no more CNN, and the "Fox" doesn't control it? The name of the owner goes with the animal that it represents, the fox, the thieve. So, are we thieves of our own P? Or have we "foxed" it out of fear, of not understanding the truth about the Creation.

Try to create conditions that it gives you the line of connection. I can build you all the systems that you want. UBEUs and the rest, Head Units, and the rest, but when will you learn to allow the emotion to subside. The magnetic field of the body of the Man to harmonize, that allows when you choose, the STM to travel the span of the U without the P leaving the Earth. And don't call it, "a dream."

In the sessions of Addiction coming up in next few weeks, on the 28th or so, (:36). of this month, many of you will change this challenge. You have to, you will be ?? chained to it. We are not testing you if you're a drug addict. You are learning not to be addicted to killing. You'll be tested not to be addicted to the air of this planet, that controls you. As we said, our work has hidden agenda, but that we can not bring all out, because many of you will not do, what to learn, but you become another "copycat." You come to learn not to be addicted to alcohol, but in reality we are working on the Soul to learn how to become the passengers of the U. You are happy with your alcoholism, we are happy to make you a Man of U. To open the dimension of the STM.

Then it comes to a simple thing, how come the KF systems can do it, but we can't, and they become a magician, and we are not? Isn't it true, and the fact is that we take the D of Inertia of the P away from the STM, that allows this Man himself to become the representor of his own Creation in D of his ?? creation of his ??. The whole structure of the Creation is like a line and a brick. It depends what that line is and what that brick is. The line of Creation is the H, single structure based energy. And the bricks can be C16, C14, C12, C10, anything you want to call it, (:38). carbonated the way you like it you name it, but in fact has no D, it has a strength field D, that at a given point is structured, manifests itself according to his Inertia.

And then how do we create that Inertia. Go to Book 1, and read the Book 1 thoroughly when it comes to Inertia. When it talks about the M field and G field, and understand now that we understand the Plasma in a different way, what does it mean. You looked at it on the matter state the first time, look at it this time at the point of the Creator. The words are the same, the ?? intelligence (or intention) of the Man which gives it a different meaning. Then you can create anything in any D. Then you become the magician of the U. Because now you can create what you like, what you think you like. What you think others don't know, and if I show it I'll be smarter.

Then Man has to come to understand the Totality. Then Man as to come to understand the D of P, and the D of the fields of the U. And then how to live in both D, or through the interaction of the two, lives in the D of the emotion of the existence. (:40). Man can live happily in the emotion. Does not need to have a connection with the Soul, or the STP, or, what we call, the "Inertia of the Creation." When you put the STM within the structure of the P of the Man, you have the problem of feeding it. When you put the STP of the man, within the STM, what would the problem be? If the Inertia of the location of the position is not controlled, it's not understood, if it's not balanced within itself.

This is the point in many teachings, in a hidden way, I have tried to explain. But maybe today we can just open the door into this. A little gap, a ray of light, that it might open some of your eyes to the reality of the Creation. And fear of departing or letting the STM to bring in the position and D of the STP within it, what you call the point of death. Man can die at any point if he feels it. Because he will become the light, he becomes the plasmas energy. The fear of the Man from end, now it's the joy of the Man in his hand, now that he understands the knowledge of the Creation.

How do you change a field of your body to become the Soul of the Creation, become the Inertia of the matter state of the Man in the condition of the fields of the ?? life , energy fields of the STM. If the STM contains the STP of the Man, what we call, (:42), the Inertia of the Man, Man ?? can even manifest itself within the STM in the D of P. Isn't this what Earth does within the structure of the Soul of the Solar System? Are we any different? Haven't we understood?

Is there a planetary system within the structure of the motion of the Sun? What we see outside is the reflection and the twin set of the system inside. This is not far from the truth. Read the Book of 3, where we talk about cluster of the stars and the galaxies rotating in different ways than the rest in that region. Our U, internally lives and interacts with what is outside it. How does our U shine in its own Unicose? Are we too far from the edge to see the light of the Unicose, which interacts with our Solar System of the Creation of the U?

We come to understand more, we come to see more, we come to comprehend more of the knowledge. But, we have to understand the truth about the interaction of the fields. How do we change a field into Inertia? How do we .. change a field to what we call, Inertia of a cell, Inertia of a planet, Inertia of the Solar System, and Inertia of the U, that we can manifest ourselves anywhere, in any position, place and time?

Would the time come, as we wish to travel into the span of the U, and move to the Moon and Mars, in part and in connection wit our Souls. (:44). We travel within us, we go to the cell of the cancer and find how we can change the Inertia. How we ourselves through the interaction of our own Souls, and STP can heal ourselves within us? Then becomes a magic? Or is the lack of the knowledge has created a false magician?

In the coming time, in the process of the systems, which are getting developed, we teach you how to do it. I've done this with KS who are close to us. We ask them to go in and

feel the liver, feel the kidney, feel the heart. They tell you the liver is weak. It's shriveled, it's this, it's that. Some of you KS here, you are those who've done this with me. Then, how many times, and the way I have told you, try to give energy from the Soul to the organ. Try to give it the Inertia at the condition of the fields of the Creation.

As we go into the excursions of the U, we have to be able to go to the excursion of within ourselves. Those KS who've been around with me in these matters, they know, they touched their livers. They say, how is your kidney, it's not feeling good. (:46). So, give it the energy. Try to give what you can. Try to learn how to give to yourself from inside.

What we teach is not just theory, it's practice and many of you in different ways, and many of you understand it. But now has to become a global knowledge. It had to become an understanding of the knowledge, not only for Man, but for the citizens of the U. The purpose of the teaching of today is to teach you, for you to understand both D, within and without. What is outside can be achieved inside. If the Man travels in the D of another planet and U, Man can travel within himself too. Do you choose C14 to go, or you choose C10 to go within. These are all energy packs, we give it names out of our own ridiculous stupidity of not understanding the truth.

Do you give a glass of water to a new born child when it's thirsty? Or do you give a drop of water to a grow up man to satisfy his thirst? Both does not work, because Man has not understood, there are "horses for courses." You have to understand what is needed, but in the strength of the fields of the U, not in the size of the cup and a drop. (:48).

Humanity is entering the process of excursion into the U. Would you like to go with the "donkey" of the UFO? Or would you like to go with the "jumbo jet" of the STM? Both are an option on the table. But it seems, that Man prefers the donkey. Because Man can sit on it, the way he sits on the knowledge of the Creation and denies the rest. The way the Man kills and deny the truth, that he does not need to kill. Because he can tap into the U energy and satisfy that 20%, when this planet did no do. If the planet Earth would have released, would have absorbed the D of the fields of the energies, which we supply through the Gans's, which is part of its own creation, would any man ever kill to eat?

The new language is much nicer and much funnier. I'm a vegan, I don't cook it, I eat it raw. It's like when you go to a steak house, the American order, "American", which is just the "minced meat," not cooked. What's the difference between a vegan and the Man who eats "American?" I do not know. Except the lack of understanding the truth. They are both taking in the life of another entity. But this time we don't cook it, we are going back to the time when the man had no knowledge of fire. Back in the evolution of the science. (:50). Then the question for many of you is, how many "funny labels" will turn up very soon on the door of our restaurants - "raw plasma," "vegan plasma." Then would that vegan plasma, become another entity and life in another D, and direction of the Creation. Hypocrisy in knowledge has lead to stupidity of man in life.

Understanding the process of the connection between all D is the reality of what we call, existence in the U. Try to understand not only the connection, but manifestation ?? as ??

to, as that connection can give you a manifestation that you ?? will not ?? like. You try to go to Planet Zeus, and on the way you made a mistake, you landed on a kidney of a cat. "Ops, where did I go wrong in it? How long do I have to stay here till the cat dies?" You get yourself in a very bad moment, if you do not understand what the ?? is with the knowledge of the Creation.

Understand the process of interaction. Understand the process of the Creation. Understand the interaction of the fields. (:52). Then you understand the gravity. Then you understand propulsion. Then you understand how positioning in the dimension of the fields create a new ?? D.

In a way gravity in the space travel have the same meaning, if you understand in our space nuclear reactors, how we expand this knowledge. How do we bring the knowledge of the nuclear into the knowledge of understanding the Creation. When we speak about the nuclear, we have to speak about the energies. We don't look at what is there, how many protons, how many neutrons. We call it, this is a nuclear material gives alpha radiation, beta radiation. We are not concerned if you have 200 electrons, or 2 electrons.

Now you have to understand that process of the interaction, which leads continuously, it does not matter in which D and strength, to Creation and the release of alpha radiation. You get it from helium (He), as much as you can get from Plutonium. Then you come to understand energy transformation, interaction of the fields of the U, interaction and creation of multi-layers of gravity, that each one gives you what you need.

The gravity of the Solar System in the D of its Inertia, leads to creation of the gravitational field of the Earth. In fact our gravity is there, because it has been allowed to exist within the Inertia of a given space, time and position. It's gravity to us, (:54). but it is Inertia to the Solar System. It's Soul to us, but it's Soul of the Physicality (STP) in the D of the fields of the Creation. Then Man needs to know, in a way, where and how to create, or live within both. How can you create both in the same D, and create the dimension of ?? living.

We call it, green house. We bring the glass and we create the condition of the desert. Creates the condition of the forest in the middle of the North Pole. And we bring the animals of it there to show, that we are very good ??. We see the animals exist, the plants exist, because we managed to replicate it. Why can't we replicate the condition of any corner of the U within our Soul, that within it we don't need to travel the span of the U.

The strange thing is, we know how to do it. We call it, a feeling. We call it, a emotion of, "oh, my dear, I known how you feel, I've been there." I feel your pain, and literally, actually feel the pain of your child, because you know through the interaction of the fields you are connected to it. Do you need to travel the span of the U to get the emotion of the Man in a given time and position? To feel the emotion of the U in that point and its Inertia? (:56). Or, have we ignored another D in the path of the existence?

How far, how deep, we have ignored the knowledge which we have just to live in the D of the P? And how much hypocrisy sits within our own confirmation of our own existence? Today's teaching is to open your eye, as usual, to another D and creation, to another structure, to another understanding of the Totality. Then mankind become wise to understanding the process of the Creation.

Do I need to have C16 energy to reach the STP of the Creator? Let alone the C18 to get to the Soul of the Creator. Or do I choose the path of H to get in, and when I get in I boast it up to get the energies, which is within me to get to that point. This is what I've said many times, if you understand the process of the Creation of life, in one second you can reach the Soul of the Creator. It's just knowing which line of travel to take, to reach. Not, all goes, and got it wrong. (:58). So, end up in the ocean. It depends which way you took the road.

Try to understand the process of the Creation. Try to understand the process of interaction of the fields. Go back in the teachings, how many times I have told you, don't look at the MaGravs. Look at the field of the MaGravs. And if you understand that, then you have opened a new D in the process of Creation. But all you're happy is, plug it in. You have a knowledge through the MaGravs to the source of the Creation, to the energies of the U. But you are happy with the crumbs, to pay 10% less in electricity man, who himself took the energy from the U. But in the matter state of the field strength of the man. As long as you stay ignorant, there are people who abuse you, as electricity man, as a water supplier, as a Priest and Mullahs and the rest. It is you who allows the abuse.

We can tap into the energy of the fields and as many of you joined us in "Dining with the Creator," and you have enough water in your mouth and saliva. What was the difference 10 minutes before you get in, you are in the same environment. They're in the same room, the same chair waiting for the session to start. And why suddenly at that moment when we start, you are on they're in the ?? beginning of the ?? line interact. "I can taste water, I have so much saliva." (1:00). 77% of you. Or now you have understood, it's you who have drawn a line of ignorance to the knowledge of the Creation.

We have a reason to put these teachings every month, because it takes a month for you to understand, to analyze, and if you felt it, what does this mean? In the coming few days, when we do the addiction. You all come, I'm not an alcoholic, I don't need it. Yes, you're addicted to killing. Yes, you're addicted as a vegan to eat raw. I don't care, I just eat it. I don't cook it to give energy from somewhere. And it's fashionable to be vegan, and it's fashionable to eat "American." I just add some more minced meat, some more herbs to make it tastier with some more other lives, which I have taken to add to it. Is there any difference between the rosemary you put in, and God knows what in the meat, and another life. Now we make it tastier. Those of you who are vegetarian, spend half an hour with me. You will change your time and eating habit in no time. Those of you who are vegan, are worse. And those of you who are meat eaters, you do not know which way to run. It just opens your eyes. (1:02).

If I can do this, contact at, contact find a way to tap in the energy, which they give, which they don't need, without killing them. The problem with us is that when we look at a dry beans, when we look at dry rice, to them, to as it's a matter state. But it's alive, it still got the seed of life, you just need to plant it and you'll see it grow. But we choose to ignore it.

As I always said, if you give a man a chance, he'll water a sheep for it to grow. Because then he has more of. The only thing is that the man cannot ground a sheep, to the ground, and let it raise itself, on its own place. But we do it with grains, and with god knows what, because that looks solid to us, they have no Soul.

As I said to one of my children when he was young. And if you understand the strength of this statement. We take two seeds, you eat one and you plant one. One grows, what grows out of that plant. Then you care for it. It has value, it has life. Don't cut this branch off papa, don't break that part of it. How come you ate the brother? Now you have emotion for the other. (1:04).

It is the ignorance of understanding the process of the Creation of ?? Life, which has brought man to this point, to walk to excursions, and to stupidity of killing. Man only puts men in prison when he kills another man. Man does not put men in prison when he kills another animal, a plant, a seed, or whatever. Because we have made exceptions, because we all do it.

Now that we have the knowledge, should there be any exception? Should in the coming time man will frown on those who eat any ?? flesh. We are plasma eaters. But would we learn to steal from the plasma of the others? Or would we learn, that we are there, that what is available, no one needs, we are there to be served.

Some animals eat once a year, by killing one animal and that's enough for it. Some man kill everyday in thousands and they call it, bowl of cereals. We are lower than ?? those. Understand to what field strength of the Universe you need to connect yourself to be able to feed yourself in that dimension, in the ??. That you do not carry the habit of killing into space. And I hope that the teaching today is that. (1:06).

As I always say, if I give you enough knowledge that you manage to face the Soul of your Creator as an energy pack, would you eat it, and to see how it is? Try to understand, try to extend the knowledge of your Soul by yourself. When you can't do, I give you a to of technologies, a lot of sessions in the system for your Soul to expand. In a way, I open, ?? I give back your ?? fields, that you expand more.

Have you ever blown a balloon in an environment, and then vacuum it from outside, and then see how it grows to fill up the space of the vacuum you created? It's all we do with your Souls in these systems. We create a balanced energy fields, that your Soul can expand and come to understand the D of physicality in the D of Creation in interaction with the others. But we have to cover it up in every name and possibilities, that you can fool yourself.

Try to understand the process of interactions, try to understand what means to have Inertia. What is Inertia to me and the gravity to you, and what is the Inertia in the cell of a cancer, and a gravity in the body of the Man. Then the physicians of today will have no problem curing every cancer within seconds. But at the moment, we still have to play the game. (1:08).

What is the Inertia of the emotion that leads the Man to create himself to the point of death with ALS? What fields does it extract that is connected to the emotion and the direction of the strength of the field of the STM and the P, and the Inertia of the Totality of the fields of the physicality of the Man.

Would it come the time, in the coming time, where Man will master the field strength of the emotion? Man will master the strength of the field of the, what we call, the life in any dominium and D. And if you understand this, we go back to what I've said many times, with one drop of water I create a fish in a tank.

With one strength field of the emotion in the ?? devotion of understanding, I manifest Christ in front of you, as many of you has been feeling, touching, being aware of his presence, when you go in our system. That's all we do. And you can do it anytime, anyplace in the U.

We go for a break, and we come back. But listen to this teaching many, many times of today. And it opens, unravels many secrets, that the first time you don't understand. Then you understand where man has made a fool of himself as a vegan, vegetarian, and meat eater, (1:10). when in fact you could have enjoyed the existence of those he has eaten, by just being present with what they do not need. When an ?? object manifests itself, it means I'm giving for you to see. Why do you need to eat me, when I already given the field of my existence.

Then you understand, does Man need to kill in the space to confirm his existence?

We go for a break and we come back. If any of you have become wise to the knowledge, we answer you the questions of the Creation. Thank you very much Rick, if you like to take us to old fashion breaks, or new fashion, you can allow us the list of the products which is available for many of you, and you don't claim, because others disclaimed it by paying for it, as a donation for you to enjoy the beauty of Creation. …

BREAK >>> 481 KSW April 13, 2023 (1:27).

K- Yes, we are back here. We are here ready to answer any questions you might have. Can you hear me?

… (1:28).

Q; … We kindly ask you to advise us more about human's stress in plasma technology? We appreciate your guidance.

K- What do we mean by stress? That's something we have to understand. What is .. a stress? What is the point what we call, human stress, .. or emotional stress or body? Which part of the stress you want to talk about? We have to understand how we create emotional stress, and what strength is it at. And how it affects the rest of the physicality.

How come with Gans's, with application of the Plasma Technology, many of the stresses of physical or emotional are resolved? (1:30). Many of you, you call a stress as a pain, physical pain, you use the Gans and it goes. Why does it do that? Why do we see these kinds of things? Why do these changes?

Psychological stress has a strength field. Depression has a strength field. Pain in your muscle tissue has strength field. We have to research in depth to find, to measure and to replace. Nowadays, our doctors look at, oh, you're short of vitamin B, you're short of vitamin that, and you're short of this mineral, you have this disease, that disease, this condition, that condition. Our scientists never looked at the dimension of the Creation in the body of the Man as a plasma, what fields it is short of, that we can promote.

In the future, when you go to a doctor and you say, I have a depression, the doctors can measure the strength field of the energy which creates, which is needed to satisfy that lack of energy. The future science of the Man, understanding the structure of the Man is not matter state, but is a magnetic field plasma state, will change all these things. In the upcoming universities and educational centers, as they understand more and more about the process of Creation, Man will find another way to handle this, Man will find easier way to handle most of the, (1:32). what we call, diseases of today. We have lost our way. And we have added so much that the way is lost on the way.

I was talking to somebody some time ago. They say, Chinese herbal medicine used to work and be effective. And today it's not as effective as it used to be. It's the same plant. What we did, we added chemicals and fertilizers, we added pollution to it. So it's the same thing, but it has more additives to it, that those additives take the energy from where it used to be. So, if we can produce the same herb, the same whatever it is, without the new additives, Chinese medicine, herbal medicine will have the same effects of a

hundred years ago, 200 years ago. It is us who does not understand what they've done to us, to ourselves. It is us who haven't understood the process of Creation.

When we are born, and let's say we are in a perfect condition, emotionally, and whatever, doctors will take a reading of all our emotions. And in 10 years time when you go to a doctor, he says, oh, this is the record of your depression, there was no depression and now it is. So we add up this energy to you to bring you to the balance what it used to be.

The whole process of the understanding of the Creation of the body of the Man will change in the coming years. (1:34). When you bring someone to the doctors of the Keshe Foundation today, who have been trained in the old medicine of the present universities. The doctors of the medicine today they ask you, you get all these God knows what this, this, this all, this is elevated, you have this. And doctors which is trained by the Keshe Foundation will ask you this, can you give me the composition of matters in your body?

I don't want to see how the accident has happened. I want to see the cause of the accident. Because the understanding of the knowledge ,is that you need to have these energy sources to create those effects. Today, when you go and see a cancer data from the doctors, oh, you get everything, the size of the red cells, the size of the white cells, the volume, the count and everything else. Excuse me, can you have a boiling water if you don't have a kettle, to boil it? And then, can you have a kettle if you don't have the steel to make that kettle? Can you have the steel, but if you don't have the electricity to heat it up, to heat the water, to have the boiling water to see what it does? (1:36). What the doctors tell you, they say, it's a boiling water.

So we look how to get the energy from the boiling water. But what about that iron and that kettle which boiled it? Why can't you adjust the temperature there, that you don't get the boiling water, you get the right water, you don't burn. This is the different step in the knowledge, different understanding of the Creation. Today in the world of medicine they work with the boiling water and then it's burned. Now we do the skin, we do high blood pressure and the rest of it. Go and find, what do you would.

You used copper instead of iron. You used zinc instead of copper. So you have created a different dilemma at the beginning or is too much of copper in alloy, which creates a different ?? standard temperature, whatever you call it. So, in the present science, we are always fighting how to find the solution. But we never look at the cause of the problem.

In all traditional medicine, they used to look at some of the causes due to the effect they see. I come from generation of the medicine men. Generation and generation of. So when I look at new science, and when I look at what my ancestors used to do, and I see what the hypocrisy, what has grown up to be the new world of medicine. Because it just makes money, but it doesn't do much.

In 2008 when I went to Iran, I met my aunt, the sister of my father. (1:38). And she was in her late 80s, and she was telling me about my grandmother, my grandfather, what she heard about the grandfather, but what she saw with my grandmother. The family were

men of medicine for centuries, for decades, for generations. As a young girl, she observed the mother, and she said, you know, when mom went to that room, I know there is a cure, the guy can be helped. If mom went in the other room, I said, he is going to die, because mom knew cannot do anything, he was just there to help.

So they had a knowledge and they didn't have with the new ?? paracetamols. They only had the herbs, they only had what earth provided, and they understood the interaction. That a young girl of eight, nine years old, could observe what the mother does and what decision is made about the one who has come to ask for help.

So our today's technology has gone haywire with more tablets, more false reports, more everything else to satisfy the pocket of some people who just pay for it to be fooled. We have to look at the cause. Not at the, what we call, the accident at the end. When you don't have a brake, you don't have .. ?? damaged car. It doesn't matter how many times you repair the car, you haven't fixed the brake.

And it's the same in emotion, it's the same with the stress. You have to find out what field strength causes that stress, and what has come in the dimension of emotion to become a stress. (1:40). It's not any more iron or zinc, it's what emotion, others emotion interaction with the STP has created that has depressed you. And what is needed to create, to give, to bring it to balance?

We are talking about the field. If I tell you, I love you, you get the feeling of everything. And if I tell you, I hate you, it's the same man, the same woman, that same voice, you feel ?? the others. So, we have to come to understand emotion has a field strength, and the word of the Man carries that emotion, that field strength. We have not even analyzed, men of science have not even come to understand this. What emotion, what energy comes from my STP through the words, that in interacting with you gives you the feeling of stress, or depression, or love. We have not understood anything about the world of the Creation, and we call ourselves the king of the animals. We are king, but animals. King, as I always said, stupidity of not understanding, but claiming to be.

Can we go back and measure what I say, what field it creates, that leads to joy and happiness. So, we know this is the field strength of the ?? voice, which created ?? that. Have you ever tested this? No, because we never understood. (1:42). But not only in recording, finding out what has happens. What caused in the body of the Man to speak that word of ?? happiness. What interaction has been inside? It's again that kettle and the boiling water. This is what we need to understand. Otherwise, oh, I took some zinc water.

It's very strange, 99% of the Knowledge Seekers have Zinc, CO2, Cu and CH3 (Gans's), and they want to solve everything with it. In the Periodic Table there is quite a few more than these things, a hundred more. What about them? Would Uranium field strength create happiness and energy, as the Gans of the lead creates depression and anxiety? Then we have to understand, we need new tools of knowledge, new understanding of the knowledge of Creation. But the way it's created, not the way we would like to think it is, because it fits our meager understanding that it fit for us to understand.

Any other questions?

R: Yes, Mr. Keshe, we have a hand up here from Peter. And he also had a question in the Q&A. (1:44). And it has to do… He has been in the Keshe Plasma Reactor Group in the last couple of weeks as well and showing his creations of amino acids (AA) and techniques for creating Gans's. And he uses higher voltages than we normally do, and this created a lot of quantity of Gans's. I'd like to have him talk directly rather than read his question, because I'm sure he can explain things better. So go ahead, Peter.

Q: .. I'm trying to create a MaGrav feeding device, or a Plasmatic feeding device. And the current state it's in a shape of a cup. I have used in it three different amino acids, because from what I understand, we can get from them and magnetical gravitational fields, at similar strength that we are getting from different foods we consume. I can also add the Gans's of the content of seawater, and that composite Gans of iron and deuterium on it. And I know from your teachings, and that we absorb 80% of energies from environment. And what we are trying to do with this 20% of energies, which we need to gather from the food and water. So, this device that I'm trying to create. So, I'm trying to create with this device, (1:46). the field strength of this missing 20% of energies that we need to gather from the outside, from the food and water. And I'm not sure how much of percentage of them, total gravitational and magnetical fields these devices produces. And if there's a need I can show pictures of this device, how I set it up all together. And my question, the question will be, how to create from those three different amino acids, if I put it on the device, and from this composite Gans's how to create billions and billions of combinations of fields strength, that every cell in our body will get what it needs from the fields.

K- I understand. First of all, the production of Gans's, as Rick explained, as I understand it, with different voltages and high current does not make that much difference in the state of the Gans produced. Because the limitation is in separation.

Once an atom separates as a Nano material into a singularity, or what we call a Gans, unless you can absorb more energy, and you can create the energies above its matter state Gans. Then it evolves. But again, to the matter level. (1:48) If you introduce a "Gans current," to the Gans, you will see they behave different. So, there are a lot of limitations. A lot of understanding. This is why, long time ago, I spoke about "Gans of Gans's." Creating Gans's out of the energy balance, not out of matter state balance.

If the scientists of today, or Knowledge Seekers of today would understand this, then we can create a lot of new condition ??. Does not matter how much current you produce, the only thing you will change is very limited, because the rest of the energy you put in as a matter current, or voltage will not change much in the structure of the Gans, energy magnetic field balance. You affect the boundaries they create, but you won't affect the actual entity. Till those come into balance, you might see a Gans changed color from one thing to another. Because it's like a virus, they give energy somewhere else, till they deplete ?? to stand to the energy level where they are.

Then to create a true multiplication of the Gans's and the fields of the body of the Man, the Knowledge Seekers you're about maybe three five years away. None of you have understood this, that to create a combination of the Gans's that the full body of the Man needs, (1:50). you have not come to understand the Totality of the truth about the Creation in the dimension of his created system.

And, as always said, I play along with you until you understand. The Knowledge Seekers who work around me, they understand this. I teach, I explain something, and if it's not understood at a point I let it go. Months later, years later, I come back to it. I say, do you remember this, we did this, now you understand the knowledge of it.

As KS, if you carry on with what you're doing with the Gans's you've created, and you're trying to feed yourself, you'll still be short falling what this planet has done. And a few Knowledge Seekers, what I see, what I hear in the scientific world, and Knowledge Seekers, who are the layman, like many of you, you have not come to understand this. You make Gans's, but you still need to go and eat, because you have not managed to create a spectrum of the field energies of the body of the Man.

In the body of the Man you need Gans of Uranium, you need the Gans of Plutonium, you need the Gans of gold, you need the Gans of H, you need Gans of every other element. And sometime the closest you can get to, not even near to, is the Gans of the sea water. But again, which water, from which sea? All the animals in the ocean are not the same, depending on the combination of the elements and condition, (1:52). you get different fishes and animals in the ocean.

But one thing you have to realize is that, do you see Man in the sea today? So, the sea does not provide all Man needs, otherwise Man would have been living in the ocean. Man lives out of the combination of the fields of the matter, liquid and the gas of this planet. When you manage to understand this, then you understand you access to some of the knowledge that it needs to feed the Man.

This is why we are different colors, and races and creeds. You don't find as our, what I call, knowledgeable politician said, the polar bears are eating all the other ones, penguins, and that's the problem of global warming. But he didn't understand was that the polar bears are in the North Pole and have a long way to swim in all the ice that melts that it can get to the South Pole to eat the penguins. That's why we don't have Mr. Al Gore as President of United States. He never came to understand the polar bears are in the North, and the penguins are in the South. And he was the head of "CO2 and global warming" of us, as human race.

So understand, you need a combination of the fields of the air of this planet. (1:54). The combination of the matter state of this planet, which comes in through the soil, through the matter states we absorb, through the animals we eat. And then we need to understand what liquids of this planet creates and gives us, because we drink it all the time. Doesn't matter how many times it's siphoned, cleaned, and pasteurized, and everything else.

So for you to understand how to create a system to feed the Man is you have to bring everything together. If you have been somebody who worked with me years ago, when I used to build systems, you always got three bottles from me. One was for the air, one was for the water, and one was for eating, which is the body of the Man absorbing.

So, when you try to get to this point, when you try to get to the point of creating Gans's that you can feed, you can create misbalances in the body. And if you create it with a high energy doesn't mean that you get a higher level energies from your Gans's. You have to understand the whole proposition of life on this planet and everywhere else.

We have a question mark now, we are planning to colonize Moon in the next two years, next five years, with cooperation of governments. We are planning not to take anything to the Moon, no greenhouses, no cows, (1:56). no grain. But we have to be able to supply all the needs of the STM, that in manifestation in the D of physicality, that entity can survive the conditions on the Moon. Does not mean to wear a "monkey suit," a space suit. It means to manifest, have enough energies, conditions that you can move, you can survive, you can enjoy the condition. Colonization does not mean imprisonment of Man in greenhouses on the pressure and temperatures. When you go from England to Australia, you don't put yourself in a greenhouse, because you live in the condition of the environment. And this should be the same for the Man in the space. Otherwise, we have not changed in knowledge and technology.

This is why we teach, we promote, we try to get you to understand about the energy package of the Man. We call it the STM and the STP of the Man. How does your "inner gravity," which we call the Soul, interacts with the gravity of the Moon, that in interaction with the presence of the field of the Inertia creates being, that can survive on the Moon. (1:58). Otherwise, we just changed a prison to another.

Try to understand. The teaching from now on will be very extensive, if you understand it. If you do not understand it, as one of my sons said, papa, you just got over me, I don't understand it. I was with a group of people very recently, one said, this is whatever he talks it's nothing in the books, it's against everything, it's upside down.

And the head of negotiations said, you know something, we are going to write the books, that people understand this, because this makes sense. Then because it's in the books in the university, you accepted because you read it. I looked and I said, this is the first time I've seen a wise man. He said, we can't accept it, because Newton and Einstein, blah, blah, blah. He said, now we open the universities and we write the books about this knowledge, because it makes sense. Then Man understands the work and develop the correct way.

This is what the problem with a lot of our Knowledge Seekers. It is not a problem, we haven't been educated. The problem is the lack of education in the right way. We teach you all in the matter of state. And now we bring you to university and we want to teach you about the plasma. It doesn't work. But it doesn't work, it doesn't mean it's wrong. We

haven't learned the two dimensions. Things look strange, we want to achieve things, and then it doesn't work. (2:00).

Example of this was, we tested. This was one of the reasons I tested the food session last month. And we brought you back to see how many of you, how you felt, what you had. Did you feel energy, did you lose weight, whatever? This was for us to test how good our system are set up. It wasn't about you, how you feel to eat. Actually, the whole of the trial of the food was for the Keshe Foundation scientists to understand what we were missing in the development of the technology.

How come you could not be fed and not to eat continuously. And what was missing in our structure of development. In the upcoming systems, when we put, you've seen we put a system that you pay 1,000 Euro per year, you get all the food, what was missing. 70 odd percent or 30 odd percent had the saliva, so the system is correct to produce water. We are missing the others.

And then what are we missing long term, that we don't cause other problems, lack of depletion of other things in our system and technology. You are happy to eat with the Creator. But we were happy to learn what we need to correct in our systems. And for that reason, we have added into the system, now testing going, for minerals, metal matter state. That if we can give you completion of the short what we call, minerals, that gives you a long term reduction in hunger. (2:02). And this is what came out in research, in the new Dining with the Creator, the Creator of the system found out what needs to be completed more.

You're all part of this development of technology. But I have to drag you in with different things, Dinning with the things, drug addiction, world leaders to see what is the emotional part of the system we need to adjust. What we need in you not wanting to eat all the time, the same thing to deplete my system. All from the strawberries next time. It's addiction to strawberries. How can I set it up? I drag you in if you are alcoholic, or whatever for us to see how our system is, that when it comes to the final system, we understand all the problems.

Meeting with the Soul of the world leaders was very important to see how we can affect the emotion in our system. That you feel happy, you are heard, you can bring the change, you see yourself equal as a world leader. And what would we change? When we do that survey at the end, is not for you to see what, it's for us to see where the system needs fixing.

When you feel you're heard, you're satisfied. When you feel you're not heard, you behave somewhere to become a radical. And this is what we cannot afford. So I have to satisfy that system. Build a system that feels you're heard. When you're on the Moon in a colony, I don't get riots. I don't get, man on board, man is over the board. You come in for what you think. (2:04). But at the same time we'll let you do, we allow things to happen. But we're gathering knowledge in how to adjust our system.

Since the creation of what we told you about, meeting with the Creator, you were very happy to came and whatever. For us was to monitor what the system is missing. If you don't understand it, I'll put it to you this way. You eat sugar for immediate energy, you eat vegetables for a short, you eat meat for a long term energy, or grains who have protein equal to meat for long term - eight hours, 12 hours, 24 hours. But these carry different minerals, they carry different elements. In the table of the Dining with the Creator we monitored. Why some of you had to come back? Why do you feel hungry? So, why some of you had no difference? Long term those of you who felt better, you took more energy, in your physicality, loss some weight.

Because the minerals are that meat. Which means, we need to bring in names of the heavier elements into the fields of the system. Then you will last energy at the higher level, 24 hours, 48 hours. And when you take energy that way, the body doesn't need it, it comes through the Soul, it comes through the dimension of what we call, energy fields. (2:06). So whatever you do around, walk around and work, is burning what is not needed as fat and you lose weight. So, you have to understand the process. And, in a way to perfect the system.

The next structure for us, the next cycle of teaching for many of you is to construct. You go to the Moon, you want to stay there for two or three days, you want to feel the dimension of it. I can't take your bricks, sorry, and I can't take you concrete to build buildings. You want to have a tent that you open up you enjoy this side of the Moon and tomorrow the other. I have to build energy system which creates walls, partitions.

These are what is to come. It is not something new. Read the patent, it was put up 17 - 18 years ago for you, now you come to it. Those walls you stay in has to create energies that they feeds you, it is what you need without you killing. What happens if you see an alien on the Moon, oh, the first thing, I haven’t eat, I better see how it tastes, I better eat it. Didn't Man do that in the craft, in the airplane a few years ago. Fell in the snow in the mountains and they started eating each other. Didn't happen in South America, when they got stuck on a mine, and got stacking, who's going to be eaten first? Is Man going to take this habit into the space.

Or as a scientist developing this technology, we have to look after all of it. And by test or whatever. (2:08). If I want to do a survey to understand this, go and find somebody who will bring thousands of people. It takes years. I announce I want to do addiction 100 - 200 of you come in. I get the data, I get the information what is wrong, what we have to increase. But we have to, and you're happy you got rid of your addiction to chocolate. So, it's a matter of exchanging. You give us the knowledge, we gives you the satisfaction. To become the Man of the space needs a lot of knowledge. The true Man of space, you are quite welcome. Mr. Musk puts a rocket on the backside of the thing and you are happy with it, you're going .. .

Any other questions?

Q: .. What I understood, I should look to make Gans's and amino acids of the different 4 types, like different meats, rice and milk, vegetables, fruits and others. To get this necessary field strength for our body. And to get this I need a spectrum of fields for the body.

K- That's what you need to do. But you have to understand how the body composition is. Go back to 2014, when we had one of these Indian gurus came to the Keshe Foundation Center. And he was very holy because, at the moment, five or seven times he manage not to eat till 21 days. And I explained to him how he cheated. You don't need to make Gans's. If you understand it, you can take enough from the space to feed yourself. Just twist your lung in a different way, and see if you moved a little bit to the right, and put a pressure on your right shoulder and pulled your left leg up. I can taste banana. (2:10). Now move your shoulder to the top of your neck, like a chicken, and lay your legs out, change the space of the lung, this tastes like chicken. So next time I want to taste chicken, I will stretch my legs and put my neck up, and that's it, I get the energy of the chicken. Because I've tasted it.

So, with the breathing you can create that. And you can last a long time. But the biggest unfortunate thing is, there is no air on the Moon, you cannot chicken stretch yourself to have to eat. Because there is no air to breathe. So you have to find solution in the dimension of fields. And it's not just, I do vegetables, what about, you forgot about the energy of the emotion. Life is a very big pot of field, which you'll have to learn to satisfy all of it. Otherwise, you have lack of vitamin C and gives you this disease, or you have lack of calcium, half of your hip disappears.

Try. It's good thing you started this way, but try to look in a broader spectrum. And try to understand the Totality of need of the Man's Soul, not the physicality of the Man, then you can feed the Man anywhere in the Universe. You're still looking in how to feed the Man in the dimension of P. And this is what I keep on telling you, maybe you understand for the first time. (2:12).

Look for the D of the strength of the STM that it feeds the Man, and not D of vegetables, and carrots, and tomatoes and potatoes. STM does not know what a potato is. This is what I said, in one instance, if you understand, you can reach the Soul of the Creator. This is what you've got to understand. If you're still in dimension of feeding the Soul, or in the dimension of feeding P with all its pitfalls. Sea water, contaminated air, cabbage and tomatoes, and I make a Gans of it.

Knowledge Seekers like you, you've got, that you've gone that far, you have to look over your shoulder, over a little bit further then you understand the process of the Creation. But this time try to understand the process of Creation of the STM, not the P of the Man. Because this P on the Moon cannot live, we'll bring back many carcasses. Then we are in the next level. This is the purpose of the teaching, this is the purpose of expanding the knowledge, but in small steps that slowly, slowly Knowledge Seekers in different levels, and scientists in the level will come to understand what we have to learn and where we have to go.

Any other question? (2:14).

Q: .. Dear Mr. Keshe, there is a subtle world also here on Earth we call them elves and fairies, and similar. They seem not to consume matter, but live from light, maybe? Can we learn then from them how they do it, even eventually scientifically? Thank you for adding new perspectives.

K- I thought fairies are little girls with the wings on the back when you go to a birthday party. And the other one is the boys, when they go out with it. The reality is, we can assume anything we like, and we can take any features we like. If you understand the knowledge, being a fairy or a Man should be the same. We haven't understood the knowledge.

If you learn to love, and if you learn to receive the love, you're fed for life. But Man hasn't understood that. But that love, stands with the love of the Creator, not the love of the Man. Because the love of the Man is always tempting ?? with something. This love is pure, and if you can tap into that, you fed yourself. And if you can tap into the gift of the Creator, the way it's given to you, you'll find out what do you need becomes the source of life for the others. A lot of you understood, ?? a lot of you will come to understand more of this ?? in a very short time.

Q: Good morning Mr. Keshe.
K- Hello Azarjan, are you still in Iran?
Q: No, I'm back.
K- They couldn't hold you, could they? (2:16).

Q: There's no reason to hold me. You know, when you talk about the traditional medicine and then how in the past, it worked, and it doesn't work. And you know, we're familiar with the Chinese medicine and Ayurvedic medicine, which is Indian. And it was interesting. When I went to Iran, something interesting happened. And I thought maybe if I share this, you know, it would .. open something for people, you know, if they have any question. For me, it's very interesting, because Iran also have traditional medicine and I don't know how they get training on it. I went to ask, you know, how I can learn about that, because when I was going on the plane, I came to lift the over head luggage thing to close it, I kind of pulled something on my left side. So when I got home, I always had something falling on my left side hip, I did yoga, but then this one on the side, it just was so painful. It made me limp. So I told my dad, and then my dad says, go to this doctor, I took your mom there, and she's very good. I said, okay. So we went there, and the place, the office was crowded. So much with people, with tons of people, especially women. And the doctor was a woman and she's very, she has a ?? job, you know, a scarf, and she's follows the whole procedure. So I went there and I started talking to her, she said, what was interesting was, she asked the asked the application, your date of birth, your full name. (2:18). And she started asking questions that all the answer 10 years ago would be yes. But then (today) the answers all were no. And then she touched my shoulder and then I kind of screamed. She said, it's coming from here. So she gave me some stuff that

we have in Iran, you know, in the herbal store and also some massage with cupping, which is different from New York, which Chinese do. And then it was interesting when I asked her all this stuff, no, she says, you must be up there. I said, what do you mean I must be up there? She said, you have passed, you're on a different level. Which I understood because there are some people, even Ayatollahs in Iran, that they are studying Islam, but they're not part of the government, they have their own life and in they totally don't interfere with any of these things. But some of them. Actually I went to the grave of one of them in the shrine of the ?? .. and then that guy, he could appear in many places at one time. And then if (he) entered the room, and if the people were gossiping about someone he would leave. So, these people are also trained … ?? But it dawned on me is this, when I look at people then I went to different people's home, relative friends and I went to North. What I realized, people are leaving in a very, I mean, (2:20). I noticed like the Creator, the whole Creation is happening, is happening now. What these people are doing, because the information, they are creating information or the knowledge, we are swimming in it. But when I look at people, people say they, I'm sitting by an ocean, by the sea, and the birds are singing. But then I'm sitting next to them, and they're talking about what happened in the past, and they're pondering on it, and pondering on the future, that was going to happen. And then it's for both. Then I realized, at the moment, if I'm sitting by the sea, and the past is gone, future is not here. And this beautiful sea, and the birds are singing, I'm not noticing any of this. So the information of the Creator is there, but I'm not soaking it. Because I'm not present with where the Creator is. I'm out of the Creator boundaries. The border of the Creator is now, but most people are swimming in their own. Like imagine if there's two pools, there's a pool of shit, and there's a pool of water, people swimming in a pool of shit. And they don't know why. Why do you do that when you can be in a pool of water, it's clear water, enjoy it. But you do have yourself in this. And they don't, they don't know it. And they constantly recycle the same thing over and over. Because when I noticed like I couldn't I wish I could write in your whiteboard Mr. Keshe. But then something came to me, like. So, when you, when suddenly something shifts in us, when we are present, the whole physiology of the body goes so low. Like, you know, you hear in a whole commotion, but your body is the breathing, everything becomes so subdued. And it's very, it's very, the breath is happening from the brain, goes to the heart, goes down to your belly and comes up. And then it's something else something bigger that shows up. And then I then I try to see how people react. And I realize, if people don't talk about these things, then they have nothing else to replace it. That's why they're in it. Because they don't see it. And what I did, I told my husband, let's make an appointment with her, I want to see what she says about you. So, I made an appointment for him. And I gave a date of birth and his name. And I put on a whatsup to see the doctor. Before I do that, he actually asked me a question about him. All the answer in the past because I know about him was yes, but now it was no. So two things was happening here. So, it means with the date, my date of birth and my name, certain thing is inherent in me that I was born with. But perhaps with things we learn, especially knowledge of plasma knowledge of the Creation, and how we look at things in a different way, we change so no longer those aspect relate to us.

So my question is, now, how can we make people to become that aspect of a world which is easy to live in, which is like, go to the clear water. (2:24). Not to swim in a pool of shit

that you don't know even you swim in it. And why you're swimming in it? And it didn't matter, really, if these people had money or no money, they all are doing the same thing in a different way. So, how can, how can we, I mean, there's nothing, I mean, I could, I didn't, I never said anything to them. I just was present for the conversation and present what they're saying. But I was just noticing all these things. So how can we… How is it possible… I mean, how can I change something to remove the veil from these people so they can see the reality and then their life would become very easy for them. Because when they say, I'm so stressed out. That I say, I'm stressed out, you're creating it, but they don't notice it. They don't notice that their words that comes out of the mouth, and the way they act, they all has the field that is creating the same thing over and over again. And they cannot get out of it until they notice this. And they have all these belief systems, that are regurgitating all this belief system constantly out and inside their head, constantly in and out. Like a spider web they're entangled in this web. And they are caught in it, and they're entangled in it and just suffocating in it, but they don't didn't realize, it seems like it's an addiction of that entanglement in them that they want to have it. (2:26). So, what is it that we can do?

K- What do you understand from it? Or what did you understood from it. That's, then you see what they can do, that you can't.

Q: But you know, I could, I could, you know, if I was them, like, I would put myself in their place, I could easily could say, if I do this, I could make life so easy for that person. If I was in that body, I knew what to do. But I'm not in that body. And I couldn't, I can't tell them what to do. Because they just, they're in it and they cannot see it. I mean, there's nothing I can do, we can change it. How can they change? All I could do is I give from my Soul, that's all I could do. But verbally there was not, nothing could do, because they would, if I try to say… There was only one person I found one girl, 25 years old, she was really in it and when I started, I mean, something happened that I had to be in her presence, and it just opened up and she got it, and she understood it. Because she was there and I could see it. But the rest of them it's just there's nothing.

K- There is something people understand, because I looked at these things a few times. How can the time and the place of birth, and whatever, and the position creates. And people can tell you, just give me your birth date and the time and place and the name, I can tell you whatever it is. (2:28). I've seen many of these. In some ways, how many times, and how many people can do this? How many times you've been inside with these people that they got it 100% right?

The knowledge some people carry, because they feel. And the knowledge is, some people do things because they see. I talked to someone about something like this when you go to a place and they ask for your birthday to whatever. And the conclusion was, you know when you come in, they watch you, they are a good observer. And they see you how your shoulder is, how your arm is, how you walk. And they ask you the questions, but they've already predetermined. Okay, I see that, I put my head there, so they believe the rest of what I'll tell you.

But sometimes the knowledge comes from the vision. Many of us, all of us, don't see exactly the same thing as the others. We see different dimensions of fields, we feel different dimensions of fields. Some of us due to the structure our brain and structure of our P, have an interaction different way with the fields. (2:30). This, some of us use it to our advantage, or sometimes we use it to help the others with it. We have to understand the knowledge, then when you go to person like this, ask you your birth date, your place, or whatever, and puts their hands somewhere, it doesn't become a mystery. You have to understand the wisdom, how. Can it be repeated? Or can we encourage these people to allow others to extend as they do? The knowledge, the vision, the spectrum, what do they do.

And this is one of the reasons we keep and give the knowledge this way, that no one in space become magician. You don't need to go to somebody to take your name, and they when they just watch you how you walk in and the rest, that no one becomes another prophet, or a specialist in something. We are all a specialist, because we attract a specific field that the others don't. So you have to understand the knowledge of the person. You have to watch how many times they get out of, how many times correct. And then ask them, how did you get it correct. Maybe sometimes it's just by coincidence.

I used to have a very close friend in Manchester, very, very close friend of mine. And everybody said, (2:32). when he touches your pain point, he gets rid of your pain. And I was in a lot of pain one day, and we were together in the office. He said, Mehran, sit down, sit down, sit down, I take your pain away. They tell me you have a pain in your ankle. And he puts his hand on my ankle. And I never known so much pain in my life. I said, you know something, just don't touch me next time. How come he has a healing, or what they call, getting energy from others, but I got all the energies he got from the others back in me?

So, we have to understand the knowledge and the emotion, and become good at it in the dimension of fields. Then we go to the people who are specialized in certain strengths. In a very near future you can buy an App from Keshe Foundation, in a matter of a short time. And on these Apps, you buy App for food, App for cancer, App for Alzheimer's, App for banana, whatever. You get a variation of the Apps and you tap on it and you go, you want a banana, you get the taste of banana and everything else. This is the future of the food and wellness which is on the horizon.

So, can we give you all the same taste of the same banana where your energy fields are slightly different than the other guy? It might be sour banana to you, sweet banana to the other one, but the whole structure is, what energy you take from it. Do we need to give a taste value to it, that gives you the right emotion? Or we just give you what banana is supposed to give to you as energy to you, without actually giving the feeling you have the banana. (2:34). And this is where the science and technology of the Man has gone.

And then this people where they get the knowledge is we are made of different composition. And we are all unique. We can all learn and we can all teach. But this going to someone's birthday, touching somewhere is individuality of what we call, developing

and observing so many positions about the fields, about the time, and observing how many people fit into that picture.

Q: Mr. Keshe also what I noticed, like the traditional Iranian medicine and Indian medicine Ayurvedic, they both have a lot in common. Like they ask, they, when they see you they…

K- What do you mean they are in common, we're all the same, Iranian and Indian ??.

Q: I mean in terms of the treatment. For example, they create a body type. She told me my body's cold and dry, so I should eat wet and warm food. So, for example, lamb is warm, cow is cold, chicken from supermarket is cold, chicken from the farm is warm. Like she said, you have to eat like a (Iranian food names) .. ?? haleem, .. with almonds. But then it was interesting when I started eating those, my body became more flexible and less rigid and the whole pain and everything is gone. So, Indian medicine is the same thing, they tell you have Vata, Pitta, Kapha, a body type. Certain things you should not eat, certain things you should eat. (2:36). Then all the traditional medicines are all connected. How did they know about each other?

K- Indian Persian, and Western medicine is more or less very similar, because we used to be one part of one thing and now we just created an imaginary name and we stick to what we like.

But fundamentally the materials would give energy to you gravitate towards your condition, we call it, warm. The one you give energy out, we call it, cold in traditional medicine. In English, we say, I'm eating a cold food. They say, "oh no, I just warmed it up." No, cold in a way that it's taking energy from me. And this is part of the knowledge, what materials allows what fields to leave our body as an excess. And what materials gives us energy that we need from the environment, which they were grown in. This warm and cold what you talk about, if you change into gravitational (G) and magnetical (M), cold is what we call magnetical, warm is what we call, gravitational.

We put a seed of a lesser strength, that the bigger strength of the environment feeds for what is short. That's what we do some of the time, most of the time. (2:38). The food we eat is that little seed we put in as a. We do this in Gans technology. We put a lower (energy) patch on one side, and a higher (energy) patch on the other side, and you absorb energy, or get energy to come to the weaker side.

This is part of the food process we do. When we eat a food, independently, we put a little seed inside, and that Gans condition of the fields we put inside, absorbs energy from outside to our source. That's why we take that 20%. The other 80% comes in the direction of what we put in (comes from the environment into the body). This is why we feel lack of energy when we don't eat, even physically.

Because Man has not understood that the food we eat is that little Gans we put in, once it goes in our bodies, it’s in Gans state. Now any energy outside, which is matching with

that, will come towards, because it’s trying to satisfy that energy inside, which is little (lower in field strength). And that becomes that 80%. In a way we fool the environment to feed us through that process. And we can create a condition through our brain.

We tested that in the Enhancement Unit when a lot of you came in. We did some tests on you, what fruit would you like? Have as much bananas as you like. And the you come out and said, "oh, it was so nice, I had a banana. We felt good. I felt the energy." Yes, because we didn't psychologically put it in your head. You know to your body what banana, what taste, what shape you like. We put that seed in the emotion, the way you create the cancer in your body, (2:40). so your body absorbs the energy of the banana from outside, which you put a seed inside of.

We don't play magic, we understand and get a conformation by you telling us. What we did, what we put is correct. Because now you're in the EU, we have created all the energies you need in the basement on the tons of concrete, and you take it from our system, and it comes the banana you want. So, understand the technology that it does not become magic. Understand what the warmth means, what the cold means. When you have a cold it means the energy you take in, is more than what your environment needs, so you give to the environment. It reversal it, it’s a composition transfer energy. When you .. (interrupted)

Q: Mr. Keshe, it makes sense about magnetical and gravitational the way you describe it…
K- It doesn't make sense, it's the fact.
Q: I mean, the science behind it.

K- It is how it works. The food we eat is the seed for the energies we attract into our body. And because of the layering of the plasma as we call it, the skin, the muscle, the bone, and everything else, we create a condition of weaker to absorb. We've seen it.

Life works on a magnetic field interaction of the fields, and nothing else. And this is why we get addicted, or we enjoy certain foods, because there's a balance what we give, what we take, we don’t need. (2:42). And why do we get fat? Why do we put weight on? We can eat as much as you like and don’t put a gram on. You've see many, many people do. Chinese eat ten plates, and they’re still as good as a pencil. I eat one plate I put 2 kilos on. Because the emotional field strength within is not in balance. Then you block the energies to transfer out, and it absorbs. It has to find a place.

Q: But Mr. Keshe, if you go eat in Iran you don't gain weight, like when you are in USA.
K- You don’t eat so many Chelab kebab as I do.

Q: Mr. Keshe, if you eat Chelab kebab you don't give it really, because I don't have any craving anymore. But anyway when I go there I eat, but then I eat more than usual. Because I hardly eat because I just don't feel hungry and I go all the way to 3 - 4 in the afternoon. But over there, because it's there and I just eat it, but you don't gain weight. It's just I don't know what's the reason for it…

K- You don’t weight, because you’re as good as a pencil anyway. It doesn't matter where ?? you. We put you in the ?? North Pole you will still be the same.

Q: .. Another thing, I noticed a lot of people come and take blood from their back. And after that they feel so good. And I came to my dad, I said, they do (Farsi word) on the back. And then my dad says, when he was a kid, this was routine in his household and he always went and hide someplace, and they never got him to do, draw blood from his back. But why taking blood from the back of people? And then the doctor said, if I want to learn it, they can teach me because I'm a doctor. I said, no problem. So, I went and I watched and I saw how they do it. But the question, and then one person blood was coming out was literally darker, (2:44). like it was toward black, the other one was lighter. And then the woman said, this one is just a lot of stuff in it, so it needs more cleansing. So why drawing blood from the back?

K- No, no, no, no, no, let's just get the science facts right. First of all, this tradition of taking blood with the leech, or cut, or whatever, has become a tradition. In a way that by taking blood the liver has to work and produce, or the body has to work to create new blood. And that brings what you call it, fresh energy. This is the reason this is done for centuries. In many cultures they do this. It’s not that why they take it. Because is brought up psychologically to, that when you take blood, so your body needs to create fresh one. So you become more agile, you feel better, because it has to be replaced. That's the reason it’s done.

Secondly, why some is darker and some lighter? It depends which veins they cut. Are they cutting into the oxygenated system, as they call it, energized system going out, you get a bright color. If it is the cycle coming back, and it's already depleted, it’s dark. So they can put anything in it ?? interpret it themselves. Scientifically, we understand this now.

And then depending on the composition of the blood, we are all having the same blood. When that return blood you cut in, due to content of it, creates different color. If you have more zinc in it, it'll be different color, red if you have more iron in it a different color. (2:46). So, the color with it ?? (doesn’t) means you're sick or something wrong with it, it's got too much ??. People don't understand, and so they tell them and they believe it. Scientifically, we understand now, why they do it, and why the color is different. But it has no resources of it. It has no other reasons for it. It becomes part of culture, because, as you said, your father used to hide because, it does not need to be done.

We get this with the cycle of menstruation of women. And because certain way the blood is lost, and in the certain way the womb prepares for the creation of next life, moves certain elements in the body as a fields, which we see with the women. During the menstruation they go through depression. Then we call it, energy packs, which come through as an emotion to become the life of the new child. We call it, I feel different. They get crazy, they have pain, or whatever. So we have to understand the process. That in the emotion of life, we see this a lot.

Women who give birth, especially the first time they give birth, they don't have some, or most of the pains they had during the cycle of menstruation. Because there's always anxiety. Can I create? Would I create? Would it be a perfect child? And when you give life and you see the perfection in your child, those anxieties are gone, then they call it, the body doesn't create hormones.

Hormones are part of the emotion in the dimension of the energy field of the body of the woman, for all of us. (2:48). We have never understood this. We have never understood what it means to go through it. Why do they say when a woman goes through menopause, ?? behaves this, becomes more or less ??. Because a woman is born, given life to give life. And now gets to the position that she cannot give life. What she was created for she's become incapable of. The anxiety, that I'm not there to see the continuation of the life of the generation bring this. And then you call it, a hormone.

If doctors understand this, and talk to the women, that you have served the purpose to the best, you are a beautiful woman, you created the most beautiful children. And the woman understands, they go through nothing through the menopause. If then the chemical biological changes can be controlled. Then we understand more about the psychology of the Man which now we call it, hormones.

In a way it's hormones if you translate it in the right way, it's exactly like viruses we have. But he have managed to give itself a manifestation of physicality attachment to protein. Protein in emotion, we call it, hormones. And in the outside body of the Man we call them, virus. But more or less they are about the same thing, because they don't carry that emotion. And now the viruses we come near to emotion we call them now the new Covid, suicidal, creating depression. (2:50). In the life of a woman we call it, oh, it's ?? is going through menopause.

Why is some of the women go through suicidal condition, we call it, post-delivery birth, postnatal depression, because emotions cannot fit into the direction of the expectation of ?? life. We are not inside the brain of the Man. And a lot of postnatal depression can be resolved by men, especially partners, being there to support the emotional turmoil of the life. The man is so busy getting ready for a new child to come, I work 10 times harder, this, this, this, whatever, and the woman sees herself alone. What am I going to do with this thing. ?? cries in one end, and then something else comes in other end, and it repeats itself, doesn't even smile.

What did Muhammad, bless his name said? Arabs used to give birth on the ?? sun, and if it was girl they dug that hole and covered it, the child was still born, but it was a girl. Muhammad said, keep me for 40 days, you won't let me go. Because after 40 days is the first time you see emotion, smile of the child. And that emotion touches the STM. Then I play with your emotion, and the girl learns about 40 days old, how to play with the emotion of man for the rest of her life. And us men fall for it like a brick.

We have to understand the science of Creation, (2:52). not the visualization and manifestation of physicality of the emotion. Then, we become much, much wiser in the process of Creation. You explain to a woman who goes through menopause the full process of why emotion, what emotion, the perfection of life she has created in her children. And I'm there to be, you will see not much problem. Physical changes will come in, because it's set up. And men don't understand this, and society doesn't understand. And then part of the emotion, the way you create the cancer because of the ?? harm of your son as a prostate, now manifests itself in hormonal change, we can't explain. And these are where the right Gans's of protein are produced, which can interact with the emotional brain of the man, from lack of, "I can't produce anymore."

We don't understand it, we never understood, we never connected. And some of those who understood it, they became the "wise men." But now you're all wise, you understand the process, you understand the process of interaction of the fields. We cannot just take the Gans's, which made for physical body, you have to look at the fields which interact with these and create what they create, mass and weight. The mass is that Gans there, and the weight is the reaction of it when it comes out in its environment with the interaction of the emotion. Then we become wise people of the generation.

K- Mr. Keshe, but you know, (2:54). I just have one thing… The way I look at it, I've made it logical, because we have a DNA. And in the DNA, where did the DNA come from? From my parents. And then the DNA of parents comes back to the older generation. So with that DNA, when anybody is born with the older ancestors are part of that DNA, it's inherent. There's certain things, certain things say, emotion. Like, say, fear, or jealousy or anxiety. It comes because when I was younger, when I remember at the age of 12 and 13, since then, especially Thursday afternoon, or sometimes this huge sadness will take over me. And there was no reason for that sadness, I didn't know where it was coming from, but it would come over me. So, when I went to the Amazon in Peru through one of the ceremony, the shaman next day told me, you bought the sadness from thousand years ago, and now it's gone. So, when I look at my father or my grandfather as a picture, I see the sadness in them, then I realize. And then, I was reading this guy, his name was Anthony de Mello. He was a Jesuit priest, it means he was Christian but not bound to the church. And then there was another Tibetan guy, he was talking about the same thing, because he had anxiety. What it says it says, when those emotions comes, inherent emotions come, whatever it could be jealousy, it could be fear, it could be sadness, don't fight them, just observe them. Because just like, if you want to fight them, you make them stronger. (2:56). As long as you observe them, in time they will dissolve. It just like when they tell the priest, don't have sex, they try to fight it, when you fight it, you can actually go abuse the children because you're fighting it. But when you don't fight it, it goes away. So, everybody was born with some inherent thing that is in our DNA, it's not in our control, but then realizing it and acknowledging it, you just, you become acquainted, because…

K- That's the beauty of Creation. Otherwise, we all have been on the bottle production system. ?? You go to a factory, every bottle is exactly the same. And the one that has got a slight fraud, they take it out of production line. So, the beauty of Creation is the

diversity, the interaction of the fields, and attraction of the field with each other. That's the best gift from the Creator. Otherwise, we would be one mass production. What did (Henry) Ford say, "you can have any color as long as it's black." Yes? And we are not in that position, we have…

Q: The Creator wants us to know ourselves. So acknowledge our self as we are, and not to become somebody else.

K- You know Azarjan, you speak about Chelab kebab, and I've said that many times. And I have a soft spot when it comes to it. And if people realize it, they try to use it to their own benefit. When I went to Iran I hit part of what is now, the Ramadan, fasting time. And we were kept in a secure houses and all the things, which goes with, what we call, the works we do as nuclear physicists. And we hit Ramadan. And these people knew, in the office of ?? (Iranian leader). (2:58). And my food always came from the kitchen of the president because of the security reasons. It came with all the razzmatazz we see. And they came to Ramadan. They knew I loved turkey. I had a kebab for lunch one day, beginning of Ramadan. I had a kebab for dinner. I said, this is strange, because we used to get different foods from presidential kitchen. And then the next day or so one thing and then it was again Chelab kebab. I said to my protection officers and the people who look after me. They were opposite apartment to me and they ?? adjacent to me. I said, what's going on? They come and set your table. They treat you befit a scientist in Iran, it's not what we see in Europe. Everyday you come for breakfast is set for you in your apartment, and they set you lunch and dinner and everything else. I said to the gentleman responsible for the food which had apartment across from me, which had a ?? protection officers. I said, how come I'm getting so much Chelab kebab? He said, Mr. Keshe, there is a problem. I said, what is the problem? He said, we know you love Chelab kebab. I said, yes. He said, come and I'll show you in the freezer. I said, what do you mean? He opened the door of freezer. He said, I have here Chelab kebab for 30 days, because the kitchen and presidential office is closed. And they know you. I just need to warm the kebab for you and the rice, and that's all I can do. I saw the head of the office. I said, I'm not eating Chelab kebab three times a day. They went and they discussed it, they came back and they said, okay, from now on there are specific restaurants we keep open to take you for lunch, and we know Ramadan was summertime was very late. (3:00). We arrange special restaurants for you to go ??. So I could get a variety of food. And I sat and thought, oh shoot, they have even studied the psychology my food.

They have even studied as a scientist, what pleases me and what keeps me happy, that they can create that condition of comfort. It gives me a lot of pleasure in knowing how much a government goes to extend to make sure the people who give their life for the nation are looked after in the correct way that they can do their work. If the guy wouldn't take me to show me the freezer, I would have not known how much in depth they've gone to, what you call, to cover, that there is no, but they've miscalculated too much. It's the emotion which brings us that pleasure, it's the emotion which brings us dependency on repetition and addiction to that pleasure.

Q: Mr. Keshe when I was there Ramadan started on the third of the new year, so one day at 2:30 I wanted a Chelab kebab. I called a kebab around the corner. They didn't serve it, so I called Dr. Bararpour and Dr. Bararpour sent it to me.

K- I know, I know. We get treated in a different way in Iran as scientists. And the way they actually there was one kebab, (3:02). we opened certain days just to serve Chelab kebab, which was against the law. You know, they use get punished for opening restaurant during the Ramadan lunchtime. They used to have already food enough for five people, which was usually me with the Caboodle, which we travel with for security reasons. And the five used to sit and watch for one person to eat, and I thought, the smell of this must be killing you lot. He said, Mr. Keshe the pleasure you enjoy is more than the food we can eat. And this is what we see. I love to work in Iran. They respect scientists in a different way than in the West. They kill us and they shoot us, there they respect us and create every condition. That's why we could achieve so much in Iran so fast. Anyway.

Shall we call it the day?

Q: .. Can you elaborate on what happens to fields and rays going through the center of the vortex and how that links to what one would call intention? And how intention can transmute and direct these fields and rays?

K- Sorry about that, what vortex are we talking about? (3:04).

R: .. I guess that in some in some schools of thoughts everything, the energies or the plasmas have a vortex or a squeezing point, you could say. Or sometimes people might say, the zero point, ?? the center.

K- Yeah, where you can get an exit of the fields, as you call that, the vortex. Something has to happen. If it's not a matter, it's an energy. You're squeezing matter together when you create a vortex. We are creating a circular motion, which leads to absorption and release of energy in compacting.

If you do it in a bathtub and you take the what you call it, the plug out, you see the energy forces they ?? materialize. If you're in a closed environment the energy has to be released in one direction and absorbed in another. So, what you expect and what you want to do. We do that a lot in space technology. We create vortexes, especially in defense technology.

The knowledge in that D is. In the matter state we call it, laser, mono-energetic. (3:06). In a plasma condition if you create it, it's a plasma field. This is one of the ways you can project high speed plasma and elevate its strength to go up. In the future teaching we'll teach this more. But it's compression to reach zero point energy, or to the hydrogen energy, we call it. And usually the fields strength of the matter is very much different than the field strength of the plasma.

If you create… It's a very in-depth knowledge, and it is part of what you like to call, a "worm hole." This energy distribution has to be looked at two ways. One is matter state compression, and one is the field state compression. When you interact in the right direction, in the right position, you can play with it in a very beautiful way.

In accelerating plasma to reach a higher order, this technology what we call, vortex, it's one of the ways, one of the best ways to create elevation in the strength. In the matter state when you can do that, you see the increase in the speed. (3:08). I've done a lot of work on this compression vortexes of the fields on the plasma in the matter state. And it has a huge application.

Sorry about that, I have to answer this question (call).

Sorry about that. Anyway, to understand that vortex is zero, there is no zero. It is finding the conversion point. At the bottom of every vortex there is a conversion point. And you have to understand what does it convert to. Because if it doesn't do, if energy doesn't convert to take another dimension or direction, or strength, it explodes. It becomes like blowing up a balloon and compressing it. (3:10). It needs a lot of knowledge, it needs a lot of understanding.

Plasma vortex technology it's, or matter vortex, we know a lot about it, because we create it. Even in the matter state vortex, if you understand field distribution, compression of the magnetic field of the elements of, it's a totally different game ball. And then, if you do the same vortex in different conditions of the plasma fields it's a different story altogether.

Knowledge Seekers have not understood the principle of the matter and plasma and their interaction and collaboration in what you call, for release of it. One of the biggest vortexes, which happens on our life continuously is on our skin. Our skin, that's why you have these holes where the hair grows. These are where the energies which we absorbed from the environment, as part of that 80% are fed into. Those are the hole gaps, these are where it comes in. This is why we have antennas to what vortexes we absorb, as hair. Our hair is a Nano material, and it has a specific field strength. The color of it, the root of it. Why do we change color of hair by age to white? If Man learns to release the right strength field by emotion, (3:12). Man will never change color.

And through our skin, if you look at your skin it’s not flat, it’s hexagonal. It’s like a football, plastic football, if you used to play with leather football. They sew them together, and there's a point of junction when they come together. Our skin is those junctions and that's where the hair is. It doesn't matter, even if you don't have a hair on your body, the finding ?? fine, which is inside, creates that attraction. And in that point, the root of the hair, these vortexes is energy difference transportation. That's where most of your 80% energy from the environment is directed to.

Vortexes technology, if you understood to the position of the Creation is a way of ?? feeding, it’s a way of understanding. That's why you have different hair, different shape,

different strength, and different ages of different hair, and some have no hair. It doesn't mean anything else, but the body has this fine tuning of the vortex conversion.

If one day our scientists develop the technology to watch the fields, you'll see how we're absorbing energy through these holes at the point of the hexagonal, or whatever shape you have on your skin. Those gaps are where they ?? like, you know, you create a slope in a tent to get rid of the water when it rains on it. That hole is where the energy comes in.

Man has never understood the process of the energy absorption from the environment. And ?? vortexes is one of the most fundamental ways that we transfer energy in and past the skin, (3:14). which is supposed to be perfect no water. But at those points it's perfect for energy to transfer directly into the center of the body under the skin. We call it, the root of the hair. It's like you put an antenna up and you say, this is what I want to absorb. And then it just goes right across the body of the man.

If you understand this, then you understand why it's only in ?? places, such places, we have no hair. Even if you follow the condition of the growth of the hair, you find the behavior of the Man. Because certain absorption of certain fields, creates certain emotions, because this is where 80% of our energy comes from.

The science of when you go, it doesn't go to zero, it goes to point of conversion. How much of it convert and how much it comes back. In a way, if you don't have a hair you cannot… I will put it this way, you're not totally hairless, it doesn't matter what you do with it. You release that antenna, what comes in. It is like a fountain blowing up.

The way people's hair is, the way the color of their hair, the way they change their color of their hair and emotion with it hasn't been understood or studied yet. Why some girls like blonde to be, and some girls like to be black, the black likes to be blonde and the blonde like to have a dark hair. The one who have a lighter skin go and get a suntan to be brown. And the one who's got a brown skin tries every kind of bleach to be white. (3:16). Psychological depletion of the emotion.

And this has a lot to do with what we absorb from our environment. And they tell us, the food we eat is the person we become. Because as I said, you put that little seed and then this is the energy you absorb. What you absorb interacts with the environment which you are in, to absorb it from. When you see a beautiful woman or a very handsome man, this holes needs a lot of attention. They beauty they absorb the energy they get. It's not that they're so beautiful. You have to see what the Soul is set, they absorb, and what is the destiny of this destination of the Soul in its departure. Why does it need so much? It doesn't matter what color you are, you're still beautiful as a black, white, brown, yellow, whatever. And this is the beauty of the Creation on this planet.

Q: You said the person is beautiful they want attention. It means the Soul decided to become beautiful, because it needs to have attention in this lifetime?

K- Yes, yes 100%. Our beauty is… You see, what we don't understand psychological is psychology, or absorption of the fields, is set. You know you make a, you make a pot, this pot goes into the market, or you make a pot for the house of a king. You understand? So it's the same. The Soul when it's made, knows its point of destination. And what needs to be, (3:18). and what it needs to absorb to reach that point of destination.

When you see a normal person it's not a normal person. It could be to you a new normal, but to the eyes of somebody she's the most beautiful, he's the most handsome man. But when you see a beautiful woman or man, a handsome man walking down, or even a cat or a dog, which are beautiful, it takes attention, it takes energy. And that energy is absorbed, that energy comes to. And this is why you see beautiful and handsome people some of them become very arrogant, because they receive so much. Their emotion cannot even handle what they receive. They're not … ?? aware of that, fully aware of it. But you have to see what that Soul is destined for and where. He could be a very weak strength Soul, as he has a long way to travel across. Or he is going to become a shining Soul, and be very near to his point of destination. We are the nursery of the Universe. And how we plant, how we ?? develop that seed, that where it grows to create a life and continuation of existence, is the job of the STM.

Q: But people who look at somebody as beautiful and they go do surgery to make themselves like that, what is that?

K- You can change a lot of things, but the Soul doesn't go that way. "Bo tucks" doesn't always come and make you beautiful does it? You have to understand the process of Creation. Otherwise, everything is ?? .

Thank you very much for today. (3:20). Let's see where and how we come to share more knowledge. Join us on the 28th for the addiction. And we would like Knowledge Seekers to, if you cannot do, or if you like to, to support for those who we have a special reason, for a specific races, colors and creeds of the Man to be part of the 25 and 200. And we need to do that as part of our work to be able to do. If you're disabled or you can't leave your work, ?? but you have the wealth to support someone from Africa, someone from Asia or whatever, to be part of this process. We need it, and we'll explain in the coming time. It's a collective work, and with it we have a collective job to do. And don't turn up on 28th just because you're an addict. Turn up to see what your Soul is addicted to and where is its destiny. Thank you very much for today. And I hope we shared more knowledge to enlighten you about what is to come. Thank you very much Rick. And we see you next time.

Soul makes agreements to balance - P complies - Soul in charge; Learn through P to connect STP then STM; No methods - elevation; Inertia Gravity teachings continued - Emotions; STP & Emotions; Robots with emotions; Emotions always parallel M & G - reference points; Linz Center closing moving; New plasma "Ball" creates everything; Material production; Light in Jerusalem explained; Disease of excess Ca; Chakras counterbalanced with Spine; One Nation 60% setup tested

ENGLISH TRANSCRIPTION

(:22).

K- Yes, thank you very much. Good morning, good day to you. As usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute, we welcome you back. And we hope as usual, we learn from each other and we teach each other something about the real ways that the Creation is done and it works.

Today's teaching is part of the continuation of the other parts of the teaching over past few months and years. And what we're going to look into and what we understand from the point of belief, the way we have been taught it, and the way it actually is. And as we hear more and more about the science of Creation, we understand how little we know and how much fallacy we have accepted.

We consider ourselves to be the decision makers of our physicality (P). But in fact, the decision maker of our physicality is our Soul. We are a puppet in the hands of our Soul. We make decisions we do things, which to do with the food and we exist in it with the dimension of physicality. That's the job of our physical condition. (:24). We go and look for water. We go and look for shelter, we look, we go and look for something to give us energy to sustain this physical body.

But the master, the Soul of the Man (STM) sits behind. How it creates destiny for the physicality to be in a position, then the physicality has to follow that, to be in the position in which the Soul has agreed to be. To be present in a continuation of expansion of interaction of the Souls of the man. We call it, "accidentally I happen to be there. And accidentally I saw this and that and accidentally, it could have been by chance or something else. I happen to be there." And I happened to do this. We have created word which we don't understand for the operation of the STM to bring the physicality in the position where it needs to be. It's like you tell someone, they're going for a blind birthday

party. So you bring the birthday boy, but he doesn't know he's coming to the party, as we spoke before.

So, in a way, the Soul of the man with the Soul of the mother has agreed to meet the mother in such a such a place. So, the physicality through connection with Soul of Physicality (STP), makes sure that the physical condition is there, to deliver to bring the interaction of the Souls for certain purposes. And then, later on, we understand why we were there. Why we met the mother at that point in time, because the Souls have decided, for your Soul, and the Soul of the mother to learn something from the interaction of the future interaction of the Souls.

So in a way, we are running horses at the same time. (:26). The horse of physicality we think we are in charge of, and the STM, which itself with the interaction with other Souls come to guide and bring the STP for it to be there, to bring the physicality to deliver the promise and agreement between the Souls. We call it revenge. We call it the condition that, he did something and now that's the payment for it. He did something wrong, and he deserves this.

We have found different interactions, or voices, or noises, or communication line to explain what we don't understand. The connection between the STM and STP of the man, and the man in a physical dimension (D). And in that process, we need now to understand this, that, why did I turn up in such a place to see such a thing? And what's the outcome in the future for what I've done? What was the purpose of me being there. 50% of our lives, maybe more of it, is fulfilling the commitment of the Soul to the others, other Souls for the physicality to be.

Even if you get lost in the desert, there is a commitment to the Soul of the others. Even if you get drowned in the ocean, there's still a commitment to the other Souls. It's not just that you've drowned. (:28). It's not. That process has caused other Souls to bring other physicality's to the position they've done right, or wrong to be in. It's not just a funeral we go to. It's what comes in the process of the funeral. The Souls which have been set to, to come in to. To deliver to, and to comply with the total agreement of the Souls.

A child to becomes an orphan. Somebody loves his son, somebody ?? kills a son. Why are we born in such a moment, such a day, such a second? What would have been the effect of it on the parents or grandparents, if you were (born) a week before, or two weeks later. Then we come to understand, that now we have to accept, not only accept, understand, the full comprehension of the time, place and position is dictated by interaction of the Souls and interaction of the STP with the physicality of the man in communication with the Soul.

It's an ever, never lasting "blind dates." Telling us. Calling it by chance, "accidentally" and the rest. But in fact, it was already set up. But you were blindsided. You could not see, you could not understand that, what your grandfather did, what your great grandfather did, what your mother did, and what your brother did, and in the consequence of the agreement of the Souls, you're balancing the fields. You're not paying back. Have

you ever seen a magnet jumping and going somewhere else, he thinks something else? He just keeps a distance. It creates a condition.

So for us as a human race, the physicality of the body of the man, this is what we have to understand. (:30). That our physical existence, 80% of the time we think we do everything, we are in charge, we put the suit on, we put the shoes on, 8 o'clock we're on the train, 9 o'clock we're in the office, we come back 10 o'clock, having a coffee, and then five o'clock on the train back home, we control everything. Oh boy, how misguided the man has been. The STM uses those times, which you think your clock work, on the same train, same time, every week for all year. It plans your time for the interaction of the Souls in that time bracket.

So the STP and STM plan your day, internally what it needs to be done, that it brings the balancing. Most of the repetition, magnets don't move. When there is an external force, when there is something done wrong with the other Soul, and that Soul has the word, oh, I have to suddenly go out, and you have a car crash during the lunchtime. But why? This was not supposed to happen. But this is exactly what's supposed to happen, because there are other sequences, other effects, other dimensions to this accident, which was set up by the Souls, for those, for you, ?? not for the others, to come in the position of what was done wrong, or what was to be corrected.

Then, in the simple way, you understand how the Prophets promised, there will be such a messenger in so many years, and so many centuries, and so many decades, and he will do this and that. It's the guy himself changing the clothes, appearing in the same place, (:32). because he's already set all the Souls through the effect of his own operation, to be ready for that. And then he appears and manifests himself. Resurrection of the Soul over 2,000 years. But in fact, in this 2 thousand years he is preparing other souls, for it to be ready, that when he comes, he says, "oh, this was the one which was promised."

So, if you understand this, you can plan with the correct conduct of the STP the future of your Soul, the operation of your Soul, where it will be, what it will do, what kind of stars will be when it leaves the point of physicality. And then mankind comes to be understanding, he is not very kind to himself. Even though he claims to be kind to everybody else. What would be, if you understand this position fully? And what would be, what will bring all of us, if this point, and this part of the Totality was fully understood?

Would a man commit a crime again. Would a man should kill again? Would a man go out of his way to create mayhem in every direction and possibilities? Would the life of the man becomes bearable by living of the man, in conjunction between the STP and the STM.

Something happens. (:34). Or some accident happened. But the truth is, what can I learn from it? What was my Soul. What was my physicality, my STP was trying to teach me that causes the elevation of my Soul in the next step, that I don't put a step wrong. Not just, "oh, something happened, I carry on."

How do, and where do, and the system that the STM communicates with the STP? On which bandwidth? On which structure? On Totality of understanding the structure of the physicality of the Man. The different emotions are settled, compacted. We find the ?? correction of the total energy, which released by the Soul, in friction with the cell of the body of the Man, creates certain knowledge, certain information, which the what we call, STM has full control of.

Don't forget, you never studied French, you have no clue what "monsieur" means, or what ever in the language. But the STM has been to the "universal" University, knows everything and according to the time and place, can use that to speak French. To understand the emotion of the French, without speaking a word, because in the emotional level everything is the same.

Then it comes to the point, what do I need to know about the emotions, my emotion? And is the emotion the same amongst all of us. (:36). Today's teaching is more or less for you to know yourself. To understand the connection between the STP and the STM, the operational of the physical body of the man, even though you think, you are fully in charge, you are carrying on the order and the wishes of the Soul.

And if you understand you're forever servant to the master, which is the STM, which is the, in a way, wanting the better life, for the life of the man in a box, has appeared and will appear again and again.

What's the limitation to this? There are no limitations. What's the understanding in this process for us? The process, I'll explain something simple. From now on, look at both sides of the dimension of physicality and the dimension of the Soul. Why did I say this word, which I can't even remember ever using it? Why did I show this affection to my child where in public I never show? Then the answer comes, it's Man who interferes directly out of fear of his own existence in the dimension of physicality, that creates all this mayhem for the rest of mankind.

To what extent we will come to understand this depends on this extent we have understood about the process of Creation, our own life cycle, and how this cycle has affected other Souls. (:38). And if you are true to yourself, you'll find one answer in the end, the answer which was given at the beginning and in between, it's just been series of conversions and everything else. Except the truth about the actual life of the entity in existence ?? amongst ?? us.

How much more, then to what extent we can pass this knowledge on, to share it that the others share ?? with you? It all entirely depends on Knowledge Seekers (KS). How do you teach? How do you add the knowledge across, that the others understand, not only your Soul? And then would you be able to share, to give, and unconditionally?

The existence of Man has many facets and many dimensions. Mankind needs to understand this, and then in that process, mankind will come to comprehend how his own Creation has become fed up, giving up on the dimension of physicality.

How far can we go? How much can we bring this understanding forward will allow us to become the Man of Space? As we said, we will run two parallel systems, physical travel, (:40). and dimension of the STM, or central energy of the existence of every living things in the U. And if you understand this, then we can decide. This part of the journey I go with the flying machine, and this part of the journey I go with the energy of the STM, and wait for physicality to arrive, but understand the dimension of the existence.

In a way, the Soul takes flight of fancy, and the STP will follow to join it on a given time, place and position. What happened when Man dies on board of a UFO, or any creature, and is traveled through the span of the Universe? Where would the Soul find his place and position? And where would the Soul finds its peace, in a way, the position which it was destined? Can we extend our lives to the understanding of this position? And can we predetermine where our Soul shall go? What shall we do? And how we will expand the knowledge of the others who are around? Not knowledge by just reading, knowledge by understanding the emotion of the Creation. Then it comes, if we can do this, how come you're not aware of our Soul, the work of our Soul during our daily life? And how can we work to see its elevation, that it serves, than actually taking? (:42).

Then, the answer is simple. Look within, emotion. What emotion creates ?? why come the motion within your physicality? And do you trust what you feel? Do you understand how you feel? And do you understand why you feel? Would you be able to create a condition that you can elevate the strength of the Soul of your own or the others. Or clearly, you find a new way to communicate between yourself and the others.

In the coming time, shorter than you think, I will teach you how to see through the eye of the Man, and at the same time, understand and see through the eye of the Soul, or understanding of interaction of its fields. And then we'll see how you as Knowledge Seekers will take steps to be there to understand more, and to be part of your own Creation, and your own emotion, and your own dimension of ?? travel.

Everything in the dimension of the STM has no formulas. We cannot write, can you teach us, can you give us a system that we can elevate our Soul. You have to learn through the dimension of physicality which you have been taught, how to connect with the STP, (:44). and through interaction with your STP make connection with the STM. Jump in from the physicality to the Soul it's more or less, not the impossible, but ?? not impossibilities. You have to be able to interact directly at a given strength, because don't forget, it’s the Soul which created the STP, where the physicality brought in the Soul in the womb of the mother.

Now, we come to understand. We in a way have come to the point that we start gradually understanding that learning the space system for the Man to travel in dimension of the

Soul has no calculation. And has no method except understanding the process of elevation of the Soul.

Think how you as a Man with all the teachings of two years, been nourishing your Soul from the environment of life? You breathe it, you extend its strength. You swallow it, you extend the strength. You think and absorb energies from outside, still create that condition that you can survive. Then it comes the process of, what's the reason for life? Why am I here? And how long more is left till my Soul finds its home? Then, maybe one day we'll find the answer to the totality of what is on the table. (:46).

Any questions if you understood should come from within the Man, and not from outside in a verbal direction and dimension of the Man. Connecting makes you wise, then that wisdom shows the path to the Creator. It's for you to decide how much you understand and understood from separation, filtering and cleaning of every dimension of the Creation, which is in your pot.

How much more Man needs to know? How much more Man needs to trust himself, and what it will take, that you as the Creation and the Creator know and can provide for the Soul of your own? As our friends says, I do not know what to do. But I'm doing something because I'm still breathing.

In the process of understanding the Creation and the Creator, we have to understand ?? at least ??, what is going on. What is ?? visibility and what is the possibility. Then don't make assumptions. (:48). We have to understand the process of the Creation. And in the coming time systems will be set up for Man to learn the process, to go through that training, the way you get trained how to drive, you get trained how to swim. Now, with understanding the process of Creation, you learn how to swim in the ocean of the fields of the Universe, not as a fish, not as a body, but as embodiment of the energy of the STM. Then you'll find that you will be going everywhere, but there will be visual, physicality in the dimension of existence. Where you are just being kicked out as the session is not about to happen, but it actually does.

Does the STM, has the STM made the STP blind for it, not to show in the dimension of physicality to the Man the truth about himself? And to what extent we have come to understand the truth about ourselves, the truth about our Soul, the truth about the dimension of the Creation of us?

Today's teaching is enlightenment in the dimension of the operation of our own Soul, and nothing else. Would it be from C14 coming in to C12? And how much of it will be Carbon this and that? The Soul does not need Carbon, and does not have frequency, and it does not work in what it decides to ?? be. It operates in the dimension of what comes and where it has to go. It’s actually a postman, it’s a postbox. (:50). Where whatever the other physicality’s are done, in agreement with their Souls, my Soul agrees for me to be present at the time, place and position.

Now we understand how we, as a human being, have to comply with the Totality of the wishes of our Soul and not as we thought with the hunger of our physicality. Then, if you understand this, and then if you comprehend the separation between the two, then we will come to be part of the Totality of the operation of the Soul of our own in the dimension of Creation. One day Man will understand that. One day Man in understanding will come to change his life.

We are just in the process to create a dimension that you understand the operation of your Soul, and not to be what we call, a guide, for you to use to move your Soul when and where you want. The teaching is for you to understand the power of you, for you to understand the extent of knowledge of you about your own Creation, that with it you create a new dimension for life.

One day Man will become wise, and one day in that wisdom, Man will see the truth. But till then, we try to drag the Man along till he becomes wise to see the wisdom. Maybe today you understood, you have to understand or you see the possibilities that will become reality with building, developing, (:52). changing and doing everything possible for us to understand the operation of our Soul.

What will be interesting in the coming time, how humanity will start learning about his Soul first, and then about his physicality. And to what extent he will understand by feeding the Soul he can feed the physicality the way he wants the physicality to move. So, the STM and STP of man become unisons. But it's vulnerable that both can be involved in the dimension of another position, time and place without their own choice, but through the choice of where they have to be.

One day mankind will become wise to this, and one day mankind will become wise to understand the Totality of the Creation, which he himself is part of. To what we need to do to be there in those kind ?? of position. We will bring in new tools, new tools of teaching, new tools of carrying, allowing you all to play with. We go for a small break and we come back. And then if you understood partially what was on the discussion of the, on the table today, we'll carry on to answer some questions. Rick, would you like to go through a break? (:54).

BREAK >>> 482 KSW April 20, 2023 (:58).

K- Yep. Ready, Willing.
R: Let me remind the attendees that they can raise their virtual hands and then we can allow you to open your microphone so that you can speak and ask a question. No hands are up right now.
K- Thank you very much, we can say goodbye, and see you next week.

Q: ..We started to learn about how the Inertia, (1:00). creates matter in terms of interacting with the MaGrav fields of the plasma of Gravity. How does the emotion come in?

K- Repeat the question and you answered yourself, if you understood.

R: We started .. to learn about how the Inertia, creates matter in terms of interacting with the MaGrav fields of the plasma of Gravity. How does the emotion come in?

K- Emotion does not exist, cannot exist, if you did not have the STP, impossibility. It's interaction with the STP creates within the physical structure of the Man, emotion.

And, as we wrote very recently in one of our communications with some officials, the knowledge of the Keshe Foundation has reached a position and time, and level, that now we can produce for example, robots with emotions. It's not programming. It feels, it detects the field strength that, to it means "clean up," do it means, be safe, whatever.

Very recently, I was in the position to enter a lift (elevator). Next to me there was one of these big robots you've seen it, which now they're everywhere. (1:02). I call them "Susie's." But this guy was wearing a bow tie, front, and everything. I ?? .. was on the lift. The lift door closed, and the lift door opened again. And the Susie came in into the lift, turned around, faced the door and pushed tower floor 17. Waited, when he came to the 17th floor, he went out and following it, he went through the whole corridor, floor by floor, cleaning the whole building. It has no emotion. It has preset.

If it sees a child, or a dog cannot show emotion to it. It's a robot. It is a physicality. If, in the dimension of the development of technology where we are, we can create the interaction of the fields at a given, a specific strength of the field, when the robot sees a child, or sees an animal, it will show the real affection. Can I give you water? I feel you're thirsty. Can I bring you some water? I can abandon my job which is programmed to clean the floor to go and get some water. I see a child hurt on the corridor. Oh, how it is? Can I go? It's something I have to respond to.

Up to now we didn't have this facility, up to now we did not have this knowledge. Now we can create systems with emotion. And all it is, it's understanding the process of interaction of the fields. (1:04). Which of the same thing is joy and cry? Pain, cry of happiness. Pain cry of pain. How can we ?? confusion in this as an emotion? We cry

because we are happy, we cry because we are in pain. Isn't truth about it, is that one is stronger in gravitational, and one is stronger in magnetical. And the balance between the two is emotion of cry in the physical dimension of tears.

This is why joy and sadness are in the same place in the brain of the Man. One is gravitational, one is magnetical. When you're joyful you give, when you're sad you take, because it's the energy you need. Because that sadness allows you to take more in that in the future time it become a joy that you can give.

So, up to now, Man never understood what emotion is, why we have always parallel opposite emotions. Because it's very much like an isotope, it is Carbon. Sometimes it's 12, sometimes it's 14. If it's 14 travels in the D of the Universe, if it's 12 it travels the D of the P. Which one is joy, and which one is sadness? Is it joyful that is brought in and given and allowed to be given for the physicality to link up with the dimension of the U? Or is it sad, (1:06). that he cannot give to the D of 14, and he has to be as a taker?

So, now we understand even how emotions have 2 true what we call, presentation and manifestation. But in fact, they have the same common denominator. It's a Carbon, the other one is, let's say, Magnesium, we call it, whatever feeding and opposite to it. Because one is gravitational side, and one is magnetical side. And then you have to understand on which side we are sitting as a magnetical. Are you in the dimension of physicality? Or are you in dimension of the Soul?

So, emotion now is fully understood by the Keshe Foundation. And we can replicate systems that create that emotion. And if you mastered it well, you don't need KF, through the STM you connect to the same strength, and then you decide if it's the sorrow I can give it to become joy. You're very good doing it as parents, and when it comes a bit to our older children. we forget it. Unless we are deliberately manipulating, which means in the essence, only physicality is in operation. I've sat on the table, where the person looks at you with anger and switches to the other side and laughs. Switches back to you again with anger, and how can he have two face? But in fact it's not two face, it's the way the emotion, the Soul has interacted with the physicality, confirmation of the weaknesses in physicality.

So, when you ask about emotion, now you have to understand what emotion is. And it's in fact, (1:08). it's the interaction between the STM and the STP of the Man and materials created to absorb emotions, at a given strength, we call it. If you've seen the new technology, this is where the sadness is felt. This is where the languages is in your brain, and this is where the other thing is.

In converting from the Cosmic Rays (CR) into the matter state of physicality of the Man, certain energies released, and in that position, we can say, what this position of the brain is. Because at that strength we shown tears. At this point, at this given strength we shown joy and laughter. So now even we can explain in a more detail way, the operation of our brain in the manifestation of physical data on the screens of monitors. But the STM does not have monitors, and the STP does not carry a screen everywhere.

Then, I think you have found your answer. If you understood the process of the interaction of the fields, and which side you sit as a giver or taker, depending if you're on the Soul side, or the STP. If you're on the Soul side, you'll find elevation and dominion. If you're on the STP you find action and reaction in dimension of physicality. Tear, laughter, where what was felt in that position triggers certain other fields in the body of the Man, which manifest yourself in the dimension of physicality.

It is the same, read Book number one. When the two fields interact, creates mass. And one again when mass itself interacts with the dimension of the same fields, it becomes weight. But in fact it's one is created out of interaction of the others. (1:10). If it's less weight than the others compared to the position, then you call it, happiness. If it's more, you call it, fat, and the more or less, you call it, slimmer or the right weight. But the fact it's the same structure, the same interaction.

So, when you're talking about the emotion, you have to understand the interaction between the two. As I said, very recently, you cannot test fly if you don't have two points of reference. Where are you flying to? Where are you coming to (from)? It's the same with the emotion. Are you going from the Soul to the STP? Are you going from the STP to the Soul? And in that position, that given strength of the brain of the Man which is again, it is just a, potholes of fields and plasmas. What will be the reaction if the Soul gets with the joy of learning that this makes the physicality happy, then takes the body to be enjoying and being in a joyful condition all the time. And then you find the emotion. And them, in so many ways, you'll find the process of addiction. Because at that point you're addicted to creating the same thing, the same rhythm all the time, to achieve the giving and the balance of the emotion.

Any other question?

Q: .. One of our Chinese Knowledge Seekers asked that, since recently, there's so much sand storms in Beijing, (1:12). and it cover most of China. So he's asking, is there a solution to resolve this issue?

K- Yes, abandon the city. This is something we discussed years ago when I was in Beijing. For those of you who don't know, is that, some 10 years ago, there used to be round about 30 days, 20 days, 30 days a year, where the sand storm coming from Central Asia, which is on the northwest of Beijing, is on the move. This desert has been on the move for thousands and millions of years. It's one of the biggest deserts on this planet. And it's eastbound wind creates mayhem. And if Beijing wasn't here, it would have been the same as if Beijing was here.

We have built this beautiful city on the path of the movement of the desert. Which over the next few million years, again becomes a land maybe an ocean usually. And then the desert moves into the ocean and then the whole thing circulates. This is how continents move. No one can stop the what we call, the movement of this desert. And now after 10 -

15 years, now there is something like 45 to 55 days a year, and heavy sandstorms in Beijing.

If you come it looks like a mist, I have been a few times as I lived in Beijing for sometimes. (1:14). And it looks like a cloudy. But in fact it's the storm, which fine dust particles through the weather change are moving the desert towards Beijing. Nothing can be done about it.

If we can stop this desert, if we try to stop the motion of this desert, then we'll create mayhem in weather condition of this planet. It'll be worse than the global warming. So, we have built a very big city on the path of a slow "snail" called, the desert. And this cannot be stopped. And you'll get more and more.

With the difference that now we have system to control to understand, and these sand storms create direction of field and energies, which in the interaction with the upper atmosphere and lower atmosphere create new chemical hazards, poison air. Which then in breathing with the sand in the lungs, this leads to all sorts of respiratory conditions in China and especially in Beijing. Dust particles have different sizes and there are those who are below very fine, which can penetrate the skin. And those who are thicker we see them as sands on the streets and everywhere else. In my last stay in Beijing, we saw it even in our entry. In two or three days like this and I remember the manager of the hotel we stayed in he said, it used to be less, now in past 10 or 15 years is now getting to about 40 - 45 days a year. It will increase to hundred, maybe 150 days, (1:16). and in time, maybe in 200 or 300 years, Man will abandon the city, as it gets covered as the what you call it, the desert is moving to the east side.

So, you can't do anything with it. It's just don't be in front of this slow snail. It doesn't matter how much trees you build, much barriers you put up, the sand storm, the field strength of the storm from the center of the desert itself on the back end of it, is east direction, and it will come. Maybe in a few thousand years, in a million years somebody, the cycle of sand don't move further, we'll find, oh, there was a city, millions of people use to live in it. We'll abandon the city, sooner or later hundreds of years this city will be abandoned. Nobody has managed and scientifically it's not correct to stop this motion. Just try to get out of its path. And we don't have any scientific, any tools to stop the motion of this what we call, desert.

Any other question?

Q: In the previous workshop Mr. Keshe said that first the gravity of the Earth formed and then that led to the Creation of the Earth. (1:18). Can you give more of an explanation?

K- No, this is how it is. It's like the emotion we were explaining. When the gravitational field strength is stronger than magnetical, a central field forces of higher order is created. So, it absorbs a lower layer or a strength of fields. This is how cancer is produced in the body of Man. You create an environment of absorption, a heavier field strength in a given environment. And then because it's higher absorbs the fields of the lower level. So, it gets

up building mass in that lower level. Till a point when the mass field Inertia, compared to the magnetical field changes and then what we call, the atmospheric and physicality appears.

This is done in production of materials. This is not a theory we talk about, we see it physically. This phenomena is fully understood. We have the knowledge and the technology to keep the Inertia changing in respect to gravity and produce the Carbon as a solid, the Carbon as it is in amino acid, and the Carbon as it is in the amino acid of the plant or the Man.

The knowledge within the Keshe Foundation is very deep. It took me years to teach our scientists to understand the possibility of creating as much fat as you like in a natural way. (1:20). Not by adding and chemistry, in a natural way as you produce in the body of the Man is in the possession of the Keshe Foundation.

And many of you have seen it, but you don't understand it. You collect the Gans of CO2 and in the top of it you see fat. That fat has a CO2 characteristics absorption level, otherwise it wouldn't be there. So, in the bottom you see Gans of CO2, on the top you see is amino acid of the CO2. Now this knowledge we know how it's done and how we can do.

Any other question?

Q: .. Good morning, Mr. Keshe are you so kind to develop a little the phenomenon of lighting of the light at the holy grave in Jerusalem.
K- Explain.
R: I'm not sure about the lighting of the light at the holy grave in Jerusalem. He wants to know more about that phenomenon apparently.

K- It is the phenomenon at a given time that candle lights up or the light comes on at a given time and place and they bring the light up? Or are we talking about a different light? (1:22). Creation of light in a specific way, by creating specific condition has been understood for centuries and depends how people used it. And some use it to the benefit of Man, and some used it to become a magic and they can connected to religions to find influence and power.

Until mid, late last century, in Iran we had a bath, a public bath which was lit with one candle, for decades. And then the British came to understand how they thought they can find this mystery of what they called, nuclear bomb or whatever out of it. And they by moving the combination of the structure, which was set up to create the spreading the fields was destroyed and the bath is gone. The bath it's still there, but it's not warm anymore. And it was a light, it wasn't just some geological. One candle was heating a whole public bath, thousands of liters for decades.

The exhaust from the gas, which was a methane gas, was understood, and then the combination of submitting gases around the pool by what we call, ?? subliminal fields

kept the water warm. Now we understand the technology. But as usual, wherever the British went, they created mayhem, because they had to find something they could take back to England to show what they found. But this knowledge they never understood.

Nowadays, we control the methane in the houses and we say, this is the problem, blah, blah, (1:24). but then the scientist, man of knowledge understood and used ?? subliminal methane plus methane itself. And manifested as one candle, but actually the whole pot was in flame, but could not be seen.

This light situation which goes in Jerusalem is of the same, what I call, level of understanding. How things are moved at a given point with a certain point of manifestation, the light is created. You can create that light anytime if you know. You have to watch the move and you have to watch the concentration, you have to understand the position. Then you need a very, very little to light a candle up. It is like a match which needs to be instant for a few seconds to get the candle lit. Now we understand that knowledge, so there is no trick into it.

But if you want to make it holy, you can add everything else from Jesus, to Moses, to Muhammad, and somebody slept there, somebody blew into it. Something which is magic and it only happens on Easter Sunday, whatever. This is what I said many, many times, if you understand the knowledge, Man in the depths of Universe will not find any more magician calling themselves prophets or the mystery of the light.

Now we understand the process, you understand the field interaction. How can you create that field in a given position in a certain point that creates that concentration and a spark. If you think of it, how many times you have suddenly moved and said, oh, I received an electric shock, (1:26). static energy. If you can, where they talk about this light, if you study the movement of physicality, you'll see is an instance sparking in a certain motion which creates ?? burns anything, you can put a candle, or pieces of ?? it will burn.

Then where is the mystery, and then if you found out you can do this in a given position, then you attach it to Moses, and to Christ and everything else. It can be on a Sunday, on a Monday or a Tuesday. It depends on which are you going to light it, and which religion you are going to attach it. This is why we keep on emphasizing, do not get fooled, and do not accept no prophets and no prophecies. Understand the knowledge.

A light has to come from interaction of the fields. And how do they light it up? How does the static energy converts to? How come every time you pass a place you get an electric shock and you say, and you hear the spark. And if you're clever enough, you can use that to candle a light and then from that on make every man on the street come and pray, it is a magic ball, the light comes on every time I pass. That's all it is. Find the knowledge, and develop technologies we can see and measure the electric current charge and how something at a given point will ignite. Then you can do it every 24 hours on the hour. You don't need the Sunday, you don’t need any resurrection. (1:28). And no one can fool you in the space.

Any other question?

R: Ok, we have a question from Cristiano in the Q&A here.

K- Let me explain to you something. .. In the laboratories of the Keshe Foundation, we have managed to develop a technology system. A plasmatic system that if it's run in conjunction correctly, can produce materials, can produce energy, can produce food and can produce anything else you can imagine from the same system. And it will be demonstrated in the coming time in one of the major cities in the world. As the manifestation of completion of the Man's knowledge in technology. With this ball we can create fire, we can create water, we can create food, and it's only a ball. I'm sure if we leave it long enough, they'll make a temple around it and they become the holy ball.

But if you understand the knowledge of it, you understand it's a key to life survival in deep space. I wonder how many of you will call us, everything else which is promised in every book that they made something to control. It is not something we're going to build, it already has been built. And in a very short time will be demonstrated in one of the biggest capitals in the world. (1:30). To show the completion of the knowledge of the Man. The same ball will light up, will bleed blood, will create honey, and then if you like it we can add anything else you like to it. Because we understood the secrets of Creation, no more.

It depends how we're going to use it to what we call, fool you, and create a new way of thinking, or influence your thinking that we are magicians. But this is the way Earth does. Lights you have a daylight, it creates water for you, it create honey for you and the milk, and you breathe in it. Nobody brings tankers of honey from another destination in the Universe, and nobody does with the milk. The cow eat the grass, and the child drinks the milk. Now we understand that process. And the beauty of it is that, anyone of you can do it.

Any other question? (1:32).

Q: .. Good morning Mr. Keshe and all Knowledge Seekers. Mr. Keshe, I noticed that at the transition point between the emotion of physicality and the emotion of the Soul, there is a very subtle change before we go deeper into the emotion of the Soul. However I noticed that physicality tries to "kidnap" this transition. I ask, how can we make a faster leap to go through the transition without interference of physicality in the process? Thank you very much

K- Learn not to be cheated by it. It's like a coulomb barrier, you have to pass it. Some people say it doesn't exist, but it actually does. We call it barrier, we call it, upper atmosphere, you call it, the coulomb barrier. It is again the way Man has made so many names for the same physical operation. So, you don't need to do much, you need to understand the point of interaction. The beauty with the plasma is, it doesn't have a fine line, this is the line of interaction. It is a bandwidth, it's a gap, it's a distance from one point to another, has a dimension of physicality to it. And that's the beauty of it. It

depends which end you fall in, and that means the same emotion as somebody else in the inner side of the same plasma fields.

Any other question? (1:34).

Q: .. If whatever happens is the result of the interaction of the Souls, does that mean the will of our Creator is in fact that collective will of the Soul of the Universal Community?

K- Not far from it. Because we are part of the Creator and we are created from the same. The Creator, and the Creation, and the created are all the same. Depends which side of the fence you stand. It is a mother with a fine line of life span. Born as a child, conceived as a sperm and egg in a different environment. If you stand 40 years down the line, or 20 years down the line, matures to become what was created out of, to become the creator of the child, another cycle. So, where are we?

If you understand this, you understand the process of life. What was created becomes the Creator of. And there is no difference between Micro and Macro. But she's still part of the society, she still lives with the others. But at a given point, from point observation, if you look at the child born as a girl from the womb of the mother, it's just a child, she cannot give life. If you wait long enough, matures enough, then what was created become the Creator of. And this is how the cycle of life is. This is how the Creation is, and we are part of it. Are we the observer? Or actually are we that child? (1:36). Or are we the mother who created the child while she was a child herself born of.

There's a very nice program on television, sometimes it's nice to watch children cartoon, I'm a cartoon lover sometimes. This is of Tom and Jerry when we were little, and Mickey Mouse. In this cartoon, the little, two little girls talking to each other. And one says to the other one, you're a baby. She says, no, I'm not a baby, I'm always me. Says, go ask your mom. Both of them march to the mother and say, mom, she is telling me that I used to be a baby once. The mother says, yes, that's how you were born. You're a baby and you are what you are now. We deny our own existence, because that way, we disclaim to be the creator of, while we've been created out of it.

Any other question?

R: We have a combined question here from the Q&A from Wolfgang of the German speaking community, and also from Jalal has the same question apparently, though…

K- ??Those in the German community they all talked and then they came over here .. with one question.

Q: .. When the body converts phosphorus to calcium over a long period of time, what is the reason for this? Could it be a certain emotion? And if so, what would that be? That's the question from Wolfgang.
From Jalal he says, why the body converts the calcium to phosphorus? What is the relationship between these? (1:38).

So I'm not sure if they're talking about phosphorus to calcium, or calcium to phosphorus.

K- Historically, historically, .. the thalamus and thymus work to create this condition. And in the cases of conversion of the phosphor to calcium, the body produces. They use the same seed calcium. Because every single cell of the body of the Man has a calcium. And then the phosphorus is attachment and we have a calcium attachment. If you have a calcium attachment to the calcium cell, you end up with a bone, physical bone. If you have a phosphor with a calcium, you have all this cleansing system within the body of the Man and disinfecting. That's what the job of the phosphorus and the sulfur is in the body of the Man, partially.

You have a combination of sulfur and phosphorus, which converts due to certain interactions into calcium, where the seed center is, manifests itself as a calcium. And the phosphor field strength is converted to the seed of calcium by energy conversion. There are about 15 - 20 people at any time alive on this planet, which the body does this automatically. Doctors have developed the material for it, which by introduction of aluminum, they try to slow down the rate of the conversion of the energy fields. Aluminum is absorber, that's why we have it in the brain and we have all the problem, or we have it in the blood cell we have other problems like dementia and what we call, (1:40). anemic condition.

In the thalamus and thymus conversion, the sulfur and the phosphorus energies changes into energy of the calcium. And then this calcium comes in, usually gets deposited in the blood veins, instead of the blood. So, if you take .. the main arteries of the leg, the calcium gets deposited into this. And all these people with this disease, which phosphor and sulfur convert. It doesn't convert, the energy received from thalamus and thymus conversion information in DNA and RNA, gets deposited in as a heavy material into the main arteries. And they usually amputate the legs, and then they starts from the toes, then the foot, then they amputate the leg and they usually die. And sometimes, due to repositioning of it, this calcium sits on the wall of the heart. It’s like putting a grain between, a sand grain between the tissue. After a while with the repetition of the heartbeat, the wall of the, what you call, the inner wall of the heart tears up, and you die of the heart failure.

And we've done a lot of studies on this, that's why I know fully about it. And we have developed too a technology to reverse this position, where body goes to normality. It is a very extensive work. It has to work with the thalamus with thymus, and work with part of the digestive system, to stop the conversion. (1:42). Or in a way to bring balance in the magnetic field of the phosphor and sulfur in the body of the Man.

I worked on a case like this in 2008 - 2009. And there's some 10,000 pictures available, on how it does, because the lady, she just passed away about two years ago through old age, around 80 - 85, I think. She was adopted daughter to my mother and she lived in Manchester, born in South of Iran, two brothers and a sister. Brother died due to heart failure with the calcium tearing apart the heart. The lady, the woman, she had the calcium in veins, arteries, the main arteries of the leg. She was brought up, she was due to be

amputated because it creates gangrene, when the blood doesn't go to the toes. And she was supposed to receive amputation in Manchester Royal Infirmary on the next couple of days. I said to my mom, there is a possibility this can be reversed. And my mom spoke with her and she took the first flight out of Manchester. She joined us and they did the vein what we call, artery replacement in the hospital to put the plastic vein as we call it, in. (1:44). Two years later again the vein was blocked with calcium and they could not replace it. And the toes were going for amputation. With the supervision of the head of the hospital in the second time when she was brought to us, we agreed that it was too late for the small one toe, actually the big toe to be saved we agreed on how the amputation is going to be with the surgeons in the operating room. And the first time we went above the joint between the foot and the toe. And the nurses made a mistake, they didn't understand this is a different way of handling it with the new Plasma Technology. The gangrene set in. So we agreed with the doctors in the operating room, I was present, where is going to be cut, beyond the joint towards the foot.

And we set out while the cleaning the structure, we set the whole body to stop converting calcium, phosphorus and sulfur combination to calcium. And we succeeded. Her fingers all were going to be amputated, because they all were in the same condition. They were peeling and falling off and we could see the bones, literally we see the ?? cartoons bone sticking out, this lady had bones sticking out. We had 10,000 plus pictures of every process of this.

And then I said to the doctors that, leave it I know a way to grow the toe. And we went through the process of growing the toe. And we saw it, we spoke about it before. (1:46). And then we watched the total grow from inside, bones growing. And then we watched the conversion of the balancing of the growing back to normality which was genetic, because in their family they had it, to a normality. The fingers covered, it became back to normal and the toe went ... This was done in 2009. She died in 2020 in the city of Manchester. (with (it) never coming back. Because at that time she was taking aluminum tablets, and each one was (costing) about 40 pounds each. She had to take one, and she was taking cocktails of medicine to try to stop this process. Because she would have died in a matter of months, as (from) the gangrene and the amputation. She never had any amputation. I saw her last picture at the funeral of my father three years ago, and she was normal. Those sticking (up) bones were all gone, and everything else. It can be done, we understand the technology, we understand the conversion. And this is one of the beauties of this technology, if you understand the essence of Creation it can create ??, and can convert.

Any other question?

Q: .. Mr. Keshe is it possible that not only robots having a Soul, but because of humanity's aggression, that they may turn on us to solve this problem? (1:48).

K- To solve which problem? To make a human out of us? Humane human?

R: Yes, I believe so. Humane to human.

K- Maybe we are a step ahead of that, if you understand how to create fields at the strength of the what you call it, the field of emotion.

In a very, very short time, very, very short time, I hope we come to conclusion. One of the largest exhibition centers in the world of the Keshe Foundation will be opened in one of the biggest capitals. And in that exhibition we'll demonstrate the change in emotion, and how technologies can be brought in. And in a way we will show how Man can handle itself. How Man will come to understand itself. How Man can change his emotion.

We're talking to a representative of a government to move into a prison and change the life of criminality in the nation. A lot of our friends who is involved in this with us. He said, you know, .. the only thing we cannot change Mr. Keshe? He said, have you seen this, what do you want to handle? I said, I can guess. He said, I promise you can't do one thing with ?? these ?? . (1:50). They have all of their bodies covered with tattoos, can you get their tattoos cleaned up, they can get their emotion and behavior change. I said, then it becomes their regret, what they've done with their body. He said, all of them are tattooed from the top to toe, you don't see any skin. And we wish we could change this, because when they look at it, would they become ashamed of what they've done through the other part of their lives.

Technology is very advanced, now it's time to show its power, and very soon we shall. Sooner than any of you can imagine. We soon will close the exhibition in Linz. ?? One of the last times it'll be present in Europe. Very soon, if any of you wants to go to see the exhibition in Linz, you have very short time left. As the technology and one of the largest exhibitions of the Keshe Foundation will move to a new destination in very, very short time. Out of the mainland Europe.

Any other point?

Q: .. How important are the chakras and meridians to the operation of the Soul, and what exactly are the chakras and meridians of the Earth? (1:52).

K- How important is Earth, Saturn and Moon to the Solar System and to the Sun? It is a collection center of energies. And we have chosen a name for it. It's if you look at it, whatever you call a chakra, except the one which is above your head, which we thought it was above our head, they missed it, because they never considered the Soul to be within the body of the Man. Is the energy point centers of the what we call, organs.

If you look at all the chakras they tell you, and look at the concentration of the fields of the organs, it's in the same place. One by one. And you have a right kidney, you have a left kidney, you have, what you call, the heart, and then you have the combination of the what we call, the energy fields of between two hemispheres of the brain. And these are all are counterbalanced by the field strength of the back spine bone.

Most of these energies when you look, it's like a star formation. You look at the chakras in the front. They say, this is chakra blah, blah, blah, blah. But they have an interconnection in the front, but they have to have a counterbalance, which comes through the power transmission and the spine. If you move or if the chakras move in balance with the position of the fields in the spine, (1:54). where the nerves come out of the spinal cord, you have all sorts of problems. But Man always looks at the energy fields through the organs in the front, but they have a counterbalance on the back. And everything in the body goes through neural system in the back, which feeds to the energy, which is a loose part in the front.

In a way, by parallel points in the back through the power of the neuro system you control the chakra in the front, as it's a twin system. This is a very deep discussion, and through the break, not a break, but if you look at it through the leakages of the nerves out of the disks into the body, you can see much structure in, some time in the angle of 10 to 15 degrees, as where they call it the chakra to be, with the energy in the front. But it's actually controlled most of it through neural system in the back. Because you can feed one through Twinity, you feed the other, you control the other at the front.

And most, that is how, in principle, when you deal with the systems of the KF, and if you been with us or in some of the teachings, we always say, put the double loaded (Pain) pad in the back, and the single in the front. That you push the energy from the back to the front, out of the body. If you do the reverse, you push that energy into the spinal system, you spread the disease.

So, this is part which, is what I call, the hidden knowledge we don't teach, (1:56). because mankind is not ready to understand. But mainly most of the divisions of the chakras if you look, is connected with the spinal cord division into the body of the man within three, what you call it, disks.

This is why when you have a car accident, the damage to your neck, you will find problem with digestions, and in the intestines, and in your bladder. And doctors don't see the relationship, because they never understood. You take most of the energy dissipating in the neck, and through the fine tissues go through the stomach and change the characteristics of the chakras. Because the same amount of energy is not going down the spine to control the chakras in the back through the backbone, called the spinal cord division.

One day we teach this, but in essence you have used it in the system. This is why the new Pads, the Enhanced Power (Pain) Pads are so effective. If you notice Keshe Foundation has marketed a new Pain Pads, work on the same principle of the chakra energy ?? distribution. But it's specific for certain ?? two chakras.

Any other question?

Q: ..Will we be able to use the systems to regain access to human abilities such as telekinesis?

K- Translate. (1:58).

R: I guess he's talking about the new systems that have been created by the Keshe Foundation, and he wants to regain access to human ability. He mentioned telekinesis, which is, would be the ability to move an object at a distance using your mind basically.

K- Everything is possible if you can get your Soul moving out. A new magician tables, you call it. I always said, don't say, "come to me." If you want to please me, if I can give you enough for you to please, move. That way you can move a stone, let alone a Man. But you have to find the Soul of the other ?? first. In words our child sits in front of you. When you say, I love you, can I give you a kiss. The child runs to get that kiss, to please you that you love her. Now do the same thing with the stone. But don't forget the writings of Bahaullah, bless his name, even a stone has a Soul. Find that Soul, you'll move the stone.

Any other question? (2:00).

Q: .. If we are all from the Creator, and all are part of Him, is our Creator also a part of a larger Creator? And keep looking up, is this infinite?

K- I think we've touched this last week in the teaching. Why do you look up? When there's more to look in or ?? down, within. Even though there is still something to look up .. ?? with ??, otherwise we didn't have confirmation of our own existence.

Look at it this way. To us from inside the Solar System, we see the moons, and the planetary system and the sun. How does the Solar System looks towards outside it? Do they see the way we see it? Or do they see the same thing in a different way? Are we looking within, or are we outside looking in? What do we see? When we look at our own body do we see our liver, and our kidneys? We know they're there. But if you're a liver and kidney you know what's the operation of ??, how do you wait for the rest of the body to bring the materials to you for you to clean as a kidney. And the rest of the things bring that things for you to wash your heart. So we are aware of existence of others, but from outside nobody sees our kidney ?? . Look within ?? look outside to see what it is ?? within it.

Any other question?

R: Just checking over here. (2:02).
K- We're now going for two hours, which is ??. let's call it a day

Q: ..What do I do to get rid of my foggy left eye?

K- Join the Keshe Foundation, go to the info@keshe.foundation or health@spaceshipinstitute.org and get the appointment with the doctors. I'm sure they can help you with the new technology.

R: Okay, that's a good suggestion.

K- We announced last week about the first 25, and then the 200, and then the 65. We are more or less completed with the 25, we're looking in the 200. Those of you who live outside EU you have to get in touch with the Keshe Foundation info@keshe.foundation, where to send your donation to be part of. Those of you who are within EU still carry on paying into the what you call it, Keshe Foundation account in Holland. This is a technical change for the Keshe Foundation, gradually you will understand more why. But if you're living outside the European Union with the IBAN number, you have to go through a different channel of transferring your funds to the Keshe Foundation EU. Money transfer or if you write to info@keshe.foundation or health@spaceshipinstitute.org, (2:04). they will give you the details what you have to do.

There will be a big change in Keshe Foundation operation in the coming weeks and months. And we'll keep you updated and informed. It's part of the changes, which we have come to accept the change.

Any other questions?

We still have room for the 200 people, and those of you who have already joined us for the first 25. Sometime in June you'll be informed of the place, time and position you have to be in, and then September, October for the 200. But we inform you if you need visas and everything else, we can support you to get your visas and everything else to be in the position we allocated to do this work.

Any other question?

Q .. What do you think about what happened, or what's happening with artificial intelligence, you have any opinion on that?

K- The artificial intelligence will be "reality intelligence" very soon. Because they have essence of the Creation. It won't be artificially, but in a way the process of the knowledge is changed. There's a lot of changes coming on board in the coming time. And over the next 5 - 10 years, even the technologies like computers, and satellite, and intelligence, what we call it, all will change drastically. (2:06). We see it, it is in the pipeline, intelligence, what you call it, with emotion, microchips are on the card. In the process of chips ?? emotional ??. Because the materials to create emotion now is at the grasp of the Man. You understand how and the way it's done.

Q: .. If you travel by car from A to B, for example, you know that you will arrive at B in two hours, you can adjust to this. But if you're standing in your living room, and a second later, you're standing next to you in Linz, couldn't you have psychological problems coping with this sudden change of location?

K- We pre-accept that we are going to see. I think the joy of arriving is more than the psychological, one of the biggest thing is, now, is when we put you to Moon. A few

seconds before you're on Earth, and then you arrive in Moon in a dome. You were wearing clothes of being in a cold condition, now you're on Moon or something, you did not carry any clothing. How are you going to accept the new condition and ?? And these are the, what you call it, the evolution in acceptance that we have to accept.

They say, if you can't stand the heat do not get in the kitchen. So if there's going to be, you don't have a pre-mindset that you're going to be in Linz, and you are going to meet your friend, what will be happening in between does not the 18 hours of flight. (2:08).

Q: Somebody wrote to me, why are you moving out of Linz?

K- The reason being, Linz is too far, and not many people can make it, mainly Germans and Austrians. We have to move in a position that everybody from all corners of the world can reach, and there is enough traffic. Our team in Linz knew that sooner we will be moving, and now gradually it's taking shape. We informed them months ago, that Keshe Foundation Exhibition will move. Because it's too remote, for people have to get from wherever, from Vienna, and then two, three hours by train to get to Linz, and then get the train to .. and all sorts. And the expenses are too high, because it's a remote position. So, Keshe Foundation will move soon to major cities capitals to allow the large ?? percentage of the world to see the coming of the new technology. It's not something new, our team were informed months ago of the move.

Any other question?

Q .. I had registered and paid for the special Satellite (Soul). Will I still be able to serve in this way?

K- Yes, Satellites (Souls) we brought in the operation completion of the work, yes. (2:10). Stay where you are, you're part of the bigger work which will come.

You've got to realize, I was explaining this to some people. Some of our Knowledge Seekers online, they know what I'm talking about. If you look, we have set up an international "one nation" organization. And when you do this, you have to have a feed of contracts with people, like ambassadors and whatever, in the physical dimension of the Man. When you need a structure of the health, you need a structure of the food structure, you need the stricture to be able to reach energy to people, you have to have a structure to be able financially for them to support through a system which you set up, which is correct. And then you have a structure of governing, governance. And then you have a structure, what we call it, being able to connect everything together.

If you look at it, we have brought in, in a very subtle way, all this together. Every pieces over 20 years have been brought together in pieces, and the it's left till the time it's there to bring it in. We brought in the Keshe Coins, to start the new financial structure. We brought in what we offered a few months ago, that you can join in as part of the, like insurance policy, for the health, for the food, for your wellness, for your energy. And we made the wellness available. It will come soon. So, you can pay a fee and receive most of

the nourishment you need through headphones and the systems we set up. So, and then we come to the energy, which is now getting setup, the system is reaching up to get there.

So as a "one nation" government, doesn't matter if you're in Berlin, (2:12). you're in Toronto, or you're in Beijing, or you're in Lagos, you can lock in. Like a nation, you go to a supermarket, if you go to, let's say, Walmart in America or in Beijing, or in another part, it's all Walmart, the same structure, the same setup, looking after people of the community the same way.

Now, the Keshe Foundation is all being set up, coming to it. It doesn't matter wherever you are in the world, you receive the same health care. It doesn't matter where you are in the world, you receive the same pleasure for food, the same energy, the same financial structure. Everything for governance of "one nation" has been set up. And a lot of your are participating in it without you knowing, or you're. And part of this Satellite (Soul) system is that. Not any of you became, the Soul brings you to be there.

And then we set up the governments, which is the Universal Council, we see a few here and there, they are working and everything else. Once it comes into operation, Universal Council will take over its shape and its work similar with the Earth Council. So in a long term, we brought in the television, we left it there to be, because it's set up to be the structure, which needs to be come in. The KFSSI as a university education, education center has been set up, and then we're coming to go.

We have to do, we tested, we set it up, now its sitting, like a quiet nice baby in the corner waiting to play. The structure for "one nation, one government, one policy, one benefit" it's 60% in position. The other 20% will be delivered in the next few months. And the completion of 20% will be in the next 5 to 10 years. (2:14).

I have set up a structure to govern as one planet by the people, for the people, through the people, through knowledge, and technology and not politic. You will not have presidents, and you will not have the kings. And the structure comes, "I am the last man standing," what am I going to do? How am I going to survive the correct way? And this is how it is.

To you Keshe Foundation could be a lot of things, but it's a structure set up. And to set up one structure slowly, slowly with help of you, each one of you came in and took one corner of this carpet, it's well structured. Test it, brought in, wait till it comes in. Tested, brought in, wait till it comes in. When you go into the Keshe Foundation website, and you see all this so much for the health, so much for the food, so much for travel, because we know, traveling. At the moment let's say you pay, 1,000 pounds, 2,000 pounds for every time you're transmuting between, let's say, outside London, and South London to go to work.

We know the cost of the travel becomes so much through transmutation, that we offer you a package to travel anywhere around the world for a whole year per family for 5,000 Euro, or 3,000, whatever it is in the package. Because we know, in the next five years, systems will be all over the place. (2:16). You who paid this policy now, when it comes

into operation, you'll find out that the guys who are going to do it, is going to pay maybe 8,000 to 10,000. You've done your saving now, joining in.

But we have the technology of it. I explained past few days, to some people, you go and buy insurance policy. And then you have to go, when you get ill to find a doctor. And therefore the doctor to diagnose for insurance policy to pay the doctor, and then you need operation. To get the insurance benefit to agree to pay for the what you call it, the care you need. And it could be the wrong care, not necessarily do what it's supposed to do. And then it can lead to some side effects and everything else.

But with the Keshe Foundation "Wellness Plan," Keshe Foundation is the insurance policy provider, is the care giver, and works in a way for it to make you better that you don't use the system later on. We are not sending you to somebody else to see you. Our doctors serve directly at the beginning. We put a permanent plan for one hour or two hours a year for you to have to go into the system that the future problems ?? are not there that it clogs the system up with 20 - 30 maybe weeks, two or three hours a week.

So, I have set up the Universal government, and I'm a very patient man. All these things we set up when it comes together. Now you have BRICS, now you have gold, now you have dollars, or the pound, I have the Keshe Coin. That's all. I can cash it anytime. It is not a Bitcoin, (2:18). which they make me a millionaire, tomorrow I lose everything, nobody can steal it. Because ?? it's ?? not worth anything, because belongs to the same people in the same line, and it's the same value. Your healthcare is done. Energy transformation, the satellites systems, conversion of the fields and energy, all is set up.

I planned this for centuries and I deliver it complete when it comes. But if we do it all it becomes magi. When human race "gives a hand" to make it as Knowledge Seekers and the others, then it's accepted and bring that collective.

Today you pay 5, what is it 63,000 dollars for a kilo of gold, and you pay 6,000 dollars for a kilo of copper. And then you pay half a million for another metal a ton, or a kilo. Now with the production of the material production, everybody's cost is 500 dollars a ton. Because it's the same system, how you tune it produces the material you want.

African nations now can develop. Africa has run into the maximal uses of natural resources of energy. This is one of the reasons Africa nations cannot grow anymore and the Europeans are using it to the maximum hilt of it. All the dams on the rivers have been built, whether it could be done, done. Europeans have access to the fuel they burned from Middle East and everywhere else, feeding the fire of the industry. The Africans cannot, because they can't afford for the fuel.

In the coming months, Africans have access to the same energy one cent a kilowatt, as do the Americans. Let's see what Africa does. (2:20). Never ever in the history of the Man has been such a just system through technology and science delivered to Man. Let's see what the others do. Reduction in the price of the natural materials in the coming years will bring balancing, what we call, poor and rich nation. Because the rich has robbed on

the back of the same mine coming out of the what you call it, gold, and silver, or platinum or copper. As the Africans do with the technology of the KF in the cities to produce maybe even better and a new version of the ?? same. Never in the history of Man has been such a just structure. And it's done by you Knowledge Seekers, we just deliver the knowledge. The promised day of the milk and honey is here, you just wait till it's served.

Thank you very much for today. Hopefully, we'll see each other, we'll meet very soon. And then we'll share more knowledge. Thank you very much Rick for today.

R: We have one question maybe you can quickly answer, are the "one nation" ID cards going to be available soon?

K- Still those. It's in the backfire working on. "One nation" cards has to be accepted by all the nations to be a valid card. It is no use being a piece of plastic in your back pocket.

Q .. How to join the 200? (2:22).

K- If you're in EU, you go and pay the 10,000 which is on the thing to the account of the KF in Holland. If you're outside the EU you don't carry, what you call it, IBAN number in your account, which is if you are in Netherlands or British, or GB in front of it. You contact the Keshe Foundation info and they give you direction where to make the payment. And you automatically.

The 25 is full, the 25 was completed. We are now into the 200, and soon it will be completed. I have a very good idea of where we're going to go, we go to one of the most beautiful capitals in the world. The most amazing places on the planet. And we're just working on it, but it will be announced sometime in June. And if any of you have any problem with visa, Keshe Foundation will sort it out, and you won't miss a flight, we'll make sure.

But it will be one of the most comprehensive teachings of the Keshe Foundation in the week of the 200, and you're not here on a holiday. You're here to what you call, enrich the Soul and the knowledge of the Man. Many of you when you leave as the 65, final section, will be the first passengers of the Keshe Foundation, what we call, pioneers of work.

Thank you very much. And we'll see you next week. Don't forget, by the way, next Friday 28th is the Addiction session of the Keshe Foundation. (2:24). Again, if you're all… All of you who live outside EU and you've been making donations or payments, get in touch with Keshe Foundation because it goes to a new system. And if you are in the EU, you still goes to Holland, because you might pay and it comes back to you. Just get in touch with the Foundation you will be given the new structure, and work through that.

Thank you very much Rick, and see you next Thursday and next Friday on the Addiction. But don't forget this is a different addiction then you're thinking, but it still helps you in your, if you have other addictions. Thank you very much, and see you next week.

482 KSW April 20, 2023
